

## DRAFT BYE-LAWS IN CONNECTION WITH CITY'S ROAD OBSTRUCTION

*In exercise of the powers conferred under Section 527 of the Calcutta Municipal Act, 1951 (West Bengal Act XXXIII of 1951), the Corporation of Calcutta by its resolution dated the 14th November, 1956, approved of the following draft bye-laws framed under Section 527(17) of the said Act, prohibiting or regulating the placing of obstructions, projections or encroachments, or the depositing of materials or goods, in a public street or in or over any drain or aqueduct in a public street or any land vested in the Corporation.*

*The draft bye-laws are hereby published in compliance with Section 530(a) of the Calcutta Municipal Act, 1951, and will be taken into consideration on or after the 26th January, 1957, and any objection or suggestion with respect thereto which may be received by the Commissioner on or before that date, shall be considered.*

1. These bye-laws shall apply to obstructions, projections or encroachments upon, or over, on or underneath a public street or in or over any drain or aqueduct in a public street or on any land belonging to and/or vested in the Corporation other than those referred to in Rule 3, Schedule XV of the Calcutta Municipal Act, 1951.

2. For the purpose of these bye-laws :—

(i) a permanent encroachment shall mean a fitting, fixture, projection or other thing attached to a building or premises or any portion thereof which causes or is likely to cause a projection, encroachment or obstruction of a public street, and which does not come within the purview of Rule 3, Schedule XV of the Calcutta Municipal Act, 1951. The decision of the Commissioner as to whether a projection, encroachment or obstruction comes within the purview of the said Schedule shall be final ;

(ii) a temporary encroachment shall mean a projection, encroachment or obstruction which is not a permanent encroachment as defined in the preceding clause and is made on a special occasion for a specific purpose and for a specified time ;

(iii) a prohibited street shall mean a street in respect whereof a notification has been issued by the Commissioner under Clause (a) of Bye-law 3.

3. The Commissioner may, by public notice in terms of Sec. 381 of the Act, 27.9.56  
ACCN. NO. 1000

(a) prohibit the erection of an awning, shade, purdah (screen) or like projection or encroachment on the frontage of a building or premises in any street or in any portion thereof ;

(b) regulate the erection, fixation or retention of an awning shade, purdah (screen) or like projection or encroachment on the frontage of a building or premises in non-prohibited streets.

4. No person shall put up an awning, shade, projection or purdah (screen) or the like to project over or encroach upon—

(a) a prohibited street ;

(b) any street which is less than sixteen feet in width ;

(c) any other street without the previous written permission of the Commissioner.

5. The owner or occupier of a building or premises abutting on a prohibited street shall remove at his own cost any awning, shade, purdah (screen) or like projection on or over the prohibited street within a month from the date of service of a notice upon him in this behalf, failing which the Commissioner may himself remove or cause to be removed such awning, shade, purdah (screen) or projection and charge the owner and/or occupier the cost of such removal.

6. Subject to the provisions of bye-laws 4 and 7, the Commissioner may give written permission, on such conditions as are laid down in these bye-laws and also on such other conditions as he may prescribe from time to time in this behalf and on payment of charges payable in advance at such rates as may from time to time be prescribed by the Corporation, to owners or occupiers of buildings or premises abutting on any street to put up awnings, shades, purdahs (screens) and the like to project over or encroach upon such street.

Provided that on the breach of any such condition, the Commissioner may by written notice require the owner or occupier of the said building or premises to comply with such condition within a specified time and in default of compliance therewith, the Commissioner may himself remove or cause to be removed such awning, shade, purdah (screen) and the like and charge the owner or occupier the cost of such removal.

7. No awning, shade, purdah (screen) or other similar projection projecting over or encroaching upon a public street shall be allowed unless—

(i) the prescribed charges have been paid in advance for the period for which the written permission is sought ;

(ii) it is not in a prohibited street or a street less than sixteen feet in width ;

(iii) there is a footpath or berm under it ;

(iv) it is over a door for the purpose of egress and ingress as distinct from a niche or recess in a wall or in the case of a shop or other place where any article is sold, show-room, godown, restaurant, hotel, it is over a door leading thereto or window therein for display of articles or things sold, there ;

(v) it is placed at a height of not less than 10 feet from the level of the foot-path under it ;

(vi) it is of a width not extending beyond half the width of the footpath under it, subject to a maximum width of 6 ft. from the line of the building ;

(vii) it conforms to the design to be approved by the Commissioner on submission of a proper sketch for the purpose ;

(viii) it is made of suitable materials approved by the Commissioner ;

(ix) it does not obstruct or interfere with the movement of the public along such footpath or berm underneath the same ; and

(x) it is so constructed and maintained as not to be dangerous to the public.

8. No article, goods, merchandise or sign-board hoarding shall be displayed on or hung up for the purpose of display from an awning, shade, purdah (screen) or other projection permitted under these laws.

Provided that the Commissioner may in special circumstances to be recorded in writing grant permission in writing to display or hang up for the purpose of display new articles, goods or merchandise from or under an awning, shade, purdah (screen) or other projection so as not to interfere with the free movement of foot traffic in any way whatsoever underneath the same.

9. Notwithstanding any thing herein contained no article, goods or merchandise or show-case or other furniture whatsoever shall be placed on or over the ground space or pavement, underneath an awning, shade or purdah (screen) or otherwise kept in any manner or form to project beyond the building line and so as to interfere with the free movement of foot-traffic in any way whatsoever.

10. An awning, shade, purdah (screen) or other projection if permitted shall always be kept and maintained in a secure, neat and tidy condition.

Provided that the Commissioner may at any time call upon the owner or occupier of any building or premises to whom permission has been granted under these bye-laws to keep an awning, shade, purdah (screen) or other projection to maintain same in a

secure, neat and tidy condition and in default of compliance with such notice the Commissioner may require the defaulting party to remove the same at his own cost and in default thereof the Commissioner may at the expense of the party remove the same or cause the same to be removed.

11. (i) Every person having a shop or stall abutting on a public street shall provide within it sufficient accommodation or space for his customers to get in and make purchases inside the shop or stall.

(ii) No person having such shop or stall abutting on a public street shall entertain or sell anything to any customer while standing on such street or the footpath appertaining thereto.

12. No person shall without previously obtaining written permission for a specific period from the Commissioner on payment of such charges as may be prescribed from time to time by the Corporation—

(a) deposit or cause to be deposited any building materials or put any fence pole or plank for the protection of the same in, over or on any public street or drain or aqueduct or on any land vested in and/or belonging to the Corporation ;

(b) place or leave or cause to be placed or left any material or thing such as earth, furniture, wares, merchandise, bale, bag, lamp, cask, tub, basket, pail, bucket, grain, timber (in the form of a log or scantling) scrap metal, goods, standing place, stool, bench, chair, chowki, stall, show-board ;

(c) place, hang up or otherwise expose for sale any goods, wares, merchandise, fruits, vegetables, matter or other articles whatsoever, in or on any public street, drain or aqueduct or on any land vested in the Corporation ; and

(d) erect any gate or archway over or upon any public street or on any land vested in the Corporation.

13. No person shall without or otherwise than in conformity with the terms or the written permission granted by the Commissioner in this behalf place any line, cord, wire, pole or plank across, along or over any public street or hang or place anything thereon or erect any gate, archway, pandal or some such similar structure to be used on ceremonial occasion for a period not exceeding 5 days over or upon any public street or on any land vested in the Corporation.

14. Any person who causes any obstruction, projection or encroachment in a public street in the manner indicated in bye-laws 12 and 13 hereof under a written permission granted in that behalf shall cause the same to be properly protected and lighted during the night and shall take such other precautions to the satisfaction of the Commissioner as may be necessary to guard against accidents or danger.

15. No person shall ply his trade or vend or sell any material or thing or solicit in or upon any public street or within or outside any premises abutting thereon so as to obstruct or incommode the passage of any person over or along such street and/or the footpath appertaining thereto.

16. No person shall shoe or allow to be shod any horse, donkey, mule, bullock, buffalo or other four-footed animal upon any public street or any land vested in or belonging to the Corporation.

If any person is found to commit a breach of this bye-law the Commissioner or any other officer duly authorised by him in this behalf, may impound such horse, pony, donkey, mule, bullock, buffalo or other four-footed animal without prejudice to the penalty to which the owner thereof may be liable under these bye-laws.

17. No person shall wash any carriage, cart, motor car, bus, lorry, or other vehicles or any utensils, clothes or animal in or upon any public street or any land vested in or belonging to the Corporation.

If any person is found to commit a breach of this bye-law, such carriage, cart, motor car, bus, lorry or other vehicle or any utensils, clothes or animal may be impounded or taken possession of by the Commissioner, or any other officer duly authorised by him in this behalf, without prejudice to the penalty to which the owner thereof may be liable under these bye-laws.

18. No person shall tether or allow to be tethered or allow to stray any horse, pony, donkey, mule, bullock, bull, cow, calf, goat, sheep, buffalo or other animal in or upon any public street or any land vested in or belonging to the Corporation.

If any person is found to commit a breach of this bye-law the Commissioner or any other officer duly authorised by him in this behalf, may impound such horse, pony, donkey, mule, bullock, bull, cow, calf, goat, sheep, buffalo or other animal without prejudice to the penalty to which the owner thereof may be liable under these bye-laws.

19. No person shall leave a carriage, cart, motor car, bus, lorry or other vehicle on a footpath or berm appertaining to a public street or in a public street except for parking as may be permitted by the Police.

If any person is found to commit a breach of this bye-law such carriage, cart, motor car, bus, lorry or other vehicle may be seized and taken possession of by the order of the Commissioner without prejudice to the penalty to which the owner or licensee thereof may be liable under these bye-laws.

20. No written permission granted under these bye-laws shall continue beyond the financial year in which such permission is originally granted but may be renewable annually except in the case of temporary encroachment where the written permission shall be valid only for the specific purpose and for the specified period it is granted. The specified period may, in such case, however on written application be extended at the discretion of the Commissioner

Provided, however, that where a written permission is granted in the second half of a year, only half the fee will be charged for that year.

21. A written permission granted under these bye-laws may be revoked by the Commissioner at any time if any of its restrictions or conditions is infringed or on grounds of public necessity. In the event of such revocation of the written permission, the holder thereof shall not be entitled to any refund or remission of the fees paid or to be paid or to any compensation whatsoever nor shall such revocation be challenged in any Court of Law.

22. Every person to whom a written permission is granted under these bye-laws shall indemnify and keep the Corporation indemnified against all claims, damages, actions, suits, or legal proceedings which the Corporation may incur or be liable to in this behalf.

23. When any person has whether before or after the passing of these bye-laws, placed or allowed to be placed any structure, wall, fence, rail, post, platform, plank, culvert or other brick work or masonry construction, fitting, fixture, and the like in such a position or manner as to cause a projection, encroachment or obstruction over or on any public street or over or in any drain or aqueduct in a public street or over or on any land vested in the Corporation, the Commissioner may, by written notice, require the owner or occupier of or the person who has placed or erected the same to remove it within such period as the Commissioner may consider reasonable.

24. (i) If such requisition or any portion thereof is not complied with within the period prescribed under bye-law 23, the Commissioner may take such measures, or cause such work to be executed or such things to be done, as may, in his opinion, be necessary for giving due effect to the requisition so made, and the expenses thereof shall be paid by the person or by one of the persons to whom such requisition was addressed.

(ii) The Commissioner may take any measure, execute any work, or cause anything to be done under this bye-law whether or not the person who has failed to comply with the requisition is liable to punishment, or has been prosecuted or sentenced to any punishment, under these bye-laws for such failure.

25. Whoever commits a breach of any one of the foregoing bye-laws or fails to comply with any requisition lawfully made upon him under any of these bye-laws shall be punished with a fine not exceeding Rs. 100 and in the case of a continuing breach to a fine not exceeding Rs. 10 for every day during which the breach continues after conviction for the first breach.

#### Schedule of fees.

	New Revised rate.	Rs.	As.	P.
I. Scaffolding, platform, stand-place, stall, blind, shade, awning or any other projection of any kind, building materials, earth or any other goods whatsoever referred to in the Bye-laws framed under Section 559(18) to which a scale of charges according to area occupied is applicable.	(i) Not exceeding 5 days per sq. ft.	0	0	6
	(ii) Over 5 days p.m. or part thereof.	0	2	0
II. Bales, wares, goods, merchandise, furniture, stools, benches, chairs, baskets, fruits, vegetables or any other articles whatsoever referred to in the aforesaid bye-laws to which a scale of charges according to the number of articles deposited is applicable.	(i) Not exceeding 5 days per article.	0	0	6
	(ii) Over 5 days p.m. or part thereof, per article.	0	2	0
		Per structure per diem.		
		Rs.	As.	P.
III. Archway, gate, nahabatkhana or similar contrivances on or across the road or footpath.				
(a) for a space upto 20 sq. ft.		2	0	0
(b) for a space over 20 sq. ft. upto 40 sq. ft.		4	0	0
(c) for every additional 10 sq. ft. or less		1	0	0
IV. Archway, gate, nahabatkhana or similar contrivances where advertisements are put up.				
(a) for a space upto 10 sq. ft.		12	0	0
(b) for a space over 10 sq. ft. and upto 25 sq. ft.		25	0	0
(c) for every additional 25 sq. ft. or less		20	0	0

(If projections or portions of projections referred to in (I) are more than 8 ft., half the ordinary fees shall be charged for).

(If the 5 days limit referred to in (I) & (II) is exceeded the excess period will be charged for at the monthly rate).

A. The fees in (I), (II), (III) and IV are for licenses obtained beforehand.

∴ B. If the license is not obtained beforehand for (I), (II), (III) and IV double the ordinary fees shall be charged and no remission of fees should be allowed in future (*vide* Corporation dated 22nd March, 1938, Budget Special Committee).

C. If the area or number of articles is greater than that specified in the license, the excess area or additional articles shall be charged for at double the ordinary rates.

*N.B.* It should be noted that in cases of temporary encroachments where articles are merely placed on the footpath or roadway preparatory to removal and not left there longer than 6 hours, the officers concerned must exercise a certain amount of discretion and no fee should be charged, provided that no serious obstruction is caused.

	Rs. As. P.
V. Screen or shade in front of shop—per sq. ft. per annum	.. 0 8 0

The rate of fee in respect of (V) will take effect retrospectively from the 1st April, 1948.

## FLOWER SHOW AT ASSEMBLY LAWN

THE Seventh Annual Chrysanthemum Show was opened recently at the Assembly House lawn by the Chief Justice of the Calcutta High Court, Shri P. B. Chakravorty. It was one of the most fascinating though youngest of the City's winter events organized under the joint auspices of the West Bengal Legislature and the Calcutta Flower Growers' Association.

Apart from Chrysanthemum groups, this year, competition had also been arranged for flowering and foliage plants separately. A wide assortment of flowers, like early geraniums, dianthus, carnations, begonias, asters, marigolds and dabbins were kept on show. There was also a good response from the flower growers—amateurs and professionals. The number of competitors in the three principal groups—chrysanthemum, flowering plants and foliage—has shot up to about 90. Besides them there were a good many of exhibitors who added a substantial splendour to the show.

Shri Chakravarty, in his speech, welcomed the growing consciousness of the people to grow flowers in the midst of the present-day tendency for building sky scrapers and tall buildings.

They as a nation, he said, with a voice of resentment had been losing these days the sense of beauty. They had altogether abandoned the architectural tradition of India, which was the outcome of a magnificent sense of beauty and dignity, coupled with climatic necessity. "We are now building up buildings in the shape of almirahs and shelves," the Chief Justice added.

Shri Saila Kumar Mukherjee, Speaker, Legislative Assembly, hoped that the show would be a good impetus to the citizens to grow flowers.

In his report Shri Ajita Ranjan Mukherjee, President of Calcutta Flower Growers' Association, referred to the neglect of the city's parks, and noted with concern what he stated the "vanishing green" of the Maidan, the Ellenborough Course, the Eden Gardens and the Curzon Park. He appealed to the authorities to stop "such acts of destruction". Shri Mukherjee hoped the joint efforts of the

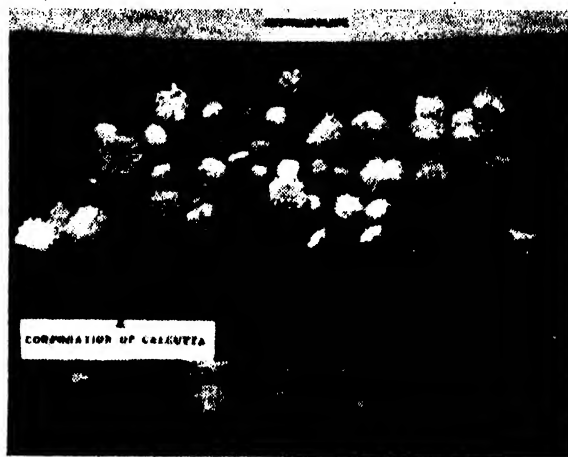

PHOTO : S. B.

Corporation and the Improvement Trust to beautify the parks and street corners would prove to be a success.

The Corporation had also participated in the competition by putting up shows on flowering plants as well as on foliage plants. And it is gratifying to note that Corporation occupied a place in the list of prize winners as decided by the judges. The District Engineer III took the initiative in putting up the show on behalf of the Corporation.

A function was arranged, some time ago, at Ripon Square to felicitate SK. MOBAL JAN, a young man of the locality under Ward No. 51, for his fits in an ENDURANCE CYCLE RACE. The young man gave an impressive demonstration in cycle race a few days earlier. This attracted a large number of citizens.

The function was attended by many of the important citizens of the locality. Councillor Karam Hossain presided, while Shri Satis Chandra Chakravarty, Shrimati Chakravarty, Syed Abul Hossain, Dr. Saybil Alam, Janab Akbar Aly and others (in the picture above) were present.

## VIEWS AND REVIEWS

### CORPORATION ELECTION

The next General Election of the Calcutta Corporation will be held on the 29th March, as announced by the West Bengal Government through a Press Note recently. The last General Election of the Corporation was held during March, 1952, and the life of the present Corporation thus will complete full five years during this year. According to the present amended Calcutta Municipal Act the life of the Corporation is for four years only subject to an extension of one year at the discretion of the State Government.

The date has been fixed in view of the fact that the Lok Sabha and State Assembly elections will be completed by the 12th March next and there will be sufficient margin of time to make arrangements necessary for the Corporation election.

The General Election of the Howrah Municipality will also be held on the same day. The Municipality is at present kept under suppression and the period ends on March 31. The elections of other municipalities, due during this period, may however be delayed for a few months.

### SHRI PANNALAL BOSE PASSES AWAY

We deeply regret to announce the death of Shri Pannalal Bose, a former Minister for Education of the West Bengal Government. The death

took place at Shri Bose's Dinendra Street residence on the early hours of the 30th December. He was ailing for some time past and this caused him to resign from Cabinet.

When the news of his death became known on Sunday morning, the State Chief Minister, Dr. B. C. Roy and other members of the Cabinet and leading citizens and friends called at his residence. Wreaths were placed on the bier on behalf of the West Bengal Government and other leading organizations including his friends and admirers. The cremation took place at Nimtollah in the evening after the funeral procession had passed along some of the streets in the area in which Shri Bose lived.

The late Shri Bose was elected to the State Assembly from the Sealdah Constituency during the last general election in 1952, and was immediately taken in as a Minister of Education. He took a keen interest in education, particularly in primary education, and introduced multi-purpose schools and vocational training schools during his term of office.

Besides a well-known jurist, whose fame spread in connection with the Bhawal Sannyasi Case even before the forty's, the late Shri Bose

**BARLEY**

**IDEAL FOOD, DRINK & DIET**

*Absolutely Fresh & Pure*

LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA

also gave a record service to the Corporation as a Secretary of the Corporation Investigation Commission during the supersession period.

Eloquent tributes were paid to his memory at the weekly meeting of the Corporation on the 4th January wherein the late Shri Bose's past services were recalled. The weekly meeting was adjourned without transacting any business as a mark of respect to his memory. The Mayor who referred the death in the House said that although he was known for his judgment in the famous Bhawal Sanyasi Case; yet he proved to the hilt in his academic career that he was a learned erudite scholar, and wise one too. Though died full of years still his passing away has left a void in the field, added Shri Ghosh.

We also extend our sincerest condolences to the members of the bereaved family.

After a brilliant academic career and standing first in Philosophy in the M.A. Examination of Calcutta University, the late Shri Bose was for some time a lecturer at Bangabasi College and at St. Stephen's College, Delhi. Later passing the B. L. examination he entered the Judicial Service of undivided Bengal and eventually retired in 1936 as a District and Sessions Judge. While he was a Subordinate Judge at Dacca he earned considerable fame for his learned judgment in the Bhawal Sanyasi Case.

From 1939 to 1944 the late Shri Bose acted as Manager of Panchkot State and afterwards as Secretary to the Calcutta Corporation Investigation Commission. In 1952, he joined Dr. Roy's Cabinet as Education and Land and Land Revenue Minister. Later, due to advancing age and ill-health, he relinquished the latter post.

#### LATE SHRI B. C. ROY

Death has snatched away from amongst us Shri Bankim Chandra Roy, B. Sc., (Eng'g) (Illinois), A. M. I. E. E., a former Lighting Superintendent, Calcutta Corporation. The death took place at his residence in the city recently. He was 75.

Born in a village in Barisal, now in East Pakistan, the late Shri Roy began his career as a school teacher at Santiniketan where he worked for over 12 years. Later he went to America to qualify himself as an electrical engineer. Before returning to India he toured of the U. S. A. with Tagore in 1917. He joined the Corporation a year later and retired in 1939.

We extend our sincerest condolences to the members of the bereaved family.

#### PROF. JAYGOPAL BANERJEE IS DEAD

Death of Prof. Jaygopal Banerjee, a former Head of the Department of English, Calcutta University, and a brilliant scholar, has created a void in the field of education of the country which will be difficult to fill up for some time in future. The death took place on the last Christmas Day when he was 84 at his Deshapriya Park residence, South Calcutta.

The late Prof. Banerjee was the first Indian to occupy the Chair of English Literature of Calcutta University. He founded also the Calcutta

Branch of Poetry Society (incorporated), a well-known product of Bengal. But more than the intellectual and the aesthetic gifts, there was his moral fibre. His spirit of independence, which would not grovel, refused to "know how" before the highest authority. He combined art with austerity, imagination with simplicity, and he was an eternal enemy of all snobbishness. He had an insatiable thirst for knowledge, knowledge not of material things, but of things spiritual, and his study of Sanskrit, the Vedas and the Upanishads after his retirement from the University showed the spirit within.

At the outset of a weekly Corporation meeting held recently, the members observed a minute's silence to mourn the death of Professor Banerjee. The death was referred to in the House by the Mayor, Shri S. C. Ghosh, who paid eloquent tributes to his memory.

Born in 1872 at Halishahar, in the district of 24-Parganas, the late Prof. Banerjee had his early education in Monghyr. In 1891, he graduated from Presidency College, Calcutta, with Honours in English. He passed M. A. in English standing in the First Class. Sir Jadunath Sarkar was among his classmates at the college.

Starting his career as a Professor of English Literature in London Missionary College in South Calcutta the late Prof. Banerjee was also a professor in Ripon College and Victoria College, Cooch Behar. His fame as a professor of literature and particularly of English poetry spread far and wide. In 1915 on the invitation of Pandit Madan Mohan Malaviya he accepted the post of the Professor of English Literature of Benares Hindu University. After Dr. Stephen of Calcutta University, he became the Head of the Department of English from which post he retired in 1935. He had been the Founder Editor-in-Chief of "Calcutta Review." He had also contributed valuable articles on literature and philosophy to different journals.

We also extend our sincerest condolences to the members of the bereaved family.

#### CHRISTMAS AND NEW YEAR'S DAYS IN CITY

With great elan and festivities Calcutta observed the Christmas Eve towards the close of December. The festival of the birth of Lord Jesus Christ was observed in and around the city not only by the members of the Christian community but also by other communities alike. The day dawned with the reading of Holy Mass at the St. Paul's Cathedral and other churches. Community singing by Bengali Christians in a Kirtan tune was a distinctive feature.

Ringling of church bells, hooting sirens from ships and bursting of crackers announced the beginning of the New Year of Grace Nineteen Hundred and Fifty-seven on mid-night of Monday-Tuesday:

Although a brisk trade was expected business men's expectations remained unfulfilled as they said of 'tight' money this year. Though there might be lack of money for luxuries there was no lack of Christmas spirit in the city. It was Calcutta's glorious cold weather that made the festival doubly enjoyable by arranging excursion trips and picnic parties.

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE TWENTY-SIXTH ADJOURNED MEETING OF THE CORPORATION  
HELD ON FRIDAY, THE 28TH DECEMBER, 1955.

## ALL-INDIA LOCAL AUTHORITIES

The Corporation has agreed to enroll itself as a member of the Federation of All-India Local Authorities, Bombay, with the payment of usual subscription for the purpose.

The request for enrolment came from the President of the Association which stated that the Association was a recognised body with its membership extended to almost all the Municipal Corporations. The Association's activities in the past were mainly restricted to representations before the Taxation Enquiry Commission for better financial position and others to the Union Government as regards replenishment of adequate funds to the local Bodies in implementing many of the development work undertaken by them earlier.

It is hoped that Corporation would also reap a good harvest on its being associated with the Federation.

## NEW MARKETS IN CITY

The House, on the recommendation of the Standing Public Utilities and Markets Committee, declared the following sites as open market places. The owners of the markets have already satisfied the Corporation authorities with the paraphernalia requiring to start a new market.

- (a) Nos. 2, 4A, 4B and 4C, Meshualbazar Street.
- (b) No. 57, Clive Street.
- (c) No. 46, Strand Road.
- (d) No. 55, Canning Street.
- (e) No. 14/2, Old China Bazar Street.
- (f) No. 17, Pagayapatty Street.
- (g) No. 80, Lower Circular Road.
- (h) No. 54, Ezra Street.
- (i) No. 196 Cross Street.
- (j) No. 88, Canning Street.
- (k) No. 208, Cross Street.
- (l) No. 194, Cross Street.
- (m) No. 46, Cross Street.

## A SPECIAL OFFICER

The House, on the recommendation of the Standing Finance Committee, appointed Shri H. Roy, Ex-Chief Valuer and Surveyor, Corporation, as Special Officer for carrying out the detailed scheme for the development of Tollygunge Squatters' Colonies. The scheme is required by the State Government Rehabilitation Department and funds have been provided by the same.

The post of Special Officer, has been created temporarily for six months with a salary of Rs. 1,000/- per month plus car allowance of Rs. 150/- per month. It may also be noted that Shri Roy was in charge of the preliminary work of the scheme during his service as a Surveyor to the Corporation, which he carried out successfully for a considerable period.

## FOOD ADULTERATIONS

Based on the recommendation of the Standing Health Committee, the House delegated certain powers to the Corporation Health Officials for successfully carrying out the drive against adulteration of foodstuffs in the city. The powers were delegated under the Prevention of Food Adulteration Act, 1954.

## MEMORIAL OF SHRI RAMKRISHNA

The House, on the recommendation of the Standing Health Committee, allowed Sinithee

## RECEPTION FOR SCIENTISTS

The Calcutta Corporation, at its weekly meeting on Friday, decided to accord a Reception to the Delegates to the Forty-fourth Session of the Indian Science Congress on the 14th January next. The Reception will be held at Greer Park, Upper Circular Road.

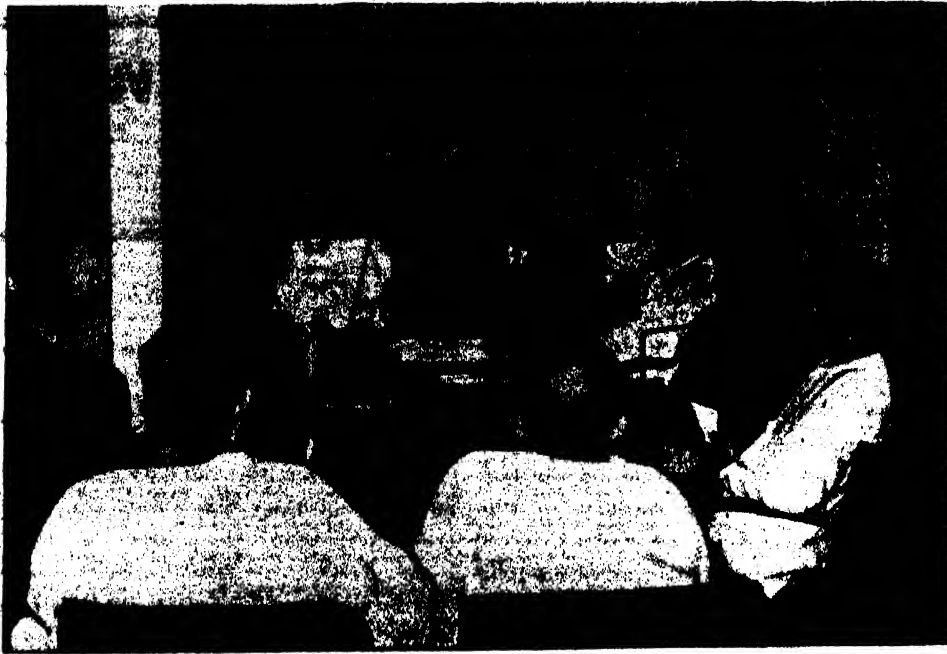

The 44th Session of the Congress, holding its Session in this city from the 14th to 19th January, will be inaugurated by the Indian Prime Minister, Shri Jawharlal Nehru. The State Chief Minister, Dr. B. C. Roy will preside over the General Session. The Patrons of the Local Reception Committee include the State Governor, Shrimati Padmaja Naidu, the Mayor, Shri S. C. Ghosh and other notable citizens. According to the Secretary of the Local Committee nearly 3,000 Scientists recruited from all over the world will attend the Session.

It may be recalled here that a similar Reception was accorded to the Delegates of the 39th Session of the Indian Science Congress in 1952.

Ramkrishna Sangha to erect a memorial pillar of Shri Ramkrishnadev on the southern side of the existing shrine of Shri Shri Ramkrishna Paramhansa Deb at the Cossipore Burning Ghat.

## INSTITUTE OF ENGINEERS

The 26th Annual General meeting of the Institute of Engineers (India) was held on December 29, in the Institute's premises, Gokhale Road. Prof. Satyen Bose, Vice-Chancellor of Biswa Bharati University, presided. Addressing the engineers, Prof. Bose stated that the country was in need of engineers in larger and larger number—much more than they could turn out at the moment. But then every engineer had got to be a thinker at the same time. They should be able not only to carry out other people's orders but also to draw up fundamental plans themselves.

Dr. Seal of the All-India Institute of Health making his observations on the Epidemic Control Scheme while Dr. P. K. Chowdhury, Chairman, Standing Health Committee, Councillors Dr. R. N. Basu, Dr. K. P. Ghosh, Health Officer, Dr. A. Mukerjee and others attending to him.

## CITY THREATENS WITH SMALL-POX

CALCUTTA citizens are passing through anxious days due to the steady rise of the number in incidence of small-pox cases in the city. During the last week that is the week ended the 29th December, there were 23 deaths in the city against 20 deaths during the week previous. Attacks from the disease were 31 during last week and 28 during the earlier week respectively.

There is no denying of the fact that the city is being threatened with an epidemic of small-pox. The quinquennial small-pox epidemic also falls on this year.

An equal concern was also expressed by the Aldermen and Councillors at the weekly meeting of the Corporation on the 28th December last.

The incidence of small-pox in the city, some members apprehended, might be severer this year. They feared that the warm spell that the city had been experiencing during the past few days might help the spread of the disease. The incidence of the disease was raised in the House as a matter of public importance by several members.

In connection with the drive against the epidemic disease the difficulties faced by the Corporation were also referred to by Councillor Dr. Radhika Bose in that weekly meeting. He urged the purchase on two more publicity vans. The Corporation has now two such vans and necessary provision has been made in the budget for two more ones.

Speaking on the occasion, Councillor Dr. P. K. Roy Chowdhury, Chairman of the Standing Health Committee, stated that the figures of small-pox attacks and deaths for the then current week might show that the disease was on the increase but precautionary measures undertaken by the Corporation would sure to improve the situation.

In that meeting the Corporation decided to appoint immediately 60 more vaccinators for a period of two months to meet the rush for vaccination. At present there are 244 vaccinators for the purpose.

Among the possible measures the vaccination drive is the most important. An intensive drive has been given by the Health Department in collaboration with the Public Relations' Department, Corporation. The 26 vaccination centres, scattered in different parts, are doing their best in this connection. Citizens are standing in queues to have themselves vaccinated in an orderly manner. Besides the Municipal Charitable Dispensaries numbering more than twenty are helping them in this drive. The services of the local philanthropic organizations have also been enlisted. The Publicity Vans are moving throughout the city acquainting the citizens the prime need of the moment which rests mainly on cleanliness and vaccination drive. A programme of intensive propaganda work is being carried on by the Public Relations' Department spreading over a month or more.

The response to this drive can be said a satisfactory one in comparison with the activities of the previous years. The total number of vaccinations up to the date of writing has exceeded six lakhs which includes primary vaccination numbering nearly twenty thousands. Bustee cleansing gang has been allowed to continue their services. There is a proposal to extend the term of their services so that the 4000 Bustees in the city might be cleared on every alternate day.

The reassuring feature of the drive during this year is that the response to the appeal for vaccination against small-pox has been very satisfactory.

## The Operations Of The Calcutta Improvement Trust During 1954-55

[NRIPENDRA KUMAR GUPTA]

THE report under review is admittedly a belated one. The Chairman has explained in his preface, that after the final proof of the original draft was received from the press, it had to be entirely rewritten, to make it something more than a mere framework for figures. This is commendable indeed. In such circumstances, it has not however been possible to altogether avoid the stereotyped form, which has been a feature of the report over a number of years in the past. We hope the report for 1955-56, will present such features of interest, as appeal to the generality of the readers, who have usually no penchant for Statistics.

### AMENDMENT EFFECTED

The original Calcutta Improvement Act was passed by the Legislative Council of Bengal in 1911. With experience gathered, during several decades, of the working of the Act, several lacunae were discovered, and the Amendment Bill of 1954 has embodied the widely accepted modern principle of subordination of private rights to public welfare. The composition of the Board of Trustees has been changed. Besides the Chairman, the only other official is the Commissioner of the Calcutta Corporation who is an ex-officio member. The Corporation is also represented by three members elected by itself, two are representatives of Chambers of Commerce, and four are "appointed", by the Local Self-Government. The nominated members are not "briefed" by Government, but generally flow their own independent judgment, as experience shows.

### IMPORTANT AMENDMENT

The assessment of betterment fee by the Board was frequently vehemently disputed. Under the Act, it was the practice to refer the dispute to two Arbitrators, one elected by the party affected, and the other appointed by the Government. A third Arbitrator who will be the "umpire" has now been provided for to avoid a stalemate. The Act as amended, has largely enlarged the powers of the Trust by deleting the words "poorer and working classes" and authorising housing schemes for the accommodation of the general public. The lower middle classes stand to benefit greatly by the provision. The Trust has been authorised not only to provide open spaces, but "gardens, parks, playgrounds and lakes". The woeful lack of playing grounds for children, compels them to play in the streets, and accidents are frequent. The provision for payment of an extra 15 per cent. over the market price, as a solatium for compulsory acquisition, has been done away with. The 15 per cent. compensation was in my opinion

unjustified, as the individual owner, without any effort or expenditure on his part, got the advantage of rising prices as "unearned increment." By economising the cost of acquisition, the Act will enable the Trust to widen its activities and to continue them for a longer period.

### REHOUSING SCHEMES

Up to the end of the official year 1954-55, the Trust had spent Rs. 82,48,147 on these schemes. Out of the schemes long completed, the entire block of houses built at the expense of the Trust at Karbala Tank Lane, have been sold to the public for Rs. 4,76,441, against a total outlay of Rs. 8,29,839, involving a loss of Rs. 3,53,398. In the Paikpara Re-housing Scheme, only building sites were provided, at a total cost of Rs. 8,86,815. The Trust upto the end of the year had recovered Rs. 7,87,769 by sale of these sites. In the Bow Street Re-housing, tenanted wholly by poor Anglo-Indians, 180 residential flats had been let with a total rental of Rs. 50,748. In the Wards Institution Scheme, 252 lettable rooms had been rented out at a total annual rental of Rs. 16,602. In the Christopher Road (North) Scheme, 70 separate self-contained suites (44 single room plus 26 double-room units) have all been taken up at a rental of Rs. 96,832 per annum. In the Industrial Housing Scheme No. I on Christopher Road (South) meant solely for industrial workers, 104 single-room flats have been provided for at a monthly rental of Rs. 2,100. During the year the Trust realised from long term basis and rent from housing schemes a total sum of Rs. 12,250. In the subsidised Industrial Housing Scheme No. II (Belaghata) eleven blocks of four-storied buildings containing 556 single-room tenements were let out, in the latter part of the year under review. Besides a living room 12 ft. by 10 ft. the tenant enjoys a verandah 10 ft. by 6 ft., a kitchen 8 ft. by 7 ft. 2 in. and a bath and a W. C. Electricity and a constant supply of potable water from the Trust's own tubewells is available.

### SINGHEE BAGAN SCHEME

It is an ambitious Scheme involving the total demolition of slums, covering a fairly large area, and replacement of the huts by four-storied blocks of buildings, three of which had been nearly completed, containing 124 tenements in the northern section of the area. It has been estimated that a total clearance of all the slums of Calcutta, and their replacement by modern sanitary housing, will involve an expenditure of something like 60 crores of rupees. Let us not be dazed by this figure. The nations' ambitious 5 year-plans have accustomed us to huge outlays.

As far as I know a sum of Rs. 10 crores is proposed to be spent during the Second Five-Year Plan period, towards which the Government of India will contribute 60 per cent and the State Government 40 per cent. If progress is maintained at this pace, it will be 60 years before we see the last of the hideous slums which are the city's shame.

#### LAKES, PLAYGROUNDS AND OPEN SPACES

The C. I. T. will always be remembered for its magnificent achievement,—the Dhakuria Lake (245 Bighas in area) lying in a huge park area of 577 Bighas. It is now busy constructing another lake in the Beliaghata area up to the end of the year under review, 73 Bighas 13 cottahs had been excavated. I hope it will be at least 100 Bighas in area, when it is completed. The Trust's other achievements comprises (1) the splendid Cossipur-Chitpur open space (156 Bighas), the Deshabandhu Park at Shambazar (58 Bighas) the Eastern Park at Park Circus (73 Bighas). Of the 37 other parks constructed, the only sizeable parks are the Northern Park (Bhowanipur)—12½ Bighas and the Deshapriya Park abutting on the Rash Behary Avenue (20 Bighas).

#### PACE OF PROGRESS

I must confess to a feeling of disappointment at the rather slow progress, being achieved over the last 5 years. The Chairman has put the blame roundly on the shoulders of the Land Acquisition Collectors, who seem to be lethargic. The Trust has never yet faltered for lack of finance. Although capital receipts were only Rs. 19,10,931 during the year, the Trust spent on land acquisition Rs. 19,81,470 and on Engineering works Rs. 43,24,251. The total capital expenditure of Rs. 70,37,083 was met out of the previous years' closing balance. There was a closing balance of Rs. 71.02 lakhs at the end of the year, so that the Trust was in a position to spend enough, without recourse to a loan, during 1955-56.

#### TRUST'S FINANCIAL RESOURCES

Up to the end of 1954-55, the Trust had raised altogether Rs. 497,50,000 in Debenture Loans. Out of this amount only Rs. 290,00,000 was outstanding at the end of the year, against which the total amount accumulated in the Sinking Funds was Rs. 121,00,000. As the Revenue Surplus is about Rs. 21,00,000 per year and the net value of assets (See page 13 of the Report) is Rs. 180.71 lakhs, it is quite clear that the Trust is in a position to raise debenture loans of Rs. 50 lacs a year for the next 12 years without the least difficulty. Considering the fact that the Corporation's contributions are rising year by year, another sum of about Rs. 250,00,000 may be available from Revenue surpluses. Then we may look forward to a steady income (average) of about Rs. 80 lakhs from sale of surplus lands and about Rs. 300,000 from sale of buildings etc., so that the Trust will be in a position to spend about Rs. 108,00,000 per year for Land Acquisition, Engineering works and Housing Schemes, besides

liberal expenditure for provision of parks, open spaces and playgrounds. Up to the end of 1954-55, the Trust had spent under all heads, Rs. 26,41,96,931, towards which revenue surpluses had contributed Rs. 706,32,355, and capital receipts had made available Rs. 14,93,48,396 from sale of surplus lands.

#### OUTLYING AREAS

While it is true that the Trust has taken up the question of improving the Manicktala area in right earnest, it has spent very little on Cossipore-Chitpur although it was incorporated in Calcutta Municipal Area 40 years ago. The only notable gift to this area so far, has been the open space to which I have referred before. So far, only two alignments have been planned, covering the Barrackpore Trunk Road for a total length of 2407 yards, proposing to widen it to 150 ft. The people of Cossipore-Chitpur feel sore over this neglect, and as the saying goes, hope deferred makes the heart sick. I think a beginning should be made with the underground drainage scheme, which if I remember rightly, is expected to cost about Rs. 7 crores including the outfall. As it will take 10 to 15 years to complete, a start should be made. As regards the newly added area of Tollygunge, it is engaging the earnest attention of the Corporation, which is able to count on liberal financial assistance from Refugee Rehabilitation Funds. The number of refugees who have settled themselves in the Cossipur-Chitpur area, is by no means small, and the Trust should demand liberal aid from the same funds for this area also.

#### PROGRESSING SCHEMES

The achievements in which the Trust is at present engaged may be summed up as follows—

(1) SOUTHERN AVENUE—The completion of the scheme was long held up on account of the compulsory requisition of the lands (acquired by the Military authorities), and also due in a large measure to arbitrary encroachments by refugees. The construction of side roads Nos. 3, 12, 16 and 17 within the area lying between Manoharpukur Road and Southern Avenue, has been completed.

(2) GORALHAND ROAD TO MIDDLE ROAD, ENTALLY—The main road connecting Park Circus with Circular Road opposite the Dharmatala Street has been completed. Two fair-sized Parks—6.94 Bighas and 5.68 Bighas in area, respectively, were under construction.

(3) CHITTARANJAN AVENUE TO BLACKBURN LANE AND FROM BLACKBURN LANE TO LOWER CIRCULAR ROAD—This road which is better known as the "Bowbazar Parallel" was under construction at the end of the year. I have recently visited this area, and found that it is practically complete, except for a length of about 100 yards,—a bustee of which the Trust has not yet obtained possession.

(4) RAJA RAJ BALLAV STREET TO BAGHBAZAR STREET—The main road is nearly complete. During the year under review a length of only 790 r.ft. was in hand.

(5) BAGHBAZAR STREET TO GALIFF STREET—This street is the last, and therefore an all-important link between the Central Avenue and the

**Chitpore Lock Bridge.** Its completion will mark the provision of a splendid thoroughfare covering the entire length of Municipal Calcutta from the South to the North. It will be a costly scheme, the gross cost of land acquisition being Rs. 95,74,900 and engineering cost has been estimated at Rs. 24,02,000.

**SAHITYA PARISHAD STREET**—This street scheme will develop the well-known "Hoogul-kuria" area. It connects the Cornwallis Street with the Upper Circular Road opposite the Sahitya Parishad Building.

#### MANICKTALA

There has been considerable progress in the two schemes No. IV (Beliaghata Road to Narkeldanga Main Road) the Lake Area (No. IV Supplementary) and No. IV (2nd Supplementary) (Widening of Beliaghata Main Road) No. VI (Narkeldanga Main Road to Manicktala Main Road). The expenditure incurred to the end of the year on these schemes, was Rs. 233,12,082. If to this is added Scheme No. V (Grey Street to Canal West Road) which is a diagonal road which will ultimately connect Upper Circular Road with the Ultadanga Main Road, the cost incurred will increase by another Rs. 45,84,784. Scheme No. VII (Manicktala Main Road to Ultadanga Main Road) in which Land Acquisition alone will cost Rs. 199.70 lakhs, has been just taken in hand. It may therefore be said with justice, that the C. I. T. has reason to be proud of its achievements to date in this area.

#### A LONG LIFE FOR TRUST

I need emphasize the fact that if the Calcutta Corporation by its annual contribution beginning from 1912-13 to date, has helped the Trust very materially to effect great improvements in our city she has however been paid back in broad thoroughfare. North to South and East to West, in lakes, fine open spaces, and big parks (of which the city was utterly defiant), in

great improvements in drainage, distribution of water supply and lighting, and last but by no means the least, provision of thousands of healthy sites for new buildings, which have, on the one hand, greatly enhanced the beauty of the city and improved its health and sanitation, and on the other, largely increased the income of the Corporation. It is therefore all the more a pity that there should be short-sighted Councillors, who would either do away with or greatly reduce this contribution. Our Councillors should co-operate with the Trust, whose record of work during the 44 years of its existence is worthy of all praise. I shall now conclude by wishing long life to the Trust. May it continue to help our proud city to really deserve the title of the City of Palaces and to be really worthy of being called the Second City in the Commonwealth.

#### —CITY THREATENS WITH SMALL-POX

(Continued from page 236)

The Health authorities of the city were aware of these facts earlier. At least they have experienced similar circumstances in the past when small-pox appeared in an epidemic form snatching away a considerable number of lives.

Some time ago the Standing Health Committee approved a Scheme of Epidemic Control in the city.

The scheme was originated by the Committee's Chairman Dr. P. K. Roy Chowdhury. It was explained at a meeting held at the Municipal Museum Hall, College Street, by its sponsor, Dr. Roy Chowdhury, about a fortnight ago.

Under the scheme, vaccination and inoculation drives will be conducted from November to July and during the rest of the period, health education programmes, especially for the bustee areas, will be undertaken. A round-the-year watch will also be maintained on particular localities, which are almost invariably affected during an epidemic.

The epidemic control work will continue throughout the year. It will be continued for a period of three years. If the results are satisfactory, the Corporation might set up a permanent machinery. Although preliminary work in connexion with this new programme has already been started.

For the purpose of operation under the scheme, the city has been divided into 80 sectors, each roughly covering one municipal constituency and over 50,000 people. Each sector will be under the charge of an Epidemic Control Officer, who will have three vaccinators and three health assistants under him. The bustee cleansing squads of the Corporation will also be placed under this organization.

Dr. S. C. Seal, Professor of Epidemiology, All India Institute of Hygiene and Public Health, who presided, stressed the need for an intensive vaccination drive in the city. According to him that was the best preventable measure against small-pox, an epidemic disease. He also emphasized that there was no danger from re-vaccination every year, moreover it helped the people to avoid small-pox.

LATE MADAN MOHAN BURMAN

The death anniversary of Dinabandhu Madan Mohan was observed on 23rd December, 1956 at the Corporation Lawn. Councillor Ganapati Sur presided.

Shri Abinash Bhattacharjee, Shri Deben Sen, Shri Ram Deo Roy and Shri Raj Krishna Pandey spoke on the occasion.

**CIVIC NEWS FROM FAR AND NEAR****CITY SUBURBAN MUNICIPALITIES**

The Government of West Bengal have extended the terms of supersession of the Commissioners of Barrackpore and North Dum Dum Municipalities in the district of 24-Parganas up to the 31st December 1957.

**LIFE OF DARJEELING MUNICIPALITY EXTENDED**

The Governor has extended the term of office of the Commissioners of the Darjeeling Municipality up to July 7, 1957. According to a previous Government notification the life of the Municipality was extended up to April 30, 1957.

**HOSPITAL AT BANKURA**

The Government of West Bengal have decided to set up a new 128-bed general hospital in the town of Bankura at an estimated cost of Rs. 13 lakhs. The hospital—to be built on a Government-owned spacious plot of land—will be known as the Bankura Sadar Sub-divisional Hospital. 20 of its beds will be reserved for tubercular patients, while another 10 will be earmarked for admission of persons suffering from any of the infectious diseases.

It may be mentioned here that there is another well-equipped hospital in Bankura town which runs under private management.

**WATER SUPPLY AT PURULIA**

A Rs. 17-lakh filtered water supply scheme for the 41,000 residents of Purulia town has been drawn up.

The plan was prepared by the Chief Project Engineer of the Kansabati Scheme. Under the scheme, water will be supplied to the town from the Kansabati River through pipes.

Purulia town at present has a water supply system fed from a tank, but this is not sufficient for its needs. The new scheme contemplates a supply for 100,000 people.

**NEW MAYOR OF GAZA**

Mr. Rashidi Shawa O. B. E. who served as Mayor for 15 years until 1951, has again been appointed Mayor of Gaza City, by the military Governor of Israel. Six Councillors have also been appointed by the same authority.

**NEW WATER SUPPLY OF BARANAGORE**

The Baranagore Municipality has planned a separate interim scheme besides the Baranagore-Kamarhaty Joint Water Works Augmentation Scheme to meet the immediate requirements of the locality by sinking electric-driven tube-wells with diameters of 6 inches each. The total capacity of these wells will be about 20,000 gallons of water per hour. The expenditure is estimated at Rs. 66,000 for each.

In addition, from the new 6 inches diameter power driven tube-well, which has been recently installed, about 16,000 people will get water at the rate of 12½ gallons per capita per day and 420 house-connections would be given.

The Municipality proposes to raise a part of the amount to be spent for the installation of the tube-wells by way of donation from house holders to whom house connections would be given.

**MUNICIPAL STAFF COLONY AT ANANTPUR**

Shri N. Sanjiva Reddi, Chief Minister Andhra Pradesh, laid the foundation for the staff housing colony of the Anantapur Municipality, some time ago. It would provide housing facilities for its low-paid staff under the Low-Income Group Housing Scheme.

**CORPORATION MOURNS DEATHS**

For the last few days the city has lost a number of citizens both known and unknown ones. However little were they connected with the Corporation still the City Corporation took note in case of most of them and mourned their deaths. Respectful homages were paid to each of their memory from the Chair whenever that name was referred to in the House.

The weekly Corporation meeting was adjourned recently as a mark of respect to the memory of Councillor Tulsiram Saraogi, a prominent social worker who died at Ranchi earlier. The Deputy Mayor, Dr. Amarnath Mukherji, who presided on that day, said that Shri Saraogi was a most devoted worker of the Marwari Relief Society. He recalled many of the activities of late Shri Saraogi in this field and described his death as a great loss to the city particularly to his own community. A two-minute silence was observed.

The Corporation at its last meeting also mourned the deaths of a number of important personalities. Paying his tribute to the memory of Pandit Ravi Shanker Shukla, Chief Minister, Madhya Pradesh, the Mayor, Shri Satis Chandra Ghosh, said that he was a stalwart among the Congress leaders and died full of years, honour and in harness. Always in the forefront of the national struggle, Madhya Pradesh under his guidance initiated diverse reforms, in education and other matters, that attracted wide attention; this was in keeping with the distinction that it enjoyed of being associated with much of Mahatma Gandhi's work for the nation, the Mayor added.

Death of Shri Dharendra Nath Roy, Bar-at-law, of Narail was also referred to in the House.

A born nationalist Shri Roy gave up his lucrative practice in Calcutta Bar to join politics under the leadership of Deshabandhu C. R. Das, the Mayor said. As a member of the Swarajya Party he was elected to the Bengal Council where he made his mark as a parliamentarian. He was also associated with various institutions like Ram Krishna Mission in his later life, concluded Shri Ghosh.

## CITY NEWS PARADE

**OBITUARY:** The death of Shri Kushal Kumar Mukerji, former Principal of Jaipur School of Arts and Crafts, occurred recently at his Calcutta residence. He had studied in the U.K. and was for some time a teacher in the Liverpool School of Arts. The late Shri Mukerji was on the staff of the 'Statesman' for a period and was also one of the organizers of the Commercial Art Section of the Calcutta School of Arts. As Principal of the Jaipur School of Arts from 1929 to 1950, he had re-organized the Albert Museum there.

Shri Hem Chandra Lahiri, a retired police officer and a leading member of the Hindu Mahasabha died on the 30th December last at his Calcutta residence. He was 79.

After a distinguished career in the Calcutta Police, from which he retired in 1935, Shri Lahiri devoted his time to social welfare activities. In 1944 he founded a girls' school in the Entally area. Later on he became active in social welfare works.

A CHINESE WOMEN'S DELEGATION, touring India came on a short visit in this city towards the close of the last month. There was a lively discussion on Sino-Indian friendship and co-operation at a party given by the members of the Indian Journalists' Association at the meeting hall of the Ananda Bazar Patrika Office to two women journalists from China who were members of the Delegation.

Replying to the felicitations offered to them Madame Pen Tsue-Kang, Editor-in-Chief, 'The Tourist' said that journalists in her country wanted to learn "many things" from the members of the same profession in India. In China, she added, there were 300 newspapers of which seventeen had a nation-wide circulation.

Madame Lu Chiang-Ying, Editor-in-Chief, 'Women of China,' and Vice-Director, Department of International Publicity, All-China Women's Federation, stressed the need for exchange of visits of journalists between the two countries.

"35", '55' & '56' AUTOMATIC TELEPHONE EXCHANGES IN THE CITY were inaugurated by Shri Raj Bahadur, Union Communications Minister, on the 29th December last. This completes the process of converting the telephones in the Corporation area to automatic working by liquidating the last manual exchange—Burra Bazar.

The three exchanges, between them having 9,200 direct exchange lines, have brought the total equipped capacity of Calcutta's automatic telephone system to 47,800 lines with 55,000 telephones connected with them.

Inaugurated three automatic telephone exchanges are—35 (East), 55, (Burra Bazar) and 56, (Cossipur).

In the areas already automatised, one exchange "47" has yet to be opened to serve the Kalighat area. The telephone connections in this area have been converted into automatic working by connecting them to the neighbouring automatic exchanges with code numbers "47" and "48". The Kalighat Exchange, "47", is expected to be opened during June next while Dum Dum, Sibpur and Salkea with respective capacity of 600, 1,200 and 1,600 remain a task to be undertaken later on.

Shri Raj Bahadur said that the development of tele-communications in India during the First Five Year Plan resulted in an increase in the number of telephones from 1,85,000 to 2,90,000. The number of additional telephones

likely to be installed during the Second Plan at a cost of Rs. 63 crores was 1,80,000.

Shri Uma Shankar, General Manager, Calcutta Telephones, also assured that on the basis of the revised planning they would be able to satisfy the demand for additional lines by 1960. He also said that according to the present estimates additional 500 lines would be made available every month or over 6,000 a year as against 2,500 originally planned. The State Chief Minister, Dr. B. C. Roy, the Mayor, Shri S. C. Ghosh, Shri G. Basu, President, Bengal National Chamber of Commerce, Shri K. P. Goenka, President, Indian Chamber of Commerce, Shri Tushar Kanti Ghosh and others also spoke.

JADAVPUR UNIVERSITY'S ANNUAL CONVOCATION was held on the 23rd December last. Over 220 Graduates in Electrical, Chemical and Mechanical Engineering received Degree. Nine received Post-graduate Degrees in Engineering and Applied Geology.

On the day before, Shri A. C. Roy, Principal of the Bengal Engineering College, opened a technical exhibition organized in connection with the Convocation. On show at the exhibition were models, mainly of different development projects, built by students, and equipment and machinery which they had to experiment upon in the laboratory.

A training course for laboratory technicians for South Asian countries, sponsored by UNESCO, was inaugurated at the University earlier. Nine students from abroad had joined the course.

Shri C. D. Deshmukh, President of the University Grants Commission, who delivered the Convocation Address, said that during the Second Plan period India would require a little over 11,000 graduates and about 26,000 diploma-holders in Civil Engineering, 5,000 graduates and 12,000 diploma-holders in Mechanical Engineering, 5,500 graduates and 10,500 diploma-holders in Electrical Engineering and some 6,500 graduates and diploma-holders in Tele-communication, Mining, Metallurgy and Chemical engineering.

Shri Deshmukh also went round different departments and discussed with the authorities and professors about the development plans of the University.

DEAF ARTISANS' HANDICRAFT EXHIBITION was organized under the auspices of the convention of the teachers of the deaf in India in the premises of the Calcutta Deaf and Dumb School, Upper Circular Road. The exhibition was opened by Shri Keshab Chandra Gupta.

GOVERNMENT COLLEGE OF ART AND CRAFTS' first Annual Convocation was addressed by Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University. The function was held in the college premises on Sunday, the 30th December last. Thirty-nine students received diplomas and certificates for 1956 in Fine Art, 27 in Applied Art, nine in Indian Painting, five in Sculpture and Modelling and 13 in Batik, Printing and Dyeing.

The Vice-Chancellor said that in the present shape of society, when patrons of art had practically disappeared, young artists could not look forward to any considerable patronage. He did not know whether the State, which was ruled by politicians, had recognized the vital importance of the existence of the artists.

In a socialistic society, Prof. Sidhanta continued, the State must make sure that artists get the opportunity to be creative, undistracted by other business which they often had to undertake to solve the problem of poverty.

Shri C. Kar, Principal, gave a brief history of the College. He said that for many years the institution stressed upon the revival of traditional Indian art.

# CORPORATION NOTICES

## TO CONTRACTORS

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, up to 12 noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for....." for specifications and tender forms apply to the Keeper of Records. Price Rs. 4/- per set.

1. Supply and delivery of capillary tubes of neutral glass for the year 1957-58, (Earnest money Rs. 50/-).

2. Supply of carts for removal of stores during the year 1957-58, (Earnest money Rs. 100/-).

## VITAL STATISTICS

For the City of Calcutta for the week  
ending 22nd December, 1956.

## CITY OF CALCUTTA (TOWN AND ADDED AREAS.)

The total number of deaths registered during the week was 805 against 717 and 781 in the two preceding weeks and higher than the corresponding week of the last year by 145. The general death-rate of the week was 14.29 per mille.

## TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 22nd December, 1956 was 623 against 527 and 608 in the two preceding weeks. There was nil death from cholera against nil and nil in the two preceding weeks. There were 14 deaths from small-pox during the week against 14 in the previous week. There was 1 death from influenza against nil in the previous week. The mortality from fevers and bowel-complaints amounted to 7 and 51 respectively against 7 and 37 in the preceding week. The general death-rate of the week was 14.15 per mille per annum.

There were 47 imported deaths. Excluding these, the death-rate of the Town was 13.08.

There were 129 deaths from respiratory diseases against 99 in the previous week.

There were 43 deaths from tuberculosis against 35 in the previous week.

## ADDED AREAS (WARDS 28—32.)

The number of deaths registered was 182 against 190 and 173 in the two preceding weeks. Of these, 3 were from cholera, 6 from small-pox, nil from influenza, 4 from fevers, 40 from bowel-complaints and 37 from respiratory diseases. The death-rate of the added areas was 14.81 per mille.

There was nil imported death. Excluding this, the death-rate was 14.81.

There were 11 deaths from tuberculosis against 8 in the previous week.

## CITY'S SKY OVERCAST WITH SMOKE

Astronomical observation work had become impossible in Calcutta for the last 10 years or so said Father Goreux, Head of the Astro-Physics department of St. Xavier's College, Calcutta, to a representative of Press the other day. He said that there was always a smoke screen between the observer's telescope and the stars high above.

The housewives' ovens, street-side ovens, the factories that have gone up in many parts of the city proper and nearly all over the suburbs, railway engines and ships—all contribute to the cause of this nuisance.

## SHOPS TO LET

**SIR STUART HOGG MARKET**

Applications with offers of initial rent for the privilege of occupying the undermentioned stalls on rents noted against each, are invited and will be received by the Superintendent in the Market Office daily between the hours of 11 A.M. and 1 P.M. Drains, Cess-pools, Hospitals, Sick-rooms,  
Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed White arm badges with Black numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supt., S. S. Hogg Market.

## **Family Planning Conference**

### **THIRD PLENARY SESSION IN THE CITY**

Equally with the world situation India's population problem is gradually becoming acute. India's 360 millions are increasing rapidly at the rate of five millions per year and it is apprehended that the problem would develop into such a situation in some near future date when it would be difficult to tackle.

The present pressure on India's population, particularly in rural areas, is no less than any other Asian countries, and everywhere there is an attempt to make an effective check in the rise of population. Japan has an almost identical problem. It has been estimated that her population figure would touch the level of 100 millions in 1990. Already there has been attempts to prevent the rise by direct methods.

But India has a different story to tell. For the interest of national welfare as well as for raising the standard of living the problem was faced by the national planners of India. They have felt the need of regulating the population from the dual standpoint of size and quality. Objectives were set out in the First Five-Year Plan. The programme was mainly directed to build up a strong public opinion in favour of family planning. At the same time demographic, medical and biological studies have also been undertaken as an economic and social necessity.

Thus the success of our population policy will depend upon the moral and mental make-up of the millions, and that is why the authorities have felt the need of holding conferences and conventions in different corners of the country. The present Five-Year Plan also provides a sum of rupees five crores for the purpose. This will, no doubt, pave the way for more ambitious programmes in the future plans of the country.

Stepped on the heels of the Five-Year Plans, sessions are being held almost every year to devise ways and means for moulding public opinion as well as to translate the programme into action. And accordingly, the Third All-India Family Planning Conference was inaugurated on Saturday, the 5th January last, at the crossing of Chowringhee Road and Middleton Row, central part of the city. The week-long function was largely attended including delegates from all over the country. Visitors from Pakistan, Ceylon, Singapore and other distant places also watched the proceedings on all the days.

In his inaugural address, Dr. J. C. Ghosh, Member, National Planning Commission, emphasized the need of spreading the idea of Family Planning in the distant villages as well as among the urban people. "There is general agreement today," said Dr. Ghosh, "that planning of the family is an integral, perhaps the most important part of planning for better nutrition, better health and better living in general".

Continuing he said that this under-nourished population was growing at an abnormal rate a year, the growth in a decade exceeding the entire population of the U. K. Far from being an asset, such growth had become India's greatest liability. The Government has recognized its evil implications and is anxious to render every possible help to all voluntary organisations which would help them to rid the country out of the evil, added the Member of the National Planning Commission.

Presiding over the function, Smt. Dhanwanthi Rama Rau reviewed the progress of work in this sphere. She also regretted that the achievements had fallen short of the largest due to the scanty amount available at the First Five-Year Plan for the purpose.

Welcoming the delegates, Shri Prafulla Chandra Sen, West Bengal's Food Minister, said that India's rapid growth of population had cast gloom over her economic future. Indiscriminate reproduction is a

serious handicap to the improvement of living standards and steps should be taken to arrest the growth of population, concluded the Chairman of the Reception Committee.

The full text of the speeches delivered by Dr. Ghosh, Shrimati Rau and Shri Sen are being published elsewhere.

On that day, among the speakers were the City's Mayor, Shri Satis Chandra Ghosh, and Prof. N. K. Sidhanta, Vice-Chancellor of the Calcutta University. Messages were also read in that occasion from important personages including India's Vice-President, Dr. S. Radhakrishnan, Rajkumari Amrit Kaur, Union Health Minister, Governors of Assam, Madras, the Punjab, Uttar Pradesh, Bihar and others wishing the success of the conference. These were read by Shri B. M. Singhi, Secretary, Reception Committee.

During the seven-day conference there were discourses and discussions on the subject. Important papers prepared by experts were read in the symposia organized in this connection. Besides, visits to rural health centres which were propagating the idea of Family Planning in their surrounding areas, were arranged. The Mayor also entertained the delegates and the members of the Reception Committee to Tea in one of the days at the Central Municipal Office, S. N. Banerjee Road.

Along with the conference was organized an exhibition on Family Planning mainly based on statistical data. The exhibition was inaugurated by the State Governor, Shrimati Padmaja Naidu.

### RESPONSE NOT SO MARKED AS WAS EXPECTED

Smt. Dhanwanthi Rama Rau, who presided over the Conference, said :—

"The subject of family planning and population control is not a new one. Social workers have been interested in it for many years from the point of view of health, domestic economics and general human welfare. But only recently have they had the backing of responsible leaders of the country, which backing has been responsible for the drawing in of scientific men and women who have helped to widen the implications of this new welfare service. The problems of demography, economics, health, food and general national development are all integrated underlining the basic need of the control of population in the

interest of the success of our important Five-Year Plan."

In her address, Shrimati Rau regretted that of the Rs. 65 lakhs which had been made available for family planning under the First Plan, less than half had been spent. In some of the States of India, she added, there was positive opposition to birth control.

### ASPIRATIONS OF SECOND PLAN

In the Second Plan, Rs. 5 crores had been made available for family planning and she expressed the hope that the setting up of the Central Institute of Family Planning would take place very shortly. The next All-India Conference in 1959 would then be able to have a report of good progress made during this period.

It was recognized, however, the President added, that no Government plans in the general social development of India could be truly effective without the active help and support of voluntary organizations that had been working in the field long before Government aid could be made available. It was, therefore, of the utmost importance that the Family Planning Association of India should multiply its branches and maintain close contacts through these branches with work as it developed in different areas so that similar policies should be instituted and uniform standards maintained.

### PLANNING IN CALCUTTA

A most interesting speech was delivered by the City's Mayor, Shri Satis Chandra Ghosh. The Mayor said that nobody was more alert to this problem than he himself. The population in Calcutta had risen from 25 lakhs as enumerated during the last census, to about 40 lakhs in course of few

MAYOR ADDRESSES DELEGATES

Standing from right: Deputy Mayor, Dr. A. N. Mukerji, Shri B. M. Singhi, Secretary, Reception Committee, Smt. Dhanwanthi Rama Rau, President, Mayor, Shri S. C. Ghosh, and Councilor U. N. Sen at the Reception in Corporation Building.

PHOTO: S. B.

years and that had caused a great strain on the civic services. Yet he could thank himself as Mayor that the city life did not break down. If population went on increasing and unchecked, Shri Ghosh said, the prospect was surely a gloomy one. The public opinion would surely react in a manner which would help the organisers of this movement to fight out this problem, hoped the Mayor.

#### INCREASED POPULATION INCREASED RESPONSIBILITIES

Prof. N. K. Sidhanta, said that the rise in population in India was almost "appalling" being 12 to 14 thousands daily. If population went on increasing in that manner no amount of planning could fight with the already existing poverty and would bring about a rise in the standard of living. In a serious tone the Vice-Chancellor continued that if destructive methods were not accepted, as in a democratic society there was no place for it, then people must be made conscious about the problem through education and formation of public opinion for the welfare of themselves. He had confidence that such a democratic method to rouse the public mind would ultimately succeed.

Prof. Sidhanta was also of the opinion that the Government had to share greater responsibilities with the increasing population within the country as regards provision of amenities befitting a civilised nation.

#### SEVEN-DAY DISCUSSION

On the concluding day, the Conference adopted a number of resolutions. One of them urging the Government of India for adequate help and

patronage in this direction. The others also related some improved ways and means in moulding public opinion for undertaking intensive drive for Family Planning in India.

At the same time it urged the Local Bodies to encourage family planning services in Maternity and Child Welfare Clinics under their control with specially trained personnel.

Among the week-long programme the third-day's meeting was important. It was presided over by Dr. K. C. K. E. Raja, the main theme for discussion was "Population Growth in India". Papers were read by Dr. M. C. Balfour (U.S.A.) and Dr. C. Chandrasekharan on Population growth and economic development in India from 1956 to 1986 and present day demographic trends, respectively. In the same day, Dr. John Wyon, Dr. R. Vasantini and Mr. G. R. Amritmahal presented their papers on motivation for family planning, acceptance of family planning and community education in family planning respectively.

#### EXHIBITION

The exhibition arranged on the occasion was visited by larger number of citizens mainly adults. A day was set apart for ladies only. It contained some statistical data which was collected after a survey undertaken by the Mysore Government in the Bangalore city regarding economic conditions of middle and poorer class families and the positive benefits of undertaking a planned family programme. The bad effects for not having a planned family in a poor country like India was also illustrated there through charts

---

and models. But what was most important was the economic effects of a big family and this was ably demonstrated by the pioneers of Family Planning in India.

Inaugurating the exhibition at the same place on the 6th January, the State Governor, Shrimati Padmaja Naidu, said that family planning had become a matter of urgent importance for India, particularly in West Bengal, which had a very high density of population. The pressure on land had further increased as a result of the influx of several million refugees from East Pakistan.

Shrimati Rama Rau, who also spoke at the function, hoped that in future it would be possible to organize such exhibitions in all States and take them round in rural areas with Government assistance.

#### CORPORATION RECEPTION

The Reception given by the Mayor, Shri Satis Chandra Ghosh, was also largely attended. More than one hundred and twenty-five delegates of the conference and several members of the Reception Committee were present. Lady Rama Rau, Maha-Adhirani of Burdwan and several other foreign visitors were also present. The Deputy Mayor, Dr. Amar Nath Mukerji, a large number of Aldermen and Councillors and many of the Corporation officials attended the function which was held at the Councillors' Club Room, Central Municipal Office Buildings, on Tuesday, the 8th January.

Earlier, welcoming the delegates and other guests the Mayor, Shri Ghosh, stressed the need of planning the family in view of enormous

growth of population. The birth rate would have to be regulated if the people wanted a strong and healthy posterity, he added.

#### PROTAGONISTS NOT AVERSE TO CHILDREN

Replying on the occasion, Shrimati Rama Rau, President, All-India Family Planning Association, advocated a humane approach to the problem of family planning. Planned parenthood was necessary for qualitative improvement of the future generation, she stressed.

Continuing she said that it should be understood that the protagonists of family planning were not averse to children. Like other parents they would also welcome their babies. What they wanted was that the number of children in a family should be so limited as to enable their parents to bring them up properly with care. To make the future generation healthy such restriction on birth is essential. Each of the children should be properly fed, clothed and educated, said the honoured guest.

Urging wide-spread propagation of the family planning programme Shrimati Rama Rau disclosed that under the Second Plan a sum of Rs. 5 crores has been earmarked for the purpose by the Government of India. More effective and efficient means for furtherance of the cause were being devised. Bengal and Kerala appeared to be most problematic in this respect. She felt, West Bengal being better equipped, should give a lead to the other. Initially the drive should be launched through the various maternity and child welfare centres now run by the Corporation, municipalities or other local bodies, she said adding the Calcutta Corporation could help a lot in this respect by propagating the cause through their own maternity and child welfare centres.

# **FAMILY PLANNING—A Part Of Plan Technique**

[By Dr. J. C. GHOSH, MEMBER, NATIONAL PLANNING COMMISSION]

The Family Planning Association of India with a very able group of active members might have been ploughing barren lands in the beginning. But to-day they have the satisfaction that there is a general agreement that planning of the family is an integral, perhaps the most important part of planning for better nutrition, better health and better living in general.

The Planning Commission, in the period of the First Plan, was anxious to devise speedy ways of education of the public and to make family planning advice an integral part of the services in hospitals and health centres. In the Second Plan, "the Family Planning Programme has now gone far enough to call for its further development on systematic lines, for a continuous study of population problems and for a suitable Central Board for Family Planning". The Family Planning Board has accordingly been set up by the Hon'ble Health Minister with authority to spend on approved programmes of work five crores of rupees.

In this connection it would not be out of place to add the resolution of Central Council of Health which runs as follows. The meeting was held recently at Ranchi:—

"The Council realising the importance of family planning in minimising the pressure of population on the country's limited natural resources and welcoming the provision made for the purpose in the Second Five-Year Plan, recommends that State Governments should consider the appointment of Family Planning Boards similar to the one established by the Union Government. To effectively organise and supervise the family planning programmes, the Council further recommends the appointment of a whole-time Family Planning Officer in the Health Directorate of each State."

I hope that these recommendations of the Council, consisting, as it does of the Union Health Minister as Chairman and the State Health Ministers as members will be immediately implemented.

## **CENTRAL BOARD'S RECOMMENDATIONS**

The Central Family Planning Board, in its first meeting in Delhi during October last approved the programme set up for the second plan period, 300 urban and 2,000 rural clinics for family planning guidance and service. These include free distribution of contraceptives to indigent women. The Board, however, recognised that Government agencies can help, but are no substitute for private effort in the field. To enlist such public support, it felt that it is necessary:—

(1) to discuss the question of employment of part-time doctors in family planning clinics with the Indian Medical Association,

(2) to employ part-time doctors in clinics where adequate help is available,

(3) to ask for the co-operation of the Indian Medical Association and their branches in popularising family planning programmes,

(4) to give financial assistance to voluntary organizations on merits of each case after examining the work each is doing,

(5) to establish gradually training centres in practically all the States along with established maternity and child welfare centres of maternity hospitals which have a well-developed family planning clinic and to give stipends to trainees,

(6) to include, in re-orientation, training element of family planning training for health personnel,

(7) to send films on family planning during Annual Conferences of Indian Medical Association and its branches,

(8) to give one or two films to each State for exhibition directly by them,

(9) to arrange seminars, conventions and conferences on family planning in different parts of India—2 or 3 in a year in different urban zones,

(10) to hold family planning conferences in rural areas. The Community Project Administration have been holding different seminars and conferences. This subject can be discussed in these conferences and seminars,

(11) to give publicity van one each to 30 cities with a number of family planning clinics,

(12) to inform manufacturers of defects of contraceptives examined, if they are not of required quality, so that the quality can be improved, and

(13) to carry out educative propaganda amongst the backward tribes through the Home Ministry.

The above programme augurs well for success in achieving the objective that children should be born because they are desired and not because they cannot be prevented. Another favourable factor is that the general attitude of our women-folk even in rural areas towards family planning. Sample surveys carried out by reliable investigators in different parts of India have indicated that a large majority of married women would welcome advice and help which would enable them to avoid too frequent child-births. It is not surprising that educated women in cities where they have access to such information and service have a smaller number of children than the general average and that the higher the level of such education, the smaller is the size of the family. They practice austerity in reproduction, possibly to avoid too much austerity in consumption.

## **PROF. CHANDRASEKHAR'S VIEWS**

Prof. Chandrasekhar has noted with approval that the birth-control movement in India is less

hampered by misplaced prudery on the part of the people than in some countries which claim to be more advanced. That being so, it is worthwhile considering if the education of girls in secondary schools should include in its scope sex-education, marriage counselling, child guidance and family planning. A beginning in the direction may be made now, though its full effect may not be felt before 1970 when we hope to have compulsory education up to the age of 16.

It may not be very difficult to offer family planning service to women living in urban areas. 85 per cent of our doctors live in such areas, though 85 per cent of our people live in the country-side. They have organised a net-work of medical associations which have considerable local influence. Again, the majority of the women's organisations for social work—several thousands in number—have their headquarters in urban areas. Their activities are now being enlarged and co-ordinated by the Social Welfare Board of which Shrimati Durgabai Deshmukh is the Chairman, with resources much greater than those of the Family Planning Board. If the Association can establish effective liaison with these sister organizations, and make them active partners in pioneering work, family planning may become universal in urban areas in a period of five years.

#### CRUX OF PROBLEM

The crux of the problem is the extension of the movement to the villages of India which constitute the base of India's social and economic life. It appears that the placid contentment of that life has been disturbed. Considerable progress has been made in providing the country-side with National Extension and Community Development organisations. It is hoped that by 1961 a net-work of these organisations will cover the whole country. These are expected to be the nuclei round which will start a people's movement for better health and better living. Competent observers agreed that in certain areas the energies which are dormant in the people, have been released and the transformation of the social and economic life of the village is getting momentum. This is a hopeful sign and should give you confidence that the problem of the extension of the movement to rural India may not be altogether baffling. Each Community Project is intended to have a health centre with a complement of doctors, nurses, midwives, nurse-dais. It will also have staff for social edu-

cation. Rural life has many facets, and naturally there should be for each facet an agency for brightening it. But the more they work as a co-operative team the greater are the prospects of improving the outlook of the face as a whole.

#### NOT TOO MUCH OPTIMISM TO BELIEVE

It does not require too much optimism to believe that gradually all right thinking men in India would begin to feel that voluntary parenthood is one of the most vital features of social welfare. But it is too much to expect real success until an ideal contraceptive has been discovered. It must be so cheap that the poorer classes can afford it, or it can be supplied free as a welfare measure; and it must be so simple that they can understand its use. Lack of privacy, lack of the simplest sanitary equipment, even lack of a lamp which can light up a room at night, are some of the evils associated with living at subsistence level. An ideal contraceptive must be such as would not be adversely affected by these environmental handicaps. Up to the present nothing approaches these requirements. Much research is likely to be needed to meet the problem. I had an opportunity of discussing this problem with the Medical Directorate of the Population Council Institute of New York and was glad to note that much fundamental research on this problem has been undertaken. In India also, the Council of Medical Research has drawn up a comprehensive research programme which may result in the discovery of an ideal oral contraceptive which will confer temporary sterility to the female.

According to a recent statistical survey of the United Nations, India is one of the starving nations in the world. Their food in terms of calories does not exceed 2,000, as against a normal adult's requirements of 3,000. The protein content of high biological value in their food is 5 grams as against normal requirements of 40 grams. There are practically no protective ingredients in the food which are so vital for healthy living. This C<sub>1</sub> population is growing at the rate of at least 5 million a year; the growth in a decade exceeds the entire population of the United Kingdom. Far from being an asset, such growth has become our greatest liability. The Government of India have recognised the evil implications of too rapid a growth of population and are anxious to render every possible help to all voluntary organisations which will rid the country of the evil.

## Abutting India's Millions

(By SHRI PRAFULLA CHANDRA SEN, Minister, Government of West Bengal)

The authors of India's First Five Year Plan stated that the rapid increase in population and consequent pressure on the limited resources available in the country, have brought to the forefront the urgency of the problem of family planning. It is extremely gratifying to note that our Government is very much alive to the problem and is tackling them in right earnest. On the question of a population policy and planned

parenthood the Government of India and the Planning Commission have admittedly taken a very progressive attitude, more progressive than that of many governments in the West.

The problem of the rapid growth of the world's population and the need for family planning should be dwelt upon at this present moment. Aldous Huxley is primarily a man of letters but he is also conscious and has made a

bold approach at this. Most of you have read his "Perennial Philosophy" in which he has made a very illuminating study of Vedanta Philosophy. Exactly eight years ago, in an article in the "World Review", he observed: "In the most favourable circumstances we can reasonably imagine, world population is bound to rise to at least three billions before it starts to decline. This means that, whatever happens, the next half-century will be a time of the gravest political and economic danger. If no policy is adopted, the crisis is likely, unless something startlingly good or something startlingly bad should happen in the interval, to persist for many years thereafter. The adoption of a population policy is a goal at which we should certainly aim. . . ."

Again, "The current, almost explosive, growth in world population began about two centuries ago and will continue, in all probability, for at least another hundred years. So far as we know, nothing quite like it has ever happened before. We are faced with a problem that has no earlier precedent. To discover, and, having discovered, to apply, the remedial measure is going to be exceedingly difficult. And the longer we delay, the greater the difficulty will be."

#### DEMOGRAPHIC FORECAST

This demographic forecast of the world's population has proved correct particularly in respect of India. Between 1921 and 1941 the population increased by 27 per cent, an increase unparalleled in the whole world. Between 1941 and 1951 the increase was 13.4 per cent. On the basis of census returns and life tables, India shows an average birth-rate of about 45 per mille which is almost double that for the U. S. A. and two and a half times that for the U. K. The percentage of superfluous parenthood in this country, that is, child-bearing by mothers who have 3 children or more, of whom at least one is alive, is 48 as compared with only 19 in U.S.A., 14 in U. K. and 34 in Japan.

India's census report for 1951, forecast that the present rate of growth of India's population will increase from 36 crores in 1951 to 41 crores in 1961. The demographic situation of India, given above, gave William Vogt, the standard-bearer of the neo-Malthusians, a handle to make a Miss-Mayo-like accusation that "Sex-play is the national sport". A smart-retort to it has, however, been given by the eminent nutrition expert, Dr. De Castro of Brazil, in his "Geography of Hunger" in the following words:

"The Hindus have never distinguished themselves by physical or even political strength—only by cultural strength. The strength of a culture that for three thousand years has resisted the attacks of a whole series of other cultures that have tried to crush it, commands respect. By concentrating on the 'sport' of reproduction, which is so looked down upon by the neo-Malthusians, Indian civilization has outlived the Greeks and their Olympiads. It has outlived the Romans with their passion for the sport of war, and it may yet outlive other modern civilizations with their love of sport for sport's sake."

#### India's Rapid Growth

In any case, the rapid growth of India's population casts a gloom on the future of our economy. Indiscriminate reproduction is a serious handicap to improvement of the living standard. Steps should be taken to arrest the growth and bring about an equilibrium of population. Maintaining the present standard of living we can stop uncontrolled reproduction, and that means family planning. A stationary population is the aim, and in order to achieve it every married couple should be persuaded to realize their own share of responsibility and obligation towards the planned economy of reproduction. However, birth-control alone as an isolated remedy will not succeed in reducing population. It must be linked with an overall social policy so as to inculcate new ambitions among the people and a new dignity in our women-folk.

The first and foremost item on the programme should be compulsory education, which will divert children from the fields and the threshing floors to schools. Spread of education in this way will also help limiting the family in rural areas.

Dr. De Castro has discovered that fertility goes down as the consumption of animal protein rises. Improvement of our nutrition standards through a larger intake of proteins should be attempted as far as practicable.

Efforts should be made for stricter enforcement of the Child Marriage Act. Marriages thus delayed will enable girls to take advantage of the opportunities of education and cultural pursuits and thus bring about family limitation. There should also be a scheme of social security without which people cannot develop the proper psychological attitude towards their future. In the absence of security in old age, sickness, unemployment or accident, they would bank on a large family to afford them better security.

#### KNOWLEDGE IS ESSENTIAL

Investigations in Calcutta, Baroda, Bombay and Lucknow have shown that the practice of birth control has appreciably spread among the richer and middle classes of society. But still wider dissemination of its knowledge among the poor classes of society is absolutely necessary. Attitude surveys conducted by experts have shown that people are eager to obtain advice on family planning. Emphasis on the need for family planning, from the economic point of view, on the part of a married couple will make a direct and effective appeal to them. For example, a young husband earning, say, Rs. 200 a month will be very easily convinced of the necessity of planned parenthood if he is told that the birth of a child will cause him an additional expense of Rs. 25/- per month for the child's milk, clothes, medical treatment but at the same time his salary may not increase by more than ten or fifteen rupees. In other words, it may be said that while his income may increase by arithmetic progression, his expenditure on every additional child shoots up in geometric progression. An argument on this line is certain to give him food for thought.

Demonstrations on family planning may be imparted through newspapers and literatures. This may be helpful to those who do not have the advantage of consulting family planning centres or do not have time to do so may be benefited by such discussion and advice.

It can not be denied that some progress has been achieved by the Government and non-official organizations in their programme of family planning in India.

Recently, in the Rajya Sabha the Union Health Minister said that during the First Five Year Plan efforts had been primarily directed to build up active public opinion in favour of family planning on the basis of existing knowledge. People on the whole were conscious of family-planning. She added that the stage had been set up for opening more Government-aided family planning clinics especially in rural areas; increasing publicity through audio-visual aids; training medical and auxiliary personnel in family planning; laying down standards for contraceptives; and undertaking demographic as well as

medical and biological research studies. A family planning board was set up in September, 1956.

#### WEST BENGAL'S ROLE

The role of West Bengal in this connection is not insignificant. The State has been working since 1955 on an almost similar line. At present there are 9 family planning centres in West Bengal under the Government. Non-official organizations have also been doing good work in this sphere. The Red Cross Society is running four family planning centres in Calcutta; the West Bengal Branch of the Family Planning Association of India are running 2 centres; the Family Planning Society, the Calcutta South Indian Club, the Railways and some other private organizations are also running several centres. Under the Second Five-Year Plan the West Bengal Government has provided for opening a total of 98 centres spreading over five years at a total expenditure of Rs. 35.54 lakhs. The Government proposes to provide Family Planning Service Sections at all maternity and child welfare centres, health centres and hospitals throughout the State.

## Family Planning

[By Dr. S. CHANDRASEKHAR]

From the national point of view the problem of family planning can be expressed in the form of four propositions—a kind of syllogism: (1) Our national standard of living in terms of food, clothing, housing, education, health and cultural amenities is very low; and everybody from the President and Prime Minister down to the man in the street and the peasant in the village is agreed that we should somehow raise this low standard; (2) Our overall national death rates—infant mortality, maternal mortality and adult mortality rates—are incredibly high compared to those of even certain backward countries in Europe and Latin America, not to speak of countries such as Australia, New Zealand, Holland and Scandinavia which have the lowest mortality rates. Here also all of us are agreed on the need to reduce this high death rate. Once we do this through better public health and medical services, more hospitals, doctors and wonder drugs, we shall prevent millions from dying (a very necessary task indeed) and add huge numbers to the existing population; (3) Our national birth rate is relatively high and the reasons for this are fairly well known. We add more than four and a half millions every year to our population, that is the net addition; (4) The problem now is this: How can we raise the standard of living (which means more of everything for everybody) and cut down our death rate (which means saving more people who in turn will have babies) when we are unable to support the major part of the existing population even at a poor level of living, if at the same time our population continues to increase by nearly five million every year. It is realised that this is an over-simplification but the true dimensions of the problem are of this order. The answer however

is simple. We cannot lower our standard of living any further. We cannot raise our death rate and thus kill off more people! This is unthinkable. We can only stop the torrent of births, which means, of course, Family Planning.

The pertinent question before us in India to-day is not whether we want Family Planning or not but how best we could disseminate the knowledge of it among our wives and mothers who desperately need it. Do our mothers want it? The present writer can affirm without hesitation that at least some eighty per cent of our mothers in rural and urban areas in all culture and income groups want it. Several attitude surveys have been conducted by the writer in different parts of the country on a sampling basis and there is adequate evidence to show that almost every mother at some stage of her reproductive life wants a knowledge of Family Planning.

Why then is the Family Planning habit not widely spread in our country? The prospects are bright with the present substantial support from the Government but our low standard of living constitutes a grave handicap. The present diaphragm and jelly method involving a preliminary clinical consultation is expensive and beyond the means of the average mother. It must be realised that a majority of our wives and mothers live in rural huts, far away from any clinic, doctor, running water, sanitation, and above all, far away from even the few rupees that are needed. Some of the middle and upper middle class families who can afford contraceptives are using them. But, for the masses, what is needed is a cheap reliable, harmless and acceptable contraceptive such as an oral or a biological one. We have to-day the Foam Tablets and these deserve a serious examination and experimentation. We are

also fortunate in that our Government is very much alive to the problem and is tackling this question in earnest. All that is needed is research into an ideal contraceptive from the point of view of Indian rural needs on the one hand, and education and propaganda on the other. A band of devoted workers, doctors, nurses, social scientists and educators are needed to carry this message to our mothers who suffer from improvident maternity.

Our ideal should be happy homes, husbands and wives with two or three children, above the poverty line, and assured of the irreducible minimum decencies of human life. Let us remember that political freedom without economic amelioration or social security is a mockery.

#### A DEFINITION

What is Family Planning? The want of a precise definition and the lack of an understanding of the implications have led to a considerable amount of misunderstanding and unnecessary controversy. Family Planning or Planned Parenthood or Birth Control or better Conception Control is a simple and yet revolutionary human device that separates the two basic human (and animal) impulses—the desire for mating and the desire for offspring. If human beings want mating as well as its natural consequence, children, both impulses work harmoniously and there is no problem. But sometimes, for economic, health or social reasons people do not desire children though they do not want to abstain from mating. If people yield to their desire for mating they have to take their chance of offspring, wanted or unwanted. If they try to be governed by the desire not to have children they have to face the renunciation of sex gratification. Children that you do not want or no sex pleasure that you do want. Birth Control or Family Planning resolves this dilemma.

The dilemma need not arise at all or can be resolved through celibacy (perpetual Brahmacharya), postponement of marriage to a late age, moral restraint or continence (married but not mating), abortion or infanticide (both criminal); but these do not constitute Birth Control or Family Planning as the term is understood to-day.

Scientific Birth Control means contraceptives. Contraceptives are primarily of two kinds—mechanical and chemical. And a combination of these two

methods (diaphragm and jelly) constitutes the best contraceptive technique yet known and is used all over Europe and America, in fact, all over the world. This method enables a couple to limit as well as space births.

Besides this there is also the permanent method of conception control. This is achieved by a simple operation on the male (vasectomy) and a rather major operation on the female performed usually after a delivery (salpingectomy). Once the male or the female undergoes this operation the couple cannot have any more babies at all. The reversal of this operation is well nigh impossible.

Then there is the rhythm or the safe period method of Birth Control. Here there are no mechanical or chemical devices. Therefore, no expense is involved. All that is needed is a knowledge of the time of ovulation in the wife, and having discovered her unsafe period the wife must abstain from sexual intimacy during that time; that is, intimacy is restricted to the safe period when the wife is temporarily sterile. The success of this method implies certain amount of moral restraint which is not undesirable. But unfortunately it is difficult to calculate accurately the safe period and the inherent element of uncertainty renders this method unreliable. Now that family planning has been defined it will be seen that the usual uninformed criticism levelled against it becomes meaningless.

What is the need for Family Planning? The answer to this question can be given from two points of view—individual and national. A couple may want to space and limit the number of children for a variety of reasons. Since every husband and wife want to give the best they are capable of to their children and as they cannot afford (in our present economic context) to do this for six or eight children they would like to have no more than two or three. Relative poverty or a low standard of living and the desire for a better standard are the major reasons. Secondly, the health of the mother may be poor or even bad and another pregnancy may mean serious disability, if not death. In such cases birth control is clearly indicated. There may be numerous other valid reasons peculiar to each couple for limiting the size of the family and in all such cases Family Planning is the only answer.—“THE MIST.”

## FAMILY PLANNING

### Through Municipal Health Services

[By Dr. V. V. Puri, M.B.B.S., D.P.H. (Lond.), D.T.M. (Liverpool), Executive Health Officer, Greater Bombay Municipal Corporation]

With advance in scientific medicine and the discovery of causation of epidemics and preventable diseases during the nineteenth century, the methods of control of these diseases were studied and to a great extent their control measures were gradually introduced. Thenceforward, nature's method of control of population was disturbed. There never was any planned attempt at birth control. This led to the unprecedented growth of population. Whereas there was an immense increase in the

numbers, there was unfortunately deterioration in the quality of the population. It is generally accepted that the number of the under-nourished and physically and mentally disabled men and women has increased. The resources of the world have not proportionately increased. This glaring disparity between the increase of population and the increase in the resources for the maintenance of that population, taking into consideration only the fundamental necessities of life, has urged an

increasing number of experts in various walks of life to find a solution now, so that a catastrophe may be avoided.

#### POPULATION GROWS ON

The growth in the world population during the years 1891 to 1920 has been 1.7 per cent. while the same has increased by 12 per cent. during the years 1921 and 1950. Nearer home, the population of India, according to the Census of the year 1951, was 86 crores and growing at the present rate of birth it would be 45 crores by 1961 and between 60 and 70 crores at the end of this century.

#### VARIATION IN POPULATION

Public health measures have reduced the total and infant mortality rates, whereas the total birth rate has considerably increased.

It has been noticed that women less than 15 years of age gave birth to children and that the maximum confinements were in the age group 20—24 when as many as 10 children were born in some families and families of 3—5 children were most common.

#### HOW HEALTH SERVICES RE-ACT

The health services provided for the community can and must play an important part in the campaign for family planning. A well-developed health organisation, with its domiciliary services, has intimate contact with the homes of the people, and its workers such as doctors, health visitors and midwives can gain the confidence of parents through a variety of services rendered to them and their children. Child welfare centres and maternity homes are in a favourable position to impart instruction on family planning and follow it up with further advice as a part of their visits. Careful planning is essential in view of the magnitude of the work and paucity of funds and trained staff.

#### ORGANIZATION & PROGRAMME

The nucleus of an organization for family planning under a Municipality is a maternity home and maternity and child welfare centre. All the activities should be controlled from this centre. The first maternity home under the Bombay Municipality was opened in the year 1915. Upto 1947, all the maternity, child welfare and family planning activities have been controlled and conducted under the auspices of the maternity homes which constitute centres for family health and planning.

Two family planning clinics were started in April, 1947 which were the first of their kind in India. Now there are 20 such clinics in the city of Greater Bombay. Out of these 20 clinics, 8 are conducted by the staff of the Maternity Homes, 6 by the staff of the municipal dispensaries, and the remaining 6 are under the special staff exclusively appointed for the purpose.

Each of the maternity homes is in charge of a lady doctor, assisted by nurses and health visitors. An outdoor clinic is conducted daily by the staff of the maternity unit. These clinics are

conducted at 3 different places, one at the premises of the maternity home and the other two located within a radius of 2 miles of the main centre. The intention is to make the approach as near to the masses as possible for the sake of their convenience. Each of the clinics is conducted daily, and two days in a week are reserved for family planning work. The staff of such family planning clinics consists of a lady doctor, 4 health visitors and an ayah. It may be stressed that the family planning work is being done with the existing staff of the maternity homes, and therefore, no extra expenditure has been incurred for the setting up of an organization for the family planning work. Some extra expenditure, however, was incurred for educational propaganda work and for the purchase of appliances issued to the mothers.

Besides the maternity homes, there are dispensaries exclusively for the treatment of women and children. The existing staff of these dispensaries is, now, also utilised for family planning work. Six such dispensaries have been selected. A clinic works twice a week at each of these dispensaries.

For the remaining 6 clinics, special part-time staff is appointed. There are 2 lady doctors who work part-time. Each is given a full time health visitor and an ayah. Each of these two teams is in charge of 3 clinics and each of the clinics works twice a week. These clinics are so located that they cover the areas which remain untapped by the other 14 clinics.

A special officer has been appointed, under the designation of Supervising Medical Officer (Maternity), who is in charge of the maternity homes, maternity and child welfare centres, and family planning work, and who in turn is responsible to the Executive Health Officer.

The work done in the Bombay Municipal Free Family Planning Clinics may be divided into three parts, namely, education and publicity, practical instructions to women, and "follow up" of the cases advised at the clinics.

The propaganda section which is the right hand of the Municipal Public Health Department is helpful in educating the masses.

Those attending the clinics are given instructions in practical methods employed for family planning, grouped under three heads, viz: (1) mechanical and chemical; (2) physiological; and (3) operative.

Any method to be successful should be easy in application, cheap in cost and harmless. All the three methods mentioned above are in use in different sections of the community in varying proportions.

Operative methods can only be advocated when a couple has a family which they can well afford. The educated generally have a tendency to apply this method nowadays.

The Bombay Municipal Corporation started with an allotment of Rs. 8,800/- in 1947, and has budgeted Rs. 37,000/- for the financial year 1955-1956.

Cost per patient at the clinic where there is special staff is Rs. 7/- and where there is no special staff is Rs. 6/- only.

## VIEWS AND REVIEWS

### SMALL-POX IN CALCUTTA

Grave concern was expressed by several Councillors at the weekly meeting of the Corporation on Friday, the 11th January, over the increasing number of small-pox cases in the city. The average number of suspected incidence in the city, so far reported, has exceeded ten a day since the last New Year's Day. The number has, however, been reduced for the last few days with the fall in temperature on Thursday after a heavy shower in the afternoon. On that day only one case was reported to be suffering from the disease against five such cases on Wednesday, the day previous.

Although, it was hoped that the heavy showers would have a restraining influence on the incidence of small-pox, still a member of the Standing Health Committee, Dr. R. N. Basu, apprehended that the disease would take its own course this year and urged for having a larger number of vaccinators to cope with the situation. He felt that the present strength of vaccinators in the city numbering 304 would not be able to undertake a mass vaccination drive in a city of forty million or more.

The Corporation at that meeting, however, empowered the Mayor, Shri Satis Chandra Ghosh,

to appoint larger number of vaccinators if he thought it necessary in view of the increasing incidence of the disease. The Mayor assured the House that he would look into the position in consultation with the Chairman of the Standing Health Committee, Dr. P. K. Roy Chowdhury and the Health Officer, Dr. A. Mukherjee, and, if it was found necessary, he would appoint more vaccinators.

The outbreak of small-pox was discussed as a matter of urgent public importance in the House and a few also alleged that many of the inoculators had refused to give vaccination and as a result considerable difficulties had arisen. Dr. Roy Chowdhury, in reply, refuted the allegation and said that there was no truth in the fact that inoculators were not vaccinating. The Chairman of the Standing Health Committee continued that vaccination was going on satisfactorily. He estimated that about 60,000 people were being vaccinated daily. Inoculators had also been asked to give vaccination and they were carrying out the order. Even if vaccination could be given at the rate of 40,000 people a day, the entire population could be protected against small-pox in another month and a half.

During last week, 327,308 persons were vaccinated. The number of vaccinators, although double

LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA

that of last year, seemed at first inadequate for the demand for their services in private houses. The Health Officer also assured that the existing staff was good enough to cope with the demand, if the public utilized their services throughout the day, instead of at certain hours of the morning only. The response of the citizens is so intense this year that every morning and afternoon, long queues of men, women and children are seen before the vaccination centres in the city. Another centre has recently been started at Kalighat Park to meet the demand of the locality. Since 1950-51, when there was a serious small-pox epidemic, the rush for vaccination at the centres had not been so heavy.

Thus there are only three or four vaccinators in each constituency with a total population of 50,000. The vaccinators usually take all aseptic measures at the time of vaccination and all of them hold Public Vaccinators' Certificates after undergoing a full course of training. Besides, the Corporation has already distributed, free of cost, capillary lymph to private doctors for the vaccination of at least 40,000 of their patients. Several private organizations also being supplied with vaccination lymph and assurance has been given for the continuance of the system till the city is free from the epidemic. Besides, the Standing Health Committee, in one of its recent meetings has directed the inoculation staff to help the vaccination drive in the Bustee areas, where there is no sufficient response for inoculation. Their number is nearly 100. The Government of West Bengal is also helping the Corporation with men and material in controlling the spread of the disease.

There were 49 deaths from small-pox during the week ended the 5th January last. The figure included 13 imported cases. The number of cases so far reported during the week was 59. It appears that the disease is confined mainly to the northern part of the city, affecting Wards 1 to 4 and to the Tiljala area, particularly Ward

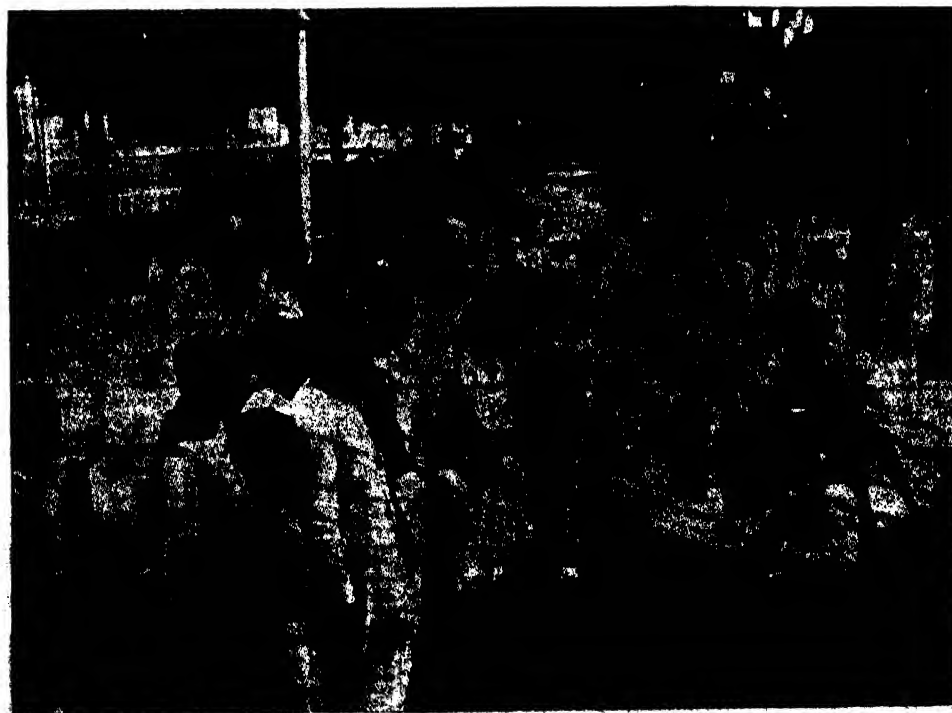

No. 60, where the number of deaths has mounted to 9 in a single week. There have been 106 deaths in the past month. About 6.21 lakhs of persons were vaccinated during this period against 8.2 lakhs in the corresponding month last year.

Temporary regulations under the Epidemic Diseases Act, had been promulgated and anybody refusing to get himself vaccinated was liable to be dealt with under the law. Attempts were being made, in some quarters, to conceal cases of small-pox, but prompt information to the local ward office would help a great deal in arresting the spread.

The health authorities of the city had earlier apprehended that this winter in the city would turn out to be a peak period for small-pox. Figures maintained by the Health Department of Corporation indicate that generally the disease breaks out in epidemic form every two or three years. There has however been no epidemic in the last four years.

The last epidemic occurred in 1951-52, when deaths from small-pox totalled 1,512, and in the year previous, when the city experienced one of the severest epidemics in recent years, deaths were 9,892. The disease accounted for 150 deaths in 1952-53; 174 in 1953-54; 129 in 1954-55; and 52 in 1955-56.

Looking into the causes of the disease some say that the warm spell was unusual at this time of the year and the increase in population. The trend of small-pox figures tended to justify the fears of the health authorities that an epidemic would sure to occur this year. A considerable number of persons have died of small-pox during the last weeks, while in the winter months of 1955-56, the first death from the disease was reported in the second week of February. Deaths from the disease in the first week of December in 1956 were eight, in the second 17, in the third 20 and in the fourth 23, showing a steady rise.

**TULSI GOSWAMI PASSES AWAY**

The lamented death of Shri Tulsi Chandra Goswami, a great patriot and parliamentarian, in the early hours of Thursday, the 3rd January last, removes another distinguished stalwart who prepared the way for our country's independence. For several years the late Shri Goswami had been suffering from blood pressure and the death was due to a sudden heart attack at his residence, Dover Lane, South Calcutta. He died comparatively at the young age of 58. His body was taken in a procession on that day and put to flames at Sahanager Burning Ghat.

On receipt of the news of his death among others those who called at his residence or Keoratala were Shri K. P. Mookerjee, Labour Minister, the Deputy Mayor, Dr. Amar Nath Mukherjee, Shri Amiya Nath Bose, Bar-at-Law, Sir B. P. Singh Roy, Sir Asoke Roy, Sri S. K. Acharya, Bar-at-Law, Maharaja of Sushang, Srijukta Aparna Debi, daughter of Deshabandhu, Nawab K. G. M. Faruqui, Shri Jahar Ganguly, Raja Dharendra Narayan Roy of Lalgola, Rai Bahadur N. C. Ghose, Dr. Bal'n Bose and Shri Abani C. Banerjee.

The late Shri Goswami was a Minister of Finance of undivided Bengal for some time during the last War. But his name spread throughout the country long before that as an able lieutenant of the swarajist leaders late Deshabandhu Chittaranjan Das and late Pandit Motilal Nehru. Goswami shone forth from among the nationalist ranks in the Central Assembly during the years 1924 and 1928 when he thundered against the then bureaucratic regime. Later on, he again started his parliamentary career in the re-constituted Bengal Legislative Assembly as the Deputy Leader of the Congress Assembly Party under the leadership of late Shri Sarat Chandra Bose. But his earlier career was marked with more verve and greater brilliance and probably that was the prime of his life.

In the chapter of Congress politics after Deshabandhu's death in 1925, he was one of the Big Five of the country handling the country's problems tactfully. He was also connected with many of the educational and cultural institutions in the country. To the building up of Chittaranjan Sevasadan he was an active participant. He also fought for a seat in the Lok Sabha during the last General Election in 1952 from his own native place Srerampore.

The Corporation at its weekly meeting on last Friday, the 4th January, condoled his death and adjourned its sitting without transacting any business. In moving the adjournment, the Mayor, Shri Satis Chandra Ghosh, paid eloquent tributes to the memory of late Shri Goswami as a brilliant parliamentarian. Speciality his abilities as a great

orator which flashed in those days were recalled by the Mayor. He shot himself into the political horizon of Bengal after his return from England and soon made himself a figure well-known to all. He became one of the "Big Five" in Bengal politics. He really died a premature death, Shri Ghosh added.

We also extend our sincerest condolences to the members of bereaved family.

A son of Raja Kishori Lal Goswami of Srerampore, the first Indian member of the Lieutenant Governor's Executive Council in Bengal, the late Shri Goswami had his early education at St. Xavier's College and School, Calcutta.

As a young man of fine tastes, brilliant intellect, and of strikingly beautiful features, he graduated from the Presidency College and later went to Oxford from where he took his M.A. degree. Before returning to India he had qualified himself for the English Bar. In 1923 while practising at the Calcutta High Court he was one of the earliest to give up legal robes to follow Deshabandhu.

He entered politics under the leadership of Deshabandhu C. R. Das, and within a short time made his mark as an outstanding parliamentarian. He was the Chief Whip of the Congress Parliamentary Party in the Central Legislative Assembly, and was the Deputy Leader of the Opposition under the late Pandit Motilal Nehru. His speeches during that period won admiration from all quarters, and the then Speaker of the Central Legislative Assembly, Sir Frederic White, spoke eloquently in his praise.

He was elected a delegate by the Indian Legislative Assembly to represent his country at the Empire Parliamentary Association at its session in Canada in 1928.

Shri Goswami was connected with the now defunct Calcutta dailies 'Forward' and 'Liberty' and with several other institutions including the Bengal Flying Club. His generosity and self-sacrifice made the publication of "Forward" possible.

#### DEATHS AND DISEASES IN THE CITY DURING DECEMBER 1956

Calcutta has lost a number of citizens during December, 1956 against a comparatively less number of deaths during a similar period in last year. Deaths from all causes numbered up to 3,085 during the four weeks of December against 2,582 deaths during the same month in 1955.

Small-pox tolled 68 lives during the period showing a steady increase in the number of incidences. Cholera has also taken away 18 lives during the month of December while the city was quite free from those epidemic diseases during last year.

Though not declared as an epidemic still 176 deaths were caused due to Tuberculosis during the month against 166 during a similar period in previous year.

Malaria took 11 lives and Typhoid was responsible for 80 deaths during December, 1956, while deaths from the two diseases were 16 and 29 respectively during a similar period in last year.

#### CITY STILL THREATENS WITH CHOLERA

In view of the fact that the city is still threatened with an outbreak of cholera, the Government of West Bengal have enforced temporary regulations for the prevention and control of cholera and for the medical inspection, isolation, observation and surveillance of persons suffering from or suspected of being infested with cholera in Calcutta for a further period of four months from January 9, 1957.

## T. C. GOSWAMI

TULSI CHANDRA GOSWAMI has passed away, quietly. Of the life about him and around him it may be said there is not a dull page in it, no quiet tone anywhere, nothing subdued. It is loudless. It is life published with a blare. The passing away of T. C. Goswami has created no void in its high places. Nor was he ever imbued with a messianism which is the note of a new faith. He was at a significant period of his life in the van of "the strife of the throng", even carrying the sword of battle, but he did not belong to the priests and prophets of India's destiny. He did not belong to the class of "the certain people" who would design or dare to speak with authority on the riddles of life and society as the priest of this or that all-explaining dogma. He has created no vogue.

Friends and admirers have recalled to mind the Swarajist episode in the Central Legislative Assembly in the mid-twenties and have recaptured the fine careless rapture of Goswami's "Oxford accents" which rang, like a toll of bells, the glory of India, and gave anticipations, symbols, tokens and types of India's freedom a splendour. It is not easy to forget, or to erase, the colour, the incantation of words, the conscious grace, the unwonted variety and gamut of utterance that touched upon the head and the heart as if a master-switch had been thrown there to light up whole roads and tenements of experience. The new India was in the making there.

In "The Indian Struggle" Netaji Subhas Chandra Bose wrote of his first meeting with his Leader, Deshabandhu Chitta Ranjan Das. This is Netaji's story; this is also the story of others who sought and received the initiation. "During the course of our conversation", Netaji writes, "I began to feel that here was a man who knew what he was about—who could give all that he had and who could demand from others all they could give—a man to whom youthfulness was not a shortcoming but a virtue. By the time our conversation came to an end my mind was made up. I felt that I had found a leader and I meant to follow him". Nature's aristocrat, young Goswami, also came and conquered his place in life and history. The spell was complete. It was a compact of souls and minds, and the conversion made of Goswami a soul reborn. In the ample grace of Deshabandhu's leadership, Goswami reached out to new modes of being, and to a vision of a new birth of freedom in India. He was assigned his place, and he came into the fray with an amplitude of comprehension and a richness of imagination which are rare in the arena of political and social movements, a gentleman with the knapsack. Ease, grace, dignity have been given as the exponents and expressive symbols of this gentleman-soldier phenomenon. He brought to his job the tradition of aristocracy, the breadth and culture of mind that spring from wide reading in ancient and modern literature. In the brief spell between his conversion and the death of C. R. Das and Motilal Nehru, Tulsi Chandra Goswami gave "authentic tidings" and revealed the new India on the floor of the Central Legislative Assembly. In the Belgaon Congress he was coming on top. In the Juhu conversations

between Gandhiji and the Swarajist leaders Goswami was a collaborator. In all Deshabandhu's "negotiations" with the British leaders, with Lord Lytton, with Lord Birkenhead, Goswami as personal envoy of his leader played vital parts. His selflessness made the 'FORWARD' possible. His generosity vitalised the Revolutionary movement. But it was all so quiet, as Goswami was quiet. The gentleman kept down the political fighter. In the death of his leader, Goswami was 'beaten'. Where minds combat minds, repelling and repelled, jostling and elbowing. Goswami sought his retreat. He could not summon himself to the usual avarice of praise.

LATE T. C. GOSWAMI

His familiar detachment, which is also the true accompaniment of culture, served him in his active life as also when away from it. His contentment was Upanishadic. There was no fret in him. Netaji kept him up to the last. During the late thirties and the forties there were purple patches in his active life, but there was no self-fulfilment. "Beware of shibbolethes", he was murmuring. "The most distressing affliction," he was saying, "from which this Indian humanity seems to be suffering today is a general disintegration of mind and spirit. . . A slogan or a catch-phrase is a means of momentary survival for paralysed mind, very much like a straw, which a drowning man catches at, hoping somehow to get above."

That "vital soul" could not overcome the weariness of the flesh. But he has lived 'FORWARD'. and the yet unwritten history of India will have to write the script of Tulsi Chandra Goswami. He has written very significant pages in the country's story.

(S. B.)

# CITY NEWS PARADE

**BURMA'S NINTH INDEPENDENCE ANNIVERSARY** was observed in the city on Friday, the 4th January last. The function was held in the Burmese Consulate at Dalhousie Square, with the hoisting of Burmese National Flag by Zaw Win, the Consul-General. It was followed by a two-minute silence as a mark of respect to the memory of the leaders who fell in the cause of freedom. The function concluded with reiteration of the four Independence Day Pledges and the singing of the National Anthem.

The Consul-General said that everyone should join him in praying for peace and prosperity in all parts of the Union of Burma and for the attainment of world peace. He also advised his countrymen to show respect to the laws of the country in which they lived and to promote further the ties of friendship and cordial relations existing between the two countries India and Burma.

In the evening, a reception was held at the Calcutta Club where the Governor, Shrimati Padmaja Naidu, was present.

**DAVID HARE TRAINING COLLEGE:** South Calcutta, observed its Education Week commencing on and from Saturday, the 5th January last. The programme on the opening day included inauguration of the Week and of an exhibition organized in this connection by Prof. N. K. Siddhanta, Vice-Chancellor, Calcutta University.

On Sunday, Shri Haridas Goswami, an eminent Headmaster and an old student of the College presided over the Re-union meeting.

An interesting feature of the week was the holding of daily symposium on different aspects of education.

**GURU GOVIND SINGH'S** Birthday Anniversary was celebrated in the city by thousands of Sikhs, men and women, by taking part in a procession on Sunday, the 6th January. The late Guru Govind Singh was the 10th Guru.

Starting from the Gurdwara in Rashbehari Avenue, South Calcutta, the procession passed along the main thoroughfares, terminating in front of the Gurdwara at Harrison Road. The Granth Sahib and a portrait of Guru Govind Singh were carried on decorated lorries.

Thousands of Sikhs, also visited the Gurdwara Jagat Sudhar on Rashbehari Avenue on Tuesday, the 8th January, where food was distributed free in connection with the same festival.

A programme, arranged by Shri Gurusingh Sabha, was performed in a specially erected pandal in an adjoining park. Poems on the life and teachings of the 10th Guru were recited by well-known Punjabi poets, including speeches and devotional songs.

Early that morning there was a display of fireworks to announce the time when the Guru was born.

**EXHIBITION OF PAINTINGS** of Reba and Somnath, two young and energetic painters was inaugurated at the Artistry House, Park Street. This showed a number of their recent works in oil. There were also some pieces in pastel and a few linocuts and sketches in dry-point.

The exhibition was worth visiting for both the artists displayed clever draughtsmanship, the use of strange and striking hues, strong outlines and a fine sense of composition. While Somnath was rigorously economical in his use of colour and lines, Reba showed her ability to make good application of a wide variety of colours and attractive tints.

**INDIAN PHARMACEUTICAL CONGRESS** held its Special Five-Year Plan Session recently in the city. This was synchronized with the Ninth Annual meeting of the body. A large number of delegates from various parts of the country attended the conference. The deliberations devoted mainly for consideration of a Five-Year Plan for the pharmaceutical industry, trade and profession. Besides, several fraternal delegates from some foreign countries including Burma, U.S.S.R., Pakistan and Ceylon were also present.

Prof. M. L. Schroff, in his inaugural address, regretted the absence of any provision in the Second Five-Year Plan for setting up a Pharmaceutical Institute in the country. He also felt that there should be adequate arrangements for storage and preservation of drugs under different climatic conditions that prevailed over India.

Dr. Nagarajan Rao, Industrial Adviser, Government of India, who presided, dealt in his speech with various aspects of the Indian Pharmaceutical industry and advised the industry to work out arrangements in order to derive benefit from the extensive investigation going on in different parts of the world.

Welcoming the delegates and guests, the Deputy Mayor, Dr. Amarnath Mukerji, called for closer co-ordination between educational institutions and the pharmaceutical industry. The industry should indicate to the Academic Councils of the universities the type of training best suited for the purpose of industrialisation. The Chairman of the Reception Committee also appealed to the members of the medical profession and trade to offer their full-hearted co-operation in order to bring to book those persons indulged in manufacture and distribution of spurious drugs.

**MR. DRAGOLJUB VUKOTIC**, President of the World Federation of the Deaf, and Mr. Li Shih Han, member of the Committee of China's Welfare Association were given a reception by the Bengal Deaf and Dumb Association at Deaf and Dumb School on Thursday, the 3rd January last. Both of them undertook a tour of India in order to study the problems of the deaf in eastern countries.

Being highly impressed with the advanced method of teaching followed in Calcutta School, Mr. Vukotic said that it was an "exciting adventure" for him to look into it.

Mr. Shih Han said that it was only during the last two years, that serious work had been started to rehabilitate the deaf in China. There were, he said, 53 schools for the deaf in China with about 5,000 pupils. In China, he added, there were still unemployed deaf, but their number was very small.

Dr. S. N. Banerjee, Principal of the School, said that his school was the second to be established in India in

## —CITY-NEWS-PARADE

(Continued from previous page)

1893, the first being in 1884 in Bombay. There were now 40 schools for the deaf in India and Pakistan. About 2,000 pupils were studying there.

Shri Bimal Ghose felt the need of opening more schools for the deaf in West Bengal.

**CALCUTTA'S WEATHER:** The city weather has suddenly taken a change during the last few days. After a rather unusual spell of warm winter weather for few days in the city, there was a fall in temperature on Thursday, the 10th January. Fairly heavy showers also drenched the city in the afternoon. The shower was caused by a western disturbance which is passing eastward across north-east India.

A gusty wind rose on Wednesday night and continued till next morning although there was bright sunshine in the early morning. As the day advanced the sky became overcast, and in some parts of the city low rumblings of thunder could be heard. A light shower fell about midday which was followed by heavy ones accompanied with thunder. The fall in temperature continued for several days.

The frequency of western disturbances affecting north-east India has been rather less in December and January than in the previous year. This fact has made winter this season somewhat erratic.

Earlier to this a cloudy sky with light showers was the forecast. Even before that the recorded maximum and minimum temperatures were above normal. And that indicated the warm spell which the city had experienced.

The average minimum temperature in December, 1955, was 57 degree (Fahrenheit) and 59 degree in December this year. From January 1 to January 10 last year, the average minimum was 56 degree while it was four degrees higher this year during the same period. There was a four-degree difference in the lowest maximum temperature in December in the two years. The lowest minimum however did not differ much in the same month.

In November, 1955, there was 3.26 in. of rain, against 0.16 in. in the same period last year. There was no rain in December in either of these years.

# VITAL Statistics

(I)

For the City of Calcutta for the week ending  
29th December, 1956.

## CITY OF CALCUTTA (TOWN AND ADDED AREAS).

The total number of deaths registered during the week was 732 against 805 and 717 in the two preceding weeks and higher than the corresponding week of the last year by 60. The general death-rate of the week was 13.00 per mille.

### TOWN (WARDS 1-27).

The number of deaths registered during the week ending 29th December, 1956, was 586 against 623 and 527 in the two preceding weeks. There was nil death from cholera against nil and nil in the two preceding weeks. There were 20 deaths from small-pox during the week against 14 in the previous week. There was nil death from influenza against 1 in the previous week. The mortality from fevers and bowel-complaints amounted to 7 and 43 respectively against 7 and 51 in the preceding week. The general death-rate of the week was 13.31 per mille per annum.

There were 54 imported deaths. Excluding these, the death-rate of the Town was 12.08.

There were 121 deaths from respiratory diseases against 129 in the previous week.

There were 30 deaths from tuberculosis against 43 in the previous week.

### ADDED AREAS (WARDS 28-32).

The number of deaths registered was 146 against 182 and 190 in the two preceding weeks. Of these, 2 were from cholera, 3 from small-pox, nil from influenza, 5 from fevers, 31 from bowel-complaints and 32 from respiratory diseases. The death-rate of the added areas was 11.96 per mille.

There was no imported death. Excluding this, the death-rate was 11.96.

There were 5 deaths from tuberculosis against 11 in the previous week.

(II)

For the City of Calcutta for the week ending  
5th January, 1957.

## CITY OF CALCUTTA (TOWN AND ADDED AREAS).

The total number of deaths registered during the week was 726 against 732 and 805 in the two preceding weeks and higher than the corresponding week of the last year by 14. The general death-rate of the week was 12.89 per mille.

### TOWN (WARDS 1-27).

The number of deaths registered during the week ending 5th January, 1957, was 584 against 586 and 623 in the two preceding weeks. There was 1 death from influenza against nil

in the previous week. The mortality from fevers and bowel-complaints amounted to 17 and 41 respectively against 9 and 43 in the preceding week. The general death-rate of the week was 13.26 per mille per annum.

There were 45 imported deaths. Excluding these, the death-rate of the Town was 12.94.

There were 112 deaths from respiratory diseases against 121 in the previous week.

There were 25 deaths from tuberculosis against 30 in the previous week.

### ADDED AREAS (WARDS 28-32).

The number of deaths registered was 142 against 146 and 182 in the two preceding weeks. Of these, 2 were from cholera, 7 from small-pox, nil from influenza, 3 from fevers, 26 from bowel-complaints and 25 from respiratory diseases. The death-rate of the added areas was 11.56 per mille.

There was no imported death. Excluding this, the death-rate was 11.56.

There were 5 deaths from tuberculosis against 5 in the previous week.

## KALIGHAT TARUN SANGHA

### CELEBRATES ITS THIRTIETH ANNIVERSARY

The three-day function in connection with the observance of the thirtieth anniversary of the Kalighat Tarun Sangha, an association of the youngmen of South Calcutta, was celebrated with pomp and grandeur a large number of local people attending.

Presiding over the first day's function Dr. Nihar Ranjan Roy, Bageswari Professor of Art and Culture, Calcutta University, felt the need of spreading a true form of adult education through such organizations. He also emphasized the need of libraries to be maintained by such organizations. Prof. Nirmal Chandra Bhattacharyya, M.L.C., President of the Sangha, also spoke. Shri Berry Sarbadhikary gave a brief description of the last Olympiad held at Melbourne, Australia, along with the part played by the Indian Sports team there.

Second day's discussion was directed mainly on cultural side being presided over by Shri Pabitra Gangopadhyay, the famous litterateur. Shri Abindra Chaudhury, the well-known actor and Prof. Asutosh Bhattacharyya were the speakers on that day. There was a competition on 'Recitation of Poems'.

# PHENEOL LAMP BRAND

## A POWERFUL DISINFECTING FLUID

### —DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,  
Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed White arm badges with Black numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

**A. QASIM, Bar-at-Law,**

## ***Mayor's Reception To Science Delegates***

In the afternoon of the 14th January, the inaugural day the Mayor, Shri Satis Chandra Ghosh gave a Reception to the Delegates and members of the Reception Committee of the 44th Session of the Indian Science Congress. The function was held at Greer Park, just opposite to the University College of Science, Upper Circular Road. The guests whose number was nearly 3,000, included many of the visitors from foreign lands as well as the Varsity Vice-Chancellor, Prof. N. K.

Siddhanta, the Registrar, Dr. D. Chakravarty and other educationists of the city.

Below is a picture showing a section of the Reception wherein foreigners took their seats in the front row. The Deputy Mayor, Dr. A. N. Mukerji, several Aldermen and Councillors, the Commissioner, Shri B. K. Sen and a large number of Corporation officials were also present.

#### A BUILDING TO ACCOMMODATE SCIENCE CONGRESS

Synchronising with the First Session of the Indian Science Congress, the first house of the Science Congress would be built in this city. The foundation stone of the building was laid on Thursday, the 17th January by the President of the Association through a brief ceremony (picture above). The one and a half acre of land has been provided by the Calcutta Corporation on a nominal rent. The three storeyed building, construction of which is already in progress, would cost three lakhs of rupees. The cost will be shared by the Union and the West Bengal State Governments. The Association has a plan to add three more storeys.

In presence of a distinguished gathering including the Delegates and a large number of Aldermen and Councillors and Corporation officials (picture below).

Dr. Roy said it was a happy augury that the public institutions and Government were becoming more conscious of scientific values. He also wanted everybody, in whatever occupation he belonged, should develop scientific attitude.

The Mayor, Shri S. C. Ghosh also watched the function.

The others to speak on the occasion were the Deputy Mayor, Dr. A. N. Mukerjee, Prof. Thacker, Dr. U. P. Basu, Secretary and Prof. B. B. Joshi.

The building when built would owe its existence to Councillor B. K. Sarkar, present Chairman, Standing Buildings Committee, Councillor S. N. Sinha and Shri P. Guba, City Architect, in many respects.

## INDIAN SCIENCE CONGRESS

ONCE AGAIN CALCUTTA was the venue of the Annual Session of the Indian Science Congress. Forty-four years ago the first session of the Congress was inaugurated in this city, and was presided over by Sir Asutosh Mookerjee the then Vice-Chancellor of the Calcutta University and a great citizen. On this occasion it was presided over by the State Chief Minister, Dr. B. C. Roy, once Mayor of Calcutta.

Since the first session the main trunk of this Congress has grown itself into a mighty tree spreading its branches into different sections. The Silver Jubilee Session of the Association was also held in this city in 1938. It was then attended by many of the well-known British scientists. But the important feature of this year's session was the participation of the largest number of eminent foreign scientists. They were recruited from almost all the advanced countries including the U.S.S.R. Notable among them was Sir Harold Spencer Jones, an eminent astronomer. He also delivered the Meghnad Saha Memorial Lectures at the Calcutta University. The others included Academician Alexandar Nikolaevich Nesmeyanor, President of the Academy of Science and Dr. J. Robert Oppenheimer, of atomic research fame.

There was another session of the Congress in this city in 1952. On that occasion the Corporation also arranged a Reception to the Delegates and Members of the Reception Committee.

Thus Calcutta which was the venue of the Indian Science Congress for a larger number of occasions among the cities in the Union, claimed to be a place of pilgrimage to the scientists due to the fact of its galaxy of eminent scientists and patrons. To top the list was Sir Asutosh Mookerjee, thereafter Sir J. C. Bose, Acharya Prafulla Chandra Roy, Dr. Meghnad Saha, Dr. Syamaprasad Mookerjee and a large number of their followers. Many a scientists, still living, had once started scientific research work in this city and their names stand in the forefront as Prof. Satyen Bose, Sir C. V. Raman, Dr. B. C. Roy, Sir N. R. Sarkar, Dr. R. S. Krishnan, Dr. D. M. Bose, Prof. P. C. Mahalanabis and a larger number who have followed them. This city have seen them flourishing and adding to the store of knowledge by their great

inventions and scientific postulations. It was here the late Mahendralal Sarkar established his Society for the Cultivation of Science, the first non-official organization for scientific research.

Thus Calcutta can boastfully claim to be a place of scientists' pilgrimage and this has been well established with the laying of foundation stone of the Indian Science Congress Building in the Park Circus area by the President of the Session, Dr. B. C. Roy, in one of the days during the session.

This session was inaugurated by the Indian Prime Minister Shri Jawaharlal Nehru, who emphasized the duties of the scientists in this age of human progress. In an emotional way he warned the scientists not to indulge themselves in the present worldly affairs full of hatred, enmity and so on. The dominating part of his speech was the 'trend of present human thought' which the Indian Prime Minister wanted to mould towards peace and progress.

In his presidential address Dr. B. C. Roy appealed to the scientists to contribute their share towards the development of a human society 'where man may live in peace and in harmony with nature and with other human beings'. At the same time the eminent physician regretted for not having the desired progress in the country in the field of science. He also emphasized the role of scientists in the successful operation of Five-Year Plans.

However, there was a good deal of ethical teachings in the speeches of the Indian Prime Minister and the State Chief Minister. The moral preaching was no doubt good but scientists alone should not be held responsible for all the evils in the world. It must be admitted that the progress achieved, the advancement made in the field of civilization all is due mostly to the great scientists and instances are not rare when they have set many things right abandoning the wrong-doers. They have also played their part well in adding to the store of human knowledge.

The State Governor, Shrimati Padmaja Naidu, as Chancellor of the Calcutta University, spoke and Prof. N. K. Sidhanta, Vice-Chancellor and Chairman of the Reception Committee, welcomed the scientists. The inaugural function was held at a specially erected pandal at the lawn of Science College Building, Ballygunge Circular Road, on the 14th January.

On the following days the Presidents of different branches made their speeches which were attended to by a large number of delegates interested in each.

Demonstration lectures, symposia and such like continued for days together. The delegates were also taken round to different scientific and industrial organizations both within and around the city. Receptions and cultural entertainments accompanied by musical soirees and dance recitals, formed part of the programme arranged by the Reception Committee.

### **Science Has A Cementing Force Between Peoples Of Different Races, Traditions & Customs**

**- Says Dr. Roy**

In his address, Dr. Roy said: "We are living in a new era—the atomic age. Science has found a new and vast source of energy which has put into man's hands great power, for good or for evil.

"Whether the hydrogen bomb will prove to be the doom of mankind or a stabilizing force for permanent peace cannot yet be predicted. Yet it is equally true that materials developed from nuclear reactors can be wholly beneficent. They create a host of new substances which are proving to be of greatest value in research, medicine, agriculture and industry.

"We know that the one pursuit of the physicist and the chemist is the discovery of the nature of matter and energy, the one purpose of the technologists is to apply that energy in changing the social environment, and the one purpose of the capitalist is to make profits through that energy. Both industry and war have provided the momen-

tum which ever increases the output of energy. But can scientists be held responsible for this perversion in physics and chemistry?

"It is not he who declares war, nor it is he who leads armies. Yet he has been commanded to make discoveries of military importance. This is because his problems are given to him by a society in arms or a militant state.

"And yet, it is science which has been the cementing force between peoples of different races, religions, traditions and customs. When a whole population uses a common railway system, telegraph and telephone links, or listens to music and speeches from a common broadcasting station, then science becomes an agency that draws millions of people into one common fabric of human society or social order.

"Man is becoming more civilized and yet discovering more and more destructive weapons of killing. Violence is not known to have given a

#### A VIEW OF MAYOR'S RECEPTION

The Varsity Registrar, Dr. D. Chakravarty busy in conversation with young delegates. The Vice-Chancellor, Prof. Sidhanta can also be seen at a distance.

quietus to violence. No war has been able to end all wars. But the last two wars revealed another distressing feature—the peaceful citizen was as much a victim of hostile action as a combatant at a military establishment.”

Dr. Roy said while scientific progress sometimes took place because of the constant internal urge of the physicist, chemist and technologist to seek newer objects of research, the greatest stimulation to such progress had been dictated by the economic needs of a country or the exigencies of war.

“During the last 20 years, scientists had slowly awakened to this abuse of their talents and discoveries and they now crave for the opportu-

nity to improve the quality of the human stock through wider support and application of eugenics.

“To-day through science, wherever physical expansion of an area is not possible, new means of crop production and new industrial methods are discovered, which go to create the wealth necessary to raise the standard of living and banish the spectre of unemployment. These are brought about through painstaking research.”

Pleading for original researches by the Indian scientists and adaptation of the results of such researches to the conditions obtaining here, Dr. Roy said such researches would be a continuous and no doubt, an arduous process too, “but without it no progress can be achieved in this competitive world.”

Although there had been researches in scientific subjects in India for the past 40 years or so, the country had not achieved much in engineering and technological research.

“The Planning Commission has estimated that in the Second Plan, we will need thousands of graduates and diploma holders in civil, mechanical, electrical, and chemical engineering. These men should not only possess the requisite technical knowledge, but should also be capable of utilizing the resources that we possess.”

Other directions in which the researches “may be very fruitful” were the agricultural techniques for the benefit of our peasants.

#### SANCTITY OF LIFE SHOULD NOT BE VIOLATED

In extending a vote of thanks Shrimati Padmaja Naidu, Chancellor of Calcutta University, appealed to the scientists to take a pledge, individually and collectively, that never should the knowledge that had come from research be used in any part of the world to violate the sanctity of life.

Earlier, welcoming the guests, Prof. N. K. Sidhanta said that they were intimately concerned with the effect of the scientific method on technique in industry and war. While the scientist could look back with pride on what he had achieved so far, he could also look forward to new avenues to be explored in future, he added.

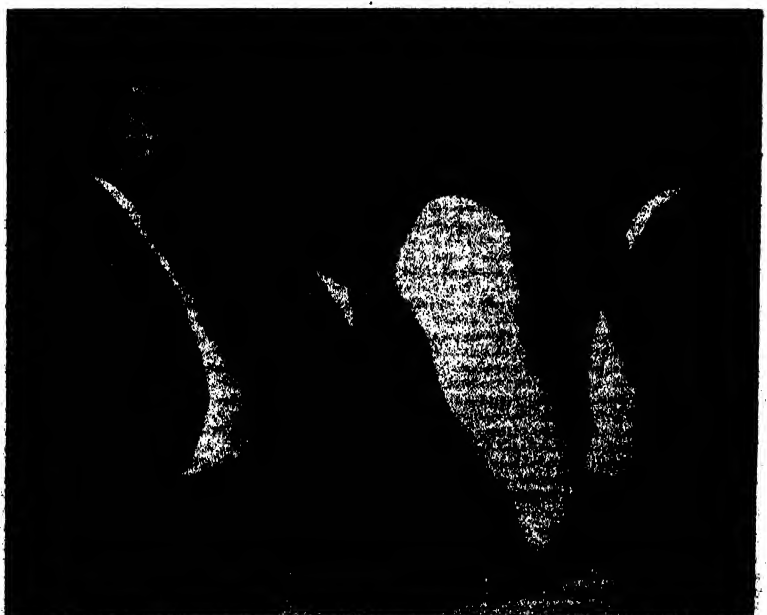

#### SECTIONAL PRESIDENTS SPEAK

On the 15th January and on next day there were sectional gatherings wherein

## SHRI NEHRU SPENDS BUSY DAYS IN THE CITY

INDIA'S PRIME MINISTER, SHRI Jawaharlal Nehru, had reached the city on Monday, the 14th January and left for Delhi in the morning of Thursday, the 17th. During this period he had been at Santiniketan for one full day where he attended the Annual Convocation of the Viswabharati University as its Acharya (Chancellor) on the 15th January.

A crowded programme awaited him in this city and he managed to fulfil almost all the engagements scheduled for him. Within a short period of his arrival he inaugurated the Forty-fourth Session of the Indian Science Congress where not only India's pioneer scientists assembled but also a considerable number of foreign scientists were present on special invitation. Shri Nehru made a comparatively brief speech on that occasion. On that day he went to the Bengal Engineering College, Shibpore, where a Centenary Exhibition was being held. The Prime Minister also addressed the Engineers there.

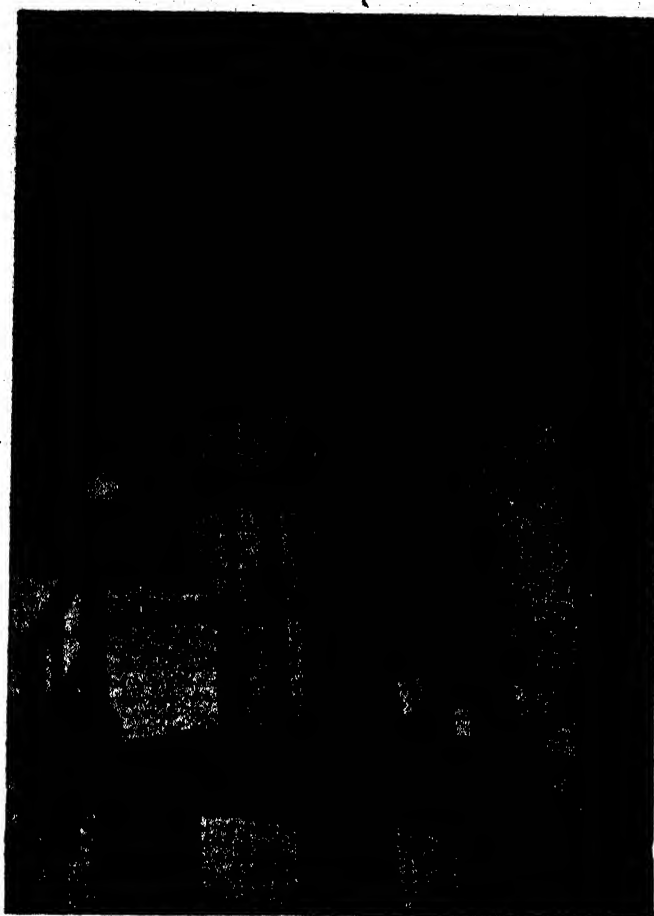

On the very day of his return from Santiniketan Shri Nehru attended the State Reception accorded to their Holiness Dalai Lama and Panchen Lama at Raj Bhavan.

Addressing the Delegates in the Science Congress Shri Nehru said that the problem today was whether science would be used for the good of man or its power distorted and used for evil purposes. He felt that in their journey to the temple of science, scientists should remember that it was one of morals, tolerance and humility. In their search for truth, they should not forget that somebody else might have also a bit of the truth. Truth could never be the monopoly of any person or country and was too vast to be contained in any book, however sacred.

The Prime Minister was received at Dum Dum by the Governor, Shrimati Padmaja Naidu, the State Chief Minister, Dr. B. C. Roy and his colleagues in the State Government, representatives of foreign missions, and senior civil and military officers. From the airport he drove to Raj Bhavan, route being lined by cheering crowds.

Wednesday was the busiest day to the Indian Prime Minister. In the morning Shri Nehru inaugurated the Institute of Child Health in Dilkhusha Street, Park Circus area. Later on, the Institute of Post-Graduate Medical Education and Research was inaugurated by him. The Institute has been established by the West Bengal Government at Suklal Karnani Medical Hospital.

In a 100-minute speech in the Brigade Parade Ground, Calcutta Maidan, Shri Nehru reviewed the

progress made by India during the past ten years under the leadership of Congress and the prestige she had gained internationally by following a policy of peace. He was then addressing an election meeting in the State of West Bengal organized by the Pradesh Congress Committee. A big gathering heard him to speak.

Defending the inter-national policy of the India Government, there Shri Nehru said, that the world had become so small to-day that every country had become every other country's neighbour. While India followed a policy of peace, it was not possible for it to close its eyes to what was happening elsewhere. A country might not be directly involved in war but it was not possible for it to escape the terrible effects of such a conflagration.

In the evening addressing the members of the Calcutta Press Club and a selected distinguished guests, Shri Nehru emphasized that the country's Press must be free but not anti-social. At the same time the Prime Minister felt the essential need of a good and responsible Press in the country.

"The Indian Press has a fairly recognized position in the world, although the circulation of newspapers may be smaller. I hope it will maintain that reputation and will increase it gradually," concluded the Indian Prime Minister.

SHRI NEHRU ADDRESSES THE SCIENTISTS

Sitting on the dais the Chancellor, the Vice-Chancellor, the Mayor and a section of foreign scientists who attended the Session

PHOTO: SUJIT MITRA.

## SCIENTISTS' ROLE IN BUILDING PEACE

In a 25-minute speech the Prime Minister emphasized that a kind of rigidity and narrowness of mind had invaded life in all its phases and to some extent the scientific region too, thus "shutting the doors to a tolerant approach, an objective approach—that approach which not only looks up to heaven without fear but is also prepared to look into the pit of hell without fear"

Scientists were supposed to be "objective seekers of truth" and science had indeed grown because of the great scientists who had sought truth in that way, Shri Nehru said, adding: "But no man, not even a scientist, can live today in a world of his own, in some kind of an Ivory Tower cut off from what is happening, cut from the effects of his own work which so powerfully is affecting the destiny of the humanity".

Continuing his observations the Prime Minister said:—"Science to-day is perhaps beginning to overlap the borders of morals and ethics. If it is divorced completely from the realm of morality and ethics, the power it possesses may be used for evil purposes. But above all, if it ties itself up with the gospel of hatred and violence, then undoubtedly, I feel, it has taken a wrong direction and will bring peril to the world".

Shri Nehru added: "It had struck me that quite apart from the religious issue, there is something worthwhile in the pagan point of view because it has tolerant view of life. It respects the opinion of others and thinks there may be truth in other's opinion too. It takes the universe and the mystery of the universe and tries to fathom it in a spirit of humility. It thinks that truth is too big suddenly to be grasped; that whatever one knows, there is much else to know and that others too may possess a part of the truth. And so while it worships its God, it also honours the unknown God whom it does not know".

The Prime Minister concluded appealing for co-operation towards the nation-building work. "But here we are in the

middle of the 20th century. The past is there only for us to learn from. We live the present and build the future. India is engaged in building her future. The overwhelming problem to-day, he emphasized, was whether they could function in peace. Tolerance was needed most in a world torn by conflicts. He appealed to Indian and foreign scientists to help in building a world of peace, tolerance and compassion.

### INSTITUTE OF CHILD HEALTH

Shri Jawharlal Nehru was much impressed with the good work being done at the Institute of Child Health, Dikhusa Street, Park Circus area while he went there in the morning. Later on, he wrote to the President and the Director of the Institute announcing that he would contribute Rs. 10,000 to the Institute from a Children's fund at his disposal.

Inaugurating the Institute, on the 16th January, the Prime Minister commended the efforts of the organizers, particularly those of its Director, Dr. K. C. Chaudhuri, in building up such an institute, which, though comparatively small, was efficient. Shri Nehru wished their adventure all success. He called it adventure because a few persons, described as common men, continued to work out their plan in spite of financial difficulties.

Before that he was taken round the institute. The institute, which opened a year ago, will serve as a children's hospital and a research centre. It has 50 indoor beds at present and attends to about 100 outdoor cases daily.

### INSTITUTE OF MEDICAL RESEARCH

The Institute of Post-graduate Medical Education and Research, was established by the West Bengal Government at Seth Suklal Karnani Medical Hospital formerly known as the Presidency General Hospital.

This was formally inaugurated by the Prime Minister in the same morning. A lamp with the Institute's name inscribed on it was lighted by Shri Nehru in the presence of a distinguished gathering, including the Governor, Shrimati Padmaja Naidu, the State Chief Minister, Dr. B.

SHRI NEHRU AT CHILD HEALTH INSTITUTE ALONG WITH THE  
STATE GOVERNOR SHRIMATI NAIDU

PHOTO : SUJIT MITRA.

C. Roy and Dr. A. D. Mookerjee, the State Health Minister, on the eastern lawn of the hospital.

Shri Nehru said that research in medicine, as in other sciences, should be based on a balanced outlook. The benefit humanity needed might apparently unrelated to actual needs of the day, but sometimes resulted in great discoveries, and research with a definite object such as to help industrial development.

Continuing his speech, Shri Nehru said that the scientific way was to examine everything and to find out what was right. It was equally important, he emphasized, to provide qualified medical men to look after the health of the people. Until adequate numbers of doctors for villages were available health services would not have reached large sections of the people.

Shri Nehru concluded by asking the practitioners of different systems of medicine not to live

in separate groves. The moment a practitioner, whether of allopathy or homeopathy, ayurveda or unani, thought he alone had the key to the riddle of life, his mind had stopped thinking.

Earlier, explaining the objects of the Institute, Dr. Roy said that the need for planned and organized training in the field of post-graduate medical education and research had been keenly felt. The limitations of the existing system and facilities available in the medical colleges, with their increasing responsibilities in the training of undergraduates, had also been recognized.

The Institute, Dr. Roy pointed out, could draw inspiration from research carried out in the hospital, such as the work of Mr. Edward Hare and Sir Ronald Ross. Sir Ronald carried out research for several years in one of its small laboratories which culminated in his outstanding discovery that malaria parasites were carried by mosquitoes too.

—THE CORPORATION AT WORK— (Continued from page 290(b) )

**WATER SUPPLY CONTAMINATION ETC.**

The House accepted the recommendations of the Special Committee which inquired into the causes of contamination of filtered water in pipe lines and the delay in sinking tube-wells, fitting pumps, laying pipe lines and giving effect to the scheme to augment the water supply as suggested by an Expert Committee in 1945.

The Special Committee's report said that filtered water at Pulta and Tullah was "safe and satisfactory" and that local contamination occasionally took place in the old and worn-out distribution system and because of faulty house

ns.

gested that, among other things, the Corporation's aim should be to maintain full pressure of water mains throughout the day, that 800 million gallons a day should be supplied as early as possible, that the dual water

supply system, of filtered and unfiltered, should be abolished, that old pipe lines and mains should be replaced by new or reconditioned ones, that an additional Tullah-Pultra main should be laid and adequate and efficient staff arranged.

Councillors B. K. Banerjee and Subrata Kumar Sen Sharma, members of the Special Committee, dissented from the majority report.

The acceptance was moved by Councillor J. K. Chaudhury while Councillor Sen Sharma put up a number of suggestions along with an amendment to the recommendations but the latter was not accepted to. The suggestions were referred to the Standing Water Supply Committee for consideration.

**NEW MACHINERY**

The House, on the recommendation of the Standing Water Supply Committee, accepted tenders for installation of new machinery at different Water Supply Pumping Stations.

THE MAYOR RECEIVES HIS  
HOLINESS DALAI LAMA

## Dalai Lama & Panchen Lama In The City

CALCUTTA has so long been visited by high dignitaries, foreign diplomats, educationists and scientists of international fame and even important personages from all ranks of life but on this occasion it was visited by religious leaders who have been held in high esteem by all the Buddhist World. THEIR HOLINESS, THE DALAI LAMA and his trusted lieutenant the PANCHEN LAMA. Both of them possess interesting treats in their past lives and bear legendary references of two thousand years old.

Their Holiness reached the city on Tuesday, the 15th January and stayed at the Grand Hotel. For five days continuously they had busy programmes and they graced those occasions with their august presence.

### STATE RECEPTION TO GRAND LAMAS

On alighting on the red-carpeted platform of the Howrah Station, Their Holiness were received by an enthusiastic crowd. On behalf of the West Bengal Government, Shri P. C. Sen, the Food Minister, received the Dalai Lama and presented him with a white silk scarf and a bouquet. The Chief Secretary, Shri S. N. Ray, received the Panchen Lama and also gave presents to him. The Mayor, Shri S. C. Ghosh also received Their Holiness on behalf of the citizens.

Several Ministers, Government officials and representatives of various associations, were then introduced to the guests. The Speaker, Shri S. K. Mukherjee, the Sheriff, Shri S. C. Ray and others were also present. When they drove to the Hotel a big crowd lined on both sides of the route.

In the evening the Dalai Lama and the Panchen Lama were Guests of Honour at a State Reception at Raj Bhavan. The Indian Prime Minister, Shri Jawaharlal Nehru also attended.

The Dalai Lama and the Panchen Lama had a busy programme on the second day of their visit. In the morning they visited the National Library for over an hour. They attended a State lunch given in their honour by the State Chief Minister, Dr. B. C. Roy at Raj Bhavan. Among those who attended the lunch were Shri Nehru, the Governor and the Maharajkumar of Sikkim. In the evening, the Dalai Lama and the Panchen Lama attended a Reception given in their honour by the Consul-General for China at his residence in Lower Circular Road.

### INSTITUTE OF BUDDHIST CULTURE

Laying the foundation stone of the Institute of Buddhist Culture at Shri Dharmarajika Vihara of the Maha Bodhi Society, Bankim Chatterjee Street, on Thursday, the 17th instant the Dalai Lama expressed satisfaction at the efforts of Buddhist organizations to restore and preserve sacred Buddhist shrines and relics throughout India. In his brief speech on the occasion he expressed the hope that the institute would help the propagation of Buddhism to rid themselves of jealousy, malice and desire for worldly possessions.

The institute will function as a centre for propagation of Buddhism by organizing lectures and classes on different aspects of Buddhist culture. It will also publish Buddhist literature. Built at a cost of Rs. 12 lakhs the institute will have an auditorium, a museum and a library besides accommodation for visiting scholars and students.

### INTERNATIONAL GUEST HOUSE

The Panchen Lama also laid the foundation stone of the International Guest House which will be a wing of the institute building at the back of the Vihara.

Earlier, on arrival, the Lamas said prayers before an image of the Buddha, sprinkling rice on the image from time to time. The two Lamas also gave blessings to many who offered flowers at their feet.

THEIR HOLINESS DALAI LAMA &  
PANCHEN LAMA SAYING PRAYERS  
IN MAHABODHI BIHAR.

PHOTO : SUJIT MITRA.

The Maharajkumar of Sikkim, who presided, described Their Holiness' visit had revived and strengthened the bonds that link the inheritors of the faith in remote Tibet with its ancient fountain-head, India.

Two addresses of welcome were presented to the Lamas on behalf of the Maha Bodhi Society of India.

Kaushak Bakula, the head Lama of Ladakh and Minister for Ladakh Affairs of the Jammu and Kashmir Government, met the Dalai Lama and the Panchen Lama in the same evening.

The basketful of money offered at the public audience, on Friday was handed over to the

Maha Bodhi Society towards the fund for construction of the Institute of Buddhist Culture and International Guest House, according to the desire expressed by His Holiness the Dalai Lama.

The Himalayan Buddhist Gompa of Chakrabare Road, South Calcutta, received Rs. 5,000 from the Dalai Lama for the monastery and a golden image of the Buddha with Khuchen (special cloth). Other presents from the Dalai Lama were: three pictures of the Buddha by Tibetan high lamas, one dargee and a prayer bell.

(Continued on next page bottom)

#### —INDIAN SCIENCE CONGRESS (Continued from page 285)

Presidents of different branches of science delivered their addresses. These speeches referred to the latest discoveries made in their respective branches. This followed symposia and demonstration lectures participated in by eminent scientists, research students—recruited from different Universities. These were repeated with the presence of the foreign delegates.

On the first day sectional presidents on chemistry, physiology, medical and zoology delivered their addresses. They were Prof. S. N. Mehta, Dr. M. B. Lal, Dr. Indrajit Singh, Dr. C. R. Das Gupta and Dr. B. C. Roy respectively. Many of them stressed the need of technical experts in their respective subjects. India's contribution to chemistry was the subject discussed by Prof. Mehta.

A resume of the work done with cuprous oxide rectifiers by Dr. K. R. Dixit and his colleagues since 1980 was given by Dr. Dixit. President of the Physics Section of the Congress, "Semiconducting Cuprous Oxide" being the subject of the address.

Dr. E. S. Narayanan, President of the Agricultural Sciences Section, spoke on the phenomena of insect parasitism and its practical utilization in the biological control of insect pests.

Dr. G. P. Chatterjee spoke on "Metallurgical Research and Education" as President of the Engineering and Metallurgy Section. He made a strong plea for the establishment of an alloy.

steel and ferro-alloy plant within the frame work of the Second Five Year Plan.

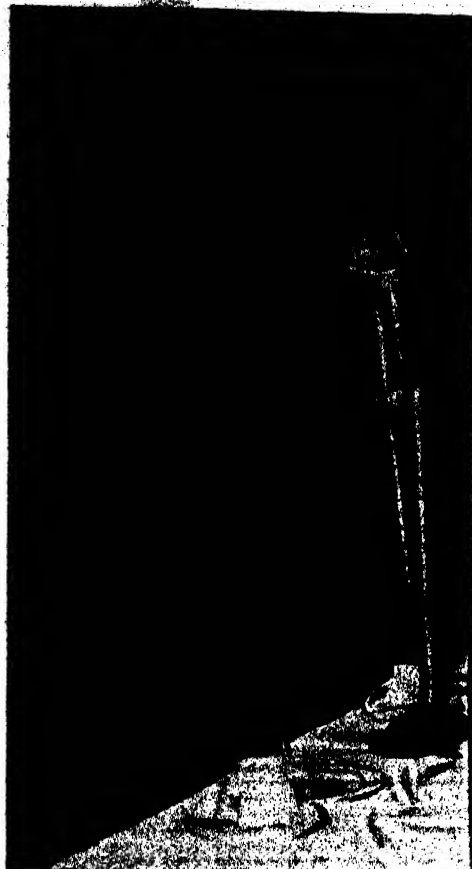

"Place of Psychological Tests in Vocational Guidance" was the subject of address of Prof. S. M. Mohsin, President, Psychology and Educational Science Section. He said that Psychological testing alone could not answer all the requirements of an effective vocational guidance service.

Prof. M. N. Srinivas, President, Anthropology and Archaeology Section of the Indian Science Congress read a paper on "Caste in Modern India".

#### OTHER CONFERENCES

The session of the Science Congress was accompanied by a number of other allied conferences and conventions. Speaking at the inaugural meeting of the Indian Meteorological Society at the University College of Science, on Tuesday, the 15th January, Sri K. D. Malaviya, Union Minister for Natural Resources, called for efforts by official and non-official "meteorologist volunteers" to make people more conscious of the value of this science.

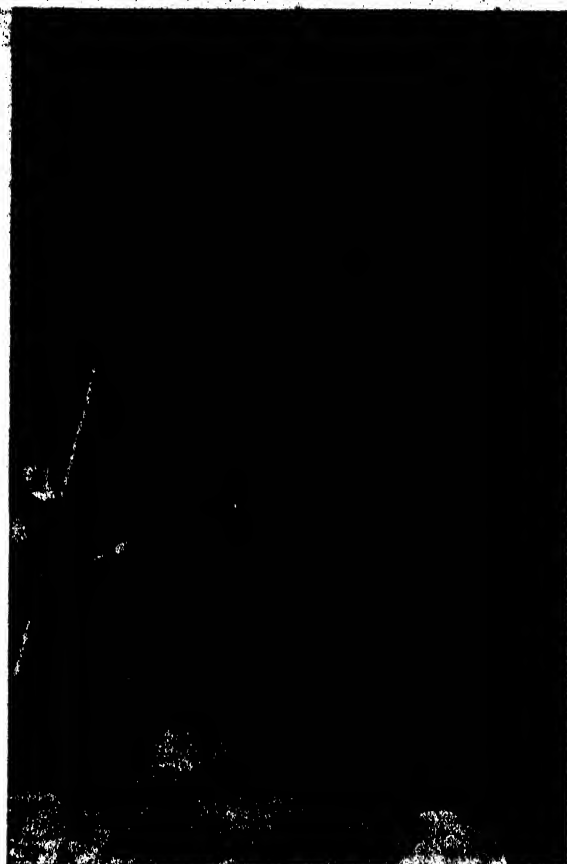

There was another conference of Oil Technologists' Association, on the same day at the same site. The per capita consumption of oils and fats in India has increased from 10.5 lb per year to 11.5 lb during the last five years, said Dr. J. C. Ghosh, member of the Planning Commission, at the special session of the Association.

## THE DALAI LAMA SPEAKS

India, the birthplace of Lord Buddha, is held in high esteem and love by the Tibetans. From time immemorial India and Tibet were bound by common ties of culture, religion and commerce. I am confident that these ties would further be strengthened by the nation-wide celebration of the Buddha Jayanti in India. Around 600 A.D. at the invitation of the Tibetan scholars Indian Pundits had gone to Tibet carrying with them the message of the Buddha. This message is enshrined in the hearts and minds of the Tibetans to this day.

Once again I call upon the people to follow the path of the Enlightened One as that way lay the solution of the problems of the troubled world.

## THE PANCHEN LAMA SPEAKS

I plead for accepting 'Panch Shil,' as an international moral code. 'Panch Shil' which has strengthened the friendship between India and China can bring peace to the world if all the nations accept this international moral code and seek to implement it through mutual co-operation and toleration.

Within a brief period after Independence India has been making rapid progress by producing more food, opening new roads and implementing development projects. I thank the Government for giving all facilities to the Tibetan pilgrims now visiting this country.

## —DALAI LAMA AND PANCHEN LAMA IN THE CITY (Continued from previous page)

The above speeches were made by their Holiness in the evening when West Bengal Buddha Jayanti Celebration Committee gave Reception to the Dalai Lama and the Panchen Lama at the Assembly House lawn on Friday, the 18th January.

Welcoming the Grand Lamas on behalf of the Celebration Committee, Shri Saila Kumar Mukherjee, referred to the age-old friendly relations between Tibet and Bengal by citing historical facts.

After the Reception the Dalai Lama and the Panchen Lama gave audience to the guests and blessed them.

Ven. Jinaratna made an offering of Tibetan robes to the Grand Lamas on behalf of the Celebration Committee.

## PUBLIC AUDIENCE

On arrival at the Brigade Parade Ground in the same morning, His Holiness the Dalai Lama was received with a fanfare and chanting of hymns. His Holiness then recited from the scripture which

advised all to take refuge in Dharma, Sangha and Buddha.

The people present there including a large number of women carrying new-born babies, formed themselves into a long queue, and one by one filed past His Holiness receiving the blessing of the Buddha Incarnate, and a piece of sacred scarf touched by His Holiness.

The Dalai Lama and the Panchen Lama visited the Buddha Dharmankur Sabha in Calcutta, and the Belur Math, headquarters of the Ramkrishna Mission, on Saturday, the 19th morning.

Welcoming them, the Chairman of the Buddha Dharmankur Sabha, Mr. Justice Rama Prasad Mookerjee, said that Bengal had played a great part in spreading Buddhism in Tibet; and Tibet, on her part, had done a service not only to Bengal but to Indian culture in general by faithfully recording the activities of Bengali teachers.

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE TWENTY-SEVENTH ADJOURNED MEETING OF THE CORPORATION  
HELD ON THE 11TH JANUARY, 1957.

## PAVEMENT VENDORS

A number of permanent vendors of the Gariahat Market staged a demonstration before the Corporation building demanding removal of pavement hawkers squatting before the market. The vendors' demands were referred to at the Corporation meeting by Councillor Anil Maitra. In emphasizing the cause of the demonstrators Councillor Maitra said that due to recent drive undertaken by the Calcutta Police in removing pavement stalls in front of the Gariahat Market, the stall-holders had temporarily settled in the open space lying on Gariahat Road. This has caused the diversion of a bulk of customers from the Corporation Market. Voicing the demand of the market stall-holders he urged the House to do something for removing the temporary stalls from the Gariahat Road which was gradually developing into a market attracting a large number of customers. He also acquainted the House that the Corporation was empowered to remove such temporary market according to the provision of the present Municipal Act. At the same time, Councillor Maitra pointed out that as the majority of the temporary stall-holders were being recruited from the refugee people both the State and the Union Governments would do something for their permanent rehabilitation.

Councillor Sachin Sen also re-iterated the same problem. However, the Mayor, Shri Satis Chandra Ghosh, who earlier met the representation, assured the House that necessary steps would be taken in this matter.

## JADAVPUR T.B. HOSPITAL

Councillor Dr. K. P. Ghosh urged the Mayor to take up the cause of the poor patients occupying Corporation beds in the Jadavpur T.B. Hospital. He said that in spite of the fact that the Corporation had agreed to pay an increased rate of charges for the reserved beds the poor patients were still being required to make payment for medicines and other equipments. In this connection, he referred to the agreement at which both the Corporation and the hospital authorities had arrived at some time ago. There might have been some technical defects in regard to this agreement Councillor Dr. Ghosh apprehended. The agreed rate has been arrived at Rs. 2,100/- per year per bed instead of Rs. 1,800/- as fixed earlier.

The Mayor, however, assured the House that he himself would look into the matter in removing the grievances of the poor patients.

## SCAVENGING TAX

The imposition of the Scavenging Tax as provided under the present Act was suspended some time ago due to technical defects. But a case of such imposition was referred to in the House by Councillor Subrata Kumar Sen Sharma, who informed the House that he had come across an incident wherein a poor shop-keeper at Harihar Chatterjee Street, Bhowanipore area, had been

served with a notice for payment of Scavenging Tax. As he was not sure whether this had received the approval of the Standing Works Committee or not, he urged the Mayor to enquire into the matter.

The Mayor requested the Commissioner to look into it.

## NEW PRIMARY SCHOOLS

Based on the joint recommendations of the Standing Education Committee and the Standing Finance Committee, the House decided to open new Primary Schools at the sites mentioned below. It has been decided to hold Classes III to V mainly for boys during the day time and primary classes up to the standard of Class II for infants during morning hours. The House also sanctioned appointment of required number of teachers for the purpose along with the menial staff. The schools

## MAYOR'S T. B. RELIEF FUND

The Mayor's T.B. Relief Fund has been replenished with a sum of Rs. 25,000/- only as a kind contribution for removing the distress of the suffering humanity. The sum came from Messrs. Gemini Circus Co. who had recently been holding their shows at the National Congress Park, Park Circus area.

This was announced in the House by Councillor Dr. B. C. Basu, Deputy Chairman of the Standing Town Planning and Improvement Committee at the weekly meeting. The House also acknowledged the sum as a token of the philanthropic act of the party.

will be held on rented buildings acquired for the purpose on certain conditions.

(i) 9 and 10, Ramnarayan Bhattacharyya Lane.

(ii) 13, Haralal Mitter Street, and

(iii) 174/14, Netaji Subhas Road, Tollygunge.

## ADDITIONAL MILK KITCHENS

The House, on the recommendation of the Standing Health Committee, decided to open nine additional milk kitchens to be located within the following Wards. Sites for many of them will be selected later on.

(a) Ward No. 18, under Borough No. 4 (site selected at 19, Gonbagan Street)

(b) Ward No. 17, under Borough No. 5

(c) Ward No. 81, under Borough No. 7 (site selected at 166, Keshab Sen Street).

(d) Ward No. 48, under Borough No. 10.

(e) Ward No. 49, under Borough No. 10.

(f) Ward No. 65, under Borough No. 14.

(g) Wards Nos. 68 and 69 (1 centre) under Borough No. 18.

(h) Ward No. 76, under Borough No. 16 (site to be selected on B. B. Chatterjee Road).

(i) Ward No. 80, under Borough No. 16 (site to be selected near Rejoygarh Post Office).

(Continued on page 288)

## CITY-NEWS-PARADE

**OBITUARY :** Rai Bahadur Benode Gopal Mookerjee of Bakulia House, Kidderpore, passed away in Benares on the 8th January last after a brief illness. He was 71.

The late Rai Bahadur was a popular figure in the city and was connected with many institutions. He was Director of many a business concerns.

The death was referred to in the weekly Corporation meeting on the 11th January last by the Mayor, Shri Satis Chandra Ghosh, who paid eloquent tributes to his memory.

The death of Dr. Khagendra Nath Basu, occurred at his city residence at Krishna Mullick Lane on Thursday the 10th January last. He was 63.

The late Dr. Basu was a teacher in medical schools in Calcutta, Dacca, Mymensingh, Jalpaiguri and Burdwan for many years. He was a member of the Governing Body of the State Medical Faculty and of the Provincial Medical Council for the last 17 years.

The death of Shri Bhabatosh Ghatak took place on Tuesday, the 15th January at Monghyr, Behar. He was 68.

The late Shri Ghatak was the Chairman of the Basumati Trust which conducts, among other publications, the daily 'Basumati'. He was also an important member of the Bengal National Chamber of Commerce and was a prominent figure in the field of iron and steel business.

The Corporation at its weekly meeting on the 18th January, mourned the above two deaths. Many of the qualities of head and heart of these two dead were referred to in the House.

**FAILURE OF ELECTRICITY SUPPLY** was experienced by the citizens as a result of a breakdown in the converting plant at the Princep Street Sub-station. This cause darkness to a large part of Central Calcutta on Wednesday evening, the 9th January last.

The supply was partially restored after about 20 minutes breakdown and normal conditions came about half an hour later. The failure in the supply, as reported, was caused by damage in the plant.

The areas affected were roughly bounded on the north by Bowbazar Street, on the east by Sashi Bhushan Dey Street, Doctor Lane and Wellesly Street, on the south by S. N. Banerjee Road, and on the west by Chowringhee and Bentinck Street.

There was a similar breakdown in the plant at the same Sub-station on December 17 as a result of which Central Calcutta was affected for a considerable part of the day.

**ADULTERATION :** Chemical analysis by some experts on samples of mustard oil, the cooking medium mainly used by Bengali housewives, shows that in many cases it becomes difficult to declare such oil adulterated even if the presence of groundnut oil in it is detected.

Detection of the presence of some quantity of groundnut oil in mustard oil, is possible by "belliers" test only but there is no provision for such tests in the rules. The result is if this adulterated mustard oil conforms to the specifications laid down in the rules, it cannot be declared as such. Thus the consumers of such adulterated mustard oil are made to pay the prevailing price when one of its constituents, groundnut oil, though edible, is cheaper. A successful drive against such adulteration is not possible due to the defective rules framed under the Food Adulteration Act of 1954.

**A NINE-NUMBER SOVIET FILM DELEGATION** while on a visit to India in connection with the Festival of

Soviet Films currently being held in the city, paid a two-day visit, arriving on Sunday, the 13th January. The delegation consisted of leading actors, actresses and directors of Soviet films headed by Mr. Ivor Rachuk.

On the same afternoon the members of the delegation attended the reception held by the Bengal Motion Picture Association at South Club in connection with the local celebration of the Silver Jubilee of the Indian Talkie. The members also personally appeared on the stage of Society Cinema, the venue of the Festival, during a night show when Prof. Nirmal Kumar Siddhanta, Vice-Chancellor, University of Calcutta, welcomed the visitors. They also attended the show of the Bengali film "Kabuliwala" at Bharati Cinema. Monday, the 14th January was spent mostly in sightseeing, including a visit to a local film studio. At night, the delegation was entertained at a dinner party by the Bengal Motion Picture Association.

**CITIZENS' CLEANER CALCUTTA COMMITTEE** met recently at a meeting at the Indian Club on Debedra Ghosh Road, under the presidency of Shri Radhapada Chatteraj. Representatives of various social and welfare organisations who attended the meeting, formed a sub-committee for an intense drive on Cleaner Calcutta.

The main task of the sub-committee would be to meet the inmates of every house in the locality and to make them understand the scheme of making the city a cleaner one and for better place to live in. They should also induce them to own their bins where house-to-house collection has been started.

To achieve this end the Committee has been organising two educative cinema shows for the benefit of the public. The shows will be arranged on every Sunday at the India Club, 50, Debedra Ghosh Road and on Wednesday at any other place on request. These shows are open to public free of any charges.

D. M. SAHA,  
Lighting Superintendent.

CENTRAL MUNICIPAL OFFICE:  
The 16th January, 1957.

## Notice To Lawyers

The undersigned will be obliged if the lawyers practising in the different Courts in Calcutta, who have not yet taken out or renewed their professional licenses under Section 218 of the Calcutta Municipal Act, 1951 for the current official year, i.e., 1956-57, will please do so not later than the 28th February, next.

The license fee, which is payable in advance, is based on the income, earned out of the profession (vide Serial Nos. 3, 49, 70, and 101 of Rule 1, Schedule IV of the Act), as shown below:—

(a) Rs. 250/-, if the income-tax is payable on an income out of the profession, amounting to Rs. 10,000/- or upwards.

(b) Rs. 125/-, if income-tax is payable on an income out of the profession, amounting to Rs. 6,000/- or upwards but below Rs. 10,000/-.

(c) Rs. 35/-, if income-tax is payable on an income out of the profession, amounting to less than Rs. 6,000/-.

(d) Rs. 24/-, if no income-tax is payable on an income out of the profession.

The Inspectors of the Department have been directed to visit the different Courts every alternate day. The information as to under which of the above groups an individual lawyer is to be assessed may please be supplied to them. Payment of the tax may also be made to them on the spot and proper license receipts obtained. Those who are willing to deposit the tax at the Central Municipal Office may remit the amount to this office on any working day during deposit hours, stating the income-group under which the liability accrues.

The Department will be reluctantly compelled to file prosecutions against the defaulters after the 28th February, 1957.

Lawyers practising in more than one Court in Calcutta will please let the undersigned know the name of the Court from which they wish to take out the license to avoid the risk being assessed at more than one Court. Such information or objections to the assessed demands, if any, may be communicated so as to reach the Department not later than the aforesaid date, viz. the 28th February, 1957, in order that they may be disposed of in time.

S. K. BOSE,  
License Officer (Offg.)

CENTRAL MUNICIPAL OFFICE:  
The 12th January, 1957.

**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed White arm badges with Black numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

**A. QASIM, Bar-at-Law,**  
**Suptt., S. S. Hogg Market.**

# ARCHITECTS OF OUR GREAT 'ALMA MATER'

**JAMES WILLIAM  
COLVILLE**  
First Vice-Chancellor  
(1857-1859)

**GOORODAS BANERJEE**  
First Indian Vice-Chancellor  
(1890-1892)

**ASUTOSH MOOKERJEE**  
A guardian angel of  
Vice-Chancellors  
1906-1914  
&  
1921-1923

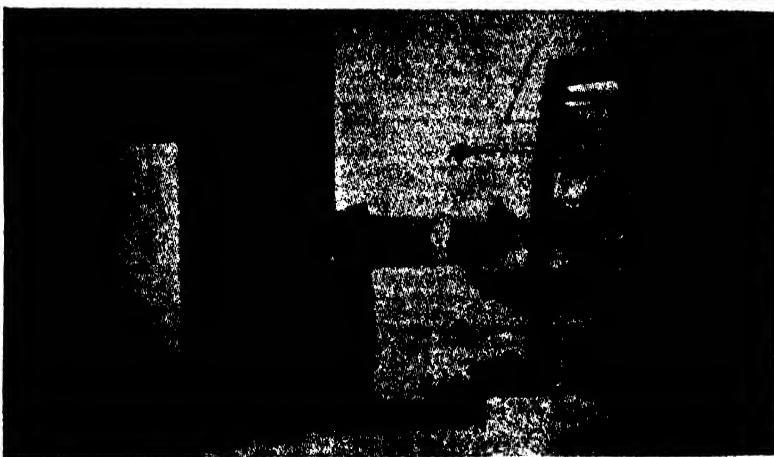

**SYAMAPRASAD MOOKERJEE**  
A Vice-Chancellor who completely  
enshrined Bengali language in the  
temple of learning.  
(1934-1938)

**N. K. SIDHANTA**  
Present Vice-Chancellor

#### CENTENARY CELEBRATION INAUGURATED

Wearing a Doctor's gown, the President of India, Dr. Rajendra Prasad gives his inaugural address while a host of representatives from different Universities both from India and abroad, listening to him. This included Vice-Chancellors of Oxford, Cambridge and other olden Universities of the West. Calcutta's Vice-Chancellor, Prof. N. K. Sidhanta and the city's Mayor, Shri S. C. Ghosh can also be seen in the front row.

## The Calcutta University

IN THE HUNDRED YEARS of its existence the Calcutta University has lived a useful and eventful life. It has focussed Bengal's aspirations. It has absorbed the people's love and veneration. The story of the University is also the story of a nation in making. It has stimulated thought and feeling and emphasized their anticipations. It has brought to us a new awareness of our glory as also of our hope. And to-day though its jurisdiction shrank but its influence remain. The cultural and political life of modern India has largely been shaped and moulded by this University. Because, of these years ideas and ideals have flown from this institution to fertilise the intellects of all Indians. Bengal came to be regarded as useful soil for planting of Western thought and education. Lord Macaulay, one of the greatest advocates of English education, had also observed it. It was he who inspired the then Council of Education in 1845 for founding a University in Bengal. Even earlier, Raja Ram Mohan Roy wanted the Government to promote 'a more liberal system of education' as had prevailed in Western countries. It was by their efforts the motto of the University 'Advancement of Learning' had been adopted even before the University was formally brought into being. To-day, at the Centenary Celebration the country takes the greatest pride in the University's achievements.

The Vice-Chancellor with a glow and a satisfaction gave expression to this pride unhesitatingly:---

*"The seedling which they planted is now a mighty tree: the torch which they kindled is now illuminating all directions."*

ON JANUARY 24TH, the Calcutta University has stepped into the first year of its second centenary, a century which promises to be more eventful than the one it has just passed through. During these years there were darkness and sunshine, obstacles and hurdles. They were years of pioneer activity and of a building up. But it flourished steadily maintaining its grand motto of 'Advancement of Learning.' This was possible only because there were devotion and service rendered by a succession of distinguished Vice-Chancellors on whose shoulders fell the task of piloting its academic and administrative affairs. The architects of this great institution were mostly its able and splendid Vice-Chancellors, whose services would be written in golden letters in the annals of the country. Topping the list was Sir James William Colville, a Chief Justice of the Supreme Court. He had to face an uphill task in nourishing and developing the newly born institution into a full-fledged centre of higher education. 'We are planting a tree of slow growth' said he while addressing the first Convocation of the University. Since then the institution has grown, spreading the glow of western culture in this country. The Vice-Chancellors who followed him were great pioneers in education. They addressed themselves to their work with energy, initiative and distinction. They were men recruited from high office. Still they had the personalities which had rarely submitted to the Ukases and directives of the Bureaucracy. As Vice-Chancellors they used to stand erect whenever they felt it necessary to do so. This brilliant galaxy of early Vice-Chancellors had created a tradition and a vogue and much influenced the activities of the future incumbents.

Almost all of them have left their footprints on the steps of the Senate which is proposed to be rebuilt soon. But with the disappearance of the historic hall will not be forgotten the echoing voices of the mighty past, the voices of the Hon'ble William Ritchie, Hon'ble Henry James Sumner Maine, Sir Thomas Raleigh, and several others who shaped the system of higher education in this country for future generations as well as fought for the liberty and autonomy of the University. Mr. William Wilson Hunter was one among them who sought to enkindle a new light after reviewing the progress of education during twenty-five years of the establishment of the

University. Later on, Gooroodas Banerjee, the first Indian Vice-Chancellor, transplanted the western system of education as it were into with an oriental context. He gave a new oriental touch. And it was Ashutosh Mookherjee, who was successful in introducing the Indian languages in the curriculum of the University studies. He had the foresight and courage of a statesman. But at the same time it is no denying the fact that he imbibed his spirit of dauntless courage and received inspiration from distinguished Indians who pioneered western education in this country, men like Pandit Iswar Chandra Vidyasagar, Mr. Alexander Duff, Sir William Carey, Rev. Krishnamohan Banerjee, Mr. David Hare, Mr. W. C. Banerjee, Shri Anandamohan Bose, Sir Surendra Nath Banerjee and others, whom the nineteenth century witnessed in this country. Thus his voice once thundered;

*'As long as there is one drop of blood in me I will not participate in the humiliation of the University. This will not be a manufactory of slaves. We want to teach FREEDOM. We shall inspire the rising generation with thoughts and ideas that are high and ennobling.'*

The re-building of the University under the guardianship of Sir Ashutosh was a new chapter in its life. Rishi Bankim's '*Bande-Mataram*' Rabindranath's national songs inspired him to enshrine the Bengali language in the temple of learning. But he never neglected other oriental languages rather placed them under one shrine.

The following years were not years of easeful life to the University. Reform and re-organization were the main features in the history of the University during the period. In course of half a century one of the biggest libraries was built up. It extended itself in all branches. Opening up of different branches of scientific research and housing them in new buildings was the main effort of the University for the period between the two wars. However, when Dr. Symaprosad Mookerjee came at the helm of affairs the University could then glory over its achievements.

Leaving apart the inner history, the University has established itself in Indian society on a firm basis. It has established itself in the minds of the educated mass in the country. It has reacted vigorously on the growth of national consciousness among the Indian masses. It has stimulated national thought and has given it a tone and a colour. The medium of the English language has to some extent helped in the unification of the country. The new India has stood on a common platform of patriotism. It has stood forth in the gaze of the world.

CALCUTTA is the seat of this new learning. Home of this University, Calcutta has focussed the Bengali life much more than what London is to Great Britain or Paris is to France. It is both the centre and the circumference of Bengali thought and culture. The light that burns here spreads all over the country. It is also the metropolis of India, the nerve centre of the modern Indian culture.

## **Week-long Centenary Celebrations**

A week with the accent of the CALCUTTA UNIVERSITY'S CENTENARY CELEBRATION Calcutta's air was reverberated with the fine performances on education and learning. Wise words came from the lips of wise men who gathered on the occasion and the largest number of men heard them speak.

It was quite difficult to ascertain the exact date of the beginning of the celebration, although an exhibition in that connection was opened by the city's Mayor, Shri Satish Chandra Ghosh, on the 14th January, the day of inaugural of the 44th Session of the Indian Science Congress. There was also a formal inauguration ceremony on the Brigade Parade Ground on the 20th January. And that was the unique one among the other functions. Apart from an address by

Dr. Rajendra Prasad, the President of the Indian Union, the superb feature was the participation of the celebration by the representatives from different universities both Indian and foreign. They were not mere representatives but the Universities' own people who carried messages of goodwill and co-operation along with expectations for the University in coming years. The special feature was that many of them explained the contribution of the Calcutta University, the country's oldest University, to the development of modern higher education. Messages from universities in various parts of the world were read in English, Latin, Chinese, French and several other languages. Co-operation among universities was however, the main theme of the messages.

In his eight-page address in English, the President dwelt on different aspects of university education in India, with particular reference to the problems of educated unemployment and the media of instruction.

The week-long celebrations came to a close on the 24th January with a colourful ceremonial parade and march past by over 1,500 National Cadets and students of different colleges in the Territorial Army pavilion. The students went on a route-march towards the University Building, College Street, passing through the main thoroughfares in the city.

Shrimati Padmaja Naidu, the West Bengal Governor and Chancellor of the University took the salute.

In a Special Convocation held in this connection, nineteen eminent scholars, including six foreigners, were the recipients of honorary doctorates. This was held on Wednesday, the 23rd January, at the lawn of Science College, Ballygunge Circular Road. Dr. S. Radhakrishnan, Vice-President delivered the Convocation Address, Shrimati Padmaja Naidu, the Chancellor, presided.

Dr. Radhakrishnan said that university education made students inquisitive, critical and freedom-conscious. Bankim Chandra Chatterjee, one of the first graduates of Calcutta University, gave them the "Vande Mataram" song and patriotism became a religion to the youth of the country. It was Rabindranath who gave them the National Anthem. It was the poet who inaugurated the era of world co-operation. His Visva-Bharati bore witness to his faith in cultural co-operation.

The Annual Convocation was also held at the same place on the 19th January. Shri C. D. Deshmukh, President of the University Grants Commission addressed the new graduates.

A festival of students incorporating cultural programmes, sports, debate, exhibition and drama was inaugurated by Prof. Sidhanta, the Vice-Chancellor of the University at Ballygunge Circular Road on the concluding day. This lasted for several days.

### "A CHAMPION OF THE EAST BUT NOT UNMINDFUL OF THE WEST"

The formal inaugural ceremony was watched by a large gathering, including representatives of Indian and foreign universities. The President, an old student of the University, the Governor, Shrimati Naidu, the State Education Minister Dr. B. C. Roy, the Vice-Chancellor Prof. Sidhanta and the Mayor, Shri Satis Chandra Ghosh took their seats on the rostrum wearing on academic gowns. The motto of the University—Advancement of Learning—was prominently displayed on the rostrum.

Representatives of different Universities read out the messages, which spoke of the contributions of the University, the country's oldest University to the development of modern higher education. A message from a Western University expressed the wish that Calcutta University might flourish "as a champion of the East but not unmindful of the West," while another from an Eastern University recalled the University's "asso-

ciation with the struggle for India's liberation." There were messages from Oxford, Cambridge, London and other oldest Universities.

Earlier, when the President, the Chancellor, the Vice-Chancellor and others arrived, they were welcomed by a number of girl students blowing conch shells.

Besides in the messages read on the occasion there were a number of others which were received either earlier to the celebration or later. A message from the Union Education Minister was also read on the occasion.

### FOREIGN MEDIUM HAD PRODUCED MEN OF HIGH STATURE

The President began his speech by tracing the history of Calcutta University, which, he said, was largely the history of the beginning of Western education or modern higher education in India. The University was associated with the Indian

renaissance and the awakening of nationalism through its alumni in a special way.

Although the pioneers of the renaissance had been in the vanguard of an active movement that led to the introduction of Western science and thought through the medium of English, it was not long before it began to dawn on those who were educated in the system that a foreign language as medium of instruction imposed a heavy burden on students. The result, he said, had been a certain amount of superficiality among the largest number of those who had benefited from this kind of education. It was true that even with a foreign medium India had produced men of high stature in all walks of life, but their number was rather small when one thought of the vast numbers who had gone through the mill. He had a feeling that if research were made to find comparative figures showing the percentages of those who had made original contributions from amongst persons educated through their own language and those educated through a foreign medium, it would give no indefinite answer in favour of the mother-tongue being the medium.

Speaking on the present problems of the University education Dr. Rajendra Prasad said that what was required, was decentralization of

instruction and a shift to scientific and technical subjects. At the same time those who were anxious for the advancement of learning should be given greater facilities in the universities. The problem of educated unemployment was fast approaching the saturation point. This might be stopped by screening students at a suitable stage. Those aiming at employment should be diverted in one direction and those with a genuine interest in learning and research in the direction of universities.

#### PAST CENTURY WAS A FATEFUL EPOCH

Explaining the significance of the Centenary Celebrations, the Chancellor said that the century was a fateful epoch in the history of India. In a few months they would celebrate the centenary of another important event—the Sepoy Mutiny, from which came the resurgence for national independence which culminated in the non-violent revolution of Mahatma Gandhi.

Prof. Sidhanta, Vice-Chancellor, recalled "with deep humility our predecessors in this land and outside who through the synthesis of our heritage and Western thought sowed the first seeds of a New India."

#### 'IN HONOURING THE ILLUSTRIOUS UNIVERSITY HAS HONoured ITSELF'

The most impressive function in the celebration was the conferment of honorary degrees on certain persons distinguished for their attainments and scholarship in a Special Convocation. They were described 'as torch bearers of knowledge and have extended the horizon of human thought.' Some of them have worked the greater part of their life in this great city of Calcutta. They have also won distinction and renown in their respective fields. The recipients were presented before the Chancellor by the Vice-Chancellor.

Those who were admitted to Doctorate Degrees in Literature were Pandit Jogendranath Bagchi, described by the Vice-Chancellor as a master of logic and philosophy; Pandit Bidhusekhar Bhattacharyya, a Sanskrit scholar, Dr. Zakir Hussain, a pioneer in the field of basic education in India; Dr. Arnold Joseph Toynbee, the prominent British historian; Shri Nandalal Bose, the well-known artist; and Shri Rajsekhar Bose, the renowned satirist in Bengali literature.

Those who received the D.Sc. degree were Professor Satyendra Nath Bose, Vice-Chancellor, Visva-Bharati University and eminent scientist of international fame; Professor P. C. Mahalanabis, Director of the Indian Statistical Institute; Sir Harold Spencer Jones, the British astronomer of world-wide fame; Dr. Lloyd Viel Berkner, the distinguished American scientist; Shri C. D. Deshmukh, Chairman of the University Grants Commission; Dr. J. C. Ghosh, Member of the Planning Commission; Dr. Tosio Kitagawa, the Japanese expert in mathematical statistics; Dr. K. S. Krishnan, Director of the National Physical Laboratory; Dr. A. L. Mudaliar, a prominent educationist and expert in obstetrics and gynecology; Academician Alexander Nikolaevich Nesmeyanov,

President of the Academy of Sciences, U.S.S.R.; and Dr. J. R. Oppenheimer, the noted American Nuclear Physicist.

Mr. Justice Sudhbiranjan Das, Chief Justice of India, and Shri Atul Chandra Gupta, the eminent jurist and a literary critic, were admitted to the Doctorate Degree in Law.

#### A NEW WORLD OF IDEAS

Tracing the history of the University, Dr. Radhakrishnan who addressed the Convocation said that during the last 100 years the University had opened a new world of ideas and helped to develop new horizons, supported great causes, created new movements in the realm of thought and helped to spread freedom—political, economic, religious and social.

Pointing out that no freedom was real if it did not secure freedom of the mind, Dr. Radhakrishnan said that the universities believed in the unconquerable spirit of man and should provide for men of learning full scope to pursue studies without harassment. The institutions must provide full opportunity to every scholar to follow the standard imposed by his own pursuit for truth.

Referring to the role to be played by the Universities, the Vice-President of the Indian Union said that to some extent, they were responsible for the intellectual and spiritual inadequacy of those whom they produced and for the lack of the crusading spirit against the evils of society. The universities must provide for courses in astronomy, metaphysics and history and inculcate in students a sense of proportion and perspective of super-national values, acknowledging a world

**'UNIVERSITY SPIRIT TO BE INCULCATED'**

(Dr. S. Radhakrishnan, Vice-President of the Indian Union, addresses the Special Convocation while the Chancellor, Shrimati Naidu, and Vice-Chancellor, Prof. Sidhanta and others sitting on the dais).

**SPECIAL CONVOCATION**

**A GROUP OF DISTINGUISHED SCHOLARS WHO RECEIVED HONORARY DOCTORATES**

(In the picture Dr. J. C. Ghosh, Dr. C. D. Deshmukh, Dr. H. S. Janes, Prof. S. N. Bose, Dr. Z. Husain, Pundit B. Bhattacharyya, Pundit J. N. Bagchi, Dr. K. S. Krishnan, Prof. P. C. Mahalanabis, Dr. A. L. Mudaliar, Shri A. Gupta and others.)

### HUNDRED YEARS OF UNIVERSITY ACTIVITIES

In the Exhibition, a wealth of charts, models, maps and photographs in possession of the University, were displayed in many of the rooms of the Asutosh Building in connection with the Centenary celebration. Information and valuable data covering hundred years of its activities, kept on view, rightly symbolized the University as a flowing river.

It was interesting to look into an old work of Thomas Carlyle entitled "Past And Present" with a signature put in by Dr. Rajendra Prosad, one time student of this University adding 'Eshan Scholar' to his name.

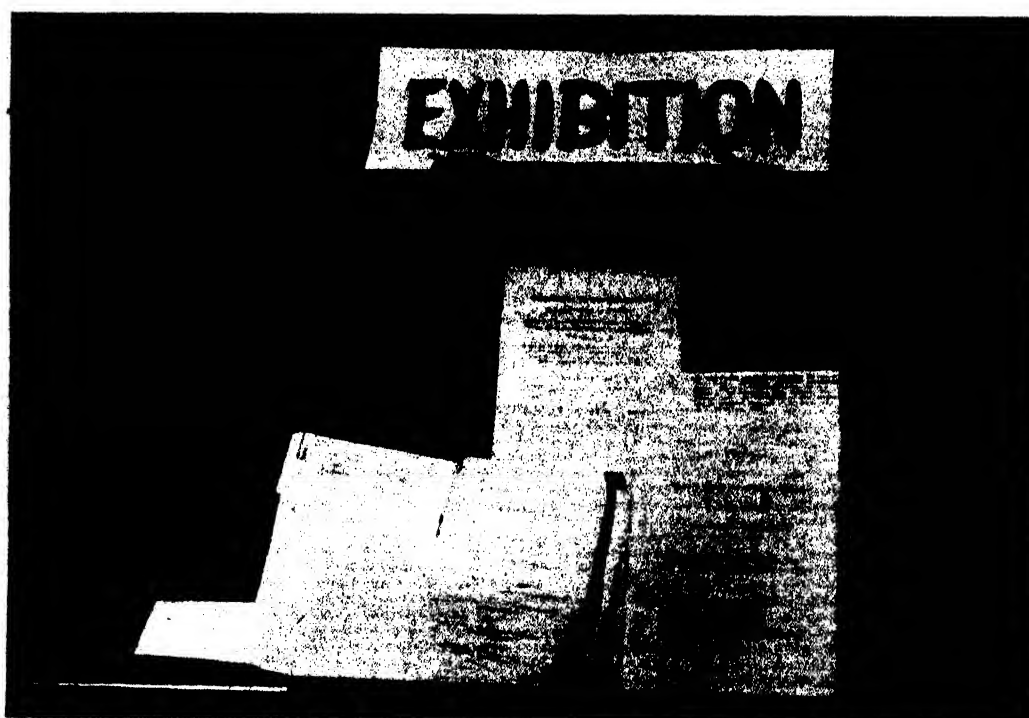

What more appealing were the figures collected by the Socio-Economic Society of the University at the instance of the Planning Commission pertaining to the city. It showed that 38.3 p.c. of families live in less than one room, 41.6 p.c. in one room; 10.7 p.c. in two rooms, 4.5 p.c. in three rooms, 2.3 p.c. in four rooms and 2.6 p.c.

in more than four rooms in the city. It was interesting to look into the conditions of the immigrants of the city who meet their two ends: here are the statistics, 49 p.c. of them are earners, two p.c. are working dependents and another 49 p.c. are the total deadweight on the society.

The Asutosh Museum also put up a few other interesting features on Archeology and Anthropology collected by the Museum authorities.

The Mayor, Shri Satis Chandra Ghosh, who inaugurated the Exhibition on the 14th January, said that it was a symbol of the mighty past and the flowering present.

The pictures show a few pages of old books both in English and Bengali published more than a century ago. There is a book containing 'Speeches of the Marquis of Lansdowne' printed and published by a non-official, Shri Amritlal Brahma of Akrur Dutt Lane, Calcutta, with the permission of His Excellency.

community of national groups. They should strive for comprehension, open mindedness and disinterested understanding of what was alien to them.

Continuing a comparatively brief speech Dr. Radhakrishnan said that the Universities must create and develop the spirit which would revive lost hopes and ignored values. They must recognize that mutual hatred was more deadly than mutual violence. They must civilize human nature by adopting the university spirit which

pleaded for sanity in a period of hysteria; for moderation in place of intemperance, for the rigours of thought against an easy surrender.

Shrimati Naidu spoke about the resilience of Indian culture. In spite of the fact that India had absorbed the culture of different races she retained her own in all aspects. India is, therefore, always in a position to reorient the thoughts of other countries and spread them in a new garb, she added.

## SYMPOSIA AND DEBATES FORMED PART OF CELEBRATION

In between the formal inaugural function and the Special Convocation there were symposia and debate pertaining to University education. These were participated by eminent educationists and leaders in the field of public life.

Participating on Monday's debate Shrimati Hansa Mehta, President of the Inter-University Board of India, Burma and Ceylon, said that students in this country who wished to go in for higher studies must be prepared to know not only more than one Indian language but also one international language thoroughly. If this were done, the question of the medium would not present much difficulty.

According to Shrimati Mehta if an international language—and it should be English—was to be learnt well, its teaching should begin in schools. There need be few hard and fast rules with regard to the stage at which the teaching of English should begin. So far as the universities were concerned they should make it a condition of admission for every student that he had sufficient knowledge of English to follow class lectures and was able to read English books of reference with understanding.

It was a meeting of the Board and was formally inaugurated by the Governor, Shrimati Padmaja Naidu, at the Institute of Jute Technology by the side of the University Science College, Ballygunge Circular Road. The Chancellor said that the problem of medium of instruction should be approached from the point of view that Universities were concerned with the promotion of learning.

### FUTURE OF UNIVERSITY EDUCATION

Presiding over a symposium on the 'Future of University Education in India' Dr. J. C. Ghosh, Member of the Planning Commission drew pointed attention of the educationists "to the colossal waste of time and money inherent in a system dominated more by external examinations than by good teaching".

## CALCUTTA UNIVERSITY CATERS HIGHER EDUCATION TO HIGHEST NUMBER

Just a day before the formal inaugural function the Annual Convocation of the University was arranged. It was held in a spacious pandal on the grounds of the University College of Science in Ballygunge Circular Road. Educationists and many leading citizens attended. Of about 9,000 students, who graduated last year, over 6,000, including 1,200 women were present to receive their degrees, diplomas and medals. Special

medals and prizes were also awarded on that occasion. Shri C. D. Deshmukh, Chairman, University Grants Commission, and a former Union Minister of Finance, addressed the graduates while the Chancellor, Shrimati Padmaja Naidu presided.

Shri Deshmukh prefaced his speech with a reference to the noble tradition of Calcutta University. He also emphasized the need of many

### NEW WOMEN'S COLLEGE OPENED

The Centenary Celebration was synchronised with the formal inauguration of Viharilal College at Hastings House compound, Judges' Court Road, Alipore, by Dr. J. C. Ghosh, former Vice-Chancellor of the University. The institution bore the name of a great benefactor, Rai Bahadur Viharilal Mitra, to the cause of advancing women's education. Twenty-three years ago the late Rai Bahadur bequeathed to Calcutta University a gift of Rs. 48,000 per year. It was out of this endowment that the Viharilal College of Home and Social Science has been established by the University. It will be accommodated in a three-storied building there.

The entire project of the College will cost a sum of Rs. 11.58 lakhs. The Union Government has also sanctioned a grant of Rs. 8.88 lakhs towards the construction of the building.

The course of study in the college will spread over a period of four years. Students during the four years after the School Final examination will prepare for the Degree course in Home and Social Science.

The College, Dr. Ghosh said that this was also a memorial to Dr. Syama Prasad Mookerjee, who with rare foresight and initiative, opened in 1944, against heavy odds, a department of the University for training teachers of home science for the secondary schools of Bengal. It was from this small beginning that this College had grown up.

had advised was at once seen from the poor results of the first examination in which only two students of the Presidency College obtained degrees'.

At a meeting of the Syndicate held on the 11th December, 1858 after the Vice-Chancellor, Sir J. W. Colville had read the Annual Report, the Principal of the Presidency College Mr. J. Sutcliffe presented Bankim Chandra Chatterjee and Jadunath Bose to the Assembly and the Degrees were conferred upon them.

#### COMPOSER OF 'BANDE MATARAM'

Bankim Chandra Chatterjee was born on 27th June, 1838 at Kantalpara in the district of 24 Parganas. Their ancestral house was at Deshmukh (Hooghly). His father Jadab Chandra Chatterjee, was a Deputy Magistrate who enjoyed his pension for 33 years.

Bankim Chandra joined the post on the 7th August, 1858 and was posted at Jessore. For some time he acted as an Assistant Secretary to the Government of Bengal and also rendered meritorious service as Personal Assistant to the Commissioners of Rajshahi and Burdwan Divisions. While in charge of Khulna he helped largely in suppressing river-dacoities and establishing peace and order in the canals on the eastern side of the districts. In recognition of his services he was awarded the titles of 'Rai Bahadur' and 'C.I.E.' by the then British Government.

As a pioneer in modern Bengali literature Bankim Chandra requires no introduction to his countrymen. As a father of 'Bande Mataram' his name spread throughout India. He was also an inspiring angel of the present regeneration in India.

Bankim Chandra retired from service on 14th September, 1891 and died at Pratap Chatterjee Lane, Calcutta on 8th April, 1904.

#### THIRTY-FOUR YEARS FAITHFUL SERVICE

Jadunath Bose was born on 28th October, 1886, in his maternal uncle's house in the village of Sukdebpur, District 24 Parganas. His father's name was Nandalal Bose. The ancestral house was at Boral, 24 Parganas. Jadunath was the younger cousin of Rishi Rajnarain Bose who was the maternal grandfather of Shri Shri Aurobindo

and Shri Barindra Kumar Ghosh, the well-known revolutionary of Bengal. The family's Calcutta residence still exists at 28/1/1 and 28/1/2, Guru Prosad Choudhury Lane, then known as Bahir-Sunla.

Jadunath belonged to a very old and respectable family of Bengal, which was noted for its charties. Having lost his father Nandalal in his childhood he was brought up by his mother who was a woman of remarkable character. After completion of his early education at Sukdebpur, he joined the Hindu College Branch School in Calcutta in 1849. His merit and genius was recognised and he secured a Certificate of Honour from the Council of Education in 1851.

In 1854 the Hindu College was converted into the Presidency College and in the same year Jadunath obtained a Junior Scholarship of Rs. 8/- per mensem from the Branch School of the Presidency College. Mr. Sutcliffe was then the Principal of the College. Next year he obtained another scholarship of Rs. 8/- in the Junior Scholarship Examination of the Presidency College. In 1856 he passed the Senior Scholarship Examination from the Presidency College and won a scholarship of Rs. 25/- tenable for two years.

Jadunath joined the post of Deputy Magistrate on the 28th September, 1858 and was posted at Faridpur. After serving the Government for 34 years faithfully and creditably in different parts of Bengal, Bihar and Assam, he retired from service as a first class Deputy-Magistrate and Deputy-Collector at Krishnagar in 1891. After retirement he settled at his country-seat Bairagipukur, in 24 Parganas, where he took extensively to gardening and agriculture. Truth was the pole-star of his life and through truth alone he wanted to realise God. He died at his ancestral residence at Guru Prosad Choudhury Lane, on the 28th May, 1902 in his 66th year.

The first Twin Graduates of India thus lived and moved in this great city for many years and breathed their last breath here; so we think it is the prime duty on the part of the Calcutta Corporation to do something to perpetuate their memory and to decorate the walls of the Council Chamber with full size portraits of the first Graduates of India.

#### ILLUMINATED SENATE HALL.

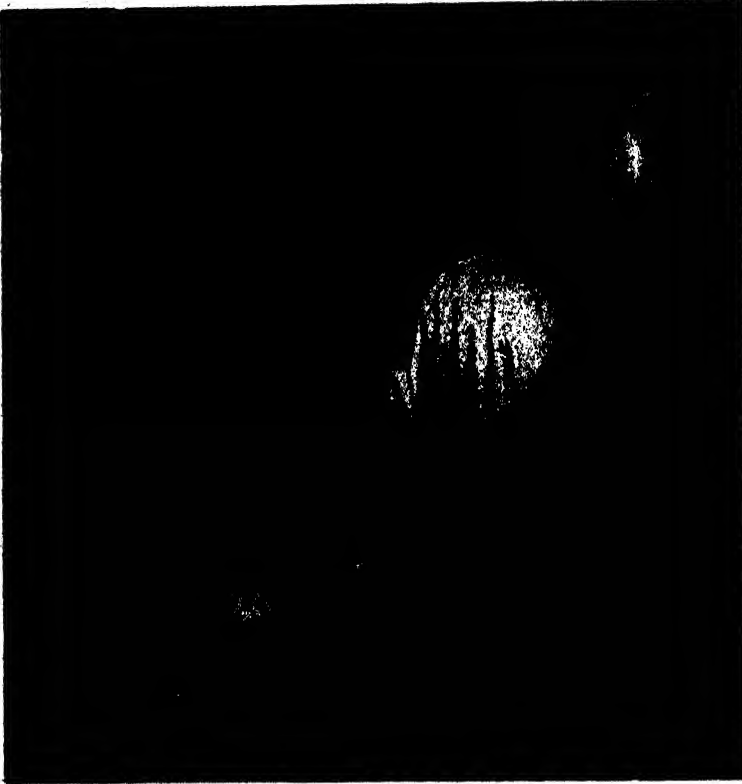

On March 12, 1873, occasioned by the Annual Convocation of the University, the then Vice-Chancellor, E. C. Bayley, C.S.I., I.C.S., said 'Entering to possession of imposing noble hall, the University of Calcutta enters also upon a new epoch in its career.....this building will hereafter constitute its (University's) local home and its visible embodiment'.

The plan of the Hall was made under the Vice-Chancellorship of Hon'ble Justice Walter Scott Seton-Kern, I.C.S. The Governor General in Council sanctioned

Rs. 51,660/- for the site and Rs. 1,70,561/- for the construction of the Hall.

During the first fifty years the activities of the University were restricted in supervising the affiliated colleges and conducting the examinations. The next fifty years, when the University's activities expanded Sir Asutosh Mookerjee arranged to build up the Darbhanga Hall and the Asutosh Buildings. But to-day not one building but several are needed and that is why a multi-storied New Centenary Building on the site of the Senate Hall?

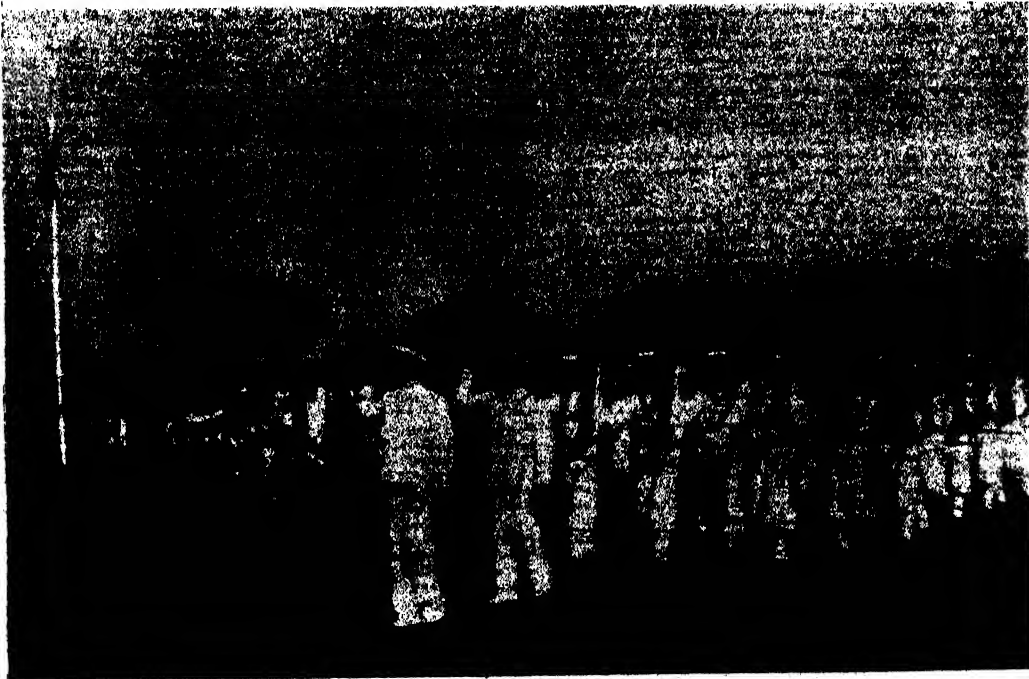

#### OLD ORDER CHANGETH YIELDING PLACE TO NEW

The present Senate Hall would be replaced by a new multi-storeyed building, the foundation stone of which is being laid by Dr. B. C. Roy, while the Vice-Chancellor, Prof. N. K. Sidhanta is watching the ceremony. The function was held on the 18th January last, on the open plot just south of the imposing verandah facing College Square.

Earlier Dr. Roy said that though the existing frame of the Senate House might disappear its legacy and spirit would be sustaining from time to time.

The proposed Centenary Building would be a simple, clear and well-defined solution to a complex problem. The building will house a parking basement, a museum, four auditoriums with 1,400 seats, a library with stacks for one and a half million of books, class rooms, and great apartments.

### CENTENARY CELEBRATION CONCLUDES

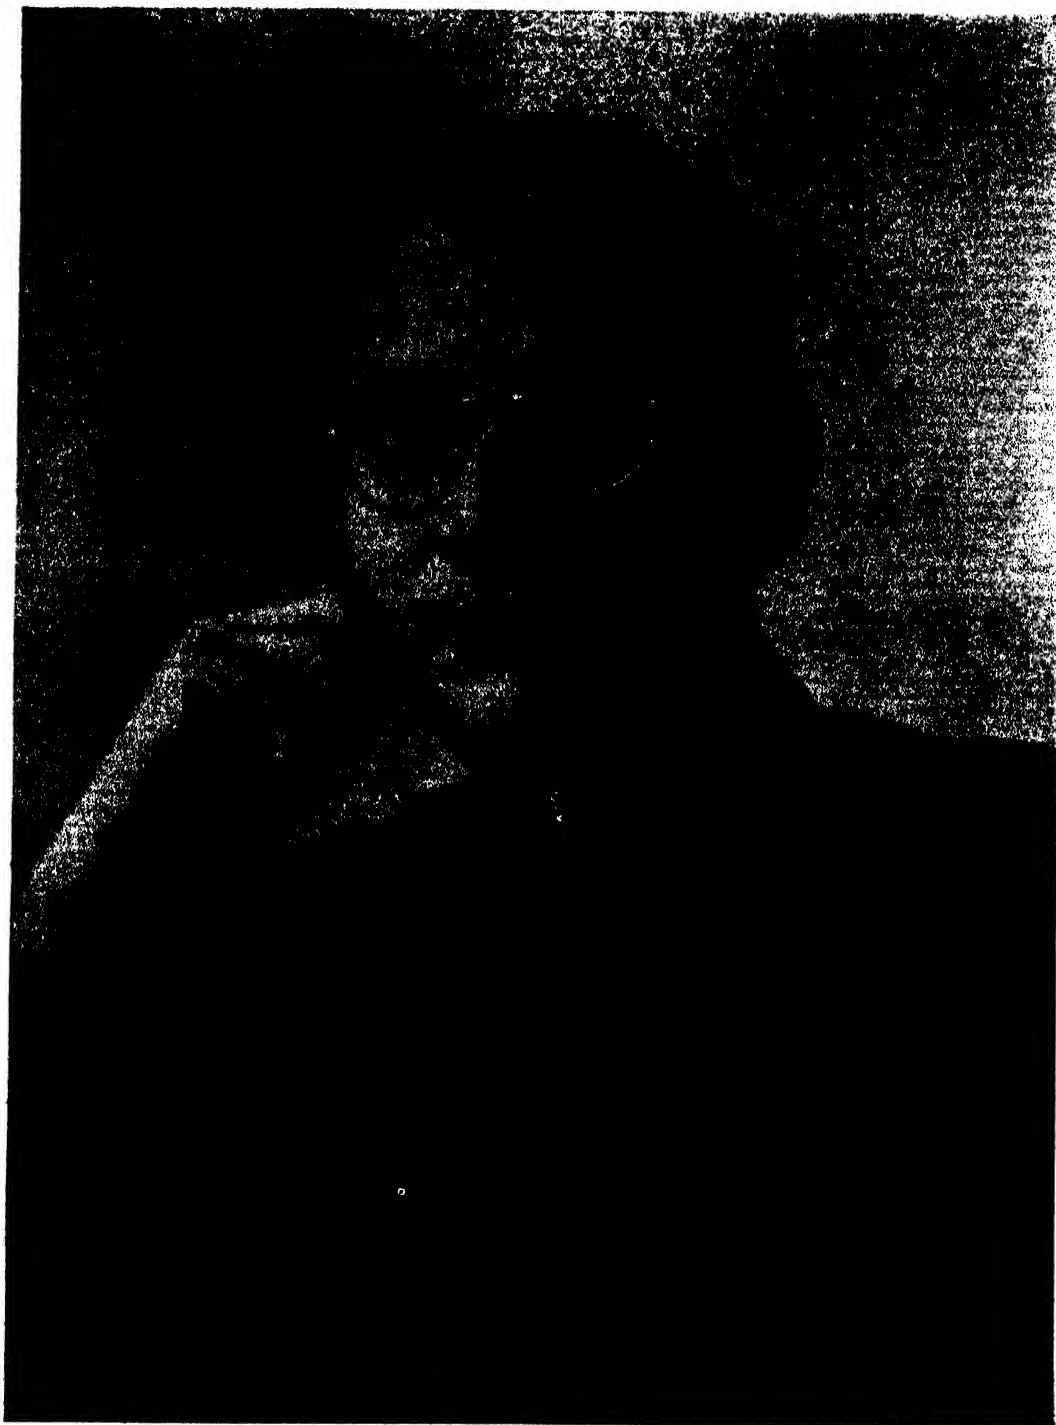

#### MARCH PAST BY UNIVERSITY STUDENTS

The Chancellor, Shrimati Padmaja Naidu taking salute of N. C. C. Naval Cadets on the concluding day, the 24th January. Almost all the N. C. C. platoons of the Calcutta Colleges represented in the ceremony including Girls Colleges and Calcutta Medical College.

## NETAJI

We are easily concerned with the concrete and the immediate. The tendency therefore with all our writers and speakers is to carve Netaji like a vase and put him on an eminence in Imphal. With Netaji however it is the *total* man's reaction to the political arena that is enthralling. Writing of Deshbandhu he once said. "Against the dawn of 1921 there now stood *not merely a wholetime politician but an emancipated soul—a soul reborn*. Inspired by a taste of that fulness of life which brings man nearer to divinity and conscious of a higher duty to his nation and to humanity, he plunged into the thick of the political strife."

This is a keynote to the study of Netaji himself. Early in life, with Swami Vivekananda, he has dispelled the "dull disconnections" of life and its petty patterns. Straying into a hut where a patient has been smitten with the small-pox or trekking to the Himalayas to find a light that was not on sea or land, he sought to bring in something deeper, and wider, a liberty that has "a pattern of its own" to bring him into apprenticeship with the Shape of the Whole. No more was the far-wandering many-imaged life of India's hills and planes mere pockets or patches of experience. It is a sensibility that also permeates a tradition and a whole community. In him there was no more the strain of adolescence, uncertain of its aims, unsure of itself, no more the confusion and discomfort of changing and half-realised beliefs. With Deshabandhu, he has realised the total man's reaction to the political arena. Unlike almost every political worker, he has not been divided against himself. In him the man and the patriot are fully soldered, profoundly intergrated, the one informing and enlivening the other, the two made into one and made significant. It is a new birth of freedom; it is liberty which has a pattern of its own. *It is becoming.*

It is said, from end to end of the earth, and down the whole corridor of recorded history, men have been made. We have noted his early social service. We have noted his youthful quest of the unknown. His European rest-cure between 1933 and 1937 was another spell of apprenticeship. Around 1932, we in India were retreating into a shell, into the self-sufficiency of a formula. Netaji was gazing into the future and searching for a renewal of faiths. Netaji felt that in our life, and in our work, there must be a new spirit, a sense that our task is not to undergo history, but to make it. For several centuries Europe has been the workshop of political thought and action. In the strata of European life, there was liberal thought, social thought, upheavals, ferments everywhere, empire-building. There was also revolutionary foreboding, the muteness of submerged discontent, the struggle of unchained, undefeated and unconquerable forces. Netaji apprenticed himself to this European workshop. The trail lay ablaze from Egypt across East Europe to Eire. Netaji has once described himself as a Pilgrim. Alone, unfriended, unencouraged, even discouraged, he threaded his way into the core of this unrevolutionary life, in Egypt, in Italy, in Czechoslovakia, in Germany, in Eire. He wanted to unravel the genius of Europe. He did it. How he came by his contacts and his friendships is a saga of self-help, of a daring vision, of a self-absorption in duty which is only to be met with in fanaticism and in emancipated souls. That story has not yet been told. He comes back in 1938 with a new vision to wider horizons of untrammelled thought and adventure. He has travelled to Imphal by a tough road, by a very long road. Equal of the proudest, and in tune with the humblest, he says, peace is not passivity. Peace is the fulfilment of freedom. *Shanti* is *Shakti* evoked. That fulfilment is yet to be. But he has built for freedom, for human dignity, untamed, radiant, proud and high. The Pilgrim! The story never ends. *It is becoming.*

## *Sixty-First Birthday Anniversary Celebration*

THROUGHOUT the course of world history there seems to be from time to time an outburst of unusual activity, a display of excessive energy. Such an outburst, such a display of energy was witnessed in the thrilling life-story of NETAJI SUBHAS CHANDRA BOSE. And CALCUTTA with the rest of the country celebrated the Sixty-first Birthday in a most befitting manner. Irrespective of creeds, religions and political ideologies citizens solemnly observed the day.

To the rising generations the day attached a greater significance this year than on previous occasions. It was probably because the issue of the controversy of the reported disappearance of the great leader had not been fully settled in their minds as yet. That is why the speakers in many of the meetings discussed the reports of the 'Netaji Enquiry Committee' while recalling the services rendered by him to the cause of India's freedom. This has also amply indicated that as long as India lives she will remember her noblest son who 'dared to do and actually did what he conceived to be the best interest of his country'.

The day's celebrations began at dawn with 'prabhat pheries' which went round in many localities. Later, ceremonies were held in Parks and Squares, in open spaces and in individual houses in an atmosphere of serenity to pay respectful homage to the great leader of the country. Portraits of Netaji were garlanded and speeches were delivered dealing with the life and ideals of that great soul.

Ceremonial hoisting of the National Flag at Netaji Bhavan in Elgin Road, the Mahajati Sadan in Chittaranjan Avenue, the Central Municipal Buildings at Surendranath Banerjee Road and in parks and other places formed part of celebrations. There were special functions for each of the above institutions and organizations.

Calcutta Corporation observed the day in a special manner in the Council Chamber. There was another function in the afternoon organized by the Employees' Tiffin Room.

Corporation offices, schools and other institutions declared a holiday. So also the State Government offices and city's educational institutions.

The exact moment of Netaji's birth—12-15 P.M.—was announced by blowing of conch shells and the bursting of crackers, 61 in each case, one for each year since his birth.

The Calcutta Station of All-India Radio broadcast several talks on Netaji's life, ideals and activities. Among the special broadcasts was a documentary feature centred around the place in India where the 'Azad Hind Fauz' had first hoisted its flag.

A marble bust of Netaji was unveiled by Professor S. N. Bose, Vice-Chancellor of Visva-Bharati, at the Netaji Subhas Institute, Sealdah.

At night many buildings were illuminated and there were fire-works. Dramas based on Netaji's life were also played.

### NETAJI'S IDEALS STILL REMAIN FRESH

The Corporation's solemn function in observance of the Sixty-first Birthday Anniversary was held in the morning in the Council Chamber under the presidency of the Sheriff of Calcutta, Shri S. C. Roy.

The function was brief but in a sublime atmosphere. Floral wreaths were offered at the foot of the portrait of Netaji placed inside the Council Chamber, while music went on  
হে বীর পূর্ণ করে তোমার আসন শূণ্য অর্জি—National songs punctuated the air throughout the function.

Speaking on the occasion Shri Roy observed that the whole of India would every day think of Netaji. His ideals will remain ever installed in the minds of the people. The ideal of sacrifice can be witnessed in the life of Netaji even from his childhood days which the Indians should try to imbibe among themselves, the President said.

In the history of India's struggle for freedom, Netaji's contribution ranks highest. Wherever Netaji may be now, his memory will remain ever fresh, he added.

India, Shri Roy continued, had won independence but there was still poverty and suffering. At this stage, the services of a leader like Netaji Subhas Chandra Bose would have been of immense value.

Shri B. K. Sen, Commissioner, urged the people particularly the employees of the Corporation to transform "the city of palaces into a city

of lovely homes", an ideal left by Netaji long before the independence was won.

Other speakers included Councillors J. K. Chowdhury and J. L. Saha, Shri Kshitish Ghosh and Abinash Bhattacharjee. The music was provided by the 'Paura Pratisthan Natya Sangha'.

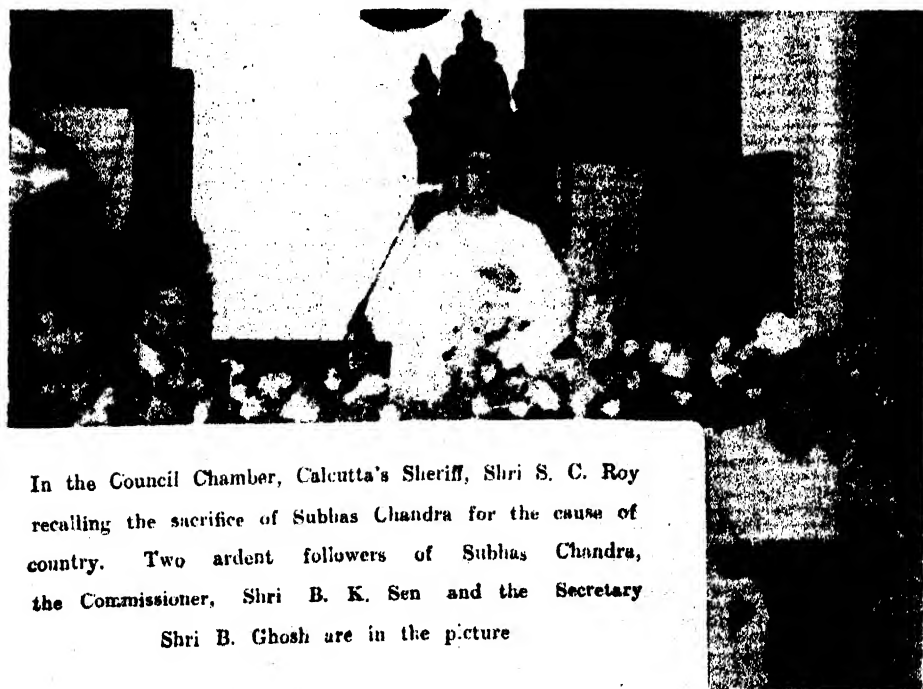

### AN INDOMITABLE COURAGE

Whatever might have happened elsewhere the function at Netaji Bhavan, Elgin Road, where the great leader lived and moved, was considered to be the most sacred one to the citizens. The very room of the ancestral house where Subhas Chandra spent his days after his release in 1940 and from where he planned his future programme for country's struggle, seizing the then international situation, was kept open for the visitors.

An impressive exhibition was also inaugurated there in the morning by Shri B. S. Kesavan, Librarian, National Library, Calcutta.

One of the exhibits—a letter written by Subhas Chandra at the age of 14—showed how a desire for renunciation of the world in favour of the life of Sannyas was haunting Netaji since early youth. A number of rare unpublished documents about Netaji at various stages of his life were also on show at this interesting exhibition. Besides, some of the articles of daily use of Subhas Chandra had also been kept in his bed-room.

The other exhibits had bearings on Netaji's escape in 1941 from his residence where

In the Council Chamber, Calcutta's Sheriff, Shri S. C. Roy recalling the sacrifice of Subhas Chandra for the cause of country. Two ardent followers of Subhas Chandra, the Commissioner, Shri B. K. Sen and the Secretary Shri B. Ghosh are in the picture

PHOTO: SUJIT MITRA.

he was under house arrest, his journey across India to Peshawar, thence to Kabul and through war-time Europe to Japan.

The exhibition was put up under the auspices of the Sarat Bose Academy. Throughout the day many people visited the exhibition of photostatic records and photographs depicting his life.

Opening the exhibition Shri Keshavan said that it would be wrong to suggest that Netaji had ever approved of the policies of Germany and Japan during the war.

The remarkable as well as indomitable courage exhibited by Netaji, had rarely been equalled by anybody in this country nay in the world. The formation of the I. N. A. and its reported achievements were not merely a symbol but a driving force in the country in re-building India. 'It is not dead but a living legend for the future generations,' added Shri Keshavan.

Continuing his speech the Librarian of the National Library said that history had witnessed how noble and mighty was the leader in these days of the early forties. In that connection, he referred to the story of Subhas Chandra winning the Presidentship of the Indian National Congress in 1939. It is a story of a patriotic heart but unbending to nobody except to the supreme soul, he said.

Mr. Zaw Win, the Consul General of Burma in Calcutta, read a letter from Mr. U. Nu, a former Prime Minister of Burma. The letter paid glowing tributes to Netaji. It also recalled his activities in the Burma front as Supreme Commander of the Indian Liberation Army. A few personal impressions were also added in the letter.

Earlier, welcoming all, Shri Amiya Nath Bose said about the significance of observing the day at Netaji Bhavan. He said that the house once bore the footprint of all the great leaders of India.

Even Mahatmaji had the chance of visiting the place where once the leaders took historic decisions on the future plans of the country's struggle.

A large number of citizens were present on the occasion including many of the old associates and followers of Netaji.

A week-long programme was arranged by the Academy which included musical soirees, debates and discussions. A review of the history of India's struggle for freedom spreading over a hundred years was made on one of the days.

#### A MEMORABLE DAY

The Corporation Employees' Tiffin Room owes its existence to Shri Subhas Chandra Bose, when he was at the helm of its administration in the twenties and it was befitting to observe the Birthday of Subhas Chandra synchronizing with its foundation day. Employees in thousands gathered on the occasion in the afternoon. A portrait of Subhas Chandra was beautifully bedecked with flowers and foliage and was placed on the dais. Sweet air pervaded the atmosphere with the burning of incense. The Tiffin Room has already set apart a sum of rupees twenty thousand for establishing an Institute after the name of Subhas Chandra. Corporation help has also been assured in this direction. A bust of Netaji might be installed there.

There is another project for starting a fund in order to donate a scholarship to a boy securing highest marks in the School Final Examination. The Scholarship will be restricted to the sons of Corporation employees and it will be tenable for two years only.

Shri Hemendra Prosad Ghosh, the veteran journalist, presiding over the function said that

the day should be observed as a memorable one throughout the country. Recalling the earlier period of country's struggle, the octogenarian journalist said that Bengal had the unique privilege of producing leaders of men who took arms for the country's cause and the name of Subhas Chandra should be written in golden letters in the annals of the country in that connection.

The Commissioner, Shri B. K. Sen, observed that it was the inspiring voice of Netaji Subhas Chandra which prompted the fighters of freedom to launch a struggle. So also the same voice once inspired the citizens to serve the city. He was a 'derived force' which had been imbibed by the employees of this civic body to serve the people in other ways so that the people might turn to be a mighty nation.

Shri Abinash Chandra Bhattacharjee, Secretary, Employees Association, and others also spoke. Shri Aniruddha Sanyal extended a vote of thanks to the President and others while Shri Sailesh Chakraverty, Secretary, Tiffin Room was all in attention to the guests.

#### TWO COLOURFUL PROCESSIONS

At a largely attended meeting at Maidan a resolution was passed protesting against the decision of the Union Government in acceptance to the report submitted by Janab Shah Nawaz Khan and Shri S. Maitra and propagating it as the report of the 'Netaji Inquiry Committee' without taking into consideration the report submitted by Shri Suresh Chandra Bose, the only non-official member.

As in previous years, the most spectacular of the day's events were the two big processions, one from Deshbandhu Park in northern part of the city and the other from Deshapriya Park in South Calcutta. Many people, particularly women and children, lined the routes. Among those who participated were a large number of volunteers on bicycles and motor cycles as well as in lorries and jeeps. Life-size portraits of Netaji in uniform were carried in lorries. Interspersing the processions were volunteers on horse-back and pipe bands.

The processions, after passing through the main streets of the city converged on the Maidan where the meeting was held under the auspices of

the 'Netaji Birthday Celebration Central Committee'. Dr. Kalidas Nag presided.

Shri Suresh Chandra Bose, Shri Soyumendra Nath Tagore, Shri Deven Sen, Shri Jatin Chakraverty, Major Satya Gupta, Janab Mohammed Khan and Shri Dwijen Bose addressed the rally dwelling on the life and activities of Netaji. They exhorted the people to bring into reality Netaji's ideals.

#### OTHER FUNCTIONS

A week-long schedule of variety performances and display was inaugurated in Mahajati Sadan, at a function presided by Shri Hemanta Kumar Bose, M.L.A. Shri Suresh Chandra Bose, who was the Chief Guest of the function, in course of his speech, advanced arguments to counter the theory that Netaji died in the plane crash at Taiwan.

The building had just been completed by the West Bengal Government. The foundation stone of the building was laid by Rabindra Nath Tagore in 1989, and the Sadan was originated by Subhas Chandra Bose.

Besides, a number of functions were arranged in the city mostly organized by the local Congress Committees. The function at South Calcutta was most illuminating one.

There was another function at Deshabandhu Pathagar, Lansdowne Road, where Subhas Chandra acted as its first Secretary. Shri Satya Ranjan Bakshi, once a close associate of Subhas Chandra, who addressed the gathering, declined to accept the verdict of the recent Enquiry Committee. He stressed that Subhas Chandra was a great political prophet and could foresee future happenings in the international field. That is why he established a tie of personal friendship with the leaders of Europe even before 1987 while in exile there in order to enlist foreign help in country's liberation movement.

#### TEMPORARY VACCINATION STATION OPENED

In order to extend co-operation in the vaccination work of the Corporation of Calcutta, a temporary Vaccination Centre has been organized by Sikdar Bagan Milan Sangha at 12/1, Sikdar Bagan Street, Calcutta-4, for the benefit of the citizens of the locality. Hundreds are being vaccinated at the centre.

## Highest Dignitaries In The City

### THE PRESIDENT GREETS THE MAYOR.

Standing beside the Mayor, the Ministers  
and Deputy Ministers of the West  
Bengal Government.

PHOTO : SUJIT MITRA.

CALCUTTA has recently been visited by the highest dignitaries in the country. The President of the Indian Union, Dr. Rajendra Prasad had reached the city on the 19th January last on a two-day visit in connection with the Centenary Celebration of the University of Calcutta. Besides, he had attended a number of functions during his stay in this city.

The President was received at Dum Dum by the West Bengal Governor, Shrimati Padmaja Naidu and the Chief Minister, Dr. B. C. Roy, when he had emerged from his plane 'Raj Hans' on a mid-Saturday. Dr. Roy conducted the President to the State Ministers and leading officials. The Mayor, Shri S. C. Ghosh, the Sheriff, Shri S. C. Roy, the Speaker of the Assembly, Shri S. K. Mukherjee and Major-General, Henderson-Brooks, G. O. C., 20th Division, were also introduced to the President by Dr. Roy.

The President then took the salute at a guard of honour presented by the 8th Rajput Battalion.

A large number of people watched the President's arrival. The eight-mile drive to Raj Bhavan was lined by people who cheered him as he passed. The President stayed at Raj Bhavan.

Speaking at a Reception given in his honour by the President of the Indian Chamber of Commerce, at India Exchange Office, Dalhousie Square, on the same afternoon, Dr. Rajendra Prasad said that members of the business community should be prepared to adjust themselves to the changes that had taken place in recent years.

#### A COMMON SCRIPT FOR INDIA

The President also addressed the Convocation of the Bharatiya Hindi Shiksha Parishad at

the Marble Hall, Raj Bhavan. He said that those who propagated Hindi and other regional languages should think seriously if they should not adopt a common script.

Pleading for a common Devanagiri script for the country, particularly in the upper region of India, Dr. Prasad said that Bengal had been a great centre for the propagation of Hindi at a time when the language had not the same recognition as it had to-day. He hoped that Bengal would take the lead in adopting a common script by doing a great service to the nation.

The President, however, emphasized that regional languages should be given every scope for development. It is also a healthy and encouraging sign that non-Hindi-speaking people are devoting themselves to the popularization of Hindi among greater numbers, added the Indian President.

#### BRIGHT FUTURE OF MUSIC

Inaugurating the Fourth Anniversary of the Alauddin Sangeet Samaj at Khanna Cinema Hall, Dr. Rajendra Prasad said that the future of music and other arts in India was bright.

Gone were the days, the President added, when only the rich and aristocrat could have the benefit of music. Music was being increasingly brought within the reach of the people and there had been a remarkable improvement in public taste in recent years.

He said planned encouragement to music and other arts was being given by the Union and State Governments. The establishment of the Sangeet Natak Akademi at the Centre and similar bodies in different States, the honouring of distinguished artistes, and other steps taken

by the Government since independence had helped the propagation of music.

The President listened to the early part of the programme. The Ali Akbar-Nikhil Banerjee direct on the sarod and the sitar and the vocal recital by Ustad Bade Ghulam Ali Khan were the chief attractions of the night.

The objects of the Samaj were earlier explained by Shri B. L. Jalan, Chairman of the Reception Committee, Shri B. K. Guha, Joint-secretary and the Ex-Mayor, Shri Naresh Nath Mockherjee, M.L.A., who presided. Establishment of a record library of the great masters of past and present, and a museum of musical instruments and creation of taste for classical music were among the objects.

#### SURENDRANATH, A VANGUARD OF NATIONALIST MOVEMENT

On Sunday morning, President Prasad laid the foundation stone of a new block of Surendranath Law College on Harrison Road. Dr. Prasad was its student in 1906 when it was known as Ripon Law College.

In a brief speech the President referred to his association with the institution in the days of Sir Surendranath, the great man who was in the vanguard of the nationalist movement. He welcomed the change of name of the college and wished it all success.

The estimate for the new block, including the cost of land acquisition, construction and laboratory equipment, is Rs. 18 lakhs towards which the students have contributed Rs. 1.45 lakhs in the form of development fees, according to the college management.

Thereafter the President attended the Annual Re-union of the Presidency College Alumni Association. Dr. Prasad, who is a past student of this college said that he felt happy to be among so many of his old friends again in this city.

The President was seen off on Monday morning the 21st January at Dum Dum.

#### THE VICE-PRESIDENT ARRIVES

The departure of the Union President was followed by another visit of Dr. S. Radhakrishnan, Vice-President of India, who arrived in the city by air from Allahabad on Tuesday, the 22nd January.

The Vice-President inaugurated the Chittaranjan Seva Sadan College of Obstetrics at Seva Sadan and addressed Special Convocation of Calcutta University organized in connexion with the University's Centenary Celebration, at Ballygunge Circular Road on the 23rd January. In the afternoon, he left for Kharagpur to deliver the Convocation Address at the Indian Institute of Technology on Thursday.

#### A BEQUEATH TO NATION

In his speech at Seva Sadan Dr. Radhakrishnan said that it was wrong to believe that Indians had been interested in celestial bliss alone and not in mundane things. It had always been recognized in India that physical fitness was necessary for intellectual and spiritual development.

During the past 50 years, the Vice-President continued, there had been many advances in medicine—the discovery of wonder drugs and new therapeutical advances. India had benefited from them but had made no contribution towards them. This was not, he believed, because Indians were less able but because research required equipment and co-ordinated work.

Expressing the hope Dr. Radhakrishnan said that the new post-graduate college would provide the necessary opportunities and thus would become nurseries of research scholars in medicine and surgery.

Welcoming the Vice-President, Dr. B. C. Roy said that the Chittaranjan Seva Sadan had been founded on the idealism of late Deshabandhu C. R. Das which he had bequeathed to the nation. It was no wonder that such an institution, based on service and sacrifice had grown in 80 years from a hospital of 25 beds to one of 481 beds.

Prof. N. K. Sidhanta, Vice-Chancellor of the University, said that Calcutta had for a long time been one of the greatest centres for undergraduate medical education in India.

The Vice-President left the city on Friday, the 25th January.

#### —THE CORPORATION AT WORK

(Continued from Page 317)

#### PLIGHT OF TOLLY PEOPLE

Great inconveniences are being experienced by the Tollygunge citizens in respect of Corporation services. This was referred to in the House by Councillor Prasanta Kumar Sur, who said that trailers and tractors available for serving the area proved failure due to some reason or other. Even the absence from duty on the part of the employees under the Conservancy Department very often had dislocated the normal routine service. This was due to the fact that no leave reserve system had been maintained. He alleged that the area had been neglected in this respect and wanted proper supervisory staff for this. Councillor Sur appealed to the House to ensure regular Corporation service as regards conservancy and health measures.

The Deputy Mayor requested the Commission-er to look into the matter.

#### FUTURE LEGISLATORS

The House, on the recommendation of the Standing Finance Committee, allowed the following to stand as candidates for the ensuing General Election of the West Bengal Legislative Assembly and to contest in that election:—

- (i) Shri Kalipada Hazra, Mosquito Control Department, (ii) Dr. A. K. Ghosh, Medical Officer, Silver Jubilee Dispensary, Kasba, (iii) Shri Ajit Kumar Biswas, Mosquito Control Department, and (iv) Shri Dharendra Chandra Bhowmick, Chief Engineer's Department.

It may be recalled here that a few of the present members of the State Legislative Assembly had been in the staff of the Corporation.

## VIEWS AND REVIEWS

### SHRI D. N. GANGULI PASSES AWAY

We deeply regret to announce the death of Shri Dwijendra Nath Ganguli, a former Chief Engineer of the Corporation. Death occurred at his Syam Square residence, northern part of the city, after a brief illness on Tuesday early morning, the 22nd January. He was 59.

The Commissioner, Shri B. K. Sen, the Deputy Commissioner, Shri A. K. Basak, the Chief Engineer, Shri A. K. Sen, and many other high officials and members of the staff of the Engineering and Assessment Departments went to his residence to show last respect to the departed. Many of the officials of the Rehabilitation Department, Government of West Bengal, also attended the funeral. Shri Subodh Ghosh, a former Civil Engineer, was present. Wreaths were also placed on their behalf on the bier.

After retirement from Corporation in 1953 the late Shri Ganguli was appointed as an Engineering Adviser to the Rehabilitation Department, Government of West Bengal and was holding the post till the time of his death.

Joining Calcutta Corporation in 1925 as a Structural and Constructional Assistant under the City Architect's Department, Corporation, the late Shri Ganguli was taken in as Deputy

as Deputy Executive Officer II in 1944. The late Shri Ganguli was appointed to act as Chief Engineer in September, 1945, in which post he was confirmed in June, 1949. He was also appointed as a Special Officer of the Corporation in connection with the Development of Tollygunge area but he could not accept that post due to prior occupation.

Besides, the late Shri Ganguli's services were enlisted on many occasions by the Corporation as well as the State Government on special duties. He worked as a Special Officer in the Corporation for settling a number of long-standing valuation cases between the Corporation and the Calcutta Improvement Trust. The Provincial Government in recognition of his past services appointed him as an Arbitrator in 1942 in connection with the determination of valuation of Mulajore Power Station under Bhatpara Municipality. He also surveyed and valued the Colombo Electric Tramway Corporation in 1943 under the direction of the Municipal Council of Colombo.

The late Shri Ganguli was associated with many non-official and engineering associations in the country. He was a Member of the Institution of Engineers, Bengal Centre, a Member of the Governing Body of the Bengal Engineering College; a Member of the Senate, Calcutta University; a Member of the Traffic Advisory Committee; and a Member, Salt Manufacturing Committee, Government of West Bengal.

Before he entered Corporation the late Shri Ganguli received his practical training in Engineering under the East Indian Railways. Earlier to that he obtained his degree as a Bachelor of Engineering, (Civil).

The late Shri Ganguli undertook a tour of Europe and America during 1951 to study the progress of municipal engineering in those countries. He recorded his observations through many illuminating articles. A few of them were also published in the pages of the CALCUTTA MUNICIPAL GAZETTE.

His death was mourned by many of the organizations to which he was attached.

We also extend our sincerest condolence to the members of the bereaved family.

LATE SHRI D. N. GANGULI

Assessor of the Corporation two years later. In 1938 he was promoted to the post of Assessor. He was also appointed to officiate for some time

### PLUMBING EXAMINATION FOR 1956

Shri Sasankasekhar Sen Gupta	... 50

### SCIENCE CONGRESS CONCLUDED

The Forty-fourth session of the Indian Science Congress came to a close on the 18th January last after a week-long functions. The General Committee met on that day with the State Chief Minister, Dr. B. C. Roy presiding.

It was decided that the 45th Session of the Congress would be held in Madras under the Presidentship of Prof. M. S. Thacker, Director-General, Council of Scientific and Industrial Research. He will assume office as the General President on 1st February. Dr. A. K. Dey has been elected General Secretary for three years from 1958-59. Shri B. B. Joshi has also been elected as General Secretary (outside) and Councillor B. K. Sarkar as the Treasurer of the Association.

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE TWENTY-EIGHTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 18TH JANUARY, 1957.

## PLIGHT OF SECONDARY EDUCATION

Rising on a matter of public importance Councillor J. K. Chaudhury pointed out the difficulties experienced by the student community, promoted this year to the pre-matriculation class or class IX according to the present standard, in obtaining the exact curriculum of their studies. The students are required from this stage to prepare themselves for the School Final Examination. This has affected the guardians alike. The one-time Principal of an important college in the city, said that with the introduction of eleven classes nearly 1,900 Secondary Schools in the State would be degraded to the Standard of Junior High Schools while 200 fortunate ones would be upgraded. Personally against this new system, Councillor Chaudhury was not sure whether these upgraded ones would be actually better off than the rest as they would have to face pecuniary difficulties for implementing an well-furnished laboratory for science subjects as well as for having a good library.

He apprehended the consequential difficulties in the proposed Secondary Education in the country. Councillor Chaudhury thought that the Corporation as a premier civic body should urge the Government to set the things right in mitigating the difficulties. The House, however, agreed to move the Government in this connection.

## OBJECTIONABLE EXHIBITS

Councillor Bejoy Kumar Banerjee felt that the Corporation should represent to the Government for prohibition of exhibits of objectionable pictures in public places. He objected to this kind of placards pasted on walls of building and pointed out an instance where he had a chance to look into such a picture within a few hundred yards of a girls' college. He felt that these pictures would be deterrent against the growth of a healthy mind.

Councillor Banerjee also stressed the need of banning books and pamphlets containing such objectionable matters. He went far to say that these books and pamphlets were being sold even before the eyes of the guardians of law. For the

interest of country's future citizens Councillor Banerjee urged the House to move in this direction.

This was, however, agreed upon by the House.

## FILTER-WATER CONTAMINATED

Councillor Tulsi Ch. Paul referred to a case of contamination of filter-water within his Ward. He said that it was a matter of long standing grievance of the citizens residing at Beniatola Street. The contamination, he added, was first detected in March, 1956 and since then repeated representations to the Water Supply Department could hardly remove the grievance. Councillor Paul said that even during last October, contamination was present to a greater degree.

The Deputy Mayor, Dr. A. N. Mukerji who was presiding, assured the House that he himself would look into it.

## TRAMWAY TRACKS

Recently it has been noticed that the repairs or renewals of tramway tracks are causing much hardship to the citizens particularly to the pedestrians. Pointing out the difficulties Councillor Dr. Radhika Nath Basu said that undertakings of such repair work very often took a long time, and the worst example of that were the Sealdah area and Bowbazar Street in front of Koley Market. Councillor Dr. Basu said that several reminders to the Tramway authorities for completing the work had failed to bring about any good sense upon them. He wanted that the Corporation should prevail upon them once again and remove the difficulties of the pedestrians, which the House agreed to.

## FREQUENT TRAFFIC JAMS

Councillor Subrata Kumar Sen Sarma pointed out the difficulties experienced by the citizens due to frequent holding up of traffic in important thoroughfares or diversion of traffic to less important routes. He alleged that it had become common practice for Calcutta's traffic authorities to clear the routes by which the important guests travel, causing much inconvenience to the general public. Instances were not rare when the traffic had been diverted in such a way that there were least chances of those honoured guests being inconvenienced in respect of their security measures.

It was readily appreciated, he continued, that for the convenience of foreign dignitaries, normal traffic arrangements had to be curtailed and certain discomforts borne by the public. But frequent visits by our national leaders should be treated on a different footing and interruption of normal life should be reduced to the minimum, urged Councillor Sen Sarma.

(Continued on Page 315)

## ST. JOHN AMBULANCE BRIGADE

### CALCUTTA CORPORATION DIVISION

Dr. M. Goswami, Superintendent of the St. John Ambulance Brigade, Corporation Division, has announced the names of the following persons who have passed the "First Aid Examination" :—

Shri Bhabesh Ch. Saha (E. W. S.), Shri Rajani Kanta Naskar (E. W. S.), Shri Hem Ch. Naskar (E. W. S.), Shri Lakshmi Bilash Shri Sailendra Nath Kundu (E. W. S.), Shri Ghosal (E. W. S.), Shri Dwijendra Kr. Ghose (E. W. S.), Shri Dipak Kumar Dey (Record Department) and Shri Phanindra Nath Roy (Mosquito Control).

## CITY NEWS-PARADE

**OBITUARY:** Shrimati Himani Lahiri, wife of Shri Santosh Kumar Lahiri, proprietor of the well-known publishing house of Messrs. S. K. Lahiri & Co., passed away after a brief illness on January-15, at her Calcutta residence. The late Shrimati Lahiri was well-known for her simplicity, piety and was universally loved and respected.

The death was referred to in the House in the weekly Corporation meeting on the 18th January last by the Deputy Mayor, Dr. A. N. Mukerji.

Shri Bisweswar Bhattacharyya, a well-known figure in Bengali literary circles, died at his Townsend Road residence on Sunday, the 20th January. He was 87.

Born in Faridpur, the late Shri Bhattacharyya graduated with triple First Class Honours from the Presidency College, Calcutta, in 1889. He retired as Additional District Magistrate, Alipore, in 1925.

The Late Shri Bhattacharyya compiled folk songs of North Bengal in a book, "Gopi Chandrer Gan" and translated in Bengali, the Gita, the Upanishads and "Git Govinda". He was a member of the Royal Asiatic Society and, for some time, President of the History Section of the Bangiya Sahitya Parishad.

The death of Shri Munindra Nath Mookherjee, a leading colliery owner, took place after a protracted illness on the same day. He was 74.

The late Shri Mookherjee was one of those who built up the Indian Mining Federation during the period between the two wars. He was Chairman of the Federation for several years. He represented the coal industry in the Bihar Legislative Assembly for about 10 years.

The offices of the Bengal Chamber of Commerce and its affiliated bodies were closed on Monday as a mark of respect to his memory.

**SWAMI VIVEKANANDA'S NINETY-FIFTH BIRTH-DAY ANNIVERSARY** was celebrated befittingly in the city on Tuesday, the 22nd January.

The programme for celebration at Ramkrishna Vedanta Math, Raja Rajkissen Street, included special 'puja', 'bhajan' and 'kathakatha'. A meeting was held there with Dr. Hemendranath Dasgupta presiding.

Under the auspices of Jatiyakra O Sakti Sangha the birthday was observed at Shib Krishna Daw Lane, Jorasanko, Principal Jatindra Bimal Chowdhury presided over the function.

Dr. Sudhansu Kumar Sengupta held a discourse on the life of Swami Vivekananda at the Vivekananda Society premises, Brindaban Bose Lane.

The Bengal Theosophical Society also celebrated the birthday at Bankim Chatterjee Street, College Square.

To mark the birth anniversary, A.I.R., Calcutta, arranged a special programme in which different aspects of the life and teachings of Swami Vivekananda was discussed. Shri Achintya Sengupta, Shri Anil Kumar Chakravarti and Shri Nandagopal Sengupta participated in that discourse.

**KALA-BHARATI**, a cultural institution sponsored by the International Juvenile Art and Craft Society, was formally inaugurated at a function at Merlin Park, Ballygunge, on Sunday, the 20th January, Mr. Justice Ramaprasad Mookerjee presided while Dr. Kalidas Nag and Shri Jamini Ray were guests of honour. Justice Mookerjee also inaugurated on the occasion an exhibition of Juvenile Arts and Crafts. A large number of distinguished guests

who attended the function were entertained through a variety programme.

Among those who attended the function were: Sm. Sunayani Devi, Shri Atul Bose, Prof. Bishnu De, Shri Nurshingdas Agarwal, Sm. Meera Dutta Gupta, M.L.A. and others.

With Raja Rao Dharendra Narayan Roy of Lalgola, as President, a Committee was formed for governing the institute.

**TRAFFIC DISLOCATION** Railway traffic on both the Up and Down lines from Sealdah was suspended for about four hours as a result of a derailment of the Up Krishnapur Express near Kankurgachi, about a mile from Sealdah, on Monday, the 21st January. Miraculously, only 13 passengers, including three railway employees, were slightly injured.

A vehicular accident, a case of fire breaking out in that locality caused the city's traffic to dislocate for a considerable period. All these combined together caused much harassment to the citizens.

**COUNT GEOFROY D'ASPREMONT-LYNDEN**, the Belgian Ambassador in India, and his wife were on a week's visit to this city recently.

During their stay in the city they met the Governor of West Bengal, the Chief Minister, the Catholic Archbishop and other prominent citizens and the members of the Belgian community.

### ACCOUNTS' OFFICIALS RETIRE

It is not pleasant to part with the old associates and colleagues who have rendered a period of devoted services to this bigger institution and guided the junior ones in carrying on their day to day routine work. The retirement of Shri Monomohan Dutta, Shri Subodh Dutta Roy and Shri Jitendra Nath Mukerji, three Senior-Assistants of the Accounts Department, Calcutta Corporation, occasioned such a farewell function at Pulta within the premises of the Corporation Water Works, some time ago. It was participated in both by the senior as well as the junior ones of the Spending Section of the Accounts Department better known as Section II. As the function was accompanied by a trip to a short distance from the city a whole day programme was chalked out including feasting and visiting of the big water plant at work.

In the farewell function which also drew towards the close of the day, the acting Chief Accountant, Shri Nityaranjan Roy, recalled the past services of those retiring men. He said that each one has a story behind him which he has been able to shape in his own way. The Acting Chief Accountant was reluctant to measure the loss that would be sustained by the department with the retiring of the trio at the same moment when their services were needed most. The President, however, prayed for long life for each along with peace of mind in future. Concluding his speech Shri Roy emphasised that it would now be the turn of the juniors to follow the footprints trod over by not only these three but also by their other predecessors.

Others to bid farewell to them were Shri Santosh Kumar Banerjee, present Head-Assistant of the Section and Shri Sailendra Nath Mukerjee. Garlanding and Presentation of Addresses along with befitting replies were distinctive features of the function. Shri Jyotirbasu Roy Chowdhury, the Acting Deputy Chief Accountant, also watched the function. The success of the function was due to untiring efforts of a few juniors of the section.

# CORPORATION NOTICES

## To Contractors

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, up to 12 noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for.....". For specification and tender forms apply to the Keeper of Records. Price Rs. 4/- per set.

The 22nd January, 1957.

## VITAL STATISTICS

For the City of Calcutta for the week ending  
19th January, 1957.

CITY OF CALCUTTA (TOWN AND ADDED AREAS).

The total number of deaths registered during the week was 868 against 669 and 726 in the two preceding weeks and higher than the corresponding week of the last year 274. The general death-rate of the week was 15.23 per mille.

TOWN (WARDS 1-27).

The number of deaths registered during the week ending 19th January, 1957, was 695 against 507 and 594 in the two preceding weeks. There were 8 deaths from cholera against 3 and 2 in the two preceding weeks. There were 36 deaths from small-pox during the week against 26 in the previous week. There was 1 death from influenza against 4 in the previous week. The mortality from fevers and bowel-complaints amounted to 15 and 52 respectively against 21 and 40 in the preceding week. The general death-rate of the week was 15.23 per mille per annum.

There were 78 imported deaths. Excluding these, the death-rate of the Town was 14.01.

There were 98 deaths from respiratory diseases against 74 in the previous week.

There was 33 deaths from tuberculosis against 28 in the previous week.

ADDED AREAS (WARDS 28-32).

The number of deaths registered was 163 against 162 and 142 in the two preceding weeks. Of these, nil was from cholera, 9 from small-pox, nil from influenza, 3 from fevers, 22 from bowel-complaints and 34 from respiratory diseases. The death-rate of the added areas was 13.01 per mille.

There was no imported death. Excluding this, the death-rate was 13.01.

There were 6 deaths from tuberculosis against 7 in the previous week.

## LATE DR. S. N. MUKHERJI

We deeply regret to announce the death of Dr. S. N. Mukherjee, B.Sc., M.B., D.T.M., a former Analyst of the Central Laboratory, Corporation Health Department. The death took place recently after a brief illness of Dr. Mukherji. The late Dr. Mukherji was much devoted to his duties and had rendered a valuable service to the institution he had served. Being conscientious and hard-working officer of the Corporation he had set an example to his junior ones in serving the institution.

A memorial meeting was also arranged a few days later by the members of the staff of the Central Laboratory to mourn his death. The Health Officer Dr. A. Mukherji presided.

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed White arm badges with Black numbers from Nos 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shopkeepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shopkeeper if any spurious coin is alleged to have been detected after they leave the shop.

### Republic Day

SEVEN years ago, on the 26th January, India found herself a Sovereign Democratic Republic. It was a great day for us when our mighty constitution first provided a new Charter of Human Liberties. We bowed down to our National Flag and plunged ourselves in festivities as we saw before us immense possibilities, material and spiritual. Thus, the REPUBLIC DAY has become a day of joyous celebrations for the whole nation. And naturally we citizens did take part in the last celebrations, as we like to do every year. But should our activities be confined to celebrations only? Or should we, at the end of each year, start thinking over what we have achieved?

It is almost a decade since we attained our Freedom. Each Republic Day brings before us the memory of the past days of tremendous struggle and suffering in which this our great city played an important part, and inspires us to put a new milestone on the road of Progress.

OURS is a Democracy built by common endeavour with a mission of peace and goodwill. "Peaceful Co-existence" has been our motto, and we stick to it in spite of the adverse forces that try to breed mutual suspicion and jealousy and bring disasters.

On this day, every year, let us take a vow that we must put forth all our energy to see INDIA gloriously established in the country of nations.

#### CORPORATION CELEBRATES THE DAY

Standing from left:—Councillor B. K. Sarkar, Commissioner B. K. Sen, Councillors J. L. Saha, M.L.C., and Kumar B. Deb Rai Mahasai, the Deputy Mayor Dr. A. N. Mukerji and the Mayor, Shri S. C. Ghosh. The Secretary, Shri B. Ghosh can be seen near by.

## REPUBLIC DAY IN THE CITY

SWEET are the memories of olden days. This was fully emphasized by the City's Mayor, Shri Satis Chandra Ghosh, when he referred to the past in the Republic Day celebration of the Calcutta Corporation. Being a comparatively older in age he has seen many a days in the past when 26th January was observed in the hearts of this city. The yoke of an alien rule was then ruling over the country and citizens used to celebrate it with all their might in a way which allowed them to do so. But to-day with the attainment of country's independence an entirely separate air blows on and the country celebrates the day as a Free Nation.

Besides, with the introduction of a Republic State in India the very day has been named as REPUBLIC DAY. A special significance has also been attached. And Calcutta with the rest of the country celebrated it on the appointed day with considerable enthusiasm. The day was observed as a holiday. National Flags were unfurled on Government offices, public buildings as well as in private house tops. Flag hoisting ceremonies were also observed in many of the parks, squares and open spaces. There were illuminations also.

CALCUTTA CORPORATION'S celebration was rather a different one from the State Government's. It was here once the citadel of freedom was built—and many a fighters fought from this Council Chamber. They were the patriots whose hearts breathed with the country's glory and achievements. Thus the placing of wreaths on the 'SAHID BMD' in order to remember them on this occasion was a special feature of the celebration attached to this bigger institution.

As in previous years a brief but impressive function was organized by Corporation at the Central Municipal Office quadrangle in the morning of the 26th January.

Wreaths were placed on the 'Martyrs Memorial' by the Mayor, Shri Satis Chandra Ghosh, the Deputy Mayor, Dr. Amarnath Mukerji, the Commissioner, Shri B. K. Sen, and several Councillors including J. L. Saha, M.L.C., B. K. Sarkar, B. Deb Rai Mahasai and Dr. B. N. Dey, Engineering Adviser to the Corporation.

The function began with the singing of the National Anthem and ended with "Bande-Mataram". The two songs were sung well by a chorus of employees with orchestral accompaniment.

#### WE SHOULD REMEMBER THOSE UNKNOWN

After hoisting the National Flag, the Mayor said that on this auspicious day they should particularly remember with gratitude those unknown soldiers who had sacrificed their lives for the cause of freedom of India.

Continuing his speech Shri Ghosh said that no spectacular progress could be achieved within 10 years after independence, for the period was almost insignificant in the life of a nation. But it must be realized that the country's leaders had made a very good beginning. The way the Kashmir issue had just emerged from the U.N. was ominous for the country, but he had no doubt that people in India would consider no sacrifice too big to preserve their hard-won freedom.

A large number of Corporation officials watched the function. The Deputy Commissioner II, Shri L. N. Bal, Shri A. K. Sen, Chief Engineer,

Shri B. Ghosh, the Secretary and others also attended the function.

#### THOUSANDS WATCHED THE COLOURFUL PARADE

This year, due to pre-occupation of the Brigade Parade Ground a new site for the saluting base on Red Road, near the statues of Lords Roberts and Lansdowne, was arranged. The route of march from near the race-course, marked a departure from the traditional way.

A spectacle of colour greeted the very large crowd which assembled to see the Republic Day Parade in which Shrimati Padmaja Naidu, the Governor, took the salute. The Panchen Lama, Ministers of the Union and State Governments, High Court Judges, members of the Diplomatic Corps, senior military and civilian officials and leading citizens were amongst those who watched the parade.

#### GOVERNOR'S MESSAGE

In the evening in a broadcast message the State Governor, Shrimati Padmaja Naidu said: "It is the singular good fortune of this generation to be living at a time when new India is taking shape and to be associated with the building up of country to a pattern of our own choice.

"We have tremendous prospects in the immediate present and still greater prospects for the future. We have before us a gigantic task and a magnificent opportunity to mould our own destiny and that of the generation to come. Let us, on this occasion, once again dedicate ourselves, with full faith in our future, to create out of the India of to-day the greater India of to-morrow."

Shri P. C. Sen, Food Minister, also made a broadcast speech.

After the arrival of the Governor in State an investiture was held at the parade in which Squadron Leader Sudhananda Roy was invested with the 'Vir Chakra' for valuable services rendered by him during the Kashmir operations and Rifleman Ganeshbahadur Tamang of the 5th Gorkha Rifles with the 'Asoke Chakra', Class III for his presence of mind, personal courage and leadership during a fire in Poona on Christmas Day, 1953.

The march past was led by smart units of the Rajput and Gharwal Regiments headed by their colourfully dressed pipe bands. They were followed by a small contingent of the Indian Navy also very smart in white. An Indian Air Force contingent completed the Armed Forces representation except for the mechanized units consisting of Bren-gun carriers and armoured cars, the Mule Corps and a few others.

The Territorial Army and the National Cadet Corps, both senior and junior, were no less smart than their opposite numbers in the Defence Forces. The red and blue plume on the berets, of the senior cadets and the red pompom on the berets of the juniors add colour to their uniforms though the white uniforms of the Naval Wing and the light blue of the Air Wing are invested with a certain additional glamour.

Other units which took part in the parade came from the West Bengal and Calcutta Police

Forces, the Calcutta Special Constabulary, the West Bengal National Volunteer Force, the Bharat Scouts and Guides, the St. John's Ambulance Brigade, the Bengal Ex-Service Association, the Calcutta Mounted Police Corps of Military Police, and the West Bengal Fire Service. Brigadier K. H. Moghe was the parade commander.

After the parade the Governor returned in State to Raj Bhavan.

#### OTHER FUNCTIONS

There were also cultural shows organised by clubs and other institutions in various parts of the city. Sweets, toys and fruits, were distributed to patients and children in hospitals.

A special programme was arranged by the Calcutta station of All India Radio for the occasion and at night the Governor made a broadcast.

In the evening, a State reception was held at Raj Bhavan. The Ochterlony Monument, Raj Bhavan, Assembly House, Howrah and Sealdah Stations and other public and private buildings were illuminated and large crowds of sightseers filled the streets till late at night.

In the morning at Congress Bhavan, Chowringhee Road, Shri Atulya Ghosh, President of the West Bengal Pradesh Congress Committee, hoisted the National Flag in presence of the members of Seva Dal and prominent workers. Explaining the significance of the day, Shri Ghosh urged people to co-operate with the Government in the implementation of the Second Five-Year Plan.

#### AT RAILWAY HEAD QUARTERS

Republic Day was celebrated at the headquarters of the South-Eastern Railway at Garden Reach. Shri J. S. Mathur, the Chief Operating Superintendent, raised the National Flag after which there was a parade by men of the Railway Protection Police and the Railway Protection Force. The significance of the day was explained by Shri A. K. Basu, the General Manager, and Shri Mathur.

The celebrations included sports, distribution of sweets and toys to children and of fruits among patients in the hospital. Screening of films on India's achievements, particularly of the railways also included in the programme. At night, the railway buildings were illuminated.

#### SARVODAYA DAY IN THE CITY

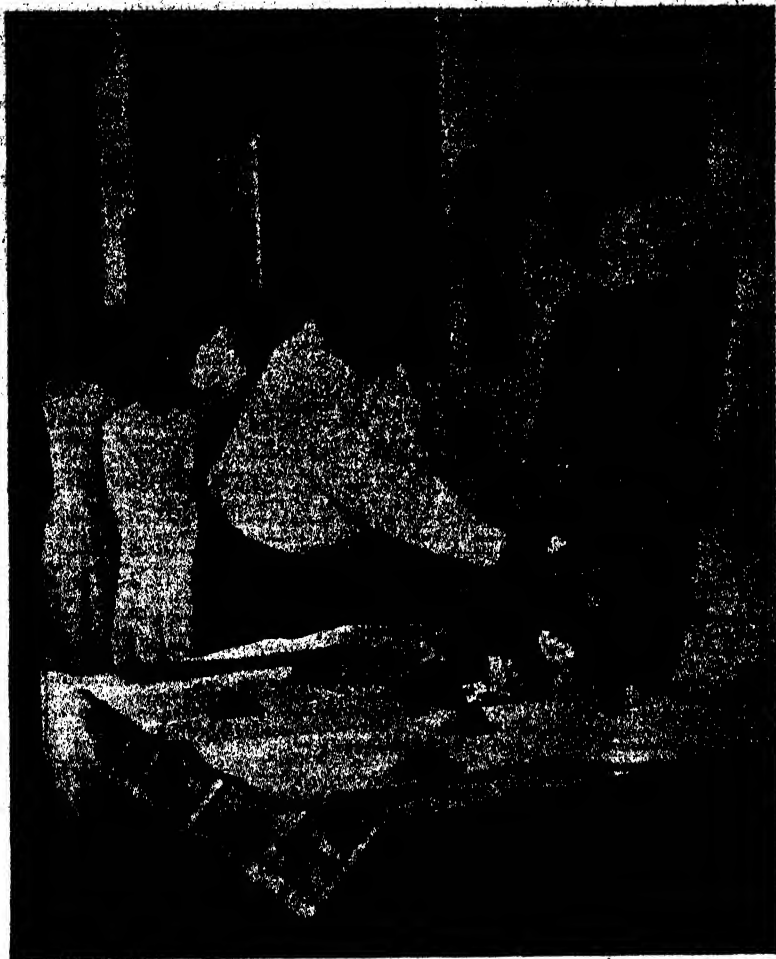

(Continued from page 338)

The different offices including Lalbazar Police Headquarters also observed silence.

#### AT HOGG BUILDINGS

The Martyrs' Day was also observed in the Corporation offices. Under the joint auspices of the Public Relations' Department and the Food Supply Department of the Corporation a solemn function was held at Hogg Buildings, Hogg Street. The Deputy Commissioner II, Shri Lokenath Bal, garlanded a beautiful portrait of Gandhiji, placed on a dais and silence was observed at the scheduled hour.

The function was attended by a large number of employees. Shri B. N. Bhadra, Actg. P. R. O., Shri B. N. Chatterjee, Shri A. N. Chatterjee, Janab F. Rahaman, Asstt. F. S. O., Shri R. Ghosh, Shri M. Das and others were present.

## 'SARVODAY DAY' IN THE CITY

MAHATMAJI'S PORTRAIT BEING  
GARLANDED BY SHRI L. N. BAL,  
DY. COMMISSIONER

PHOTO : S. B.

ALL the world will ever remember the day, when MAHATMA GANDHI was assassinated by a bullets wound. It happened nine years ago on the 30th of January and since then men and women look for the day as a day for an unfiling source of inspiration derived from the life-story of that great soul. It was the day of martyrdom and the blood of Mahatma Gandhi was the seed of India's alround renaissance. Thus the day is observed as the Day to bring the country from the fathom of darkness to spiritual regeneration. Observance of the Day may indicate a nation's untiring efforts to live truly in order to achieve peace and tranquility in the world of turmoils.

CALCUTTA with the rest of the country observed the day with prayers and Ramdhoons. Placing wreaths on the Memorial at Gandhi Ghat and ritual spinning formed the part of the day's programme.

"Martyrs' Day" in memory of all those who gave their lives in the struggle for India's freedom was also observed on that day.

### FUNCTION AT GANDHI GHAT

MAHATMA GANDHI was tolerant to all faiths and creeds and this was given recognition in observance of the day. On the occasion a solemn function was held at the Gandhi Ghat at Barrackpore in the morning in which the State Governor, Shrimati Padmaja Naidu, the Food and Supplies Minister, Shri P. C. Sen, Members of the Assembly and Council, representatives of the Chinese Consul General in Calcutta and others participated. A large number of people, including women and children gathered at Gandhi Ghat to offer their respectful homage to the Mahatma.

The function started with Mahatmaji's

favourite Bhajans. This was followed by an All-Faiths Prayers which included Hindu, Sikh, Islamic, Persian, Christian and Buddhist religions.

At Gandhi Ghat the Governor laid a wreath at the Memorial. A wreath was also placed by Mr. Chiao Kwan Hua, Assistant Chinese Foreign Minister, on behalf of Mr. Chou En-Lai. Ministers and senior officials of the West Bengal Government were present.

The Folk Entertainment Unit of the West Bengal Government sang the Bhajans.

Amidst the singing of Ramdhoon, ritual spinning started at Gandhi Ghat and continued till 10 A.M. A group of women performed spinning.

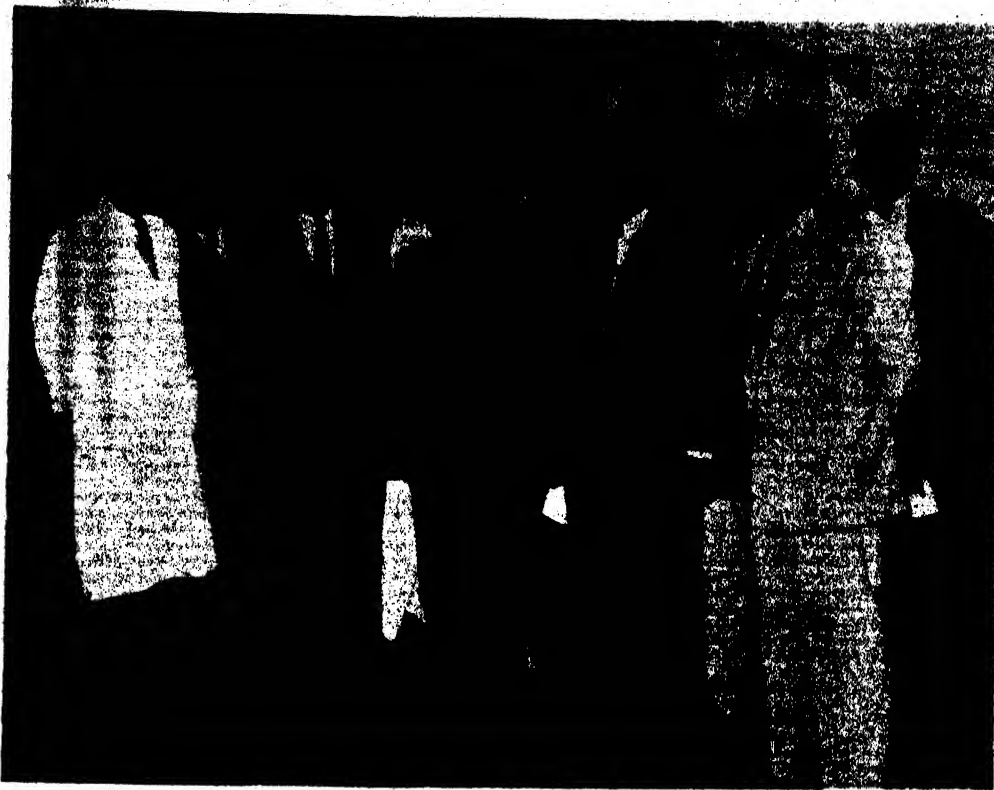

On the Maidan, over 100 women took part in ritual spinning which lasted over an hour in the afternoon. The All-Faiths Prayer meeting was held there and those reading scriptures included Pundit Gouri Nath Shastri, Bikshu Jinaratna, Jyoti Moti Chand and Rev. Ashoke Bardhan Singh. Distinguished Congress leaders also addressed the gathering.

### MARTYRS' DAY

The day was also solemnised as "Martyrs' Day" when a two-minute silence was observed in memory of those who died in the freedom's struggle. The first signal sounded from the rampart of Fort William. Tram services were suspended during the silence period. Private cars, taxis and buses, however, plied as usual.

In the West Bengal Legislative Assembly, which sat for a morning session, all members and the Speaker remained silent for two minutes.

(Continued on previous page)

Standing from left :—Dr. B. Sarbadhikary, Dr. S. N. Mazumdar, Dr. Shaver, Councillor B. N. Banerjee, Dr. A. Frappier, Dr. G. J. Wherett, Councillor Dr. P. K. Roy Choudhury, Dr. A. Mukerji, Councilor Dr. R. N. Basu and Dr. D. Roy Choudhury.

## CORPORATION CHEST CLINICS VISITED

Accompanied by the Chairman of the Standing Health Committee, Dr. P. K. Roy Choudhury, the three experts, Dr. Shaver, President, Canadian T. B. Association, Dr. G. J. Wherett, Secretary and Dr. A. Frappier of B.C.G. fame, visited the Chest Clinics in the city run by the Corporation, on the 25th January last.

The party was first taken to Tangra Govinda Khatik Unit and then to Mansatala Clinic and the Ranger's Club Unit at Belvedere and concluded their visit by looking into a patient undergoing domiciliary treatment under the Alipore Clinic at Rajab Ali Lane, Ekbalpore (Picture below).

The foreign experts expressed satisfaction of the work done in this city by the Corporation to control the disease. The

scheme for treating T. B. patients through a net-work of clinics was much appreciated by them. The Corporation project for a segregation camp for 500 patients in a city where the affected persons are no less than 30,000 is the supreme need of the moment, and this they discussed. The Commissioner, Shri B. K. Sen, Dr. S. N. Mazumdar, Asstt. Director, State Health Services, Councillors Dr. R. N. Basu, Dr. K. P. Ghosh, members of the Standing Health Committee, Dr. B. N. Basu, A. C. Sarkar, U. N. Sen, B. N. Banerjee, the Health Officer, Dr. A. Mukerjee and others participated in the discussion. Dr. B. Sarbadhikary, M. O. Mansatala also acquainted the party with the system of treatment followed in Corporation clinics.

## VIEWS AND REVIEWS

### SMALL-POX DECLARED AS EPIDEMIC IN THE CITY

Small-pox has broken out in an epidemic form in the city, this was announced by the city's Health Officer, on Tuesday evening, when the number of deaths from the disease rose to 61 during the week ending the 26th January. During previous week the number of deaths from the same was 45. The number of attacks during the week was 82 only.

According to Corporation rules, small-pox is declared to be epidemic when for a fortnight deaths from the disease number more than 30 weekly. Although in January deaths from the disease exceeded 30 every week but as there were a number of imported cases the authorities did not think it necessary to declare the disease as an epidemic one. During the last week deaths from the disease included 14 imported cases.

There was a steady increase in the incidence of small-pox in the city from the week ending the 19th January, when 45 lives were claimed by the disease and the attacks numbered 58. There were 87 attacks and 80 deaths from the disease in the week previous to this.

Twelve of those who died of the disease in hospitals in the week had come from outside the Corporation area. The previous week's figure of deaths from the disease included 10 "imported" cases.

Deaths from small-pox in the first three weeks of January totalled 125. In the whole of the last year 1955-56 deaths from the disease numbered 52. And in 1954-55 the number was 123, while 174 in 1953-54.

Along with the city's Health authorities an equal concern was expressed by the City Fathers for the increase in the number of incidence of the diseases in the weekly Corporation meeting on Friday, the 1st February. According to Councillor Dr. K. P. Ghosh, a member of the Standing Health Committee, the number of deaths from the disease had already reached the figure of 480 during this season of 1956-57. He informed the House that about 55 per cent. of deaths were of children below six years and 11 per cent. of females while the rest of other types. He also felt for the need of a larger number of vaccinators. The Mayor, Shri Ghosh, however, assured the House that he himself would look into the matter in consultation with the Chairman of the Standing Health Committee.

Uptil Friday night, the 1st February, the infectious ward for small-pox cases in N. R. Sarkar Hospital was nearly filled up by patients. More than 150 beds out of 200 which are reserved for small-pox patients in the hospital, were occupied. Apprehending a further rise in incidence of the disease, the authorities of the Hospital have made arrangements for the accommodation of patients in temporary sheds—a precaution necessitated in previous epidemic years. It may be recalled here that the death toll mounted to 8,700 during the epidemic year 1950-51.

In spite of all precautionary measures the number of incidence has been on increase throughout the week. Every day some ten to fifteen persons suffering from the disease were removed to city's hospitals. On the midnight on Tuesday, the 29th January, the number of patients in the N. R. Sirkar Hospital was 124. The hospital has the largest number of beds in the infectious disease wards among all others in the city. According to Dr. A. Mondal, in charge of these wards the number was by no means a sure index of the incidence of the disease. Most of the patients belonged to the lower income group, and the middle class—or more prosperous people—attacked by the disease usually had themselves treated in their homes.

The history of these cases also pointed to the importance of vaccination as a preventive because of the fact that most of the patients were not vaccinated and the few who were had been so treated during the 14 days incubation period.

Though the number of total deaths from small-pox in the city dropped to 80 in the week ended the 12th January from 49 the week before, the disease has spread to several other areas in the city. Localized so long in the Baghbazar-Shambazar, Sukea Street and Park Circus-Ballygunge areas, small-pox has spread to the Jorabagan, Colootola, Belgatchia and Beniapukur areas during the last week.

Over 8,16,000 persons were vaccinated in the last week bringing the total vaccination figure to nearly eleven lakhs.

Over 2,36,280 people were vaccinated in the previous week and before that over 185,220 persons were vaccinated.

In an appeal to the citizens, Dr. A. Mukerji, the Health Officer of Corporation, said that as small-pox had been declared epidemic, people would get themselves vaccinated without further delay. He said that although there was less resistance to appeal for vaccination from the bustee dwellers this year, a considerable number of them fought shy of vaccinators when they visited the bustees.

Since the beginning of the epidemic season the Public Relations Department of the Corporation has undertaken an intensive publicity work in the city. They have addressed innumerable street corner meetings with the help of local Councillors. Big gatherings, organized by the Department, were also addressed by Councillors mostly of medical men.

The vaccinators and inoculators, whose number exceeded 300, have also given an intensive drive for vaccination in the Bustee areas and crowded localities. Some of the Councillors who personally have taken initiatives in this matter, have been visiting the vaccination centres often and persuading the people to undergo the only preventive method against the epidemic disease.

Acquainting the House with the drive Councillor Dr. P. K. Roy Chowdhury, Chairman of the Standing Health Committee said in the House when the discussion ensued that the figures of

vaccination so far touched this season was of a satisfactory level. But this could hardly convince many of the members who doubted about the exactness of the figures. Even Councillor S. K. Gupta, J.C.S., Chairman of Calcutta Improvement Trust, sought an assurance from the Mayor that the figures supplied were correct. He then suggested that the work of the vaccinating staff should be supervised.

Earlier, initiating the discussion Councillor Mohammad Zakir complained of inadequate supply of disinfectants to the Entally area, where small-pox had broken out in a virulent form.

Councillor Amulya Charan Sarkar said that some people in the bustees had shown prejudice against vaccination. The Corporation vaccinators should be given police help, he suggested while acquainting the House with his personal experiences in this regard. He also said that his ward was one of the affected areas during this season.

At the same time Councillor Panna Lal Das said that 90 per cent of the bustee-dwellers were willing to be vaccinated. He saw one day 500 people in bustee queuing up for vaccination while he himself had been persuading people to have them vaccinated through Mike sitting on a Corporation Publicity Van. There was a demand for enlisting the help of additional Publicity Vans for the same.

Thus we find that there have been a concerted effort to bring the epidemic disease under control by all possible preventive measures in the city.

But equal apprehensions have been conceived of by the West Bengal State Government when the news of breaking out small-pox in disquieting form in eight West Bengal districts and in four municipalities near Calcutta, had reached the authorities.

In this city and most of these areas the incidence of the disease was reported as early as November, when Howrah, Garden Reach, South Suburban Municipalities, Bankura, Murshidabad, and West Dinajpur districts accounted for 35, 10, 6, 44, 27, and 15 attacks, and 20, 8, 5, 14, 11 and 2 deaths, respectively.

In December, attacks and deaths in these places totalled 451 and 196. Howrah Municipality accounting for 80 and 66, Garden Reach 45 and 30, South Suburban Municipality 21 and 10, Kamarhaty Municipality seven and six, Murshidabad 83 and 15, Malda 81 and 22, Bankura 67 and 82, Diamond Harbour 26 and five, and West Dinajpur eight and four.

During the first 12 days in January, attacks and deaths from the districts numbered at least 284 and 145. Howrah alone being responsible for 124 and 96. The figures for Garden Reach, Bankura, Murshidabad, and Basirhat Municipalities are 30 and 17, 18 and 10, 14 and 7, and 18 and 2 respectively.

From November 1 to January 12 there were 847 attacks and 404 deaths in these areas. Over 1 million people were vaccinated in the districts during the period.

Besides, the Government in co-operation with local bodies are taking all possible measures in order to check the spread of the disease. The Municipalities have appointed additional vaccinators for the purpose and the drive so far undertaken by them has proved satisfactory.

### MR. CHOU IN THE CITY

Mr. Chou En-lai, the Prime Minister of China, had spent a night in this city during the week. He arrived at Dum Dum airport on Tuesday the 29th January from Kathmandu. He was received at the airport by the State Chief Minister, Dr. B. C. Roy, representatives of the Chinese and Nepalese Consular Corps and of the Russian Trade Commission.

After taking the salute at a guard of honour presented by Gurkha troops, Mr. Chou En-lai drove to Raj Bhavan in an open car, accompanied by Dr. Roy. In the same afternoon, he left for Santiniketan by special train. He returned to the city on next day and spent the night.

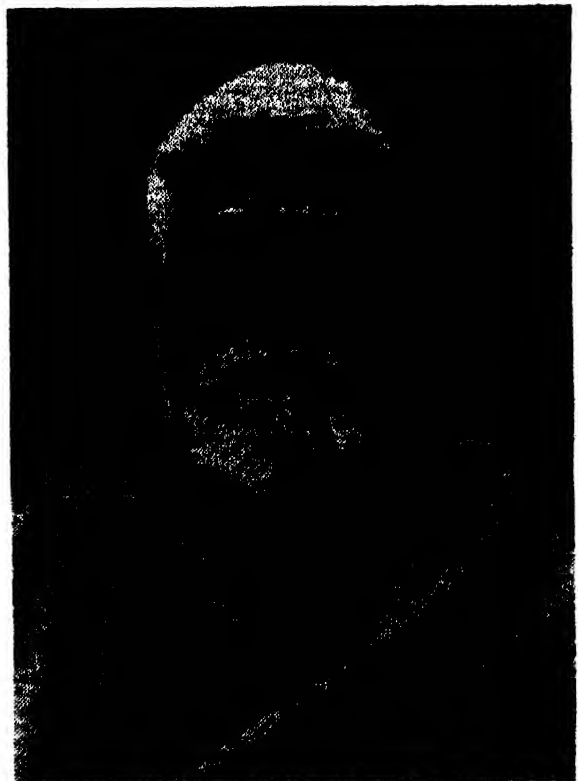

Mr. Chou has also made a donation of Rs. 70,000 to the Chief Minister's Flood Relief Fund.

Accompanied by the Chinese Vice-Premier Marshal Ho Lung, Mr. Chou left for Colombo by air in a special I. A. C. Skymaster on Thursday, the 31st January. At the airport he was seen off by the Chief Secretary of the West Bengal Government Shri S. N. Roy, the Chinese Consul in Calcutta, Mr. Liu Yu-feng, and the Director of China Bhavan, Mr. Tan Yun Shan and the Trade representative of the U. S. S. R.

Mr. Chou was also given a guard of honour by a detachment of the Indian Army then.

### SHRI RAJ MOHAN SEN IS DEAD

Death has snatched away from amongst us Shri Raj Mohan Sen, a well-known educationist. The death took place on the 27th January, Sunday, at his Gariahat Road residence after a brief

LATE RAJ MOHAN SEN

illness. He was about 97 and completion of three years would have occasioned a Birthday Centenary Celebration of the oldest graduate of the Calcutta University. He is survived by his 88-year old wife, a son Shri B. M. Sen, a retired Principal of the Presidency College, Calcutta, and a daughter.

The late Shri Sen had a uniformly good academic career. He passed the Entrance Examination in 1876 and took his B. A. Degree from the Presidency College, Calcutta, with scholarships in both examinations. He stood first in Mathematics in the M.A. examination. He joined Dacca College as a Lecturer in Mathematics in 1882 and worked as Professor of Krishnanath College, Berhampore, and Rajshahi Colleges, retiring from service in 1919.

A sitar player, the late Shri Sen was a musician of repute and was the disciple of Ostad Mirza of Murshidabad Nawab Court.

The weekly meeting of the Corporation conduced his death on the 1st February and adjourned its sitting for ten minutes as a mark of respect to his memory.

The Mayor, Shri Satis Chandra Ghosh, who referred the death in the House, paid eloquent tributes to his memory. The Mayor said that with his death the city had lost the oldest graduate in the city.

We also extend our sincerest condolence to the members of the bereaved family.

#### DEATHS AND DISEASES IN THE CITY DURING JANUARY, 1957

The city had lost 195 lives during the four weeks of January, 1957 from small-pox while the number of attacks was 286. Out of total deaths there were about one-fourth imported cases in the city.

Cholera tolled 82 lives during the month against 48 attacks. The figure also included a few imported cases.

It may be noted here that the city was quite free from these two epidemic diseases during the corresponding month last year.

Malaria caused 18 deaths only during the first three weeks of the month while no death was reported during the fourth week from the disease. Typhoid was responsible for 18 deaths during the month.

Deaths from Tuberculosis were 140 during the month, against an almost similar number during the corresponding month last year.

Altogether 8,171 persons died during January in this city from all causes against 2,458 deaths during the corresponding month of the last year.

#### A SPECIAL JUDGE TO ADJUDICATE JOURNALISTS' CASES

In order to adjudicate over disputes between working journalists and their employers and to secure speedy justice the West Bengal Government has proposed to appoint a Special Judge. This was disclosed recently by the State Chief Minister, Dr. B. C. Roy when a journalists' deputation met him.

It was also proposed to depute a special officer to deal with cases relating to recovery of dues from journalists' employers.

The deputation of the Indian Journalists' Association, referred to a memorandum sent earlier by the Association, alleging that "inordinate delay in settling the disputes by the Government seems to have encouraged newspaper managements to treat the law as of little consequence."

Shri D. N. Dasgupta, President and Shri A. C. Banerjee, the Vice-President, represented the Association while the State Labour Minister, Shri K. P. Mookerjee, and Shri K. K. Hazra, Judicial Secretary, were also present.

## VITAL Statistics

For the City of Calcutta for the week ending  
26th January, 1957.

City of Calcutta (Town and Added Areas).

The total number of deaths registered during the week was 928 against 858 and 669 in the two preceding weeks and higher than the corresponding week of the last year by 338. The general death-rate of the week was 16.48 per mille.

#### TOWN (WARDS 1-27).

The number of deaths registered during the week ending 26th January, 1957, was 758 against 695 and 501 in the two preceding weeks. There were 15 deaths from cholera against 8 and 3 in the two preceding weeks. There were 51 deaths from small-pox during the week against 36 in the previous week. There was no death from influenza against 1 in the previous week. The mortality from fevers and bowel-complaints amounted to 28 and 59 respectively against 15 and 52 in the preceding week. The general death-rate of the week was 17.21 per mille per annum.

There were 70 imported deaths. Excluding these, the death-rate of the Town was 15.62.

There were 139 deaths from respiratory diseases against 98 in the previous week.

There were 31 deaths from tuberculosis against 33 in the previous week.

#### ADDED AREAS (WARDS 28-32.)

The number of deaths registered was 170 against 163 and 162 in the two preceding weeks. Of these, 1 was from cholera, 10 from small-pox, nil from influenza, 3 from fevers, 25 from bowel-complaints and 38 from respiratory diseases. The death-rate of the added areas was 13.83 per mille.

There was no imported death. Excluding this, the death rate was 13.83.

There were 5 deaths from tuberculosis against 6 in the previous week.

#### LATE SHRI BEPIN BIHARY GANGULI

The Third Death Anniversary of Bepin Behary Ganguli, an arch revolutionary of Bengal and an Ex-Councillor, was observed recently in the city. A memorial meeting was held in a premises at S. B. Dey Street, Central Calcutta, under the auspices of Madhya Kalikata Pragati Sangha. The late Shri Ganguli was one of the founders of the Sangha. A bust portrait of late Shri Ganguli, beautifully bedecked with flowers and foliage, was placed. Shri Haripada Bose, once a close associate of late Shri Ganguli, garlanded the portrait.

Eloquent tributes were paid to his memory by the President of the meeting Shri Pratap Chandra Chunder and others.

Shri Bejoy Singh Nahar, M.L.C., narrated the contribution made by late Shri Ganguli in the country's struggle for liberation.

It may be recalled here that a proposal for re-naming Bowbazar Street after the name of late Shri Bepin Behary Ganguli is being considered by the Corporation.

## CITY NEWS PARADE

**OBITUARY:** The death of Shri N. N. Sen Gupta occurred on Wednesday the 23rd January at his Calcutta residence. He was 63.

The late Shri Sen Gupta was the first graduate among the blind in India and was Professor of Philosophy and Political Science in Bangabasi College, Calcutta, for 21 years. He was President of the Blind Persons' Association, and member of the executive committee of the National Association for the Blind and of the Lighthouse for the Blind.

The death of Shri Sudhansu Bhushan Majumdar, a well-known social worker and a close associate of Sir Daniel Hamilton occurred in his city residence recently. He is one of the pioneers of the co-operative movement in this part of India. The late Shri Majumdar was the first recipient of the Dr. B. C. Roy Co-operative Shield in West Bengal. He also served the Provincial Co-operative Bank as a Director for some time.

The late Sir Daniel Hamilton by his will gave his entire property to the service of the people and Shri Majumdar was made trustee. The late Shri Majumdar joined Sir Daniel's estate in 1909, and in 1918 became the manager, a position he held till April, 1955.

The death occurred at his Calcutta residence on Thursday the 24th January of Prof. Surendra Nath Bhattacharya Vidyaratna, formerly of the Government Sanskrit College. He was 86.

After a successful academic career in the Sanskrit College, he served as professor of Sanskrit in different colleges in Bengal. The late Prof. Bhattacharya was also the author of several books, including "Jaina O Hindu."

**COMMEMORATION. AWARDS FOR 'PATHER PANCHALI'**—was awarded at a function at Rabindra Bharati Bhavan, on Sunday the 27th January. The State Chief Minister, Dr. B. C. Roy on behalf of the West Bengal Government, presented silver medals to the Director, six artistes and others who had made the Bengali film a success. The film, produced by the Government, has won many national and international awards.

Shri Satyajit Ray (Director), Shri Subrata Mitra (Photographer), Shri Banshi Chandra Gupta (Art Director), Shrimati Karuna Bandyopadhyaya (Sarbjaya in the film), Shri Kanu Bandyopadhyaya (Harihar), Master Subir Bandyopadhyaya (Apu), Shrimati Uma Das Gupta (Durga, senior), Shrimati Runkie Bandyopadhyaya (Durga, junior) and Shrimati Chunibala Devi (Indir Thakrun) received the medals from the Chief Minister. Pandit Ravisankar, the Music Director was also awarded a medal.

Dr. Roy also gave Master Subir Bandyopadhyaya and Shrimati Chunibala Devi the "Oscars". They had been awarded as the best supporting actor and actress at the Manila Festival last year.

Making the presentations, Dr. Roy congratulated the recipients and spoke of the importance of art and music in the life of a people. By presenting life in Bengal in such a beautiful way as Shri Ray had done in the film he had proved himself a great artist. He hoped that more such artistes would be born and devote their talent to ensure the country's progress in their own way.

Shri P. S. Mathur, the Government's Director of Publicity, inviting Dr. Roy to make the presentations,

referred to the national and international awards the film had received.

The function ended with the presentation of the drama "Ahuti" by the Folk Entertainment Section of the State Government.

**FOUNDATION-STONE OF BUILDING FOR A BUNI-ADI VIDYALAYA**, a basic primary and nursery school run by the All-India Women's Conference, (Calcutta Branch): was laid by Dr. Parimal Roy, Director of Public Instruction, West Bengal Government, at Chaulapati Road, Beliaghata, Calcutta, on Sunday the 27th January. Shrimati Charubala Mukherjee, President of the Conference, was in the chair.

About six cottahs of land, at a cost of about Rs. 17,000, has been acquired by the organization on a hire-purchase system from the Calcutta Improvement Trust. The Government has sanctioned Rs. 21,000 for the construction of the school building and of the teachers' quarters. The institution has also received Rs. 9,000 from the Government to purchase equipment.

**MR. & MRS. MORRISBY** of the Australian Press, arrived in the city from Delhi by air on Sunday, the 27th January. They were given a reception at the Great Eastern Hotel on behalf of the Publicity Department of West Bengal Government.

During their week-long stay in the city the Morrisbys met Dr. B. C. Roy, West Bengal Chief Minister, on Monday morning and visited the National Library and the offices of 'Ananda Bazar Patrika' and 'Hindusthan Standard' on the same day.

**WEST BENGAL LEGISLATURE'S** brief pre-election session was opened on Monday, the 28th January with an address by the State Governor, Shrimati Padmaja Naidu. The Legislative Assembly was adjourned on Wednesday, the 30th January, after it had passed the Contingency Fund (Amendment) Bill. The Assembly held four sittings in three days.

Addressing a joint session of the State Legislative Assembly and Council the Governor said that the year 1956 was of unusual stress and strain on the economy of West Bengal. Commodity prices and the cost of living recorded a steady rise during the whole of the year, thus reversing the downward trend of the previous year. "The rise was due," the Governor said, "not so much to the intrinsic worsening of the supply position as to a fall in the value of money caused by inflation".

Continuing her speech the Governor referred to the measures adopted by the Government in removing the distress of the sufferers. The speech also referred to the achievements made by the Government in the fields of jail reform, social welfare, education and other nation building activities.

Shrimati Naidu entered the Legislative House in procession to address the joint session, preceded by the Mace-bearer and with the Speaker of the Assembly and the Chairman of the Council on either side of her. She left immediately after her speech in procession.

The Assembly and Council then met separately and each adjourned after a short sitting during which the deaths of Shri Pannalal Bose, former Education Minister, Shri Basantlal Murarka, M.L.A., Shri Kshitish Ghosh, M.L.A., Shri Tulsi Goswami, Pandit Ravisankar Sukla, the late Chief Minister of Madhya Pradesh and Dr. B. R. Ambedkar were mourned.

Eight of the ten M.L.A.'s from the areas ceded to West Bengal from Bihar attended the session.

Later on, the Council met on Thursday, the 31st January, for a few hours and transacted some business as done by the Assembly.

**EMPLOYEES MADE PERMANENT**

List of temporary employees made permanent by Commissioner with effect from 30th November, 1956 in accordance with the resolution of the Corporation dated the 1st October, 1956 and 14th December, 1956.

# PHENEOL LAMP BRAND

## A POWERFUL DISINFECTING FLUID

### —DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,  
Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed White arm badges with Black numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

**A. QASIM, Bar-at-Law,**  
**Supdt., S. S. Hogg Market.**

## 72 in. Dia. Tallah-Pulta Water Main A Bigger Project To Be Implemented.

CALCUTTA CORPORATION at its weekly meeting on Friday, the 8th February, accepted a tender submitted by Messrs. Structural Engineering Works Ltd., Bombay, for the installation of a new 72 in. dia. Pulta-Tallah Water Main in order to carry filtered water from Pulta to Tallah Underground Reserve Tank before distribution. This will increase the present supply to 150 million gallons per day. The present supply from Pulta is nearly 80 million gallons per day through two mains one 48 in. dia. and another 60 in. dia. The value of the Tender including Cathodic Protection has been estimated at about Rs. 1.04 crores. Other work outside the Tender which includes cost of Steel Plates and Land Acquisition would cost about Rs. 1.01 crores. There would be a contingency cost at five per cent. touching about Rs. 10.29 lakhs and supervision charges nearing Rupees Two lakhs. Thus the entire cost of the big project would be Rs. 2.19 crores, as estimated. This is the biggest development scheme undertaken by the Corporation in many years.

The Standing Water Supply Committee at its meeting on the 10th January, 1957, recommended to the House for the acceptance of the Tender. While considering the rates the Committee felt 'the imperative need of a sufficiently large conduit for carrying filtered water from Pulta to Tallah'. They also felt that 'the installation of a new Main will be another vital link in city's water supply.....and for the best interests of the Corporation the work be entrusted to Messrs. Structural Engineering Works. Ltd., who have the requisite resources and experiences and who have already done work of such large magnitude'.

The recommendation was placed first at the Corporation meeting on the 18th January being moved by the Committee's Chairman, Councillor J. L. Saha. M.L.C., but the discussion was postponed.

IDEAL FOOD, DRINK & DIET

LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA

The decision for acceptance of the Tender was taken after a prolonged discussion by a majority vote casting in favour of the recommendation with an amendment.

The Mayor, Shri Satis Chandra Ghosh, presided over the discussion.

More than twenty speakers including the Deputy Mayor, Dr. Amar Nath Mukerji, participated in the discussion. An important speech came from Councillor S. K. Gupta, I.C.S., Chairman, C. I. T., who took more than fifty minutes to record his personal views including an amendment on the original recommendation.

There were two other amendments proposed by a section of the House but all of them were lost when put to vote. In each case the voting was by poll as demanded. Among the rejected three amendments—the first was moved by Councillor Subrata Sen Sarma who sought to discharge the tenders and call for fresh ones. The second was moved by Councillor S. K. Gupta, Chairman of the Improvement Trust, seeking to replace the Bombay firm by a Calcutta firm—Messrs. Sur Iron and Steel Co. Another amendment suggested that a special sub-committee be set up to scrutinize the specifications for the tender. It was moved by Councillor Barendra Krishna Daw.

### DISCUSSION CONTINUED FOR HOURS

In one of the longest speeches so far made in the House Shri Gupta wanted the contract to go to Messrs. Sur Iron and Steel Company of Calcutta in whose favour the Committee had earlier recommended. He also agreed with the Committee that the Tallah-Palta Main was a matter of such vital importance to rate-payers that nothing should be done to delay or defer it on frivolous grounds. At the same time, he added, if some legal formalities had been omitted or if the matter was doubtful, they could not simply shut their eyes to them and go ahead. Three such omissions had been pointed out by the Chief Accountant of the Corporation. These were that the financial provision for the estimated cost of the project was lacking; the size of the pipe having been increased from 60 in. to 72 in. dia. Government sanction should be obtained for the deviation; and that since the estimate was likely to exceed the present calculations, further provision of funds and sanction of the Government for the increased expenditure was necessary.

Penetrating into the details of the acceptance of the Tender Shri Gupta said that it was originally called on October 8, 1955, and the box was opened on February 14, 1956. But it was assumed in October 1955 when the general conditions and specifications were finalized that the tenderer would be an outsider who would have to set up a factory at Palta and need a site free of charge? He alleged that the Deputy Chairman of the Water Supply Committee visited the factory of Structural Engineers in Bombay in December, 1954. The information was that the Engineering Adviser to the Corporation also visited the factory at the same time. The M.S. plates, received in November-December, 1956, were immediately transferred to Palta? He said that probably it could be done only on the assumption that the acceptance of the tender of Structural Engineers was a foregone conclusion, even though there were two other tenders whose workshops were in Calcutta."

Before concluding his speech the Chairman of the Improvement Trust pleaded a four-point reason for supporting the contract of the Calcutta firm. In his argument he elaborated that it was to their interest to break a monopoly and encourage the growth of competition

in this line of work, the efficiency of the Structural Engineers was not as great as was reported and the advantage which they had over the Surs on the ground of experience in pipe fabrication was now neutralised by the powerful combination of Kuljian Corporation and Messrs. Sur Iron and Steel, the so-called economy derived from the tender of the Structural Engineers was a myth because the amendment subsequently introduced make this economy perfectly illusory and other things being equal or not very greatly different. Lastly, it was definitely desirable that Corporation should patronise a local concern financed and manned wholly by Bengalees.

Councillor Gupta's amendment was supported by Councillor Sushil Kumar Roy.

While stating that the majority members of the Water Supply Committee were "too eager" to give the contract to the Bombay firm, Councillor Prasanta Kumar Sur, a member of the Water Supply Committee and who recorded a dissenting note in this regard, alleged that at the last meeting of the Standing Committee the members had arrived at the final decision after much deliberation.

Councillor Dr. Parimal Sen Gupta also alleged that some Councillors were "amazingly inspired to patronize a particular firm". This is, an abuse of the trust put in them. He also objected to some of the procedures followed by the Standing Committee in this connection.

Arguing that the tenders be discharged and fresh ones called for, Councillor Subrata Sen Sarma referred to the reported failure of the Bombay firm in the execution of an important work in Bombay and said that it had not the capacity to instal the Tallah-Palta main either.

Councillor Dulal Chandra Mukherjee, Chairman, Standing Public Utilities and Markets Committee, also supported Councillor Sen Sarma in regard to the discharge of the present tender and to invite fresh ones.

Supporting the recommendation the Deputy Mayor, Dr. Amar Nath Mukerji said that during his visit to Bombay earlier he had the chance to visit the factory of the Company and had seen miles after miles of pipeline they had laid. And

(Continued on next page)

## VIEWS AND REVIEWS

### INCREASED PRICES

With the rise in the tempo of 'Election Fever' in the city there has been a steady rise of prices of essential commodities. The price of rice has witnessed a rise of two rupees and more per maund during the course of a month. The other essential foodstuff—wheat or 'Atta' is gradually vanishing out of the market. It is beyond the common citizens' conception to obtain the same at a fair price or so-called controlled price. The funniest thing is that there was an assurance for adequate supply towards the earlier part of the week. It was reported that the Union Government would assume the full responsibility to meet atta requirements of the city and have allotted adequate quantity of wheat immediately. Still the situation remains almost the same rather deteriorated. In many of the localities people were found to queue up in front of Chakkiwallas' shops to receive a limited quantity of atta at six and a half annas per seer. Fine qualities of the stuff better known as flour were sold at an increased price than before.

One of the reasons for the scarcity of 'atta' in the city is due to its increased demand by the consumers who preferred to take wheat due to an abnormal rise in the price of rice which has registered an increase of rupees four to five per maund since last year. Similar big crowds are also witnessed now-a-days in front of fair price rice shops.

Accompanied with the rise in prices of rice and atta there was a sharp rise of prices of other foodstuffs including vegetables and fish whereby life has become difficult to maintain for a common citizen belonging to a middle or a lower middle class apart from the poorer community. The price of mustard oil remains almost the same although new crop has begun to pour in into the city.

Attempts were made in the past by the Government to ease the situation. Investigations are carried on to find out the cause of the situation. Some of them believe that the shortage is largely the result of the absence of any stock of indigenous wheat. According to the Bengal Chhaki Owners Co-operative Society, there was a stock of about 80,000 tons of indigenous wheat in December. Very little has been added during this period.

Officials also pointed out that there has been an increase in the demand for wheat products, such as 'atta', with the growth in the city's population. The demand for 'atta' moreover, increases during winter, when many rice eaters prefer to have bread.

In the meantime the Government has tightened its machinery to inspect arrangements for the distribution of wheat and wheat products. Mobile squads have been keeping watch on shops and chhakiwallas. Uptil now no specific case of profiteering has been reported to.

On the other hand in order to ease the situation certain changes in the distribution arrangements for sale of the commodity were discussed

at a conference between the State Chief Minister, Dr. B. C. Roy and Shri B. B. Ghosh, Secretary to the Union Food Ministry, at Writers' Buildings, on Tuesday, the 5th February. Details of the modified scheme, which may include a larger allocation of wheat from the present daily quota for the city market, are being worked out.

It has been emphasized by the State Government that an increase in the quota of daily supply of 1,000 tons of wheat to flour mills, chhakiwallas and fair price shops, at least for some time, might improve the present deteriorating position. But before such a decision could be taken, the overall wheat supply position would have to be taken into consideration.

Thus we can safely say that the situation is expected to be improved within a short period. Though the annual harvest, just passed over, has not been able to bring about an improved rice position in the city, still it is expected to be so. And it may be noted that a downward price tendency of essential foodstuffs rather helps the other food prices to fall.

### —72 IN. DIA. TALLAH-PULTA WATER MAIN

(Continued from previous page)

naturally, he was impressed. It is a reliable firm which has some idea of Cathodic Protection work, Dr. Mukerji added.

Replying to the charges made Councillor J. L. Saha, Chairman of the Standing Water Supply Committee, held that the recommendation of the Committee had been 'based on just consideration of valid tender' by the firm which had got years of experience behind it and which had actually carried on such work in Bombay.

Continuing his speech the Chairman said that the Corporation by sanctioning the purchase of steel plates for the pipeline in advance had gained some economic advantage. He also said that the Chief Valuer and Surveyor was consulted in determining the cost of land acquisition, and on his advice the cost was cut down to Rs. 8 lakhs.

Opposing the amendments Councillor K. L. Dhaudhania assured the House that there would not be any financial risk or difficulty if the tender of Structural Engineers was accepted. Its acceptance also did not involve any legal difficulty.

Others who participated in the discussion included Councillors Dr. K. P. Ghose, Bejoy Kumar Banerjee, Sudhir Mukherjee, Ganapati Sur, Benoy Lal Bose, Baren Daw, Shyamal Dutta, Pannulal Das, Rabindra Mohan Chatterjee and J. K. Chowdhury.

Earlier, the Mayor had disallowed a point of order raised by Councillor Chittaranjan Chatterjee that as the motion had not come through the Standing Town Planning Committee the House could not discuss it for acceptance. He emphasized his argument by quoting a copy of 'Calcutta Gazette' wherein a Delegation of Powers was printed. There was another point of order raised by Councillor Anil Mitra.

## Personalia

### A FOREIGN DIGNITARY

During the week the city has been visited by two important Military personnel well-known in the international field. MARSHAL ZHUKOV, Soviet Defence Minister, came to this city as a State Guest and stayed for a day only. Another was GENERAL S. M. SRINAGESH, Chief of the Indian Army Staff. The General came on a official visit while touring India before his retirement.

Marshal Zhukov arrived in the city on Wednesday afternoon, the 6th February, from Visakhapatnam by air. The Marshal and his party of 52 travelled by two Russian planes.

Walking along red carpets which had been unrolled for him, at Dum Dum airport Marshal Zhukov shook hands with Maj.-Gen. Henderson-Brooks, Brig. Moghe and Group Captain Malse. Children of the officers of Russian Trade Commission in Calcutta received the Marshal with flower bouquets. Shri S. N. Ray, Chief Secretary of the West Bengal Government, other senior officers of Indian Army, Navy and Air Force and members of the Soviet Trade Agency in Calcutta also received him.

Escorted by a group of military police the Marshal along with the Chief Secretary drove through the city in an open car and was taken to Raj Bhavan.

During the Marshal's stay in the city, he met many of the important personalities who called on him at Raj Bhavan. On behalf of the Marshal, Col. Pusookov, called on the Mayor, Shri S. C. Ghosh at his office, Central Municipal Office Buildings, S. N. Banerjee Road, on Thursday, the 7th February. The Col. carried a few presents from the Soviet Defence Minister to the First Citizen as a token of love for the citizens which were gratefully acknowledged by the Mayor. These included a casket, a scent case, a medallion, a chocolate box and three pictorial books.

Marshal Zhukov left for Agra by a Russian jet plane on Friday, the 8th February. He was seen off at the airport by the Home Secretary to the West Bengal Government, Shri M. M. Basu, I.C.S., the Inspector General of Police, West Bengal, Shri H. N. Sarkar, the Area Commander, Maj.-Gen. T. B. Henderson Brooks, Brig. Moghe, Group Captain Malse and other officials, of the Indian Army, Navy and the Air Force.

Numerous people stood on the road sides leading to Dum Dum to have a glimpse of the distinguished visitor.

### GENERAL SRINAGESH

On the arrival of Gen. Srinagesh at Barrackpore airport from Jamshedpur, on the day before the Marshal's arrival, he was received by Major-General T. B. Henderson-Brooks, Brigadier K. S. Moghe, Station Commander, Commander P. Vasudeva, I. N. Residential Naval Officer, Group Captain Y. V. Malse, Station Commander, I.A.F., Barrackpore, and an A.D.C. to the Governor.

After inspecting a Guard of Honour of the I.A.F., General Srinagesh, who was accompanied by his wife, drove to Raj Bhavan, where he stayed for the day.

Later he called on the Governor, Shrimati Padmaja Naidu and the Chief Minister. In the evening he met local Army officers, at the Defence Services Officers' Club.

Talking informally to Press representatives, General Srinagesh said that the years since independence were the chief feature of his 35 year's service. The Chief of the Army Staff returned to Delhi on Wednesday, the 8th February.

### —THE CORPORATION AT WORK

system, sewage disposal treatment plants and water supply system of a large city.

(e) Ability to supervise a large office and control labour staff.

Age—Ordinarily between 40 and 50 years, relaxable for a person otherwise well-qualified for the post.

### IMPROVEMENT OF ENTALLY WORKSHOP

The House, on the recommendation of the Standing Finance Committee, decided to effect certain improvements in the working of the Loco and Wagon Shops of the Entally Workshop under the Corporation. The decision was taken on the basis of a report submitted earlier by Shri P. S. Venkataraman, an Expert Member.

### A NEW CHILDREN'S PARK

The House gave administrative sanction to an estimate of Rs. 98,000/- for opening a children's play ground at Krishna Laha Lane. A directive was also given to acquire 18 kottahs of open land at a cost not exceeding Rs. 6,000/- per kottah.

### DEATHS AND DISEASES IN THE CITY

Attacks and deaths from small-pox in the city during the week ending the 2nd February were 95 and 74 respectively against 82 and 61 respectively on previous week. In the corresponding weeks last year no incidence of small-pox was recorded.

Cholera attacks and deaths were 16 and eight against 26 and 16 the week before. In the corresponding fortnight last year, there was attack and death, one in each case.

Malaria caused five deaths. There was no death reported in the previous week, while in the corresponding fortnight last year six persons died from the disease.

Tuberculosis claimed 29 lives against 36 in the preceding week and 35 and 50 in the corresponding weeks last year.

Deaths from all causes totalled 776 during the week under review against 928 the week before and 538 and 590 in the corresponding weeks last year.

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE TWENTY-NINTH ADJOURNED MEETING OF THE CORPORATION HELD  
ON FRIDAY, THE 1ST FEBRUARY, 1957.

## CONDOLENCES

At the outset, the House mourned the deaths of Shri Dwijendra Nath Ganguli, a former Chief Engineer of the Corporation, and Shri N. N. Mazumder, a pioneer for the cause of welfare of the deaf in India. Eloquent tributes were paid to their memory by the Mayor, Shri Satis Chandra Ghosh. The long services of the late Shri Ganguli were much recognised by the then Corporation and it was helpful in rendering civic services in the city. Describing the death as a premature one, the Mayor added, that the late Shri Ganguli even after his retirement was useful to the country as he had been appointed in an important post in the Relief and Re-habilitation Department, Government of West Bengal.

The House adjourned its sitting for ten minutes as a mark of respect to their memory.

The House also extended its condolences to the members of the bereaved families who were victims in the recent tragedy happened on the Netaji Birthday. The unfortunate event occurred in front of the Mahajati Sadan, Chittaranjan Avenue, while a torch-light procession in celebration of the day was passing along. The House's sympathy also went to the sufferers who were anyhow involved in that tragedy. This was moved in the House by Councillor Budridas Burman.

## PRIMARY EDUCATION IN CITY

The affairs of primary education as imparted by Corporation in the city, came to severe criticism in the House. Councillor Dharendra Nath Dhar pointed out that the Department concerned had not yet been able to supply the list of text books to be studied in the Corporation Primary Schools. He said that out of twelve months of a class year one month had passed away without any progress in study. While the students and teachers were allowed to sit idle the Corporation coffer spent the allotted sum, he alleged.

Councillor Dhar urged the Mayor, Shri Satis Chandra Ghosh to look into the matter.

Another Councillor Prasanta Kumar Sur referred to the pecuniary hardship of city's primary schools receiving grants-in-aid from the Corporation. He said that their difficulties had reached at a saturated point and unless Corporation help was extended their existence would be difficult to be spared.

The Mayor, however, assured the House that he would see that such help would go earlier.

## STRAY DOGS

Speaking on a matter of public importance Councillor Bijoy Kumar Banerjee referred to the menace of stray dogs who were required to be pounded by the Society for Prevention of Cruelty

to Animals. He said that there were pounds for such dogs in other municipalities while the Corporation had not been able to furnish the Society with the necessary equipments. He also urged the authorities to take effective steps in the matter, so that the citizens' life might be freed from such menace.

## PARK AT BENIATOLA STREET

Councillor Tulsi Ch. Pal objected against a recent decision of the Calcutta Port Commissioners' authorities. He said that earlier a small plot of open land on the Beniatola Street, on its approach towards the Ganges, was set apart for building a park there. And in view of this the open land was being utilised for the same purpose by the elders. But recently he had noticed a Petrol Pump was being installed at that very site. He apprehended that this would cause much inconvenience to the citizens of that locality.

Councillor Pal urged the House to move in this direction which was agreed upon.

## UN-SOCIAL ELEMENTS

Councillor Pannalal Das pointed out the disturbances created in his area with the appearance of some unsocial elements towards every evening. He said that it was unsafe for anybody to move about in the dark, particularly for the ladies. The growing number of such elements had caused much headache to the local citizens. He urged the Mayor to move the Police authorities in this direction.

## PROPOSED AMENDMENT OF MUNICIPAL ACT

The House recommended to the West Bengal Government, Local Self-Government Department, that between the last date for filing nominations and the date for the general election of the Corporation the period provided in the Calcutta Municipal Act should be 80 days.

This was in connection with the proposed amendment to be made in Clause (a) of Sub-Rule (1) of Rule 4 of Calcutta Corporation (conduct of Election of Councillors) Rules, 1952.

## MUNICIPAL LIBRARY

The House decided to open a Municipal Library in the Municipal Museum, College Street Market, at the earliest opportunity. The decision was taken on the recommendation of the Standing Education Committee who was earlier asked to find a suitable place to accommodate the Library. This arrangement was made as a temporary measure until such place was made available in the central part of the city.

It may be recalled here that Ex-Councillor Debajyoti Burman took the initiative in establishing a Municipal Library in the city and funds were provided to that effect in the Annual Budget for 1954-55.

#### PETROL PUMP AT GARIAHAT MARKET

The House, on the recommendation of the Standing Public Utilities and Markets Committee, allowed Shri S. K. Chatterjee an Agent of Messrs. Standard Vacuum Oil Company, for installing a Petrol Pump Station on an open space by the side of the gate of the Gariahat Market, facing Gariahat Road. The open land measures about 1,454 sq. ft. The land was leased out under certain terms and conditions.

#### PARK SHELTERS

The House, on the recommendation of the Standing Town Planning and Improvement Committee, decided to construct a shelter at Tallah Park out of the donation of the Melbourne Society. An Advisory Committee with the following has also been formed to that effect:—

- (i) The Mayor of Calcutta (Ex-officio).
- (ii) Chairman, Standing Town Planning and Improvement Committee,
- (iii) Chairman, Standing Health Committee.

- (iv) Ward Councillor,
- (v) Commissioner, Corporation,
- (vi) Australian Trade Commissioner,
- (vii) Dr. Maitreyee Bose, as representative of the West Bengal Council for Child Welfare.

#### CHIEF ENGINEER'S QUALIFICATIONS

The House, on the recommendation of the Standing Health Committee, prescribed the following qualifications for the post of Chief Engineer to Corporation:—

- (a) Citizenship of India as defined in Part II of the Constitution of India.
  - (b) A degree in Civil Engineering of any recognised Indian University or an equivalent foreign degree or Corporation Membership of the Institution of Engineers (India) or equivalent qualifications recognised by the Institute of Engineers (India).
  - (c) Ten years' experience as an Engineer in a responsible post or posts under Government or a statutory body, or in a reputed Engineering or Construction concern.
  - (d) Wide experience in the construction and maintenance of metalled roads in design and construction of sewerage
- (Continued on page 364)

### 'PHOTOGRAPHY SHOULD BE A PROFESSION'

The Academy of Photography, though established in 1952 and has been imparting training on the techniques of the art of photography, still its formal inaugural ceremony came off on the 2nd February last at 1, Chowringhee where the Academy has been maintaining its training centre.

In the absence of the State Chief Minister, Dr. B. C. Roy, who was to preside over the function, the Mayor, Shri Satis Chandra Ghosh, distributed the qualifying certificates to the successful candidates.

In a message to the Academy, Dr. Roy said that the State Government was keen on the development of photography not only because it could be a source of income to

the people but also for its utility in improving the cultural standard of the people.

The Mayor, Shri Satis Ghosh (picture above) said that by taking to photography many young men and women could be fruitfully employed. The Academy was training pupils in the art of photography and was thus rendering a useful service.

Earlier, Kumar Biswanath Roy, M.L.A., Working President of the Academy, (sitting beside the Mayor) welcomed all. Among others who spoke on the occasion were Shri P. N. Roy Chowdhury and Shri H. N. Sarkar.

## City's Homage To The Goddess Of Learning

SARASWATI PUJA, the most important festival for the student community as well as for youths was celebrated in the city on Tuesday, the 5th February, with much elan and enthusiasm. As in other Hindu deities, the Goddess of Learning was worshipped on a community basis in almost every school and college in the city, and the students took the lead everywhere. Besides there were celebrations arranged by clubs and cultural institutions in different localities. The Pujah marked the advent of the spring and children wore garments dyed in the colour of the season, light yellow.

Preparations for holding the Pujahs in schools and colleges started from the beginning of the year and so also in cultural organizations. This year not only did the number of pujas increase, but they were celebrated in a more spectacular manner than usual as was manifested in the decoration of pandals, in the standard of the entertainment programmes, and particularly in illumination in the evening. Tracing the cause some were of the opinion that the enthusiasts were placed this year on a better financial position than in previous years as larger amounts came from the prospecting candidates for both in the Legislatures and in Corporation.

One remarkable feature of this year's Pujah was the variety of designs, in colour and shape of the images, which were made mostly by East Pakistan refugee artisans. There were deviations from the original ones as to colour of the image which as a convention was always white-creamed one.

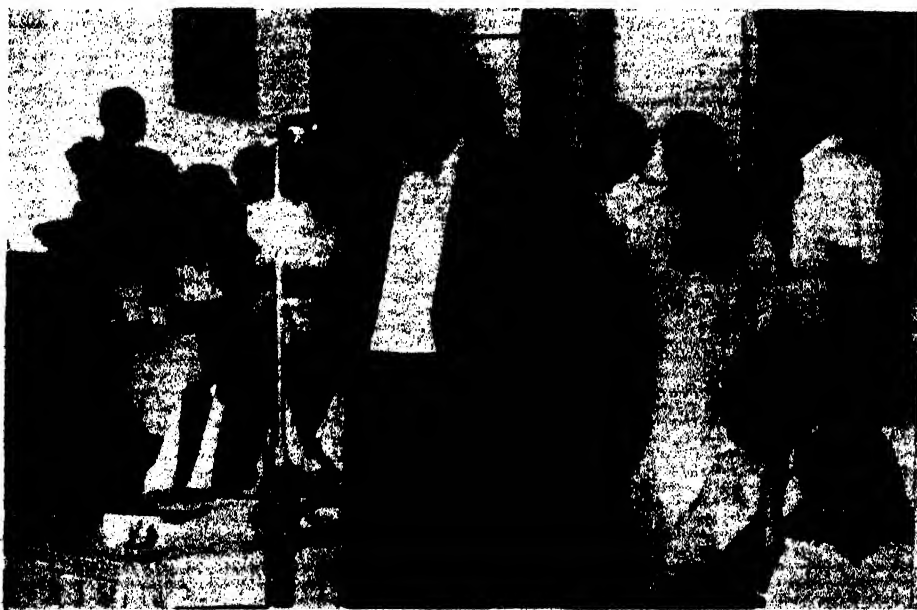

Merriment, started early in the morning, continued till a late hour at night. Students spent the early hours of the morning giving finishing touches to the puja pandals and later in offering prayers, to the accompaniment of cymbals and bells at prescribed intervals. After the Pujah, they

took prasad (food of grace) and later the lunch at which special menu were served. Soon after the Pujah and during the long interval between lunch time and evening cultural shows were held, gramophone records were played through loud-speakers.

Pujahs were also held in many of the Corporation schools with usual celebrations. Aldermen and Councillors in their respective localities also encouraged those Pujahs with their presence and patronage. A special function was held in the S. B. Dey Model School on the day before the Pujah wherein the image of the Goddess was unveiled by Councillor Dr. Bhupendra Nath Basu, Chairman, Standing Education Committee, in presence of a large number of local citizens and students of the school. Shri B. Koyal, Lecturer, Teachers' Training College, also performed the inaugural ceremony of a manuscript magazine 'ANKOR' (seedling) in that connection. Shri A. Mitra, Head-master, Boys' School, welcomed the guests and Shrimati H. Sen, Head-mistress, extended a vote of thanks. The function was accompanied by dance recitals and music. The celebration was held under the auspices of S. B. Dey Model School for Boys, Raj Rajeswari School for Girls and two others Primary Schools holding classes in the morning hours. Messages were also read welcoming the manuscript magazine from the Mayor, Shri S. C. Ghosh, Councillor U. N. Sen and others.

Pujahs were also held under the auspices of the Corporation Scavengers' and Labour Union in different Harijan Bustees.

Devotees of Saraswati, mainly school and college students, immersed hundreds of images of the deity in the Ganges. Lorries, private cars, hackney carriages, rickshaws and even hand-carts were used by the youthful worshippers to carry the images of the Goddess of Learning to the river.

Councillor Dr. B. N. Basu speaking on the significance of holding worship of the Goddess of Learning while a packed gathering hearing him with wrapt attention. Shri B. Koyal, Shri A. Mitra, Shrimati H. Sen and others in the picture.

PHOTO: S. B.

MAYOR IN CHILDREN'S FESTIVAL

[C.L.T. President, Shri N. N. Bhose, Secretary, Shri Samar Chatterjee, Alderman P. D. Himatsingka, Councillors A. C. Sarkar, A. Maitra and others in the picture. 'Mithua' was staged on that day.]

## 'RHYTHMS & RHYMES'

LITTLE CHILDREN in the city had the opportunity of having a good feast of their eyes when they witnessed the ten-day long festival of the C.L.T. This was the fifth annual festival of the CHILDREN'S LITTLE THEATRE holding its shows some time ago in January in a specially erected pandal at the junction of Middleton Row and Chowringhee Road where a number of cultural functions had just preceded.

Happily this year's festival had drawn a large number of distinguished guests than in previous years. Among them were the India's Vice-President, Dr. S. Radhakrishnan, the State Governor, Shrimati Padmaja Naidu, India's Chief Justice, Dr. S. R. Das, and other notables who had any of the days made his or her august presence and recorded their appreciations in an unhesitating manner. The Mayor, Shri Satis Chandra Ghosh, who was in the guests' seat on the 26th January, congratulated the organization with his personal greetings after witnessing a day's programme. Alderman P. D. Himatsingka, M.P., and many of the Councillors also were present on that day. In view of the performance put up by the C.L.T. and its enterprise to spread the theme among all sections of little children the Alderman and Councillors have felt it necessary that the organization should be provided with a permanent centre in this city as its headquarters. It has further been proposed to lease out an open Corporation land for the purpose. The cost for construction of a roof over the space has already been assured by the Prime Minister's personal fund. Shri Nehru's patronage and goodwill for the C.L.T. is well-known to all.

A packed gathering of nearly 4,000 witnessed in each day's delightful performances. The gaining popularity is due to the fact that every year new items sparkle the eyes of the audience. It was like a magic transforming the verse into appropriate steps and mime of dancing. Stage-craft was also equally praise-worthy.

Above all, themes were taken mostly from stories well-known, in international field, rendered into nursery rhymes.

We should be thankful to Shri Samar Chatterjee, Secretary of the C.L.T. for his facile versification and catching melodies which formed the part of performances staged by the children and for the children. Quick movements and expressed mimicking entrained the audience than anything else. Thus the performances were sources of abundant joy and merriment to the youngsters who had been given priority in witnessing them from the 'Children's Corner'. An elaborate C.L.T. exhibition was also opened on the 23rd January in the same place by India's Vice-President, Dr. S. Radhakrishnan.

Among the new features of this year, mention may be made of 'Jizo', a story based on the Japanese fable transformed into a fascinating fantasia and emerged out with an overwhelming impact. It was presented in such a way that the impression on the audience was spontaneous who greeted the play with applause. Scenic grandeur was significant and executed with cinematic precision. Even the Japanese atmosphere was captured in totality. The Japanese Consul in Calcutta who was present on the first day of the performance had to declare in an unequivocal term the success of the play.

The story related how a Japanese family of an old father and two children was helped in their dire need by the Japanese God Jizo. The accompanying music was in conformity with the theme. The Choreography was compelling and the costumes captivating. This successful performance led to expect the show on the concluding day.

On the fifth day of the Festival Wednesday, the 23rd January, the outstanding dance drama 'THE GOLDEN FLUTE' Kanak Banerji showed that the C.L.T. lived up to its unique reputation in presenting children's plays. A packed auditorium also greeted the 'Golden Flute' with repeated applause. The day's audience included Dr. Sarvapalli Radhakrishnan, Vice-President of India, Dr. S. R. Das, Chief Justice of India and many other distinguished guests.

"The Golden Gate" was adapted from a Marathi tale by Shri Samar Chatterjee who also directed it.

The C.L.T. play which regaled the UNESCO delegates in New Delhi was 'Mitra'. In addition to that the A.I.R. had made a world broadcast of the play during the current year. It was presented on the C.L.T. Board on the 26th January, and the Mayor, Shri S. C. Ghosh, who took a keen interest in the performance was eloquent to render all possible help when he posed himself before the camera along with the participating children and the authorities. 'Mithun' was also staged in the Students' Festival in connection with the University Centenary Celebration at Ballygunge Circular Road. Besides, the stage craft lighting display and other accompaniments were above the mark, when the members of the 'Children's Corner' became inquisitive about so many happenings in the depth of a Calcutta night.

The 'Fair' representing a typical periodical market in a village was also presented on two days. This was acclaimed as a C.L.T. masterpiece on a previous year by the audience.

"The Fair", written and directed by Shri Chatterjee presented all the fun of the village fair, the usual merry-go-round toy vendors and the chana-churwala. Towards the end arrived the circus party with its clowns, trick cyclists and a realistic tight-rope-walker. The sets and costumes were colourful.

Sukumar Roy's 'ABOL TABOL', presented by Lake Moumela in another day, attracted the audience much. The Orissa Kala Vikash Kendra's "The Joy of Harvest," a saga on agricultural life of the State and 'Kela Keluni' a peculiar aspect of nomadic life, were expressed through dances. Another day the Kendra presented two beautiful short items—'Anadi Sangita' and a 'Folk dance of Sambalpur'. They were most colourful with exquisite dancing. Item by Pratt Memorial School—Hyderabadi folk dances was also enjoyable. La Martiniere School presented the School's Percussion Band.

Sishu Nandan K. G. School's "Dadur Daatana" breathed an authentic atmosphere of the woods. Modern High School's "Wishing Cap" was an English feature. "Katha Kathi" by Calcutta Blind School, group items by K.D.'s School Sri Bharati, Andhra School of Dancing, National High

School and Abhinav Bharati were the other participants.

The Seaside Express 'Chugger Chugger Choo' presented by the Delhi Branch of C.L.T. was more delightful to children.

The students of the Corporation Primary School at Cornfield Road also presented a delightful programme in presence of the Mayor. The subject was Pramatha Bishi's 'Bobar Banahi', or 'Flute of a Dumb'. It was rendered in a most fascinating way. There was another performance by the same representing scratching sound of wheels of a village cart with the accompaniment of dance recitals.

The first day's programme opened with a Bharata Natyam demonstration by eight girls of Shrimati Tagore's school. This was followed by items by Calcutta and Delhi C.L.T. The Delhi C.L.T.'s "Hunting Picknickers" was a vigorous dance while Calcutta C.L.T.'s "Little Birds" was enjoyable.

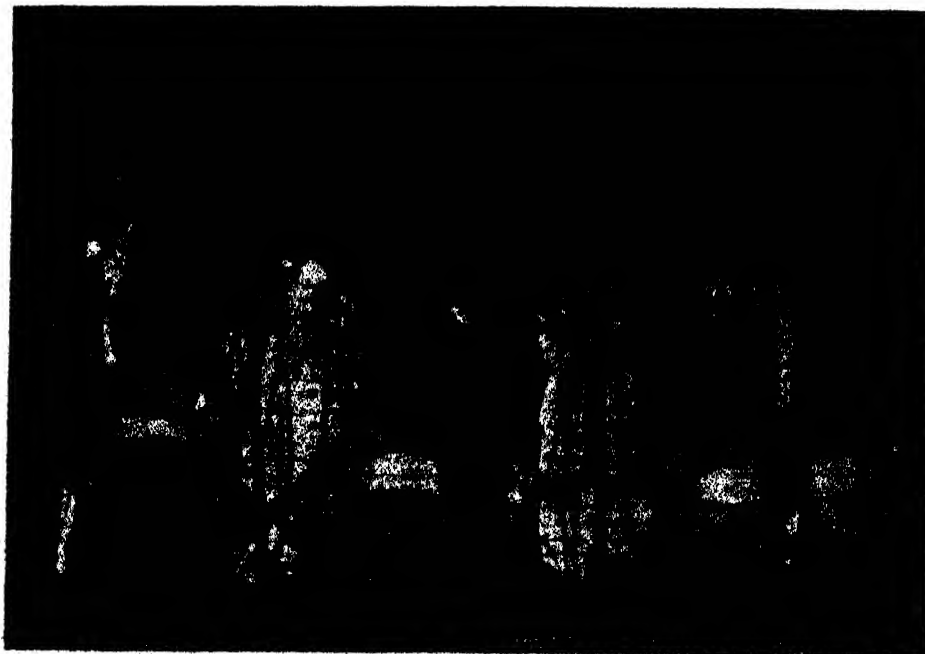

The festival was inaugurated by Shrimati Kamaladevi Chattopadhyaya, President of the Theatre Centre of India and Vice-President of the Sangeet Natak Akademi. She said that children needed organizations through which they could express themselves. The C.L.T., which had taken the lead in the children's theatre movement, was already well-established in Calcutta and Delhi. And this city could boast itself for pioneering the cause as it did in respect of others. The popularity that the organization had gained was a proof of the need for such a movement.

The President N. N. Bhose and Secretary also spoke on that occasion.

#### PLUMBERSHIP EXAMINATION RESULTS

The following have passed the Plumbership Examination held on the 29th December last. The Examination was conducted by the Chief Engineer's Office:—

Shri Sukumar Ghose, Shri Hari Madhab Biswas, Shri Satyendra Nath Auddy, Shri Sushil Chandra Ganguly, Shri Maheswar Mahanty, Shri Gobinda Chandra Dutta, Shri Satyendra Nath Ghose, Shri Sambhu Nath Das, Shri Jnan-tosh Roy Chowdhury and Shri Baidya Nath Prasad.

A SCENE FROM 'JLO'

PHOTOS: MOXO MITRA.

## CITY—NEWS—PARADE

**OBITUARY** Shri Manindra Nath Bose, a retired Engineer of the Corporation and a well-known contractor died of heart failure at his residence at 1/3, Rash Bagan Lane, Balinghata on Saturday, the 2nd February last. He was 77.

Besides his private charities, the late Shri Bose made a handsome donation to "Jogodyan", Kankurgachi and was connected with it till his death.

The death of Dr. Sukumar Dutta occurred on the same day at his residence at Creek Row. He was 75.

After taking a diploma in agriculture at Shibpur Engineering College, the late Dr. Dutta worked under the Bihar and Bengal Governments. Later, he went to Great Britain and studied sugar technology and agricultural engineering at the Royal Technical College, Glasgow. He acted for some time as adviser to a private sugar factory and was associated with the Calcutta Homeopathic College.

**CALCUTTA ISLAMIA HOSPITAL'S** new annex, a Surgical Operation Theatre, was inaugurated by the State Chief Minister, Dr. B. C. Roy on Friday, the 1st February last. The Hospital, which began as a charitable dispensary in 1926, has 155 beds at present and Dr. Roy had no doubt that in spite of a recurring deficit in the budget it would continue to develop.

Dr. Roy advised the authorities to ensure that the hospital's nurses and lower grade employees were given adequate accommodation and other facilities. He also announced that a non-recurring ad hoc grant of Rs. 25,000 towards the hospital's development would be made by the State Government in March. Promises for donation was also made by some of the guests present.

**INDIAN CONGRESS OF RADIOLOGY** was inaugurated at the Medical College, Calcutta, on Saturday, the 2nd February last, by Dr. B. C. Roy who emphasized the need to ascertain the conditions in which X-ray should be used and to regulate its dose in particular cases. Radiologists, he said, should devote their attention to develop this important branch of medical science for prognosis, diagnosis and treatment.

The Governor was the Chief Guest of the function. Dr. S. Cochrane Shamas, Adviser in Radiology, British Ministry of Health, visiting India at the invitation of the Union Government to study problems of radiology, was awarded the Sir Jagadish Bose Gold Medal by Diwan Chand Agarwal, the President of the Congress.

Prof. N. K. Siddhanta, Vice-Chancellor, opened a technical and scientific exhibition on Radiology.

Dr. Agarwal said that in India they needed legislation to ensure that without proper training none could practise Radiology. Because of radiation hazards no country could afford to remain without control over the use of various types of apparatus for radiation. He also pleaded that customs duty on X-Ray equipment in India should be reduced and brought at par with that on industrial machinery.

**ASIATIC SOCIETY IN CALCUTTA** held its Annual Meeting on Monday, the 4th February. The Library of the Society has about 1,00,000 printed books of which only

54,000 has so far been catalogued. There are also about 27,000 Sanskrit manuscripts and about 6,000 Islamic manuscripts. Catalogues for all these books and manuscripts should be prepared and printed.

On the advice of a representative of the Ministry of Education, the Society had sent a revised scheme to start and maintain a department of South-East Asian studies for a period of five years.

Presiding over the meeting, Dr. D. Bose said that a scheme had been prepared to improve the Society's library and to open a department of South-East Asian studies. He referred to the work of the Society in various directions, and said that in some important respects this was being affected by the financial difficulties confronting it.

The Society's library, he said, was famous for its collection of manuscripts, books and journals. Many of them were badly in need of immediate repair, binding and laminating. To preserve them better it had become urgent to air-condition a number of rooms. For this, financial help from the Government was necessary.

A WEST GERMAN PRESS DELEGATION reached the city on Wednesday, the 30th January last from Delhi on a six-day visit. On their arrival at Howrah railway station, they were received by officials of the Union and State Governments. During their stay in the city they visited the Baruiপুর Community Project, Uttarbagh Pumping Station and others. They also met Shrimati Padmaja Naidu, Governor, and Dr. B. C. Roy, State Chief Minister in one of the days.

**SHRI TRIDIB CHAUDHURI** M.P. and Shri Saktipada Nandi, who had been in detention in Goa, were given an enthusiastic reception on their arrival in the city on Thursday afternoon, the 7th February. Shri Chaudhuri and Shri Nandi had recently been released after nineteen months detention in Goa in connection with Goa Liberation Movement.

Several thousand people with flag and festoons were present at Howrah Station to receive them. They were taken in procession through the main thoroughfares in the city to the Maidan where a meeting was held under the auspices of the Goa Liberation Committee comprising of various Leftist parties of West Bengal.

The meeting also observed a minute's silence in memory of those who gave their lives for the liberation of Goa.

Replying to the felicitations, Shri Chaudhuri said that there were still about 300 people, including nine women, in jails in Goa. He believed that at the intervention of the Roman Catholic Church the Portuguese Government had agreed to release the Indians in detention. Shri Chaudhuri appealed to the Indian people to continue the fight for the liberation of Goa till success.

Shri Vivekananda Mukherjee, Editor, 'Jugantar', who presided, felt that there was something wrong in Shri Nehru's policy towards Goa. Philosophical discussions on whether Goa should be liberated through peaceful means or otherwise were useless when India's prestige was at stake.

Shri Mohit Maitra, M.P., Shri Jatin Chakravarty and others also addressed the meeting which started with a musical soiree.

# CORPORATION NOTICES

## To Contractors

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed White arm badges with Black numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

## VIEWS AND REVIEWS

### EPIDEMIC DISEASES ON INCREASE

SPREAD of small-pox has not been checked in the city on a satisfactory level since the disease was declared as an epidemic.

Deaths from the diseases during the week ended the 9th February were the same as in the week before 74, although the number of attacks from the disease showed a slight drop—88 against 95 in the preceding week. During the corresponding fortnight last year attack and death from the disease was one in each case.

During the week 125,588 people were vaccinated against small-pox. The number of people vaccinated against small-pox from January 2 till the week ended February 9 were 18.9 lakhs.

More than 164,140 persons were vaccinated during the week before.

Under the present arrangement, the Corporation and the Government hope to complete vaccination of all bustee-dwellers and a fair percentage of the remaining population of the city before the end of this April.

As there are doubts and suspicion as to the exact number of vaccinations the authorities are contemplating to introduce a system of issuing certificates to those who have been vaccinated against small-pox. This would help them in removing allegations made some times by people who generally refuse to get themselves vaccinated with

the plea that their localities had not been visited by the Corporation Vaccinators. This was thought upon at a joint meeting of the medical officers of the West Bengal Government and Calcutta Corporation.

Hospital beds in the infectious wards of the N. R. Sarkar Hospital are filled up and the authorities would have to make arrangements for extra beds if the disease continue to have its ravages on. On February 8, the number of beds occupied by patients was 142 out of which 108 were male. The Ward was so much crowded with the small-pox cases that all the chicken-pox cases were refused throughout the week. Refusal of such cases would probably result in the spread of the infectious disease. Thus the need of Infectious Hospital in the city has been felt for a long time.

While small-pox has been raging in epidemic form in the city, cholera cases are also increasing. Up to Friday, the 8th February last the number of cholera patients in the N. R. Sircar Hospital was 75, of whom 81 were women and children. The disease has not confined itself to any particular locality rather evenly distributed throughout the city.

Beginning from the week ended January 5 up to the week ended February 2, attacks and deaths from cholera numbered 64 and 42, respectively. Attacks and deaths from the disease during the week ending

**LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA**

the 9th February numbered 12 and eight against 16 and eight in the previous week, while in the corresponding fortnight last year the number of attack and death was one in each case.

During last week 18,926 people were inoculated against cholera. The number of people inoculated against cholera in the city up to the 9th February from the beginning of the year was 1,02,160 only. A drive for inoculation has been given by the Health Department, Corporation. The Public Relations Department has also started a campaign against the use of stale food or unhygienic foodstuffs.

The Health authorities in the city expressed concern at the reluctance of a large section of people to get themselves inoculated against cholera at this stage. In co-operation with the Public

Sur, Dr. Esmail Ebrahim, Karam Hossain, Sk. Ismail, Bejoy Kumar Banerjee, Subrata Kumar Sen Sarma and others.

Concerns were expressed by the City Fathers in the weekly Corporation meetings. On Friday, the 8th February last Councillor Raj Satyendra Nath Mitra said that cholera also was spreading in many parts of the city. He urged for sinking of a larger number of tube-wells in the city as very few of the 400 tube-wells, sanctioned by the Borough Committee for an area, had been sunk so far.

In another meeting Councillor Pannalal Das also felt the need of distributing disinfectants in the Bustee areas, as the disease had its havoc among the lower-income group people living in Bustees.

Hospitalization has been felt the prime need of the moment in order to get the city free from the infectious diseases. But there is scarcity of such beds. Up to Wednesday night the 18th February there were 165 small-pox and 77 cholera patients in the infectious disease wards of N. R. Sarkar Hospital.

Happily, the West Bengal Government has decided to open 'the Infectious Diseases Hospital' in Beliaghatta area, on March 1, or as early as possible thereafter. The Hospital will have 280 free beds.

Of the free beds, 80 will be for cholera patients, 40 for small-pox, 80 for diphtheria, 40 for tetanus, and 40 for meningitis. Altogether, the hospital will have 640 beds.

The news of the opening has been welcomed by the authorities of N. R. Sircar Hospital, a general hospital. With the end of the current epidemic session, or by October at the latest, the accommodation and other facilities in N. R. Sircar Hospital, which are now being occupied by small-pox and cholera cases will be released for use of patients suffering from general diseases.

#### B. C. G. CAMPAIGN IN THE CITY

WHILE we talk of epidemic diseases like cholera and small-pox taking a larger number of lives every year in the city for the present we ignore the fact that the biggest killer is Tuberculosis. Total deaths from the disease last year were 2024 tolling about six lives a day. Cholera and small-pox took 845 and 287 lives during the same period. Malaria accounted for 223 deaths. The total mortality during the year was 39,131.

According to Corporation Statistics deaths from all causes in this city from April, 1954 to the end of March, 1955, were 32,197 and deaths from tuberculosis during this period totalled 2,696. Cholera accounted for 645 deaths, Small-pox 123 and Malaria 427. Thus the percentages of deaths from the disease come to nearly 7 and 8 respectively for two consecutive years out of total deaths.

In this city alone nearly 50,000 people suffer from Tuberculosis while in the State of West Bengal the number has exceeded two lakhs. And according to the experts the peak of the spread of the disease has yet to come.

This alarming forecast has caused much anxiety to the city's health authorities as well as to the Government of West Bengal, Health Department.

B. C. G. Vaccination, a preventive method, has been found to be an effective check in this

#### DEATHS AND DISEASES IN THE CITY

Attacks and deaths from small-pox in the city during the week-ending the 9th February, were 88 and 74 respectively, against 95 and 74 respectively, in the previous week. During the week under review there were 13 imported cases while during the previous week the number was nine. During the corresponding weeks last year the number of attacks and deaths was one in each case.

Cholera took eight lives during the week keeping at par with the number in the previous week. Attacks from the disease were 12 during the week against 16 on previous week. The city was almost free from the disease during the corresponding weeks last year except a single case of attack and one death.

Malaria caused three lives against five during the week before. Typhoid was responsible for five lives during the week. During the previous week a similar number died of the disease.

Tuberculosis tolled 87 lives during the week. The number exceeded by eight than that of previous week. 76 persons lost their lives due to the ravages of the fell disease during the corresponding fortnight last year.

Deaths from all causes totalled 819 during the week against 776 in the week before. There were 605 and 588 deaths during the corresponding weeks last year.

Relations' Department they have warned the public that while vaccination is a sure guarantee against small-pox at least for a year, if not two or three years, cholera inoculation gives immunity for three to six months at the most.

As in case of small-pox meetings were arranged in street corners and parks where citizens were told to take precautionary measures. These meetings told the people that until long-term measures, such as abolition of the dual water-supply system, were implemented to remove the causes of cholera, people must protect themselves against the disease through inoculation, taking of boiled water, abstaining from unhygienic foodstuffs and other preventive measures. These meetings were addressed by Councillors Dr. P. K. Roy Chaudhury, Ganapati

matter. There was a meeting in the Municipal Museum Hall, College Street, on the 2nd February last under the joint auspices of Calcutta Corporation and the Government of West Bengal, Health Department for discussing the issue. Councillor Dr. P. K. Roy Chaudhury, Chairman, Standing Health Committee, presided. Several speakers felt the need of preventive measures in the city to check the spread of the disease. A considerable number of citizens who attended the meeting also participated in the discussion.

The meeting estimated the progress of work done in this field jointly by the Corporation as well as by the Government. The magnitude of the problem of the T.B. menace was also estimated there. The City Corporation activities in this direction came to the forefront.

All of them were in the opinion that B. C. G. Vaccination was the only method by which check of the spread of the disease could be brought about. Dr. S. M. Mazumdar, Assistant Director of State Health Services, who made a brief speech on the subject, stated that out of 77 lakhs people who underwent tuberculin tests, about 92 lakhs were vaccinated with B. C. G. lymph up to January, 1957 in the State. Throughout India the number had touched nearly 278 lakhs up to September, 1956.

Dr. L. K. Sukul, Medical Officer, B. C. G. Vaccination Scheme, Government of West Bengal, presented a detailed study of the B. C. G. Scheme in India, through a written paper, published elsewhere.

While welcoming the drive Dr. R. Sarbadhikary, Medical Officer, Corporation Chest Clinic, Mansatala Lane, Kidderpore, said that nobody should be carried away by the glare of the vaccines. He felt that environmental hygiene should also play in checking the spread of the disease. The present world opinion, in spite of contradictory views in favour of B. C. G. as an undoubted preventive against T.B., went more towards the creation of better environmental hygiene than anything else. Dr. Sarbadhikary also opined that segregation of T.B. patients and the drive for vaccination should be placed in equal footing in order to check the spread of the disease.

Shri B. Bhadra, Public Relations' Officer, Corporation, narrated the progress of anti-tuberculosis work in the city through health education, establishment of chest clinics, provision of domiciliary treatment and others.

Shri H. C. Bishnu, Senior Social Worker, B. C. G. Vaccination Scheme, described the mass vaccination scheme the State Government was going to undertake in the city. He also informed

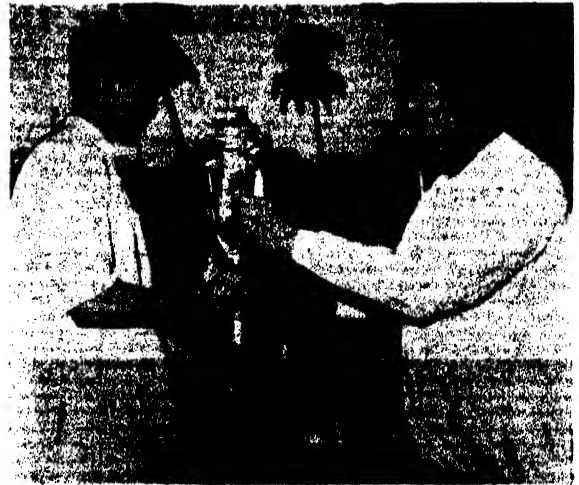

that a tentative programme for starting the scheme in a part of the city had already been drawn up. Similar ones would be undertaken soon for the rest of the crowded city which had been considered to be a fertile field for germs of the disease.

Dr. Roy Chaudhury, in his address, was eloquent on the success of the B. C. G. vaccination drive. He said that the campaign was not fully unknown in this country as it had its origin in 1948 by the Government of India in co-operation with the UNICEF.

Assuring full help to the Government scheme, the Chairman of the Standing Health Committee, narrated the Corporation's effort in this direction.

It may be noted here that the Standing Health Committee recently discussed another scheme prepared by the West Bengal Health Directorate for domiciliary treatment of tuberculosis patients. The matter was referred to the Corporation in connexion with a proposal to locate a centre under the scheme in one of its existing Chest Clinics.

The scheme envisaged the division of the city area and the suburbs into nine sectors, each having a mobile unit. It has been intended to base the mobile teams at certain selected sites where facilities for X-Ray and laboratory examinations and physical tests by specialists are available or could be made available without much difficulty. Each unit will have to look after about 400 patients.

The Mayor gives the Trophy for football to Shri D. Bhattacharyya of Sanjib Training Corps.

#### DHAKURIA SPORTS ASSOCIATION

The Fourth Annual Prize Distribution Ceremony of Dhakuria Sports Association was held on the 3rd February last at Dhakuria Maidan. The Mayor, Shri Satis Chandra Ghosh, who distributed the prizes to the successful competitors, hoped that spacious lawns for play grounds would be provided for the health and well-being of the youths and students when a planned town would emerge in that part of the city. He also appreciated the activities of the Association. Prizes were distributed to the winners as well as to the runners in the football and volleyball tournament run by the Association.

A large number of local citizens watched the function. Councillors Devaprasad Chatterjee, M.L.C. and Nripendra Nath Banerjee, Shri B. B. Ghosh, Shrinati Ghosh, Shri R. B. Chatterjee, Shri N. C. Chatterjee, Shri S. K. Ghosh (Chief Guest) and others were present.

#### GALLANTRY MEDAL FOR A CALCUTTA POLICE

The President of India has been pleased to award the Police Medal for gallantry to Shri Brij Nandan Singh, constable of the Calcutta Police.

A Press statement published in this connection stated that Constable Brij Nandan Singh showed exemplary courage and devotion to duty in tackling single-handed an armed lunatic who ran amuck in a crowded street of Calcutta on January 13, 1954.

Constable Brij Nandan Singh's bold action undoubtedly saved the lives of many people.

Shrimati Labanya Prabha Dutta, M.L.C. sitting while Councillor Dr. Bhupendra Nath Basu, Chairman, Standing Education Committee, speaking as a Chief Guest.

## CORPORATION PRIMARY SCHOOL

### Annual Prize Distribution Ceremony

A delightful and regaling function was held recently in the premises of Sir Goorudas Institute, Jagannath Tarkapanchanan Lane, Narkeldanga, to celebrate the Annual Prize Distribution ceremony of Sir Goorudas Primary Girls School. The function was presided over by Shrimati Labanya Prava Dutta, M.L.C., a member of the West Bengal Social Welfare Service who also distributed prizes.

The Chairman of the Standing Education Committee, Councillor Dr. Bhupendra Nath Basu, acted as Chief Guest. A large number of local citizens watched the function which included musical soiree, dance recitals, recitations, caricature and a playlet. It was participated in by the students of the school.

Being much pleased with the performances done by the little girls, the President placed her appreciation on the activities of the school in all respects. She hoped that the school bearing the name of one of the noblest sons of Bengal would be a fitting memorial of Sir Goorudas.

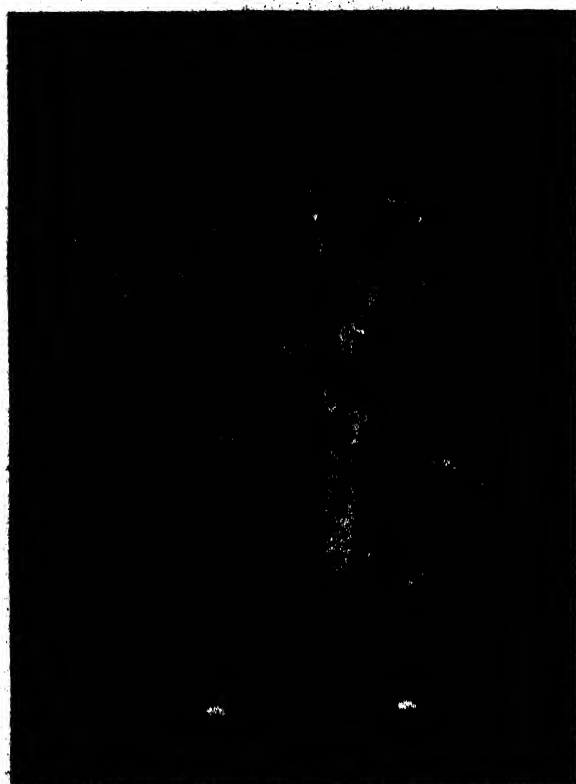

Dr. Basu also assured the audience that there would be no lack in fulfilling the present wants of the school by the Corporation.

It may be recalled here that the number of students of the school has touched a figure of more than 450 and it is gaining a name among the sister institutions in that locality.

The audience present, much appreciated the mode of teaching of that school which secured a junior grade scholarship last year. Besides the need of additional accommodation for the increasing number of students was felt by all.

#### CALCUTTA CITIZEN HONOURED

Dr. Rehati Dutta Chowdhuri, Pathologist, Chittaranjan Cancer Hospital and Associate Professor of Pathology of the Chittaranjan Seva Sadan, College of Obstetrics, Gynaecology and Child Health, has been awarded Fellowship of the International Academy of Pathology.

SPECIAL

MUNICIPALITY

## TREES AND STREET LIGHTING

THE problem of street lighting along heavily tree-lined roads are always a headache for the lighting engineer. However, the engineer realizes that trees do enhance the beauty of the wayside and suitable arrangements have to be made to meet this. The four best-known arrangements are:—

- (a) The light source to be above the foliage.
- (b) The light source to be below the foliage if the trees are high enough.
- (c) Level with the foliage if the tree can be properly pruned by an expert.
- (d) Centre suspension over the carriageway.

In section (a) this system may be adequate, but with the growth of the tree, serious shadows could result. In section (b) the question of mounting height arises and it is not always possible to obtain uniformity. Section (c) seems to offer difficulties in having the pruning carried out regularly so as to avoid shadows. While section (d) seems to be the answer to the problem, many think that this has the effect of tunnel lighting. Personally, I consider the engineer should only concern himself with the results on the highway.

### COLLABORATION NECESSARY

In the new housing areas, a form of collaboration with the Parks Department would be most helpful in the siting of both standards and trees. A suggestion is made that the trees be planted at the heel of the footpath and the lighting standards at the toe of the footpath might give the desired results of both good lighting and so preserve the tree-lined street.

While the work of the Tree Lovers' Society is to be highly commended, it is surely true to state that where modern traffic problems arise (such as the need for good street lighting) then the problem should be faced in a realistic manner, even if this means the curtailment of trees on highways. Public safety should always be the foremost aim.

### STORAGE HEATING

A considerable advancement has been made in connexion with electrical heating for offices and public buildings. The extensive use of storage heating has become very prevalent of late. This may be due to the favourable off-peak tariff which considerably reduces the cost of current consumed. The most popular types in use to-day are the G.E.C., Nightsor and the Walsall Tyrad. Both are very effective, especially where used their—mostats to ensure that advantage is taken of mild weather. It is true to state that the installation charges are heavy, but when the costs are offset against a solid fuel system, it has been proved that the savings will write off the capital costs in a very short period.

Criticisms have been made that the system has not enough flexibility, but this can be taken care of by means of isolation switches. When one considers that this storage system having black heat, is free from the risk of fire or fumes and is very clean in operation, it would appear to be the type of heating for all modern buildings.

From experience, the maintenance costs are practically nil. The largest installation of this type in the country is installed at the U.C.B.S. Biscuit Works, Clydebank. Many engineers have had the privilege of inspecting this plant and have been highly impressed by the results they have seen.

A very important factor in this subject should be air cleanliness and smoke abatement and by having a system of electric heating, this obviates the problem of smoke from solid fuel systems.

### NEW TARIFF RATES

A serious financial problem has arisen in lighting authorities with the introduction of the new tariff rates for public lighting which were applied lately by the Electricity Boards. In many cases this involves an increase of 15 to 20 per cent. on the current consumed and this figure is subject to a rise or fall in the coal clause. One cannot hope for a fall, so the increase might be considerably greater before the end of the financial year. It does seem a pity that these new increases have been enforced at a time when the Government has been endeavouring to stabilize prices. Let us sincerely hope that the trend of ways in the near future will not be to reduce wattage in an endeavour to help in a saving. This would have a serious effect on road safety.

Representations have been made to the Electricity Boards in an endeavour to have them review the situation, but this had no effective results. The burden the rate-payer may have to pay is in many cases one penny to two pence on the rates. That is a considerable sum when it is the sincere desire of local authorities to make a reduction in the rates. One further point in this connexion is that on the new tariff accounts which are being rendered there is no mention of the operative price of the coal clause, thus making it impossible to check the accounts.

It is to be hoped that some national representation may be made to have this matter thoroughly discussed with the sincere desire of having the rates reduced, bearing in mind that the bulk of the load is in operation during the off peak period.\*

\*This article was published in the County Municipal Records, Scotland, some time ago. It may be noted here that India also faces a similar problem—Editor, C. M. G.

## HEALTH AND HYGIENE

## B. C. G. VACCINATION

## A Measure To Control Tuberculosis

[By Dr. L. K. SIKUL, M.B.B.S. (CAL.) MEDICAL OFFICER, B. C. G. SCHEME, WEST BENGAL.]

TUBERCULOSIS to-day has assumed a major problem in our country. This disease tolls away about half a million lives every year in India and about two and a half million persons suffer from the same.

For years, in international medical literature the B. C. G. Vaccination, as a preventive measure was a subject of discussion. Towards the close of the first half of this century and specially after the Second World War, the result of the mass vaccination undertaken amongst children and young adults being proved successful the subject was lifted from the domain of medical controversy.

In order to check the spread of Tuberculosis the following three methods are of prime importance :—

(a) Isolation of sputum positive cases in hospitals and segregation camps and to treat them till recovery.

(b) Raising the general resistance power of the people in order to combat any kind of infection including Tuberculosis. It means improvement of general standard of living.

(c) Raising the specific resistance power of the people :—Raising of specific resistance power against tuberculosis has been appreciated in many parts of the world. Generally children and young adults were found to be more susceptible to the disease. To prevent this, campaign of B. C. G.

Vaccination was undertaken in Europe and continued there for more than twenty years. Among the Asian countries Japan undertook the campaign for several years with satisfactory results. The Government of India has just started the campaign.

It was in 1908 Dr. Calmette and Dr. Guérin, two French Bacteriologists, working at the Pasteur Institute, Paris, announced that a particular strain of bovine tubercle bacilli, originally isolated by Nocard in 1902 from the under of tuberculous cow, had rapidly decreased in virulence while grown on potato with ox-bile added. In 1921, after 290 subcultures for long 18 years they declared that this strain of bovine tubercle bacilli was incapable of producing fatal tuberculosis in many kinds of animals and it was to this final culture that the name bacilli calmette Guérin (B. C. G.) was given. The virulence of this bacillus thus became steadily decreased and an almost fixed and low virulence was reached at.

In spite of loss of virulence, this strain, designated B. C. G. (bacille calmette and Guérin), retained its original staining characteristics, its original cultural and bio-chemical properties, its ability to produce potent tuberculin, ability to produce histological tubercles (localised) while injected in animals. Injected into animals this induces the formation of specific humoral antibodies and gives rise to increased resistance to tuberculous infection.

That it is incapable of producing the disease was proved by innumerable tests on many kinds of animal and later on the bacilli were used as vaccine in children. All B. C. G. vaccine come from calmette strain mentioned above.

In July, 1921, it was first used on man in Paris by Dr. B. Weill-Hellé and was administered orally to a new-born infant whose mother died of tuberculosis a few days after its birth. By the end of 1924, 817 cases were vaccinated.

Oral route administration was soon discarded due to the fact that most of the vaccinated group failed to show conversion to positive reaction. In 1926, Heimbeck used sub-cutaneous injection of vaccine which resulted in local abscesses. Ultimately in 1927, Wallgren advocated intradermal inoculation with least complication. Tuberculosis relief work soon started in European countries and inoculation with B. C. G. began from Denmark through Danish Red Cross Society. Very soon other organizations like Swedish Red Cross Society and Norwegian help for Europe joined Danish Red Cross Society (Joint Scandinavian programme) and engaged in vaccination work in many European countries.

## COMBODIAN PRINCE IN THE CITY

Prince Narodom of Cambodia had been in the city for a few days during the week. He was accompanied by Mr. Sun Yun, the Prime Minister of the country. In a reception given to their honour both of them spoke of the ancient ties that had existed between their country and India.

The reception was arranged at the Maha Bodhi Society Hall, College Square, on Tuesday, the 12th February.

They also referred to the great part that Buddhism could play in bringing about universal peace and described it as a religion mitigating social injustice. They were glad, they said, to see the present revival of Buddhism in India.

Welcoming the distinguished guests, Sir B. P. Singh Roy said that Buddhism had linked India with many Asian countries for centuries. In the land of its birth its culture was greatly valued by all Indians. He also said that time was not distant when all Asian countries would stand united culturally and politically.

Images of the Buddha were presented to the Prince and Prime Minister on behalf of the Maha Bodhi Society and in return the Prince presented a silver image of the Lord.

The campaign was inaugurated in India in 1946 at Madanpalle, Madras, with the aid of the International Tuberculosis campaign (a joint enterprise by UNICEF, W. H. O., Scandinavian voluntary organizations and the Government of the country concerned) and since July 1951 with the aid of UNICEF/W.H.O.

For the preparation of B. C. G. vaccine and Tuberculin (P. P. D.—purified portion derivative), India has got one beautiful, well-equipped laboratory at the King's Institute, Guindy, Madras. From this laboratory vaccine and tuberculin are being supplied to the states in special containers.

B. C. G. vaccination in West Bengal was started in 1949 by W. H. O./UNICEF team amongst selected groups namely—School children, Factory workers, etc. From 1952 vaccination was carried out on mass scale—mass B. C. G. vaccination campaign for susceptible population.

In order to make this campaign successful the West Bengal Government has appointed fourteen mass campaign batches and one non-mass campaign B. C. G. team. The non-mass campaign team also includes one part-time medical officer and two technicians (vaccinators). The team is at present posted at the out-door department of the Hospital for Tropical diseases, Calcutta.

The mass campaign teams are to carry out mass vaccination throughout the districts of West Bengal and almost all the districts in the State have been surveyed. Upto December, 1956, 76,18,700 persons have been Tuberculin Tested in West Bengal of whom 31,52,150 persons have been vaccinated with B. C. G.

Before the actual work is undertaken in an area organizational work including arrangements for wide publicity, meetings, group talks, cinema shows, social contacts and other educative campaigns are preceded by a batch of social workers specially detailed for the purpose.

Generally 1000 population, in a village is taken as a unit which is being attended by one Technician twice a week.

Tuberculin test is given intradermally on the left forearm with .1 c.c. P.P.D. containing 5 T.U. dose. The result is read after 72 hours. Only the non-reactors (negative) to Tuberculin are given B. C. G. vaccination. B. C. G. vaccine is given intradermally below the shoulder in the middle of the deltoid region of left-arm. .1 c.c. (2 million bacilli) of the liquid vaccine (containing a suspension of 1/40 mg. B. C. G. bacilli in diluted santon solution) is the dose for each vaccination.

#### DISTRICT BOARD SUPERSEDED

The 24 Parganas District Board has been superseded by the Government for a period of two years recently.

The notification stated that after a very careful consideration of the whole affair of the District Board, the Government of West Bengal, Local Self-Government Department had come to the conclusion that the Board had proved incompetent to perform and had made default in the performance of the duties imposed on it.

Shri Kumaresw Ray, a retired Deputy Magistrate and Deputy Collector, has been appointed to exercise and perform all powers and duties of the District Board for one year at present.

After tuberculin test or B. C. G. vaccination no reaction like fever, pain generally does develop.

But later on, say after three to four weeks a nodule appears at the site which increases in size within a week or so. In some cases a small drop of pus will develop in the nodule which may later on turn into a small ulcer. This lesion heals up by itself and usually requires no dressing. Adhesive dressing in particular should be avoided.

It is six to ten weeks after vaccination the inoculated person shows positive reaction to tuberculin, in other words conversion takes place. If there is no conversion re-vaccination is done. Post-vaccination conversion rose in West Bengal, so far obtained, is also quite satisfactory.

Majority of Tuberculosis experts of the world and Tuberculosis specialists of our country are of opinion that B. C. G. is fruitful, harmless and necessary for the susceptible group of population specially in countries like ours where incidence of tuberculosis is high and this fell disease has been taking largest number of lives every year. So, to stem the tide of this growing menace B. C. G. vaccination so far found to be one of the best measures, should be carried out widely.

#### CALCUTTA'S WEATHER

The winter weather made a last effort during this week before finally yielding to spring. A cloudy weather was followed by rains on Sunday, the 10th February. Later on a continued cold wave, the characteristic of such a weather in the city, below on.

During rains there was occasional gusty wind on Saturday, the 9th instant. According to meteorologists, this was due to the incursion of immense moisture from the Bay of Bengal which produced instability, ultimately leading to thundershower activities.

The maximum temperature on Monday was 25 deg. C (77 deg. F) 3 deg. C below normal and the minimum 18 deg. C or (64.4 deg. F) 3 deg. C above normal. The maximum humidity was 96 per cent and the minimum 56 per cent. Rainfall 12.7 millimetres.

On next day the maximum temperature was 23 deg. C (73.4 deg. F) 5 deg. C below normal and the minimum 16 deg. C (60.8 deg. F) 1 deg. C above normal. The rainfall on that day was nil.

On the 12th February night's minimum temperature was 11 deg. C—52 deg. F—the lowest so far this year. This temperature was 4 deg. C below the normal for this time of the year and 5 deg. C below Monday night's minimum.

Meteorologists stated that the cold spell—the second so far this cold weather—resulted from a strengthening of the dry north-westerly wind in the wake of the western disturbance which culminated in Sunday's rain.

#### A NEW MUNICIPALITY AT ALIPUR DUAR

A new Municipality has been constituted under the Bengal Municipal Act, 1932 in accordance with a Notification published earlier. It has also been decided that the number of Commissioners of the Municipality will be fixed at nine.

**EMPLOYEES MADE PERMANENT**

List of temporary employees made permanent by Commissioner with effect from 30th November, 1956 in accordance with the resolution of the Corporation dated the 1st October, 1956 and 14th December, 1956.

**RECORD DEPARTMENT**

Names.	Designation.
1. Shri Debendra Kumar Halder	Clerk
2. " Madan Mohan Nandy	Clerk
3. " Surendra Nath Maity	Duttry
4. " Girish Chandra Das	Peon
5. " Madhu Sudan Deyashi	Peon
6. " Sisir Kumar Ghosal	Peon

**TANGRA SLAUGHTER HOUSE AND  
L. S. YARD**

Names.	Designation.
1. Sk. Shahabjan	Night Watch Man
2. " Ali Hossain	do
3. " Alijan Mia	Stampar
4. " Habib	Mullah
5. " Abdul	Mullah
6. " Taib Ali	Mazdoor

**EDUCATION DEPARTMENT**

Shri Aswini Kumar Bagchi	Attendance Officer
Shri Hari Rakhal Biswas	Inspector of Schools
Shri Raj Kumar Sharma	Inspector of Schools
Shri Umapada Chatterjee	Clerk (Upper Division)
Shri Birendra Kumar Chakravarty	(Clerk (Lower Division)
Shri Shambhu Charan Banerjee	Clerk (Lower Division)
Shri Gourgopal Das Mahapatra	Clerk (Lower Division)
Shri Dhani Mallick	Peon
Shri Deonath Singh	Peon
Shri Niranjan Kumar Chauda	Peon
Shri Dharendra Kumar Dutta	Lecturer, Teacher's Training Institute
Shrimati Kalyani Sarkar	Lecturer, Teachers' Training Institute

## CITY-NEWS-PARADE

**OBITUARY:** Death of Dr. S. K. Ganguly, the well known eye surgeon, occurred in his city residence on Sunday, the 10th February. He was 67.

The late Dr. Ganguly took his medical degree from the Medical College, Calcutta, in 1919. One of the founders of the National Medical College, Calcutta, he was largely responsible, as its Honorary Superintendent, for its expansion.

He was Secretary and later President of the New Bengal Association which played a pioneering role in the movement for cession of the Bengali-speaking areas in Bihar to West Bengal.

Dr. Bibhuti Bhushan Roy Chowdhury, Barrister-at-Law, passed away at his Calcutta residence on Wednesday, the 6th February last. The death was due to Coronary Thrombosis. He was 61. The late Dr. Roy Chowdhury was a brilliant student of the Calcutta University. Having taken the Master of Arts Degree in Philosophy in 1918 he qualified himself for Bar in England. He also took the Ph.D. Degree of the London University in Philosophy.

The late Dr. Roy Chowdhury was a Professor of the Calcutta University Law College for a number of years and had been the President of the Law College Union for some years.

The late Dr. Roy Chowdhury was a disciple of Swami Brahmananda of the Ramkrishna Mission.

**IN THIRD INTERNATIONAL CALENDAR EXHIBITION** about 300 calendars from 28 countries, including the U. K., the U. S. A., France, West Germany, Italy, were displayed at the Artistry House, Park Street. It was opened on Wednesday, the 6th February last by Lady Ranu Mukherjee.

Certificates of distinction for 1956 were given to firms in India and abroad. The Exhibition Society had, through a Board of Judges, selected a number of 1957 calendars of distinction.

**ALL-BENGAL TEACHERS' ASSOCIATION** met at a convention in Wellington Square, Calcutta, on Saturday, the 9th February last. A resolution was passed criticizing the West Bengal Government's "unplanned attempt to re-pattern the Secondary Education system." Shri Hemendra Prasad Ghosh presided.

The convention held that a crisis had arisen in secondary education. Lack of detailed syllabuses and absence of textbooks even of good reference books in Bengali had made it impossible to run 11 class schools. It asked the authorities to use syllabuses prescribed by the Board of Secondary Education for Classes IX and X of ten-class schools also in the corresponding classes of 11 class schools during the transition.

The final syllabuses to be introduced in Class VI next year should replace existing syllabuses through a "normal and graded process of change."

**COURTESY WRECK, OBSERVED BY P. AND T. DEPARTMENT,** started on Monday, the 11th February, when the men counselled the public that early posting means speedy delivery. This had borne fruit in the city. Many business firms were trying to co-operate with the postal authorities by sending their bulk parcels and registered articles in the earlier part of the day, when there was less congestion.

On the first day a number of people visited the G. P. O., where arrangements were made to acquaint the public with the work of different departments and explained to them the postal services. The journey of an envelope or a postcard from the letter-box to the postal van, registration of letters and parcels, and despatch of money orders were among the services demonstrated to the public.

On an average, over 330,600 unregistered letters are posted daily in letter-boxes in the city. Registered letters dealt with by the Calcutta R. M. S. number about 48,000. Nearly 2,200 money orders are received and 2,710 paid daily. The Calcutta R. M. S. deals with 62,450 money orders. Over Rs. 13,000 worth of postage stamps are sold each day at the G. P. O.

**DEMONSTRATIONS** in the city continued as before. During this week the demonstrators were mainly comprised of both Union Government and State Government employees.

On Tuesday, the 5th February, three representatives of the Damodar Valley Corporation Staff Association met the State Chief Minister at Writers Building. Questions relating to withdrawal of suspension and dismissal notices against members of the Association and the release of the arrested workers were discussed.

The Chief Minister was scheduled to meet representatives of the Association again on February 11.

The "Demand Week" by the West Bengal Government employees began on Monday, the 11th February. During the week, meetings were held all over the city to ventilate grievances and to demand an additional grant of Rs. 25 per month as dearness allowance. The employees wore badges towards the last lap of the week to make known their grievances.

On the third day of the week about 7,000 Government employees stayed away from their work for an hour in the city on Wednesday, the 13th February in support of their demands relating to pay scale and dearness allowance. On that day they also convened a meeting in the Indian Association Hall, Bowbazar Street, wherein their demands were put-up.

For 15 minutes from 2 p.m. on Thursday, the 14th February many P. & T. employees in Calcutta stopped work in sympathy with their colleagues in the Assam Circle who had been on strike since February 12. On behalf of the employees, an announcement was made that they will stop work for half an hour for two other days during the week.

The demand of the Corporation employees for an increased rate of Dearness Allowance at par with the State Government employees was made earlier. A motion to that effect was tabled in the weekly Corporation meeting on Friday, the 15th February by Councillor Dharendra Nath Dhar. The matter was referred to the Standing Finance Committee.

**ALL INDIA SOCIAL WELFARE DAY** was observed in the city on Monday, the 11th February under the auspices of the West Bengal Branch of Indian Conference of Social Work. The programme included an exhibition and a public meeting at the Y.M.C.A. in Chowringhee. The meeting was presided over by Shri Priya Ranjan Sen, M.L.A. The function ended with the show of a film on "Community Development."

# CORPORATION NOTICES

## To All Registered Petty Improvement Contractors

District No. I Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 22nd February, 1957, up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. on the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid work or contract for any period in future as may be determined by the authority and the S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

There were 7 deaths from tuberculosis against 3 in the previous week.

## WEST BENGAL BUDDHA JAYANTI CELEBRATION COMMITTEE

With a view to popularise the teachings of the Lord Buddha the West Bengal Buddha Jayanti Celebration Committee has been distributing free of costs three books, (i) Buddha, Niti, Budha, (ii) Bhagwan Tathagata and (iii) Buddha Bani to all recognised Schools, Public Libraries receiving Government or Municipal grants-in-aids or members of the Bengal Library Association. The office of the Buddha Jayanti Celebrations Committee at Raj Bhavan, is the centre of distribution of books. It may be noted here that these books require no introduction to a citizen rather they would elevate the human soul for its devotion and other religious practices.

## A POWERFUL DISINFECTING FLUID

### —DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,  
Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed White arm badges with Black numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

## VIEWS AND REVIEWS

### SMALL-POX IS ON INCREASE

Anxiety was once more expressed by the City Fathers when a reference was made by Councillor Dr. K. P. Ghosh as to the increased number of deaths from small-pox during the week ended the 16th February in the city. At the outset of the weekly meeting on the 22nd February, Councillor Dr. Ghosh said that the disease had started in a virulent form since the beginning of the epidemic season. There were altogether 650 deaths from the disease since the beginning, as reported. In spite of the fact that a certain number of cases was imported ones little prospects were seen of the disease being controlled. Moreover, the special feature of this year's epidemic was that about 60 per cent. of the deaths came from the infant population.

At the same time Councillor Dr. Ghosh felt that the Budget Estimates for the coming year should provide larger amounts for fighting epidemic diseases. The year had also been feared by the authorities as to the continuance of the epidemic diseases.

During the week ended the 16th February altogether 102 people died of the disease against 74 in the week before. Vaccination drive has also been undertaken in an intensive way. Nearly 1.19 lakhs of people have been vaccinated during the said week and the total number has exceeded 15 lakhs up to the 16th instant.

A charge has also been alleged by somebody that the figures of vaccination do not tally with the actual numbers. This was also referred to in the House by Councillor Pannalal Das who urged the Mayor to direct the Health Department for maintaining accurate figures of vaccination cases in the city.

Besides, an expert opinion stated that vaccination lymph probably did not remain potent as in many cases vaccinators did not keep the lymph in ice boxes. Moreover, the technique of vaccination was not always proper and that the supply of vaccines were not adequate to cope with the present situation.

There was a consequential increase in the number of attacks which were 180 during the week under review. But this figure is largely based on the

LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA

number of cases taken to hospital by ambulance. It is pointed out that the figure does not cover many of the cases which are not reported until death has occurred.

Dr. B. P. Trivedi, President of the Indian Medical Association, told at a Press conference recently that laws should be enacted for compulsory vaccination against small-pox which was a 100 per cent preventable disease.

In the memorandum submitted to the West Bengal Government, the Association suggested that a permanent expert body should be set up immediately to investigate the cause of the high mortality from small-pox this year. This body should find out the cause of epidemics and recommend measures to prevent them.

Formation of an Anti-epidemic Council was also suggested to find ways and means in order to implement the expert body's recommendations. The Council should include representatives of the Government, Corporation and the public. Ward and Bustee Health Committees are necessary to ensure that health measures are strictly followed.

The epidemic situation was reviewed at a conference of Councillors and officers of the Health Department of the Corporation on Tuesday, the 20th February.

Explaining the big rise in the mortality figure, the Chairman of the Standing Health Committee, Dr. P. K. Roy Chowdhury said that many people were prejudiced against vaccination, so much so that they often resisted and even threatened to assault vaccinators visiting their houses. The increased virulence of germs in this epidemic year and inadequacy of treatment may be, according to him, factors responsible for the present situation.

Compulsory vaccination, it was emphasized at the meeting, is the only solution to the increasing small-pox problem in Calcutta. Authorities point out that existing legislation provides for compulsory vaccination in relation to persons who have come in contact with small-pox patients.

#### HONOUR TO A CALCUTTA HIGH COURT JUDGE

The President has appointed Mr. Justice Amal Kumar Sarkar, a Judge of the Calcutta High Court, to be a judge of the Supreme Court of India from the date he assumes charge of his office.

#### FIRES IN THE CITY

Three firemen of the Fire Service took about half an hour to extinguish a fire that broke out in a bazaar in Baghban on Sunday, the 18th February. Four huts were damaged. In the same afternoon another fire occurred in a bazaar near the godowns containing rubber materials, leather goods and pottery. Two engines attended the fire and controlled it within half an hour.

Many people prejudiced against vaccination believe that certain systems of medicines are opposed to vaccination.

It has been felt that adequate powers are needed to deal with the situation. The question was also discussed at the weekly meeting of officials of both the Corporation and the West Bengal Government on the next day's meeting but no definite proposal emerged.

In the meantime all possible measures have been intensified by the Corporation. Number of vaccination centres have been multiplied. Special precautionary measures as to the maintenance of accurate figures of vaccinations have also been undertaken.

#### DEATHS AND DISEASES IN THE CITY

Deaths from small-pox have witnessed a steady rise during the week-ended the 16th February than the week before in the city. The three-digit number has touched 102 against 74 during the week ended the 9th February. There were 14 imported cases. Attacks from the disease were 180 against 88 during last week. Attacks and deaths from the disease during the corresponding weeks last year were one in each case.

Cholera took eight lives against a similar number of deaths during the previous week. Attacks from the disease during these two weeks were 15 and 12 respectively. It may be noted here that all the deaths from the disease were imported cases. The city was free from the disease during the corresponding weeks last year.

Malaria tolled five lives and Typhoid seven lives. During last week deaths from the diseases were three and five respectively. The number of deaths from the two diseases was almost the same.

Tuberculosis caused 80 deaths against 37 in the week before. There were increased numbers during the corresponding weeks last year.

Deaths from all causes totalled 885 against 819 in the previous week. During the corresponding weeks last year these were 628 and 605 respectively.

#### A NEW COLLEGE IN KIDDERPORE AREA

A conference of the residents of Kidderpore, Bally and Kidderpore area convened by the Mayor, Shri Anand Kumar Das and presided over by Shri Anand Kumar Das, was held on Sunday, the 18th February. It was decided to establish a new college for the convenience of the students of these and adjoining areas. The President, Shri Anand Kumar Das, attended the conference. A strong organizing committee was formed with Shri Anand Kumar Das as Chairman and Shri Das as General Secretary to proceed in this matter.

# THE CORPORATION AT WORK

A CITY OF PROGRESS OF THE THIRTIETH ANNUAL MEETING OF THE CORPORATION  
HELD ON FRIDAY, THE 15TH FEBRUARY, 1957.

## UNAUTHORIZED STALLS

A comparatively prolonged discussion ensued in the House towards the beginning when Alderman Prabhudayal Himatsingka, M.P., referred to a matter of public importance regarding continuance of unauthorized stalls in front of the Garjhat Market run by the Corporation. The Chairman of the Standing Town Planning and Improvement Committee said that the Corporation should think over the matter once again as this had been a long standing grievance of the citizens in general as well as the permanent stall holders of the Market. He alleged that the market vendors might have incurred losses in the meantime with the springing up of a temporary market there. Besides, in order to make the 'City Beautiful' campaign successful the Corporation authorities should remove those stall holders from the green plots of that wide boulevard, the Chairman added. He wanted that the Corporation should move in such a way so that the hands of the Administrative Head were strengthened in taking proper steps in these cases. This however, received a wide support from all sections of the House as the matter was also discussed on a previous occasion.

On a request from the House on the question of encroachment on city pavements the Commissioner, Shri B. K. Sen, said that unfortunately the Corporation had no machinery to deal with the problem. Without the help of the Police the Corporation could do nothing, he asserted and until then no requisite help came from the Police in Corporation's aid.

The Mayor, also assured the House that the matter would be looked into with more details at least to safe-guard the interests of the permanent stall-holders in the Market.

## COUNCILLOR DR. S. B. MUKHERJI

The House nominated Councillor Dr. Sukhabehari Mukherji, a representative of the Corporation on the Station Consultative Committee at Sealdah Goods Station.

The nomination was made in compliance with the request of the Divisional Superintendent, Eastern Railways, Sealdah, following a decision to form the said Committee with different sections of Railway users and civil authorities. The Committee will start functioning from the current month.

## ESSENTIAL FOODSTUFFS

Councillor Subrata Sen Sarma, acquainted the House with the hardships of the citizens in procuring 'atta' and wheat in the city. He said that the non-availability of 'atta' had caused the rise in the prices of rice, mustard oil and other essentials.

Councillor Sen Sarma in this connection, referred to a news published in the Press which stated that the Enforcement Branch Police had recently seized a lorry loaded with 16 bags of 'atta' on Circular Garden Reach Road, Kidderpore area. The driver and two porters were taken into custody as they failed to give a satisfactory account of their possession of the commodity.

The Mayor, Shri Satis Chandra Ghosh, however, assured the House that the matter would receive his personal attention.

## HOUSE TO HOUSE COLLECTION

Removal of garbages by Conservancy lorries through house to house collection method was once more emphasized by Councillor Sachin Sen. He said that the method would help much in the 'Cleaner Calcutta Campaign'. In that connection Councillor Sen referred to the slow movement of Corporation activities. He said that it was a few months back that the area under his constituency had been placed under the scheme. Notices were served to householders to provide garbage pots in their respective houses. But unfortunately nothing has been done to implement the scheme.

The Mayor requested the Commissioner to look into the matter.

## NEW MACHINERY

Based on the recommendation of the Standing Water Supply Committee, the House decided to purchase Nos. 28, 6 in. Deacon's Type Block Meters, Nos. 30, Deacon's 6 hrs. and 24 hrs. combined clocks and other equipments at an estimated cost of Rs. 1.55 lakhs.

## ZOOLOGICAL SURVEY OFFICE

The House, decided to request the Government of India, to abandon the proposal regarding the transfer of the office of the Zoological Survey Department, Government of India, from Calcutta to Nagpur. The matter was discussed in the House on a motion tabled by Councillor Dr. K. P. Ghosh to that effect.

## CHEAP MID-DAY FARES

The House also decided to write to the Calcutta Tramways Company advocating the introduction of cheap mid-day fares, student concession monthly tickets and the substitution of Mr. Mrs. and Miss in the present monthly tickets by Shri and Janab as the case might be. The discussion was based on a motion tabled earlier by Councillor Subrata Kumar Sen Sarma.

(Continued on next page)

## Seventh Death Anniversary Observed

SHRI SARAT CHANDRA BOSE's Seventh Death Anniversary came off on Wednesday, the 20th February. A memorial function was arranged at the Sahanagore Burning Ghat, in the morning. A bust portrait of Sarat Chandra, beautifully bedecked with flowers, was placed there. Flower beds were spread over the marked place where the last remains of the leader were put to flame. A large number of late Shri Bose's followers and devotees attended the function. Wreaths were placed on that marked place by many of the individuals and on behalf of different organizations.

Speaking on the occasion, the Ex-Mayor, Shri Santosh Kumar Basu, once a close associate of late Shri Bose (picture above), said that he shone like a shining star in the political horizon of India then abundant with a galaxy like Mahatma Gandhi, Pundit Motilal Nehru, Madan Mohan Malaviya and others. Placing his allegiance to his former leader Shri Basu said that the late Shri Bose had inspired his countrymen with devotion, sacrifice and other qualities in the fight for country's liberation. The boldness of his character was a glaring example of typical Bengali character. His memory should be cherished by his countrymen ere long so that the spirit he imbibed might be disseminated to the future generations, Shri Basu concluded.

The function started with readings from the Gita by Dr. Gaurinath Shastri and concluded with presentation of devotional songs by Shri Panchanan Bhattacharyya.

Shri Jyotish Joardar, M.L.A., Alderman Biswanath Mukerji, Shri Sailendra Nath Ghoshal, Ex-Secretary, Corporation, Shri Kalicharan Ghosh and others were also present.

The room in the ancestral house at Elgin Road, Netaji Bhavan, where late Shri Sarat Chandra once lived, was thrown open to the public on that day. The room contained many of the articles which he used in his everyday life.

### —THE CORPORATION AT WORK

(Continued from previous page)

#### AN ESTIMATE

The House, on the recommendation of the Standing Water Supply Committee, sanctioned an estimate amounting to Rs. 92.4 thousands for removal of silt by manual labour from the 3rd and 4th Bays or channels of kutchra settling tanks at Pulta.

#### COUNCILLOR D. P. CHATTERJEE

The House appointed Councillor Deva Prosad Chatterjee, M.L.C., as an Employers' Representative on the Advisory Committee under Section 6 of the Minimum Wages Act, 1946.

The Committee was set up by the State Government in July, 1956, to enquire into the conditions prevailing in employment under Local Authorities of Calcutta and Howrah Municipal Areas. The Committee will advise the State Government in revising minimum rates of wages to be fixed for employment under the Act.

The Corporation had earlier elected Councillors K. L. Dhandhanla and Usha Nath Sen to that Committee.

#### THE WORLD OF BOOKS

**BANGLAR DATAKARNA** (A life sketch of late Dr. Harendra Coomar)—By SHRI SURAN NITROO, Samhati Prakashani, 203/2B, Cornwallis Street, Calcutta—6. Price -/10/- only.

Written on simple as well as lucid style the booklet is a true dedication to our late beloved Governor, Dr. Harendra Coomar Mookerjee. It is a true picture of a saintly man who taught his countrymen the motto of high thinking and plain living. Bringing out of such a book is no doubt an achievement on the part of the author of a biography which deserve a wider circulation in these days.

MAYOR AT TEA WITH DELEGATES

Shri G. Basu, President of the Session and Shri N. N. Sarkar, the Founder Secretary of the Institute and a former Chief Accountant of Corporation sitting with the Mayor.

## COST AND WORKS ACCOUNTANTS MEET IN THE CITY

### Mayor Receives Them At A Tea Party

The two-day Conference of Cost and Works' Accountants started on Saturday, the 17th February last at the Institute's own building at Sadar Street. It was attended by over 300 delegates from all parts of India. The conference was held under the auspices of the Institute of Costs and Works Accountants, India, having its Headquarters in this city.

The subjects discussed included integration of cost and financial accounts, management accounting as an aid to industrial efficiency, and cost control in small-scale industries.

In his presidential address, Shri G. Basu observed that it was gratifying to note that cost accounts now found a wider field. An important position was assigned to them in India's economy.

Referring to the importance of the integration of cost and financial accounts, Shri Basu said that to secure an adequate appreciation of the trend of cost by the management, an integrated picture of the two sections of accounting seemed to be of urgent importance. In order that he might render effective service, the Cost Accountant should have a deserving position in the management. Manage-

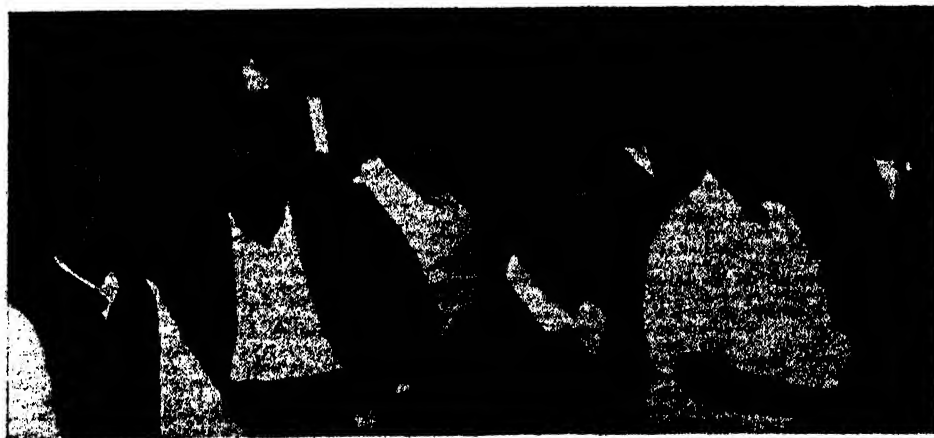

ment accounting had been a logical outcome of modern cost practices. It is now looked upon as an indispensable device for raising productivity and industrial efficiency, the President added.

On the opening day, the delegates were entertained to tea by the City's Mayor, Shri Satis Chandra Ghosh, in the Councillors' Club Room, Central Municipal Office Buildings, S. N. Banerjee Road.

— Replying on the occasion, Shri Basu, on behalf of the Cost Accountants said that the Corporation should feel the need of costing in the process of Corporation Accounts so that public money might be best utilized. Besides, the scope of the Cost Accountants had been extended in almost every field of business activity in order to effect best economy in the process of manufacturing.

Earlier, welcoming the delegates, the Mayor emphasized the need of costing in public accounts and in his opinion the Corporation should introduce the system as early as possible.

A large number of Delegates, several Aldermen and Councillors and Corporation officials attended the reception.

A VIEW OF THE RECEPTION

Councillor B. K. Sarkar, Rai S. N. Mitra, Kumar B. Deb Rai Mahasai, the Commissioner, Shri B. K. Sen, Shri M. Das, Dy. Chief Engineer, Shri K. L. Dey, Executive Engineer, Drainage, Shri B. Bhadra, P. B. O. and others in the picture.

#### BUDGET MODIFICATION CONCLUDES

Sitting from left: Councillors D. N. Dhar, Dr. S. Sett, U. N. Sen, S. K. Roy, Alderman B. N. Mukerjee, Councillors P. N. Banerjee, K. L. Dhandhanla, Shri N. Roy, Deputy Chief Accountant, (Budget) Councillors J. K. Chaudhury and Dr. B. N. Basu and Prof. H. C. Guha, an Associate Member. Shri A. Sanyal, In-charge Budget Compilation Section, is also seen in the picture at a distance.

PHOTO: A. B.

## Corporation Finances

SINCE the Commissioner, Shri B. K. Sen, had submitted the Annual Budget Estimates of the Corporation for 1957-58, in December last, the Standing Finance Committee were at pains to modify the Estimates. The Committee sat for more than twenty-five occasions during this period up till now and discussed the Estimates in detail. There were modifications and revisions of estimates in many cases.

The modified estimates will be presented before the Corporation towards the middle of March. The Committee has not proposed any increase in rates of the existing tax structure. The Committee has proposed to raise a loan of Rs. 8.39 crores only.

The Standing Finance Committee increased the Opening Balance as estimated by the Commissioner from Rs. 78.25 lakhs to Rs. 81.81 lakhs. The increase is due to improvement on the Receipt side of the revised Budget Estimates of 1956-57 as well as decrease in expenditure during current year.

During the Budget year, the Standing Finance Committee has proposed certain increased expenditure over that originally estimated by the Commissioner.

Expenditure on Asphaltum work including road repairs has been increased from Rs. 18 lakhs to Rs. 24 lakhs, repairs of stone-sets and footpaths from Rs. 6 lakhs to 8 lakhs.

Special provision has been made for the purchase of road-rollers—Rs. 8 lakhs and purchase of motor vehicles for improvement and mechanization of conservancy system—Rs. 80 lakhs. There has been a considerable increase of Borough Fund from Rs. 4 lakhs to Rs. 24 lakhs.

Increased provision has been made in the Sinking Fund for repayment of loans. Thus the total expenditure would be raised from Commissioner's estimate of Rs. 7.38 crores to Rs. 7.88 crores, a net increase of about fifty lakhs.

The year 1957-58 would end with a Closing Balance of Rs. 19.52 lakhs according to the estimates worked out by the Standing Committee. The

Closing Balance in the Commissioner's Budget was estimated at Rs. 12.55 lakhs.

On the Receipt side of the Budget the Standing Finance Committee has increased the Commissioner's estimates from Rs. 6.77 crores to Rs. 7.26 crores. The main items of increase being Consolidated Rates—Rs. 12 lakhs, Service Charges from Central Government properties constructed after the operation of the new Government of India Act—Rs. 15 lakhs, Increased Licence Fees and Taxes—Rs. 2 lakhs and others.

Councillor K. L. Dhandhanla, Deputy Chairman, Standing Finance Committee, presided over almost all the Budget meetings of the Committee, Alderman Biswanath Mukerjee, Councillors S. K. Roy, U. N. Sen, J. K. Chaudhury, D. N. Dhar, members of the Committee, Prof. H. C. Guha, an Associate Member and others participated in the discussion. Chairmen of other Committees also extended their help in course of the deliberation.

#### CALCUTTA'S WEATHER

USUAL SPRING TIME WEATHER has been witnessed again towards the last lap of February, this year. The sudden rainfall in early part of the month was followed by fair weather and bright sunshine. This lasted for few days. The average temperature also fell below normal for these days.

The weather took a turn on Wednesday, the 20th February, when the maximum temperature in the day was 33 deg. C (90.4 deg. F) 4 deg. C above normal, and the minimum 20 deg. C (68 deg. F) 4 deg. C above normal. The maximum humidity was 83 per cent and the minimum 30 per cent, with rainfall nil.

Possibility of thundery conditions towards afternoon, otherwise fair to cloudy weather with no appreciable change in night temperature was the forecast for the city in two consecutive days. The next day's maximum temperature was 33 deg. C (90.4 deg. F) 3 deg. C above normal, and the minimum 21 deg. C (69.8 deg. F) 5 deg. C above normal. The maximum humidity was 98 per cent and the minimum 36 per cent.

## Problem of Urbanization

UNESCO'S Research Centre on Social Implications of Industrialisation and Urbanisation in South Asia has just published a survey of five cities—Bangkok, Bombay, Dacca, Delhi and Djakarta named Five Studies. The report has judged the social condition as well as the causes of mal-adjustment in social life of the cities. In the opinion of the experts who presented the report economic reasons had 'pushed' large migrants into the city life and in Asian cities "there is always a vast majority of the economically weak population which gives the problem all the more complication", adds the report.

"The growth of Asian cities as heterogeneous agglomerations took place especially in the 19th century when the general tendency was that of liberal *laissez-faire*".

The publication made a special mention of Delhi, which according to it, presented "the most depressing picture". It stated that only about 18 per cent of the large migrants, who moved from the village to district town and to another town and from there to a larger town, then finally to Delhi, and back again, could find what seemed a permanent job. "Here it becomes clear that the city is not able to absorb the many workers expelled from the rural area by continuous population growth. It is a very serious phenomenon and it shows to what extent this problem has penetrated the countryside", the report adds.

As regards social influence of the city, it is stated that in four of the five studies there was no striking social disorganisation. It was however different in the case of Delhi, especially in the very poor families. It was 'usual', it is stated, for the migrants that their families were broken up in the large towns, not so in the smaller towns nearer the villages where the traditional social control was stronger. In Delhi religion seemed neglected in the same degree as social disorganisation progressed, the reports stated.

The study on Delhi pointed out that the intensity of unfortunate conditions prevailing throughout the underworld was 'exceptionally high' among the migrants, and hence, "the extent of prostitution amongst them is also tremendous". The main causes inducing migrant women to enter into prostitution were: (1) organised traffic in women, (2) poverty, (3) employment of girls at an early age, (4) illegitimate maternity, (5) existing environment, (6) unsuccessful family life, and (7) the demands of the "poor patrons".

It also referred to commission of crimes and begging by migrants and added, "the main reason lies in the tragic dichotomy between the old customs and moral value of the migrants and the economic and social distress resulting from forced rootlessness".

These studies indicated a peculiar feature for Indian, and specially Pakistan, cities, and that was, relatively few women in the streets. "These

are men's towns. Not only because of the disproportion between men and women, but also because of women not usually showing themselves in the street."

Inside the buildings, the over-crowding, it is stated, might be even worse than outside. The Health Survey and Development Committee in 1946 stated: "The filth and squalor which we saw in the 'abatas' of Cawnpore or the bustees of Calcutta are indescribable. A dark, dingy room of about 10 feet by 8 feet in size, built in such a manner that neither light nor air can enter it and with, as in the case of coal-mines area, as many as eight or ten persons not infrequently living in it, represents the type of living accommodation which workers have to accept in these congested industrial centres". Ten years later, housing is still the key problem of social welfare in Asia's industrial centres, the report adds.

And the many other problems were of health, hygiene, recreation; of social disorganisation; of lack of social control which bewildered particularly the former villager who used to live under the immediate control of the joint family and the village; of other food and clothes; of different working times and working discipline; of loneliness.

The most typical feature in city life, particularly in Asian countries, the Five Studies pointed out, was the glaring difference between the rich and the poor. The general low level of wages reflected the abundance of labour which was a fairly new phenomenon in the cities where a few decades ago the jobber still had to do some recruiting in order to fill the vacancies in the factories.

While in Western countries the ratio of income of a professional and an industrial worker might be 8 or 4 to 1, it was 15 or 20 to 1 in Asia, or even higher. "The poor productivity of the workers is partly caused by poor equipment and outdated machinery which again reflects the scarcity of capital, but partly also by the lack of training and by deficient industrial organisation", the report adds.

However the problem of Asian cities was that their growth did not take place around a well organised, socially and physically settled, strong nucleus, which already had a long history behind it as an important urban centre. "It is always a minority which feels 'at home' in that city, the majority are 'strangers'. This is a most important social factor although not unique", the report states.

## INDO-BURMA FRIENDS' SOCIETY

The first Annual Conference of the Indo-Burma Friends' Society was held on Sunday, the 17th February, at S. U. Samaj Hall, Ganesh Chandra Avenue, with the Ex-Mayor, Shri Sudhir Chandra Roy Chaudhury, M. L. A., presiding. His Excellency, the Consul General of the Union of Burma in Calcutta was the Guest-in-Chief. The conference ended with a cultural function.

## CITY-NEWS-PARADE

**OBITUARY** Shri Sanat Kumar Basu,—popularly known as Burmese Basu,—passed away on Tuesday, the 12th February last. The death was brought about by cardiac disorder. Son of a popular Moderate Party leader, the late Shri Jatindra Nath Basu, Solicitor, the deceased was one of the Trustees and a Committee Member of the Mohan Bagan Club and other institutions of note.

Shri Nripendra Nath Bose, a senior advocate of the Alipore Bar, died of cerebral haemorrhage on Wednesday, the 20th February. He was 68.

A full-court reference to his death was made by the Ex-Mayor, Shri Debendra Nath Mukherjee, President of the Alipore Bar Association, before the Judges assembled in the court room of the District Judge of Alipore.

Shri Mukherjee spoke of Shri Bose's amiable nature which endeared him to all and the many good qualities of his head and heart.

**THIRD ALL INDIA FINE ARTS EXHIBITION**, organized by women artists in the city, was opened at Government Industrial Museum, by Maharani Adhirani of Burdwan, on Friday, the 15th February last. Shri J. P. Mitter, Judge, Calcutta High Court, presided and Maharaja of Jaipur was the Chief Guest.

Shri Mitter emphasized the need for a permanent Art gallery in the city.

The Maharani of Burdwan in a brief speech hoped that the fine exhibits would prove a source of encouragement.

Shri A. Mitra, Chairman of the Exhibition Committee, said that it looked as if this annual exhibition was due mainly to the enthusiasm of Lady Mitter.

He added that the exhibition would testify how art as a serious vocation was being adopted more and more by the women of India and not merely as a cultural hobby.

There were 152 exhibits in the exhibition.

**FIVE-MEMBER JAPANESE CULTURAL DELEGATION** including three women dancers, arrived in Calcutta by Air-India International on Sunday, the 17th February. The intended to make a three-week tour of the country at the invitation of the Government of India.

The three dancers, who alighted from the plane dressed in traditional silk kimonos with wide sashes and high platform-soled slippers, created quite a sensation as they walked across the tarmac to the terminal building.

**A JAPANESE STEEL & SHIPPING DELEGATION** of four members arrived in the city on the same day by Air-India International from Tokyo to finalize details with State Trading Corporation for Japan's purchase of 1.3 million tons of Indian iron ore during the current year.

The delegation was led by Mr. S. Tanabe of the Fuji-Steel Company. The members were Mr. T. Abe of the Yamashi Shipping Line, Mr. M. Takigawa of Nishon Kokan, a steel company, and Mr. K. Morita of the Sumitomo Metal Company. The delegation left for New Delhi on Tuesday.

Speaking to the Press at Dum Dum Airport, Mr. Tanabe said that after negotiations held in Japan last

November with a representative of the State Trading Corporation it had been decided that 1.3 million tons of iron ore was about the maximum capacity that India could export to Japan taking into consideration the facilities existing in Indian ports.

**'KAVIRAJ'S' IN CALCUTTA** numbering several hundred assembled at the foot of the Ochterloney Monument on Friday, the 25th February last, with Dr. Kalidas Nag in the chair. Eminent Ayurvedic practitioners, both from the city as also from mofussil, joined in a mile-long procession earlier which started from Wellington Square,

Recognition of the Ayurvedic system by the Government was the main demand voiced in the meeting.

A resolution containing three-fold demands of the Kaviraj was also passed at the meeting—recognition of the Ayurvedic system through a separate legislation, establishment of a State Ayurvedic College in West Bengal for systematic study and researches in this system on modern lines, and opening of Ayurvedic charitable dispensaries and hospitals in West Bengal with State aid.

Dr. Kalidas Nag who presided urged upon the Ayurvedic practitioners of the State to earn the sympathy and support of the common man for their movement through services.

**DEMONSTRATION** in the city continued as before. In sympathy with their colleagues in the Assam Circle many of the Post and Telegraph Department employees in the city continued to stop work in their offices on Friday and Saturday for about half an hour daily during mid-day.

West Bengal Government employees in Calcutta wore "demand badges" on these two days in connection with the 'Demand Week' since Monday. The printed badges contained some of the grievances and demands, including one for the additional grant of Rs. 25/- a month. On Saturday, the employees met at Wellington Square after parading many of the city streets. The demands were re-iterated at the meeting.

The two-day convention of Central Government employees in West Bengal, ended with an open meeting at the foot of the Ochterloney Monument on Saturday, the 16th February under the auspices of the Co-ordination Committee of the Central Government Employees' Unions and Associations. The meeting demanded, among other things, the appointment of a new Pay Commission, increase in dearness allowance and full Trade Union rights.

Fixation of the period of the minimum monthly guaranteed wage for dock labourers at 21 days, immediate setting up of a wage board for port and dock workers and increase of their dearness allowance were some of the demands put forward to the Union Government by the All-India Port and Dock Workers' Federation. The demands were made through a Press Conference in one of the days. There are about 2.5 lakhs port and dock labourers in India.

The most serious dislocation in recent months was witnessed on Saturday. The disruption lasting for over an hour in the Dalhousie, Esplanade and Dharamtala areas, resulted from three large processions taken out by Central Government employees, State Government workers and employees of the zonal Life Insurance Corporation. Each followed a different destination, widening the area of traffic dislocation. Thus the demonstration of the week reached to its climax on that occasion.

2. Construction of new roof over Block 'B' in Sir Stuart Hogg Market (Estimate Rs. 2,00,000/-) (Earnest money Rs. 1,560/-).

3. Improvement of Park Circus Market by constructing a Vegetable Chandy at the open space on the east (Estimate Rs. 50,000/-) (Earnest money Rs. 1,163/-).

4. Supply and delivery of C. I. 4 in., 6 in., 9 in., 15 in., 18 in., 24 in., and 36 in. diam. sluice valves for water mains (Estimate Rs. 50,050/-) (Earnest money Rs. 1,250/-).

Tenders for 1 and 2 will be opened on 5th and for 3 and 4 on 6th March, 1957. The rates quoted in the above tenders are to hold good for three months.

B. GHOSH,  
Secretary.

Central Municipal Office:  
The 18th February, 1957.

## To All Registered Petty Improvement Lighting Contractors

### DISTRICT NO. II.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on the 28th February, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. Petty tender forms of the Corporation are to be used in submission of tenders. Corporation standard specification will apply on the work.

The successful tenderer for all works exceeding the value of Rs. 2,500/- shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by

the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

Installation of 6 Nos. Electric Bracket Lamps of 75 watt each at different passages in place of oil lamps in Constituency No. 33, District II, L-135—Rs. 642-6-0 dated 20th February, 1957 (60 days).

D. M. SAHA,  
Lighting Superintendent.

Central Municipal Office:  
The 21st February, 1957.

### DISTRICT NO. IV.

Central Municipal Office:  
The 22nd February, 1957.

## Food Supply Department

### NOTICE

Sealed quotation superscribed "Quotations for Common Rice" with samples in sealed covers are invited by the undersigned for the supply of 3,000 (three thousand) maunds (nett) only of Common Rice to the Food Supply Department and will be received by him up to 12 a.m. on Friday, the 1st March, 1957. Rice must be dry, free from weevils, foreign grains, stones, dust and foul smell. Rates should be quoted for nett weight and should include the cost of gunny bags and all other charges with free delivery at the Central Stores, 1, Hogg Street, Calcutta-13 where cent per cent weightment will be effected. Samples in sealed covers must be submitted along with the quotation. Payment will be made within a fortnight from the date of submission of the B.I. The number and date of current year's Corporation Trade License should be stated on the quotation. Delivery is to be completed within a week from the date of receipt of the order. Bill for partial supply will not be accepted. The Corporation shall have the right to buy quantity less than that advertised for.

I. BAL,  
Deputy Commissioner II.

Central Municipal Office:  
The 18th February, 1957.

### Notice

#### REPAIRS TO STEAM WATER BOAT

Quotations are hereby invited from reputed Marine Firms for Annual Survey repairs including scraping, painting etc. to Calcutta Corporation Steam Water Boat "CHARLES PAYNE" in order to obtain for her certificate from the Government Surveyor for one year.

The quotation in sealed cover should be submitted to the Deputy Commissioner II who will receive them up to 12 noon of 1st March, 1957, at 5, Surendra Nath Banerjee Road, Calcutta. A list consisting of the items of repairs may be obtained from the office of the Superintendent, Water Supply to Shipping, 4, Esplanade Row West, Town Hall, Calcutta-1.

The quotation thus quoted on the list of repairs obtained, should contain the exact time to be taken for the execution of the repairs. Any item not included in the list, if detected after the preliminary inspection of the Government Surveyor, will be classed as "unforeseen" repairs.

B. GHOSH,  
Secretary.

Central Municipal Office:  
The 20th February, 1957.

## CORPORATION NOTICES—Contd.

**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed White arm badges with Black numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law.  
Supt., S. S. Hogg Market.

## VIEWS AND REVIEWS

### CITY REJOICES AT PRIME MINISTER'S ESCAPE

Along with the rest of India, Calcutta Corporation at its weekly meeting on 1st March, recorded its relief at the miraculous escape of India's Prime Minister, Shri Jawharlal Nehru, on the 26th February last when the plane 'Meghdoot' in which he was flying caught fire in mid-air. It was the presence of mind of the crew of the plane which saved the situation. The pilot made a dexterous landing on one engine.

The Mayor, Shri Satis Chandra Ghosh, who referred the matter at the outset, said that the escape was providential. 'We should feel happy and record our joys along with the citizens of Calcutta on this occasion,' concluded the Mayor. A message was also sent to the Prime Minister on behalf of the House on this occasion. Similar messages were sent earlier by the State Chief Minister and other important citizens addressed to Shri Nehru.

### ELECTIONEERING IN THE CITY

Calcutta will go to polls on the 14th March next. With the few days ahead electioneering in

the city has almost reached at its climax. The city streets are filled in with posters and festoons hanging overheads. So also the building walls where an open space can hardly be noticed. Party symbols, symbols of independent candidates are being displayed along with their appeals for persuading citizens in their respective candidate's favour. Some of the symbols are of simple designs with popular appeals.

Altogether 93 candidates will contest for 26 seats of the State Legislature from the city. The Corporation area has been divided into 25 constituencies. One constituency, Belliaghata, will return two members, one of them a scheduled caste representative. Almost all the sitting legislators in the State Assembly are in the list of fighters. The twelve candidates contesting for four seats in the Lok Sabha include the four sitting members. There are seven women candidates for the State Legislature including three sitting members.

Among the State Legislature candidates there are a few members of our Council Chamber. The Ex-Mayor, Shri Natesh Nath Mookerjee, a sitting M.L.A., and at present Chairman of the Standing Finance Committee, will face a member of the same

Committee, Shri Dharendra Nath Dhar. The list also includes Ex-Mayors, Dr. Bidhan Chandra Roy, the State Chief Minister, Shri Anandlal Poddar and Shri Sudhir Chandra Roy Chaudhury. Councillors Nandalal Banerjee, Ganapati Sur, Shiv Kumar Khanna and Bhabesh Chandra Das, Shri Pratap Chandra Chunder, Shri Suhrid Rudra and Shrimati Biva Mitra, Associate Members of the Standing Committees are also in the list of contestants. Among the Corporation employees Shri Ajit Biswas, Shri Dhiren Bhowmick and others are facing election. A section also includes those who were once connected with this civic organization in either way as Alderman or Councillor or even an employee.

Besides the Congress, a major single party, the Communist, the Praja Socialists, the Forward Bloc Marxist, the Forward Bloc and the Revolutionary Socialist Party are the constituent units of the United Leftists' Election Committee, while the United Peoples' Democratic Front is composed of the Hindu Mahasabha, the Revolutionary Communists Party, the Congress Karm Parishad, and the Jana Sangha.

Polling being already started in the suburbs of the city the election tempo in the city is drawing towards the maximum. The propaganda and demonstration methods this year have changed much from the last one. Two factors seem to have necessitated this change in technique. On the one hand, the voter has become more conscious of the power his franchise gives him and therefore needs more personal approach by the candidates. On the other hand, many suffer from a sense of frustration because of economic and other reasons, and personal approach becomes all the more necessary. While the enthusiasm, during the last General Election, the first held on an adult franchise, was much more spontaneous.

Still the old method is followed to persuade people in their respective holds. Demonstrations in the shape of mass rallies, processions, open meetings in parks and squares and even street corner meetings are continuing. During this week the city witnessed two big rallies at the Maidan under the foot of the Ochterloney Monument. One of them was addressed by Shri U. N. Dhebar, President of the Indian National Congress and the other by the United Leftist leaders.

There will be straight fights in many of the constituencies in the city and special attention has been paid by both the parties to fight it out.

The Chief Minister's constituency, Bowbazar, and Shri Sankar Prasad Mitra's Vidyasagar, are among the areas which will see the keenest fights.

Election in the city will take place on the last date in the State, and no doubt as the campaigns are fast closing, Calcutta will surely occupy a crucial position in this battle due to numerous reasons, some obvious and some born of new developments. Personalities in the arena and the resounding character of their success or defeat have as in the past, distinguish contests in the city from those in the districts.

#### CORPORATION ELECTION

The citizens of Calcutta will once again go to polls in connection with the General Election of the Corporation, scheduled to be held on the 29th

March next. The final Notification of the Government of West Bengal, Local Self-Government, in this regard is still awaiting. As soon as the Government will announce the last date for filing Nomination Papers by the candidates seeking election, the Election Officer will invite names through the local press. The Government Notification is required to be published in the Official Gazette under the existing Municipal Act. The last date for withdrawal of nomination papers has been scheduled to be fixed after the date of scrutiny. That date is also to be fixed by the Government.

Brisk preparations are being made by the Election Department, Corporation, to hold the election on the scheduled date. Altogether about 1.95 lakhs of citizens will exercise their franchise to elect 80 members, each from one constituency. Under the present system of limited franchise in this premier city of the East there will have varied number of voters in these wards ranging from 700 to 2,100. There will be 160 Polling Stations in the city divided into 587 Booths. 97 Booths will be kept reserved for women voters. About 200 Presiding Officers with the help of more than 2000 men mostly Polling Officers will conduct the voting on that day. The hours fixed for the purpose are from eight in the morning till five in the afternoon with one hour interval in the noon. The Election Officer has requisitioned 8000 Ballot Boxes for the purpose. Police help has been enlisted for maintenance of peace in the city. Indelible ink will also be used in a manner as is being done in the General Election of the State. This will be indented from the Central Election Office, New Delhi.

#### SHRI SUNIRMAL BOSE IS DEAD

We deeply regret to announce the death of Shri Sunirmal Base, one of the foremost juvenile poets of Bengal. The death came after a sudden attack of Coronary Thrombosis on Monday noon, the 25th February at his Dhakuria residence, Selimpore Road, southern part of the city. He was 55.

For the last few years the poet had been suffering from an attack of low blood pressure and this had restricted his movements. Still his pen went on and he composed a good number of poems for the juvenile population in the country.

Jugglery of words along with rhythmic expression was the peculiar traits of his composition which delighted the children for the past thirty years. His easy style even attracted the adults. He also edited a fortnightly journal 'Kishore-Asia' meant for the children for some time. His compilation work 'Chotader Kavya Sanchayan' was recognized on all hands.

The contribution of the poet in the children's literature is immense and outstanding. Hardly there was any journal devoted to the cause of children and youngsters which had not been enriched with the writings of the late Shri Bose. Lastly, he had wielded his pen towards prose literature and this had also earned him a name by publishing his autobiography. It is unfortunate that he could not finish that volume. He wrote about 200 books. He was awarded 'Bhanu Bhaneswari Medal' in recognition of his contribution to the Juvenile literature of Bengal.

Born on the year 1902 on the 20th July, at Giridih, the late Shri Bose had his early education there. His father late Shri Pasupati Bose, was a school teacher. His grandfather the late Monoranjan Guha Thakurta was a popular leader of Swadeshi Jug. He imbibed his love for art and culture from his father, who attracted a larger number of citizens at Giridih through an institution Purnima Sammelan. After passing Matriculation Examination he got himself admitted in the Government School of Art, Calcutta. But, pecuniary circumstances prevented him from completing his education and he was thrown into the whirlwind of the world. His talent for composing poetry became known even when he was in early teens. He began his career as a professional journalist, and devoted his leisure hours on the composition of poetry. During the last few years his deteriorated health did not permit him to work hard, and he retired almost from active life.

As soon as the news of his death spread, his friends and admirers as well as a large number of children went to his residence and paid homage to the departed writer. Wreaths were placed on behalf of different organizations as well as by individuals. A procession with the bier also taken out.

His last rites were performed at Keoratala Burning Ghat.

The Corporation at its weekly meeting on the 1st March mourned his death. The Mayor, who referred the death in the House, said that his death has brought about a sad look in the faces of children for whom he composed his poems.

The House was adjourned for the day as a mark of respect to his memory.

We also offer our sincerest condolence to the members of the bereaved family.

#### CORPORATION CONDOLES DEATHS

The weekly meeting of the Corporation condoled the tragic death of Shri Tarakdas Banerjee, M.L.C. He was also the President of the Nadia District Congress Committee and a well-known social and political worker. He was 59. The death was the result of an accident occurred on Tuesday while Shri Banerjee was proceeding towards the city of Krishnanagore in a jeep.

Apprising the House with the incident the Mayor, Shri Satis Chandra Ghosh, said that those who knew him would ever remember him for his unassuming nature and gentle behaviour. He was a nature's gentleman, a distinguished worker, and his activities in the field of social service was well-known to all. 'One may not be rich in wealth, may not be rich intellect, still he may be great as a man and such was Shri Tarakdas Banerjee. Everybody feels his loss whenever he remembers his association with him' concluded the Mayor.

The House, adjourned its sitting for the day as a mark of respect to his memory.

A reference was also made about the late Shri Banerjee by Councillor Sudhangahu Sekhar Mitra, who recalled his long association with Tarak Babu.

The House also condoled the death of Shri Nripendra Nath Bose, an important citizen of Cossipore area.

#### —THE CORPORATION AT WORK

(Continued from next page)

(iv) Four increments to those employees who have rendered continuous service for eight years and more.

The period of continuous temporary service for purposes of fixation of initial salary shall be calculated up to 1st July, 1956, and not beyond that date in any case in respect of employees including labour.

(B) The principle according to which the initial salary of the temporary employees in service on 1st July, 1956 on being made permanent, is being fixed is irrespective of the question of passing the Departmental or Training Examinations as the case may be.

(C) For the purpose of fixing the initial salary of the temporary labour staff in service on 1st July, 1956, when they are made permanent, the following procedure shall be adopted:—

(i) A member of the labour staff working temporarily who was not absent from duty for more than one year at a stretch during the tenure of his temporary service should be treated to be in continuous service from the date of his appointment in temporary capacity provided that the total period of absence does not exceed 25 p.c. of the period of his service.

(ii) In case a member of the labour staff working temporarily happened to be absent for more than one year at a time and was re-appointed after such absence he would be treated to be in continuous service from the date of his re-appointment provided the condition as in (i) above is satisfied after re-appointment.

(iii) In the case of temporary Seasonal staff also, the procedure regarding continuous service as in (i) and (ii) will apply.

(D) In addition to the increments in pay as enunciated in (A) above one special grade increment be granted to those temporary employees in service on 1st July, 1956, who suffered reduction in pay during the period of their temporary appointment due to shifting from the temporary appointment to another in the same cadre and grade, with effect from the dates of their permanent absorption.

(E) Those employees who suffered above reduction in pay and were made permanent during the period between 31st May, 1950 and 30th April, 1952, be also granted one special increment as in (D) with effect from 30th November, 1956.

#### THE MERCANTILE BANK OF INDIA LIMITED

The following telegram from London Office dated the 26th January, 1957, have been received.

"Final dividend recommended 7 per cent. less income tax making 14 per cent. for year."

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRTY SECOND ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 22ND FEBRUARY, 1957.

## LATE SHRI BEPIN GANGULY

The House, on the recommendation of the Standing Town Planning and Improvement Committee, allowed a Memorial Committee to erect a statue of late Shri Bepin Behari Ganguli, at a site on the western side of the central pathway within Wellington Square, central part of the city. The erection work will be undertaken by Bepin Ganguli Memorial Committee under certain conditions. The statue would also be maintained by the said Committee. The late Shri Ganguli was a Councillor of the Corporation and lived in that part of the city.

## OBSTRUCTION IN FOOTPATHS

Rising on a matter of public importance, Councillor Bejoy Kumar Banerjee pointed out the difficulties experienced by the pedestrians while moving over the footpaths particularly in the southern part. These things had been referred to earlier in the House, said Councillor Banerjee, but no action has yet been taken. According to him the worst offenders are the transport repairers in the city who very often encroach not only upon the footpaths but also upon the roadways. Added to this the encroachments made on the footpaths by the temporary stall-holders and other kinds of intruders. Showing his personal anxiety for the increased number of street accidents due to such encroachments Councillor Banerjee wanted to stop this practice forthwith.

The Mayor, Shri Satis Chandra Ghosh, assured the House that he would look into the matter.

## RE-VALUATION IN TOLLYGUNGE AREA

Councillor Nripendra Nath Banerjee complained against the procedures adopted by the Special Officers of the Assessment Department, while reviewing the Revaluation cases of the holdings lying within Tollygunge area. Councillor Banerjee alleged that there were unnecessary harassments and misrepresentation of facts in these procedures. He wanted that the House should direct the officers responsible for this to move in such a way so that the ratepayers' sufferings might be lessened and the procedures be more simplified. At the same time there should be least delay in reviewing the cases, Councillor Banerjee demanded.

The Commissioner was requested by the Mayor to look into the matter.

## CORPORATION AMBULANCES

The House, on the recommendation of the Standing Health Committee, allowed the Manager, Special Home for Infirm Vagrants, Government of West Bengal, to use Corporation Ambulances free of charges for removal

of patients from the House's site at Dhakuria to city Hospitals.

## MARKETS IN THE CITY

The House, on the recommendation of the Standing Markets Committee, declared several places as open Market places. Already markets were holding in these sites on a temporary basis by the vendors and stall-holders. The Corporation procedure was followed later on by granting requisite licenses and others for the regularization of the same.

## SHRI A. K. SEN

The House recommended Shri A. K. Sen, present Chief Engineer of the Corporation, to the Government of West Bengal, Local Self-Government Department, for extension of his service for one year with effect from the 8th February, 1957. This also received the earlier recommendation of the Standing Finance Committee and Shri Sen had obtained a certificate for his physical fitness from the Health Officer, Corporation.

The recommendation was made in view of the fact that it would take some more time to finalise the Regulations relating to Service Rules of principal officers as framed by the State Public Service Commission and would get the approval of the State Government.

The decision for recommendation was taken after a brief discussion in the House.

## SETTLEMENT OF EMPLOYEES CLAIMS

The House, on the recommendation of the Standing Finance Committee, agreed to the following terms in settlement of the demands put forward by the employees. There was a bipartite agreement between the employees and workers on one side and the Corporation authorities on the other :—

(A) For the purpose of fixing the initial salary of the temporary employees in service on 1st July, 1956, on being made permanent, the procedure laid down subject to the condition that in no case shall the initial salary exceed the maximum pay of his grade :—

(i) One increment to those employees who have rendered continuous service for two years but less than four years.

(ii) Two increments to those employees who have rendered continuous service for four years but less than six years.

(iii) Three increments to those employees who have rendered continuous service for six years but less than eight years.

## POET SUNIRMAL BOSE

[SHRI DHIRENDRALAL DHAR, GENERAL SECRETARY, SHISHU SAHITYA PARISHAD]

THE country mourns to-day the death of one of the poets who sang for the children in a tone which is now missed for ever. How astounding it was to hear the death news which came off on the forenoon of the 25th February! The magic wand which formed the muse of his life has stopped for ever. Within the poetic structure he was seldom a wayward nor did he have to be, for it gave him ample room for variety of mood, speed and current.

The meters he named, by no means exhaust the variations that hymnodists were coming to use, but one need not believe that his latter combinations were derived from a model of his own. At the same time he put into practice his evident belief that verse which limits itself to exact rhyme is denied the possible enrichment that other minds can bring. His pioneering is here too in the new order erected on old foundations. He realized that he was charting a lonely voyage, in some degree he did, but his independent nature gave him self-assurance because it was supple and varied.

Sunirmal was a born poet. He was a master in the jugglery of words. His rhymes and rhythms appeal directly to the heart of the children for whom he wrote. His first book was published under the title HOWAR DOLA, a collection of poems and then many other collections of poems followed. The one-act plays which he wrote in numbers, were for the young teens who could stage stories of adventure, instruction and entertainment for the young. They were distinguished for their high moral and easy style. Among the well-known of his works mention may be made of CHHAND-R TUNG TANG, CHHANDA JHUMJUMI, ANANDA NABU, SAHUREY MAMA, KIPTEY THAKURDA, BEER SHIKIRI, KABITA SHEKHA, CHHANDER GOPAN KATHA and innumerable ones. The last two of the above named are written on the technique of writing poetry for the juvenile folk. He was the first to compile an anthology of poems for the young, CHHOTODER KAVYA SANCHAYAN, and edited the first fortnightly paper for the young, KISHORE ASIA. It is unfortunate that he could not finish his autobiography, the first volume of which had lately been published under the title, 'JIRAN KATHAR KAYEK PATA'.

Sunirmal Babu dedicated his life to develop and entertain the inner qualities of the young. His superb style and unsurpassable technique placed him high above all other juvenile writers of the day irrespective of age. His name stands with the other reputed writers of the world, Grimm Brothers, Defoe, Hans Andersen, Thomas Keightly, Charles Reade, Disdale, Perrault or Van Schmid. Had he been born in Russia, in U. S. A., or in any European country, he would have been honoured otherwise with State rewards. Academy prizes would have poured upon him. But the juvenile writers and artists of Bengal

recognised his talent and awarded him "Blubenewari Medal" as the best writer juvenile literature for the year 1968 B.S. in the Annual Literary Conference of the Shishu Sahitya Parishad this year. His predecessors recipients of this medal are Abanindranat Tagore, Dakshina Ranjan Mitra Mazumdar, Jogendra Nath Gupta, Sukumar Roy (posthumous), Hemendra Kumar Roy and Khagendra Nat Mitra.

Sunirmal Bose loved children and the children loved him. How much he was loved by children is difficult to estimate. This was amply demonstrated when after the demise of their beloved poet larger number of younger folk rounded about his house with tearful eyes. They also placed wreaths as the last

LATE SUNIRMAL BOSE

homage to their poet but their hearts offered more than any earthly gift. They also spoke: Sunirmalda is no more among us, but his ever-smiling face lives in our minds' eye, his ever bright humour is still ringing in our ears and the memory of his sweet companionship is not a thing that Death can ever wipe out! Really a poet never dies!

The Immortality very much akin to Beauty, is of this world, not of the world to come. And there is not the slightest doubt that Sunirmal Babu was recognized to possess a quality, singularly of his own and twice it was described by him during the years of his great creativity. That Immortality he had earned by his poems which ring not only in the ears of younger population but in adults also.

# How Calcutta Voted in the General Election of 1952 ?

[By SHRI JATINDRA MOHAN DATTA]

WITHIN a few days Calcutta will go to polls to elect its representatives to both the State Assembly and the Parliament in Delhi. The candidates, their agents and canvassers and the party organizations to which they belong are busy persuading the electors by speeches, placards slogans, processions, demonstrations and individual persuasion. The printed literature on behalf of the respective parties is rather scarce. Who knows how Calcutta will vote?

Let us examine some facts as to how Calcutta voted at the time of the last General Election in 1952—the first general election on adult franchise. The electoral roll was prepared in 1951, almost simultaneously with the Census. The number of electors enrolled is some 4 per cent. greater than the number of adults in Calcutta. Ordinarily it should be less—for to be an elector one must reside for a certain length of time; but to be enumerated in the Census one has got to be physically there on the basic day of Census. It is common knowledge that many dead persons, persons who have left the place long long ago, minors and fictitious persons were enrolled, as voters. In one jute-press, all the labourers who work there were recorded as voters. They were also recorded as voters at their respective residences. This made false personation, double voting easier.

This time the number of electors increased less from 1782 lakhs to 1981 lakhs—an increase of some 11.5 per cent. in five years. If this is due simply to population growth, then our population is increasing at the rate of 28 per cent. per decade!!—a fabulous rate of growth by all means. In West Bengal the increase is 20.8 per cent. This is because the authorities responsible for the preparation of electoral rolls do not exercise sufficient care; our political organizations, be they rightist or leftist, communal or national, do not take any interest in the matter.

So much for the Electoral rolls.

Election begins with nomination of candidates. There were 25 constituencies in Calcutta for the State Assembly returning 26 members; and 4 constituencies returning 4 members to the Delhi Parliament. 295 candidates filed their nomination papers for the State Assembly seats; of these 68 withdrew within time, leaving 227 candidates to face the poll. The average number of candidates per Assembly seat was 9. At the time of the last general election in 1952, there was no legal provision

for retirement of candidates as this year. But as a matter of fact there were retirements; some notified their retirements by appeals to electors to vote for some particular candidate in the papers; some remaining silent. Those who polled less than 1 per cent. of the total votes polled in their respective constituencies, we take them as those who have retired from the contest at polls. The number of such candidates in Calcutta was 54.

This year the number of contesting candidates is 94, less than half of the last election's number. The fall in the number of candidates was expected by political observers and by the Election Commission. Partywise distribution in 1952 and 1957 is given below:—

	1952	1957
Congress	25	26
Communist	9	12
P. S. P. =		7
K. M. P.		
P. S. P. —	17	7
F. B.	14	3
Jan Sangha	11	3
Hindu Mahasabha	7	1
Independents	115	42

There were 38 candidates for the 4 Parliamentary seats; 13 withdrew, leaving 25 to face the polls. 3 may be said to have retired according to our above test. But in Parliamentary elections those who have obtained less than 4 per cent. should be taken to have retired—this is the opinion of some competent political observers. In this view 8 more may be said to have retired.

The total number of electors was 15,19,698. As one Assembly constituency was a double-numbered one, the total of votes for the Assembly is 16,29,607. The percentage of votes polled in the Assembly elections is 34.2 and that for the Parliamentary elections is 37.6. This is rather intriguing. Ordinarily we may expect that in the local elections more votes will be polled; for the problems discussed are local and the number of candidates much larger. But the facts are otherwise. This is due, we think, to the stature and personality of the Parliamentary candidates at the last general election. The late Dr. Shyama Prasad Mookerjee and Dr. Meghnad Saha were two such candidates.

Compared with the European standard of attendance at polls, viz. 80 per cent. our attendance at polls is low. The average for West Bengal taken as a whole is 42 per cent. That means the percentage of votes polled outside Calcutta is much higher than 42. Are the Calcutta electors apathetic? We think the interest of the Calcutta electors in the polls is of the same order as of the electors in the rural area; but this percentage of attendance appears lower because of fictitious entries, double entries, entries of dead persons in the electoral rolls.

In the Assembly constituencies of Calcutta the percentage of attendance at polls varied from 45.1 per cent. in Bowbazar where the Chief Minister, Dr. Bidhan Chandra Roy was engaged in a straight fight with his rival, to 25.7 per cent. in Colootolla,

## EPIDEMIC DISEASES

Small-pox being continued in the city, 99,654 persons, were vaccinated against small-pox during the week ended the 23rd February, bringing the total number of persons vaccinated since January 1 to over 1.6 millions. Being worried about the epidemic position, it is felt in certain quarters that the vaccination drive should be further intensified to cover every home within the shortest possible time.

Persons inoculated against cholera during the week totalled 23,634.

where the Muhammedans predominate who generally do not take much interest in non-communal politics.

Success of the different parties was as follows:—

Congress	...	17
Communist	...	4
Forward Block	...	3
Independent	...	2
Total	...	26

As there were too many candidates in each constituency, the calculation of majority is not an easy one. We calculate it by taking the votes polled by the successful candidate over his nearest rival. The majority of the Congress candidates varied from 9 to 12,882; and the average majority was 4,845. The majority of the Communist candidates varied from 1,589 to 4,985; and the average was 8,791 votes.

The highest percentage polled by any successful candidate was 71.5; and the lowest 24.5.

Confining ourselves to the two big parties, the Congress and the Communists, the preference of the Calcutta voters is given below:—

	Votes polled in Assembly election.	per cent.
Congress	... 2,21,840	89.8
Communist	... 67,448	12.1

The low percentage of votes for the Communists is due to the fact that they contested only 9 seats, while Congress contested 25 seats. The average of votes polled by candidates belonging to these two parties, is given below:—

Party	Average number of votes polled.
Congress	... 8,874
Communist	... 7,494
Excess	... 1,380

There is an impression that Calcutta was and is Communist-minded. The facts of the last general election do not support the impression. Congress put up 25 candidates for 26 seats; while the Communists were able to put up only 9 candidates. The votes polled in favour of the Congress is more than three times votes in favour of the Communists. The average vote per candidate is 18.8 per cent. or nearly one-fifth greater in favour of the Congress.

We shall now deal with the Parliamentary seats and votes. The facts are given below; and they are self-explanatory.

	Total votes	Votes polled	Per cent.
	15,19,698	5,71,542	87.6
votes per successful candidate set up			
Votes polled by			
Congress	... 2,05,026	51,257	4
Communist	... 1,04,198	52,069	2

It is the comparative failure of the Congress to capture the Parliamentary seats and the lesser average of votes per candidate which has given rise to the impression that Calcutta is communal-minded.

Another interesting fact to be noticed is that while the Congress polled 2,21,840 votes for the Assembly seats, it polled 2,05,026 votes for the

Parliament—some 16,000 less. The Communists polled 67,448 for the Assembly and 1,04,198 for the Parliament—some 40 per cent. more. This was due mainly in our opinion to the personality of an outstanding Communist candidate, Prof. Hirendra Nath Mukherjee.

## DEATHS AND DISEASES IN THE CITY

During the week ended the 23rd February there were 144 attacks of small-pox and 100 deaths from the same disease against 180 and 102 respectively in the week before. In the corresponding fortnight last year total attacks and total deaths numbered five and four respectively.

Cholera attacks and deaths were five and four respectively against 15 and eight in the preceding week. No case of cholera was reported in the city during the corresponding fortnight last year.

Tuberculosis caused 41 deaths, against 30 in the previous week and 33 and 40 in the corresponding weeks last year.

Deaths from all causes totalled 840 against 885 the week before and 586 and 628 in the corresponding weeks last year.

## VITAL STATISTICS

For the City of Calcutta for the week ending  
23rd February, 1957.

### CITY OF CALCUTTA (TOWN AND ADDED AREAS).

The total number of deaths registered during the week was 840 against 885 and 819 in the two preceding weeks and higher than the corresponding week of the last year by 254. The general death-rate of the week was 14.91 per mille.

### TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 23rd February, 1957, was 630 against 663 and 671 in the two preceding weeks. There were 3 deaths from cholera against 8 and 7 in the two preceding weeks. There were 88 deaths from small-pox during the week against 85 in the previous week. There was nil death from influenza against 1 in the previous week. The mortality from fevers and bowel-complaints amounted to 16 and 42 respectively against 23 and 51 in the previous week. The general death-rate of the week was 14.31 per mille per annum.

There were 58 imported deaths. Excluding these, the death-rate of the Town was 12.99.

There were 106 deaths from respiratory diseases against 118 in the previous week.

There were 32 deaths from tuberculosis against 24 in the previous week.

### ADDED AREAS (WARDS 28—32.)

The number of deaths registered was 210 against 222 and 148 in the two preceding weeks. Of these, 1 was from cholera, 12 from small-pox, nil from influenza, 3 from fevers, 29 from bowel-complaints and 55 from respiratory diseases. The death-rate of the added areas was 17.09 per mille.

There was no imported death. Excluding this, the death-rate was 17.09.

There were 9 deaths from tuberculosis against 6 in the previous week.

**EMPLOYEES' MADE PERMANENT**

List of temporary employees made permanent by Commissioner with effect from 30th November, 1956 in accordance with the resolution of the Corporation dated the 1st October, 1956 and 14th December, 1956.

## CITY NEWS PARADE

**H. H. AGA KHAN'S PLATINUM JUBILEE** was commemorated through a token ceremony on Thursday, the 21st February, under the auspices of the Jubilee Mahotsava Committee in a specially erected pandal at Lee Road. Prince Aly Khan was present. A large number of Ismailis attended. The Calcutta Armed Police band was in attendance.

An address in a silver casket and a platinum plaque were presented to the Aga Khan through the Prince. The address read by Mr. G. A. Dossani, referred to the services rendered to Ismailis throughout the world by the Aga Khan and stated that the funds raised for the Platinum Jubilee were being utilized for the economic upliftment of the community.

Replying on behalf of his father, the Prince conveyed the Aga Khan's blessings for his followers. A message from the Aga Khan to his "spiritual children" was also read.

**BIRTH-DAY CENTENARY OF LORD BADEN-POWELL**, founder of the Boy Scouts and Girl Guides' movement, was celebrated on Friday, the 22nd February last in the city. The day was observed as a "Thinking Day," and the life and activities of Lord Baden-Powell were recalled through discourses and meetings.

In the morning Scouts helped pedestrian traffic at several crossings in the city and in the afternoon they had a sports meeting in the grounds of St. Paul's School. They ended their day's programme with a camp fire.

The Girl Guides had a separate programme. They assembled at Belvedere in the morning for games and sports. There was also a display of physical feats, followed by a march past by over 400 guides. Shrimati Asoka Gupta, State Commissioner (Guides), was present.

In that connection a joint rally of about 4,000 Scouts and Guides was held on the eastern lawn of Raj Bhavan on Saturday, the 23rd February. The programme included songs, dances of acrobatics signalling, and rope-bridge building.

**RE-UNION OF EX-SERVICEMEN**, ex-service women and dependents of servicemen who lost their lives in action, was held in the city on Sunday, the 24th February.

Ex-servicemen must always consider themselves as soldiers and set a standard of discipline before others, thus said the West Bengal Governor Shrimati Padmaja Naidu, while presiding over the function.

It was not possible, she said, to increase Government grants to the Board, but if suitable schemes could be drawn up to employ ex-service people, particularly the womenfolk, the Government could certainly come to their aid.

Major-General Henderson-Brooks, G. O. C. 20th Division, who was the Chief Guest, said that ex-servicemen must not shirk hard work. They must also contribute their share in ensuring peace and safety in the country.

Mr. I. B. Surita, Secretary of the State Board said that there were six branches of the Board in West Bengal catering to the needs of over 30,000 ex-servicemen and their 5,000 dependents. The Board's help included financial grants to dependents and disabled servicemen, educational stipends to their children and medical facilities.

**SHIVA-RATRI**, worship of Lord Shiva, one of the most important, but perhaps the least spectacular of Hindu religious functions, was observed by many thousands in the city on Wednesday the 27th February.

The ceremonies were performed by devotees, mostly women, quietly, according to the rituals. The devotees were on fast for the whole day and night. As the worshippers had to keep awake at night, quite a few theatres, cinemas and other places of amusement organised whole-night performances. From early morning till late at night, thousands of men and women went to the Ganges to bathe. Crowds were also gathered at Kalighat temple and many other temples in the city where the deity installed.

**CALCUTTA EXPERIENCED** a welcome thunder-shower which brought the temperature down by five degrees on Monday, the 25th February. Rainfall recorded was 2.8 millimetre or 0.10 inches. The shower was caused by a western disturbance which passed over West Bengal but this showed no prospects of the cold season holding out. Wind violently rose to about 35 miles per hour at times during the shower. Except for a bright spell of sunshine in the early morning the sky remained overcast till afternoon.

The maximum temperature on that day was 27 deg. C (80.6 deg. F) 4 deg. C below normal and the minimum 19 deg. C (66.2 deg. F) 3 deg. C above normal.

The city experienced another thundershower on the next day with a welcome drop in temperature. The rain fall recorded was 3.1 millimetres.

Throughout the day the sky remained overcast. There was a break in the rain in the afternoon but a light drizzle resumed later. The rain, which was caused by a western disturbance, continued till late at night.

The maximum temperature up to 5-30 p.m. on that day was 26 deg. C (78.8 deg. F) 5 deg. C below normal and the minimum 19 deg. C (66.2 deg. F) 2 deg. C above normal. Bright sunshine resumed from Wednesday morning, the 27th February.

**GEORGE WASHINGTON'S Birthday** was celebrated as the U.S. National Day in the city under the auspices of the U. S. Consulate-General on Friday, the 22nd February last. A Reception was held in the evening at Harrington Street, by Mr. Goron H. Mattison, American Consul-General in Calcutta. The West Bengal Governor Shrimati Padmaja Naidu, was among those who attended the Reception.

**A RAILWAY ACCIDENT** of serious nature caused injury to thirteen persons, one fatally, at Sealdah North Station on Thursday afternoon, the 21st February last. The accident occurred when an empty rake of six carriages, which was to have been placed along an adjoining platform, shunted on to the line on which the Calcutta-Habra local train, with passengers, stood at Platform No. 1.

Four members of the train examining staff working under the local train rake were injured in addition to seven passengers and two firemen of the train. Some coaches of the empty rake were stated to have been slightly damaged.

Following the accident, a demonstration was held by railwaymen on the line near the platforms. Work in the station was stopped for about five hours. Some passengers also joined the demonstration.

Three senior officers of the Sealdah Division of the Eastern Railway held an inquiry into the accident.

**DEMONSTRATION:** The tram turning area outside Sealdah station, on which about 330 refugee families were squatting, stopped the tramways to operate their services on the Bowbazar section for a few days during the last week. The refugee people were of various descriptions.

About 150 refugees, including women and children, squatted on the pavement near the entrance to Sealdah Station in one of the days during the week. They came mostly from Bongaon, 24-Parganas, on Tuesday morning.

# CORPORATION NOTICES

## To Contractors

# PHENEOL LAMP BRAND

**A POWERFUL DISINFECTING FLUID**

**—DISINFECTS—**

Drains, Cess-pools, Hospitals, Sick-rooms,  
Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
**CALCUITA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.
2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed White arm badges with Black numbers from Nos. 1 to 350.
3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.
4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.
5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.
6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.
7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

## Building For Corporation Maternity Home Dr. Roy Lays The Foundation Stone

AMIDST cheers and sounds of blowing conch-shells Dr. B. C. Roy, the State Chief Minister, laid the foundation stone of a Maternity Home at 59, Christopher Road, Tangra in Ward No. 49.

A three-storied building will be constructed on a three-bigha open plot of land received as a free-gift from Shri Pulin Behari Khatik M.L.A. The value of the land is Rs. 70,000. The cost of the building will be Rupees four lakhs and this has been provided by the Corporation in its current year's Loan Budget. At first sixty-five beds will be installed. There is a project to increase the number of beds up to 100.

A large number of citizens including several Aldermen and Councillors watched the function. Among the visitors were a large number of ladies. Many of the Corporation officials were also present.

Shri Atulya Ghosh M. P., President Congress Municipal Association, presided. The Mayor, Shri Satis Chandra Ghosh, requested the Chief Minister to perform the ceremony. The local Councillor Amulya Charan Sarkar welcomed the guests.

### CORPORATION FINANCES SHOULD BE REPLENISHED BY THE UNION GOVERNMENT

Before he laid the foundation-stone, Dr. B. C. Roy, the State Chief Minister, referred to the limited financial resources of the Corporation in fulfilling its functions which had increased tremendously in recent years because of the influx of

refugees. He said that both the Corporation and the West Bengal Government had requested the Union Government to help the former with some financial assistance. So far the Union Government had promised some money only for the aug-

**IDEAL FOOD, DRINK & DIET**

**LILY Brand BARLEY**

LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA

mentation of water supply. Besides this, the Corporation had responsibilities for the proper discharge of other duties for which more money was needed than the Corporation could afford to spend.

Referring to the complaint made earlier by Councillor Amulya Sarkar, representing the Tangra area, Dr. Roy said that they were trying to bring about an all-round improvement in the city which would necessarily take time to accomplish. He appreciated the Tangra people's scheme for a multi-purpose school in the area which had been referred to by Councillor Sarkar. When they received a detailed scheme of the proposed school, he said, both the Union and the State Governments would see how they could help.

The State Chief Minister, at the same time, appreciated the munificence of a local citizen Shri Khatik, who not only made a gift of the land but also other contributions for the development of the locality. He hoped that this would inspire others to extend their help for the suffering humanity.

#### CORPORATION REVENUE NOT UNSATISFACTORY

Shri Atulya Ghosh, M.P., President of the West Bengal Pradesh Congress Committee, who presided, said that the heaviest load of responsibilities following the partition of Bengal had to be borne by the Corporation. Although its collections had not been unsatisfactory, the heavy expenditure it had to incur to provide amenities to the increasing population was out of all proportion to its income.

### —THE CORPORATION AT WORK

(Continued from page 468)

#### SENIOR COUNSEL ENGAGED

The House, on the recommendation of the Standing Finance Committee, engaged Shri A. K. Mukherjee, Bar-at-law, as Senior Counsel to conduct the case of the Corporation before the Fifth Industrial Tribunal on usual fees per day in respect of a dispute between the Corporation and its workmen of the Pulta Water Works Workers' Union. The Senior Counsel was also allowed to select and engage his Senior on specified fees in consultation with the Chief Law Officer.

#### CORPORATION LOAN

The House confirmed the recommendation of the Standing Finance Committee that a loan of Rs. 2.37 crores be raised for, among other things, laying reserve mains (Rs. 8.85 lakhs), laying a new 72 in. Pulta-Tallah main (Rs. 1.50 crores), buying of a self-propelled water boat for supply of water to ships (Rs. 2.80 lakhs); augmentation of water supply in the city from the existing sources at Pulta (Rs. 46 lakhs); contribution to the Government for the reconstruction of the railway overbridge on Barrackpore Trunk Road (Rs. 5.29 lakhs); construction of an additional storey in the Central Municipal Office Buildings, S. N. Banerjee Road, (Rs. 8.1 lakhs) and Remodelling Town and Suburban Headcuts and S. W. Reservoirs (Rs. 25 lakhs).

Without some ad hoc grant from the Union Government, it is almost impossible for the Corporation to tackle effectively the problems it has been faced with, added Shri Ghosh.

#### ACHIEVEMENTS WORTH-MENTIONING

Requesting the State Chief Minister, to perform the ceremony, the Mayor, Shri Ghosh, dwelt briefly on the problems the Corporation had been faced with. Judging by the Corporation's resources, its achievements has not been unsatisfactory, he said.

Continuing his speech the Mayor said that the Revenue Receipt figure had exceeded seven crores still the expenditure could hardly meet the demand bills. He also narrated a few cases where the Corporation finances had failed to provide adequate sums for their full implementations.

Earlier, welcoming all, Councillor Amulya Charan Sarkar, said that although Tangra was within 30 minutes' walk from Dalhousie Square still it had been the area most neglected by the Corporation. People in the area had few civic amenities. Emphasizing this point, he said that children had to walk three miles to the nearest school. He referred to a Rs. 2½-lakh scheme, drawn up by people of the locality for a 11-year-multi-purpose school in Tangra and said that Shri Khatik, who made a free gift of the land for the Maternity Home, had also agreed to contribute more than half the money for the same purpose.

Councillor Ratan Manick Chatterjee extended a vote of thanks.

#### DEATHS AND DISEASES IN THE CITY

Attacks and deaths from small-pox in the city during the week ended the 2nd March, were 154 and 101 respectively, against 144 and 100 respectively in the previous week. Among the deaths 22 and 20 were imported cases during these two consecutive weeks. There were six attacks and five deaths during the corresponding fortnight last year.

Cholera has not caused so much anxiety as there were six attacks and four deaths during the week against the number of attacks and deaths being four and five respectively. The city was almost free from the disease during the corresponding weeks last year, attack and death being one in each case.

Malaria caused six deaths while typhoid, tolled eight during the week.

Tuberculosis was responsible for 39 deaths against 41 in the week before. During the corresponding weeks last year there were 83 and 29 deaths from the disease.

Deaths from all causes totalled 940 against 940 in the week before. During the corresponding weeks last year total deaths were 586 and 599.

## VIEWS AND REVIEWS

### SMALL-POX CAUSING ANXIETY

The adjourned meeting of the Corporation on the 4th March, expressed grave concern over the rise in the incidence of small-pox cases in the city. Many of the Councillors who discussed the matter in the House, demanded extra measures to tackle the situation. There was another demand for immediate opening of an Infectious Diseases' Hospital in the city exclusively for the purpose as the existing arrangements in the Hospitals had not been able to meet the increased demands in the city.

The alarming situation was caused due to the increased number of deaths from the disease for the last three consecutive weeks touching a figure of more than 100 in each week. The number of incidences of the disease as reported during this period had also rounded up 150 in each week. In the meantime the disease had spread throughout the city along with its intensity in few plague spots. The figures of the week ended the 2nd March have indicated that the area most affected in the city was in Ward No. 65 bounded by Rash Behari Avenue on the north, Tollygunge Circular Road on the south, Russa Road on the east and Tolly's Nullah on the west. Sixteen people died of small-pox in this area last week. The mortality figures for the Burtolla and Sukea Street areas were six and four respectively. Four people died in the Colootolla area in Ward No. 40 last week. This had caused many of the members in the House to express an almost similar anxiety in the weekly meeting on Friday, the 8th March.

On the 4th March, when the discussion was in progress, the Mayor, Shri Satia Chandra Ghosh, intervening, said: 'I want something concrete to be done about it.' He added that some ways must be found to persuade or compel people to get vaccinated in order to wipe out the disease out of the city.

Earlier, Councillor Dr. P. K. Roy Choudhury, Chairman of the Standing Health Committee, stated that there were people who would never allow themselves to be vaccinated.

The discussion was initiated by Councillor Bejoy Kumar Banerjee, who said that the small-pox epidemic showed no signs of abating although the vaccinating staff had been increased and about 2 million people immunized. The figure for attacks and deaths were rising daily. But these were only those cases which had been admitted to hospitals and registered at the Burning Ghats. The number of cases, which were not sent to hospital was even greater. Investigation, recently carried out showed that the incidence of small-pox in the bustees continued to be heavy. The matter therefore, called for the most serious consideration. The Indian Medical Association, he added, had, some time ago, submitted a proposal to the Corporation for fighting the epidemic, and it was for the Standing Health Committee to consider it and decide a course of action.

Councillor Dr. Radhika Nath Basu said that the timely opening of the Beliaghata Infectious Diseases Hospital might have saved many lives. In support of his contention, he referred to the case of a baby who had an attack of meningitis a fortnight ago. The baby was admitted to the infectious diseases ward of Nilratan Sarkar Hospital and was put in a cabin. In a hospital where even cabins were separated by half walls, Dr. Basu alleged, isolation of persons suffering from infectious diseases was ineffective. The result was that the boy, although he recovered from meningitis, contacted small-pox and died three days ago. He urged that the case should be thoroughly investigated into. It is only for these reasons, he said, that people are afraid of going to hospital.

Thus stressing the need for segregation of infectious cases from general cases, Dr. Basu regretted that the Beliaghata Infectious Diseases Hospital which was reported to be opened from March 1, had not yet started functioning.

Councillor Dr. K. P. Ghosh suggested that the number of vaccinators be increased fourfold so that the entire population in the city could be vaccinated in a month. Councillor Mohammed Zakir also suggested that more intensive propaganda was necessary. In that connection he felt the need of a larger number of Publicity Vans to rouse consciousness of the people in vaccinating them.

Last week about 70 thousands of people were vaccinated by the Corporation staff and larger number were required to be vaccinated. The figure has touched at 1.60 millions since January 1.

The Health Officer of the Corporation regretted that, though six weeks had passed since the disease was declared to have broken out in an epidemic form, there were still many people in the city who refused to be vaccinated. These non-believers in vaccination were found not only among the illiterate but also among the educated classes. Some of them, again, believed that to be vaccinated after a member of the family had been attacked by the disease is an "affront to the Goddess Sitala" (the protectress against small-pox).

In the meantime he had requested the police to help vaccinators and inoculators on duty whenever necessary. No proceedings against those refusing to get vaccinated and inoculated have yet been instituted. In many cases, the notices issued are expected to have the desired effect.

At the same time he gave an intensive drive for vaccination. The weekly conference between Health Officers of the Corporation and senior officials of the Directorate of Health Services, Government of West Bengal, held on Wednesday, the 6th March discussed the epidemic situation in the city.

The only thing now awaits is public consciousness in this matter and unless that is being roused the epidemic situation in the city will continue to go towards worsen rather than be improved.

HELD ON MONDAY, THE 4TH MARCH, 1957.

## CONCERN OVER HUNGER-STRIKERS

Sixteen students of the Calcutta Engineering College, Zamir Lane, went on hunger-strike for an indefinite period from Monday, demanding recognition of the College by the State Council for Technical Education so that its students might be considered eligible to sit for the annual examination held by the Council. Acquainting the House with this fact Councillor Anil Maitra, a representative of that area, said that the Mayor should intervene in this matter lest the issue might turn otherwise. He also said that the college has grown up since 1932 and has enabled many of the students to earn their livelihood in a decent way. Even the Corporation help was extended to this institution in the shape of both capital grants and annual recurring grants. Councillor Maitra found no reason to withhold the proper recognition of the institution in view of the increased demand for technical personnel during the Second Five Year Plan period.

The Mayor, however, assured the House that he would personally contact with the Government and would look into the matter.

An almost similar concern was expressed by Councillor Dr. K. P. Ghosh in the next meeting of the House on the 8th March, when the hunger-strike continued.

## BUSTEE CLEANSING GANG

As the epidemic season was raging with all its forces and the city was being infested with a large number of bustees, Councillor Deva Prosad Chatterjee, M.L.C., felt that the present Bustee Cleansing Gang should be retained permanently, if not at least a few months more. In that connection he narrated the unhygienic conditions of the under-developed areas where sewer services had not been extended.

The Mayor also hoped that the Standing Finance Committee would consider the issue favourably.

## GENERAL RE-VALUATION

Referring to the hardships of the rate-payers and in view of an increased Corporation expenditure Councillor B. K. Sarkar, Chairman of the Standing Buildings Committee, suggested that the Corporation should approach the Government to amend the existing Municipal Act in such a way so that the General Re-valuation of property might take place every 10-years instead of every 6-years as was the present practice.

## LOSS OF CORPORATION PROPERTY

Several Councillors namely Ratan Manick Chatterjee and Krishna Chandra Bysack mentioned

about theft of Corporation properties including copper-wire, gully-pit-lids and suggested that the matter should be taken up with the police.

Councillor Bysack also referred to the inconveniences experienced by the citizens while moving about the city streets due to removal of a large number of manhole covers by some unsocial elements.

Recently, the Lighting Department of the Corporation, brought to the notice of the police of a loss of Corporation property by removing high power bulbs from light posts and electric wires as well.

## SUBMISSION OF RATE BILLS

Pointing out the difficulties experienced by the rate-payers in New Alipore area Councillor Mani Sanyal complained of the procedure at present followed in submitting Rate Bills. He said that very often the actual date of submission was being delayed due to some defects in postal delivery of the Bills. And this kind of delay had resulted in forfeiture of rebates allowed to the rate-payers in this connection. He felt that the Mayor would request the Commissioner to look into it and this was complied with.

## RE-NAMING OF ROADS

The House accepted a suggestion put up by Councillor Gobinda Chandra Ley that the Corporation should issue a clear directive to all Borough Committees not to entertain any proposal for re-naming a main road in parts concerning a particular Borough. Rather, it would be befitting to consider the question of re-naming the whole road-way at a joint meeting of the Boroughs concerned.

During the discussion, Councillor S. K. Gupta, I.C.S., Chairman of the Improvement Trust, suggested that a Special Committee be formed or the Standing Town Planning and Improvement Committee be empowered to lay down principles regarding re-naming of roads.

## CITY'S GAS LIGHTS

The House, on the recommendation of the Standing Public Utilities and Markets Committee, sanctioned installation of nipples of different sizes for high power street gas lamps in the city streets for better lighting arrangements.

In course of discussion, several Councillors complained of the inadequate pressure in gas lamps in many areas of the city, and urged the House to ask the Gas Company if it would be able to give a sufficient supply. If the Company is unable to do so the gas lamps should be replaced by electric lights, they demanded.

## THE HINDU SATKAR SAMITY

When we speak of a philanthropic institution we recall its services to the distressed humanity. At the same time we measure its services rendered to them. But we do not always recognize them as such. Very often the institution is recognised, after its services are over-valued and very often they are belittled.

But the "Hindu Satkar Samity" does not fall in any of the above categories. It is an institution whose services are required most and even in dire need people have to wait and watch for its extended help. Thus it is difficult to say the amount of help it can render. During the last 25 years of its useful career the 'Samity' has given a record service not only to the citizens of the eastern side of the Ganges but also to those living on the west.

Earlier, there was no organisation for the disposal of Hindu unclaimed dead bodies in accordance with the rites and customs, in this city. With an inspiration and initiation from the Ex-Mayor, Shri Sanat Kumar Ray Chaudhury, the 'Samity' was first established in April, 1932 and registered under Act XXI of 1860 in 1938. During its early life it can claim little appreciable work. The main difficulty was paucity of funds. But ever since Councillor Indra Bhushan Beed took the helm of the institution as its General-Secretary on the death of its Founder-Secretary, Shri Anil Kumar Chaudhury, the Samity gradually developed itself to its present form.

It has removed the greatest grievances of the Hindus by disposing of the dead bodies which were formerly burnt in heaps in Topsia Crematorium under the Corporation of Calcutta. In order to put a stop to the practice of utilizing dead bodies of Hindus for demonstration purposes in different medical institutions in the State the

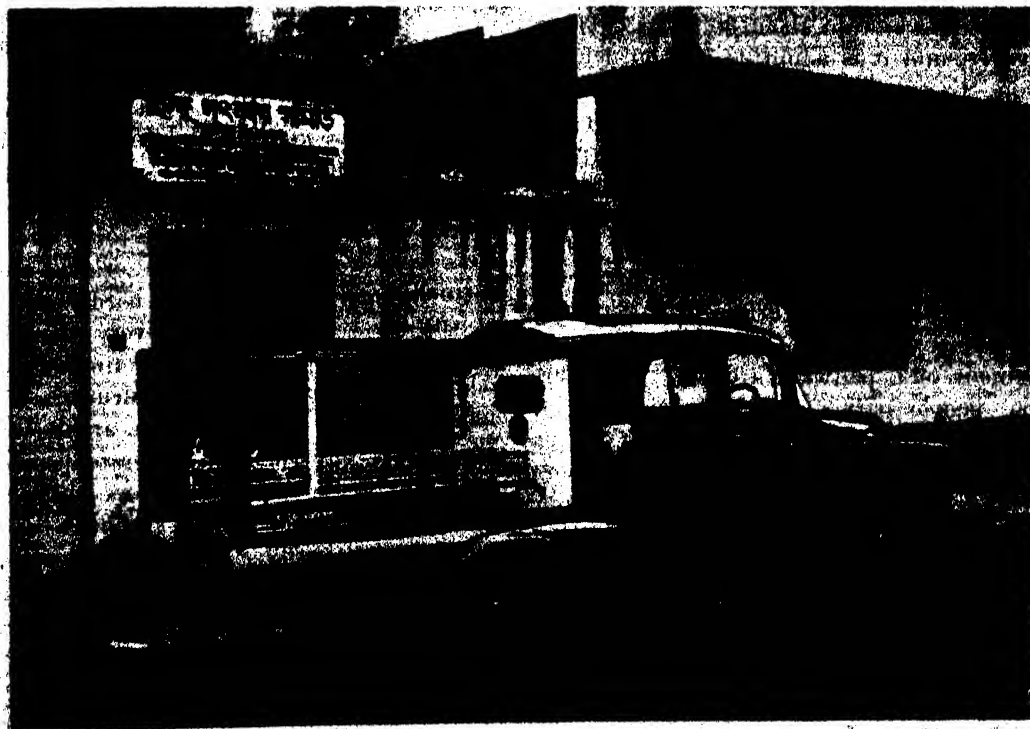

Samity moved the Government and the practice has been regulated to a great extent since then. The Samity's proposal for the constitution of a Board representing different organizations as well as Government representatives to regulate the supply of dead bodies for this purpose was agreed upon in a conference held in November, 1948. The Samity is, still in earnest, to regulate the number of dead bodies required for dissection purposes.

It was due to the untiring efforts of Councillors Indra Bhushan Beed and Kavraj Satyabrata Sen and the Ex-Mayors Sanat Kumar Ray Chaudhury, and Sir Hari Sankar Paul and other colleagues, both capital grant and annual grants-in-aid were assured by the Corporation since the year 1934-35. At first, services of voluntary workers were enlisted for carrying dead bodies but this was abolished with the introduction of motor vans in 1935. With this system it has now been possible to cope with the increasing demand for its services. At present there are five such vans including one with glass fittings.

It is a happy occasion to note that a building of its own was erected earlier, to accommodate workers, offices, and garages. The building owes its existence to Councillor Indra Bhushan Beed who first moved the Calcutta Corporation to let out five kattahs of land at 5, Sambhu Chatterjee Street, central part of the city. The land was made over on 99 years' lease with permission to erect pucca buildings. The building was completed in October, 1939, when two more vans were added.

Besides the lease-hold land the Samity was able to purchase another four kattahs at 98, Harrison Road, just adjoining the original site whereon a three-storeyed building was erected later on.

## OVER-CROWDING AND CRIME

[By B. V. Roy]

SOME TIME ago, an article was published in the Calcutta Municipal Gazette, entitled "Want of space" written by me. It dealt with only the physical aspect of the present excessively overcrowded state of the city. There is another aspect of this overcrowding—the psychological or sociological aspect, which was merely touched upon in that article, and now I am going to deal with that aspect. To a constant and critical reader of the daily newspapers, specially the columns of the Law Reports, certain trends are observable in the crime—pattern of Calcutta, as affecting the social structure, specially of the middle classes. These crime—patterns are basically nothing new: in a large and overcrowded city like Calcutta there are always thefts, burglaries, murders and so on, but in the matter of what may be called "social" crimes or sex-crimes, a distinct pattern can be observed, which has taken shape largely due to the factor of overcrowding. Let us see where the difference lies between the Calcutta of say 40 or 50 years ago, and the Calcutta of to-day, with its huge population crowded into an area of 28 square miles.

In each decennial census, it is found that the population of the city has gone on steadily increasing. This is a phenomenon that occurs in every large city in the world, and Calcutta is no exception. But in the last ten years, the population has increased steeply and by leaps and bounds. The census of 1951 gave the population of Calcutta proper at about 26 lakhs, and taking the out-lying areas into account the population of what is known as Greater Calcutta came to about 86 lakhs. These are huge figures, and it is admitted that in density of population, Calcutta holds the record among Indian towns, the figure being about 89,000 persons per square mile, or 139 persons per acre (within the municipal area). It is quite understandable that with such a teeming, jostling population crowded within an area of about 28 square miles, friction, violence and crimes are bound to occur. And they do occur—a quarrel arises over a trifling matter like taking water from a street-hydrant, or the non-payment of a panwalla's dues. The quarrel develops, people gather and take sides, then brickbats, stones, lathis and also perhaps knives come into play, and some people are killed, others are injured and sent to hospital. This, and similar occurrences, may be taken as quite normal in a city where 139 persons have to exist (I do not say "live") on every acre of available space.

It is when we come to the matter of "social" crimes, with special reference to the abduction, enticing away, kidnapping or using force against

women, that we begin to see how the impact of over-crowding is directly responsible for the largely increased number of such crimes. In an article published some time ago in a well-known daily newspaper entitled "some aspects of police problems in industrial areas" written by a highly placed police officer, the following significant remarks occur: "More alarming are the offences against human honour and dignity, and it is indeed a heartache that immoral offences are on the increase. . . .cases of abduction, kidnapping and outraging of modesty of fair sex are more or less common, specially in the industrial areas." From a careful study over a long period, of the cases reported in the newspapers, I can assert that besides the industrial areas, within the city, in residential areas as well, such cases occur too frequently.

If we try to dig into the root-causes of the increase in this class of crimes, we have at the outset to take into account the great sociological changes that have occurred within the last 30 or 40 years, viz., the emancipation of women and rise in their marriageable age. Previously, girls were confined within the 'zenana' and had hardly any opportunities of mixing with outsiders. Now-a-days all that is changed. Female education has increased by leaps and bounds, and the marriageable age of girls is anything between 16 and 30. So long confined within the rigid bounds of the 'zenana', girls are now-a-days going out of doors freely as well as going to school and college in ever larger numbers. Formerly they used to be married off at an early age, say within 12 or 18 at latest, but sociological and economic reasons have now done away with such early marriages. The ingrained romanticism, love of adventure, call it what you will, operates in the case of the girl who is lured by promise of marriage. Leaving aside the sophisticated, city-bred and at least partially educated women, who still form a small proportion of the total, we have a very large female population whose origins were in rural surroundings, and who have hardly any knowledge of city-life. I refer to the very large influx of refugees or displaced persons from East Pakistan who have come to live in Calcutta. They belong mostly to the agricultural or artisan classes, and are mostly ignorant and illiterate people, who fall easy prey to the expert swindlers and tricksters who abound in a city. These swindlers with specious manners are easily able to gain the confidence of these simple, gullible folk, and to cheat or harm them in various ways. With the present conditions of living, when a single house originally meant to accommodate a single family, is subdivided and let out to several families living huddled together in close contact, it is easy for a

co-tenant to pick up acquaintance with an adolescent girl living in a portion of the same house, and to lure her with specious promises of marriage, or perhaps to make her a film-star and then follow an elopement or a kidnapping. In the cases reported in the newspapers, I will invariably find the culprit young man responsible, described as either a co-tenant or a close neighbour, living next door. The modus operandi is almost always the same, the young man offers to take the girl to a film-show or to a temple, and goes off to a pre-arranged spot where they spend the night and the girl is kept confined. Sometimes in the Kali temple, a form of marriage is gone through, after which vermilion (sindur) is daubed on the forehead of the girl and she becomes the married wife of the kidnapper. Then they go away and live together as man and wife, until the police, at the instigation of the parents of the girl, appear on the scene and break up the happy home.

I have kept records of dozens of cases of a similar nature, and what strikes me most forcibly is that in most cases the girl must be a willing party. A strong, healthy girl of 15 or 16 years, if unwilling, could make an outcry or shout and struggle to escape from her captors, but in almost every case she submits meekly as a lamb led to the slaughter. I will quote from two cases: in one, a girl aged 16 left her father's house and went to live with a relative elsewhere, from which place she was kidnapped and kept concealed in a house in Calcutta, from which the police recovered her. She deposed before the Magistrate that she had left home on being rebuked by her father, and had gone to the office of the kidnapper (who was a co-tenant) and asked him to take her away. In another case, the youth met the girl going to school and proposed to take her away, to which at first she did not agree. Later when the youth promised to give her clothes and ornaments and to marry her, she agreed. They went to a hotel and then to the house of the aunt of the hotel-cook, where they spent the night. The youth daubed vermilion on the forehead of the girl and told her to say that she was his married wife, which she did. These, and similar cases, show that in most cases, the girl is an willing victim. Perhaps the underlying thought—process of the victim-girl are that either her parents are too poor to give her in marriage, or rather her parents are not sufficiently alive to the duty of giving her in marriage. Hence she takes advantage of the seducer's offer to take her away and marry her. Her life at home is drab and colourless, full of drudgery and she seeks an avenue of escape from the drudgery. There is also the element of romanticism, love, call it what you will, but which, crudely stated, is nothing but the sex-urge, which mother Nature has implanted in all of us to maintain the continuity of creation, at the root. It is Eve who hankers to eat of the forbidden fruit. Hence in most cases, the girl leaves home willingly and stays with the kidnapper as husband and wife, and when caught by the police, the kidnapper is sentenced to a long term of imprisonment, but this does not deter them from doing it almost daily.

## **CIVIC NEWS FROM FAR AND NEAR**

### **A WELL-EQUIPPED HOSPITAL AT BONGAON**

A 58-bed hospital costing over Rs. 6 lakhs was opened recently by the State Chief Minister, Dr. B. C. Roy at Bongaon, 40 miles from the city. Dr. Roy referred to voluntary contributions made towards equipping the hospital and said that however small the help, it underlined the need for collective efforts in nation-building activities.

### **T. B. WARDS**

A 20-bed T. B. Ward in Gethia Sanatorium, Naini Tal, will be constructed at a cost of Rs. 70,000 under an Union Government scheme to extend medical facilities to displaced T. B. patients. Three beds are being reserved in the S. B. Dey Sanatorium at Kurseong. A Segregation Ward at Arundhatinagar in Tripura will be constructed for 25 displaced T. B. patients at a cost of Rs. 48,700 soon.

### **MUNICIPAL BYE-ELECTION**

The bye-election for four seats in Ward No. 2 of the Hooghly-Chinsurah Municipality will be held towards the end of March this year.

### **BLOOD BANKS IN THE COUNTRY**

The State Government's 200-bed hospital at Jalpaiguri will soon have its own Blood Bank. It is a part of the State Health Director's overall plan for easing congestion in Calcutta Hospitals, Burdwan, Murshidabad and Midnapur are also expected to have similar facilities in future.

### **—THE HINDU SATKAR SAMITY**

(Continued from page 469)

To-day the activities of the Samity are not limited to the disposal of dead bodies alone. Humanitarian services of other kinds are also being undertaken. The Trustees of the Hindu Satkar Samity are also an identical body of the Trustees of Sri Sri Bhuteswar Temple at Nimtollah Burning Ghat and of Hindu Pilgrims Protection Society. A band of trained and selfless workers has added the grace of the Samity. The Samity rendered useful service in emergent occasions. It cremated 121 Air Raid victims, 457 Burma Evacuee victims, 6280 Great Famine victims, 1296 victims of the Great Calcutta Disturbances, 8801 dead bodies of East Bengal refugees.

During the last 25 years the Samity cremated 1,06,617 dead bodies of Hindus at an average of 4265 bodies annually. Average infectious cases (viz., T. B., Pox, Cholera, etc.) amounted to 1500 bodies annually.

**EMPLOYEES MADE PERMANENT**

List of temporary employees made permanent by Commissioner with effect from 30th November, 1956 in accordance with the resolution of the Corporation dated 1st October, 1956 and 14th December, 1956.

**EDUCATION DEPARTMENT—(Contd.)**

# CITY NEWS PARADE

**OBITUARY:** The death of Shri Sachindra Nath Mukherjee occurred at his Lower Circular Road residence, Calcutta, on Wednesday, the 6th March after a short illness. He was a Managing Director of Messrs. Martin Burn Ltd. He was 58.

The funeral took place at the Lower Circular Road crematorium later in the day.

Son of late Shri S. N. Mukherjee of Bhawal Sannyasi case fame in Dacca, the late Shri Mukherjee was educated first in Dacca and later in England. He joined the premier mercantile firm in 1926 as a Chartered Accountant and became one of the Managing Directors of the Company in 1955. He was also Chairman of the Indian Cable Company.

**DR. WILDER PENFIELD**, the well-known Canadian Neuro-Surgeon, reached the city on Wednesday, the 6th March for a short stay. During this period he visited the Department of Neurology in the Institute of Post-Graduate Medical Education and Research, Science College, and Seth Sukhlal Karnani Memorial Hospital. He also addressed meetings at the Medical College and the Karnani Hospital.

Dr. Penfield met the Chief Minister of West Bengal, Dr. B. C. Roy, on the next day. He discussed with Dr. Roy about the setting up of an Institute of Neurology in the city.

Dr. Penfield left for Burma on Friday, the 8th March after completion of his three-week visit of India.

**HAZRAT ALI IBNE ABI TALIB'S** 1400th Birth Anniversary was celebrated in the city by the women of the Dawoodi Bohra community on Tuesday, the 5th March. The late Hazrat Ali was the son-in-law of the Holy Prophet of Islam. A function was held in that connection at the Jamat-khana in Pollock Street wherein the State Governor Shrimati Padmaja Naidu presided. Among those who spoke were Mrs. Zubeday Tayebjee Sepoy, Mrs. Sakinabaisaheba, Mrs. Zarina Kaiyoombhai, Miss Zubeda Esrailjee Alibhai, Mrs. Fatema A. Khairulla, Mrs. Shamim Zehra Begum, Mrs. Taj, Mrs. Ali, Mrs. Chopra, and Miss Bilkhilbaisaheba.

**LT. GENERAL SHANKAR PENDURANG PATIL** THORAT D. S. O. assumed the appointment of General Officer Commander-in-Chief, Eastern Command, during this week in the city from Lt. General K. S. Thimayya, D. S. O., Chief of the Army Staff designate.

Lt. General Thorat was commissioned in 1926 from Sandhurst, and joined the 1/14th Punjab Regiment. After active service in the North West Frontier operations, he held staff appointments at General Headquarters. Promoted Brigadier in 1946 he was appointed Deputy Director of Personal Services in the Adjutant General's Branch at GHQ. Lt. General Thorat was successively G. O. C., Delhi area and the East Punjab Area, until he came over to Army HQ as Chief of the General Staff in April, 1950. In 1953, he went to Korea as G. O. C. of the Indian Custodian Force.

He won two awards—the Ashoka Chakra class II for conspicuous gallantry and Padma Vibhushan Tisra Varg for meritorious service in Korea.

The appointment was in succession of the vacancy caused by the Chief-of-staff's leave just preparatory to retirement.

**DAPHNE, A PORT COMMISSIONERS' LAUNCH** met with a fateful disaster on the early morning of Monday, the 4th March, soon after a bore had passed in the river. Nearly sixteen persons lost their lives. The launch was generally used in carrying Assistant Harbour Masters, Pilots, and other staff to and from port work. It left Takta Ghat with some members of the mooring gang for the Calcutta Jetty, and within a few minutes hit a buoy and capsized.

The mooring gangmen were proceeding to the Calcutta Jetty to assist the crew of a Russian ship, the anchor chain of which had snapped during the bore. Some of the survivors were eventually helped by a Port Commissioners' launch which went to their rescue.

Diving operation to salvage the launch, which was located a few hundred yards from the buoy against which she struck, were undertaken by the Port authorities on the same evening.

**AN EXHIBITION OF LIVESTOCK & VEGETABLES**, sponsored by the Extension Wing of the State College of Agriculture, was opened at the College Farm in Tollygunge, on Wednesday, the 5th March by Shri Rajani Kanta Naskar, a school teacher of Garia and a farmer.

The extension unit which was financed by the Ford Foundation, laid emphasis on the education of farmers in the adoption of modern methods of cultivation, application of manure and in improved breeding of livestock. Cultivators were also taught plant protection work there.

The area the Wing served was mainly vegetable-growing, and the exhibits included some varieties of vegetables, eggs and poultry, many of which received prizes for size and quality. The show amply illustrated the effects of the introduction of improved strains in poultry and cattle breeding.

**WORKERS' EDUCATION** in relation to Trade Union movement, was focussed when the foreign and Indian experts appointed by the Union Government to study different aspects of education, arrived in the city on Sunday, the 24th February. Among the experts were Professor A. Luchek, Mr. E. Bacon, Mr. K. Larsson, Mr. P. Knight, the Rev. Fr. A. Fonseca of the Social Institute, Poona, and Mr. A. S. Iyengar, retired Labour Commissioner, Bombay.

During their stay in the city the experts met the State Chief Minister, Dr. B. C. Roy, Shri K. P. Mukherjee, Labour Minister, and representatives of some educational and industrial organizations.

# CORPORATION NOTICES

**VITAL STATISTICS**

For the City of Calcutta for the week ending  
2nd March, 1957.

**CITY OF CALCUTTA (TOWN AND ADDED AREAS.)**

The total number of deaths registered during the week was 940 against 840 and 885 in the two preceding weeks and higher than the corresponding week of the last year by 341. The general death-rate of the week was 16.69 per mille.

**TOWN (WARDS 1—27.)**

The number of deaths registered during the week ending 2nd March, 1957, was 748 against 630 and 663 in the two preceding weeks. There were 4 deaths from cholera against 3 and 8 in the two preceding weeks. There were 91 deaths from small-pox during the week against 88 in the previous week. There was no death from influenza against nil in the previous week. The mortality from fevers and bowel-complaints amounted to 27 and 56 respectively against 16 and 42 in the preceding week. The general death-rate of the week was 16.99 per mille per annum.

There were 58 imported deaths. Excluding these, the death-rate of the Town was 15.67.

There were 163 deaths from respiratory diseases against 106 in the previous week.

There were 33 deaths from tuberculosis against 32 in the previous week.

**ADDED AREAS (WARDS 28-32.)**

The number of deaths registered was 192 against 210 and 222 in the two preceding weeks. Of these, nil was from

cholera, 10 from small-pox, nil from influenza, 4 from fevers, 26 from bowel-complaints and 30 from respiratory diseases. The death-rate of the added areas was 15.63 per mille.

There was nil imported death. Excluding this, the death-rate was 15.63.

There were 6 deaths from tuberculosis against 9 in the previous week.

**CALCUTTA MERCHANT CHAMBER OF COMMERCE.** The Golden Jubilee of the Merchant Chamber of Commerce was celebrated on Saturday, the 23rd February celebrated its Golden Jubilee on Saturday, the 23rd February last. Its President, Shri C. M. Shroff, organised a meeting for celebrating the occasion which was attended by a large number of distinguished men in the city.

Shri I. D. Jalan, Minister, West Bengal, drew the attention of the business community to the great changes that were taking place in the country and to develop appropriate attitude.

The Deputy Mayor, Dr. Amar Nath Mukharjee, in his address, drew the attention of the members of the Chamber to the fact that the golden jubilee was being celebrated at a time when India had just launched upon her 2nd Five-Year Plan in order to bring about a socialistic pattern of society. He had no doubt that the Chamber would show the same resilience and wisdom as it did in the past in building up the tradition during those hectic days when the nation was struggling for political emancipation.

Presiding over the function Shri K. P. Khaitan appealed to the business community to be fair in their trade dealings and always to keep in their view the interest of the public.

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow and badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supdt., S. S. Hogg Market.

### COMMISSIONER'S TERM EXTENDED

The Corporation at its weekly meeting on Friday, the 15th March, recorded the approval by the State Government the renewal of the term of appointment of Shri B. K. Sen, as Commissioner, Corporation of Calcutta, for a further period of five years with effect from the 1st May, 1957.

This was intimated to the Corporation by the Government of West Bengal, Local-Self-Government Department, through a letter dated the 6th March. The Joint-Secretary of the Department stated 'that the Governor is pleased to approve under the proviso to Sub-section (2) of Section 19 of the Calcutta Municipal Act, 1951, the proposal of the Corporation for renewal of the appointment of Shri B. K. Sen as Commissioner, on the existing terms as regards his emoluments and other conditions of service'.

It may be recalled here that the Corporation at its meeting dated the 16th December last, recommended to the Government the extension of appointment of Shri Sen for another term of five years.

The House extended its warm felicitations to Shri Sen on this occasion. Individual felicitations also went to Shri Sen by the Mayor, Shri Satis

Chandra Ghosh and many other Aldermen and Councillors present on the occasion.

During these five years Shri Sen had done a lot of work for the improvement of the city. The recent improvement of the city parks and squares, improved lighting arrangements as well as better conditions of the city streets and roads were mainly due to his untiring efforts. The present look of many of roadside shops is the result of his attempt for a 'Beautiful Calcutta'.

Besides, he had introduced a number of new systems in the office administration, particularly for the automation and simplification of many of the office procedures so long involved either duplication of work or found unnecessary to follow at present. With a keen interest for improving the lot of the Corporation personnel as well as for providing better environs for them he had worked hard during these years.

According to Shri Sen, the Peons, Orderlies, Duffries and other subordinate staff will be termed as 'Juniors'. The Commissioner has further desired to start night schools in the Central Municipal Office Buildings, S. N. Banerjee Road, with a view to promote education among those 'Juniors' so that they might appear and pass the School Final examination and might qualify

**LILY**  
Brand  
**BARLEY**

**IDEAL FOOD, DRINK & DIET**

**LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA**

themselves for promotion to higher appointments.

We also offer our best wishes to Shri Sen on this happy occasion.

### NEW ELECTION RULES

The House, on the suggestion of the Mayor, Shri Satis Chandra Ghosh, agreed to request the Government of West Bengal, Local Self-Government Department, to modify a recent amendment of the Corporation Election Rules wherein the Government had reduced the last date of submission of nominations for the General Municipal Election from one month to ten days earlier to the date of Election.

This decision was taken by the members when the House was asked to record its approval on the above amendment being moved by Councillor J. K. Chaudhury. The majority of the members maintained that it would cause inconvenience to the new candidates while the sitting contesting members might be benefited a little. Some of them attributed this to be against the fundamental rights of the citizens in a Democratic State.

Councillor Saibal Gupta, I.C.S., Chairman, C.I.T., pointed out that the amended rule should not be made a permanent feature.

The amendment was in contrast to a recent suggestion of the Corporation opposing the common practice of allowing clear thirty days time before election for the contestant in filing his nomination paper. But on this occasion that practice has given a good-bye and even that breathing time has been narrowed to ten days. The last date for filing nomination papers by the prospective candidates being fixed on the 18th March this year by the Government also came for noting by the House at that weekly meeting.

Thus the city will witness another series of demonstrations in the ensuing Corporation Election. 'Vote for.....' will be raised again by a thousand throats. Speeches and processions will be the main features of the city's life. Instead of an adult franchise the election will be held on a limited franchise. The 1.95 lakhs of voters are recruited mostly from the persons having property or educational qualifications. Those paying taxes on trades and professions as well as those having rent receipts higher than a prescribed limit will also exercise their franchise in the forthcoming civic election.

The life of the present Corporation cannot be extended beyond the 31st March in an usual way and the new Corporation must be set up on the 1st April, hence the short margin of dates. The countrywide general election had also put a bar in this year to allow usual one month time between the last date of filing nomination papers and the date of holding the election. As soon as the last date for filing nomination papers was announced by the State Government through an extra-ordinary issue of the 'Calcutta Gazette' on the 9th March last, the Corporation Election Officer lost no time in appointing the Returning Officers for accepting the papers.

Nomination papers have begun to be accepted by officers on and from March 10. By Friday the 15th March quite a number of nominations were filed, but most candidates will file theirs on

March 17 and 18, the last two days of the period fixed for the purpose. Scrutiny will take place on Wednesday, the 20th March as fixed.

Brisk preparations are also being made by the political parties to fight out the election. As in the general election it is expected that the ruling majority party in the Corporation namely the Congress Municipal Association will face the United Citizens' Committee known as U. C. C. who will try to strengthen their numbers with further recruits. A good number of independent candidates will also appear in the field.

### ADULT FRANCHISE IN LOCAL BODIES

The following was published some time ago in the local press which might be taken as an indicator for moulding the future of Local Bodies in the Indian Union.

Elections to District Boards, Municipalities and Union Boards will, in future, be held on the basis of adult franchise in East Pakistan, according to the decision of the East Pakistan Government. Women who were debarred from standing as candidates for elections to local bodies though allowed to vote, have been given the right to seek election.

The elections, like those for the legislatures, will be held on the ballot system.

Local Self-Government in almost every civilized country has been defined as that part of the Government of the country which is carried on by local bodies such as the Panchayats, District Boards, Municipalities and Corporations. Although adult franchise was first introduced in this country earlier than Pakistan, still a limited franchise in the election of local bodies has not been widened to the system of adult franchise due to several reasons. Local Self-Governments had undergone a vast change under the British rule. But the Calcutta Corporation, and other premier Corporations have been debarred from the privilege of adult franchise although it was a long cry since the days of Montego-Chelmsford Reforms. After the attainment of independence when a new Act was introduced by replacing the old one in respect of the Calcutta Corporation, the long desired concession was not conceded to even then.

### FELICITATION TO SHRI TRIDIB CHAUDHURY

The Corporation at its meeting on the 8th March last offered its felicitations to Shri Tridib Chaudhury, M.P., on his release from the Goa Jail where he was imprisoned in connection with the Goa Liberation Movement. A countrywide agitation was also raging then.

A motion was tabled earlier by Councillor Dr. K. P. Ghosh, for arranging a Reception to Shri Chaudhury. The above decision was taken on the suggestion of the Mayor, Shri S. C. Ghosh.

It may be recalled here that the Corporation in one of its previous meetings renamed the Portuguese Church Lane as Tridib Chaudhury Road.

# THE CORPORATION AT WORK

A LIST OF PROCEEDINGS OF THE THIRTY-FOURTH ORDINARY MEETING OF THE CORPORATION HELD  
ON THE 8TH MARCH, 1957.

## STREET ACCIDENTS

The increasing number of street accidents in the city have caused much anxiety to the City Fathers at present. Referring to an accident at the crossing of Chowringhee and Kyd Street where a private car and a State Bus had run into the guard rail in recent weeks, Councillor Bejoy Kumar Banerjee suggested that more powerful lamps should be used on insufficiently-lit streets to prevent such accidents. He urged that without going through formalities the Mayor should take prompt steps in the matter. At the same time Councillor Banerjee admitted that the lighting arrangements in the city had much improved during recent years. The improved arrangement, if implemented, would sure to avoid the avoidable accidents in the city.

## SUPPLEMENTARY BILLS

A large number of Supplementary Bills has been issued by the Assessment Department during the close of the current financial year. This has caused much resentment among the rate-payers in the city who would be hard hit in paying them off. This was pointed out by Councillor J. L. Saha, M.L.C., who wanted that the House should direct the Department concerned either to recall them at an early date or to treat them as issued in the beginning of the next financial year.

The Mayor, Shri Satis Chandra Ghosh, who was in the chair, requested the Commissioner to enquire into the matter. As these Bills related mainly arrears long due, the Mayor suggested that those issued before the 15th February, should be realised within the year. And those issued after that date might be deemed as issued on the 1st April, 1957.

Councillor S. K. Gupta, I.C.S., Chairman, C. I. T., also suggested some procedure in this regard as provided in the existing Municipal Act.

## ASSESSMENT PROCEDURE

Some lacunae in the present Municipal Act as regards procedures for Assessment of Bustee huts was pointed out by Councillor Rabindra Mohan Chatterjee. He said that the procedure followed was not only illegal but also irregular. The Assessment procedure cannot be followed unless the assessee is present. But the Corporation practice has been deviated and the huts are assessed in the absence of the hut dweller who

cannot represent his case as no 'Notice' is ever served upon him and thus he has to bear the burden of taxation, emphasized Councillor Chatterjee.

## RE-NAMING OF A LANE

The House re-named Wellesley First Lane in the central part of the city, Ward No. 51, as Abdul Ali Row. This was also recommended by Borough Committee No. 11.

The late Nawabzada A. F. M. Abdul Ali, was the youngest son of the late Nawab Bahadur Abdul Latiff, C.I.E., one of the pioneers of Muslim Education in Bengal. The late Nawab-

## APPOINTMENT OF CHIEF ENGINEER

In connection with the extension of service of Shri A. K. Sen, Chief Engineer, the Corporation at its weekly meeting on the 22nd February last, passed the following resolution:—

In view of the fact that it will take some time to finalise the Regulation relating to Service Rules of Principal Officers as framed by the Public Service Commission and to get the final approval of the State Government to the same, Shri A. K. Sen, Chief Engineer, be granted an extension of service for one year with effect from the 3rd February, 1957, on the ground of marked and special efficiency and in the interest of Corporation Service, subject to the certificate of the Health Officer, regarding his physical fitness.

The report published regarding the above appointment in the 'Gazette' of the 2nd March, was made inadvertently, and we regret for the same.

zada was born in 1880 A.D. After completing his education he joined the Bengal Civil Service. For some time he was Keeper of Records, Government of India. Subsequently, he was appointed the Secretary of the Historical Records Commission. Later on as a Secretary to the Trustees of the Indian Museum he rendered valuable services. The late Nawabzada was a regular contributor on historical subjects in many of the journals. By his amiable disposition and sweet manners he won a large number of friends of all communities. He died in 1947.

## BUSTEE PLANS APPROVED

The House, on the recommendation of the Standing Town Planning and Improvement Committee, approved Standard Plans for construction of Bustees in the following sites:—

- (1) 1, Sarbakhn Road, and
- (2) 40, 42, 43, 44 and 45, Upendra Banerjee Road.

## NEW BOOKS IN UNIVERSITY LIBRARY

The University Grants' Commission has sanctioned Rs. 50,000 for the purchase of books and periodicals on humanities by Calcutta University during the current financial year. About 4,000 volumes will be purchased out of this sum as an addition to the existing collection of nearly 200,000 books in the University's Central Library.

**SINKING OF TUBE-WELLS**

The House, on the recommendation of the Standing Town Planning and Improvement Committee, approved the following sites where three large diameter tube-wells would be sunk by the State Government for dual purposes namely fire-fighting and augmentation of filtered water in the city :—

- (1) Junction of Bagbazar Street and Chitpur Road,
- (2) Raja Brojendra Street near Sunderi Park, and
- (3) Junction of Golf Club Road and Russa Road, Tollygunge.

**A NEW PARK**

The House, on the recommendation of the Standing Town Planning and Improvement Committee, decided to convert an open Corporation land measuring about one bigha and 15 kottahs into a park. The site of the land is at the junction of Rifle Road and Tiljala Lane under Ward No. 60.

**NEW MARKETS**

The House, on the recommendation of the Standing Public Utilities and Markets Committee, declared a number of sites in the city as open markets. The declaration of the Markets was based upon the reports submitted by the License and Health Departments of the Corporation.

**NEW ROADS AND ALIGNMENTS**

The House, on the recommendation of the Standing Town Planning and Improvement Committee, declared many of the places as open roads and common passages.

**THE WORLD OF BOOKS**

**CALCUTTA UNIVERSITY :—**(A picture of progress made during a Century) By SHRI BIMALENDU KAYAL, M.A., Published by Messrs. Kayal Pustak Prakasani of 9/1M, Dr. Suresh Sarkar Road, Calcutta—14, Price Rs. 3/- only.

Written in Bengali the book is a possible brief history of the development and attainments of the University of Calcutta during the last one hundred years. The appendix of the book has added a few things more and the most notable one is the full text of the Convocation Address of the Poet Rabindra Nath Tagore, the first ever delivered in Bengali. Besides, a number of portraits of the noble sons of this University has added the grace of the volume.

Contained an interesting history of the development of western education in this country the book carries messages of the great educational reformers who flourished during the first century in the life of our Alma Mater. Though not a storehouse of information regarding the University for which one has to look forth for the Centenary Volume, still the book can safely be recommended to those who want to have a glimpse into the past as well as the present of the University. A wide circulation of the volume would no doubt satisfy all interested in the education of a backward country like ours.

**DEATHS AND DISEASES IN THE CITY**

Attacks and deaths from small-pox in the city during the week ended the 9th March were 259 and 110 respectively against 154 and 101 during the week previous. Among the number of deaths there were 17 imported cases during this week against 22 in the last.

During the corresponding fortnight last year attacks and deaths numbered 3 in each case.

There were 12 cases of attacks from cholera during the week against 6 during last week. Deaths numbered 4 in each of these two weeks. There were same number of attacks and deaths during the corresponding fortnight last year numbering 6 in each case.

Malaria took only 2 lives while Typhoid was responsible for 10 deaths, against 6 and 8 deaths respectively during the previous week. Almost a similar number of deaths occurred during the corresponding weeks last year.

Tuberculosis tolled a heavy number of deaths, figure being 85, during the week against 89 in the previous week. 73 persons died of this disease during the corresponding fortnight last year.

Deaths from all causes reached a four digit figure of 1019 during the week against 940 during previous week while a total of 1094 persons died of various diseases during the corresponding fortnight last year.

**FIRES, ACCIDENTS, ETC.**

The owner and the mechanic of a motor repairing shop on Chowringhee Road, Calcutta, received burns in a fire there and were taken to hospital on Thursday, the 7th March last while carrying on repairs to a lorry with the help of a candle. The lorry's engine first set on fire and it quickly spread to another lorry in the workshop, stores containing petrol, mobile oil and motor accessories. The workshop, a bamboo structure with corrugated roofing, collapsed and the two lorries were destroyed.

Sixteen calves lost their lives and many others received burns on the same day when a shed and a stack of 'darma' caught fire at South Kustia Road and South Topsia Road crossing near No. 4 Railway Bridge. About 90 calves were kept in an enclosure which was engulfed with devastating fire. Two pumps of the Fire Brigade fought the fire.

Part of a pillar supporting a shed on the roof of a three-storeyed building fell on to a 55-year-old man, Behar Lal Das, and killed him on Saturday, the 9th March last. Shri Das, was standing near the outer wall of an adjoining building on Lower Circular Road.

The shed was built about a year ago along the roof wall on the side of the building. It was being used as a bathroom by a tenant living in rooms with asbestos roofing a few yards from the shed.

## CALCUTTA GOES TO POLLS

### GREATER CONSCIOUSNESS AMONG CITIZENS

MARCH 14, will be remembered long as a day when the citizens gave their verdict in selecting their representatives who would have a voice in moulding the country's destiny. Great was the enthusiasm on this occasion—comparatively higher than 1952's—when about 17 lakhs of electors voted for 26 Assembly and four Lok Sabha Seats in a city of nearly 30 lakhs. The day was also marked as the concluding day of polling in the State of West Bengal.

The contest in almost all the constituencies were between nominees of the Congress, the ruling political party in the country, and those of the United Leftist Election Committee formed by five major opposition parties in the State Legislature.

A heavy polling cannot be claimed on this occasion still an average of 50 per cent. of the electorate participated in voting. In constituencies namely Bowbazar, Baranagore, Tollygunge, and some other areas polling possibly exceeded 60 per cent. of the electorate.

As a battle ground of big party leaders the city was subjected to incessant clamorous campaigns for the last three months. There was a veritable flood of 'manuscript posters laboriously executed in English, Bengali and Hindi' demanding recognition from all on the long awaited day. Thousand voices rent the air with the slogan 'vote for'. And probably the city has witnessed a heavier concentration of voters and their representatives than any other city in India.

Except a few stray incidents the day passed peacefully. There were larger concentrations of people around the polling stations—volunteers, voters and sight-seers. The approach roads to these polling stations were festooned and the walls plastered with the candidates' posters. There were also camps set up by the contesting candidates at a distance outside the statutory limits. These camps were the hives of activities during the voting hours which started at eight in the morning till five in the evening with an hour of recess during mid-day.

### PEOPLE IN THOUSANDS RUSH TO POLLING STATIONS

To exercise one's franchise is not only the faithful duty of a citizen but also to select one's own man who is supposed to possess a hand to fashion the law of the land as well as to weave the pattern of future administration is a task to be fulfilled by everybody in a Democratic State. And this consciousness among the citizens was amply witnessed on this occasion when a far more smooth and peaceful vote manoeuvring was held than it was five years ago.

Another thing which occupied everybody's mind was that a larger number of people exercised their franchise than before. Not only the young took it in romantic interest but came also the old and the infirmed. Thousands stood in long queuing before the polling booths. They waited patiently till each one's turn came. Even the blinds exercised their rights with the help of the officials. Shri Sadhan Gupta, a blind candidate for re-election to the Lok Sabha from the Calcutta East Constituency, refused to share his choice with the Presiding Officer whom he requested only to let him know the arrangement of the ballot boxes of the candidates. In Taltolla area, an 80-year-old near-blind woman showed similar independence. The Presiding Officer of one of the booths had helped about 20 blind and invalid voters to put their papers into ballot boxes.

Most of the voters walked to polling stations. Some people came in their own cars and old men and women, accompanied mostly by their grandchildren, travelled in taxis or rickshaws.

Women voters and volunteers seemed to take a more lively interest in the polling than men. Enthusiastic youngsters, wearing different party badges, besieged voters on their way to booths, urged them to vote for particular candidates and showered them with propaganda literature and advice. Still a friendly atmosphere prevailed among these youngsters even when they were canvassing for opposed political parties. But their advice carried little value to voters, as most of whom had already made up their minds.

The considerable rush to vote in most constituencies from the beginning compelled people to stand in queues for a long time. This was also accompanied by a system of issuing identity slips before voters entering booths. The new system of putting one's signature in the identity slips had added to the delay.

#### A BRISK POLLING

Polling at many stations in North Calcutta was brisk in the morning but slackened in the afternoon. With the progress of the day the number of voters increased. By 10 A.M., the voters overflowed into the streets. Women turned up

in large numbers to exercise their franchise. There were some booths, however, where a last-minute rush occurred and polling time had to be extended to accommodate those who had joined queues before 5 P.M.

#### A PUBLIC HOLIDAY

The day was declared as a public holiday by the State Government. Factories and other pri-

vate institutions were also closed towards the latter part of the day. Elaborate arrangements were made by the police to maintain peace in the city. The walls across roads within prohibited distances from the polling stations were cleared off posters and festoons. The services of about 11,000 policemen were enlisted. Many women employees of the Government were detailed for duties at polling stations in these areas.

### HOW CALCUTTA CITIZENS VOTED

Situated in the heart of Calcutta, Bowbazar Constituency had a cosmopolitan character. Of 68,229 voters, about 29,000 are Muslims while Chinese, Parsees, Christians and Jew formed a sizeable minority. Many of the Muslims are petty traders, vendors, ricksha-wallas and cart-pullers. Thousands of posters, long queues of men and women outside polling stations, an impressive mobilization of volunteers and large crowds with excited faces on pavements in Bowbazar were signs of the great enthusiasm that the fight between the State Chief Minister, Dr. B. C. Roy and the Communist candidate, Mohammed Ismail, had aroused. The only other candidate, Shri Mahendra Kumar Ghose did not seem to have made any impression on the electorate.

In the northern side of the city Councillors Ganapati Sur, Nandalal Banerjee and Shri Ganesh Ghosh, M.L.A., fought for one seat in the Belgatchia area.

In the Burtolla North Assembly Constituency a straight fight between the Ex-Mayor Shri Sudhir Chandra Ray Chaudhuri and Prof. Aparesh Bhattacharyya was held.

In Shampooker, the candidates were Shri Hemanta Kumar Basu, M.L.A. and Shrimati Reba Sen for the Assembly seat.

Shri Mohit Moitra, M.P., Shri Asoke Sen and Shri Sanjib Kumar Chaudhuri were the candidates for the Lok Sabha seat in the above areas.

#### NORTH-EAST PARLIAMENTARY SEAT

Over 20,000 workers, mostly non-Bengalees, of 54,692 voters were an important factor in the fight for the Taltolla Assembly seat between the Ex-Mayor, Shri Naresh Nath Mookerjee, M.L.A., and Councillor Dharendra Nath Dhar. Sardar Md. H. Ansari, an Independent split some workers' votes.

In Muchipara where there were 58,081 voters Shri Pratap Chandra Chunder was the main opponent of Shri Jatin Chakravarti. A third candidate, Shri Dhiren Bhowmick, a Corporation official, appeared to have taken away some votes.

In the Vidyasagar Constituency one of the most interesting battles of the day was fought. A straight contest between Shri Sankar Prosad Mitra, Judicial and Revenue Minister and Dr. Narayan Roy, M.L.A., was held.

There was another straight fight in the Sukea Street Constituency between Councillor Shiv Kumar Khanna and Shri Suhrid Mullick Chaudhury, M.L.A. In Beliaghata area the Ex-Councillor Bidhubhusan Sarkar met Shri Jagat Basu. Councillor Bhabesh Chandra Das was one of the contestants in the scheduled seats who fought with

Shri Pulin Behary Khatick, M.L.A. There were other contestants.

In the Parliamentary Constituency in the area, the contestants were Prof. Hiren Mookerjee, M.P., Dr. Nalinakshya Sanyal and Shri S. C. Roy.

#### CALCUTTA EAST CONSTITUENCY

Shri J. C. Gupta who had the privilege to represent his constituency for the last two decades was given a stiff opposition this time by Dr. A. A. M. O. Ghani in the Entally Constituency. About 50 per cent voters polled their votes.

In the Bhowanipore Constituency, because of as many as five candidates for one seat, there was considerable splitting of votes. Shri Sidharta Ray, Shrimati Saila Sen, Shri Soumiendra Nath Tagore, Shri Dwijendra Nath Bose, and Shri Ajoy Kumar Banerjee were the candidates for the seat.

In Ballygunge the main contestants were Shrimati Mira Dutta Gupta, M.L.A., and Dr. Jnanendra Majumdar. In the Rash Behary Avenue area the main contest was between Shri Priya Ranjan Sen M.L.A., and Shri Sunil Das. The Ex-Councillor Shri Debajyoti Burman and Shri Biswanath Dubey were the other candidates.

Hectic election activities were witnessed in Tollygunge Constituency where the number of voters was the largest of all city constituencies, being 99 thousands. Shri Haridas Mitra, Shri Jyotish Chandra Joardar, the sitting M.L.A., Shri Jiban Lal Chatterjee and Shri Bidhu Bhusan Ghosh were the contestants. A large number of voters seemed to have favoured Shri Sadhan Gupta, the sitting M.P. The other candidates for the Parliamentary seat were Shri Ranadev Chowdhury and Shri Sunil Krishna Roy Chowdhury in this area.

#### SOUTH-WEST PARLIAMENTARY SEAT

Election was rather a tame affair in the Chowringhee area where Shri Bijoy Singh Nahar, M.L.C., Haji Md. Ariff and Janab Samsul Huque, M.L.A., fought for one seat.

The main fight in the Kalighat constituency lay between Shrimati Manikuntala Sen M.L.A., and Shrimati Bibha Mitra. There was an independent candidate, Shri Ajit Kumar Hazra, in the field.

In Alipore, Shri Hem Nath Sanyal faced Shri Somnath Lahiri although there was an Independent candidate, Shri Nirendra Chaudhuri.

In the Calcutta South West Parliamentary seat the choice was among Shri Ashim Krishna Dutta, M.P., Shri Biren Roy and Shri Rajani Mukherjee.

**EMPLOYEES MADE PERMANENT**

List of temporary employees made permanent by Commissioner with effect from 30th November, 1956 in accordance with the resolution of the Corporation dated the 1st October, 1956 and 14th December, 1956.

## CITY—NEWS—PARADE

**THE BUDDHIST ART EXHIBITION** was opened at the Indian Museum, by the Governor, Shrinati Padma Naidu, on Monday, the 11th March.

The Exhibition will long be remembered in the city for its freshness of approach. The city has already seen many exhibitions on the life of the Buddha, but the present one has tried to depict art and sculpture that flourished in different countries including India, focussing on the life of the Lord.

The exhibits numbering nearly 1,000 related to a rich and colourful account of the development of Buddhist Art in India and abroad. They are from such participating countries as China, Vietnam, Thailand, Ceylon, Cambodia, France, Great Britain, Netherlands, U.S.A., Japan, Indonesia, Hungary, Nepal, Bhutan and Sikkim.

A replica of the Lumbini Pillar is to be seen on the gate of the Museum and then follows a series of sculptures of the Sunga, Gandhara, Kushan, Gupta, medieval and later medieval periods. There are also two illuminated maps showing the spread of Buddhism and the routes taken by the early Chinese pilgrims. There are a number of bronze and ivory images and 25 panels, the handwork of modern artists, depicting different phases of the Buddha's life.

But the most colourful and attractive sections in the Exhibition are those of India's four northern neighbours. In these sections are several very old manuscripts, including a biography of Lasam Nankha Jigne, one of the most revered saints in Sikkim, a history of the Mahayana Tantric Buddhism, and another, of comparatively later date, written in pure gold.

**NATIONAL COUNCIL OF EDUCATION'S** Foundation Day Celebrations came off on Sunday, the 10th March. In that connection a function was held at the Jadavpur University campus. A large number of distinguished scholars were present. The opening of a new building of the Arts and Science College, Jadavpur University, by Shri N. K. Sidhanta, Vice-Chancellor of Calcutta University, was the principal feature.

Addressing the gathering Shri Sidhanta referred to the importance of the co-ordination of the Faculties of Arts and Science with the Faculty of Engineering and Technology which Jadavpur University had accomplished. This co-ordination, gave a glimpse of a great future for the country as a whole.

Shri Sidhanta said that Jadavpur University could look back to a great past and forward to a greater future. It was the desire of the founders of Jadavpur Engineering College that the institution should not remain an isolated unit, but should be a complement of a College of Arts and Science. A college of science and of technology could never complete the purpose of education without a proper study of social sciences and humanities.

Shri S. S. Bagchi, Honorary Secretary of the Council, described the opening of the arts and science college as a rebirth of the Bengal National College. Referring to the circumstances in which the National Council of Education was founded on March 11, 1906, by some who were imbued with lofty idealism and patriotism, he said, the Council founded the Notional College of Education with the object of giving a national outlook to students in a prevailing denationalised environment. It was a comprehensive scheme to give a liberal, scientific, technical and professional education.

Dr. T. Sen, Rector of the Jadavpur University, said that the large number of students belonging to modern India were in many ways superior to those of his days and individually they were in no way inferior to the students of any country.

**ALL-BENGAL WOMEN'S UNION** arranged an Exhibition of the handicraft products of about 300 women and children inmates of the Homes. They were on show in the compounds of the 300 Club in Theatre Road, Calcutta, on Thursday, the 7th March last.

Mrs. A. F. Morley, wife of the U.K. Deputy High Commissioner, opened the show. She also praised the good work being done by the Union. The Union was putting knowledge and self-reliance into children, and hope and courage into grown-ups whose lives had been wrecked by personal misfortune or general catastrophes.

The handicraft products included handloom materials, ceramic goods, printed saris, toys, and, "things of obvious and immediate use." The quality of the products was comparable to the best available in the market.

**DEMONSTRATIONS:** Besides the main demonstration in the city which was in connection with the general elections, there were a few more ones worth-mentioning. A large section of students in the city abstained from their classes on Friday, the 8th March last, in sympathy with the 16 students of the Calcutta Engineering College, who had been on hunger-strike in Wellington Square for the last five days demanding recognition of their institution by the State Council of Engineering and Technical Education.

Extending their support to the students they went in procession to Wellington Square and held a meeting there. The meeting adopted a resolution demanding immediate recognition of the College and criticizing the Education Department's delaying policy in this respect.

The students broke their fast on a later date when an assurance was given to them on behalf of the Government that their grievances would be looked into.

### MUNICIPAL SERVICE COMMISSION

#### NEW APPOINTMENT

**SUB:—**Appointment to a permanent post of License Officer, Corporation of Calcutta, in the scale of Rs. 500—25—750 plus Motor Car allowance of Rs. 150/- per month.

Following the recommendation of the Municipal Service Commission in their letter No. 914 M.S.C/1D/15/56 dated the 31st October, 1956 the Standing Finance Committee at its meeting dated the 28th February, 1957 made the following appointment:—

"That accepting the recommendation of the Calcutta Municipal Service Commission, Shri Ajit Kumar Dutta be permanently appointed as License Officer on Rs. 500 per month in the grade of Rs. 500—25—750 plus Motor Car Allowance of Rs. 150 per month plus other usual allowances."

## FORM I.

## NOTICE.

[Rule 4 (2)]

## CORPORATION OF CALCUTTA.

**General Election of Councillors under the Calcutta Municipal Act, 1951  
(West Bengal Act XXXIII of 1951), as amended.**

Whereas the 29th day of March, 1957, has been fixed as the date of election of Councillors for Constituencies Nos. 1 to 80 of the Corporation of Calcutta, I, the Election Officer, do hereby give the following public notice:—

## PUBLIC NOTICE

(i) Nomination papers may be delivered to the undermentioned Returning Officers in respect of the constituencies noted against each of them at the Central Municipal Office (first floor, southern wing), 5, Surendra Nath Banerjee Road, Calcutta. They should be presented between 12 o'clock noon and 5 o'clock in the afternoon from the 10th March, 1957 to the 18th March, 1957, including Sundays and holidays but excluding the 16th March, 1957, which is a holiday.

(ii) Forms of nomination paper may be obtained at the Records Department, Central Municipal Office, between the hours of 11 A.M. and 3 P.M. from the 10th March, 1957, to the 18th March, 1957, including Sundays and holidays but excluding the 16th March, 1957, which is a holiday.

(iii) The nomination papers will be taken up for scrutiny at 11 A.M. on the 20th March, 1957, in the Central Municipal Office (first floor, southern wing).

(iv) In the event of an election being contested, the poll will take place on the 29th March, 1957, between the hours of 8 A.M. and 5 P.M. with an interval of rest between 12 o'clock noon and 1 P.M.

# CORPORATION NOTICES

## To All Registered Petty Improvement Contractors

### District No. IV Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Monday, the 25th March, 1957 up to 2 p. m.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. Works may at the discretion of the Commissioner be forfeited.

486. Construction of two stall urinals in Constituency No. 68 (two numbers)—Rs. 1,832/- dated 8th February, 1957 (1½ months).

487. Construction of two stall urinals Constituency No. 69 and 70 (three numbers)—Rs. 2,748/- dated 8th February, 1957 (2 months).

488. Construction of two stall urinals in Constituency No. 65 and 66 (two numbers)—Rs. 1,538/- dated 11th March, 1957 (1½ months).

489. Construction of one L. H. and one M. H. in Elgin Road in connection with the H. D. connection of 4, Elgin Road—Rs. 703/- dated 8th March, 1957 (15 days).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as 3 months and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000/-.

A. C. SINHA,  
Actg. District Engineer, IV.

District IV Eng's. Office:  
The 12th March, 1957.

## To All Registered Petty Improvement Lighting Contractors

### District No. II.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Thursday, the 21st March, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. Petty tender forms of the

Corporation are to be used in submission of tenders. Corporation standard specification will apply on the work.

The successful tenderer for all works exceeding the value of Rs. 2,500/- shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

## Quotations Invited

Offers are invited for the supply, delivery and erection of one Hiedenberg type Printing Machine 13 in. x 18 in. and two Double Demy or Double Crown Hand fed Printing Machines complete with accessories and motors. All offers will be received by the Second Deputy Commissioner on the 25th March, 1957 up to 12 noon. Each offer must be enclosed in a sealed cover and superscribed "Offer for....."

The offerers shall state the time of delivery and if sales tax is to be paid extra. They shall also state whether they are agreeable to enter into an agreement with the Corporation for a period of two years regarding successful working of the machines, by depositing 5 per cent. of the total value of the machines to the Corporation Treasury after their offers are accepted.

Full particulars may be had from the Superintendent of Press, Corporation of Calcutta on any working day, before 2 p. m.

B. GHOSH,  
Secretary.

Central Municipal Office:  
The 11th March, 1957.

## CORPORATION NOTICES—Contd.

## Municipal General Election

## NOTICE

General Election of Councillors under the C. M. Act, 1951 (W. B. Act XXXIII of 1951), as amended.

In partial modification of the public notice in Form 1 under Rule 4(2) published on the 10th March, 1957, it is hereby notified that nomination papers in respect of Constituencies Nos. 65 and 72 may be delivered to the Returning Officer, Shri Jitendra Kumar Biswas instead of Shri Harendra Narayan Bose as previously notified and those in respect of Constituencies Nos. 66, 67 and 71 to the Returning Officer, Shri Harendra Narayan Bose instead of to Shri Jitendra Kumar Biswas as previously notified.

P. BHAUMIK,  
Election Officer.

Central Municipal Office:  
The 10th March, 1957.

## Renaming of Row

## NOTICE

It is proposed that Panchu Khansama Lane in Ward No. 44 be re-named as Dr. Debendra Mukerji Row.

Any person having any objection to the proposed re-naming should state the same in writing to the undersigned on or before Friday, the 12th April, 1957.

A. BHATTACHARJEE,  
Assessor.

Central Municipal Office:  
The 13th March, 1957.

## Renaming of Lane

It is proposed that Balu Hakkak Lane in Ward No. 59 be re-named as West Road or Park West.

Any person having any objection to the proposed re-naming should state the same in writing to the undersigned on or before Saturday, the 30th March, 1957.

A. BHATTACHARJEE,  
Assessor.

Central Municipal Office:  
The 14th March, 1957.

## Notice

In accordance with Rule 30 of the Navigation Rules for the Calcutta Canals, Tolly's Nullah and Sunderban Steamer Route issued under section 11 of the Bengal Canal Act (Bengal Act V of 1864) and published under Irrigation Department Notification No. 16-1 dated 14th April, 1924, notice is hereby given for general information that the Kultigong end of the Diversion channel of Bhangore Khal at Kult from the river Kultigong to a point about 500 ft. from the Kultigong lock towards the inner channel will remain entirely closed to traffic for a period of three months from 10th March, 1957 to 9th June, 1957 both days inclusive for the work of special repairs to Kultigong lock.

B. GHOSH,  
Secretary.

Central Municipal Office:  
The 7th March, 1957.

## Auction Sale

## NOTICE

All seized carts will be sold by public auction, if not claimed within 10 days of seizure at the Cart Registration Office at 185/1, Lower Circular Road, by the Cart Registration Officer everyday from 3 p.m., excepting holidays from 1st October, 1956, until further orders.

S. K. BOSE,  
License Officer (Offg.)

CENTRAL MUNICIPAL OFFICE:  
The 1st October, 1956.

## Road Alignment

Notice is hereby given for information of the public that the Standing Town Planning and Improvement Committee of the Corporation has generally approved plan prepared under Section 563 of the Calcutta Municipal Act, 1951, showing two alignments namely (1) 40 ft. road running north to south connecting Chetla Central Road and Chetla Hat Road and (2) 30 ft. road running east to west connecting Rakhal Das Addy Road and Paramhansa Deb Road in Ward No. 72 (Old No. 24) as shown in the plan prepared in this behalf.

Any person having any objection to the proposed two alignments should submit

it in writing so as to reach the undersigned on or before the 31st March, 1957.

A copy of the plan showing the proposed two alignments may be seen in the Office of the Chief Valuer and Surveyor on all working days during office hours.

B. K. SEN,  
Commissioner.

Central Municipal Office:  
The 2nd March, 1957.

## NOTICE TO PUBLIC

It is hereby notified for the information of the public that with the introduction of lorry system in the Goshala, District No. III, the out-door dispensary for ailing animals situated at the said Goshala has been ordered to be abolished by the Commissioner with effect from 1st March, 1957.

B. GHOSH,  
Secretary.

Central Municipal Office:  
The 11th March, 1957.

The public are hereby informed that in the interest of public health Rule No. 12 of the existing Rules for the guidance of the Central Disinfecting Station, Corporation of Calcutta prohibits infected articles being sent to the Central Disinfecting Station for disinfection purpose in an exposed state and by public vehicles. The parties concerned are therefore requested to scrupulously avoid such practice as a precautionary measure against the spread of epidemic in the city.

A. MUKERJI,  
Health Officer (Offg.).

Central Municipal Office:  
The 11th March, 1957.

## Extension of Time

## NOTICE

It is hereby notified for the information of those concerned that the date of opening of the tenders for thorough repairing and reconditioning of Boiler No. II at Pulta Pumping Station due to be opened on 14th March, 1957 as previously advertised has been extended to 15th March, 1957 up to 12 noon.

B. GHOSH,  
Secretary.

Central Municipal Office:  
The 12th March, 1957.

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow and badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supt., S. S. Hogg Market.

CENTRAL MUNICIPAL OFFICE :

P. BHAUMIK,  
Election Officer.

## **Corporation Annual Budget Passed**

### **Less Amount of Enthusiasm Among The Members**

THE SEVEN-CRORE BUDGET of the Corporation for the year 1957-58, was passed unanimously on Wednesday after a three-day debate on the proposals. There were minor modifications on the original proposals.

The Mayor, Shri Satis Chandra Ghosh, presided over the deliberations.

The Deputy Mayor, Dr. Amarnath Mukerji also spoke on the conclusion of the debate. He remarked that the apathy and negligence from which urban life in the country suffered to-day were irreconcilable against a back-ground of wide-spread national development of welfare.

The Budget, as presented on Monday, the 18th March, by Councillor K. L. Dhandhanian, Deputy Chairman of the Standing Finance Committee, showed an Estimated Receipt of Rs. 728.48 lakhs against an Estimated Expenditure of Rs. 788.27 lakhs causing an overall deficit of Rs. 61.79 lakhs. The financial year is to be started with an Opening Balance of Rs. 81.31 lakhs and expected to be closed with a Balance of Rs. 19.52 lakhs on the 31st March, 1958.

The Loan Fund would amount to Rs. 847.07 lakhs at the end of the Budget year by raising a loan of Rs. 339.62 lakhs during the year and an Advance from the Union Government in the shape of loan amounting to Rs. 90 lakhs. The revised amount of loan raised in the year 1956-57 was Rs. 237.45 lakhs while the fund was started with a balance of Rs. 180 lakhs on the 1st April, 1956.

There is no proposal for imposition of new taxes or fees. According to Councillor Dhandhanian some bold modifications had been made by the Standing Finance Committee during its twenty-nine meetings, devoted for the consideration of the Commissioner's Budget Estimates for the year. Wider civic amenities, decentralization of administration with larger funds for the Boroughs along with practising of economy were the main features of the year's Budget Estimates.

The Standing Committee thought that the existing machinery for hearing appeals needed some change and suggested setting up of independent valuation panels.

The Commissioner's Budget Estimates for 1957-58 started with an Opening Balance of Rs. 73.25 lakhs and a total Receipt of Rs. 677.98 lakhs. According to him the year was expected to close with a Balance of Rs. 12.55 lakhs after an expenditure of Rs. 738.68 lakhs.

The discussion on the Estimates this year carried less amount of enthusiasm than on previous occasions at least after the New Corporation had been set up in 1952 under the Calcutta Municipal Act, 1951. Hardly a score of Members of the House participated in the discussion while the number of speakers had exceeded fifty on previous occasions. The volleys of amendments were thinner on this occasion. Besides, the attendance in the House could hardly maintain a quorum during the discussion hours.

Among the few amendments accepted on this occasion was a proposal put up by Councillor Ushanath Sen who wanted the continuance of the Revenue Earning Section of the Water Works Department for a few months more. The appointment of an Expert Committee to go into the details of the Electricity Department, conceded to, was the result of a suggestion made by Councillor Anil Maitra who opposed the abolition of the Department as well as an Incinerator Plant as an effective measure of economy. Other proposals and amendments were not accepted by the House. The amendments suggested by Councillor Barendra Krishna Daw carried some weight.

There were pointed criticisms against lacunae of the present Municipal Act from both the sides in the House.

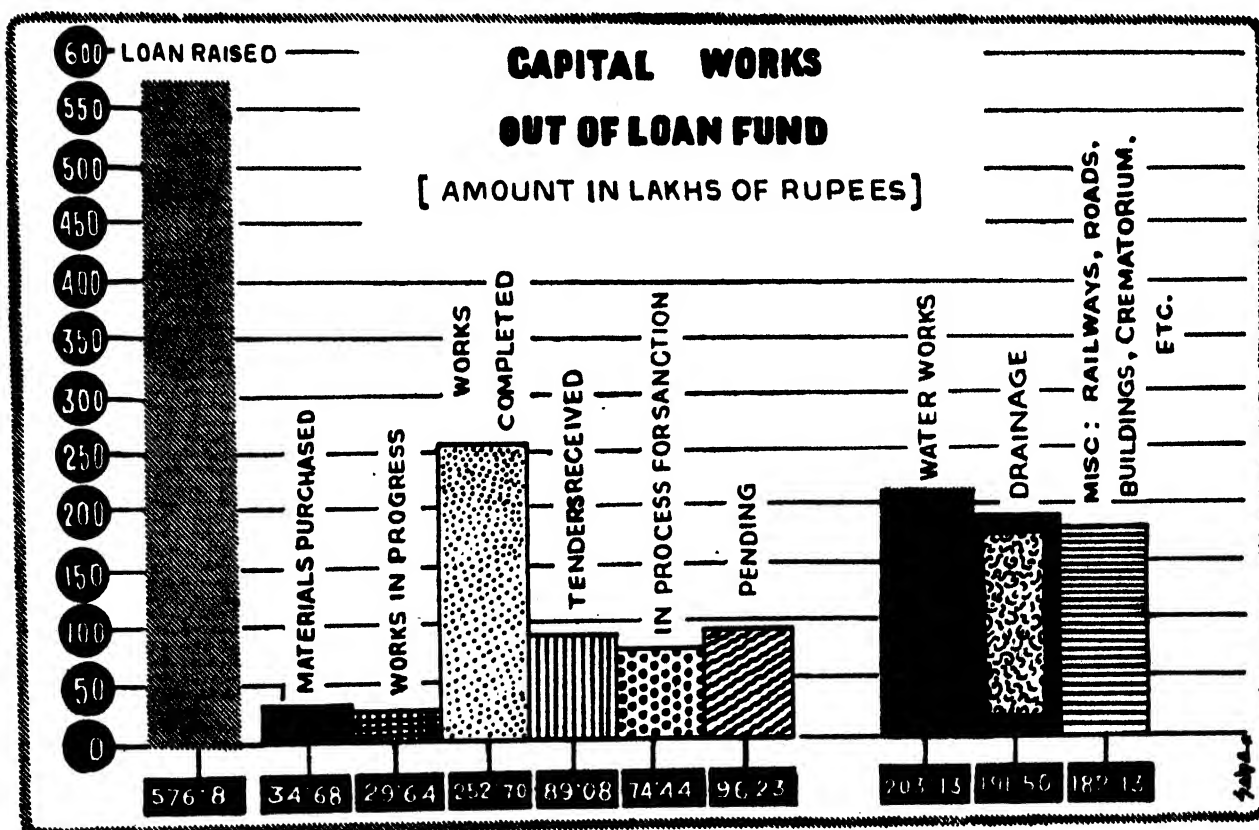

During the four and a half hours' discussion many suggested that the Act should be suitably amended so that resolutions adopted in the House could be given proper attention by the administrative staff. The

Page 40

am convinced, the answer to the problems of our city is a "Greater Calcutta"—a proposition which has already been broached and I do hope one day this Corporation would be really developed as a City Government.

At the end Dr. Mukerji concluded :—

"Live or perish are but two alternatives before us and we have determinedly chosen the first. We have a set purpose. Our problems are basic ones of life and living. This is where we fundamentally differ from a legislative body. We must be cosmopolitan in our thoughts and concerted in our action. May the mantle of the inspiration of those who have made the Corporation what it is to-day rest on us.

other members characterized it as a "rich man's budget", as, in their opinion, it placed a heavy burden of taxation on the middle class house-owners and offered no relief to poor ratepayers. There had been inadequate provision for primary education. The city's sewerage and conservancy services had been neglected. They also urged that the arrears of rates and taxes should not be allowed to remain unrealised for long.

The speech, on the conclusion of the discussion, made by the Deputy Mayor was most befitting one. The full text of Councillor Dhandhaniala's speech who opened the Budget discussion in the absence of the Chairman of the Committee, the Ex-Mayor, Shri Naresh Nath Mookerjee, M.L.A., is being published herewith.

The discussion was initiated by Councillor Ranajit Coomar Mitter, Councillors Dr. K. P. Ghosh, J. K. Chaudhury, Subrata Kumar Sen Sarma and Nripendra Nath Banerjee spoke on the first day, on the concluding day Councillors Shyamal Kumar Dutta, Anil Maitra, Barendra Krishna Daw, Jogindra Lal Saha, M.L.C., Mani Sanyal, Sachindra Nath Sinha and others took part in the discussion.

The Deputy Mayor who was formerly a Chairman of the Standing Finance Committee, expressed high hopes on Corporation finances. At the same time he showed resentment on the Report of the Taxation Enquiry Commission. In his congratulatory speech he said :—

"This city, suffering from the effects of war, famine, riots and partition, as well as over-crowding, may certainly be now declared as convalescing, although, as evidenced from the budget estimates, it is unable to afford the cost of tonics and restoratives essential for ensuring speedy recovery. Our gigantic 2nd National Plan Programme in respect of this historic city is famishing at a feast. The citizens want their Corporation bigger in stature, stronger in power, bolder in action.

"This city which has ever been the nerve centre of all progressive national activities; the seat of Government and the Legislature; and which harbours the citadels of learning, science, literature and art, must receive adequate share of support and encouragement essential for building up the forces that go to make virile nationhood. It is an accepted fact that leadership of growth and development have mainly emanated from the cities. Strengthening Local Self-Governing institutions was the national cry prior to Independence and since independence their number may have increased, there has been no corresponding development of usefulness and effectiveness of these Local Bodies. Local Finance Enquiry Committee as well as the Taxation Enquiry Commission have commended that local authorities, both urban and rural, should be utilized by the State Governments as their own agents to the greatest extent possible. These recommendations have yet to be implemented.

"It can never be too much to stress that a net-work of virile self-governing institutions—urban as well as rural, is the essential prerequisite for the establishment of democratic socialism. Local Bodies are best suited to assess local requirements and the greatest measure of satisfaction that the people long for may be catered through their active participation in meeting those local requirements. Systematic devolution of authority and responsibility constitute the *sine qua nom* of democratic development. Civic services and amenities are the starting points for establishing economic equality of which we talk so much.

Speaking on the handicaps in implementing many of the projects the Deputy Mayor continued :—

"Our brakes are too many. Limitations of the Act are too many compared to the powers, functions and resource allocations enjoyed by metropolitan and major cities of most progressive countries in the world. I am convinced, the answer to the problems of our city is a "Greater Calcutta"—a proposition which has already been broached and I do hope one day this Corporation would be really developed as a City Government.

At the end Dr. Mukerji concluded :—

"Live or perish are but two alternatives before us and we have determinedly chosen the first. We have a set purpose. Our problems are basic ones of life and living. This is where we fundamentally differ from a legislative body. We must be cosmopolitan in our thoughts and concerted in our action. May the mantle of the inspiration of those who have made the Corporation what it is to-day rest on us.

## Estimates Of A Seven-crore Budget

This is the fifth and the last Budget of the democratic Corporation that emerged out of the new Corporation Act. The new Act, while democratising the set-up of the Corporation, could not fully rise above the prejudices so badly depicted by the Biswas Commission. The Corporation was established by the Act with provisions for rigid resources but unlimited functions. The whole Act was also based on the approach of vesting more powers in the hand of the executive and less with the elected representatives of the rate-payers. Thus, after a long lapse, the Corporation started functioning democratically only five years back and on the eve of our departure, it is only natural that we may look back on what legacy we inherited, what burdens we have borne and what success we have achieved, and what task we leave to our successors.

### Five Years' Strenuous Struggle

The democratic Corporation started with the legacy of huge backlog of work, arrears in revenue, outmoded practices and procedures, and strangulating statutory restrictions. The administration suffered from the traditions of an outmoded system in its organisation and working. It was, therefore, no easy job for the Corporation and its Standing Committees to break the ice for making a fresh beginning.

After five years of strenuous struggle, it can perhaps be claimed that the present Corporation has borne the burden with courage and vision. You know that your Corporation functions through as many as twentyfour Standing Committees, including the Standing Borough Committees, which to my mind provide the seeds for developing a sort of Municipal Socialism in the country. In 1953-54, the latest year for which we had ready figures, there were 697 meetings and during subsequent years, the number of the meetings increased still further. The average percentage of attendance worked out to nearly seventy. The Corporation itself passes at least roughly 1,500 resolutions a year. I mention this just to indicate the colossal amount of man-hour labour that has been put forth by the City Fathers; and from policy-making to execution, a stringent procedure of screening has been evolved as the order of the day. I must, on this occasion, make it clear that our efforts have been co-operative of all the sections of this House, of the Associate Members from outside and above all, of a more activated administration. A new spirit of co-operative service, without any emoluments in any shape or form has once more been established in the Corporation by this House and I think members on all the sides of the House can legitimately claim satisfaction and credit for the manner in which they have borne the burden.

But, Sir, to the citizens the test of the pudding is in the eating. The test lies in quantity and quality of services that we have been able to render to the citizens. Between 1952-53 and 1956-57 our expenditure on water supply has gone up by forty per cent, on conservancy by twenty per cent, on roads by twenty-six per cent, on health measures by fortytwo per cent and on primary education by fortyfour per cent. Every citizen of Calcutta must also agree that our streets and lanes are much better lighted today than before. The overall revenue expenditure for the next year would be higher at Rs. 788.27 lakhs in place of Rs. 529.76 lakhs in 1952-53, which would mean a rise of Rs. 260 lakhs a year.

If we have increased our expenditure on civic amenities and services, the Standing Finance Committee has all along strained itself to the limit to increase the revenue earnings of the Corporation. While the total receipts on the basis of actuals amounted to Rs. 532.44 lakhs in 1952-53, the estimated revenue for the next year will be of the order of Rs. 726.48 lakhs. A large measure of stability has thus been imparted to the financial structure of the Corporation. This has been made possible by a progressive rise in the earnings without taking recourse to fresh imposts. This by the way also reflects the success of the Standing Finance Committee and the efficiency of our revenue-earning departments.

There is, however, no scope for complacency. The city has been battered and bruised by the war, famine, riots and partition. The wounds were gaping, and though we have healed these up to some extent, a good deal remains to be done, to some of which I would refer later on.

**Estimates For 1957-58**

Sir, I would now present the Budget Estimates for the year 1957-58 in its broad features as prepared by the Standing Finance Committee :

The revenue for the year 1957-58 is estimated at Rs. 7,26,48,000 and the estimated expenditure is Rs. 7,88,27,000 resulting in a deficit of Rs. 61,79,000. The estimated balance at the end of the year is Rs. 19,52,000.

The overall position of the Budget prepared by the Standing Finance Committee stands as under :—

**1. Revenue Fund**

			Rs.
Opening Balance on 1st April, 1957	..	..	81,31,000
Receipts during the year	..	..	7,26,48,000
		Total	8,07,79,000
Expenditure during the year	..	..	7,88,27,000
Closing Balance on 31st March, 1958	..	..	19,52,000
		Total	8,07,79,000

**II. Loan Fund**

Opening Balance on 1st April, 1957	..	..	1,80,00,000
Receipts :			
		Rs.	
Proposed loan for 1956-57	..	2,37,45,000	
Proposed loan for 1957-58	..	3,39,62,000	
Loan from Union Government	..	90,00,000	6,67,07,000
		Total	8,47,07,000

I admit that some bold modifications have been made by the Committee in the estimates presented by the Commissioner. These modifications have been made as in previous years on reviewing the entire work programme and with a fervent hope of further raising the level of efficiency of the administration in matters of creating demands, collecting revenue and spending funds in the cause of wider civic amenities. The net result of these modifications is an increase of roughly 7 per cent. in both income and expenditure. I am sure that the administration will rise up to the occasion and make a vigorous endeavour to reach the Budget figures as they have done in the past.

**Opening Balance**

According to the Commissioner's estimate, the Opening Balance on 1st April, 1957, was Rs. 73,25,000. After a careful scrutiny, we have effected an improvement of Rs. 8,06,000 by increasing the revised Revenue Estimate of 1956-57 by Rs. 6,33,000 and decreasing the revised Estimate of Expenditure by Rs. 1,73,000. The Opening Balance according to the Budget is Rs. 81,31,000. The net rise of Rs. 6,33,000 in Revenue is mainly due to the increases of Rs. 3,45,000 in Consolidated Rate, Rs. 1,00,000 in recoveries for restoration of pavements and Rs. 1,89,000 for recovery of the cost of the works done for the C. I. T. On the other hand, we have adjusted expenditure under "Street lights by Electricity" and "Petrol" by curtailment of Rs. 1,00,000 in each case. These cuts would not in any way mean any curtailment of the improvements undertaken. Several minor modifications have also been made resulting in the net reduction of Rs. 1,73,000.

**An Increased Revenue**

On the revenue side, the Standing Finance Committee has increased the receipts to the extent of Rs. 48,49,000. Our estimate for the Consolidated Rate is Rs. 435.50 lakhs. As the system of postal presentation of rate bills has already commenced, the Collection Department would be able to concentrate their effort

on arrear bills and it is expected that the collections would improve. We also expect Rs. 15 lakhs on account of service charges from Central Government properties. Increase in the estimate of the Government grant for Dearness Concessions from Rs. 77.19 lakhs to Rs. 92.19 lakhs is due to anticipated release of the amount withheld by the Government. I shall bring up this matter in detail later on. Other major modifications relate to Recovery of Charges out of Deposits—Rs. 2.30 lakhs, and Taxes on Trades and Professions—Rs. 1 lakh.

On the expenditure side, we have made increased provisions to the tune of Rs. 49,59,600 generally in respect of beneficial services and welfare measures.

### **A New Counter**

The Consolidated Rate is the sheet-anchor of our revenue. It constitutes about 65 per cent of our total income. The growth of receipts under this head would be clear from the chart annexed to the statement. Although the rates of taxation have been pegged at low levels under the present Act with a view to granting relief to the middle class house-owners and although the provisions of law have not even once been invoked by the present Corporation for raising the rates, even within the permissible ceiling, through persistent efforts we have been able to raise the income from this source by about a crore of rupees in the course of 5 years. Separate counters for payment of rate bills have been opened in all the Districts. A new counter for Cossipore has already been constructed and it will very soon come into use.

### **Govt. Properties**

The problem regarding the rating of Central Government properties has almost been resolved. For properties acquired or erected after 31st March, 1937, the Central Government have agreed to pay service charges, in lieu of consolidated rate, with effect from 1st April, 1954. The State Government have fixed the rate for service charges at 20 per cent of the annual valuation. This is awaiting final acceptance of the Central Government. The Standing Finance Committee has accordingly made a provision of Rs. 15 lakhs for arrear service charges for Central Government properties from 1954-55 to 1956-57. As regards the old properties which were in existence before 1st April, 1937, the Central Government have also agreed to pay rates on any increased valuation which might have come into effect from 1st April, 1948. Taking credit for the expected receipts from this source, the Committee has increased Commissioner's estimate under consolidated rate by Rs. 12 lakhs.

### **Port Trust Properties**

The levy of enhanced rate in respect of Port Trust properties, as agreed upon in 1950, has already been regularised by an amendment of the Calcutta Port Act.

This new basis of assessment would be effective from 1st April, 1954. The draft agreement to be executed in this connection has been prepared and it is expected to be finalised very soon. Pending revaluation on the enhanced scale according to this agreement, the Port Authorities have agreed to make on-account payment of Rs. 10 lakhs per year against the probable increase of Rs. 12 lakhs annually. In the revised estimate of consolidated rate for 1956-57, a sum of Rs. 30 lakhs for three years from 1954-55 to 1956-57 has therefore been included.

### **Training For Valuation Officers**

Some resentment prevails among the rate-payers in respect of the altered procedure of assessment introduced in terms of the present Act. The Standing Finance Committee has suggested certain amendments in the Act which are awaiting the decision of the State Government. In the assessment procedure, perhaps valuation of property is by far the most difficult operation. In the absence of adequate standardisation of the procedure and methods, and proper training of those engaged in the task of valuation the assessment function remains vulnerable to disputes and allergy. I think some training course may be provided for the valuation officers in order to improve the quality of administration and thus make the assessment function most palatable and productive. The present machinery for hearing appeals perhaps also needs some change and setting up of independent Valuation Panels and Appellate Tribunals may be desirable direction of reform. Existing provisions for appeals to the Executive seem to be outmoded in today's democracy and appeals to the Court mean deterrent cost to rate-payers.

and the Corporation alike. Improvement on this score will not only redress the legitimate grievances of the rate-payers but would also leave little room for any complaint against the administration.

### Collection Of License Taxes

The next principal source of revenue is the tax on Trades, Professions and Callings. Since there is large scale evasion, ample scope exists for increased yield from this source. We hope to be in a position to appoint some staff early next year for investigating and checking assessments. When this is done, better control would be secured over assessment and collection of license taxes and fees. In consequence, some improvement may be expected in the receipts from these sources. The Committee has, however, increased the estimate at Rs. 36 lakhs for Tax on Trades and Professions by Rs. 1 lakh only in the Budget of 1957-58.

### Dearness Concessions

It may be recalled that about a decade and a half ago, on the recommendation of Mr. Gurner, the Government agreed to pay a subvention equal to 80 per cent of the estimated cost of Dearness Concessions on the *bona fide* sanctioned strength of the employees of the Corporation. They had accordingly been paying the subvention on this basis upto 1953-54. But in 1954-55, the Government suddenly changed this accepted basis and demanded payment on a new basis, i.e. actual cost of Dearness Concessions and that with retrospective effect. The Corporation's repeated representations to Government in this connection went unheeded. Government took the stand that on the basis of actual cost, the Corporation had overdrawn about Rs. 32 lakhs for the period from 1942-43 to 1953-54. So from 1954-55, Government began to make reduced contributions so as to square up the amount which they alleged the Corporation had drawn in excess. The entire amount of Rs. 32 lakhs claimed by the Government has, however, been fully covered by the deductions made by them for the years 1954-55 and 1955-56.

During recent years, our establishment cost has considerably gone up on account of additional staff and increase in the pay of the employees. Consequently, the cost of Dearness Allowance also has gone up. It is now seen that 80 per cent of the total actual cost of Dearness Allowance exceeds the contribution which is now being paid by the Government. As a matter of fact, Government's contribution for 1956-57 falls short of 80 per cent of the actual amount of Dearness Concessions by about Rs. 15 lakhs. So the Committee added this amount for the next year, as arrear dues from the Government.

### Usual Establishment Charges

During the last few years, the establishment cost has registered considerable advance. The disbursements amounted to Rs. 261.9 lakhs in 1952-53 and these would go up to Rs. 335.7 lakhs next year. It would mark a rise in the establishment cost by 28.2 per cent. The increase is accounted for the additional staff required for the expanding civic services, normal increments and additional benefits granted to the staff in the shape of allowances and flat increment to the employees drawing up to Rs. 350 per month.

The Standing Finance Committee from the very beginning was convinced that the conditions of the Corporation employees must be improved to ensure better and efficient service from them. As I have just indicated we have tried to improve the conditions within the limited means available to us. Our employees are perhaps more convinced now than at any time before that if the Corporation cannot pay them more for the services they render, it is not due to any paucity of appreciation of their services, but due to the financial stringency of the Corporation.

### A New History In Corporation

This House and the Standing Committee can perhaps share with the employees the pride for establishing a new record of employer-employee relations in this State by citing that there was not a single strike or stoppage of work during the last five years. A new history was, in fact, created when sometime back the Corporation employees placed an admirable confidence in the Standing Finance Committee to take decision on their charter of demands over which many thought in this City that one of the worst strikes was inevitable. The Standing Finance

Committee has done its best to honour this confidence and I feel that the bond of relationship that has been developed would provide the greatest strength to our successors for developing a still better Corporation.

I cannot, however, help referring to the inhibiting impact of the functioning of the Municipal Service Commission not only on the employer-employee relation in the Corporation but also on the efficiency of work in this Institution. The Municipal Service Commission is a product of the present Act. It was expected that by its functioning the Commission would ensure more efficient recruitment and better relations in the Corporation. I regret that we cannot say that the hopes have been realised. The functioning has been rather slow, if not dilatory. In the matter of recruitment as also in confirmation and improvement of service conditions, the attitude and working of the Commission appeared somewhat too technical and legalistic. To meet brass tacks problems in the administration of the Corporation, it had to put through a scheme of increments on a graduated scale to the temporary hands made permanent pending a more satisfactory solution of the problem.

### **24 Lakhs For Boroughs**

One significant feature of the present Municipal Act is the provision for Borough Committees. This is a step towards decentralisation of the administration of the City extending over a big area and is in accord with the principles of democracy which contemplate small self-governing units. It has been our unremitting endeavour to activate the Borough Committees by making adequate provision in the budget year after year. In the first Budget for 1953-54, a small allotment of Rs. 3 lakhs only was made for the Borough Committees. Next year, the allocation was stepped up to Rs. 7.5 lakhs and since the year 1955-56, a sum of as much as Rs. 24 lakhs is being provided annually. In the Budget of 1957-58 also, we have allocated the same handsome amount for the Boroughs. It gives me great satisfaction to note that this policy in the pattern of our expenditure on improvement works in the Boroughs has been a success. The Borough Committees have been able to render various beneficial services to the rate-payers according to local needs and I hope that in no time they will be successful self-governing institutions in their own sectors. Next year would mark a further stride forward. A direction has been given to the Departments to execute their works programmes in consultation with the Borough Committees. Thereby the base of their activities would be considerably broadened.

### **Mechanization Of Services**

Although the efforts made during the last few years for improving the conservancy services had borne fruit, the City was faced last August with an imminent breakdown of the conservancy arrangements. The weak spots in the disposal system were laid bare. Hiring of lorries and a prompt purchase of two Bulldozers somehow saved the situation. Since then considerable improvement has been effected. Two new locos are in commission. About 50 new lorries and tractors have been put on the roads. The full mechanization of the Goshalas and extension of house-to-house collection to new areas would necessitate a large number of additional vehicles. The Committee has provided Rs. 30 lakhs for purchase of lorries as against Rs. 15 lakhs in the Commissioner's budget. Soon the strength of the Corporation fleet would reach a figure of about 500. We have budgetted for an expenditure of Rs. 85.48 lakhs during the next year.

I dream of the day when the dustbin and the animal-drawn refuse cart would be no more ; garbage would be removed directly from the houses ; traffic would move freely. I dream of the day when no plague-spot would greet the eyes anywhere and when nobody would call Calcutta a dirty City.

### **Loan For Water Supply**

The question of supplying sufficient quantity of filtered water to the citizens is the most vital problem before the Corporation. At present we are supplying about 81 million gallons of filtered water to the City from Pulta and about 15 million gallons from tubewells. During the last five years as many as 36 big dia. and 1,050 small dia. tubewells have been sunk. For augmentation of the supply, the Corporation prepared a comprehensive scheme involving an expenditure of Rs. 12,57,35,000/- in its Five-Year Plan. This estimate was approved by the Corporation on 1st October, 1954. Against this estimate, Government

have accorded their sanction to the following items entailing a total expenditure of Rs. 6,25,00,000/- :—

	Ra.
(1) Laying a new 72" Pulta-Tallah Main ..	2,25,00,000
(2) Augmentation scheme from the existing source at Pulta.	3,85,00,000
(3) Experimental boring to find out acquiferous strata at a depth of 2500 to 3000 ft.	15,00,000
	6,25,00,000

This scheme provides for 300 gallons of water per day for a population of 5 millions.

We have already raised a loan of Rs. 75 lakhs for the Pulta-Tallah Main. We have also included a further amount of Rs. 1,50,00,000/- for this item in the current Year's Loan Programme of Rs. 2,37,45,000/- which has been sanctioned by the Corporation and is now awaiting Government's sanction. The tender for Pulta-Tallah Main has been accepted by the Corporation and it is expected that the matter will shortly be finalised by the Government.

In the current Loan Programme we have also included a provision of Rs. 46,00,000/- towards the cost of the Augmentation Scheme from the existing source at Pulta.

### Union Govt's Grants

In this connection I may mention here that the Central Government in their 2nd Five-Year Plan have allotted Rs. 2.25 crores to this Corporation for water supply and sanitation schemes, to be spread over 5 years at the rate of Rs. 45 lakhs per year. Out of this, the first instalment of Rs. 45 lakhs is expected to be received by the end of this year and the 2nd instalment of Rs. 45 lakhs in the next year. Out of this, we will utilise Rs. 57 lakhs for augmentation of water supply from the Pulta source. Necessary provision has accordingly been made in the next year's Loan Budget.

When these projects are completed, say in the course of the next 3 or 4 years, it is hoped that the water problem will be solved to the satisfaction of the rate-payers of the City.

### Improved Roads and Footpaths

The conditions of the roads and footpaths of Calcutta deteriorated very much during the war period and there has been a heavy backlog of work when the present Corporation came into being. It has been our constant endeavour to improve the conditions of roads and footpaths. Rs. 118.16 lakhs have been spent for improvement of roads and footpaths in Calcutta during the four years, 1952-53 to 1955-56 and for the current year the revised estimate of expenditure is Rs. 39.39 lakhs. In the next year's Budget we have increased the expenditure still higher at Rs. 53.53 lakhs.

### Modern Underground Sewage

A City's drainage system has a great bearing on its health and sanitation. The underground system in our City may compare well with the system of any other advanced City in the West. Our present elaborate system of Drainage is marvellous no doubt, but in the City there are still some unsewered pockets which call for our immediate attention. In order to remedy this we have already raised loans amounting to Rs. 8,53,900 for laying sewers at different places. Some of these works have already been completed.

In view of our financial condition, it was not possible to extend the underground sewage system to Cossipore and Manicktala which were added to Calcutta over 30 years ago. The Corporation's Five-Year Plan includes Rs. 2,92,87,000/- for improvement of drainage in the city. When this plan is executed the entire area of the City including Cossipore and Manicktala will come under the same modern underground sewage system. The work is expected to start very soon with the Central Government's allotment of Rs. 80 lakhs for our sanitation schemes incorporated in the Corporation's Five-Year Plan.

### Heavy Accumulation Of Silt

For well over a decade there has been heavy accumulation of silt in our brick sewers. Removal by manual labour proved abortive. We must adopt a mechanical process to clear out the silt as early as possible, so as to avoid a

critical situation which may arise soon. We have provided Rs. 60,000/- in the next year's Budget for preliminary works in this connection.

For prevention of flooding we have already raised the following loans :—

	Ra.
Prevention of flooding in Cossipore area ..	1,63,00.
Prevention of flooding in different parts of Calcutta ..	1,00,000

We have made further provisions in the next year's Loan Budget for various other items of works for prevention of flooding.

The Corporation and the Government have sanctioned an estimate of Rs. 37 lakhs for re-modelling Town and Suburban Head-cuts and S. W. Reservoirs. For this very urgent work relating to our Outfall, the State Government has agreed to contribute Rs. 5 lakhs. In the current year's proposed loan we have included Rs. 25 lakhs for this item of work.

The expenditure on drainage has been increased from Rs. 23.34 lakhs in 1952-53 to Rs. 28.02 lakhs in the Revised Estimate for 1956-57. We have provided Rs. 30.88 lakhs in the Budget for 1957-58.

### Better Illumination

Every one must have seen that the standard of lighting in the City has much improved in the course of the last three years. This improvement has been effected mostly out of the Borough Funds. We have adopted the policy of gradual replacement of gas lamps by electric lamps as a measure of economy as well as better lighting. Since gas lamps cannot be discontinued altogether, we are installing new suspension type gas lamps in several places for better illumination.

The Police Authorities have been pressing the Corporation for improvement of lighting on important thoroughfares and street junctions. The Borough Committees have no doubt allotted considerable amounts for this purpose but the requirements are too heavy to be met out of the borough funds. We have, therefore, provided Rs. 12 lakhs on this account in the next year's Loan Budget.

### More Play-grounds For Children

The Parks are the lungs of the City. The face-lifting done to them has elicited praise even from foreign visitors. The new look of our parks is pleasant to record. Where a cow might be seen tethered a few years ago, there would be found now the lovely blooms of larkspurs, petunias, dianthus and phloxes in a blaze of gorgeous colours. Pathways are well-laid. Flower-beds are regularly attended to. Tree-guards have been put up. Lighting has been arranged for. The children play more frolicsomeness and the old rest in better surroundings. In the course of another five years, the appearance of all the Parks and Squares would be completely transformed.

Rs. 4,16,000/- has been set apart for the next year for maintenance and improvement of parks against the revised estimate of Rs. 3,27,000/- for the current year. In the Loans Budget (List 'B') a sum of over Rs. 20 lakhs has been allocated for opening new Parks.

### Increased Amount For Health Services

The Corporation with its slender finance has been striving its best to maintain public health in the City on as high a standard as practicable under the existing conditions. At present the Corporation maintains 4 Maternity Homes, 9 Maternity Units and 23 Milk Kitchens. The expenditure on Health measures has gone up by 42 per cent. over the last five years, the figure rising from Rs. 26.50 lakhs in 1952-53 to Rs. 37.87 lakhs in the revised estimate for 1956-57. In the next year's budget we have further increased the amount to Rs. 41.87 lakhs. Our grants to private Hospitals etc., have also gone up.

### Loans For Maternity Home

The Kidderpore Maternity Home which was located in a rented building was shifted to our own building constructed out of the raised loan of Rs. 1,30,000. In the next year's Budget we have provided for further loan of

Rs. 1,50,000 for extension of this Maternity Home. We have also raised a loan of Rs. 2,48,000 for construction of a modern Maternity Home at Chetla. Further provisions for new loans amounting to Rs. 8,26,000 have been made in List 'B' of the Loan Budget for the opening of a Maternity Home in Cossipore and another at Haricktala. Some of the other notable provisions in the Loan Budget relating to Public Health are as follows :—

	[Rs.
(1) Construction of a second storey over the Ambulance Station at Chittaranjan Avenue.	73,000
(2) Extension of Vaccine Institute .. .. .	50,000
(3) Construction of Employees' Hospital .. .. .	5,00,000
(4) Construction of T.B. Isolation Camp Hospital .. .. .	5,55,000
(5) Construction of Vaccine Station at Nafar Kolay Road .. .. .	27,000

In the Revenue Budget we have provided Rs. 40,000 for the opening of additional Milk Kitchen Centres in different parts of the City where there is no such Kitchen at present.

### More Corpn. Beds In Hospitals

The Corporation is now maintaining three T. B. Chest Clinics including the Gobindo Khatik Unit and the Rangers Club Unit taken over by the Corporation. Besides, the Corporation maintains a good number of free T. B. beds in several Hospitals as shown below :—

	No. of free beds.
Jadavpur K. S. Ray T. B. Hospital .. .. .	65
Astanga Ayurveda Vidyalay (Patipukur Hospital) .. .. .	8
Balananda Sebayatan .. .. .	10

We have provided Rs. 1,88,000 for contributions to these three hospitals for the above free beds reserved for the Corporation. With the expansion of our revenues we are also widening our scope of health services. I must, however, stress that the maintenance of the health services in this metropolitan City should be more a responsibility of the State Government than of the Corporation.

In a congested city like ours there is always the danger of any contagious disease breaking into an epidemic. The Corporation has all along been alive to this problem. In recent years we have strengthened our army of epidemic staff at a cost of roughly Rs. 3,00,000 a year.

The condition of the crematoriums and the burning ghats have also been considerably improved.

### Problem Of Khatala

The problem of "Khatala" *vis-a-vis* milk supply has been one of the most intricate of our problems. The metropolitan character of the City requires that these "Khatala" should be removed, not only for beautifying the city, but also for better care of the cows. To many of us in this country cows are worshipped as "Go-Matas." Whether any unseen power is there or not in her, there is no denying the fact that the cow is our second mother in supplying the nectar of life—the milk. There is absolutely no doubt that we must do everything possible to protect cows. The State Government has already provided "Khatala" for 4,000 in Haringhata and I hope this will significantly contribute in providing for better care of the cow population of this city.

### Shopping Centres

I would also take this opportunity of another measure directed to improve the sanitary condition in the private markets and other shopping centres. Rules have been prescribed for licensing of the private markets involving conditions for maintenance of good sanitation and ventilation, and any aggregation of 30 or more shops at a place has been declared as a private market for the purpose.

### Buildings To Be Renovated

Insanitary conditions in rented buildings have caused great resentment amongst the tenant citizens. The maintenance of the buildings in good habitable

condition is undoubtedly a primary obligation of the owners. But there may be hard cases also where the owners are not in a position to effect the essential repairs even. There are again those who are not enthusiastic in the matter. The Corporation, therefore, has prescribed rules whereby it could itself take the initiative in effecting essential repairs at the cost of the parties. Arrangements have now been completed for work on this line and we have provided Rs. 2,00,000 for the purpose.

### Education For Larger Numbers

From the national point of view it is most essential that free primary education should be imparted to the children of the city on as wide a scale as possible. This is manifestly a vast problem beyond the resources of the Corporation. Indeed, the responsibility for promotion of primary education rests mainly with the State under the Constitution. Nevertheless, the Corporation has all along been taking energetic measures for promotion of free primary education. We are now spending more than Rs. 35,00,000 for the purpose. Many of the rented buildings in which our schools have to be accommodated are in a dilapidated condition. The Corporation has, however, in hand a programme for construction of its own buildings on Corporation land and some of them are completed. We have taken up these works out of the loan of Rs. 3,50,000 already raised. A further provision of Rs. 7,14,000 has been made in the Loan Budget (List B) for construction of additional school buildings in different areas.

During the last five years, 34 new schools have been set up. At present we have 250 Primary Schools, where 52,000 children receive instruction free of cost. The number of teachers has risen to 1,465 as against 1,040 five years ago. There are 8 School Medical Officers (5 male and 3 female) who regularly check up the health of our boys and girls. Arrangements are being made for treatment of defective children. Mid-day tiffin or skimmed milk is supplied to children at schools. Funds have been provided for installation of electric fans and lights in all the schools. We have also provided for repair to the rental buildings. The Corporation spends roughly Rs. 72 a year for every child in its schools. The expenditure on Primary Education on revenue account would be Rs. 26.17 lakhs in 1956-57 as compared to Rs. 18.43 lakhs spent in 1952-53.

### Eight-Square Miles To Be Developed

Tollygunge has an area of over 8 sq. miles, i.e., one quarter of the City of Calcutta. Although the income from this merged area amounts to only about Rs. 11,00,000, schemes for its all-round improvement have been initiated at heavy cost to the Corporation finance.

There is ample scope for development of this area which is thinly populated with plenty of open spaces. Our limited revenues notwithstanding, we have provided sizeable amounts in the Loan Budget (List B) for Tollygunge as indicated below :—

	Rs.
(a) Water Supply .. .. .	14,00,000
(b) Roads .. .. .	9,37,000
(c) Drainage .. .. .	1,30,000
(d) Parks .. .. .	2,05,000
<b>Total ..</b>	<b>26,72,000</b>

In this connection, another matter merits mention. It has been decided to regularise the occupation of a vast number of refugee squatters in Tollygunge area and provide them with amenities such as water supply, roads, drainage and lighting arrangements. The Corporation has prepared a scheme amounting to Rs. 3,23,17,000 which includes the following items :—

	Rs.
(1) Water Supply and Distribution .. .. .	33,00,000
(2) (a) Main Drainage .. .. .	66,97,000
(b) Subsidiary sewers and drainage adjuncts .. .. .	79,95,000
(3) Roads .. .. .	90,21,000
(4) Lighting .. .. .	32,04,000
(5) Other amenities, such as Primary Schools, Maternity Homes, Dispensaries, Markets and T. B. Clinics .. .. .	21,00,000
<b>Total ..</b>	<b>3,23,17,000</b>

much headway has since been made and it is expected that the work entrusted to the Corporation will be completed within the next few months. When the scheme materialises, be it through the agency of the Government or the Corporation, it will benefit nearly a lakh of population over an area of 2 sq. miles.

### **Expenditure To Be Economised**

From the beginning it has been the endeavour of the Standing Finance Committee to secure maximum economy in expenditure and avoid all possible waste so that every pie of the rate-payer could be fully utilised for the beneficial services. A strict measure of budgetary control has been gradually evolved and our administration is perhaps more conscious than before for honouring the Budget that is annually passed by the Corporation.

I would refer to two matters which we have recommended as measures of economy and avoidance of wastage.

Some decades back, the Corporation installed its own Turbo-Alternator for partial supply of its electricity requirement. On an examination we have found that the cost per unit varies between three annas to four annas whereas we can obtain the electricity from the Calcutta Electric Supply Corporation at .85 anna per unit. On a rougher Estimate, it can thus be said that the Corporation has lost something like Rs. 30 lakhs during the last decade on maintaining its own Electricity Department. The Standing Finance Committee have therefore recommended that the Corporation should obtain its electricity as far as possible from the Calcutta Electric Supply Corporation. We have recommended that the staff should be suitably employed in other departments of the Corporation.

The Goragatcha Incinerator has been similarly uneconomic. The disposal of refuse actually effected though it is ridiculously low. The Standing Finance Committee has therefore also suggested discontinuance of the Incinerator. Here also the staff would be suitably diverted to other departments.

### **Workshop Accounts**

The Entally Workshop has also been an uneconomic unit. It employs a staff of 1,000 men and manufactures articles of great variety. At present the actual production of the factory is rated to be only 25 per cent of the installed capacity. This year, a Special Committee aided by experts, went into the working of the Workshop and made certain recommendations for its improvement. The Standing Finance Committee has provided for Rs. 1.20 lakhs from the Revenue Budget for the purchase of some of the essential equipments. It is hoped that when the machines are installed, and the costing scheme prepared by Shri N. N. Sircar, the former Chief Accountant of the Corporation, is put into operation, the output of the factory would be considerably stepped up.

### **Development Plans**

Perhaps for the first time in the history of any Municipal organisation in the country, the Standing Finance Committee prepared the outline of a Five-Year Plan in 1954 to visualise a work programme for the improvement of the city. The programme was worked out in details and eventually submitted to the Planning Commission through the State Government. As this House is fully aware, the programme provided for the augmentation of water supply, re-modelling of drainage, better sewerage, etc. Today, I am glad to be able to say that the Planning Commission has approved some of our schemes and has agreed to advance Rs. 2 crores 25 lakhs to finance our programmes in respect of water supply and sanitation. The assistance, however, would constitute only a small fraction of the estimated expenditure in our Plan under these two heads. The first instalment of Rs. 45 lakhs is expected to be received soon and the second instalment of an equal amount would be received next year. Out of this amount of Rs. 90 lakhs, we have allotted Rs. 57 lakhs for augmentation of water supply, Rs. 18 lakhs for remodelling of drainage outfall and pumping capacities and Rs. 15 lakhs for sewerage unsewered areas in the city. We fully appreciate the recognition that the Planning Commissioner has given to our programme of work in offering financial help. And we would expect that for our successful progress in the work, the Central and the State Governments would stretch their purse strings more in the future. Our programme for slum

clearance would be taken over by the State Government and thus we may say that our emphasis on this matter has borne some fruit.

### Slums and Plague Spots

The clearance of slum areas in the city has been causing anxiety to the Corporation for a long time. Every sixth man in this City is a Bustee-dweller. There are about 1,040 Bustee areas with 4,371 Bustees inhabited by over 6.5 lakhs of people. Some of these Bustees are very big covering as large as 250 bighas of land and some are tiny ones comprising 10 kottahs only. Roughly about 1/8th of this city is covered by the Bustees. Many of these Bustees suffer from inadequate or no sewerage, inadequate water supply and inadequate sanitary services.

The Corporation has been striving hard to keep the Bustee areas as clean as possible. In our outline Plan we provided for Rs. 8 crores for slum clearance. We hope that the State Government would give highest priority to this subject.

Meanwhile the Corporation has been trying to minimise the hardship of the Bustee-dwellers as much as possible. Special Bustee-Cleaning gangs have been appointed for the purpose and drives are periodically made for wholesale cleansing of the Bustees. Tubewells have been sunk in many places and arrangements have been made for supply of water by lorries.

Last year we created history by our success in raising a loan of Rs. 2,22,72,000/- for our capital projects on fairly good terms. In the current year's Budget, there is a provision for raising loans of the order of Rs. 2,37,45,000/- and all arrangements for raising the loan have been completed so far as the Corporation is concerned. It is, however, awaiting the sanction of the Government. In the next year's Budget, we have provided for raising a loan of Rs. 3,39,62,000 and we seek your permission to raise this loan.

### Corner Turned

The stock-taking I have endeavoured to make would definitely indicate that we have turned the corner in Corporation's functions and finances. Today, there is better and more comprehensive budgeting and what is more important, better financial control. Our efforts for putting the house in order have shown encouraging results. Service regulations have been approved by the Corporation, mechanisation on a modern scale has been put into effect, the costing system has been introduced. Good relations have been developed with the employees and a team spirit has been engendered. The Personnel Department is in the process of being set up. The Budget Estimates have been activated and larger funds are being allocated for civic amenities. The credit of the Corporation has gone higher as may be indicated by the fact that loans can be raised with greater facility. The Corporation's Five-Year Plan is no longer mid-summer madness, now that it has received recognition of the State and the Central Governments, at least in part. A separate Department for attending to the developmental projects has been set up. There is no difficulty in repayment of the loans. All arrears have been wiped out. Method of collection has been improved by the system of postal presentation of Rate Bills and there is now better and prompter collection of arrear dues. Replacement and depreciation funds have been created so as to cushion our finances against sudden shocks in lean years. We are thus leaving a better and stronger Corporation than we received from the Administrator.

### Assistance From Government

In the end, I would appeal through you, Sir, to the Central and the State Governments to better appreciate the significance of this City within a progressing India. Calcutta is the nerve-centre, not only of this State, not only of Eastern India, but also of the country as a whole. Even now it harbours the biggest port, both air and water. Either the highest or the second highest revenues from income-tax and customs duties are raised in this City. The City's contribution in earning foreign exchange vies only with Bombay for the first place. The State Government also raises maximum revenue from this City. I mention all these which I have been mentioning all the time I have been in the Corporation, only to stress repeatedly that this Corporation has to maintain the services in order that all the tax-paying activities can be carried on. I would therefore plead for a little more help and assistance from the Central and State Governments to the Corporation in order to make this city worth its place in the map of India.

## BUDGET DEBATE CONTINUES

Intimating the discussion, COUNCILLOR RANAJIT COOMAR MITTER said that the Corporation had failed to provide compulsory free primary education throughout the city. The money allocated for the purpose was inadequate. There has been a rise in the receipts side since the new Corporation was set up, he said, but unfortunately, that has not resulted a consequential increase in this head rather the expenditure on education remains almost the same as it was allotted earlier.

The Corporation's publicity machinery, Councillor Mitter said, was not up to the expectation due to poor allocation of fund. The Department needed reorganization if they wanted to rouse civic consciousness among the citizens which is the prime need at this moment.

Before conclusion Councillor Mitter wanted that there should be more economy in the expenditure for maintaining the show of administration. He went far say that this was a top-heavy administration set up once under a bureaucratic regime.

COUNCILLOR DR. K. P. GHOSH

Dr. K. P. Ghosh said that the middle class people had been groaning under the burden of Corporation taxes. The higher income groups, he suggested, should be taxed more than the poor middle-class people.

What impressed him much was that the structure of Corporation taxes in the shape of taxes and fees on Trades and Profession falling heavily on the poor wage-earners carrying on trades whereas the rich large-scale trader enjoying relief in other ways. Councillor Dr. Ghosh said that this was against the principle which Gandhiji had taught throughout his life. Even the Taxation Enquiry Commission wanted to bring about a change in this regard but the Corporation authorities have miserably failed to implement those recommendations. The city's conservancy and sewerage system had been deteriorating year in and year out and this was severely criticized by him. For the improvement of bustees, the Corporation had been providing a large amount of money every year, but the amount remained unspent all these years while the insanitary conditions in those places are continuing. Budget allocations for health measures are also meagre and inadequate, Councillor Dr. Ghosh emphasized. He wanted a larger number of T. B. Clinics in the city with Isolation facilities.

Councillor Dr. Ghosh also said that while Bombay spent about 22 p. c. of its income to Primary Education Calcutta's contribution was meagre in comparison to that.

COUNCILLOR S. K. SEN SARMA

Putting up a number of amendments in the Budget allocations presented in the House, Councillor Subrata Kumar Sen Sarma suggested that a Public Hall should be constructed in South Calcutta at a cost of Rs. 10 lakhs for the benefit of the people of that locality. He also selected the site at D. N. Mitter Square lying within the Constituency No. 69. In that connection he said that

the proposal for erecting a Sports Stadium in the city had been put to shelve but this was included in the Corporation's Five Year Development Plan.

Councillor Sen Sarma largely stressed the need for amending the existing Municipal Act withdrawing the benefit of rebate system from the rich and big business firms. The Government, he emphasized, should allocate more money from the Motor Vehicle Tax. The present system of revaluation of properties was defective and the middle class people had been hard hit by it. Detailing out his suggestion Councillor Sen Sarma said that there should be a general lowering of rates of the slabs up to 18 per cent. which had affected the poor section whereas the upper ceiling might be raised in cases of holdings having larger amounts of valuations. He also felt the need of reducing the rate of interest charged in cases of arrear Rate Bills. At the same line he wanted to stop the inflated valuations of city's buildings and properties as shown in the Budget Estimates.

COUNCILLOR N. N. BANERJEE

In a fairly long speech Councillor Nripendra Nath Banerjee said that in the matter of assessment, the properties of the Central Government, Railways, Tramways, Electricity concerns should not be given any concession and they should be treated on par with others. Councillor Banerjee also pointed out many of the defects in the accounting system of the Corporation which he had come across as a Member of the Standing Accounts Committee.

COUNCILLOR J. K. CHAUDHURY

Councillor J. K. Chowdhury, an important member of the Standing Committee, pleaded that the budget as a whole was satisfactory. There had been an "enormous" increase in the revenue derived from household taxes in recent years. But there should have been a uniform percentage of tax with a higher rebate on the poor rote-payers' cases while suggesting a single ceiling rate in respect of all cases of Consolidated Rate, he added.

Councillor Chaudhury also made suggestions for tapping other sources of revenue in order to provide larger amenities to the rate payers and imposition of terminal taxes on those who stayed in the city only for a day but 'shared with the permanent citizens all the amenities the city provides.'

COUNCILLOR S. K. DUTTA

The second day's debate was started by Councillor Shyamal Kumar Dutta who pointed out some of the technical defects in the way of collection of Rate Bills. He thought that when 80 per cent of the collections were made at the counters, the number of bailiffs should be reduced. He also suggested that as the report of the Enforcement Branch Police on Tube-well affairs had not yet been published, funds for sinking more tube wells should not be sanctioned. A suggestion was also made that the Calcutta Municipal Act should be amended in such a way so that

the Corporation could fix the percentage of consolidated rate according to the earning capacity of the ratepayers.

#### DISCUSSION CONCLUDES

Replying to the debate Councillor Dhandhanja remarked that an uniform consolidated rate of 28 per cent. on all bustees was not equitable. According to him there should be an amendment to the present Municipal Act in this regard. He also felt that the consolidated rate was mere service charges which they were collecting from the citizens.

He also said that decentralization of departments would help to improve the municipal work.

He agreed to the appointment of an Expert Committee which should examine the future running of the Electricity Department. Economy should be given priority in this respect and the Deputy Chairman who had the fortune of piloting Corporation finances in the past hoped that the introduction of Costing Accounts' System in the Entally Workshop would surely save Corporation money. Working of the Electricity Department had not been able to satisfy any body even to an expert like Prof. H. C. Guha of the Electricity Department, Jadavpur Technological College. The working of Goragacha Incinerator would also be examined, he assured the House.

Refuting a charge that Corporation Budget Estimates had not been utilized properly the Deputy Chairman told the members that utilization of budget grants by the Corporation had been 40 per cent. more during the year than it was in the previous year.

He was aware that there was shortage of dwelling houses in the city and provided the Act be amended suitably they could move in the matter of removing the congestion. He was told for 27 flats of the Improvement Trust more than 1,000 applications had been filed.

In conclusion, the Deputy Chairman hoped that adequate help was sure to come from the Governments for the fulfilment of the Corporation Five-Year Plan.

#### COUNCILLOR B. K. SARKAR

Giving his personal approval to the Budget Estimates as presented in the House Councillor B. K. Sarkar, felt that the Corporation should move fast in removing the grievances of the rate-payers. He also wanted that the city Corporation's activities would be widened up as had been done in case of Bombay Corporation.

The most important suggestion put up by the Chairman of the Standing Buildings Committee was introduction of the system of General Revaluation of the holdings and properties lying in the city at an interval of twelve years instead of the present six years' period. According to him this would entail considerable economy in the administration as well as a great relief to the rate-payers whose burden had already been doubled under the new assessment. He wanted that the Act would be amended to that effect.

#### COUNCILLOR P. K. SUR

Finding very little in the Estimates which should deserve appreciation Councillor (Prasanta)

Kumar Sur pleaded for larger amenities in the Tollygunge area—which place he represented. Unless the dark Bustee life in that part of the city is changed by a Master Plan, Councillor Sur emphasized, the Corporation can not claim the achievements of wider civic amenities for the citizens. He also felt the need of expanding the Mosquito Control Department including a Special Squad for the Tollygunge area.

#### COUNCILLOR PANNALAL DAS

Himself being a Bustee dweller Councillor Pannalal Das pleaded for larger amenities for the Bustees considered as plague spots in the city. A suggestion to allocate Rs. 15 lakhs for the improvement of Bustee dwellers' lots, was put up by him in the shape of an amendment in the Budget Estimates. But the House did not agree to his proposal.

#### COUNCILLOR B. K. DAW

A number of suggestions in the shape of amendments was put up by Councillor Barendra Krishna Daw, each of them was received by the House in applause. He moved that the present taxation structure of the Corporation should be changed and the basis of assessment should be determined on the income basis instead of the existing valuation of properties. He also felt that the Local Bodies should be given exemption in respect of payment of Electricity Duty or Sales Taxes. The modification of the Food Adulteration Act suitable to operate by the Corporation was demanded by him. Inclusion of the shares of Sales Tax, was the other suggestion, by which he wanted to replenish the Municipal Fund.

#### COUNCILLOR J. L. SAHA

To Councillor Jogindra Lal Saha, M.L.C., the present Act governing the Corporation had not brought immense good to the rate-payers. He felt that the Act should be amended in such a way so that some amount of relief in payment of Rate Bills might be extended to the owner and occupier of the same premises as was provided in the Act of 1928.

As Chairman of the Standing Water Supply Committee, he was confident that unless the Act was amended suitably the Administrative set up would sure to stand in the way for extending larger amenities to the rate-payers.

#### COUNCILLOR ANIL MAITRA

It was difficult to enumerate the varied subjects in relation to Corporation which had not been touched by Councillor Anil Maitra. He was vehement in opposing the proposal for abolition of the Electricity Department and others in order to undergo an effective economy in the expenditure side. He, however, suggested for the appointment of an Expert Committee to examine into the details before the final decision was taken on that day.

Besides the above, Councillors Mani Sanyal, Rabindra Mohan Chatterjee, Dharendra Nath Bose and others participated in the debate.

*Issued as a Supplement to the Calcutta Municipal Gazette dated the 23rd March, 1957.*

**Estimates of Receipts, Expenditure and Balances under the Municipal and other Funds for the year 1957-58, as per modifications made by the Standing Finance Committee in the Commissioner's Budget Estimate.**

(In round numbers)

PARTICULARS.	Opening balance on 1st April, 1957.	Receipts during 1957-58.	Total.	Expenditure during 1957-58.	Closing Balance on 31st March, 1958.
1	2	3	4	5	6
<b>THE MUNICIPAL FUND.</b>	Rs.	Rs.	Rs.	Rs.	Rs.
<b>REVENUE FUND</b> .. ..	(a) 81,81,000	7,83,48,000	8,07,79,000	7,83,27,000	19,82,000

## CORPORATION FINANCE

THE FIFTH and the last Budget of this Corporation has been accepted by the HOUSE. Once more there was a stock taking for the work done during the last one year in the House. The presentation of the Annual Budget has now become a formal function with less amount of enthusiasm than in the past occasions. The introductory speech contains a summary of the best the Corporation have been able to do under the circumstances with their limited resources.

The Budget, as the soul of the administration, stands by its wisdom or falls by its follies. And we are to see how far does the present Budget answers this unspoken question. The reproaches of the common man has yet to be determined. The custodian of the Municipal Fund cannot dismiss them as unfair.

In presenting the Budget, Shri Dhandhanian said that the Bustees would be relegated mainly to the Five-Year Development Plan. Loans would be raised for laying sewers at different undeveloped areas. Amenities to the added areas and other developments could not be provided due to paucity of fund. But preliminary work has already been started to improve the sewage and the supply of filtered water to the satisfaction of the rate-payers. Money for the implementation of the Plan has yet to be found out.

Manifold problems that confront the city to-day, seems to be phenomenal but not the crux of the situation. A similar approach was also made last year. It was an appeal to all the Committees "to strive their utmost to complete the work that they have undertaken". But in order to achieve that end one has to look forward towards the future fixing his attention and engaging his mind by mature treatment and advanced methods. Thus the Corporation to-day stands in trial before the citizens to whom it has been pledged to serve.

The tax structure which usurped so much time and engaged so much attention during the Budget discussion, is another feather to the cap. More in sorrow than in anger Councillor Dhandhanja felt the need of an amendment in this regard. An attempt to remove inequality of taxation on Government property in some degree by the system of grants-in-aid was introduced in the Old British regime. Local taxes on real property are not adjusted according to the degree of the benefits one enjoys. It appears, moreover, that neither benefit nor ability to pay suffice to express the tax-payers relation to the local authority. Rather, combination of these two principles would be more feasible, possibly most equitable for the determination of Rates. So it would be necessary to say that some taxation according to benefits and some according to ability would be a mean way to reach the goal.

By making some 'bold modifications' the Standing Finance Committee has presented a re-assuring Budget for 1957-58. It is a balanced budget prepared after matured deliberations without any proposal for any fresh taxation. There has been larger allotments for the Borough Committees. In spite of handicaps the Committee has stated that 'there is no difficulty in repayment of loans'. All arrear payments have been wiped out. This has been possible due to an improved methods in collection. Thus this has prompted the introducer of the Budget to say—'We are thus leaving a better and stronger Corporation than we received from the Administrator.'

Still the explorer has to find himself entangled in the mire and undergrowth of pathless thickets being oppressed by a still and strifling atmosphere. It is the administrative machinery which did not move accordingly as the citizens desired. That is why there should be a complete and new system of personnel administration safeguarding the merit system and providing an effective career staff for the administrative agencies of this Civic Government.

Lastly, echoing the voice of the Mayor, Emler E. Robinson of San Francisco, we can say that what confronts Local-Governments to-day is the loss or severe curtailment of autonomy due to inadequate financial resources. Calcutta Corporation shares an almost similar fate. Councillor Dhandhanja also pleaded for 'a little and more help and assistance from the Central and the State Governments in order to make this city worth its place in the map of India'. He also wanted a better appreciation of the significance of this city within a progressing India. We cannot but endorse the same view and carry the message to the rest of the country. If Bombay's finances had been implemented through elastic sources why Calcutta shares a different lot?

## VIEWES AND REVIEWS

### ELECTION SEQUEL

Citizens' verdict through ballot boxes has been expressed in a different way than the last general election this year in the matter of selecting their representatives to the State Legislature. There had been stock taking as well as a pick and choice method among the candidates followed by a series of demonstrations through meetings, displaying posters, street-corner meetings, processions, persuasions and what not. The unparalleled exuberance of the people has now cooled down no doubt. The verdict of ballot boxes has been out. In many cases results have shown beyond one's own expectation. Many of the sitting members have been unseated yielding place to the new ones. Some of the leading M.L.A.s in the city who have been unseated have spent many years of their lives in the service of the country, in political, social or educational fields. The results of the election with the number of votes secured by each of the candidates

in the twenty-six constituencies lying in the city with their party affiliations are given hereunder.

We extend our heartfelt congratulations to all of them who will represent the citizens in the State Legislature as well as in the Lok Sabha.

#### ASSEMBLY

##### BOWBAZAR

Dr. B. C. Roy (C)—15,550; Md. Ismail (Com.)—15,010; Shri Mahendra K. Ghose (H.M.)—500.

##### JORABAZAR

Shri Anandilal Podder (C)—16,000; Shri Nalini Kanto Guha (F. B.)—10,152; Shri Banwarilal Dalmia (Ind.)—6,636.

##### ALIPUR

Shri Bannath Lahiri (Com.)—16,535; Shri Ham Ghansha Sanyal (C)—10,990; Shri Narendrak Chowdhury (Ind.)—320.

##### MANIKTOLA

Shri Ranen Sen (Com.-sitting)—22,444; Shri Bankim Banerjee (C)—10,248; Shri Phani Dutt (Ind.)—548; Shri Kailash Ch. Bera (Ind.)—270.

## Calcutta Goes To Polls

The State Chief Minister and the  
Ex-Mayor, Dr. B. C. Roy at the Polling  
Booth before casting his vote.

### A LONG QUEUE

At the polling station in front of  
Santosh Mitter Square under Taltala  
Constituency.

### EXCITEMENT & EXUBERANCE ROSE AT PEAK

Two of our Councillors Ganapati  
Sur and Nandalal Banerjee fought for  
a single seat in the Belgatchia Consti-  
tuency. Shri Ganesh Ghosh, a sitting  
M. L. A. was the third candidate. A  
cycle and a pair of bullocks were used as  
symbols of the two Councillors respec-  
tively.

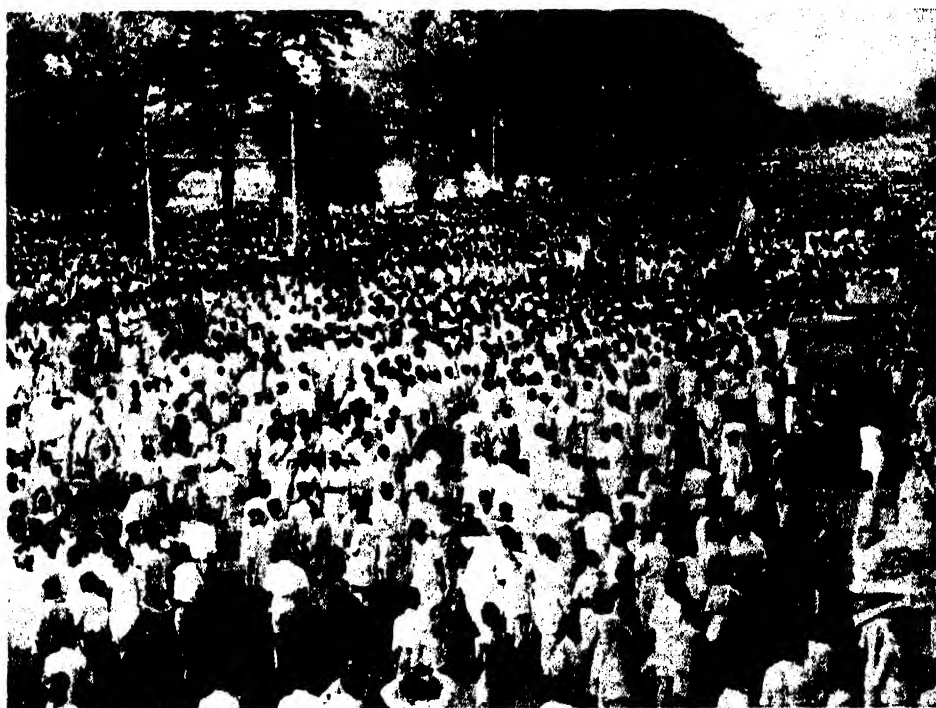

# NO LESS STIRRING AMONG THE FAIRS

Ladies waiting in queues in Muchipari  
area.

## ANXIOUS CROWD AWAITS THE CRUCIAL RESULT

The city witnessed one of the biggest demonstrations in the city on the 17th March last when the election result of Bowbazar Constituency was out.

PHOTOS : S. B. AND SUJIT MITRA.

## COSSIPORE

Shri Devan Sen (P. S. P.)—14,614; Shri Biswanath Roy (C-sitting)—18,610; Shri Sanjib Kumar Biswas (Ind.)—649.

## BARABAZAR

Shri Ewardas Jalan (C-sitting)—20,076; Shri Sitaram Seth (Ind.)—4,185; Shri Sachidananda Pandey (J.S.)—2,806; Shri Nareesh Bhattacharjee (Ind.)—392.

## BHOWANIPORE

Shri Siddhartha Roy (C)—18,699; Shri Saila Sen (P. S. P.)—6,928; Shri Soumendra Nath Tagore (R. C. P. I.)—4,258; Shri Dwijendra Nath Bose (Ind.)—1,878; Shri Ajoy K. Banerjee (Ind.)—209.

## CHOWRINGHEE

Shri Bijoy Singh Nahar (C-sitting M. L. C.)—15,019; Hazi Mohd. Ariff (P. S. P.)—5,869; Janab Samsul Huq (Ind.)—688.

## BELLAGHATA

Shri Ganesh Ghosh (C. P. I.-sitting)—17,501; Shri Nandalal Banerjee (C)—10,575; Shri Ganapati Sur (Ind.)—5,899.

## KALIGHAT

Sm. Manikuntala Sen (C. P. I.-sitting)—17,135; Sm. Bibhabati Mitra (C)—16,271; Shri Ajit Kumar Hazra (Ind.)—582.

## BALLYGUNGE

Shri Jnanendra Mazumder (C. P. I.)—14,654; Sm. Mira Dutta Gupta (C-sitting)—12,880; Jehangir Alam (Ind.)—1,926; Shri Sudhir Kumar Ghose (Ind.)—489.

## VIDYASAGAR

Dr. Narayan Roy (C. P. I.-sitting)—17,718; and Shri Sankar Prosad Mitra (C-sitting)—14,297.

## SHYAMPUR

Shri Hemanta Kumar Bose (F. B.-sitting)—22,505; and Sm. Reba Sen (C.)—8,239.

## EKBALPORE

Shri Narendra Nath Sen (C-sitting)—11,251; Shri Sitaram Singh (C. P. I.)—6,424; Shri Syed Mohd. Soleman (Ind.)—3,071; Shri Nepal Bhattacharjee (Bols.)—2,228; and Shri Keshab Sarkar (Ind.)—244.

## BURTOLA SOUTH

Shri Amar Bose (F. B. M.)—14,022; Shri Shrid Rudra (C)—11,245; Shri Radha Gohinda Mullick (Ind.)—2,550; Shri Satyenil Nath Bose (J. S.)—2,281.

## RASHBEHARI AVENUE

Shri Sunil Das (P. S. P.)—11,968; Shri Priya Ranjan Sen (C-sitting)—11,877; Shri Debajyoti Barman (Ind.)—4,958; Shri Biswanath Dubey (Bols.)—1,448.

## FORT

Dr. Maitreye Bose (C-sitting)—9,877; Shri Narayan Das Gupta (P. S. P.)—4,199; Shri Kashipati Mukherjee (Ind.)—3,284; Shrimati Sudha Roy (Bols.)—1,870.

## BUREA STREET

Shri Suhrid Mullick Chowdhury (F. B. M.-sitting)—18,217; Shri Shiv Kumar Khanna (C)—10,663; Shri Keshab Chakravarti (C. K. P.)—701.

## BELLAGHATA

(Two Seats):

Shri Jagat Bose (C. P. I.)—33,054; Shri Ramasankar Prosad (C. P. I. -Sch.)—30,052; Shri Pulin Behari Khatik (C. Sch-sitting)—20,560; Shri Bidhu Bhusan Sarkar (C)—17,234; Shri Bhabesh Das (Ind.-Sch.)—5,694; Shri Kalyan Brata Roy (Ind.-Sch.)—2,234.

## MUCHIPARA

Shri Jatin Chakravarti (R. S. P.)—15,251; Shri Pratap Ch. Chandra (C)—14,740; Shri Dhiren Bhowmick (Ind.)—847.

## ENTALLY

Shri Abu Asad Md. Obaidul Ghani (C. P. I.)—16,618; Shri J. C. Gupta (C-sitting)—10,529; Shri Balam Mukherjee (Ind.)—768.

## TALTALA

Shri Dharendra Nath Dhar (C. P. I.)—14,098; Shri Nareesh Nath Mukherjee (C-sitting)—12,586; Shri Sardar H. Ansari (Ind.)—923.

## NOTICE

The CALCUTTA MUNICIPAL GAZETTE will not be published on the 30th March next on account of holidays for the introduction of new monetary system in the country.

The Market Prices current will, however, be issued as usual.

The next issue of the GAZETTE will appear on the 6th April next.

## TOLLYGUNGE

Shri Haridas Mitra (P. S. P.)—30,412; Shri Bidhu Bhusan Ghosh (C)—16,091; Shri Jyotish Joardar (Soc.)—4,606; Shri Jiban Lal Chatterjee (Ind.)—2,697.

## JOBABAGAN

Shri Nepal Roy (C-sitting)—15,979; Shri Ajit Biswas (F. B.)—18,797; Shri Begraj Singhee (Ind.)—8,150; Shri Vidya Bhaskar Gupta (J. S.)—1,049; and Sudhindra N. Sen (Ind.)—257.

## BURTOLA NORTH

Shri Sudhir Roy Chowdhury (P. S. P.-sitting)—21,064; and Aparesh Bhattacharji (C)—11,748.

## LOK SABHA\*

## CALCUTTA SOUTH-WEST:

Shri Biren Roy (Ind.)—94,944; Shri Ashim Krishna Datta (C-sitting)—82406; and Shri Rajani Mukherjee (Ind.)—11,297.

## CALCUTTA EAST:

Shri Sadhan Chandra Gupta (C. P. I.-sitting)—148,350; Shri Ranadeb Chowdhury (C)—61,185; and Shri Sunil Krishna Roy Chowdhury (Ind.)—4,227.

\*The results of other two seats have not been available at the time of our going to press.

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRTY-FIFTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 15TH MARCH, 1957.

## CONDOLENCE

At the outset, the House condoled the death of Shri B. G. Kher, a former Chief Minister of Bombay. A feeling reference was made in the House by the Mayor, Shri Satis Chandra Ghosh, who said that after a brilliant academic career the late Shri Kher had joined Mahatma Gandhi's non-violent army of Freedom Fighters. As the first Chief Minister of Bombay State after Independence, the late Shri Kher had laid down healthy traditions that contributed largely to the progress of the State. India owes to-day a deep debt of gratitude to this scholar statesman who served the country well, both as India's High Commissioner in London and later as the Head of the Gandhi Smarak Nidhi and the Official Language Commission, the Mayor added.

The House also adjourned its sitting for ten minutes as a mark of respect to his memory.

## REFUGEES AT SEALDAH

Crowding of refugee people around the Sealdah area was the source of anxiety to the citizens in general. These famished people, sheltered under the sheds of the station, had been leading an unhygienic life in the surrounding area. This was pointed out by Councillor Dr. K. P. Ghosh who said that this would also cause much strain on the Corporation in providing amenities to the citizens. Besides, the epidemic disease raging over the city would easily find a haunting ground in them. Councillor Dr. Ghosh urged the Mayor to move the Government in this connection at least in order to relieve the burden on the Corporation itself.

The Mayor assured the House that he would look into the matter.

## CORPORATION SLAUGHTER HOUSES

Councillor K. L. Dhandhanias drew the attention of the Mayor to the irregularities and malpractices prevailing at Corporation slaughter House at Tangra and sought immediate remedy thereto.

The Commissioner was requested to enquire into the working of the Slaughter House.

## CITY'S DRAINAGES

Great apprehension was expressed by Councillor Subrata Kumar Sen Sarma as to the present condition of the sewers in the city. He said that the huge accumulation of silts were going to choke up the sewers soon. This was discussed earlier in the House and a programme was chalked out to remove those silts by manual process. But recently with the abandonment of that idea the authorities had mooted a plan by which the silts would be removed by mechanical process. But according to Councillor Sen Sarma this would be difficult to implement, and it would take a long time. He urged that the House would

direct the Department concerned to expedite the matter in order to save the citizens from the impending deterioration of public health.

## A ROAD RE-NAMED

The House, on the recommendation of the Borough Committee No. 15, re-named Pipe Road in the Kidderpore area as Sudhir Doctor Road.

It transpires on local enquiry that the name Pipe Road owes its origin to the fact that many years ago this was the road leading to the place where pipes used to be stored in huge quantities after being unloaded from ships. As the existing name does not carry any historical or geographical importance worth the name, "Pipe Road" should be a befitting memory if it is re-named as "Sudhir Doctor Road" having regard to the services rendered by late Dr. Sudhir Kumar Basu, to the people of Kidderpore.

Dr. Sudhir Kumar Bose was the Medical Officer-in-charge of Kidderpore Charitable Dispensary which is situated at Pipe Road. He was a very popular man in the Kidderpore area and was associated with various charitable, educational and political organizations of the locality. On his retirement from service he was elected as a Councillor of the Corporation from the then Ward No. 25 and served in that capacity for one term.

## BIRTH AND DEATH CERTIFICATES

The House, on the recommendation of the Standing Health Committee, approved a set of Draft Bye-laws for the procedure to be adopted in issuing Birth and Death Certificates and levying of fees thereon under Section 580 of the Calcutta Municipal Act, 1951.

These Draft Bye-laws were recommended at a Special Meeting of the Standing Health Committee.

## DEATHS AND DISEASES IN THE CITY

Attacks and deaths from small-pox in the city during the week ended March 16 were 190 and 111 against 259 and 110 the week before respectively. During the corresponding fortnight last year, attacks numbered 11 and deaths eight.

There were 10 attacks and one death from cholera against 12 and four, respectively, in the week before. During the corresponding fortnight last year attacks and deaths numbered eight each.

Thirty-two persons died of tuberculosis against 35 in the week previous, and 34 and 44 in the corresponding weeks last year.

Deaths from all causes during the week under review were 931 against 1,019 in the preceding week, and 556 and 495 in the corresponding weeks last year.

# A City Of Rich, Comfortable And Poor Alike.

By SHRI B. K. SEN, Commissioner, Calcutta Corporation.

SOME of the questions generally put forward, for instance, cleaning up and brightening up the route from the Airport to Government House over which many visitors to India—who come via Airport—pass through and get the first glimpse of the city or what we are doing for clearing up such a route from overcrowding and for putting up nice kerb channels and footpaths by the sides of the route or what we are doing to tackle the stray bulls and cows on the roads, for that matter to remove every eye-sore such as broken down sheds, rickety roofs. On the whole I felt that some of the sites, which found peculiar in our city, are unlike those in some of the cities of Calcutta's magnitude in Europe or probably in America such as Zurich and Reading. I am not at all surprised to find that some questions probably leads to cleaning up or clearing up of the city. As a matter of fact, what it boils down to is that one notices two cities, one which I may describe as backyards of a mofussil town and the other a great metropolis super-imposed one over the other without realising that it is so. This aspect of mofussil towns becomes all the more conspicuous with the background of a metropolis, particularly for one who is not used to it.

To those of us, many of whom in fact are the products of this mofussil towns are not oblivious to it. We do know what is good and what is bad, what is difficult living condition and what is congenial, what is ugly and what is pretty and we all do look forward for good living and lovely homes which will ensure at least that aspect of living which is required by all of us i.e., fresh air and light, plenty of water, a decent roof overhead with good boulevards, convenient conveyance, other recreational amenities, not to speak of good schools, colleges, libraries, hospitals etc., and in fact it is not only our aim and objective but our positive determined effort to transform Calcutta into a homogenous modern city with no more conglomeration of mud houses and sky-scrapers. One will have to admit that in spite of India as a whole being a very poor country it is an achievement for us to produce a city not only of its size and magnitude but of its fame and glitter like that of Calcutta. The new sky-scrapers, beautiful roads and highways, the glamorous and glorious living with magnificent boulevards and highways, Sprawling Maidan right in the heart of the city, wonderful Victoria Memorial, the Gothic Cathedral, flowing river and riverside drive, modern lighting arrangements and transport and what not. Its real problem, as I have already stated, is that part of the city which I have defined as backyards of mofussil.

Narrow streets are there in Naples, but there is a saying "See Naples and die". The alleys and gullies of Calcutta are not our problem. They are the beauty of this town in their association and character. We do not lack in modern mansions and highways and boulevards either. Our real problem is really the bustees of the city which covers  $\frac{1}{4}$ th of the area of old Calcutta (32 sq. miles excluding Tollygunge—8 sq. miles) and where inhabit  $\frac{1}{4}$ th of the total population of the city. As one knows these are but a few pieces of bamboos, salbullahs and in some cases kutoha bricks which form the roof support and framing. Roof coverings are usually of pantiles corrugated iron and sometimes even of cut pieces of canister. Walls vary from ordinary mud-wall to C. I. Sheets, spliced bamboos with mud plaster, durmah and even gunny bags. They have a height which ranges from 6 feet to a maximum of 10 feet. They are in patches, some are small and some are very large; they are not contiguous to one another except in the fringe areas of the city. No localities are absolutely free from such sub-human living. Besides these, there are huts even on main thorough-faces partly used as shops and partly used as dwellings. This is quite apart from the "pavement slums" that

is the wallshops where the shopkeepers' only shelter is the pavement.

In Park Street we find no such bustee and an appearance altogether different with nice shops and mansions,—but in Cornwallis Street and Circular Road there are no less a number of large houses and big shops which gives a quite different picture as the bustees or street slums are either on the road itself or very close to it. Not that we have no law or for that matter no control but one must get his living and Calcutta the great metropolis is the centre of such a living. It is not a city only for the rich,—it is a city for rich, comfortable and poor alike; except a very few, all are men of work and where the most of them are of lower income group.

What it is? How can we force control? For example, driving away the hawkers from the roads or pulling down wall shops on a highway or expect every citizen to come up to a standard that would ensure a living in a masonry house paying an economic rent and naturally the rates to give a higher standard or amenities uniform throughout the city keeping in mind that every fourth man is a bustee dweller who is to-day without adequate city amenities. We are confident, however, as we march on with successful implementation of our national five year plan that our economic standard would automatically go up and everyday we will be in a position better and better for an early removal for such conditions. What is it? It is not only an eye-sore but really a handicap which once overcome will automatically do away with everything that is bad and lacking from the point of modern living in a modern city, be it a lack of pavement, lack of proper conservancy, lack of water supply, lack of gardens, commons and playgrounds, lack of wide roads and boulevards, lack of lovely shops or arcades, lack of congenial homes, lack of good living.

I am not putting up an apologia for the conditions as it is to-day, neither shall I try to evade the issue by excess. To face facts one significant condition is enough to explain everything. It is the density of the city with its lower living standard. In an area of about 32 sq. miles more than 3 million is packed. Apart from overall density local density in certain areas over 350 to the acre is a sufficient test for any attempt to system and order. From the Municipal point of view city services designed for a load has already exceeded it by  $1\frac{1}{4}$  times and to make it worse the refugee problem has called for services without any additional resources.

We are fortunate in having the co-operation of an organization like the Calcutta Improvement Trust working side by side with us with the sole objective of cleaning up and clearing up by opening out new highways and roads and attempting some zonal developments. We are also fortunate that we have a Police Authority intimately connected with us whose indirect contribution to a better city is of no less mention with respect to control over congestion and traffic.

In spite of our difficulties we have to keep in mind that taxation must not be of such a burden that will cause hardship to most and it should be judicious, economic and bearable to a degree for all concerned, particularly when  $\frac{1}{4}$ th area of the city has yet to be subsidised for at least some time to come where the rate obtainable is only  $\frac{1}{16}$ th of the total rates collected. I can only state that what we have done during the last five years that is since the present Municipal Act came into effect and we took the charge of the city after the supersession where I am closely associated as Commissioner.

Our total expenditure for the services that we give have gone up to well over Rs. 788 lakhs as estimated in 1957-58 from Rs. 527 lakhs in 1951-52.

(Continued on next page)

## Dr. Benjamin In Corporation Chest Clinic.

Dr. Benjamin is being acquainted with the working of the Mansatala Chest Clinic.

PHOTO: DELUCA AND CO.

"There is need for a Central Clinic well-equipped for all types of work including miniature X-Ray and Sputum culture. They should have several subsidiary clinics. The work of the clinic

have to be co-ordinated by a Central Tuberculosis Officer under a Central Clinic." Thus observed Dr. P. V. Benjamin, Tuberculosis Advisor to the Government of India, while looking into the working of the Mansatala Chest Clinic, Kidderpore area. Dr. Benjamin who had been in the city for a few days during last week paid a visit there on the 12th March. He looked into the details of the work, (picture beside) and himself operated many of the plants and equipments maintained for the patients. He also appreciated the Corporation scheme for the development of the Clinic with new additions. A number of segregated beds would be established there on the new buildings whose construction was in progress. The Health Officer, Dr. A. Mukherjee, Dr. B. Sarbadhikary, Medical Officer of the Clinic and others acquainted Dr. Benjamin with the system of working there. The achievements of the Clinic impressed him much.

Dr. Benjamin also paid a visit to the Mayor's T.B. Clinic, Rangers' Unit at Belvedere. The Clinic is also run by the Corporation.

(Continued from previous page)

On public health, medical relief and maternity and child welfare our recurring expenditure in 1957-58 is Rs. 47½ lakhs in place of Rs. 38 lakhs in 1951-52. Additional few Maternity Homes have already been started and new ones are in the offing. Everyone is aware of our most modern Tuberculosis Clinics in addition to that of Manasatala Chest Clinic which has been largely extended. Epidemics, though not completely eradicated, but are well under control. Deaths from Cholera has come down to .38 in 1955-56 from 1.84 per thousand in 1950-51. Though the small pox incidence has gone up this year the improvement is evident i.e., .02 per thousand whereas 4.43 in 1950-51. The allround improvement of city's health is evident from the infant mortality, 129.90 in 1955-56, whereas in 1950-51 it was 243.04 and death rate in 1955-56 was 11.94 against 26.28 per thousand in 1950-51.

On maintenance of water supply our expenditure to-day is 78 lakhs against 57 in 1952-53. This does not take into account our capital layout. Literally speaking we have sunk small size tube-wells in hundreds in scarcity areas in bustees and around and a good number of large ones to augment supply of water to the city. So far our latest scheme for Tallah-Pulta 72" Main which would bring an additional 60 million gallons of water at least. We are out to get 300 million gallons of potable water per day along with the abolition of unfiltered water supply which is a cause of some of the epidemics.

Regarding our primary education, I should say though it is a national responsibility, we are playing our part well. Out of 1,00,000 school going children in the city, we are imparting three R's free of cost, to more than 50 per cent of them. Our expenditure on this item has gone up to Rs. 30 lakhs in 1957-58 from 17 lakhs in 1951-52 and number of children to 51,000 in 1956-57 from 42,500 in 1951-52.

People often criticise the condition of roads and footpaths, but, Sir, to-day we are spending Rs. 54 lakhs in 1957-58, against Rs. 20 lakhs in 1951-52. People are apt to forget that many a roads in the city not so long ago were without pavements and kerb channels, to-day they are.

Kalitala is famous for inundation even with the slightest rain-fall, but, Gentlemen, you will remember last year's heavy downpour yet flooding of the city was for a very short period considering several inches of rainfall. The Corporation along with the help

of the State Government have taken up in hand the question of Greater Calcutta Drainage which will soon stop water-logging of the city as well as of the surrounding areas. Our expenditure to-day is Rs. 31 lakhs as against Rs. 24 lakhs in 1951-52.

Talking of conservancy, one may hear the saying that "Calcutta Stinks," but there too we are now spending Rs. 86 lakhs in 1957-58 as against Rs. 72 lakhs in 1951-52. Our biggest problem was and still is to get replacement of old conservancy lorries, not to speak of additions. No doubt we are rapidly implementing the scheme of "House to House Collection" throughout the city and as soon as we succeed completely, dustbins will be a thing of the past.

I am not mentioning about the various grants we have to make to hospitals, libraries and schools which, though not apparent, no doubt help to create condition which is our objective. Constantly we have in mind what changes there must be here and there of the existing legislature, rules and bye-laws that will lead us to make a better Calcutta.

Imposition of Eating House Bye-laws has already resulted in the removal of the street side ovens and many a shop has been put up already over the city with lovely show cases and shop fronts. The advertisement bye-laws, when under full operation will definitely control fly-postering and many a disfiguring. Our latest move for Awning Bye-laws will do away with wall-shops and street counters. Regarding our parks and squares you are the best Judges what improvements we have done.

The cattle and Khatala are on the move to Haringhata. Vigorous attempts are going on to modify the building rules to bring in architectural control over buildings. The drive for better lighting which may appear to many as unplanned will ultimately, when dove-tailed with lights on tramway poles and modern lighting on other highways, planned modern illumination is inevitable. Not only we have increased the quantity of amenities but also have improved the quality.

If we can implement Corporation's Five-Year Development Plan, the city will be further transformed into a Calcutta which will not only be more beautiful but healthy and a congenial place to live in.

\*A text of the talk delivered on the 12th March last at the meeting of the Rotary Club.

## CITY-NEWS-PARADE

**OBITUARY:** Death took place of Shri Dayaram Poddar, a prominent business magnate in the city on Tuesday, the 19th March last. He was 64.

A popular figure in the business circle the late Shri Poddar was of very generous disposition and was connected with many charitable institutions including Bangur Hospital, Tollygunge, Marwari Hospital and such like. He was also a Trustee of All-India Music Conference.

**AN EXHIBITION OF FINE SARIS,** all handwoven fabrics, was opened by Lady Ranu Mookerjee at the Government Industrial Museum, Chittaranjan Avenue, on Monday, the 18th March. About 100 saris with Baluchar (Murshidabad), Benares, Katki, and Aurangabad designs were on display. Some of the Baluchar saris were stated to be 18th century products.

Dr. Nihar Ranjan Roy, who presided, said that cottage industries could not survive without larger public support. Mere imitation of old designs was not enough to revive these old arts and crafts. Products of cottage industries should meet the needs of the people.

The exhibition was visited by a large number of people mostly ladies.

**DR. WILLI ALBERT RITTER** of the Press Information Bureau, Federal Republic of Germany, reached the city on Thursday, the 14th March last, on a three-day visit.

During his stay he saw the Governor of West Bengal, Shrimati Padmaja Naidu. Dr. Ritter said that his visit was for mutual understanding as the Press all over the world were of the same class.

**DEMONSTRATIONS:** Calcutta was full of enthusiasm and excitement since the results of Ballot Boxes were out. The week-long joyful festival of the supporters of the winning candidates continued with demonstrations in the shape of processions and rallies in their respective Assembly constituencies.

The excitement reached fever pitch on Sunday, the 17th March when counting took place at the former United Service Club Building on Chowringhee Road. Supporters of rival candidates, collected in the area from early morning, swelled into thousands as the day advanced and blocked the carriageway. This was the first day of counting in the Calcutta Constituencies. The contestants, the State Chief Minister and Ex-Mayor of Calcutta Dr. Bidhan Chandra Roy and Md. Ismail, a prominent labour leader, were engaged in a straight fight in the Bowbazar area. Claims and counter-claims about the lead of their respective candidates during the seven-hour counting were made, and in their attempts to control the disorderly crowd, the Police were attacked. To restore order, the Mounted Police charged and tear-gas shells were used several times. Seventy-five persons including fifteen police-men were injured when a crowd of several thousands gathering near the Club Buildings were taken aback by some unsocial elements.

During the clashes a motor-cycle was burned on Mayo Road. The Police were unable to state what exactly had led to such situation. Three arrests were also made in that connection.

A considerable amount of betting on the result also took place particularly in the Burrabazar area.

**WEST BENGAL LEGISLATURE'S Budget Session** resumed on Monday, the 18th March. The State Council met in the morning and adjourned its sitting for the day as a mark of respect to the memory of one of its important members, Shri Tarakdas Banerjee. The late Banerjee was a representative of the Nuddea-Murshidabad Local Bodies Constituency.

The Assembly met at 3 P. M. when the Budget for 1957-58 for five months was presented for voting on account to enable the Government to carry on till the new House is constituted. The Supplementary Budget for 1956-57 was also presented. The agenda for the resumed session included consideration of three short Bills introduced at the beginning of the Session and a motion of thanks to the Governor for her address to the Joint Session of the Legislature. On Tuesday, Dr. Roy also presented the interim Budget in the Council. The Legislative Assembly and the Council both discussed the Governor's address and thanks were extended on their behalf. There were divisions of opinion on this issue.

On Monday the State Finance Minister, Dr. B. C. Roy gave Legislative Assembly Members an indication of what the Budget proposals of the State for 1957-58 might be. The elections being over and the new House coming into being in the first week of May, the adopted procedure demanded, said Dr. Roy, that the Budget for the next financial year be passed to the successor. The State Finance Minister's proposals showed a total deficit of about Rs. 12.18 crores on revenue and outside revenue accounts, compared with about Rs. 8.33 crores under the Revised Estimate for the current year. Revenue Receipts and expenditure have been estimated at nearly Rs. 60.69 crores and Rs. 71.42 crores, respectively.

Attendance in the Legislative Assembly being remarkably thin during the short session seemed that the members were engrossed in election affairs. Orders under Section 144 Cr. P. C. have also been promulgated in the Assembly area.

**THE FAMILY OF MAN,** an exhibition sponsored by the United States' Information Service was opened at Ranji Stadium, Eden Gardens, by Mr. Justice P. B. Chakravarti, Chief Justice of Calcutta High Court, on Friday, the 15th March.

The exhibition is a collection of 503 photographs from 68 countries, which emphasizes the truth of the Scottish poet's theme: "A man is a man for a' that" and the oneness of man despite superficial differences.

The exhibition is going to stay at least a month. In the meantime there has been rushes in all these days.

**HOLY OR SPRING FESTIVAL** was celebrated in the city on the 16th March last. The bright colours used in the celebration represented the earth putting forth new leaves and flowers at the change of the season. There is a popular belief that the coloured powders have anti-septic properties and are particularly useful in the prevention of small-pox.

An equal enthusiasm was witnessed among the citizens as in previous years in the day. Several arrests were also made who were termed as Holy revellers for their unruly conduct.

# CORPORATION NOTICES

## Drainage Department

### NOTICE.

Tenders for the following work are invited and will be received by the Executive Engineer, Drainage, in duplicate in sealed covers superscribed "Tender for construction of a manhole shaft over the brick sewer opposite 14-Hasra Road on the 28th March, 1957 up to 2 P.M.

Details of the estimate may be obtained from the office of the Drainage Department, during office hours.

1. Construction of a manhole shaft over the brick sewer opposite 14-Hasra Road—Rs. 501/- dated 9th January, 1957 (2 weeks).

K. L. DE,

## A POWERFUL DISINFECTING FLUID

### —DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,  
Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supdt., S. S. Hogg Market.

## VIEWS AND REVIEWS

### DR. ROY RE-ELECTED

The present State Chief Minister and the City's Ex-Mayor, Dr. B. C. Roy, has been re-elected as Leader of the West Bengal Congress Parliamentary Party at a meeting of the newly elected members of the Assembly. This is a right choice no doubt. There is no difference of opinion as to Dr. Roy's leadership and ability in the rank and file of the legislators as expressed in that meeting held on Tuesday, the 2nd April, 1957.

Dr. Roy's name was proposed by Shri P. C. Sen and was seconded by Janab Fazlur Rahaman of Nadia. Felicitations were offered by different members. Replying on that occasion Dr. Roy also spoke few words befitting the time. He has rightly said that the Assembly members should be inspired with a burning zeal to work for the masses.

Following the day of his re-election he has submitted resignation of his Cabinet to the State Governor on behalf of himself and other Ministers. But the ministry will continue till a new council of ministers is sworn in.

Under a Notification issued by the Governor, the West Bengal Assembly was dissolved on Friday, the 5th April. The new House has also

come into being on this day with the taking of Oath of Allegiance by a few elected members.

We also offer our felicitations to Dr. Roy on this occasion.

### EPIDEMIC CONTROL IN THE CITY

We welcome the formation of a permanent body with representatives from the Corporation, the Indian Medical Association (Calcutta Branch), and the Health Directorate of the West Bengal Government in order to take steps for eradicating the small-pox epidemic from the city. It will also tackle other health problems of the city. This was decided at a joint meeting held recently at the initiative of Councillor Dr. P. K. Roy Chaudhury, in the Central Municipal Office Buildings, between the authorities of the Indian Medical Association, (Calcutta Branch), the members of the Standing Health Committee and the Health Officer and the District Health Officers of the Corporation.

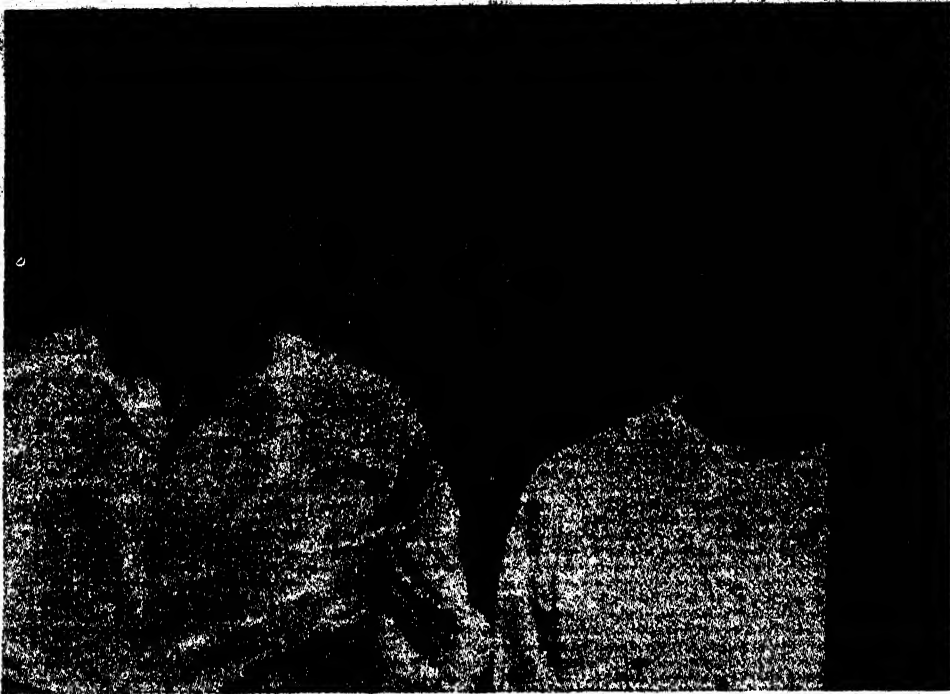

The Body being represented by all the groups and men of ability would sure to activate the Health Department in a better way than on previous occasions in the matter of fighting the epidemic diseases. Besides, the joint efforts of the three different organizations would devise better methods. It may be recalled here that the city is still in the grip of that epidemic disease.

DEATH HAS LEVELLED THEM STILL THEY SHONE IN THEIR RESPECTIVE SPHERES

PHOTO : SAMBHU BANERJEE.

### SHRI SATYAPRIYA BANERJEE PASSES AWAY

Death has snatched away from amongst us Shri Satyapriya Banerjee, M.P., an important political figure as well as a Trade Union leader in the country. The late Shri Banerjee had been suffering from intestinal trouble for some time past. He was admitted into the Sukhlal Karnani Hospital a week before his death for treatment and died there on the 23rd March last. He was 63. (Picture above on the right).

The late Shri Banerjee started his career as a pioneer of youth movement in early thirties, later on became an important parliamentarian under the banner of the Indian National Congress and lastly was known as a top-ranking Trade Union leader in the country. He was the Vice-President of Indian Trade Union Congress, and President of Marxist Forward Block Party. To the Corporation employees he was intimately attached as the President of the Calcutta Corporation Clerks' Union. He always took a keen interest in the fulfilment of employees' grievances. And thus his death is considered to be a great loss to them. As a forceful public speaker and as a parliamentarian his name will be long remembered. His contribution in the struggle for India's independence is worth-mentioning. He suffered imprisonment for a considerable period as one of the leaders of the Congress.

The late Shri Banerjee was universally loved and respected in the country for his amiable disposition. His unassuming character drew a large number of followers and friends towards him.

As soon as the news of his death spread over the city a large number of citizens rushed to the Hospital in the afternoon. The State Chief Minister, Dr. B. C. Roy, was in his bedside some time before his death. Others who attended were Shri Jyoti Basu, M.L.A., Shri Hemanta Kumar Basu, M.L.A., Shri Amar Basu, M.L.A., Shri Bankim Mukherjee, M.L.A., and a number of newly elected legislators, Councillors Dr. K.

P. Ghosh, P. K. Sur and others were also present. Wreaths were placed on behalf of different organizations and individuals including the Corporation Clerks' Union and the Corporation Workers' Union. The funeral procession which carried his body on the next morning was followed by a large number of citizens from all ranks of life.

The late Shri Banerjee's death was widely mourned in the country. The Rajya Sabha, New Delhi, made a feeling reference on the death of one of its important members. The Lok Sabha, the West Bengal State Legislatures, and different other public bodies and institutions also mourned his death. Messages expressing grief and sorrow at his death were received from different individuals by his son.

The weekly meeting of the Corporation was adjourned for the day on the 25th March last as a mark of respect to his memory. The death was referred to in the House by the Mayor, Shri Satis Chandra Ghosh, who knew him from his early days, described the eventful career of late Shri Banerjee as a guiding star to the future generations of the country. The Mayor also acknowledged the leadership of late Shri Banerjee in the cause of India's struggle for freedom.

At a largely attended meeting held later on in the Indian Association Hall, the citizens mourned his death. A resolution was also passed requesting the Corporation to re-name Naktala Park, Tollygunge area, where he lived for the last few years, as 'Satyapriya Park'. The President of the meeting, Shri Vivekananda Mukherjee, Editor of Jugantar, Shri Bankim Mukherjee, M.L.A., Shri Sibnath Banerjee, Shri Jatin Chakraverty, M.L.A., and others referred to the manifold qualities and activities of late Shri Banerjee. They said extra-ordinary was his talent and love for the country.

We also extend our sincerest condolences to the members of the bereaved family.

Son of a distinguished educationist late Shri Kumudini Kanto Banerjee, Principal, Rajsahi

Government College. Satyapriya had his early education there. He took his M.A. and B.L. degrees from the University of Calcutta and then went to Germany to study politics in Berlin University. During his stay there for five years, 1922-27 he came in contact with important Trade Union leaders of Germany and the U.K.

After his return, he began to take increasing interest in politics which he had cultivated as a member of the famous Jugantar Party while a student. In 1930 he became Secretary of the Bengal Provincial Congress Committee.

The late Shri Banerjee joined the Calcutta High Court for some time but soon gave up practice to join the Civil Disobedience Movement. He was arrested in connexion with the Salt Satyagraha and suffered imprisonment till 1933.

He was a Congress M.L.A. in the Bengal Provincial Assembly from 1937-45 representing his own district. He was for some time Secretary of the State Congress Parliamentary Party under the leadership of late Shri Sarat Chandra Bose. In 1939, he joined the Forward Bloc formed by Netaji Subhas Chandra Bose. He was arrested again in connexion with the 1942 Movement, and was in jail for three years. He was elected to the Central Legislature, New Delhi, in November, 1945 and was its Member till the House was dissolved in 1947.

After the Partition he became active in the Trade Union field and was elected Vice-President of the All-India Trade Union Congress and later President of the West Bengal Branch of the A. I. T. U. C. In 1951, he became Secretary of the All-India Forward Block Marxist group. At the time of his death, he was Vice-President of the Trade Union Congress, All-India Peace Council, and President of the United Central Refugee Council.

The late Shri Banerjee fought Dr. Roy in the 1952 elections and was defeated. He was elected a member of the Rajya Sabha by the West Bengal Assembly members. After the expiry of a term he was re-elected. Within recent years he visited East Europe and Asian countries including U. S. S. R. and China as a Trade Union leader and as a promoter of peace in the world.

#### SHRI MRINAL KANTI BOSE IS NO MORE

Death of Shri Mrinal Kanti Bose, an eminent Journalist and Trade Union leader, has created a void both in the fields of Journalism and Trade Unionism, which will be difficult to fill up in the future. Shri Bose died at the Sukhlal Karnani Memorial Hospital on the 24th March last. He was 71. (Picture on previous page left side).

The late Shri Bose had an attack of Thrombosis of the brain on the 15th March last while he was taking his usual morning walk. He fell down unconscious and was removed to the hospital. Since then he had been passing through a critical condition. The State Chief Minister, Dr. B. C. Roy also visited him in one of the days during his illness.

A large number of friends and journalists paid their last respects to Sri Bose by attending him at his death-bed. Dr. Prafulla Chandra Ghosh, Chairman of the West Bengal P.S.P., Shri Jyoti Basu, M.L.A., and many

Trade Union leaders joined the procession carrying the dead body of late Shri Bose which started from his South End Park residence on the following morning.

Among those who called on his bedside either at the Hospital or at the burning Ghat to pay their homage were the Mayor, Shri Satis Chandra Ghosh, Shri S. C. Roy, Sheriff of Calcutta, Shri Tushar Kanti Ghosh, Shri Vivekananda Mukherjee and others.

Floral wreaths were offered on the bier on behalf of innumerable organizations and individuals.

The death of Shri Mrinal Kanti Bose was taken by the citizens as the loss of a near and dear one particularly by the journalists in the city. The Indian Journalists' Association condoned his death in an exclusive meeting which described it as a great loss to Indian Journalism. He has been a tireless worker in the field of political journalism for several decades and made great contributions to public understanding of political realities, said the resolution.

His death was also referred to in the weekly meeting of the Corporation on the 25th March last by the Mayor, Shri Satis Chandra Ghosh, who paid eloquent tributes to his memory. The Mayor said that the grief and sorrow at his death would be shared by the citizens. To the Mayor who had maintained a personal relationship with late Shri Bose during his lifetime the sorrow was immense.

The House was also adjourned for the day as a mark of respect to his memory.

At a largely attended memorial meeting in the Indian Association Hall tributes were paid to his memory by different speakers on behalf of their respective organizations. A resolution to re-name the South End Park as 'Mrinal Kanti Park' was passed at the meeting.

We also extend our sincerest condolences to the members of the bereaved family.

The late Shri Bose, who had a brilliant academic record, started his career as a pleader in his home town of Jessore. Later, he turned to journalism, joining the 'Amrita Bazar Patrika' as a Sub-Editor in 1918 and becoming the Editor of the paper in 1922. He became the Founder Secretary of the Indian Journalists' Association in 1922, and was the President of All-India Trade Union Federation in 1923. He was also elected as President of the All-India Trade Union Congress in 1946 and the General Secretary of the United Trade Union Congress in 1949. The late Shri Bose also served as a Lecturer in History for some years in the Bangabasi College.

The late Shri Bose left the Patrika in 1923 and worked as the Editor of the now-defunct 'Forward' for about a year and returned to Patrika as an Associate Editor.

#### SHRI DAKSHINA MAJUMDAR DEAD

We deeply regret to announce the death of Shri Dakshina Ranjan Mitra Majumdar, the well-known writer of children's books in Bengali. The death took place at his Monoharpukur residence on Saturday, the 30th March last. He had been

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRTY-SIXTH ADJOURNED MEETING OF THE CORPORATION HELD ON TUESDAY, THE 26TH MARCH, 1957.

## RAMKRISHNA MEMORIAL

The Corporation, on the recommendation of the Standing Town Planning and Improvement Committee, decided to co-operate with Shri Ram Krishna Mahanirvan Association, a new organization constituted to build a fitting memorial of Ramkrishna Paramhansadev at Cossipore Burning Ghat.

## CORPORATION LAND FOR BYAMAGAR

Based on the recommendation of the Standing Town Planning and Improvement Committee, the House granted license to the Secretary, Udbodhan Park Byamagar, for the use of an open Corporation land lying at the junction of Amir Ali Avenue and Jhowtolla Road under certain conditions. The Byamagar will also be permitted to put up a small wooden cabin for storing their apparatus.

## BANGIYA BYAYAM SAMITY.

Based on a similar recommendation, the House allowed Bangiya Byayam Samity to use 10 kottahs of open land at 1, Vidyasagar Street, Ward No. 29, on payment of usual license fees, under certain conditions. The land will be utilised as a field for undergoing physical exercises by the youngmen of the locality.

It may be recalled here that the Samity owes its existence to the late Shri Pulin Behary Das, a great revolutionary of Bengal.

## NEW MARKETS IN THE CITY

The House, on the recommendation of the Standing Public Utilities and Markets Committee, declared a few places in the city as public markets.

## SHRI N. K. MONDAL

In pursuance of the recommendation of the Standing Finance Committee, the House requested the Municipal Service Commission to reconsider their decision in the appointment of Shri N. K. Mondal, as the Collector to the Corporation. The Standing Committee in its recommendation thought that Shri Mondal would be the proper person to fill in the post of the Collector in recognition of his past services to the institution.

Shri Mondal, the Acting Collector, possesses 'considerable experience in the collection of revenue first as an Inspector and then as an Assistant Collector of the Corporation. He also acted as License Officer for a considerable period the second biggest revenue-earning department in the Corporation. In all these capacities, he has earned a high reputation as a competent and able officer.'

## BUILDING SQUAD

The House, on the recommendation of the Standing Finance Committee, permanently created a set of additional staff named as Demolition Squad, under the Building Department, Corporation, for carrying out demolition work of old and insecure buildings in the city considered unsafe

for accommodation. The Squad has already started its activities since the re-organization of the Department was given effect to.

## AN ADMINISTRATIVE SANCTION

The House, on the recommendation of the Standing Town Planning and Improvement Committee, gave administrative sanction for splaying off corners of two roadsides at Gariahat Road for facility of vehicular traffic.

## RECRUITMENT REGULATIONS

The House on the recommendation of the Standing Finance Committee, approved draft regulations in connection with the appointment to posts, as indicated below. The rules have been framed finally by the Municipal Service Commission.

- (a) Regulations relating to recruitment to posts of clerks, the maximum salary of which is below Rs. 250/- per month.
- (b) Regulations relating to recruitment to posts of Stenographers and Steno-Typists.
- (c) Regulations relating to recruitment to posts of Typists.
- (d) Regulations relating to recruitment to posts of Assistant Sanitary Officer, Food Inspector, and Inspector (Mosquito), Health Department.
- (e) Regulations relating to recruitment to posts of Headmasters, Headmistresses, Assistant Headmasters, Assistant Headmistresses and Assistant Teachers.

## —VIEWS AND REVIEWS

(Continued from previous page)

suffering from gastric ulcer for some time past. He was 79.

Author of more than twenty books for the children the late Shri Mitra Majumdar was held in high esteem in the domain of Bengali literature. Among his popular books are "Thakurmar Jhuli", "Thakurdadar Jhul", "Dadamasayer Thale", and others.

After passing the M. A. Examination in English he took the cause of juvenile literature. Being devoted to this line for over 50 years he developed a characteristic style and earned great fame.

During Rabindra Nath Tagore's life-time he played with appreciation, the role of Thakurda in the drama "Dak-Ghar". He widely travelled the villages of Bengal and collected valuable folk-songs. He was the recipient of a number of laurels conferred on him by different organizations. In recognition of his great contribution to Bengali literature West Bengal Pradesh Congress Committee felicitated him last year. He also won the 'Bhubaneswari Medal' as the best writer in juvenile literature.

His death was also mourned by different organizations and individuals.

We extend our sincerest condolences to the members of the bereaved family.

## Corporation Election Peacefully Passes Off

POLLING was brisk and heavy on the 29th March last, when the citizens voted for selecting their representatives in the Council Chamber. Elections were held in 75 Constituencies, one member representing one ward, as five of the sitting members were returned unopposed. Except a few minor incidents the day passed off peacefully. A few cases of impersonification were also reported in that connection.

The Calcutta Municipal Act, 1951, provided a limited franchise for the citizens. Even a considerable number possessing the requisite qualifications were left out of the voters' list due to some reason or other. And thus it can be said that election took place on a restricted franchise each ward having a list numbering between 700 and 3,000. A small span of time was allowed for the candidates to enlist the support of their respective voters in their favour.

In spite of the fact that the number of votes polled was quite satisfactory, the percentage had exceeded 70 per cent in many of the constituencies. Hard contest was also witnessed in several wards specially where a straight fight took place between a sitting Councillor and his rival professing a different political faith.

Excitement over the elections was not lacking although the number of enlisted voters was 1.95 lakhs only. On polling day, interest was confined largely to areas near the polling stations, spread over 36.29 square miles. Based on a miniature scale the pattern of canvassing by rival candidates and the police arrangements were almost exactly the same as in connexion with the recent general elections in the city. There was the same array of posters showing symbols of candidates, and of pavement camps for the temporary offices of the supporters of candidates. Volunteers of candidates stood at scheduled distances from the polling stations. Women volunteers were keener than usual in challenging suspicious voters.

Female voters were found more enthusiastic than men about the elections on this occasion and in several areas more than 90 per cent of them cast their votes. For the convenience of women separate polling stations had been earmarked. There was a women's booth in the Dalhousie Square area where a single vote was cast out of eleven.

The enthusiasm and exuberance were great in the northern part of the city particularly in the Burrabazar area where the number of candidates had reached the figure of two digits for a single seat. Close vigil, however, did not totally prevent impersonation, and throughout the day, on the report of polling officers, the police took into custody of 28 persons on the same charge. Police arrangements were impressive. Six hundred police officers and men, besides 400 National Volunteers were on duty.

### A SHORT PERIOD PREPARATION

Hardly a fortnight was given to the candidates to prepare themselves for the general election of one of the biggest Corporations in India. The last date for filing Nominations was on the 18th March. The scrutiny was arranged on the 20th leaving three days more for the candidates to withdraw their names from the contest if they so desired.

Except five Councillors the rest of the 75 sitting members stood for the contest. One seat was lying vacant since December last due to death of the representative of Ward No. 25. Fortunately five of the sitting Councillors came out successful being unopposed. They are Shri GOVINDA CHANDRA DEY—Ward No. 20; Shri SHIV KUMAR KHANNA—Ward

No. 34; Shri DURLAV CHANDRA MAJUMDAR—Ward No. 37; Shri CHITTARANJAN CHATTERJEE—Ward No. 66; and Dr. P. K. ROY CHAUDHURY—Ward No. 68.

Candidates for the elections were out canvassing electoral support. Many of the sitting Councillors had to face questions regarding municipal administration.

Newly-elected M.P.s and M.L.A.s also went on canvassing in support for their candidates. There were three women candidates this time. The independent candidates moved in their own way.

The Congress candidates quoted figures in support of their claim that as the party in power in the Corporation for the last five years they had increased the daily supply of both filtered and

unfiltered water by about 10 milli-litres gallons. They had sunk about 1,200 tubewells during this period. Since 1952-53, when they took over the charge, the 388 miles roads were in a bad state of maintenance, but for the present there were 454 miles of well-kept roads in the city. They have more than doubled the number of electric lights. The daily removal of garbage which was 2,000 tons had been increased to 2,500 tons.

The candidates of the United Citizens' Municipal Association, who formed the minority

group in the House, said that if there had been any improvement in the city life, it was because of the U. C. C.'s presence in the Corporation. It was they who by their criticism and constant vigilance over the activities of the authorities made the Corporation undertake some development work in the interest of the rate-payers. They also attacked the Calcutta Municipal Act of 1951, introduced by the Government as undemocratic and in some respects, 'anti-people'.

## VERDICT OF BALLOT BOXES

The voting being over, on the appointed day about 2,000 ballot boxes were brought to the Central Municipal Office Buildings under police escorts and lodged in the Councillors' Club Room. Police guards were posted there till the counting was over by March 31.

The scenes witnessed both on the 30th and 31st March outside the Central Municipal Office Buildings, Surendranath Banerjee Road, where the counting took place, were reminiscent of the general elections held a few days earlier. Supporters of rival candidates had collected outside the buildings from early morning each day and many among them did not leave their positions until late in the evening when the day's counting was over. Processions to celebrate victories were then taken out. The entrance to the buildings were guarded by the police.

The counting was done with the help of Corporation Officials under the supervision of the respective Returning Officers.

### CONSTITUENCY No. 1

SHRI SUSHIL KUMAR PAUL (Congress)—868; Shri Rabindra Mohan Chatterjee (U.C.C.-sitting)—586; Shri Bikramjit Roy Choudhury (Ind.)—161; Shri Pulindra Nath Chatterjee (Ind.)—153; Shri Krishna Das Agarwalla (Ind.)—111.

## *Mayor's Goodwishes To The Outgoing Councillors*

THE MAYOR AND THE COMMISSIONER  
IN THE FAREWELL PARTY

Good sentiments were expressed when the outgoing Mayor, Shri Satis Chandra Ghosh, bade farewell to the Members of the House at the end of the thirty-sixth adjourned meeting of the Corporation on the 26th March last. That was the last meeting of the Corporation before the House was dissolved on the 31st March.

At the conclusion of the meeting the Mayor congratulated the Members for their co-operation and help in carrying on the business of the House. Shri Ghosh spoke eloquently on the conduct of the members during his Mayoralty and extended his goodwishes to all. He hoped that they would face the election with courage and confidence and would be re-elected by dint of their services they have so long rendered to the citizens.

As an humble Member of this House I came to represent a part of the city in 1927. It was in this House I came in contact with persons who were great and mighty. And before I retire, I am complacent to say that it has grown into an institution in itself—the Mayor concluded in a reminiscent mood.

In return, the Members of the House gave a hearty farewell to the Mayor, Shri Satis Chandra Ghosh and the Deputy Mayor, Dr. Amarnath Mukerji.

The Members re-called how the Mayor had guided the House from the Chair as well as a leader of the House in the past. They said how his presence of mind had saved many a complicated matter the House had faced. Some of them also referred to the guidance and advice the Mayor

## CIVIC ELECTION IN HOWRAH

MARCH 29 was not only the day for general elections in this city but also it was the day when a similar general election was held in the 30-ward municipal limits of Howrah, the second largest city in West Bengal. The last general election was held in 1952 but the Municipality was superseded by the State Government due to mal-administration and other reasons on the 21st April, 1954.

Marked enthusiasm prevailed among the voters, who numbered 44,000, during the polling which began at 7 A.M. and continued till 4 P.M. with an hour's break at mid-day. Except for a few minor incidents, the election passed off peacefully. In one of the incidents, a cracker was thrown from a running bus, injuring a policeman.

Over 65 per cent. of the voters were stated to have exercised their franchise. A large number of votes was declared invalid.

Large crowds gathered at the 30 stations when counting took place after polling was over. It took about four hours to finish the counting.

There were 97 candidates. The successful candidates are:—Dr. Sachin Samanta, Shri Gourhari Ghosh, Shri Sankarlal Mukherjee, Shri Govinda Ganguly, Shri Nirmal Kumar Mukherjee, Shri Satya Kinkar Sen, Dr. Dwijendra Lal Ghosh, Shri Rupnarayan Singh, Shri Asoke Mallik, Shri Subuddhi Nandi, Shri Jugal Krishna Mandal, Shri Krishna Das Mandal, Shri Saradendu Seth, Shri Kishori Sharan Sribastab, Shri Rabindra Lal Sinha, Shri Sushil Ghosh, Shri Sudhir Mukherjee, Dr. Bijoy Bhushan Lahiri, Shri Krishnadhan Chatterjee, Shri Khagendranath Adhikari, Shri Alakdutt Das, Shri Suhrid Biswas, Dr. Nitai Chakravorty, Sh. Mohammad Iasin Ansari, Dr. Kanailal Bhattacharya, M.L.A., Shri Ramprashad Mukherjee, Shri Bhola Das, Shri Sukumar Dutta, Shri Danu Bose and Shri Radhakrishna Mathuria.

## Personalia

## POLISH PREMIER IN THE CITY

Accompanied by his wife and a party of 25 including two Ministers and several Deputy Ministers, the Polish Prime Minister, Mr. Joseph Cyrankiewicz, reached the city on 1st April on a two-day visit. He flew by an I. A. F. Viscount, Puspaka, from Bombay. It was his last stop in a ten-day tour of India.

At Dum Dum the Polish Premier was parland-ed by the State Chief Minister, Dr. B. C. Roy, in presence of a large gathering including the members of the city's Consular Corps and several State Ministers and Deputy Ministers.

Being a State Guest, Mr. Cyrankiewicz and his party were taken to Raj Bhavan. People cheered him up lined on the eight-mile route decorated with National Flags of the two countries India and Poland, and festoons overhead welcoming the party.

They had busy days during their stay in the city. For the first time in their lives, the Polish Prime Minister and his wife rode an elephant during their visit to the Zoo on Tuesday morning. Later, they spent two hours at the Indian Museum and the Government Art College.

In the National Library, Mr. Cyrankiewicz saw arrangements for the cataloguing and stacking of books. The arrangements, the Prime Minister said, were "on the most modern lines." He presented to the library the 16-volume works of Mickiewicz, a renowned Polish poet whose 100th anniversary was celebrated last year.

At a Press Conference in the evening the Polish Prime Minister said that "during our short stay in India our impressions that in India Poland 'has a great friend have been fully confirmed'. Acquainting the Press men with the details of his country Mr. Cyrankiewicz stressed the need of establishing closer relationship between the two countries.

The Prime Minister of Poland left the city for Hanoi on Wednesday, the 3rd April in a specially chartered Indian Airlines Skymaster. Among those who saw him off were Dr. Roy and Shri K. P. S. Menon, Indian Ambassador to the U. S. S. R. and Poland.

## MAYOR'S GOODWISHES TO THE OUTGOING COUNCILLORS

(Continued from previous page)

had provided in tiding over the difficult situations.

Those who spoke on the occasion were Councillors J. K. Chaudhury, R. M. Chatterjee, S. K. Gupta, I.C.S., J. L. Saha, M.L.C., and others. Speeches were full of emotion and sentiment as the House would miss the presence of such personalities as the present Mayor and the present Deputy Mayor.

The Mayor from the Chair also bade farewell to the Corporation officials particularly to those whom he came across in course of his renewed association with the Corporation during the last five years. Warm handshakes were also given to the Deputy Mayor, the Secretary and the official Reporter.

## A BRIEF FAREWELL PARTY

Words failed to express the feelings when the Mayor, Shri Satis Chandra Ghosh, met the members of the House at a Tea Party on Wednesday, the 3rd April. It was a brief farewell gathering without formal speeches. The Deputy Mayor, Dr. Amar Nath Mukerji, most of the Aldermen and Councillors and Corporation officials attended the function.

Under the green boughs glowed the Mayor, with his smiling face that never fades, walked around the gathering extending his congratulations to all present. He also exchanged his greetings and goodwishes to those who have retired from the busy and hazardous life of a City Father for taking rest and repose. It was a pleasant function to be remembered ere long.

## CITY NEWS PARADE

**OBITUARY :** During the last fortnight the city has lost a number of citizens. We send our sincerest condolences to the members of these bereaved families.

Death of Prof. Vanamadi Chakravarty occurred at his residence at 8/4/E, Nepal Bhattacharjee Lane, South Calcutta recently. He was 83.

An eminent Sanskrit scholar, the late Prof. Chakravarty began his career as a Professor of the Bangabasi College, Calcutta, and retired as Head of the Sanskrit College, Assam.

Dr. S. C. Kar, an Ex-Vice-Principal, Bangabasi College, and University Lecturer in Applied Mathematics, passed away at his residence at Shyambazar on the 24th March last at the age of 70. He had been ailing due to a stroke of Cerebral Thrombosis for the last two and a half years. After his retirement, in 1954, he was appointed Emeritus Professor of the College, which post he held till his death.

The late Dr. Kar had a brilliant academic career. As a Ghosh Travelling Fellow of the Calcutta University he went to Germany and France and spent about a year with Prof. Einstein in Berlin. His special line of work was generalised Relativity and Quantum Mechanics.

The death of Shri Surendralal Pyne, Attorney-at-Law, took place at his residence at 67A, Sri Gopal Mallick Lane, Central Calcutta, on the 21st March last. He was 79.

The death of Shri Ramashaimull More, a prominent business man took place at his city residence. He was 64. He was associated with many welfare organizations. Reference to his death was made at the Corporation meeting on the date of his death, the 26th March last.

Dr. Santosh Kumar De, a prominent physician of the city died of Coronary Thrombosis recently at his residence, at 28, Brojonath Mitra Lane. He was 61.

The late Dr. De was formerly in the employment of the Corporation for over 25 years. His death was mourned by the members of the staff of the Chief Analyst's Office, Health Department.

Dr. Haripada Basu, a retired officer of the Corporation, died at the age of 82 years after a prolonged illness at his residence at 39, Parashar Road, South Calcutta, recently.

Dr. K. B. Gupta, M. B., a former Analyst of the Corporation died at his city residence, recently. His death was also condoled at a memorial function held in the office of the Chief Analyst later on.

ISLAMIC REPUBLIC OF PAKISTAN'S first anniversary was celebrated at the Pakistan High Commission, Park Circus, a few days ago. The Chancery building and the residence of the Deputy High Commissioner were illuminated. In the evening Janab Murtaza Reza Chaudhury, the Deputy High Commissioner and Begum Chaudhury, held a Reception at the Chancery. Among those present was Shrimati Padmaja Naidu, Governor of West Bengal.

ASUTOSH MUSEUM OF INDIAN ART, Calcutta University, has recently been enriched with several large and rare stone images of Jaina Tirthankaras of about the

10th century A.D. from the neighbourhood of a 1,000-year-old ruined temple in Deuliya in Burdwan.

According to experts the Jaina sculptures indicated that the southern part of West Bengal comprising Burdwan, Bankura and Birbhum districts, was once a stronghold of Jainism.

An inscribed stone miniature temple reproducing the typical feature of a temple prevalent in pre-Muslim Bengal was an important finding. Its four sides are carved with standing figures of Jaina Tirthankaras.

A panel of Vishnu in reddish sandstone, executed in the delicate style of the ninth century A.D. and a clay seal inscribed in Gupta characters have also been found at the site.

NATIONAL INDIAN ASSOCIATION OF WOMEN held its 50th annual meeting recently in the city with Lady Ranu Mookerjee presiding. The President emphasized that the association had a great opportunity to foster better relations between Indian and non-Indian women and achieve its aim. She suggested that members of the association should usefully play the role of interpreters of Indian thought and culture.

The Secretary, Shrimati R. D. Dhanbhoora referred to the activities of the organizations and mentioned its contributions to the Chief Minister's Relief Fund and to the maintenance of trainees at the Ram Krishna Mission Matri Bhavan, Saroj Nalini Institute, and the Lighthouse for the Blind.

ART IN INDUSTRY'S Annual Exhibition was inaugurated on Friday, the 23rd March last at Artistry House, 15, Park Street in presence of the elite of the city. Maharani Gayatri Devi of Jaipur inaugurated the exhibition. The Maharajadhiraj of Burdwan, Shri Uday Chand Mahatab, presided over the function.

Expressing concern at the disappearance of the traditional art forms 'under the onrush of modern tendencies which placed emphasis on the utility' the Maharani made a plea to 'recapture all that was beautiful in art, in industry and in every phase of our lives'. "We should restore it to its position of eminence and ensure its preservation for our own enjoyment and for the appreciation of the generations to come", she added.

A new working scheme undertaken by the Institute includes opening of a permanent display centre and holding travelling exhibitions, symposia and demonstrations by well-known Indian and foreign experts on window display.

Presenting a review of the exhibition Shri Ajit Mookerjee, Director, appealed to the industrial designers to keep in view the dignity and the subtlety of the original while making use of the traditional designs and motifs.

Giving a brief resume of the activities of the Institute, sponsor of the exhibition, the Maharajadhiraj said that the Institute could rightly claim credit for the discovery of the traditional forms of art and designs and for their modern application. In this sphere of activities he said, India's prestige in the foreign countries was very high.

A WEST GERMAN TRADE DELEGATION of six members including representatives of the Ministries of Foreign Affairs and Economics and the Federal Bank, reached the city last week for a short visit.

Dr. K. Erdmann, the group's leader, told Press representatives at Dum Dum that the flow of trade between West Germany and India had been steadily increasing. He hoped that this trend would continue.

The main object of the delegation, he said, was to explore the possibility of increasing import of goods from India. At present West Germany exported much more to India than what it imported from the latter.

**EMPLOYEES MADE PERMANENT**

List of temporary employees made permanent by Commissioner with effect from 30th November, 1956 in accordance with the resolution of the Corporation passed on the 1st October, 1956 and 14th December, 1956.

## **Draft Bye-Laws In Connection With The Issuing Of Death & Birth Certificates**

### **NOTICE.**

The Corporation of Calcutta in exercise of the powers conferred under Section 527(63) of the Calcutta Municipal Act, 1951, propose to frame the bye-laws, as set forth herein below, relating to the procedure to be adopted for the issue of Birth and Death certificates and levying of fees for the same.

A copy of the Draft Bye-laws will be kept in the office room of the Secretary to the Corporation for inspection by any one, free of charge on all working days during office hours. The Draft Bye-laws will be proceeded with a further on or after the 15th May, 1957 and any objection or suggestion with respect thereto which may be received by the undersigned by that date shall be considered.

A printed copy of the said Draft Bye-laws will also be on sale from the Central Records Office of the Corporation at a price of annas four per copy.

Central Municipal Office,  
The 4th April, 1957.

B. GHOSH,  
Secretary.

1. The Health Officer and Chief Registrar of Births and Deaths of the Corporation of Calcutta shall issue, on receipt of requisite fees and applications with particulars given or not given, certified copies of entries of births and deaths maintained under Section 504 of the Calcutta Municipal Act, 1951. All such certificates will be issued under his signature.

2. The birth and death registers maintained under Section 504 of the Calcutta Municipal Act, 1951 will be available for inspection and search to the public on receipt of proper application for searching purposes and on payment of the following scale of fees on week days excepting Saturdays, between 11 A.M. and 3 P.M. and on Saturdays between 11 A.M. and 1 P.M. in the office of the Keeper of Records or of the office of Health Officer and Chief Registrar of Births and Deaths, as the case may be.

(a) A sum of Re. 1/- (Rupee one) only will be charged for the inspection of one birth or one death register.

(b) Applications for inspection or search for entries in birth or death registers will be made by intending parties who will clearly state the purpose of such inspection or search. The application will be scrutinised by the Keeper of Records or the Health Officer in whose custody, the registers may remain, as the case may be, after which the above necessary fees will be charged and the inspection or search of the relevant birth and death registers will be allowed.

(c) The inspection or search of the birth and death registers shall be made in the presence of a responsible Officer authorised in this behalf in the Records of the Health Department as the case may be.

(d) At the time of inspection for search of the birth and death registers nobody will be allowed to take any note from the registers in pen and ink. Pencilled notes may be allowed with the permission of the Keeper of Records or the Health Officer as the case may be.

(e) No fees will be charged in the following cases :—

(i) When it is necessary to inspect and search the birth and death registers for issuing certified copies of entries of births and deaths to members of the families of deceased Indian Military Personnel for furnishing them with the death certificates of the deceased members and also birth certificates of their children, only in connection with the investigation of their family pension claims.

(ii) When it is necessary to inspect and search the death registers for issuing death certificates of deceased employees of the Corporation of Calcutta in connection with their Provident Fund and other claims.

(iii) When it is necessary to inspect and search the birth and death registers in obedience to any directions or orders from any Court of Law in India.

(iv) When it is necessary to inspect the birth and death registers in obedience to any direction from the State or Central Government for purposes of the State or Central Government or in connection with the imposition of "Death Duties" or other Duties of the State or the Central Government.

(v) When it is necessary for purposes of the Corporation in regard to Assessment and other matters.

(vi) The Health Officer may refuse inspection of any birth or death register to private parties if he has reasons to believe and such reasons will be recorded in writing that the inspection and search of the registers will be prejudicial to the interests of the Corporation, the State and the Central Government.

3. A fee of Rs. 2/- (Rupees two) only which will be called hereinafter as "certificate-fees" will be charged for the issue of one copy of one entry of birth or death from the birth and death registers as the case may be. Similar charges will be made for the issue of subsequent copies of such entries whether they be taken simultaneously or separately. No such fees will be charged in cases referred to in clause 2(e) of the Bye-Laws.

4. A fee of Re. 1/- (Rupee one) only which will be called hereinafter as "Searching Fee" will be charged per copy of application for issue of birth or death certificate if (a) in case of births, the informations be given correctly in the applications for birth certificates in respect of definite particulars regarding (1) the date of the birth of the child, (2) the names of the father and mother of the child (3) the date of registration of the birth of the child, and (4) the place where the birth in question was registered by the Corporation Authorities and (b) in cases of applications for death certificate, the informations be given correctly regarding (1) the date of death of the deceased, (2) the full name of the deceased, (3) the address of the premises, where the death took place and (4) the place viz., burning ghat, burial ground or crematorium, etc. where the dead body was disposed of. Searching Fees will be charged per copy of application or for the first copy of the certificate only, if more than one copy of birth or death certificates are taken at a time.

No such charges will be made in respect of cases referred to in Clause 2(e) of the Bye-Laws.

5. A searching fee of Rs. 5/- (Rupees five) only will be charged for each copy of birth or death certificate when definite information regarding any of the particulars referred to in Clause 4 of the Bye-Laws is not furnished in the applications for birth and death certificates.

An application for a copy of birth or death certificate in which search for a period of more than one year would be necessary will not be entertained by the Health Officer. No such fees will be charged in cases referred to in Clause 2(e) of the Bye-Laws.

6. If after careful search in the birth or death register, a particular entry be not found, and a certificate to that effect be demanded by the applicants, a certificate which will be called as a "no-entry certificate" hereinafter, containing particulars of search made in the registers, may be issued by the Health Officer in such form as he thinks fit, in lieu of the certificates applied for.

7. If it appears to the Health Officer that some bonafide mistakes have been committed in recording certain particular or particulars of entries of births or deaths in the registers at the time of registration of births or deaths and that these require correction, the Health Officer shall cause the production of such legal and other document as he may deem fit for correction of the entries and these will be kept in the Corporation Office as permanent records.

(a) A fee of Rs. 5/- will be charged for correction of one entry of birth or death registers.

(b) No such fees will be charged in cases referred to in Clause 2(e) of the Bye-Laws.

8. A fee of Annas Eight only will be charged for 100 (One Hundred) words of an affidavit produced in connection with birth and death certificates if a certified copy of the same be applied for. A similar fee of annas eight only will be charged for one hundred words of a medical certificate produced at places for disposal of dead under the administration of the Corporation of Calcutta.

9. Clauses 1 to 8 will apply "mutatis mutandis" to certified copies of entries in the registers of burials kept at the different burial grounds within the administrative jurisdiction of the Corporation of Calcutta.

10. The Health Officer will keep in stock sufficient number of birth and death certificate forms in a manner contemplated by Schedules 20 and 21 of the Calcutta Municipal Act, 1951 and shall cause them to be bound in books with counterfoils, and shall keep a proper account of the same. He shall, also, keep a sufficient number of application forms containing therein the particulars wanted for search in connection with the issue of birth and death certificates.

11. Fees once deposited in connection with the purposes stated in Clauses from 2 to 9 will not be refunded under any circumstances.

### CORPORATION NOTICES—Contd.

#### Loss Of Receipt Foils

It is notified for the information of the public that receipt foils Nos. 684 to 700 of Accounts form No. 296 (District III) are reported to have been stolen from the Corporation Ward Office and as such have been cancelled. Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
CALCUTTA :: BOMBAY :: KANPUR

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates :—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, triocycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supt., S. S. Hogg Market.

## New Corporation Formally Constituted

### FIVE ALDERMEN ELECTED

AMIDST excitement and enthusiasm five Aldermen were elected at a meeting of the newly elected Councillors on Friday, the 12th April, held in the Council Chamber, Central Municipal Office Buildings, S. N. Banerjee Road. The elected Aldermen are

DR. TRIGUNA SEN,  
SHRI GURU GOBINDA BASU,  
SHRI AJIT KUMAR DUTTA,  
SHRIMATI PRATIMA BASU,  
DR. AMIYA KUMAR BASU.

The election was held under Rule 9(1) of the Calcutta Municipal Act, 1951. COUNCILLOR BEJOY KUMAR BANERJEE, one of the Senior Members in the House, conducted the election from the chair. A calm and dispassionate atmosphere prevailed upon the House when the procedure was in progress. Conducted under ballot system each Councillor observed strict secrecy of his ballot paper before it was handed over to the Chairman of the meeting. Councillor Banerjee announced their names after counting was over. As the first four polled decisive number of votes they were declared as elected. A lot was drawn in case of the fifth Alderman as three of the candidates secured equal number of votes.

A packed gathering watched the election from the visitors' boxes. It took nearly three hours to arrive at the decision.

All the newly elected 80 members took part in the election. The only Official Member in the House, the Chairman of the C. I. T., Shri S. K. Gupta, also cast his vote. The seniormost member in the House, Councillor Dhirendra Nath Ghosh was allowed to cast his vote earlier than his turn came. Councillor Nripendra Nath Banerjee, at present an indoor patient in the Sambhu Nath andit Hospital, voted first. He was taken into the Council Chamber on a stretcher being helped by two of the brother Councillors.

There were altogether 21 candidates whose names were proposed. But on the date of scrutiny two of them withdrew their names. Later on nine others also withdrew their names leaving ten to contest. Thus the House appeared to have divided

into two camps each side setting up five candidates. It is said that only about half the members of each side maintained their own whips. This has resulted election of candidates from both the sides almost in proportion to their respective strength of members in the House.

At the end felicitations were offered to the elected candidates from the members of the House.

The 86-Member House is expected to hold its first meeting on the 29th April next when Oath would be administered to each and every Member of the House including the Aldermen. The Mayor-election ceremony may also take place on that day.

### KEEN AND STRAIGHT CONTEST

Out of 21 candidates for the five seats eleven withdrew, and there was a straight contest between the Congress and the U. C. C. Each candidate's name was proposed by a Councillor and seconded by another. Besides the contestants the following names were proposed:—Shri Nirmal Chandra Ghosh, Shri Kanhaialal Khestri, Dr. Amiya Bhusan Mukherjee, Shri Bankim Chandra Dutta, Shri J. N. Das Gupta, Shri Manindra Nath Banerjee, Shrimati Prativa Ghosh, Shri Hiranya Kumar Das Gupta, Shri Bidyut Kumar Basu, Shri Ashit Kumar Dutta and Shri Biren Roy of Calcutta Corporation Workers' Union.

When the House met the Commissioner, Shri B. K. Sen, announced the procedure to be followed in the meeting. Before that he requested the members to elect a President of the meeting.

Supported by Councillor Dr. Sukhabehari Mukherjee, Councillor Usha Nath Sen proposed the name of Councillor Banerjee and it was accepted unanimously. The Secretary, Shri B. Ghosh helped the Chairman in conducting the election.

Voting was by ballot. The north-east corner of the Council Chamber was enclosed with curtains to maintain secrecy. As his name was called out, each Councillor took a ballot paper, went inside

the enclosure to fill it in and returned it to the Chairman. Two tellers, representing the Congress and the U.C.C., counted the votes.

The new Aldermen, with the number of votes they polled are: Dr. Triguna Sen, 51 votes, Shri Ajit Kumar Dutta, 44 votes, Shri Guru Gobinda Basu, 43 votes, Shrimati Pratima Basu, 41 votes, and Dr. Amiya Kumar Basu 40 votes. There was a tie between Dr. Basu and two other candidates—Dr. Amar Nath Mukerji, the former Deputy Mayor, and Dr. Nihar Ranjan Roy, each securing 40 votes. A lot was drawn, and Dr. Basu was declared elected.

The names of Dr. Sen, Shri Basu and Shrimati Basu were proposed and seconded by the Councillors elected on Congress tickets. Dr. Amiya Basu's name was proposed and seconded by Independent candidates and Shri Dutta was proposed and seconded by Independent and U.C.C. candidates.

The other candidates, who could not secure the required number of votes with their number are: the Ex-Mayor, Shri Sudhir Chandra Roy Chowdhury, 29 votes, Shri Tarun Kumar Ghosh, 32 votes, and Dr. Nihar Kumar Munshi, 34 votes.

### BOMBAY'S NEW MAYOR

Dr. Simon Fernandes has been elected Mayor of Bombay by defeating his rival, Shri Dinkar Desai. He was a nominee of the Congress Party. Dr. Fernandes polled 70 votes as against 61 by Shri Desai.

The total strength of the Bombay Municipal Corporation is 181. Two seats are vacant and 8 members were absent. The Congress Party in the Corporation has 78 members. Shri Desai was supported by all Opposition parties.

### PATNA'S MAYOR RE-ELECTED

Shri Rajandhari Sinha has been re-elected Mayor of Patna for the third consecutive term by

defeating his rival, Dr. Damodar Prasad (Independent). Shri Sinha polled 27 votes against 23 polled by Dr. Prasad.

Shri Sinha is a veteran parliamentarian, administrator and politician. He had been a member of old Bihar Legislative Council before 1937 for many years and he had also been its President. He served Bihar Public Service Commission as its Chairman. After retiring from this office he was elected as the first Mayor of Patna three years ago and since then he has been holding this honour. He is also the Chairman of Bihar State Financial Corporation set up by Government.

## VIEWS AND REVIEWS

### BEAUTIFUL CALCUTTA

The old slogan 'City Beautiful' was once again refreshed by the Commissioner, Shri B. K. Sen, when he delivered a talk on the subject at the weekly meeting of the Calcutta Rotary Club some time ago.

The city, according to him, would be a congenial place to live in first then the movement for beautiful city might be ensued. Explaining the great difficulty in making the city beautiful, the Commissioner said that Calcutta had not expanded as a metropolitan city. The great metropolis had been superimposed on a mofussil town. It was a conglomeration of mud huts and sky-scrapers.

Shri Sen also said that the city did not lack modern mansions, highways and boulevards. But the real problem was the bustees which covered one-eighth of the city. One-fourth of the city's population lived there without adequate amenities. The city's beautification project meant doing away with the bustees. But one could not just drive away hawkers from the streets, pull down wall-shops and expect all citizens to live in good houses. Only a rise in the standard of living could help people to live more decently and thereby contribute towards beautifying the city. The full text of the speech was published in a previous issue of the 'GAZETTE'.

Among the other speakers on that day was Councillor S. K. Gupta, I.C.S., who said that the primary need in beautifying the city was to rouse a civic sense among the citizens. On no account should the parks be allowed to be "used mercilessly". The bye-laws relating to advertisements must at once come into force to stop disfigurement of roads and building walls. As a Chairman of the Calcutta Improvement Trust he has to look after the development of the city and his valued opinion and advice deserve appreciation in every step of the Corporation activity.

### W.H.O. AND DIET IMPROVEMENT SCHEME

World Health Organization, mainly established for the improvement of general health conditions of people, has always been found helpful in providing preventive measures against any onrush on general health of the people living in backward countries. Supply of filtered water, provision of nutritious food, mass vaccination against small-pox and other epidemic diseases are some of the programmes undertaken by the organization. India being a country deficient in health conditions has also been able to enlist help from this source. The ninth year's anniversary programme was devoted to make people conscious of the value of food they consume and to advise people on how to get the best nutritive value from it.

Giving a talk on this subject the Director of Health Services, West Bengal, emphasized the

need of the subject recently. He said that the economic condition of the people being what it was the best results could be obtained if their diet could be improved without increasing the cost.

There was, he said, ample opportunity for this. With the possible exception of north-western India, the country consumed more carbohydrate and less protein. In West Bengal this was particularly the case, the main source of protein in this State being fish. In recent years, the supply of fish has fallen and many could not afford to pay a high price for it every day. The State being deficient in citrus fruit, there is deficiency in the consumption of articles giving Vitamin C.

The Director continued that even accepting these difficulties, the diet could be much improved in nutrition if suitable choice was profitably exercised without involving increased cost. If cooking methods for certain articles were changed constituting relatively minor modifications would also give a more balanced diet. In that connection he pointed out the defects of the method of cooking practised in this State.

Speaking on the significance of the day the custodian of peoples' health stressed that everybody should consume a quantity of gram which had sprouted overnight. According to him the protein contents in wheat is considerable while rice does not possess so much. But the majority of the people in this State including this city are more akin to take rice than wheat. Moreover, many of the experts held that this kind of moderate diet was responsible for the health constitution of the people.

Judged with the standard of living of the majority, a very small proportion of the people in the world can enjoy good food and good health. These are the blessings not only of a full life but also the first essential of a human being to maintain his body and soul together. People of this country also share the same fate and unless proper health education are imparted to them in this regard it is difficult for them to maintain their existence in the world. The activities of the W.H.O. in this regard is worth-maintaining no doubt.

### STEGOMYIA SURVEY IN CALCUTTA

House to House inspection carried by the Mosquito Control Department of the Corporation in each Ward all over the City in November, 1956 found the larvae of the "Aedes aegypti" in the following articles:—

Broken earthen-ware vessels, broken cups, and plates, used condensed milk tin, empty cigarette tins, broken boxes, trunks and scrap iron, rejected mud-guards and old rubber tyres, bamboo holes.

Most of the articles were found generally in court-yards, back-spaces, out-houses, roofs and other inaccessible places. The Aedes larvae were

also found in fire-buckets, flower-tubs, artificial fountains, masonry cisterns for storage of filtered water.

*Aedes Aegypti* are found throughout the year but the incidence is higher during the rainy season and autumn due to the increased number of breeding places in rain water collections in the different types of articles mentioned above.

The Mosquito Control Department has adopted the following procedure to check the *stegomyia* breeding:—

(i) Regular house to house inspection almost every week for anti-mosquito measures and

(ii) Requesting the public directly or through newspapers to be more conscious about breeding places of mosquitoes."

### DEATHS AND DISEASES IN THE CITY

The small-pox epidemic remains unabated in this city during the past two weeks rather there was a sharp increase in case of attacks during last week. Attacks from the disease during the week endings 28rd and 30th March were 268 and 202 respectively while the deaths were 108 and 105 respectively. During a previous fortnight attacks totalled 458 and deaths 221. Number of deaths from imported cases during the current fortnight was 88 against 89 during the previous one. There were a total number of 24 attacks and 14 deaths during the corresponding fortnight last year.

The havoc from cholera has a comparatively lower figure than small-pox although the disease had spread over a large area. 21 persons were attacked by this disease and four persons died of it during the week ending the 28rd March. Attacks and deaths from the same were 22 and eight during the last week of the month. Attacks totalled 22 while deaths numbered five during the previous fortnight. There were 88 total attacks and 17 total deaths from the diseases during the corresponding weeks last year.

Malaria caused four and five deaths during these two weeks. Typhoid was also responsible for nine and 11 deaths during these two periods. The number of deaths from these two diseases during a corresponding period last year were comparatively less than this year.

42 persons died of Tuberculosis during the week ending the 28rd March, while the number came down to 26 during the last week of March. Altogether 80 persons died of the same during the corresponding fortnight last year.

Deaths from all causes totalled 1,000 during the week ending the 28rd March and it was 908 during the week ending the 30th March. During the previous two weeks there were 1,019 and 981 deaths from all causes. Altogether 1,167 persons died from all causes during the corresponding fortnight last year.

### Personalia

#### NEW DEPUTY HIGH COMMISSIONER FOR PAKISTAN

Janab Kamruddin Ahmed, the newly appointed Deputy High Commissioner of Pakistan in Calcutta, arrived at Dum Dum airport from Dacca on Friday, the 5th April last. He was met by Shri T. Ghosh, Deputy Secretary (Home), West Bengal Government, and members of the staff of the Pakistan, Deputy High Commissioner's office there.

Carrying love and friendship of the Pakistani people for their Indian brethren, Janab Ahmed hoped that this friendship and love would be reciprocated.

On that day Janab Ahmed took charge of the office at Circus Avenue. Later on during this week he met the West Bengal State Governor, Shrimati Padmaja Naidu, and the State Chief Minister, Dr. B. C. Roy.

#### CALCUTTA'S NEW CHINESE CONSUL

Mr. Lu Shu, the new Chinese Consul-General in Calcutta took over the charge of his office during last week. He reached the city earlier. Mr. Lu who is now fifty was an official of the Ministry of Foreign Affairs, Government of the People's Republic of China.

Mr. Liu Yu-feng, the Chinese Consul-General was given a farewell party at the Chinese Consulate earlier on his transfer home after a four-year tenure of office in this city.

#### WATER SUPPLY DURING RAMZAN

The pressure of filtered water supply in the city has been increased during this month due to Ramzan a month long Muslim festival.

It has been decided to increase pressure from 5-10 A.M. to 9-30 A.M. at medium from noon to 12-30 P.M. at high pressure from 3-15 P.M. to 5-30 P.M. and at medium pressure from 2-30 A.M. to 3-15 A.M. and from 6 P.M. to 7 P.M.

#### CORPORATION PRIMARY SCHOOL PRIZE DISTRIBUTION CEREMONY

The annual Prize Distribution ceremony of the Corporation Primary School for Girls at 52A, Raja Naba Kissen Street was held on 26th March last. Dr. Bhupendra Nath Basu, the Chairman, Education Committee took the Chair. Smt. Bonolata Chakrabarti mother of Councillor Dr. Kripabindu Chakrabarti kindly gave away the prizes. Shri Chandra Nath Mullick a respected resident of the locality very kindly permitted the school authority to use the spacious courtyard of his residence for holding the function. The Headmistress Smt. Sunity Datta, reported all-round improvement of the school and requested the Corporation authorities to make arrangements for increased accommodation so that a large number of students may be admitted to the school. The function ended with an enjoyable variety entertainment by the students, under the guidance of Smt. Seema Maitra and Smt. Gita Datta.

# C. I. T.'S ANNUAL BUDGET FOR 1957-58

The Calcutta Improvement Trust's Annual Budget for 1957-58 was passed at a recent meeting of its Board. It was attended by almost all the members of the Board of the Trustees. The Budget as presented by the Chairman, Shri S. K. Gupta, I.C.S., showed a deficit of at least Rs. 88 lakhs under Capital Expenditure, which may affect implementation of the five-year programme of the C.I.T.

Land acquisition, as evident from the income of the Trust, has been accelerated in recent years but large areas are still to be acquired for development. It was suggested that certain bustee-clearing and re-housing schemes should be taken up. These schemes have already been framed and will be included in the budget.

The sources of income under capital expenditure include sale of land, the Corporation's contribution towards engineering works, subsidized bustee re-housing scheme, subsidized industrial housing scheme and sale of building.

The Chairman said that the Trust had received Rs. 98.98 lakhs from Calcutta Corporation for improvement of the city proper but none for Tollygunge which comes within the city's limits. He felt that assessment papers of Tollygunge before incorporation into Calcutta were still at sixes and sevens and many assessments were still under objection. The Assessor had suggested an arbitrary reduction of the annual valuation for calculating the Corporation's dues to the Trust.

The Chairman added that the Trust had to depend on the Union Government's promises for loans to finance some of the capital projects to supplement its proposed debenture loan of Rs. 50 lakhs and to draw heavily on the closing balance.

The Trust had received no payment on account of jute duty and had got only one instalment out of four for the duty on transfer of property, the Chairman added.

## RECEIPTS.

Budget Head	Estimates for 1956-57	Revised Estimates for 1956-57	Estimates for 1957-58

## FAMILY OF MAN

### Photographic Exhibition In Calcutta

"A camera testament, a drama of the grand canyon of humanity, an epic woven of fun, mystery and holiness—here is the Family of Man!"

With these words, Carl Sandburg, eminent American author, introduces the world-acclaimed Edward Steichen's photographic exhibit which is

being presented in Calcutta until April 21 at Ranji Stadium, Eden Gardens, by the U.S.I.S.

In this exhibition, Steichen's medium of communication is much more than a collection of magnificent photographs—a choice of 503 selected from over two million gathered from 68 countries. The exhibit strikes the aesthetic instinct of the amateur and the professional alike. Boldness of conception and reach of imagination have played a vital role in Steichen's creation.

Mr. Steichen, who is now 78, is a noted photographer. As Director of Photography of the Museum of Modern Art in New York, he has supervised nearly 25 major photo exhibits.

The Family of Man was first shown in the New York Museum of Modern Art by Mr. Edward Steichen, the Museum's director of photography. Later it was seen in Mexico, South America, Europe and Japan. In India, it has been displayed in Bombay, New Delhi, Agra and Ahmedabad to over 460,000 people.

The exhibition covers a great pageant of the relationships and experiences that are common to all men at all times—a pageant not of events that have happened, but of experiences that matter. Here are the relationships of lovers, of mother to child, of father to son, of children to the family and man in his community.

## MILK

By ASOKE DUTTA, SOLICITOR

To a man of modest means pure or adulterated milk is not the question nor the milk produced in hygienic or unhygienic condition is. If you have money to afford milk for yourself and your children, go in for your share to the nearest Khatal without waiting for your turn in any of the standing queues before a handful of Government milk depots. No one, it seems, has time to think about the cleanliness of the cow sheds, the health of the cattle and the hygienic condition under which the milk is produced.

For it is an open secret that the Government dairy farm of Haringhata has to depend on imported milk for satisfying the needs of the city itself. And no doubt, the sick, old and babes in arms are fed such milk with a mixture of locally produced milk without knowing anything about the processing, handling, storage, the manufacturing of milk into milk products and lastly the distribution of milk.

What to speak of milk alone, import nowadays seems to be the only solution for meeting any public demand either for food or for its growing. But it was not so in the good old days of Rigveda. Country was then flowing with milk, milk-butter, and butter. And so it is not very surprising to know that "our father the bull and mother the cow" have played their part in Hindu culture. It is not without reason that Hindu while entering a Shevaite temple salute the image of Nandi, the bull which is placed in front of the Lord Shiva. Lord Krishna is the son of a cowherd. Pages of Agnipuran and Sanhita reveal valuable informations about cattle diseases.

And it is quite logical to infer that the cattle were given due attention for the benefit the people used to enjoy at the latter's cost. In the post-Vedic Period, Sanskrit literature is full of references to veterinary science. The volume Krishisangraha also deals with keeping or employment of cattle. Chandragupta is believed to have started a highly organised veterinary department. Ain-i-Akbar gives an account of cow-keeping under the Moghals and mentions that throughout "the happy regions of Hindusthan, the cow is considered auspicious and held in great veneration." By the by it may be mentioned here that a cow of Gujrat can cover one hundred and twenty miles

in twentyfour hours. But a cow of Multan or Gujrat or a cow under the care and protection of "Goseva dal" of Gujrat does not justify the condition in which its friend in a local khatal has to spend its days perpetually. In the different cow sheds of the city both sickly and healthy cows live side by side, eat one another's food and die for one another's cause of death. The old proverb "one sickly sheep infects the flock" has nothing to do with the jingling of gold that an owner of cattle enjoys while collecting and counting funds for the milk disposed of. Is it true that a dealer in milk enjoys a self satisfaction for getting a good return against a nominal cost of production? Or is it a fact that more the profit against milk the more the money is spent for the care and protection of the cows?

It's strange that when a buyer knows full well under what poor hygienic condition khatal milk is produced he does not stop buying milk from the same old place. The khatal milk, it seems is a double blessing. It blesses him that sells and him that buys. The buyer is glad to have his share of milk generally cheaper than market rate and the seller for the price of milk fit or unfit for human consumption. It is often reported that the producer retailer of milk in khatal does not destroy the milk of a cow even for two to three weeks after delivery. Rules of health are there for everyone but are seldom followed in practice. As a rule, the milk of a cow is not to be used for three weeks at least after delivery but is seldom followed in practice.

Take care of the cows lest Bovine tuberculosis infection which has since long time been discovered in milk might affect health. Along with the existing rules of cattle housing new rules should also be framed to authorise sale of milk under certain special conditions regulating the production of milk. Every such milk supplying centre should not only be made liable for the health of the cattle but also for the production, conveyance and the distribution of milk.

First of all grading of milk is necessary to ensure production of milk of a high quality of cleanliness and in varying degree free from bovine infections. And to make a successful venture in the line there will be laboratories to collect samples of milk from different milk supplying centres for making bacteriological and biological examinations. A good and honest set of officers will be appointed to detect diseases among cattle.

Considering all the questions of liability of contamination of milk during decantation, processing and bottling at dairy premises together with the problem of providing suitable ventilation air-conditioned premises seems to be the only solution. But where dairy farms in the truest

## CALCUTTA UNIVERSITY

The University Grants Commission has sanctioned Rs. 50,000 to Calcutta University for the purchase of books on scientific and technological subjects. The University earlier received an equal amount from the Commission to buy books and journals on humanities.

sense of the term can be counted on finger tips such idea of air-conditioned premises may well be realised in dream only. And where a cow-shed is constructed with a tin-roof above and a brick-built floor below with artistic touches or cement here and there separated by a few pillars, authorities should first of all enforce strict observance of laws regulating the sanitary condition of such shed. They should also prescribe precautions against unhealthy equipment and furnishings of dairies, cow-sheds, and milkshops. To shut one's eyes at the wretched condition of the cows in cow-sheds is not to arrive at a solution of the problem of environmental hygiene of them all. If milk supplied from any premises seems infected with disease communicable to man Health Officer concerned should give notice in writing that no milk from the premises be sold or used.

The permission to use the premises which are so situated as to lead to contamination of milk should not be very liberal. And some times exemplary punishments should be awarded to the breakers of rules regulating the use of infected houses for milk depots. But authorities should allow sufficient time for the necessary alterations to be made before revoking a license. This should be allowed otherwise milk producing centres may be seen on the spacious and less crowded public streets and pavements.

However, sufficient supply of water to the milk supplying centres of the city is essential for washing purposes. The occupier or owner of a khatal or a dairy farm should maintain the interior of the premises, its furniture and fittings in a state of thorough cleanliness. New rules should be framed to call for a washable surface where this is actually needed. In case of a khatal laws should be enforced immediately if there is any calling for impervious floor and wall surfaces. The least said about the walls of the khatals is the better. For they (side walls) are generally missing. To earn more than they invest the producer retailer of milk in local khatals sometimes not

only do not spend money for a milk room or a sale window but also for a cow-shed (Khatal).

However, impossible as it is to do justice to the topic, now so it is better to leave it aside. In the past attempts were made to teach an individual to help his family. But today though the emphasis is on the family yet the dominant motive is health education of the individual as a member of the family and of the community. Every individual of every family should in his or her own way help the community to build a healthy nation. What suggestions for changes may have caused headache to the dealers in milk today may prove essential for building a healthier nation to-morrow. A little thinking will reveal how a drop of contaminated milk from infected houses may cost lives or an uncared for chink in the milk room may help spread of infection. It is seen how a dirty linen of some diseased person is equally harmful.

---

### —C. I. T.'S ANNUAL BUDGET.

(Continued from page 569)

Speaking on the slow progress of the C. I. T. activities the Chairman said that the budget provision was only half spent and the execution of schemes was delayed. The pace was greatly accelerated. Even the large provision of Rs. 70 lakhs for the current year will not only be exhausted but will probably be exceeded by the end of the year by a fair margin. There are large areas still to be acquired in Scheme VII-M, in the last section of Bowbazar Relief Road and the khatal clearing scheme (No. LXIV-A—Sahitya Parishad Street area). There are also remnants of bigger schemes in which small acquisitions are due (e.g. Scheme LVII,—Central Avenue Extension to Baghbazar) and small schemes like Scheme LXIX (Madan Chatterjee Lane Widening) and Scheme LV (Supplementary), linking up important areas by widening extending existing roads. Lastly, there is the land acquisition required for the Garahat Road overbridge scheme. A sum of Rupees one crore fourteen lakhs has therefore been provided for land acquisition alone during the next year and even this will not be sufficient for all the acquisition that is necessary. The total amount required for capital expenditure is Rupees one crore seventy-two lakhs odd.

Continuing his speech the Chairman said:—

"We cannot expect more than Rs. 36 lakhs from sale of land and I doubt if we can get even so much. The lands in Scheme IV-M will probably all be sold up, but on account of the large amount of filling that will have to be done in Scheme VI-M it is doubtful if any plot there will be marketable next year. The first section of Bowbazar Relief Road (Scheme LVII) will have only a few plots for sale and so will Scheme LVIII (Central Avenue Extension to Baghbazar). It is not till a year or two later that the large expenditure incurred by the Trust in developing Maniktala areas will begin to yield dividends. We may expect about 2½ lakhs from the Central Government as the balance of their subsidy for our 2nd Industrial Housing Scheme."

---

### —FAMILY OF MAN

(Continued from page 570)

Here is play and laughter, the enjoyment of the good things of life and communing with one's friends. Here is the high adventure of learning and teaching, of law and government—from the local village council to the United Nations. Here are the deep personal emotions of men and women and children even in death, and the over-recurring miracle of new birth.

Of particular interest is the picture culled from a widely-renowned recent Bengali film entitled "Pathar Panchali", depicting the object aspects of a typical middle-class Bengali family and the overflowing love of a mother toward her children. This is one of the many pictures which give the infallible clue to Steichen's expression of the theme of love as the binding element in the "Family of Man".

## CITY NEWS PARADE

**OBITUARY:** Death of Shri Kshetra Pal Ghosh, Editor of the "Commercial Gazette" occurred at his Calcutta residence on Monday, the 8th April after a brief illness. He was the Editor of the "Gazette" since its foundation in 1920. He was 76.

The death of Shri Sisir Kumar Neogi, a distinguished litterateur of Bengal took place on the 29th March last, at his Ballygunge residence at the age of 65.

The late Shri Neogi after taking his M.A. and B.L. Degrees from Calcutta University devoted himself to literature. He founded the well-known publishing house "Barada Agency" an important institution for the spread of national literature. In this he received the blessings of Deshabandhu Chittaranjan and Netaji Subhas Chandra. The now-defunct monthly 'Kalikalam' was published under his able stewardship.

**INDIAN COUNCIL OF WORLD AFFAIRS** meeting in the city during this week felt the need for establishing a centre in each of the Indian States for study and fundamental research on international affairs. This was stressed by Dr. Hriday Nath Kunzru who emphasized that the study of international affairs was, in the interest of our country, vital.

At the outset Dr Kunzru referred with satisfaction to the growing activities of the Council, particularly through the Indian School of International Studies and Information centres established by the Council.

Mr. S. L. Poplai, Secretary-General of the Council, explained the main features of the annual report of the Council.

At the end of the meeting a symposium on "Indian Foreign Policy—an Assessment" was held under the presidentship of Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University.

**WORLD HEALTH DAY** was observed under the joint auspices of the Indian Medical Association, Calcutta Branch on Sunday, the 7th April at 67, Dharmatala Street.

Dr. A. C. Ukil inaugurated the function, the Chief Guest was Shri Vivekananda Mukherjee and the President was Dr. N. K. Munshi. Speakers included Dr. B. C. Guha, Dr. S. R. Sengupta and Dr. S. C. Seal. The subject of discussion was 'Food and Health'.

**KERALA DAY** was observed in the city on Sunday, the 7th April under the auspices of the West Bengal Communist Party. Meetings were held and processions taken out. The National Flag and the Communist flag were hoisted at some road crossings and at night there were fireworks.

In the evening a number of processions converged on the Maidan where a well-attended meeting was held. Janab Muzaffar Ahmed presided. The meeting passed a resolution greeting the people of Kerala "who have returned Communists to power." The Communist victory in Kerala, mentioned in the resolution "a step forward for the democratic movement as a whole."

Shri Jyoti Basu moved the resolution.

**WEST BENGAL LEGISLATIVE ASSEMBLY** was duly constituted on Saturday the 6th April last. The names of the elected and nominated members were published in an Extraordinary issue of the "Calcutta Gazette."

Shri Ashutosh Mallick, who was Deputy Speaker in the last House, took the oath as a member at

Raj Bhawan. The Governor, who administered the oath, appointed him to perform the duties of the office of Speaker temporarily. Later Shri Mallick administered the oath to several new M.L.A.s in the Assembly House.

The Governor has nominated four members of the Anglo-Indian community in West Bengal to the State's new Assembly, bringing the total strength of the House to 256. The nominated members of the new House are: Miss Olive Fremantle, Mr. R. E. Patel, Mr. C. L. Blanche and Mr. Clifford Noronha. Mr. Patel was a member of the old House. It may be recalled here that Miss Fremantle is at present an Inspectress of Corporation Primary Schools.

**DEMONSTRATIONS** in the shape of meetings and processions were held in the city during the last few days. Eight boys and six girls of the Deaf and Dumb School in Upper Circular Road, went on hunger-strike on Saturday, the 6th April last, in protest against the alleged misconduct of teachers with students of the school. Their demands included recognition of their union.

Shri Suhrud Mallick Chowdhury, M.L.A. and Dr. Narayan Roy, M.L.A., had given an assurance to the students that they would take up their case with the authorities and try for early settlement.

There are about 300 students including nearly 40 girls in the school, most of whom live in hostels within its compound.

**INTER-NATIONAL CALENDAR EXHIBITION** which was reported earlier contained 78 illuminating calendars from the Netherlands out of 300 displayed on the occasion. The other participating countries were U. K., U. S. A., France, West Germany.

**FELICITATIONS:** were offered to the newly elected Councilors Anil Maitra and Nilratan Sinha representing Wards 60 and 61 on the 7th April last at the residence of Shri Nalini Mazumder, Taranibas, Ballygunge.

**I. N. S. DELHI** berthed off the Man-of-War jetty, Calcutta, on Saturday, the 30th March last. The Rear-Admiral, R. D. Kotari, Flag Officer, said that the Indian Navy was progressing extra-ordinarily well. The expansion of the fleet in the past 10 years was impressive, particularly when it was considered that hardly any training establishment was left in the country after partition.

The aircraft carrier for the Indian Navy which was being built in London would be fitted with the latest devices. The personnel that would be needed to man the carrier were being trained in India and by the time, say three or four years, the ship arrived, the training would have been completed.

Geographically India was a maritime country. So the more interest the citizens took in maritime affairs, the better for the country. There should be greater consciousness among the public about naval affairs. The Rear-Admiral said: "We have good material in our sailors. Their conduct, behaviour and general level of social awareness are as good as sailors in other countries."

**CALCUTTA'S STEAMER SERVICE** with Botanical Gardens, Sibpore, was resumed recently after six years of suspension.

A new gangway and a landing stage, the absence of which has been standing in the way of restoration of the service, were being installed at the ghat of the Garden by the Calcutta Port Commissioners. The gangway and the landing stage have cost the West Bengal Government about Rs. 60,000.

**EMPLOYEES MADE PERMANENT**

List of temporary employees made permanent by Commissioner with effect from 1st January 1956 in accordance with the resolution of the Corporation dated 14th December, 1956.

CALCUITA :: BOMBAY :: KANPUR

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supt., S. S. Hogg Market.

## VIEWS AND REVIEWS

### “NABA-BARSHA” DAY

‘Ring out the Old, Ring in the New’. Citizens’ hearts yearn to sing the last song of the old weary year. At the same time this is a song welcoming the New Year. In spite of the fact that a new National Calendar has been introduced in the country, the Bengali New year came off on Sunday, the 14th April. The New Calendar Year starts from the 22nd March, that is at least three weeks back from the present New Year.

The customary happy occasion was marked with due celebrations in the city. There was not a single Bengali Hindu household where the New Year was not greeted in either way. The life stream flowed on from old to new. Once again we stood together to greet each other with a hope that we shall meet together again at the end of the year.

Numerous were the celebrations of the ‘Naba-Barsha’ Day. Apart from joint and mass congregations in the morning at different parks and open places there were festivals in the evening. Special guests were entertained in many of the houses.

The New Year was heralded early in the morning by the blowing of conchshells from houses.

The year was also sung in by children who formed musical parties and went round the localities singing songs of welcome to the New Year’s Day.

Hardly a single cultural or sports’ club in the city which had not a programme for the day. The programme included music, dance, drama, mass drills, and demonstration of physical feats.

Functions held under the auspices of the Naba Barsha Utsab Samity at Sham Square in the north and Deshapriya Park in the south were worth mentioning. Guests and leaders addressed the youth and the teen-agers on this occasion, stressing on the significance for observing the day.

The Calcutta Art Society celebrated the Day on the grounds of the British Council at Theatre Road, in the evening. A charming hour’s programme was arranged, the main feature being the singing of a number of Tagore songs describing the characteristics of Baisakh. Some of the songs were accompanied by dancing. The society also paid its homage to the Buddha, who had His birth, enlightenment and ‘nirvana’ in Baisakh.

Thousands of devout Hindus began the day with a holy bath in the Ganga and visits to temple. The Kali Temple at Kalighat drew large crowds. New books of accounts were opened by the Bengali business men with their shops decorated.

**IDEAL FOOD, DRINK & DIET**

**LILY**  
Brand  
**BARLEY**

**LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA**

Thousands of young unmarried girls started their one-month Niva-Nrata (worship of Lord Shiva) on the day with ablution in the Ganga and a short early morning ceremony.

We also offer our greetings to our readers and friends on this occasion.

### OUR LEGISLATORS AND REPRESENTATIVES TO LOK SABHA

In this issue we introduce to our readers the Legislators who have been elected by the citizens as their representatives to take seat in the State Assembly. We also introduce those who are to represent the citizens in the Lok Sabha. Under the Constitution although different natures of responsibilities have been allotted to the members of both the Houses still as they represent the citizens they have to look after the interests of the city. They are to stand by the citizens in their needs and to satisfy them at their best.

The representatives are men recruited from all walks of life. There are men who by their legal knowledge have glamourised the profession, teachers who have taught thousands, physicians who have treated millions and social workers whose services have benefited hundreds, trade unionists whose advice and guidance led to better legislations for the labour population. As they are peoples' representatives they have to guide our future destiny and to shape the future legislation in such a way as to lead the nation for its ultimate goal.

As we refrain from making any comments on the verdict of ballot boxes still a preliminary analysis indicates that there has been a reverse of expectations. The city which was once a stronghold of the ruling party in the country has been

gradually losing ground. It has suffered a great defeat in this city. Out of 26 seats only eight went in its favour against 16 in 1952, and the principal Opposition, a combination of C. P. I., P. S. P., F. B., F. B. M., R. S. P. eighteen. The Congress has lost seven sitting members including a Minister, while one P. S. P. member has quadrupled, Communist strength increased, a R. S. P. added losing a single Socialist. In the Parliamentary elections, however, the relative strength of the Congress and the Opposition has remained as before. The Jan Sangha and the Hindu Mahasabha have completely failed to secure even a single seat in either House although they sought election.

Before, we conclude, we should say that we have tried to paint those representatives as they appear before our naked eyes apart from their political ideologies and ideals. We may add that many of them have their training grounds in this Corporation, the once Citadel of freedom, and which provided them with every opportunity in serving the people. A few of them are our Ex-Mayors and even there is a single member who has retained his seat in the Council Chamber as well as voted to the State Legislature.

Our warm felicitations go to all of them.

### DEATHS AND DISEASES IN THE CITY

The city fears another epidemic disease to ravage over its citizens. While cholera is on increase, the small-pox epidemic continues unabated. The southern part of the city has become a new hunting ground of the disease. During the week ending the 18th April, 186 people died of the disease against 182 in the previous week. Among the deaths 59 were imported cases during the fortnight. Of these fatal cases, 10 occurred in Ekbalpore and 16 in Tollygunge. Small-pox attacks in the city totalled 180 against 186 the week before. During the week ended the 30th March there were 202 attacks and 105 deaths. This shows that the figures were disquieting. It may be recalled here that there were 16 attacks and 14 deaths during a corresponding fortnight last year.

Deaths from cholera numbered 18, six more than those of the last week's figure. There were 84 attacks against 18 in the previous week. During a corresponding fortnight last year 87 persons died of the disease while attacks were 97.

Malaria and Typhoid caused 7 and 11 deaths respectively during the last fortnight while larger numbers died last year during the corresponding fortnight.

Thirty-nine people died of Tuberculosis against 92 deaths in the previous week. Deaths from the disease in the previous year during the same period rose to 65 in a fortnight.

Deaths from all causes totalled 1054 in the city during the week ending the 18th April against 919 on previous week. Altogether 1296 persons died during the corresponding fortnight last year.

### ST. JOHN AMBULANCE BRIGADE

#### CALCUTTA CORPORATION DIVISION

Members of the Division attended different places on public duty on several occasions in the year 1956 and rendered services to the public.

They attended the following public functions:—All India Music Conference; Ganga Sagar Mela; Manimela Mahasammelan; Calcutta Corporation Sports; Shivratri Mela at Tarakeswar; Flag Day; Hockey Matches; Football League Matches; Lunar Eclipse; Exhibition Football Match between Chinese XI and I. F. A. XI; Ratha Jatra Festival at Puri; Football Matches; Independence Day Celebration; Durga Puja gathering at Kidderpore; Industrial Fair; Solar Eclipse; Russian Circus. 150 cases of injury were attended to and about 600 persons were inoculated against Cholera in the Kidderpore area.

### CORPORATION PRIMARY SCHOOL

The Fourth annual Prize Distribution Ceremony of Primary School at 95/2, Belgachia Road was held sometime ago with Councillor Dalal Chandra Mukherjee presiding. Shri Mukherjee also gave away prizes.

After the distribution of prizes, Janab S. Mohd Jan, Teacher-in-charge extended a vote of thanks to the audience.

Councillor Shri Dalal Mukherjee in his short speech assured the audience that he would try his best to find new accommodation for the increasing number of students in the school.

# LEGISLATORS ELECTED FROM THE CITY

**DR. BIDHAN CHANDRA ROY**

**BOWBAZAR CONSTITUENCY**

Dr. Roy has grown into an institution not only in Calcutta and Bengal but in India, thus observed the Prime Minister of India, Shri Jawaharlal Nehru, in one occasion. Dr. Roy has had a varied career and he has participated in a multitude of activities. Not that he is the Chief Minister of the State administering the country but really speaking he is the re-builder of the present Bengali nation. He has his magic touches in all the branches of the activities of a nation so ruthlessly shocked in all directions. A life devoted to the cause of nation he is near the sum of blessedness.

A descendant of the family of Maharaj Pratapaditya, his father Prakash Chandra Roy developed himself into a God-loving man and became one of the pillars of the Brahmo Samaj. His mother Aghore Kamini joined her husband in order to ennoble those who came in contact with her. Her life was one of devotion, service and self-sacrifice. Dr. Roy is their fifth child and the name 'Bidhan' was choiced by the Saint Keshub Chandra Sen.

Inherited from his parents such exalted qualities Bidhan Chandra started his life as a social worker with philanthropy limited in his own sphere. He spent his early youth at Patna, and came to Calcutta to study medicine. As a student he attracted his teachers. He went to England after the completion of his studies here. There he had hard days to secure his M. D. and F. R. C. S. As a medical practitioner he started his career in this city. And his life's mission was rather fulfilled. For many years he was attached with the Brahmo Samaj in its different spheres of activities. His connection with the then Carmichael Medical College started earlier and even when he rose to eminence he did not disconnect his link there. In the meantime he became a fellow of the Calcutta University.

In 1921, he was baptized by Deshabandhu Chittaranjan Das and was soon included as one among the 'Big Five.' And it would not be an exaggeration to say that what Deshabandhu dreamt of Dr. Bidhan Roy built and every institution bears the stamp of his architecture. It cannot be denied that the city lives to-day through its various social, political and philanthropic institutions and everywhere there is a halmay touch of Dr. Roy.

In spite of his manifold activities he was drawn to politics under the influence of Mahatma Gandhi. He was first elected to the Bengal Legislative Council by defeating his rival Sir Surendra Nath Banerjee, the Father of Indian Nationality. It was an historic event. Dr. Roy joined the Swarajya Party under Deshabandhu and was there for one term. Since then his parliamentary career was gapped for more than twenty years. But he did not abandon Congress,—rather took the reins of the institution. He was the Secretary

of the Reception Committee of the All India Congress held in Calcutta in 1928. He joined the Civil Disobedience Movement and courted imprisonment in 1931. He was also a Director of the 'Forward', the voice of the Bengal Provincial Congress Committee. His acumen in industry is no less than any contemporary industrial magnate in the country.

In 1937, Dr. Roy was one of the members of the Congress Parliamentary Board and had a hand in selecting legislators. In 1939, he emerged in the field as one of the top-ranking leaders of the Congress and became a member of the Congress Working Committee. During war years and after he was mainly engaged in social and educational betterment of the country. As a long standing Member of the Calcutta University Senate he was appointed as its Vice-Chancellor for one term in 1948. His services to the University is outstanding. The newly started Jadavpur University also owes its existence to Dr. Roy in many respects.

It was a happy occasion when in the post-Independence Days he took the Chief Ministership of this truncated State facing innumerable problems. Within these few years the State stands in equal with others mainly due to his stewardship. As a parliamentarian, as an administrator,—above all as a patriot he stands shoulder to shoulder with the few survivals of these days. In a word it can be said that the life and soul of the State moves with on its pivot as Dr. Roy.

To the Calcutta Corporation the services of Dr. Roy is difficult to estimate. At a crucial period towards the early thirties he entered the institution which was then in search of a leader. He had ministered the civic needs of the citizens because he loves the city and has been living here for more than half a century. His physician's eyes and scientific training had helped him to understand the civic problems better than others. In a most significant period in the history of India he rose to the exalted Mayoral Chair twice and his performances were most glamouring. He acquainted himself creditably by serving in different Standing Committees and Sub-Committees of the Corporation in various capacities. Corporation Budgets and Finances had specially appealed him and he was once considered the greatest healer of financial wounds. The last task he has fulfilled is the Calcutta Municipal Act, 1951. He piloted the Act in the State Assembly. It gave a re-oriented look on the constitution and administration of the Corporation re-modelled on the 1928 Act. Even to-day as a State Chief Minister and as an elderly leader his presence is essential in many of the tricky problems of the Corporation.

Thus, we find, profession and politics were equally hard task masters to Dr. Roy which he has attempted to fulfil all through his life. A great Karmayogin with a tall stature Dr. Roy has a towering personality which he commands over the people as an all India leader.

**SHRI ISWARDAS JALAN****BARABAZAR CONSTITUENCY**

The first Speaker of the West Bengal Assembly and at present Minister-in-charge of Local Self-Government Department, Shri Iswar Das Jalan has been re-elected from his own constituency. As

a former Speaker he commands much respect and honour and as a Minister he has been able to bring about considerable changes in the Local Bodies within the State. The recently passed West Bengal Panchayet Bill is one of his achievements in this sphere.

Being one of the Senior-most Members in the House Shri Jalan maintains a continuity since the days when the Provincial Assembly was constituted in 1937. As a spokesman of the Marwari community in Bengal his elections were unanimous in the past from the Burrabazar Constituency. On each occasion he has been elected as a nominee of the Congress Party.

Passing M.A. Examination in Economics in 1916, Shri Jalan joined the State Civil Service as an Assistant Collector and Magistrate. But soon he resigned the post and became an Attorney of the Calcutta High Court in 1921. By dint of his enterprise and zeal he rose to become a Senior Partner of the famous Attorney House, Messrs. Khaitan & Co. which he held till he was elected as Speaker. He was also elected to the Corporation for one term in 1927.

Shri Jalan is largely associated with many of the cultural and social organizations in his locality.

\* \* \* \*

**SHRI SUDHIR CHANDRA ROY CHOWDHURY****BURTOLA NORTH CONSTITUENCY**

A former Mayor of Calcutta, Shri Sudhir Chandra Roy Chowdhury, was the leader of the Praja Socialist Party in the State Assembly. With his re-election to the House the whole Opposition group has retained its glamour and dignity. As a leader his keen sense of far-sightedness and inner perspective have amply been demonstrated. He is one of the best speakers in the House whose witty speeches have very often enchanted the House to revise their earlier decisions. The present odds are so heavy and the future so black, that the legal knowledge, powers of quick decisions and other achievements of Shri Roy Chowdhury would sure to help the House in tiding over many of the difficult situations.

Shri Roy Chowdhury is still now a devoted follower of Netaji Subhas Chandra. His political philosophy is mainly based upon the teachings of Netaji which he learnt under his feet. There is also a great deal in Roy Chowdhury which is romantic as well as a feeling of sympathy for those whom capitalism has caused to suffer. As a leader of the Socialist Party he believes in the evolutionary process of Socialism through the progress of society. That is why he has identified himself

with all the movements sponsored by the common citizens either for their social and political upliftment or for economic liberation in recent years.

Born in 1904 Shri Roy Chowdhury had his education in this city. After becoming an M.A., B.L., he started his career as an Attorney in the High Court and soon rose to fame in his profession. At the prime of his youth he entered Corporation as an elected Councillor. Re-elected in 1940 he became one of the trusted lieutenants of Subhas Chandra in the Corporation and virtually became the leader of the Congress Municipal Association with the disappearance of Netaji from the city. He maintained his position in the Corporation after the General Election in 1941. In 1947 at the age of 43 he was elected as Mayor of Calcutta. His contribution to the Corporation was immense. His sympathy for the employees was worth mentioning and his services to the citizens was no less than any other leader in the Corporation.

Shri Roy Chowdhury helped much in organizing the All-India Forward Bloc under the leadership of Netaji Subhas Chandra. Later on he became one of its leaders. He was arrested in connection with the famous August Movement in 1942 and was kept under internment for some time. He was a member of the All-India Congress Committee and held an office in the Provincial Congress. His affiliation to the present party dates from its very inception.

As a believer of an equal distribution of wealth his concern is mainly with social justices and social welfare. He has always inspired the social workers in his locality by not only extending pecuniary help but also by active participation. He was for years Secretary of the 'Daridra Bandhab Bhandar' a premier social service organization having varied branches of welfare schemes.

\* \* \* \*

**SHRI BEJOY SINGH NAHAR****CHOWRINGHEE CONSTITUENCY**

'REBEL' is a sufficiently inclusive term by which Shri Bejoy Singh Nahar can be described. His fifty-year life is a constant source of rebellious mood from all the past traditions and customs. Elected to the State Assembly for the first time he would be more helpful to the state due to his intimate knowledge of the country as the General Secretary of the State Congress Committee. Shri Nahar has been a Member of the State Legislative Council since 1952. He has, as he deserved, almost everything else that the affection and gratitude of the people he represents there.

Born of a community who have migrated from a distant land and have fully identified with the sons of the soil, Shri Nahar was drawn towards the secret society movement under the guidance of the then revolutionary leaders. Even as a student of the Metropolitan Institution he came in contact with men like Shri Bepin Behary Ganguly, Shri Anukul Mukherjee, Shri Harish Sikdar, Shri Girindra Nath Banerjee and others. During his college days

he earned the name as a sportsman. Even now he takes a keen interest in it. He led a team to the Olympic fields in 1952 and undertook a tour of Europe in that connection.

While reading in the Post-graduate and Law classes he joined the Civil Disobedience Movement in 1930. Since then his activities were directed towards the Congress field and within a short period he became an active member. In 1939, he was elected as the Vice-President of the Central Calcutta Congress Committee. During 1942 movement he was placed behind the prison bars. He has been a member of the Provincial Congress Committee since 1940 and rose to office in 1948 as its Treasurer. In 1950, he was chosen as the General Secretary.

Shri Nahar loves to take part in social and civic matters and he entered Corporation in 1940 as an independent member. Since then Corporation work is one of his main attachments. In 1953, he was appointed a Member of the Municipal Service Commission by the Corporation. The Nahars are patrons of art and ancient relics. He has made gifts of his ancestral collections to the Calcutta University, recently.

\* \* \* \*

#### SHRI ANANDILAL PODDAR

Jorasanko Constituency

Shri Poddar was born in Calcutta in the year 1914 and received his education from the Presidency College. He is not only a popular and well-known figure among his own community but also among the citizens of Calcutta for whom he served well for a long period. As a devout follower of Netaji Subhas Chandra he was elected a Councillor of the Corporation in 1940 uncontested and rose to the rank of Deputy Mayor in 1948.

The next year he became the Mayor of Calcutta. Many good work stands at his credit in the Corporation. Shri Poddar was elected to the State Assembly in 1952 for the first time.

\* \* \* \*

#### SHRI DHIRENDRA NATH DHAR

Taltala Constituency

The man who represents the largest number of citizens apart from a Lok Sabha Seat is Shri Dharendra Nath Dhar. Elected from the Taltala Constituency to the Legislative Assembly, he also represents in the Corporation Ward No. 45, a part of the Muchipara Constituency. Both the areas are adjoining and this covers an wider range of the central part of the city. Shri Dhar moves on foot every day from one corner to another acquainting himself with the needs and grievances of the local citizens. During this short period of his Councillorship he has earned a name as an important member of the Standing Finance Committee.

Born of a respectable family at Wellington Street, Shri Dhar had his education in this city. He can claim his political connection from his early youth. He was tried on many occasions on various charges in connection with different conspiracy cases during thirty's. As a student leader he was

once entrusted with the publication of 'Usha' a monthly cultural journal. He was also an active Congress worker before forty's and later on joined the Communist Party.

During the years 1938-48, he directed his activities towards the labour field and was attached to Trade Union movement. During the days of communal disturbances he was a promoter of peace movement. In social services and in relieving the sufferings of the distressed he is always compassionate and enthusiast. He has also rendered yeoman's services when the feelings between the Corporation employees and authorities became bitter and it was through his intervention a happy end ushered in.

\* \* \* \*

#### DR. NARAYAN CHANDRA ROY

Vidyasagar Constituency

Once a physician became a revolutionary and ultimately appeared as an able parliamentarian. He suffered and suffered much. Wisdom was supreme in him and this enabled him to rise on the occasion. Dr. Narayan Roy, M.L.A., represents such a type. He has been again voted to the Assembly from the same Vidyasagar area. His success in the election tells of his outstanding popularity as well as recalls his unceasing services to the people. He is figured in the Assembly as a critic of the Government's public health and medical policy. He suggests for rapid progress against the slow moving policy of the Government in providing medical facilities and hospital beds to the people. For the last five years during budget discussion Opposition has found in him the right man who can lead the House to a profitable position. His suggestions are valued and often put to practice.

Calcutta, the city of his birth, has nursed him and provided him with education. As a student of the Calcutta Medical College he was responsible for organizing a Student Union there. After obtaining his M.B. Degree he started his profession with a philanthropic mood. This paved his way towards the Council Chamber in 1930, and soon he became an important member of the Standing Health Committee.

An early connection with a revolutionary group caused his arrest along with other friends in the Dalhousie Square Terrorist Outrage Case in 1931. He was tried and was sentenced for a long term of imprisonment. Along with others he was transported to the Andamans,—the evil world. It was just on the eve of the third Comintern a ray of light was thrown to the rest of the world and unknowingly it entered into that infernal island. This awoke Dr. Roy and his comrades from a deep slumber, and they sought for solace in it. Later on a repatriation movement and continued hunger strike undertaken by the convicts resulted in unconditional release to many of them. With a deep anxiety in his mind Dr. Roy was also released and he entered into his old profession. Soon he regained his old practice and is considered till to-day as one of the eminent physicians in the city. Still he did not abandon his political ideology and

soon identified himself in the rank and file of the Communist group. He is a believer of that faith and propagates that through his untiring services to the people. As a member of a Medical Mission his recent tour of U.S.S.R. and other Communist countries has confirmed his belief in this.

One thing which places him to the leadership is his sympathy and help for the mass as well as to give voice to their feelings and grievances.

\* \* \* \*

### SHRI SOMENATH LAHIRY

ALIPORE CONSTITUENCY

Shri Somenath Lahiry is not unknown to the citizens. His election as a Corporation Councillor representing the city's labour speaks of his popularity. His presence in the House along with his Communist friends will no doubt make the opposition stronger. As in the past his speeches will also be heard of attentively. His presentations are always accurate and attacks pointed.

Born of a well-known Lahiry family in Krishnanagore, Nadia, Shri Lahiry had his early education there. While a Post-graduate student in science he gave up his studies during the 1930's Satyagraha Movement. Soon he was found in almost every sphere of national struggle. His party affiliation dates back to 1931. As a propagator of communist faith he had tirelessly worked and worked hard with all its adversaries since then. He also suffered imprisonment.

Shri Lahiry is a regular contributor to the cultural forum of the 'Swadhinata' a communist daily and many other journals and periodicals dealing mainly on the cultural aspects of the country. His writings in English are also being appreciated by the cultural and the educated society in India.

\* \* \* \*

### DR. MAITREYEE BOSE

FORT CONSTITUENCY

Dr. Maitreyee Bose belongs to the generation of social workers who have grown up under the shadow of Mahatma Gandhi. She was attracted to the ideals of Gandhiji even before she met him. Prior to that she made an attempt to work in the Labour field and established the National Trade Union Congress. She had been in the Legislative Assembly after winning a bye-election in 1954. This time she has been elected from a Calcutta Constituency where labour forms a major part.

Shrimati Bose, daughter of late Sasibhusan Bose, had her education in this city. After obtaining M.B. Degree from the Calcutta Medical College in 1929 she had been in Germany for several years and secured a Doctorate in Medicine from the University of Munich in 1933. She was the House Surgeon of the Chittaranjan Seva Sadan for two years. A visiting physician to Campbell Medical College, Children's Ward, she had effected many improvements. Later on she joined the 'Quit India' movement and devoted herself to the constructive sphere of the Congress.

During the post-war period labour welfare occupied much of her time. She then organized National Union of Port and Dock Labour, the All-India Defence Employees' Federation and even entered into the field of textile workers. Her contribution in the Dock labour field led her to represent their case in the I. L. O. Geneva, for three times—1949, 1951 and 1956. At present she is engaged in the child welfare work. As Secretary of the 'Save the Children Committee' India, and West Bengal Council for Child Welfare her work has received recognition. Her husband Dr. Swadesh Bose, M.D. is an eminent Gynecologist in the city.

\* \* \* \*

### SHRI HEMANTA KUMAR BOSE

SHYAMPUR CONSTITUENCY

RESOLUTE is Shri Hemanta Kumar Bose, whose life is eventful throughout. Shri Bose is one of the most popular figures in the city. He has always sided with the citizens whenever there was a need for such. His career started as an ordinary volunteer rendering philanthropic services for the locality. His activities extended beyond that limit. But Hemanta Babu is better known as a political leader and this task he has fulfilled in a most significant way.

He was the Secretary of the North Calcutta District Congress Committee for long twelve years.

As a follower of Subhas Chandra he went to the rescue of North Bengal flood victims in 1923. He courted imprisonment during Civil Disobedience Movement in the thirty's. He was kept under detention as a leader of the August Movement in 1942 and sat during the post-war period as representative of the leftist workers in the Parliamentary Selection Committee of 1946. During recent years he has participated in every movement of the citizens and has shared the consequences.

Shri Bose was an Adjutant to Subhas Chandra, G. O. C. of Bengal Volunteers in 1928. He himself was in charge of volunteers during the Sessions of the All India Congress Committee in 1937 and 1938. He is an elected M.L.A. from the northern part of the city for the last twelve years. His popularity was tested when he sought re-election in 1951 as an independent candidate after renouncing the Congress ticket. Public work and welfare work is the passion of his life and for that he even refused to become a Parliamentary Secretary under Roy Cabinet in 1950. His honesty and sincerity was placed above question when he successfully carried on the duties of the Secretary of the Congress Parliamentary Board for two years. As an elected leader of Forward Bloc Group in the last State Assembly his contributions are worth-mentioning. His speeches are heard in all quarters.

Shri Bose is a born worker and he still carries the banner of Subhasism. As a President of the All-India Forward Bloc he claims that his fidelity to Netaji is still sincere and the organization he belongs still maintains its sanctity. He was the Secretary of the Provincial Forward Bloc in 1940. Even now he cannot bear the existence of any foreign power in India's soil and that is why he joined Goa Liberation Movement and

marched into the Portuguese lands with a band of followers.

Thus Shri Hemanta Bose who is now comparatively older in age becomes 'Hemantada' to all whom he has come across and who seeks his advice and help in their needs.

\* \* \* \*

### SHRI NARENDRA NATH SEN

EKBALPORE CONSTITUENCY

A good soldier and a handsome gentleman, Shri Narendra Nath Sen has again been returned to the State Legislature from another constituency to which he was not intimately known before. His speeches in the Assembly are few and far between but whatever he spoke they bore the burning penetration into the things he looked into. His brown eyes also indicate something more.

By inheritance Shri Sen comes from the famous Baidya family in Barisal but by impulse he is a revolutionary as well as a political leader. To the revolutionary cult he was drawn during his student life in this city. He came in touch with the arch revolutionaries like the late Shri Bepin Behari Ganguly and others. He plunged himself into the Congress movements during the Non-co-operation days. He also shared the misfortunes of an honest patriot and even gave up his legal profession during the thirties. He was Secretary of the Central Calcutta District Congress Committee for a long period which organization he nursed and fostered since its infancy. He was detained as an under-trial prisoner under the Defence of India Rules, during the famous August Movement. As one of the important members of the State Congress and the All-India Congress Committee he held different offices in the Congress. He also served the CALCUTTA MUNICIPAL GAZETTE for few years.

\* \* \* \*

### SHRI AMARENDRA NATH BOSE

BURTOLA SOUTH CONSTITUENCY

An eventful political career is given to Shri Amar Bose, who has again been voted to the Assembly. Shri Boses are for three generations in this city and within these years the family has endeared love and veneration from all quarters.

In 1939 he joined Forward Bloc and since then he has identified himself as an ardent follower of Netaji. But he believes that the organization should not only be the stronghold of Subhasism but also has its wider outlook. He is even up to make a compromise with the Communist group in this country whatever differences are there. This has prompted him to found Marxist Forward Bloc of which he is the President at this moment.

Shri Bose's career is full of incarnations and sufferings. His surviving father Shri Atindra Bose, was one of the leaders of the Partition Days of 1905. This inspired him to join the movement as an ordinary volunteer even when he was in teens by giving up his studies. The boy's imagination flew

high and gradually he was in the tide of revolutionary activities. His close association with the leaders of the Jugantar Party was responsible for the arrest of the father and the son in 1916. Both were detained till 1919.

From 1920 he began to take active interest in Congress politics and participated in the Non-co-operation Movement under the North Calcutta District Congress Committee. In 1924 he was again arrested in connection with the revolutionary work. After release in 1926 he plunged himself into social work under the guidance of his aged father. This has also prompted him to establish the Simla Byam Samity, one of the foremost institutions of physical culture in the city.

During the Civil Disobedience Movement he suffered imprisonment twice. With the establishment of the 'Forward Bloc' in the country, Shri Bose joined it and soon became its active supporter. He was arrested in 1940 along with Subhas Chandra.

Arrested in 1942 in connection with August Movement, Shri Bose was sent to the Buxa Fort Camp where he stayed for 4 years. In Arrah, 1946, at the Annual Conference of Forward Bloc he showed his inclination towards Marxist ideals. He wanted that the post-war policy of the organization should take an entirely new channel.

As an elderly leader of 68 he is honoured and respected. He is 'Amarda' to all the political workers of Bengal since the days of 1928.

\* \* \* \*

### SHRI DEBENDRA NATH SEN

COSSIPORE CONSTITUENCY

Among the Congress leaders who ploughed the soil for organizing an all-round labour movement in the pre-war days Shri Deben Sen was one of them. He had been in the Congress for long years. He first entered into the Assembly from an exclusive labour seat in the Asansol area.

At present aged 55, Shri Sen hails from Faridpur District (now in East Pakistan). He left his studies while a student in M.A. Class and joined the Non-co-operation Movement. Since then he had been many times in jail for different terms. Shri Sen's contribution in the labour field is worth mentioning. He organized the Indian National Trade Union Congress. Shri Sen had been in the office of the Congress in different capacities. He also represented Indian Labour in the International Labour Organization in Switzerland and was its President for one term.

In 1948, Shri Sen established the famous 'Asian Federation of Labour' and started 'Asian Worker' as its Editor. The journal publishes many of the important problems in the labour front and has a wide circulation.

Shri Sen left Congress in 1951, along with his many other friends in the labour field and joined the Praja Socialist Party. This time he has been elected in the Assembly on his party ticket.

## SHRIMATI MANIKUNTALA SEN

## KALIGHAT CONSTITUENCY

The only woman Member sitting in the Opposition Bench in the State Assembly is Shrimati Manikuntala Sen. She has again been elected from the Kalighat Constituency. But she had no easy wins on both the occasions. Her speeches in the Assembly always carry some weight and they are heard attentively by all the sections of the House. Besides, she is a forceful speaker. She was the Deputy Leader of the Communist Bloc in the Assembly.

Hailing from the district of Barisal, now in East Pakistan, Shrimati Sen joined the student movement while a post-graduate student. Earlier she was connected with some revolutionary group in her own district. After passing M. A. Examination she worked as a Head Mistress in a girls' high school. But soon she was attracted towards the Communist ideal and became an active member of the Party. The task of organizing the Mahila Atma Raksha Samity spreading all over the country, a subsidiary to the main party, fell on her shoulders and soon she proved her metal. Since then she has been intimately connected with innumerable social and cultural organizations. Her activities in relieving the distress of the uprooted refugee women as well as the victims of 1948 famine were worth mentioning. She was imprisoned when the Party was declared an illegal organization towards the fifty's. In 1956 she undertook a tour of East and Central Europe including U.S.S.R. in connection with the International Mothers' Conference in Lucern, Switzerland.

\* \* \* \*

## DR. RANEN SEN

## MANICKTOLA CONSTITUENCY

Accustomed to submit detailed data on the living conditions of the employees, in the Assembly House, Dr. Ranen Sen has again been returned to the House from his former constituency by defeating four rivals. He secured the second largest number of votes among the single-member constituencies in the city. The passed licentiate medical practitioner hardly nurses a patient but he is always keen to take preventive measures against all kinds of diseases through legislation. He is a store house of data as regards employment situations in the country and eager to improve the lot of the labour population.

Born in the district of Jessore of a well-known Baidya family of Kalia, Dr. Sen joined the national movement while a student of a Medical School in this city. He soon showed his inclination towards the labour and plunged himself into the Trade Union Movement before he passed the final examination. He joined the Communist Party before 1930 and since then has been connected with all its subsidiary organizations. His activities have also spread over to the All-India field and at present he is an important member of the All-India Trade Union Congress. He was responsible for the success of the All-India Conference in

Calcutta in recent years. He is attached to a large number of employees' association or labour organizations in either way. He was also put to jail during 1950.

\* \* \* \*

## SHRI GANESH GHOSE

## BELGACHIA CONSTITUENCY

STRONGLY built and one of the heroes of the Chittagong Armoury Raid Case, Shri Ganesh Ghose, has again been elected to the State Legislature from the same constituency where he fought eleven other rivals in 1952 from behind the prison bars. He can deliver lengthy speeches in English, Bengali and Hindi. His forceful speeches demanded him to be an important member in the Legislature. Though of a comparatively short in stature still he represents the fiery youth of Bengal even at an age nearing sixty.

Born in Jessore of a middle-class family Shri Ghose spent his early days in Chittagong where he imbibed his revolutionary cult. He also joined Congress during the Non-co-operation days and was a member of the Bengal Provincial Congress Committee in 1929-30. As one of the leaders of the Armoury Raid, the second armed uprising against British rule, he contributed much and was given a life long transportation on a charge of bagging arms and ammunitions from the Government Stores. For seven years he was in the Andamans and was finally released in 1946. While in jail he was attracted towards the Communist ideal and became its member from there. The events of his life are romantic as well as a lesson to the revolutionary population in any country. He has suffered imprisonment altogether 23 years. But still he is indomitable in one sense or other.

\* \* \* \*

## SHRI SUNIL CHANDRA DAS

## RASH BEHARI AVENUE CONSTITUENCY

BADLY dressed Shri Sunil Das walks along the Rashbehari Avenue everyday as if he cares little for the worldly affairs. Always he wears a grave face but his heart always yearns for something which he knows best. Inspired by the teachings of arch-revolutionaries a sense of burning patriotism enkindles in his mind. He is also busy with his multifarious activities. Such a man has been voted to represent the people of Rashbehari Avenue on a P. S. P. ticket.

As a faithful follower of Netaji Subhas Chandra he has inculcated the philosophy of Subhasism and has tried to propagate the same through innumerable pamphlets and booklets written by himself and his friends. Recently he has directed his activities to bridge up the present Socialism with Subhasism not directly opposite forces.

The fifty-year life of Shri Das is full of events and constant sufferings. After securing M.Sc. Degree in Chemistry he was a research student of the Dacca University under the guidance of Dr. J. C. Ghosh, then the Head of the Department.

Since his college days he was attracted to the revolutionary ideals and was engaged in terrorist activities. This put him into jail for several years. His family suffered no less and even his brothers were victims of the then police atrocities. In 1939, he joined the Forward Bloc along with Shrimati Lila Roy and the late Shri Anil Roy to whom he had been attached. He joined the August Movement in 1942 and was detained. After release in 1946 the soldier's activities were directed in all the fronts. He then belonged to Forward Bloc, Subhas Group. During the dark days of communal disturbances and partition he had extended his helping hand in every place where there was a need of it. During recent years he has also identified himself with all the progressive movements and has suffered much. Besides, rehabilitating the refugee people, he has espoused the cause of the labour and the farmer. Twice he stood for a seat in the suburban area but was defeated.

\* \* \* \*

**SHRI SIDHARTHA ROY**  
BHOWANIPORE CONSTITUENCY

GRANDSON of Deshabandhu Chittaranjan Das, Shri Sidhartha Roy is a Barrister of the Calcutta High Court. His father late Shri Sudhir Roy belonged to the same profession. Never before was his popularity tested still the youngman of 37 has polled larger number of votes which caused his rivals to forfeit their deposits. The area knew him well for generations and his success was a source of happiness to all.

An enthusiast in all walks of life his fielding in cricket and other games have attracted the sporting world. He also promises a bright future in Parliamentary life of the country as he has been raised in his profession within a short period.

\* \* \* \*

**DR. JNANENDRA NATH MAZUMDAR**  
BALLYGUNGE CONSTITUENCY

BEFORE the last general election in 1952 Dr. Jnanendra Nath Mazumdar was little known to the citizens. As a physician as well as a sincere social worker he had chances to be known only to the locality he lives. His emergence as a political leader has just been started with his success in the election as a Communist candidate.

Dr. Mazumdar belongs to a family which is known as pioneers of a system of treatment Homeopathy not thoroughly studied in this country even to-day. His father, the late Dr. J. N. Mazumdar was an eminent physician in this line. Dr. Mazumdar also secured his M.B. degree from Medical College. He is an M.Sc. of the Calcutta University. Later on he went to England and became R. R. C. S. there. During last election he fought under an U. S. O. ticket but was defeated. Later on he became a believer of the communist faith and fully identified himself with the party.

It may be recalled here that Dr. Mazumdar is one of the elder brothers of our Councillor R. N. Mazumdar.

\* \* \* \*

**SHRI HARIDAS MITRA**  
TOLLYGUNGE CONSTITUENCY

THE man who secured the highest number of votes in a single constituency is Shri Haridas Mitra. The area holds a population majority of which are uprooted people. Still his amiable disposition and past activities attracted the people there. Shri Mitra aged 48, was once sentenced to death in connection with his activities in the I. N. A. Movement, it was condoned by life long transportation and lastly his unconditional release was welcomed by the Indian people. Shri Mitra would surely render unique services to the people during his term in the Assembly.

Married to Shrimati Bela Mitra, the niece of Netaji Subhas Chandra Bose, the couple devoted all their energies in the struggle for India's Independence in the forty's. In the post-war days they organized Jhansi Bahini in India and which gained some fame. The organization has suffered much with the death of Shrimati Mitra. Before that Shri Mitra's activities were varied and spread over all the branches of social and cultural fields. He is an M.A.B.L. of the Calcutta University and participated in the student movement. He was attached to the Congress till the other day but later on joined P.S.P. Party. His father, the late Shri J. N. Mitra of Jessore was a Member of the then Provincial Legislative Council under the banner of the Swarajya Party. He is the nephew of late Sir S. N. Mullick, the first non-official Indian Chairman of the Calcutta Corporation.

\* \* \* \*

**SHRI JATINDRA NATH CHAKRAVERTY**  
MUCHIPARA CONSTITUENCY

A Revolutionary Socialist Party leader Shri Jatim Chakraverty started his life with a revolutionary ideal of the famous 'Anushilan' group. During his student life he took active part in different movements. He was the President of the Students' Radical Party for some time in 1933. He was elected Assistant Secretary of the Congress Nationalist Party in 1935. During the 'Quit India' movement, he was not spared from detention. While under detention he passed Final Law Examination with credit.

After 1946 the secret party was expanded to an All India Party and he became the Secretary of the R. S. P., Bengal Branch. He was drawn towards Trade Union Movement under the guidance of the late Shri Mrinal Kant Bose and was elected as the Secretary of the B. P. T. U. C. and later of the U. T. U. C. In connection with Colombo Plan Shri Chakraverty had the fortune of undergoing training in the Trade Union Movement in England. He is a much travelled man and has got the intimate knowledge of Trade Union and labour movements in China, Poland, U.S.S.R., England and other advanced countries.

**SHRI SUHRID MULICK CHOUDHURY**  
SUKRA STREET CONSTITUENCY

The youngman who started his political career under the inspiration and guidance of Subhas Chandra, is Shri Suhrid Mullick Choudhury. Shri Mullick Choudhury organized a social service organization even when he was a boy in a school. He became an active member of the Students' Federation when he was a college student. He also sponsored many night schools for the low-income-group people in the suburbs of the city.

Shri Mullick Choudhury's name was known to people as a Founder Secretary of the Indian Youth League, an organization which received constant patronage and guidance of Subhas Chandra. He was first imprisoned for participating in the Holwell Movement. Later on, he was interned in the district of Khulna. There he was imprisoned for creating disturbances among the military personnel. Later on he was attracted towards socialist ideal and organized the Marxist Forward Block as its Secretary. He was a member of the last Assembly as a Forward Block leader representing Beliaghata area. He attended the World Youth Convention in Brussels in 1958 and toured round the East Europe including U. S. S. R.

\* \* \* \*

**SHRI RAMASANKAR PROSAD**  
BELIAGHATA CONSTITUENCY

PROBABLY the youngest legislator in the West Bengal State Assembly would be Ramasankar Prosad. He is barely twenty-six but his knowledge and integrity in the Trade Union movement are no less than a mature worker in the field. The Constituency which he will represent was unknown to him till the other day but his sincerity and dexterity were responsible for his success as a Communist candidate by defeating a sitting member.

Shri Prasad is not a son of the soils of Bengal. His early life was spent in North Bihar from where the family migrated to Kalimpong. There he came in touch with the communist leaders and was finally recruited as an active member while a college student.

\* \* \* \*

**SHRI JAGAT BOSE**  
BELIAGHATA CONSTITUENCY

Among the Calcutta Legislators Shri Jagat Bose will be a new member although he lost no time to avail of any opportunity whenever it was presented before him. He was twice defeated from an adjoining locality but he lost no heart when a third was presented before him. This time he has polled more than ten thousand votes than done by his nearest rival in a double seated constituency. His speeches are emotional but bear some undeny- ing facts.

Shri Bose's academic career does not glow with brilliance. His native district was Barisal

but he was taken to North Bengal while a school boy. As a member of the then famous Jugantar group he was active and sincere. He was sentenced for a long term of transportation for his participation in a terrorist outrage in 1931. For seven continuous years he was in the Andamans and resorted to hungerstrike there along with others as a protest against the atrocious behaviour of the authorities. He was brought in to Calcutta and was soon released in 1938. In jail he was attracted towards the communist faith and joined the party in 1939. As a labour leader his name soon became known to all and he took up their cause for an all round improvement of their lots.

\* \* \* \*

**DR. ABU ASAD MD. OBAIDUL GHANI**  
ENTALLY CONSTITUENCY

It was striking to know when Dr. M. A. M. O. Ghani defeated his rival, the veteran Legislator of Bengal, Shri J. C. Gupta, from a constituency which was not fully known to both of them.

Never before Dr. Ghani was thick in politics but his unassuming character and amiable disposition have surely earned him his victory. Dr. Ghani's name first spread over the city as a promoter of peace during the dark days of communal disturbances. And happily, he has not abandoned that ideal even now.

After obtaining his M. B. degree from the Calcutta Medical College, Dr. Ghani was engaged in his profession and soon became an expert physician with handsome income. But the Good Samaritan did not satisfy himself with his profession alone. Gradually he extended his activities in other fields particularly in philanthropic work. The great Calcutta killing provided him an opportunity to acquaint himself with the citizens. He is also associated with many of the International Friendship Associations of this city.

\* \* \* \*

**SHRI NEPAL CHANDRA ROY**

JORABAGAN CONSTITUENCY

The youngman who has a soldier's zeal and tenacity to attain his goal is thirty-eight year old Shri Nepal Roy. He was a member in the last Assembly and on this occasion he has been elected on Congress ticket from the Jorabagan Constituency.

Shri Roy had an active life at his credit in the past. His father late Shri Jagat Chandra Roy of the district of Dacca (now East Pakistan) was arrested in connection with a conspiracy case. In 1946 he joined the Forward Bloc. For several years he was also a member of the Congress. In 1952, he was elected to the State Assembly as a candidate of the Forward Bloc to which he then belonged. Sitting on the Opposition Bloc he made sharp criticisms of the then Government policy. In 1954, he attended the All World Youth Conference at Geneva. In 1955 he joined the Congress and since then he has been a devout follower of the Party.

## Calcutta's Representatives To Lok Sabha

### SHRI ASHOKE KUMAR SEN

#### CALCUTTA NORTH-WEST CONSTITUENCY

EMERGED in the political arena during a period when the high-tide of anti-merger issue was flowing on in the country, Shri Ashoke Kumar Sen, a well-known Barrister of Calcutta, has just taken

in as a Law Minister of the Union Government. Shri Sen has defeated his old rival Shri Mohit Maitra, to whom he had to submit about a year back.

As a Junior Standing Counsel of the High Court, Shri Sen's fame as a legal practitioner spread throughout the country. But he resigned the post in order to devote more time on Congress organizational work. He has a ripe knowledge on International Law and surely his activities would be expanded beyond the limited scope of a State Minister to that sphere. India would be happy to send him as a representative to the International gatherings as he did in the past by joining the Indian Delegation to the U. N. O.

Shri Sen had connection with revolutionary party in Dacca where he was born. After his graduation from the Calcutta Presidency College, he took his M.A. Degree in Economics in 1936. He also secured M.Sc. on the same subject from London School of Economics. After returning to India in 1941 he was a Lecturer in Commerce and Law in the City College, Calcutta. His books on Commercial Law and other subjects was helpful to the students. Shri Sen is now 47.

### PROF. HIRENDRA NATH MUKHERJEE

#### CALCUTTA CENTRAL CONSTITUENCY

BREATHING a kind of Socialism based mainly on Marxian ideology, Prof. Hirendra Nath Mukherjee, has been re-elected to the Lok Sabha from the same constituency. Socialism, he imbibed while studying History in Oxford. Though connected with the Communists since its emergence as a Political Party Prof. Mukherjee is more correctly placed with the classical socialists group. He has tried to mould India's foreign policy through his speeches in the Lok Sabha. He also wanted to plant a new kind of social order in the country. He has written a number of books and pamphlets on this subject both in English and Bengali which have received wide recognition. This marked the career of the distinguished Parliamentarian who was elected as the Deputy Leader of the Communist Bloc, the Opposition Party in the Lok Sabha.

At present on the right side of fifty Prof. Mukherjee was born in Calcutta. He had a brilliant academic career at his credit while a student in the Calcutta Presidency College. He

stood First in M.A. in History among the students securing First Class marks. While in England he took s.k. in Law and qualified himself as Barrister. After returning to India he was appointed a Lecturer in History and Politics in Andhra University. But he soon returned to Calcutta to join as Head of the Department of History in the then Ripon College. In 1936 he joined the Congress Socialist Party and became its Secretary later on. He was also a member of the Indian National Congress for some time. In 1949 he was detained in prison for his connection with the Party. He is the most popular figure not only among the students but also among the men of culture and integrity in the city.

### SHRI SADHAN GUPTA

#### CALCUTTA SOUTH-EAST CONSTITUENCY

Shri Sadhan Gupta, who has been re-elected from the same constituency this time, is also a Bar-at-law. Known as a good debator in his college days, Shri Gupta is an important spokesman of the Communist view points in the Lok Sabha. Though lost his eyesight at an early age, still that proud spirit of war which he has imbibed earlier has very little chances of being overpowered.

Shri Gupta passed the M.A. and Law Examinations with credit and was one of the leaders of the student movement in the country since 1938. He took allegiance to the party in 1944 and since then he is an active member of the party. He is associated with several employees' organizations. He was defeated in the last general election from the same constituency but won the bye-election by defeating a prominent Congress candidate.

### SHRI BIREN ROY

#### CALCUTTA SOUTH-WEST CONSTITUENCY

ONE of the pioneer aviators in India, Shri Biren Roy has won the Lok Sabha seat from the constituency which also includes his home town Behala by defeating a sitting Congress member.

He was elected to the State Legislature from Behala as an independent member. His speeches were rare.

Shri Roy's parliamentary career starts in the forties. Elected to the Bengal Legislative Council in 1943, he was for some time Parliamentary Secretary, but later resigned. Shri Roy took part in student movement during the thirties. For several years he was elected as Chairman of the South-Suburban Municipality, Behala. He was once President of the All-Bengal Municipal Association and was closely associated with the organization in different capacities.

## CITY NEWS PARADE

**OBITUARY:** Shri Jagadish Gupta, noted Bengali litterateur, died at his city residence on Monday, the 15th April. He was 71. He had been suffering from various ailments including loss of eye sight for some time past. Shri Tarasankar Bandyopadhyay, Kabisekhar Kalidas Roy and many others attended his funeral.

Born in 1886 at Kuthia (now in Pakistan) the late Shri Gupta came to Calcutta while still a school student. In his early life he came in contact with Kavi Gobinda Das of Bhowal and started writing poems. But he earned fame as a story writer. His writings appeared in Kallol, Kali Kalam, Bangabani, Atmasakti and other journals. Rabindranath, Sarat Chandra, Pramatha Chowdhury and other well known litterateurs praised his writings. During the last days of his life he suffered greatly and depended mostly on Government grants for maintenance. He wrote a number of books which have enriched Bengali literature.

**INTRODUCTION OF METRIC SYSTEM OF WEIGHTS** has again been postponed in order to enable a smooth adoption of the new system of weights and measures. According to the present plan, the system has to be introduced from the next year.

At a recent meeting of the Metric System Committee in New Delhi, the Posts and Telegraphs Department representatives have openly admitted their inability to adopt the system before 1960.

The Railway Ministry is also reported to have expressed the same view.

Although no revision of the proposed date for the introduction of the new system of weights and measures has yet been announced, the Committee is reported to have been strongly influenced by the opposition for an early introduction of the system.

**INFECTIOUS DISEASES HOSPITAL** at Beliaghata has been opened on Monday, the 15th April, with arrangements for 280 beds out of an ultimate total of 600. On the opening day, 30 patients suffering mostly from small-pox, were admitted. The beds now available are for both small-pox and cholera cases.

**ALL-INDIA INDUSTRIAL MEDICINE CONFERENCE** held its eighth session at the All India Institute of Hygiene and Public Health on April 12.

Dr. P. K. Ghosh, who presided, urged the necessity of institution of an Industrial Health Service which, he said, was of vital importance in the modern industrial age. He regretted that this aspect of welfare service had escaped the attention of the planners of the Second Five-Year Plan. Very great stress had been laid on industrial development in the country during the plan period but there was no mention of how to develop the Industrial Health Service in order to keep the men feeding the machines fit to reach the target.

The conference which was attended by 150 delegates including 50 from other parts of India was held under the auspices of the Society for the Study of Industrial Medicine, India—an association of Medical Officers and others attached to industries and interested in the promotion and maintenance of health and safety of workers in industry, mines and agriculture.

On this occasion Dr. H. P. Dasgupta, Chief Industrial Health Officer, TISCO Industries, delivered the seventh Sir Ardeshir Dafal Memorial Lecture on "Industrial Medicine as a concept of integrated Medicine".

**ACHARYA JAGADISH CHANDRA BASU MEMORIAL PRIZE** has been awarded to Shri Narendra Nath Basu, this year, for his enlarged and re-edited book "Khadya Katha" (food). The only other recipient of this prize was late Dr. Girindra Sekhar Basu. The prize is valued Rs. 500 and Shri Basu has asked the donor to reprint the book out of the prize money and has donated his rights to the Parishad. The prize was awarded under the auspices of the Bangiya Sahitya Parishad.

**SHRI ASHOKE SEN**, a newly-elected M.P. from North-West Parliamentary Constituency in Calcutta, was given a Reception at Shyam Square on April 13 evening.

Shri Sen reminded that there were many people who live in bustees and they had many problems. His earnest desire in life was, he said, to come to their help and remove their difficulties. He had already started to work among these people with the help and co-operation of a good number of youth. He cherished the hope that many more men would come forward and dedicate themselves to this noble task.

Shrimati Aparna Devi, daughter of Deshbandhu Chittaranjan, who presided, congratulated Shri Sen on his victory in the elections and asked him to follow the footsteps of Deshbandhu, Netaji and other leaders of Bengal who by their sacrifice enhanced the prestige of the country.

A cheque for Rs. 25,000 was presented to Shri Sen at the function. The amount would be spent in social work.

Shri Tarasankar Banerjee and Shri Sukomalkanti Ghosh also spoke. Following the reception a cultural programme was gone through.

**THE CENTRAL AWARDS COMMITTEE FOR FILMS OF THE GOVERNMENT OF INDIA** which recently assessed for awards feature, documentary and children's films certified for exhibition during the year 1956, has recommended the President's gold medal for "Kabuliwalla", a Bengali picture, as the best film for the year. The film is also to be awarded President's silver medal for the best film in Bengali.

Bimal Roy Productions' documentary "Gotama, the Buddha" has been recommended for President's gold medal as the best documentary.

Certificates of Merit are to be awarded to the Bengali pictures, "Mahakabi Girishchandra" and "Ek Din Ratre".

**A DEVASTATING FIRE** completely gutted at least 150 huts and about 1,000 persons were rendered homeless which broke out shortly after the noon in a bustee near Gariahat railway level crossing on April 12. A number of godowns containing timber and packing cases as well as some shops in the area were also reduced to ashes.

About 15 persons, including a fireman and several college students received burn injuries. No loss of life was reported.

The fire was noticed at about 1 P.M. Whipped up by a strong southern wind the flames spread from one hut to another and within a few minutes an area of about 4,000 sq. ft. was reduced to charred amouldering ruins.

The fire engines reinforced with the assistance rendered by the local people and students fought the fire and brought it under control within one and a half hours. Police also stood by and assisted the firemen in their work.

**EMPLOYEES MADE PERMANENT**

List of temporary employees made permanent by Commissioner with effect from 30th November, 1956 in accordance with the resolution of the Corporation dated the 1st October, 1956 and 14th December, 1956.

The 17th April, 1957.

## Taxes on Carriages and Animals

TAX ON CARRIAGES AND ANIMALS (SECTION 208 OF THE CALCUTTA MUNICIPAL ACT, 1951) (WEST BENGAL ACT XXXIII OF 1951).

### 1ST HALF-YEAR 1957-58.

It is notified for the information of the owners or keepers of any carriage or jinrickshaw or race horse or horse or pony or mule in Calcutta that they are liable, under the provisions of Sub-sections (a) and (b) of Section 210(1) of the Calcutta Municipal Act, 1951 (W. B. Act XXXIII of 1951), to forward a statement to the Central Municipal Office, by the 1st day of May, showing the number of carriages and animals owned by them or kept in their charge, together with the tax pay-

able for the current half-year at rates specified in the Schedule below. Printed Schedules in which the statements are required to be furnished are available in the License Department, Central Municipal Office. The persons concerned are requested to satisfy themselves that the tax payable in respect of any carriage or animal kept by them has been duly paid and the necessary license obtained before the 1st of May, 1957. Failure to forward the aforesaid return is an offence punishable under the Act with a fine of Rs. 200/- or a further fine of Rs. 25/- per day in the case of a continuing offence.

### SCHEDULE VI.

Any person having any objection to the proposed renaming should state the same in writing to the undersigned on or before Tuesday, the 14th May, 1957.

A. BHATTACHARJEE,  
Assessor.

CENTRAL MUNICIPAL OFFICE:  
The 15th April, 1957.

## CORPORATION NOTICES—Contd.

## Stall To Let

## NOTICE.

Applications with offers of initial rent and the name of the business to be carried on in the stall are invited for the privilege of occupying on permanent basis the undernoted stall in the S. S. Hogg Market. The applications will be received by the undersigned up to 30th April, 1957.

Stall No.—N.B. 7.  
 Area—312 sq. ft.  
 Daily rent—Rs. 5.50 n. p.

S. M. MURSHED,  
 Asst. Superintendent.

S. S. HOGG MARKET:  
 The 17th April, 1957.

(i) That no owner or driver of a cart shall fail to affix thereto a number-plate, as required by Section 224(i);

(ii) That carts will be seized from the very beginning of the 1st half-year, if they are not duly registered for that half-year or if number-plates are not affixed on them.

The fee payable for the half-yearly registration of such carts is noted below:—

- (a) Rs. 10/- if the cart is fitted with pneumatic tyre;  
 (b) Rs. 18/- if the cart is fitted with solid tyre; and,  
 (c) Rs. 40/- if the cart is not so fitted.

A. K. DUTT,  
 License Officer.

Central Municipal Office:  
 The 16th April, 1957.

with higher fine under Section 537 of the Act, which may extend to Rs. 50/- or to higher amounts in case of a second conviction. Further, an unlicensed dog is liable to be seized or destroyed under Section 527 of the said Act.

Owners or keepers of dogs in Calcutta are requested to have their dogs duly licensed for the year 1957-58, as early as possible, to avoid the said penalties of the law or the said risk of their dogs being seized.

A number-ticket will be provided while granting the license, to be kept attached to the collar or otherwise suspended from the neck of the dog, in token of its being licensed. Any dog having no such number-ticket for the year 1957-58 so attached or so suspended, will be presumed to be an unlicensed dog running the risk of seizure or destroyed, as aforesaid.

A. K. DUTT,  
 License Officer.

Central Municipal Office:  
 The 16th April, 1957.

## Registration of Carts

(SECTIONS 224 AND 225 OF THE CALCUTTA MUNICIPAL ACT, 1951, WEST BENGAL ACT XXXIII OF 1951.)

## 1ST HALF-YEAR 1957-58.

The half-yearly registration of carts under Sections 224 and 225 of the Calcutta Municipal Act, 1951 (W. B. Act XXXIII of 1951) for the 1st half-year 1957-58 has commenced on and from the 1st April, 1957. Owners or keepers of carts including hand-carts within the jurisdiction of the municipalities of Calcutta, Howrah, South Suburban and Dum Dum, are requested to have their carts duly registered for the 1st half-year 1957-58 at an early date. They should note—

(i) That no person shall keep or be in possession of a cart which is not duly registered under the above Sections;

## Tax On Dogs

LICENSE TAX ON DOGS FOR THE YEAR 1957-58.

The Corporation has fixed the dog license tax, imposed under Section 216(1) of the Calcutta Municipal Act, 1951, at Rs. 10/- per dog for the official year 1957-58, which has commenced on the 1st April, 1957. The tax is payable yearly in advance.

Attention of the owners or keepers of dogs in Calcutta is drawn to the provision of Section 216(3) of the aforesaid Act, by which they are required to forward to the Municipal Office, before the 1st day of May in each year, a list of all dogs owned or kept by them and, at the same time, to take out license for each such dog on payment of the prescribed tax. Failure to supply the said list or to pay the license tax due before the aforesaid date is an offence punishable

## Auction Sale

## NOTICE

All seized carts will be sold by public auction, if not claimed within 10 days of seizure at the Cart Registration Office at 185/1, Lower Circular Road, by the Cart Registration Officer everyday from 3 p.m., excepting holidays from 1st October, 1955, until further orders.

S. K. BOSE,  
 License Officer (Offg.)

CENTRAL MUNICIPAL OFFICE:  
 The 1st October, 1956.

## VITAL STATISTICS

Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates :—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Suptt., S. S. Hogg Market.

## VIEWS AND REVIEWS

### WATER SCARCITY

Scarcity of drinking water has assumed a serious nature recently in certain parts of Calcutta with the rise in temperature. While the epidemic diseases are knocking at the doors the scarcity of filtered water will no doubt worsen the situation.

This was realised earlier. The problem was discussed at a Conference of Corporation Officials and some Councillors convened by the Commissioner, Shri B. K. Sen. It was decided that the Corporation would employ eight lorries to supply drinking water in the worst affected localities. The Conference felt that the increase in intake of water for rising temperature has resulted in scarcity of drinking water. It was apprehended by some of the Councillors that unless proper steps were taken to augment the supply, the condition might end in some unhappy situation.

The Conference, however, assured that steps would be taken to sink larger number of big tube-wells by the Corporation. There were further proposals for sinking larger number of small-sized tube-wells spreading all over the city.

From past experiences it has been gathered that the Bustee areas are worst sufferers in this regard. Bustee-dwellers which comprise the one-fourth of the city's population suffer most. Nearly 60 per cent. of the Busteers have no provision for drinking water. Whatever is there it is limited by small tube-wells and nearby ponds or tanks. The remaining Busteers are even bereft of all necessities of life not to speak of water. Whatever amenities the Corporation could have provided to these areas water is essential and the Corporation's enterprise in this direction will never be wanting.

### CITY'S NEW EMPLOYMENT OPPORTUNITIES

A Press Note of the Government of West Bengal, issued recently, states that 42,000 young men would be provided with new jobs under the development and expansion programme of the industrial concerns in the State. It has further stated that varied and different undertakings would be able to absorb those men within the Second Five Year Plan period. It should also be noted that most of the establishments are situated either within the bounds of the city or in its suburbs.

**LILY**  
Brand  
**BARLEY**

LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA

The announcement encourages everybody, as it assures new openings of life to the unemployed whose burden has become almost unbearable within these few years in this truncated State. And Calcutta is the worst sufferer in this respect. Its teeming millions contain a good percentage of unemployed population though not unemployable ones. According to a Survey Report describing the economic conditions of the citizens, it is no denying the fact that a sense of frustration runs high among the youngmen of this vast city. The general economic condition is gradually deteriorating among the "Bhadralog" classes. The burden has further been added with the influx of new comers from East Pakistan and other neighbouring States. The inflated number of pavement dwellers is also causing much anxiety to the sober thinkers of all political parties. This condition may even jeopardize the socio-economic structure of the city with far reaching effect on human life itself. Through this gloomy picture a ray of hope has flickered with the announcement of new jobs to the jobless or the small traders in the market. The job hunters and the unemployed are to be rehabilitated first psychologically and physically to make them fit for the work. The so-called "Bhadralog" still clings in their core of hearts to the old traditions and occupations of bye-gone days which make their living cost comparatively high and minds unhappy. Many youngmen yet do not like to work in a factory as semi-skilled or unskilled labour even if the earning are more than any post at desk. As regards pavement dwellers some prefer the thrill of nomadic life than a factory life with disciplined habits and congenial atmosphere.

So with the gradual opening of the new avenues of earning new entrants should be given a training for the purpose. They may be recruited by batches according to requirements in private as well as public sectors of the industry and be given a short course of training for factory life. Not only of its technical aspects but also the mind of the trainees are to be taken into consideration with a special emphasis on the standard of living.

For opening such an institution the State Government may seek the help and co-operation of the City Corporation which will no doubt benefit all. The new Corporation has just started functioning and there are members who would get relief in finding the citizens better off.

#### WHITHER NAYE PAISE

Confusion and perplexity continue in the city with the introduction of *Naye Paise* or decimal coinage in the country. Whatever the theoretical advantages from decimal coinage the country's economy derives, the common man has been much harassed and been disgusted with the system. He has often been asked to pay more for some of the essential and important services.

In spite of the fact that both old and new coins are to be considered as current tenders side by side for three years, many of the Government Departments have refused to accept payment in terms of old coinage. Till recently in

buying postages one had to stand in a queue to get old coins exchanged for *Naye Paise* and then to stand in another queue to buy postal stationery.

It seems strange that though the value of new coins in terms of old system has been fixed by Parliament several important organizations took independent decisions in regard to it. The ordinary citizen was at his wit's end when he had to pay bus fares on new coinage according to a conversion table not identical with the official chart. And in all these cases the common citizen was robbed of his pocket. Thus the trouble and difficulty of the citizens led their leaders and representatives to arouse public consciousness through peaceful methods in order to stand in their own way. Protests were voiced through meetings and demonstrations.

Calcutta's misery was full to the cup because the city's bus services both State and private, as well as the Tramways authorities had virtually raised their fares with or without the help of conversion tables. Somebody attributed it to be a signal for raising prices in other things, however, infinitesimal the additional might be. An apprehension has already been expressed that there is about 6 per cent rise in prices of essential commodities.

Already a resentment has been current in the country as to the inflationary tendency of the national currency along with intrinsic undervaluation of coinage and on this occasion it has added another feather. With steady degradation solid silver coined rupee of Victorian and Edwardian times has reduced to its present size. The silver contents have also been partially eliminated in course of a few years. The size of a pice has also been dwindled and we now have a *Naye Paise*—smaller than a pice used earlier in size and metal contents—still its official value is about two pies. Views have been expressed that the present confusion might have been avoided if the authorities had introduced the long abandoned pie system in the shape of a half *Naye Paise*.

Leaving aside those, we are also to see how far alteration of the rates by the postal authorities or the transport authorities is justifiable or whether this changed rates have received the approval of the common people.

Otherwise, the persons, who are responsible for introducing the system, have been guided by considerations which are entirely of an abstract and intellectual nature and have no concern with the practical difficulties that people will have to face in using this novel system.

Happily, a good sense has prevailed upon our State authorities and the State Chief Minister has assured a deputation consisting mainly of legislators that the fare structure in terms of *Naye Paise* would be examined by experts soon.

A Government Press Note later on stated: "The present fare structure in Calcutta in the public transport services were devised under a coinage system based on a unit of one pice. The unit of the new coinage being much smaller than one pice has seriously upset the impact of the present fare structure. Converting the 17 denominations of bus fares in the city ranging from 1 anna to 8 annas under conversion table

new fares have been reduced in 10 cases forming about 70 per cent of the daily sale. In other six cases fares have been increased.

Thus it is essential to have an investigation made into the effect of the new coinage on the pre-existing fares and stages and devise an integrated fare structure which will enable both tramways and buses to function efficiently.

In the U. K. and other countries when there is any dispute over fares the question is considered by a Rates Tribunal consisting of economic experts. The issues involved in the present case are intricate and of much importance to the economic life of the city. The Government's efforts

#### DEATHS AND DISEASES IN THE CITY

Attacks and deaths from small-pox in the city during the week ending the 20th April were 189 and 141 against 180 and 186 respectively in the previous week. There were 40 imported cases in the city. 18 persons died of the disease during corresponding fortnight last year.

Cholera cases are also on the increase. Attacks and deaths from cholera during the week were 48 and 19 against 84 and 18 respectively. During the corresponding fortnight last year there were 160 attacks and 61 deaths.

There was a single death case from Malaria against five during the week previous. Typhoid tolled 18 lives while 6 persons lost lives from the same during last week.

Tuberculosis caused 34 lives against 89 in the week previous. There were 83 deaths during the corresponding fortnight last year.

Deaths from all causes totalled 984 against 1054 in the previous week. 1450 persons died during the corresponding fortnight last year.

to appoint a Tribunal consisting of one or more economic experts of All-India fame to go into the whole matter and make recommendations to the Government will no doubt satisfy the public.

In the meantime the Government and public offices including the offices of the Local Bodies have decided to follow the conversion table strictly as passed by the Parliament. They have allowed commissions or omissions arising in course of conversion from old to new.

#### HINDU SCHOOL'S NEW ANNEXE

In order to accommodate the multi-purpose section of the Hindu School, a four-storeyed annexe is under construction to the south of the school premises in College Street. The school will be run under the 11-year secondary education scheme.

The annexe is expected to be completed by the end of this year. It has been erected after demolition of an old structure. On its eastern side still stands the one-storeyed hall where Michael Madhusudan Dutt, Rajnarayan Bose, Bhudeb Mukhopadhyaya and many other eminent writers and citizens sat for their classes. It was in this hall that pupils of the institution listened, among other teachers, to Henry Derozio, the Anglo-Indian teacher, poet and patriot, and Captain D. L. Richardson, twice principal.

## Calcutta Looks Ahead

### MADAN CHATTERJEE LANE TO BE WIDENED

According to a sanction, under Section 48 of the C. I. T. Act the Street Scheme No. LXIX—Madan Chatterjee Lane is to be widened. This has received the sanction of the State Government. This will involve an estimated expenditure amounting to Rs. 6.92 lakhs for the execution of the scheme by the Trust.

### DEVELOPMENT OF RAMKRISHNA HOSPITAL

The Trustees of the Kumar Pramathanath Roy Public Charitable Trust have made a gift of some of the Trust properties valued at nearly Rs. 10 lakhs. A general hospital of about 100 beds for both men and women at the Mission's Sisumangal Pratisthan, 99, Lansdowne Road, will be installed soon. This new unit, when built, will be called "Kumar P. N. Roy Hospital".

The Pratisthan has already opened general medical and surgical wards with beds for both men and women. The development scheme of the Pratisthan, includes the School of Nursing. The total cost will be Rs. 25 lakhs.

The Governing Body of the Ramkrishna Mission has decided to rename the Sisumangal Pratisthan as "the Ramkrishna Mission Seva Pratisthan."

### NEW UNIVERSITY BUILDINGS

Two multi-storeyed buildings will be built up soon by Calcutta University—one at the present site of the Senate House and the other in the Science College compound at Ballygunge Circular Road at an estimated cost of over Rs. 60 lakhs.

Construction of a new three-storeyed building to house the Calcutta University's Institute of Economics has been started within the compound of Emerald Bower at Barnagore. The entire cost of the building (about Rs. 9 lakhs) is being jointly shared by the Government of India and the State Government.

### 2ND ANNIVERSARY OF BANDUNG CONFERENCE

Calcutta celebrated the occasion in a three-day festival at the University Institute Hall starting from Wednesday, the 24th April. The function, organized by the Institute of Asian and African Relations, Calcutta, was presided over by Dr. Kalidas Nag.

The significance of the Bandung Conference was discussed by Prof. N. K. Sidhanta, the Vice-Chancellor of Calcutta University, who inaugurated the function, and other speakers including Copular representatives from Burma, China, Indonesia, Iran, Japan and Liberia.

The Indian Prime Minister, Shri Jawaharlal Nehru said in a message that the Conference had laid down certain principles for international relations which held as good today as they did two years ago. He hoped that the conference's declaration would be kept fresh in people's minds so that the spirit of peaceful co-existence and co-operation among all nations might flourish.

The festival's programme included dance, songs and variety entertainment on the following days.

## Fifty Years Of Montessori Education

[By A. M. JOOSTEN, DIRECTOR, MONTESSORI TRAINING COURSES]

It was on the 6th January, 1907 that Dr. Maria Montessori started her work with normal children and this date will be commemorated all over the world as the birthday of a new era in education. In these fifty years the Montessori Method has spread to all continents blazing a new trail, erecting a new sign-post. On this date there presented itself a new ally in the battle for a reconstruction of human society. New resources were placed at its disposal. With the help of the child there were released new treasures and values enclosed within man's personality which alone can help us restore the balance between the tremendous material powers in man's possession and these spiritual powers on which he depends for their beneficial and constructive use.

Dr. Montessori's books expound in impressive manner the principles on which her work is based and the centre around which it revolves. Much more than a method of education, it inaugurates a revolution and renewal of the relations between the adult and the child, a recognition of the child's personality and its own great values. It is an appeal to adult humanity to revise its attitude towards childhood, to step down from the unnatural and sterile dictatorial position occupied hitherto and to occupy the much more sublime and true position of a "helper" of vital energies embodied in the human being in course of development. This is why Dr. Montessori warns the educator that "he should not imagine that he can prepare himself for his office merely by study, by becoming a man of culture. He must before all else cultivate in himself certain aptitudes of a moral order. The educator must prepare himself inwardly".

She calls for an "act of justice and humility" too long delayed. The benefits it bestows are so abundant, that they flow far beyond the limited field of child education and reverse themselves as a power of regeneration over the whole of human life, individual as well as social. They lead not so much to a solution of problems as to prevention of their occurring.

The following few practical points may serve to demonstrate at least some of the new perspectives which have been opened by this socio-pedagogical movement and encourage an even more consistent and conscientious effort along these lines during the second fifty years which lie ahead.

### EDUCATION AS A HELP TO LIFE

The importance of education has never been so widely recognized as in our times. There is, in fact, not the slightest doubt that real democratic government can only be carried out and supported by an educated society. By this we do not mean, of course, a society of people in possession of formal knowledge only, we mean a society of fully and harmoniously developed men, endowed with a strong sense of responsibility and

service, equipped with a sufficiently large culture of both body and mind, skill and sympathy to enable them to act upon their sense of responsibility. These qualities cannot be "given nor taught" to any one. They can only be acquired as the result of normal development. They can be preached and advocated, but this furnishes at best a stimulus to those who, grown up without having acquired them, now strive to make up for their lost chances. There is, as mentioned elsewhere, only one period when qualities of mind, character and body can be constructed so as to form an inherent part of the individual personality: this is the period of growth, childhood. It is only during childhood that the personality which is the basis of adult life and activity can be built up. It is during this period that all necessary provisions have been taken and all indispensable guarantees given by nature itself, so that this formation of the personality may take place as perfectly as possible in a natural, harmonious way. This development is ruled by its own laws, quite independently of human ideas and ideals. Only the most complete and total adherence to these laws can lead to the final achievement of a fully grown and normally developed personality. Education has its greatest mission in scientifically and responsibly assisting the child to live his life of self-construction in obedience to these laws. They should determine its course and practice, human genius should be used not to dictate laws of its own (which are helpless in a struggle against the laws of life and can only lead to abnormal development), but to offer the environment and means by which the child can realize his potentialities in the manner prescribed and rendered possible by the inner directives of growth which are universal and apply to all human beings. Their observance alone can lay a solid foundation for that unity of mankind on which our survival depends. The educationist should be aware of the child's utter independence as far as the natural course of growth is concerned, but at the same time of the child's equally utter dependence upon the adult as far as the means of realization of this natural development are concerned. Therefore, the adult and the child both owe equal allegiance to these laws of life, but the adult, whether a professional, a natural or a casual educator (and this last function is shared by all adults as a logical consequence of their maturity) has the added responsibility of helping and guiding the child to act according to the dictates of these inner laws.

All the values of our physical, intellectual, social, moral and spiritual life should, in the course of education, be placed at the child's disposal, embodied in a form accessible to his successive capacities of active assimilation in the different phases of growth. They should be offered primarily as a means by which he can reach the ultimate end of this period of life: the fully developed adult personality. This should be

the true and foremost function of "teaching" as part of education. Keeping this aim in view it will—as largely proved by experience—ensure most efficiently the secondary, although generally sole aim of teaching: the acquisition of a certain amount of knowledge agreed upon as the minimum required by society in different walks of life.

This viewpoint and conception of education also guarantees the indispensable elasticity of the formal contents of education in a rapidly changing and evolving world. It, furthermore, gives to education, to its principles and practice, a truly universal value and makes it a powerful instrument towards the achievement of our most urgent need; true peace founded within man himself as an individual and as member of a society which knows no other limits than those of humanity as a whole.

#### THE MONTESSORI METHOD

The world-movement in favour of the child as an individual who has a real and ever renewing contribution to offer to adult life bases its educational practice on the above-mentioned principles. It was, in fact, Dr. Montessori's lifelong work in education that led to their discovery. The scientific, experimental method followed by her in her investigations on a scale socially and geographically larger than that of any other modern educationist, enabled her to assert them with great authority. If a State were to put them first while drafting its educational system and would be led by prevailing social conceptions and traditions only in as much as they agree with the super-national and truly universal frame of child-life, it would take first step towards the solution of many of its apparently, and often really, pressing problems. In doing so it would not embark on an experiment of doubtful outcome, but it would merely avail itself of the results of a scientific work that has long ago proved its potentialities and reliability.

There can be little doubt that children who are helped in their development and who are given an opportunity to develop according to the laws and needs of their nature are happier and respond better to the adult's educational efforts. This is reflected very clearly in their general character. They are stronger, more healthy—both physically and psychically. The training in choosing and deciding their own work, in setting their own tasks (but in a prepared environment with an adult ever ready to give guidance where needed) coupled to the consciousness that once chosen they must finish their particular work, develop them into self-reliant, conscious and responsible individuals. The encouragement and training in individual activity, personal thinking and self-sufficiency leads to real independence of mind and action. The social environment requiring co-operation, active regard for one another, help spontaneously given to younger companions and asked for and received from older ones deepens and develops the social sense. Discipline being a necessary and objective condition in a community of workers, individually busy at their own task or spontaneously pooling their resources when a task

chosen surpasses the possibilities of a single individual, becomes a remarkable phenomenon in this active society of children. It is no longer the enforced repression of energy by a self-styled authoritative dictator outside the real community, but the spontaneous expression of inner order and self-control of a team of workers in the interest of all, the adult included, who finds them ever ready to listen to his requests and to obey his admonitions serving the same common aim. Inferiority-feeling, whether based on results in class-work or on social differences, has no place, because in this environment it is the work more than the results of the work that count and give satisfaction.

The progress of these children in ordinary school-subjects is astonishing to whoever is unaware of the child's possibilities and of the opportunities offered by nature itself in the successive phases of growth. It should appear normal to anybody who realizes that instead of being collectively tied to a single person, each individual works to the maximum of his capacities, utilizing the unique urge of personal and immediate interest, and ever finding at his service either the adult, who has become a helper, or the apparatus more patient in giving and in stimulating than any adult could ever be. In ordinary teaching it is the adult who has to provide the driving force and the nourishment for thirty or forty often distracted minds, here there are thirty to forty active, enthusiastic and interested individuals pushing forward on their own strength and backed by the energy of developing life itself. Now and then they may halt to take in new energy and impetus not only from the help given by the adult, but more than often from the example of the other members of the community. They are not pupils learning in a school, but young, healthy human beings living their own life in an environment specially and scientifically prepared to give them the best chances for all-round development. Lastly we must not omit to mention that the culture they absorb is closely co-ordinated around a universal leading conception of the world and man's achievements and mission in it, so that all branches of knowledge receive light from a luminous and inspiring centre and fertilize and strengthen each other. More important still, culture acquires a unique value for the child being a means of self-realization and development. It enjoys the lustre of anything that is found to help us to satisfy our most vital needs.

Certain very practical advantages should receive special stress where there is still a great difference in the conditions of urban and rural areas and where the latter prevail. In villages the number of school-going children is logically much less than in towns. Consequently ordinary schools find it difficult to maintain the same horizontal grouping of pupils as in urban schools. They are compelled to combine two or more age-groups in one class. Collective class-teaching, however, addressing all children directly in the same subject for a certain time, become well nigh impossible where the children are of different

(Continued on next page bottom)

## CORPORATION PRIMARY SCHOOLS

### Annual Prize Distribution Held Jointly

The Third Annual Prize Distribution Ceremony of all the Primary Schools situated under Ward No. 72 was held at a joint function on the 31st March last in the Rakhi-Sangha Club grounds. Councillor Mani Sanyal representing that Ward took a keen interest in it. The function was presided over by Dr. Bhagawati Charan Guha. Dr. Guha also distributed prizes. Shri Shomenath Lahiri, the newly elected M.L.A., from that area and a litterateur, was the Chief Guest. A large number of citizens watched the function. Councillor Dr. Kanallal Sarkar, Shri Sailendra Nath Banerjee, Headmaster, Chetla Boys' School, Prof.

Jagathari Mitra and many others also graced the function.

Being participated in by pupils recruited from seven schools the programme included music, kathi-dance, dance recitals and recitations. Nearly 2000 students of the schools were present.

It may be recalled here that the Annual Sports of these schools were held a week ago, in the Chetla Park with Dr. Arabinda Barua, Education Officer, presiding. Shri Braja Ranjan Roy, Sports' Editor, Ananda Basar Patrika, who acted as Chief Guest gave away the prizes.

(Continued from previous page)

ages and degrees of knowledge. Teaching suffers and village-children, who undoubtedly in greater need of formal education than town children with their greater facilities to pick up culture also outside the school, are actually given less opportunity to develop. In Montessori schools, as a matter of principle, in view of both social and cultural development, children of three successive ages are grouped together and these difficulties do not arise. As the children work on their own and only need the adult's individual assistance now and then, it is even possible, without either difficulty to the adult or disadvantage to the children, to group them in units of even more than three different ages. Another point is far more important in the country than in the towns: the question of literacy, is seen in a new light by our experience. We do not discuss the necessity of striving to bring literacy to everybody in our present world. The difficulty lies in the fact that villagers living by agriculture generally find it very hard to spare the help of their elder children specially during certain seasons of the year. One of the great discoveries of Dr. Montessori was that between the age of 4 and 6 the child has a natural interest and capacity to master writing and reading, provided he is given the help corresponding to his needs at this age and

preparatory activities even earlier. By the time pupils of ordinary schools have to start learning to write and read, these children already master both and eagerly use them in the service of further development. Furthermore, this acquisition, made at a time when the nature of the child makes him ready and interested in acquiring them, proves much more stable than when learned merely because urged to do so by a teacher. In conclusion, we should stress once again that it is, however, not these practical advantages which give its real value to the Montessori Method. It is not how we adults can profit by it, but the justice it does to the child, man in the becoming, that urges us to give it our most serious consideration and support.

It stands at a turning point of history by providing the means to forge into real unity two parts of humanity that have too long remained apart and even in opposition: adulthood and childhood. When these two are reconciled and have become genuine partners in the sublime task of fulfilling the responsibilities of our human destiny, we may look forward, even while standing at the edge of an abyss of darkness, to a new dawn of noble promises announced by this "Century of the Child".

The Editor is grateful to Sm. Shanta Guha, Chairman, Calcutta Montessori Association for publication of this article.

# CITY NEWS PARADE

**OBITUARY:** Shrimati Jarat Kumari Dutta widow of the late Gopeswar Dutta died on April 12 last at her residence at B. T. Road, Calcutta. She was 76.

The late Shrimati Dutta was the founderess of Gopeswar Dutta Free Secondary School, Gopeswar Dutta Charitable Dispensary and Gopeswar Dutta Athithisala. She was well-known in the locality for her benevolence and charity. She rendered valuable services to the cause of the poor and the distressed.

**BENGAL THEOSOPHICAL FEDERATION'S** three-day conference was held at Hirendra Memorial Hall starting from Friday, the 19th April last.

Prof. Ramachandra Sukla of Benares, who presided, said that the chief object of the Federation was to build universal brotherhood where there would be no barriers of caste, creed, race, colour or sex. What was required was the emergence of the right type of citizens without whom all planning and structural changes would prove fruitless.

A feature of the opening day was a Ritual of the Mystic Star, a congregational worship for service and consecration. The five points of the Mystic Star, another name for the Divine, represented Power, Wisdom, Joy, Beauty and Love.

**A NEW JUDGE OF THE HIGH COURT:** Sri S. K. Dutta the newly appointed Judge, comes of a very respectable Kayastha family of Dacca. In 1921, during the historic Non-co-operation movement, Shri Dutta threw himself wholeheartedly into the struggle for the freedom of India as a young volunteer.

Shri Dutta resumed his interrupted studies later on and after passing the I. Sc. examination from Jagannath College, Dacca, left for England in 1928 and took his B. Sc. degree in Commerce from the Victoria University at Manchester. He was called to the Bar in 1932 by the Middle Temple, in London. Shri Dutta joined the Rangoon Bar first. In 1937 he joined the Calcutta High Court and in course of a few years he built up a fair practice.

**A FIRE** caused havoc to more than a dozen shops and warehouses at 18, Ripon Street, Calcutta, on Thursday, the 18th April last. During fire the flames leaped 30 feet high. Ten engines of the West Bengal Fire Services fought the blaze for two hours before it was put out. The Deputy Director of West Bengal Fire Services, conducted the operation. According to him for half an hour the fire could not be controlled because of inadequate pressure in the public hydrant.

Shops and warehouses stored highly inflammable materials—timber, hay, cotton, packing boxes, wooden furniture and waste paper—which fed the flames.

**DEMONSTRATION:** The annual conference of Paschim Banga Nimnatama Sarkari Karmachari Samiti (Association of Class IV employees) held in the Indian Association Hall on the 20th April last demanded that the words "inferior service" and "menials" be removed from the Service Rules. A resolution was passed to that effect.

The conference also adopted a charter of demands including increase in the minimum basic salary, earned leave, contributory provident fund scheme, adequate dearness and

house allowances and declaration of those with three years consecutive services as permanent hands.

**CALCUTTA WAS EXPERIENCING OPPRESSIVE HEAT** due to a hot spell all over the city throughout last week. It was due to a rise in temperature and existence of enough moisture in the air made it much more so. The temperature continued to reach the 40 deg. C mark till a nor-wester swept over the city on Sunday, the 21st April. So far this year April was quite warm. Temperatures generally varied from 36 deg. C to 39 deg. C except two nor-westers in the early part.

The norwester gave relief on Sunday afternoon to the citizens after continuous warm spell. Those who were in streets were inconvenienced by the dust it raised. The temperature fell from 32 deg. C (90F) immediately before the squall to 28 deg. C (83F).

The storm blew away the banner of "The Family of Man" hung at the crossing of Surendra Nath Banerjee Road and Chowringhee Road. The iron beam on which one end of the banner was tied fell causing injury to two persons.

A thunder squall with the maximum wind-spread of 95 kilometers (59 miles) per hour swept over the city and its neighbouring areas on the next evening as a result of which temperature dropped by seven degrees. Rainfall recorded was 11.7 m.m. (0.46 inch).

A hut in a bustee in Kulia Tangra 4th Lane, Calcutta, collapsed during the storm causing slight injuries to two inmates.

Since then normal warm spell continued in the city.

**D. V. C. ELECTRICITY FOR CALCUTTA:** The Damodar Valley Corporation has started transmitting its power to the Calcutta Electric Supply Corporation from Monday, the 22nd April for distribution in the city. The power from Bokaro was switched on to the C.E.S.C.'s system through the D. V. C. sub-station in Howrah. The present output will be 20,000 k.w.

The C.E.S.C. will receive this supply in addition to the electricity it is already getting from its generating stations. This additional supply will remove the shortage of power which the Corporation had been facing for a long time.

The power supply has been maintained at 33,000 volts. The D. V. C. power is meant for A. C. areas although with the help of the converters, the current may be transformed into D.C. by C.E.S.C.

The D.V.C. has already been supplying power to many other establishments both private and Government.

## CALCUTTA ASSOCIATION FOR UNITED NATIONS

At the Tenth Annual General Meeting of the Calcutta Association for United Nations, held sometime ago, the new Council for the year 1967 was elected with the following office bearers:—President—Shri P. C. Sen, Minister, Vice-Presidents—Shri Satinath Roy, Shri B. K. Chaudhuri, Shri S. N. Modak, Shri Debab C. Ghosh and Shrimati Ha Palchoudhury, M.P., Secretaries—Prof. A. B. Dutta and Shri H. N. Masumdar, Deputy Secretaries—Shri H. R. Bose and Shri N. N. Harallicka, Treasurer—Shri K. K. Palit.

## Notice To Public

Notice is hereby given for information of the public that all sorts of complaints regarding supply of filtered and unfiltered water are to be lodged to the respective section offices during the hours from 7 A.M. to 8 A.M. and from 10 A.M. to 11 A.M. in the morning and again from 2 P.M. to 5 P.M. in the afternoon, when the Inspectors attending section offices will receive the complaints and take immediate action to redress the grievances.

The location of different section offices with their representative jurisdictions are noted below :—

### DISTRICT I

SECTION A—LOCATION 79, CORNWALLIS STREET (DISTRICT I OFFICE).

PHONE 55-1776.

North—Circular Canal.

East—Circular Canal.

South—Ashitola Street, Sonargouranga Temple, Sankar Halder Lane, Grey Street, Dalmitola Lane (up to junction Raja Rajkissen Street), Grey Street Extension, Ratan Neogi Lane, Badridas Temple Street.

West—River Hooghly.

SECTION B—LOCATION 39, NIMTOLAGHAT STREET.

NO PHONE.

North—Ashitola Street, Sitalatola Lane, Sen Lane, Sankar Halder Lane, Beniatola Street, Sovabazar Street, Grey Street.

East—Gopi Sen Lane, Joy Mitter Street, Masjidbari Street, Durgacharan Mitra Street, Beadon Street, Ramesh Dutt Street, Nandalal Mullick Street, Baranasi Ghose Street, Dwarkanath Tagore Lane, Madan Mohon Chatterjee Lane, Muktaran Babu Street.

South—Jagannath Ghat Road, Nawab Lane, Banstola Street.

West—River Hooghly.

SECTION C—LOCATION 28, BRINDABAN BOSE LANE.

North—Bholanath Kundu Lane, Grey Street.

East—Brindaban Bose Lane, Roybagan Lane, Cornwallis Street.

South—Muktaran Babu Street, Marcus Lane.

West—Joy Mitra Street, Durgacharan Mitra Street, Garanhatta Street, Ramesh Dutt Street, Nandalal Mullick Lane, Baranashi Ghose Lane, Upper Chitpore Road.

SECTION D—LOCATION 22, SIBNARAYAN DAS LANE.

NO PHONE.

North—Grey Street, Grey Street Extension, Gouribari Lane, Roy Street.

East—Canal Circular.

South—Mechuabazar Street, Bechu Chatterjee Street, Panchanan Ghose Lane, Gas Street.

West—Mechubazar Lane, Cornwallis Street.

COSEMPORE—LOCATION 10 B. T. ROAD.

PHONE 55-2127.

North—Pramanick Ghat Road, Kashinath Dutt Road, Kalicharan Ghose Road, Ramkrishna Ghose Road.

East—Eastern Railway.

South—New Canal, Circular Canal.

West—River Hooghly.

### DISTRICT II

SECTION E—LOCATION 12, NILMADHAB SEN LANE.

NO PHONE.

North—Jagannath Ghat Street, Banstola Street, Muktaran Babu's Lane.

East—Marcus Lane, Beniatola Lane, College Street, College Square, Pratap Chatterjee Lane, Junction College Row and Nabin Kundu Lane, (College Street up to junction Bowbazar Street).

### DISTRICT II—(CONTD.)

South—Fairlie Place, junction Old Chinabazar Street and Radhabazar Street, Radhabazar Lane, Chatawalla Gully, junction Lalbazar Street and Bowbazar Street.

West—River Hooghly.

SECTION F—LOCATION 22, MIRZAPORE STREET

(DISTRICT II OFFICE)—PHONE 34-1667

North—Bechu Chatterjee Street, Amherst Street, Panchanan Ghosh Lane, Girish Vidyaratna Lane, Gas Street, Keshab Sen Street.

East—Circular Canal, Sealdah Bly Stn., Circular Road, Lower Diversion of Beliaghata Road, N. R. Sarkar Hospital, Lower Circular Road (up to Junction Dharmatola Street).

South—Surendra Nath Banerjee Road, Indian Mirror Street, Dharmatola Street.

West—College Street, Wellington Street (up to Junction Wellington Square).

SECTION G—LOCATION : 123, PRINCEP STREET.

NO PHONE.

North—Fairlie Place, Royal Exchange Place, Old Chinabazar Street, Pollock Street, Ezra Street, Chitpore Road, Chatawalla Gully, Eden Hospital Road.

East—Wellington Street, Ramanath Kaviraj Lane, Akkur Dutt Lane, Wellington Square.

South—Surendranath Banerjee Road, Maidan, Fort Williams, Edengarden.

West—River Hooghly.

MANICKTALA—LOCATION : 109, NARKELDANGA MAIN ROAD.

PHONE BB 2191.

North—New Canal (Circular Canal Road).

East—New Canal (Canal Circular Road).

South—Beliaghata Canal (Chaulputty Road).

West—Circular Canal (Canal East Road).

### DISTRICT III

SECTION H—LOCATION : 1/A, Sandle Street.

NO PHONE.

North—S. N. Banerjee Road (From Lower Circular Road to Chowringhee Road, with extension to the North of Mutiell Street, Wellesley Street, Purna Chandra Nahar Avenue, Ramchandra Row, Bhattacharjee Lane, Waverly Lane up to Dharmatola Street).

North—Eastern Railway (Budge Budge branch) Tiljala Road, Topsia Road South, Hughes Road, Tangra Road South.

East—Dhappa, Rajdanga Road, Sarat Ghose Garden Road, K. P. Roy Road, Garfa Road, Jadavpore Station Road, Raja Subodh Mullick Road (Lady Wellington Road).

South—Tolly's Nullah.

West—Tolly's Nullah, Tollygunge Circular Road, Russa Road (South), Russa Road.

S. C. MUKERJI,

Central Municipal Office:  
The 22nd March, 1957.

Executive Engineer,  
Water Works.

## VITAL STATISTICS

For the City of Calcutta for the week ending  
13th April, 1957.

### CITY OF CALCUTTA (TOWN AND ADDED AREAS.)

The total number of deaths registered during the week was 1054 against 919 and 903 in the two preceding weeks and higher than the corresponding week of the last year by 417. The general death-rate of the week was 18.71 per mille.

### TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 13th April, 1957, was 856 against 732 and 726 in the two

preceding weeks. There were 17 deaths from cholera against 12 and 8 in the two preceding weeks. There were 119 deaths from small-pox during the week against 119 in the previous week. There was nil death from influenza against nil in the previous week. The mortality from fevers and bowel-complaints amounted to 26 and 69 respectively against 26 and 52 in the preceding week. The general death-rate of the week was 19.67 per mille per annum.

There were 112 imported deaths. Excluding these, the death-rate of the Town was 17.12.

There were 129 deaths from respiratory diseases against 116 in the previous week.

(Continued on page 10)

# CORPORATION NOTICES

## Situation Vacant

Applications are invited for the posts of Music Teachers in the Education Department, Corporation of Calcutta, in the scale of pay Rs. 60-4-80-5-120 plus T. A. of Rs. 15/- per month and other usual allowances.

- Qualifications—(i) A diploma in Music from a recognised University of School, College or Institution of Music.  
(ii) Age ordinarily not more than 25 years relaxable for a person having experience of teaching music.

Appointments shall be made on the result of a test in music.

Applications stating name, father's name, age, present and permanent address, qualifications, experience, etc., should be submitted so as to reach the undersigned not later than 7th May, 1957.

A. BARUA,  
Education Officer.

EDUCATION DEPARTMENT:  
The 22nd April, 1957.

## Auction Sale

### NOTICE

The following goods will be put up for sale in Public Auction on 11th May, 1957 at 2-30 P.M. at Sir Stuart Hogg Market, New Building (Collection Department Godown).

- (1) One wooden Khat.
- (2) One Admirah without glass.
- (3) Two Shelves.
- (4) One Admirah with one side glass fitting.
- (5) Five empty Trunks.

S. C. SEN,  
Offg. Asstt. Collector.

CENTRAL MUNICIPAL OFFICE:  
The 26th April, 1957.

All seized carts will be sold by public auction, if not claimed within 10 days of seizure at the Cart Registration Office at 185/1, Lower Circular Road, by the Cart Registration Officer everyday from 3 p.m., excepting holidays from 1st October, 1955, until further orders.

A. K. DUTT,  
License Officer.

CENTRAL MUNICIPAL OFFICE:  
The 1st October, 1956.

## Renaming of Road

### NOTICE

It is proposed that Doyebatta Street in Ward No. 24 extending from Sir Hariram Goenka Street opposite Sree Sree Paramnath Digambar Jain Temple up to Burtolla Street be renamed as Digambar Jain Temple Road.

Any person having any objection to the proposed renaming should state the same in writing to the undersigned on or before Tuesday, the 14th May, 1957.

A. BHATTACHARJEE,  
Assessor.

CENTRAL MUNICIPAL OFFICE:  
The 22nd April, 1957.

### Notice

It is hereby notified for the information of those concerned that the date of submission of quotation for Steam Driven boiler feed pump for Tallah Pumping Station due to be opened on 27th April, 1957, has been extended and will be opened by the 2nd Deputy Commissioner up to 12 Noon on 27th May, 1957.

B. GHOSH,  
Secretary.

CENTRAL MUNICIPAL OFFICE:  
The 22nd April, 1957.

## Food Supply Department

### NOTICE.

Sealed quotations superscribed "Quotation for Common Rice" with samples in sealed covers are invited by the undersigned for the supply of 3,000 (Three thousand) maunds (nett) only of Common Rice to the Food Supply Department and will be received by him up to 12 A.M., Wednesday, the 1st May, 1957. Rice must be dry, free from weevils, foreign grains, stones, dust and foul smell. Rates should be quoted for nett weight and should include the cost of gunny bags and all other charges with free delivery at the Central Stores, 1, Hogg Street, Calcutta-13, where cent per cent. weightment will be effected. Samples in sealed covers must be submitted along with the quotations. Payment will be made within a fortnight from the date of submission of the Bill. The number and date of current year's Corporation Trade License should be stated on the quotation. Delivery is to be completed within a week from the date of receipt of the order. Bill for partial supply will not be accepted.

L. BAL,  
Deputy Commissioner II.

CENTRAL MUNICIPAL OFFICE:  
The 22nd April, 1957.

## Sir Stuart Hogg Market

To all whom it may concern, that an application has been received for the registration of the names of Messrs. Prafulla Kumar Saha and Hari Gopal Saha as occupiers of Stall No. 37/2 in Block "R" in the S. S. Hogg Market in place of the recorded occupiers of the stall.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,  
Asstt. Superintendent.

S. S. HOGG MARKET:  
The 26th April, 1957.

To all whom it may concern, that an application has been received for the registration of the names of Sm. Kisheni Bai and Radhi Bai represented by Tolaram as occupiers of stall Nos. 1-5 in Block "G" in the S. S. Hogg Market in place of Doyaram the deceased recorded occupier of the stalls.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,  
Asstt. Superintendent.

S. S. HOGG MARKET:  
The 26th April, 1957.

## Road Declaration

### NOTICE

To all whom it may concern, the Corporation of Calcutta, in exercise of the powers conferred on it, under Section 375 of the Calcutta Municipal Act, 1951, and having been satisfied that the conditions laid down therein have been fulfilled hereby notifies and declares that the common passage specified hereunder is a public one within the meaning of Sections 3(60) and 349 of the said Act.

### DESCRIPTION:

"That portion marked A. B. on the plan of the common passage to the east of 57, Shambhu Babu Lane in Ward No. 47."

B. K. SEN,  
Commissioner.

CENTRAL MUNICIPAL OFFICE:  
The 10th April, 1957.

## —VITAL STATISTICS

(Continued from page 9)

There were 32 deaths from tuberculosis, against 24 in the previous week.

### ADDED AREAS (WARDS 25-32.)

The number of deaths registered was 186 against 167 and 177 in the two preceding weeks. Of these, 1 was from cholera, 17 from small-pox, all from influenza, 4 from

fevers, 25 from bowel-complaints and 25 from respiratory diseases. The death-rate of the added areas was 15.30 per mille.

There was no imported death. Excluding this, the death-rate was 15.30.

There were 7 deaths from tuberculosis against 3 in the previous week.

# SHOPS TO LET

## COLLEGE STREET MARKET

Applications with offers of Initial Rent for the privilege of occupying the undermentioned stalls on rent noted against each are invited and will be received in the College Street Market Office on all working days between the hours of 11 a.m. and 2-30 p.m.

Allotment of these stalls will be settled by the Appropriate Authorities and is subject to provision of the Calcutta Municipal Act, bye-laws, rules and regulations made thereunder, and to the conditions in force in respect of Municipal Markets, 25 per cent. of the Initial Rent as would be fixed and/or accepted by the Appropriate Authorities at the time of allotment, will have to be deposited immediately by the allottee and the balance within 2 or 7 days, as the case may be, from date of settlement.

**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Suptt., S. S. Hogg Market.

## THE MAYORAL ELECTION

'I should endeavour to make this city beautiful, not only in its physical and outward aspects but also in the moral sphere.' These words reveal the man who is our MAYOR to-day. They open up the wealth of the man and his spirit, the depth of his thoughts, the profundity of his character. Nationalist, patriot, scientist, educationist and organizer, DR. TRIGUNA CHARAN SEN has been in the public eye for many years, and his association with the College of Engineering and Technology, Bengal, is a marked and brilliant success.

In replying to the words of welcome from the Aldermen and Councillors, Dr. Sen said that he would derive inspiration from the great past, from his illustrious predecessors in office, Deshabandhu, Deshapriya and Netaji. Their mantle, he is conscious, has fallen upon his shoulders. We hope he will prove eminently true to this great inheritance.

The breadth of his outlook, his freedom from narrow prejudices and sectarianism, and his uncommon experiences in various fields of public service will hold him in good stead. He has no enemy. He has even no detractor. He has a sweetness of character, a suavity of manner, a strength of purpose and deep-seated convictions which all will be of service in the high office which he adorns. We offer our heartiest congratulations to him and to the Corporation which has chosen him as its First Citizen.

We also welcome our DEPUTY MAYOR, SHRI KESHAB CHANDRA BASU. He has the gift of a pleasing personality. Urbane to the core, his courtesy is unfailing. Polished, cultured, he has all the graces of a true citizen. He can give, and receive friendship. This is a rare virtue. We hope his personal popularity will be of immense service to him in his new office.

We shall be failing in our duty if we do not remember our retiring Mayor and Deputy Mayor. They made a profound mark in the services they rendered to the Corporation and to the city. It is a proud record. And all through they showed fruitfulness of purpose and courage of initiative. Their services, the innovations they introduced, the reforms they ushered in have served the city well and will guide their successors.

## Dr. Triguna Sen Elected As Mayor Shri Keshab Basu As Deputy Mayor

THE Elections of the Mayor and the Deputy Mayor of the Corporation of Calcutta for the year 1957-58, were held on April 20, in the Council Chamber, Central Municipal Office Buildings, S. N. Banerjee Road, at the first meeting of the Corporation after the Second General Election.

Alderman Dr. Triguna Charan Sen was elected as the Mayor of Calcutta. His name was proposed by Councillor Dharendra Nath Bose and seconded by Councillor Shiv Kumar Khanna.

Councillor Keshab Chandra Basu was elected as the Deputy Mayor of Calcutta. Councillor Dr. Kripabindu Chakravarty proposed his name and it was seconded by Councillor Dr. Esmail Ebrahim.

Councillor Dr. Sukhabehari Mukherjee presided over the function.

The name of Councillor Sushil Kumar Roy was also proposed in the House for the Mayoralty. The name was suggested by Councillor Barendra Krishna Daw and duly seconded by Councillor Chandra Sekhar Bhowmick. The voting was by show of hands. Dr. Sen defeated his rival by 44 to 37 votes.

In a similar way the name of Councillor Satyananda Bhattacharyya was suggested for Deputy Mayoralty by Councillor Barendra Krishna Daw and seconded by Councillor Kesto Chandra Kundu. The result of voting was 44 to 35.

Earlier, Oath was administered to the Members by Councillor Dr. Mukherjee. Out of 86 members in the House two were absent. They were Councillors S. K. Gupta, I.C.S., Chairman of the C. I. T. and Kissan Chand Baral. A slight confusion prevailed in the House during the election of the President of the meeting. Councillor Dr. Mukherjee was elected to the chair by 44 to 37 votes. Councillor Chandra Sekhar Bhowmick was the other candidate.

The newly elected Mayor and Deputy Mayor were then conducted to the elevated dais. The Council Chamber was tastefully decorated. The life-size portraits of Mahatma Gandhi, Sir Surendra Nath, Deshabandhu Chittaranjan, Deshapriya Jatindra Mohan, Netaji Subhas Chandra and others were bedecked with flowers. Flowers were showered when they occupied the chairs of the Mayor and the Deputy Mayor which were also beautifully ornamented with flowers.

A large number of visitors watched the function. Among the personalities present was Shrimati Neli Sen Gupta widow of late Deshapriya Jatindra Mohan Sen Gupta, Five times Mayor of Calcutta.

Congratulations and felicitations continued for long being participated in by members from all sections of the House.

In their congratulatory speeches, the speakers referred to the outstanding problems of the city and hoped that the Mayor and the Deputy Mayor would keep the interest of the ratepayers over everything else.

Dr. Sen, the new Mayor, in his reply appealed to them and the youth of the city to make it clean of adulteration, dirt, filth and corruption.

Replying on the occasion the Deputy Mayor Shri Basu said that he was aware of the fact that the Corporation was suffering from inadequate finances and it was difficult to meet the citizens' manifold grievances. He also hoped that with the support of the House the Mayor would be able to assist them in solving these problems.

Those who offered their felicitations were Alderman Ajit Kumar Dutta, Councillors Sushil Kumar Roy, Dr. Sukhabehari Mukherjee, Bejoy Kumar Banerjee, Dr. Parimal Kumar Sen Gupta, Satyananda Bhattacharyya, Ushanath Sen, Dharendra Nath Bose, Subrata Kumar Sen Sarma, Nripendra Nath Banerjee, Barendra Krishna Daw, Dr. Aurabindo Prasad Das Gupta, Kesto Chandra Kundu, Deva Prasad Chatterjee, Narendra Nath Sen and others.

The Corporation offices, Primary Schools and other institutions remained closed on Tuesday, the 30th April in honour of the new Mayor and the Deputy Mayor.

## "PRIVILEGE OF OCCUPYING THE MAYORAL CHAIR IS THE PRIVILEGE OF SERVICE"

In his address, the Mayor said :—

Friends! I feel utterly overwhelmed. I have been caught up in circumstances which developed with bewildering rapidity and I find myself deposited on the crown of a hill which I have never even dreamt of climbing. I consider myself unworthy of this high office and I am overawed both by its eminence and by its responsibility. The only reassuring factor is my belief that God Who in His inscrutable design has thought it fit to put this heavy burden on my incapable shoulders, will, in His great kindness, endow me with the strength to bear it. What also gives me some courage is the kindness, trust and confidence that you have placed in me. I am deeply touched by this and I have no words that will convey to you my gratitude.

### MANTLE THAT ONCE ADORNED

The mantle that once adorned the shoulders of such illustrious incumbents of this Office as Deshabandhu Chittaranjan Das, Deshapriya Jatindra Mohan Sen Gupta and Netaji Subhas Chandra Bose, has fallen upon my feeble shoulder. It is really frightening to think how much I have to strive in order to live up to this tradition. Having dedicated my life to the service of the youth of the country, the students who in later life come to serve this institution, I have so far lived on a different plane altogether. But now, coming to think of it, I find that this institution is not only not alien to the institution that I have had the honour of serving so long, but that it is kindred to it in the service that it has rendered to the country. Like the National Council of Education, this Corporation has contributed to the freedom's struggle of this country; like the National Council of Education, this Corporation has been a national institution, controlled and managed by the people of this country. Apart from this, there has been a close link; it was this Calcutta Corporation which provided a permanent habitation to the National Council of Education, now the Jadavpur University, it was this Corporation which was the first public orga-

nization that made a grant to the National Council of Education. So, after all, it is not perhaps altogether a different kind of service that I am now called upon to render.

### CITY HAS GROWN INTO A GREAT METROPOLIS

To my mind the privilege of occupying the Mayoral Chair is not the privilege of having the honour of holding this high office, but the privilege of service. This, the largest, the greatest and the most historic city in India is replete with magnificent traditions. During the last quarter of a century it has grown from a city with an area of 29 square miles and a population of 15 lakhs, into a great metropolis with an area of 85 square miles and a population of 86 lakhs. The high density of its population has added to its problems. It is but inevitable that such a phenomenal increase in its population should have brought in its train the problems of health and sanitation, water supply and drainage, housing and communications. All these amenities of civic life have to be purveyed on such an enormous scale that it entails the utmost effort and organizational capacity on the part of all of us, Councillors and employees of the Corporation, from the Commissioner down to the lowest rung of our fellow-workers who keep the city clean. But it does not stop there. Unless the public and especially the youth of the city work together and co-operate with us, it would be impossible to solve any of the intricate problems of this problem-city of Calcutta.

### TO MAKE THE CITY CLEAN

In conclusion, I invoke blessings and inspiration from our great predecessors, Surendranath Banerjee, Deshabandhu, Deshapriya and Netaji, who stimulated our people towards the much greater achievement of national freedom—to make our city clean not only in the physical but also in the moral sense, clean from dirt and filth as well as clean from corruption. I seek the co-operation of the citizens. I am sure I shall not be denied their active co-operation, guidance, sympathy and love. Thank you!

### CITY, BEAUTIFUL AND HEALTHY

Replying to the felicitations the Deputy Mayor, Shri Keshab Chandra Basu, felt that the Corporation was passing through critical days. 'With the increasing number of population fresh difficulties are afflicting while the city looks in a helpless position. There are many things to do but we have not been able to attend to any of them,' added Shri Basu.

He also admitted: There is acute scarcity of water in every part of the city, there is unhealthy condition of slums and people are suffering from epidemic diseases. And it is true that we have not been able to give much to our ratepayers, but we are sure that during the last five years we have been able to give them something to show that we have tried our best, with our limited resources in order to improve their lot.

Earlier the Deputy Mayor drew the attention of the Mayor, Dr. Sen in facing the problems. At the same time as a Councillor he appealed to the members to extend their help in order to strengthen the hands of the Mayor in riding over the difficulties.

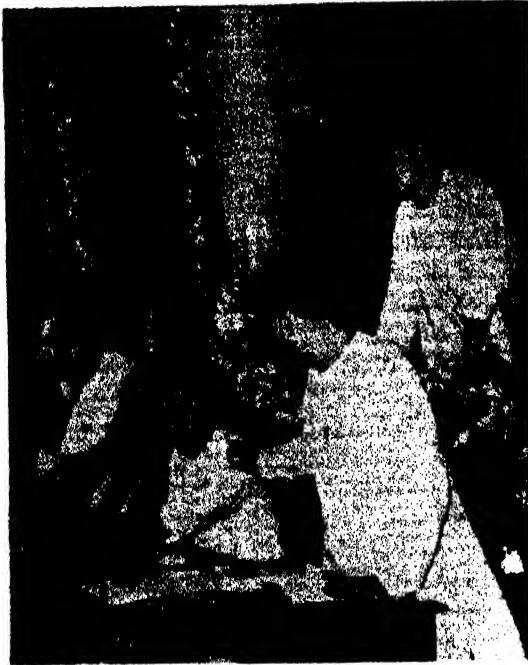

Referring to the financial handicaps of the premier civic body in the East, Shri Basu said that it was the opportune moment when the Corporation should approach the Union as well as the State Governments for necessary grants-in-aid. In order to implement all the development schemes and projects, such help was essential, according to him, as he did not favour the idea of either fresh taxation or enhanced rates of the present consolidated taxes on buildings and properties.

Conveying his gratefulness to the members of the House for his election the Deputy Mayor concluded his speech. He also assured his per-

sonal services for the betterment of civic amenities as well as to make the city healthy and beautiful among the cities of the East.

### FELICITATIONS CONTINUED.

ALDERMAN AJIT KUMAR DUTTA, in congratulating the newly elected Mayor and the Deputy Mayor, said that as one unattached to any party he desired that the Corporation should not be run on any party lines. He suggested that the Mayor and the Deputy Mayor would try to instil in this House a sense of decency, decorum and discipline in the

ONLY LADY IN THE HOUSE TAKES AN OATH

PHOTO: N.B.

conduct of the Corporation affairs. The motto of the Corporation should be 'service before self', he emphasized.

The first man to congratulate the newly elected Mayor and the Deputy Mayor was COUNCILLOR DR. SUKHADEHARI MUKHERJEE. He, in his speech, referred to the manifold problems the Corporation was facing. He hoped that the Corporation Five Year Plan, now in progress, would receive momentum with the election of Dr. Sen, as the Mayor, whose efficiency as an expert engineer has already been recognized in the country. The water supply, the drainage system, the town improvement projects everywhere the city needs the guidance and patronage of a man like Dr. Sen who could adjudge the things in his own way and could guide them in needs, added Dr. Mukherjee.

COUNCILLOR BEJOY KUMAR BANERJEE was eloquent to illustrate that the smooth running of the

civic administration depended upon co-operation and co-ordination from all quarters. In that connection he also referred to the programme undertaken by Deshabandhu Chittaranjan as the first Mayor of this city. As one of the seniormost members in the House, he regretted that the idea of 'Daridranarayan Seba' originated by Deshabandhu had yet to be fulfilled.

Before conclusion Councillor Banerjee hoped that the long standing grievances of the employees would be attended to by the Corporation under the guidance of the present Mayor.

Pleased to find another teacher being voted to the Mayoral Chair, COUNCILLOR SUSHIL KUMAR ROY said that the House had maintained its traditions and conventions of the past. A teacher has succeeded another and the House was instrumental in doing so. The rate-payers' interest should be looked into amidst the diversification and differences of opinion among the members, Shri Roy stressed with all emphasis.

Similar sentiments were expressed by him towards the newly elected Deputy Mayor Shri Basu.

Describing the newly elected Mayor as the symbolic combination of two great virtues,—an able administrator as well as expert Engineer, COUNCILLOR DR. PARIMAL KUMAR SEN GUPTA, hoped that a motherly affection would be bestowed on this civic institution by the Mayor who has so long nursed and fostered another child, the Jadavpur University. A new history is sure to start soon in this House and the citizens would be best judges at the stock-taking after a year, Dr. Sen Gupta remarked. He also referred to the services rendered by the Deputy Mayor during these five years.

Esponsing the cause of Bustee-dwellers in the city COUNCILLOR NARENDRA NATH SEN was inspired to say that larger amenities would be extended to those unfortunate people during these years under the Mayoralty of Dr. Sen. He also pleaded for better emoluments of the employees particularly to those who live in sub-human conditions with negligible monetary income.

Many of the Members also felt that the promises so long made would be fulfilled, the development schemes undertaken would be completed and the projects be implemented under the stewardship of the new Mayor who has combined himself with so many virtues rarely found in a mortal being.

### A CONTINUATION OF RARE QUALITIES

FORTUNE favours the brave, is a phrase really applicable to the life of Dr. Triguna Charan Sen. Dr. Ing. (Munich), A.M.M.E. (B. Tech), A.M.I. Mech. E. (Lond.), M. I. E. (Ind.), the present Rector of the Jadavpur University. Dr. Sen is one of the pioneers for the expansion of Engineering education in the country. Before the University came into existence in the year 1955,

Dr. Sen was the Principal of the College of Technology and Engineering, Jadavpur, under the National Council of Education, Bengal. He can claim his association with the College even as a student of the great institution. The present all-round expansion and development of the Engineering College is also due to his untiring efforts as its Principal in the fifty's. As a Principal

and later as a Rector, Dr. Sen has endeared himself to the student community of the country.

Born in 1904, Dr. Sen had his early education in his native district Sylhet (now East Pakistan). He was graduated from the Jadavpur College in 1921. Later on he was sent abroad from the College enjoying a Scholarship for Post-Graduate studies. In Germany he obtained a Doctorate Degree in Mechanical Engineering and he also studied there Business Administration and Industrial Structure. Since then he used to take keen interest in the future industrialization of the country and has inspired many of his students to start factories and small industrial managements after completion of their studies.

In 1932, on his return to India, he was arrested and was kept under internment. He was also

expelled from the Presidency Division. He again joined the College in 1943 as a teacher.

Besides, Dr. Sen is attached to different other organizations and institutions, particularly in the Engineering field. He is a Member of the Durgapur Industries Board and his advice is very often sought in many of the Government industrial projects and plans. He is also a member of the Senate of the Calcutta University as well as of the Engineering University of Roorkey. For the past few years he has been a Member of the Board of Trustees, Calcutta Improvement Trust. He also represented the Corporation there.

To the Corporation he is not fully unknown. For some time he was also an Associate Member of an important Standing Committee. Still he has to give himself much pains to pick out and separate the grains and to run the administration smoothly.

### A LIFE OF DEVOTION, DEXTERITY AND DILIGENCE

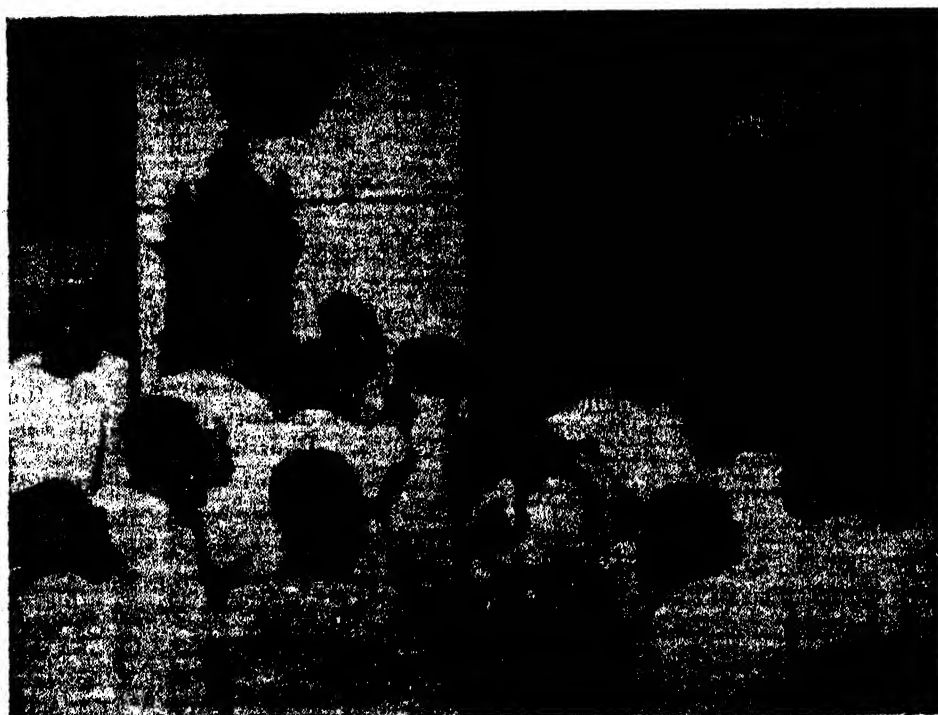

A notable Attorney of the Calcutta High Court, Shri Keshab Chandra Basu is the senior partner of Messrs. P. C. Ghose & Co., a leading firm of Solicitors in the city. Shri Basu is connected with the firm since 1938. Before that he served another firm, Messrs. Sanderson & Morgan, as an Assistant for some time. His career in this line started in 1934 when he joined one of the Senior Solicitors, the late Shri Rajkumar Basu. It was by dint of Shri Basu's labour, diligence, sincerity of purpose and other qualities that the firm has risen to eminence.

Born in 1905, Shri Basu had his early education in this city. He was graduated in Science from the Scottish Church College. He then studied Law. Both in the Intermediate and the Final Attorneyship Examinations he stood first and was awarded the Belchambers Gold Medal for the year 1934. In 1951 he had been in London in connection with a professional call.

He lost his father at an early age. His father late Shri Jnanendra Nath Basu was an Engineer under the Government of Bengal.

Since his early youth he used to patronise the sporting clubs in the city. He was associated with many respectable clubs and associations in the city. His public career, really speaking, started since his election as a Councillor of the Corporation in 1952. During this period of five years, Shri Basu was the Chairman of the Standing Works Committee for some time and was an important member of other Standing Committees. Lately he has been in the Standing Finance Committee and represented in many of the important Sub-Committees. He was the Chairman of the Borough Committee No. 4 and devoted much of his time for the improvement of the locality as well as for service to the rate-payers.

'Learn to live' is the motto in life of the present Deputy Mayor. That is why he had visited many of the important cities in the West and studied the civic problems there during his tour of Europe in 1951. He promises a great future for himself and his present activities will surely help the civic administration to run smoothly.

A CONFUSION REVEALED UPON THE HOUSE BEFORE THE PERSISTENT ELECTION ON THAT DAY

## VIEWS AND REVIEWS

### EPIDEMIC DISEASES

Hardly a day passes when cases of small-pox and cholera are not reported from any of the corners in the city. During the week ending the 27th April last, there were 188 cases of deaths from small-pox and 18 deaths from cholera. During the previous week deaths from the two diseases were 181 and 19 respectively.

Thus it can be said that the small-pox epidemic in the city has virtually showed no signs of abatement while the number of cholera cases is on the increase. The rise of temperature has a salutary effect on the disease and on this occasion there is no exception to this. The number of patients suffering from epidemic diseases lying in the N. R. Sarkar Hospital, Infectious Ward, has reached to 'almost the target figure'. The newly started Infectious Diseases' Hospital at Beliaghata has probably provided a larger number of patients. There has also been an increase in the incidence of small-pox and cholera cases among the refugees and destitutes concentrated in the Sealdah Station area.

But despite the precautionary measures taken by the Corporation and an intensive vaccination drive the epidemic diseases went on unabated. No doubt both the diseases are preventable. Vaccination is an almost certain defence. Lymphs and injections are provided by the Corporation along with an intensive campaign through publicity vans inducing people to vaccinate themselves with the help of Corporation staff.

This year's epidemic is an early event and to judge by the total number of deaths, it is more virulent than in other years. The mortality rate is no sure index because, until death occurs, there is no obligation to report illness and frequently this is not done. The Corporation has employed larger number of vaccinators this year—804 against last year's 175—and, to overcome shyness among women, almost a third of them are women. While efficiency in vaccination can be improved—like general sanitary conditions—the only effective way to root out small-pox is to have everyone vaccinated, in every part of the city because, unlike cholera, small-pox has no invariable affinity with bustees.

Looking into the rise of cholera cases inoculation drive has already been taken by the Corporation Health Department. The Public Relations' Department had arranged innumerable demonstration centres throughout the city so that people might realise the gravity of the situation. Citizens have been asked to observe the elementary health rules and to get themselves inoculated.

A Press Note issued by the West Bengal Government stated earlier that as the city has been threatened with an outbreak of cholera, the Director of Health Services, West Bengal, has authorised all police officers of the rank of Assistant Sub-Inspector, Sergeant and above to act as Inspecting Officers under certain regulations promulgated

under the Epidemic Disease Act, 1897 (III of 1897) for prevention and control of cholera in the city.

The Government's measures went further in prescribing temporary regulations for the prevention and control of cholera and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with the disease in the city for a further period of four months with effect from the 9th May next.

### DEATHS AND DISEASES IN THE CITY

Attacks and deaths from small-pox in the city during the week ending the 27th April were 188 and 188 against 181 and 141 respectively in the week previous. There were 79 imported cases in the city during the last fortnight. Attacks and deaths from the disease were nine in each case during a corresponding fortnight last year.

Cholera cases are also on the increase. 47 persons were attacked from the disease during the week ending the 27th April resulting in 18 deaths against 43 attacks and 19 deaths in the week previous. During a similar period last year 259 persons were attacked and 94 persons died of the disease.

Malaria took three lives only while Typhoid was responsible for eight deaths. There were 18 deaths from the latter disease during the previous week.

Tuberculosis tolled 88 men while during previous week the number of deaths exceeded one. 88 persons died of the disease during corresponding fortnight last year.

Deaths from all causes accounted for 868 against 984 in the week previous. During a corresponding fortnight last year there were 1,457 deaths from all causes.

Measures to fight effectively the epidemics were discussed for over two hours at a conference of representatives of the West Bengal Government, Calcutta Corporation and several organizations, held under the auspices of the Indian Medical Association, Calcutta Branch, at the Association's premises, Dhurumtolla Street recently. Dr. B. P. Tripathi, President of the Association, presided. The discussion mainly centred on the details of the I.M.A.'s one-week anti-epidemic campaign to be started on May 5. The conference set up an operational council with representatives of the Government, the Corporation, the West Bengal Pradesh Congress Committee, the Communist Party, I.N.A.C., Y.M.C.A., Y.W.C.A. and R.W.C.A. to draw up a comprehensive programme of inoculation and vaccination

### NEW CHAIRMAN OF HOWRAH MUNICIPALITY

Shri Rabindra Lal Sinha, M.L.C., and Shri Sankarlal Mukherjee, have been elected Chairman and Vice-Chairman, respectively, of Howrah Municipality at a meeting of the newly-elected commissioners on Tuesday, the 30th April last.

According to the recent elections, out of 30 seats the Congress secured 19, the United Leftists Municipal Election Committee captured eight seats, and 3 went to Independents.

The last Chairman election was held in 1952 when the Leftists and the Congress had secured 14 seats each. The former came to power when an Independent Commissioner joined them. The municipality was superseded on 21st April, 1954 on charges of incompetence.

Following the election, Shri Sinha and Shri Mukherjee were felicitated by several Commissioners. Shri Sinha appealed for co-operation so that the municipality could solve the stupendous problems facing them.

The Administrator of the municipality, Shri H. N. Ray, handed over charge to the new Chairman on the same evening. Shri Ray, at present Special Officer and ex-officio Secretary to the Government of West Bengal, Home (Anti-corruption and Enforcement) Department has been appointed Chairman of the Board of Trustees for the Improvement of Howrah, in addition to his own duties, as a temporary measure, with effect from the 1st May.

### MYMENSING MUNICIPALITY SUPERSEDED

The Mymensingh Municipality has been superseded by the Government of the East Pakistan on a charge of mal-administration and the S.D.O., South, has taken charge of the Municipality.

### BERHAMPORE MUNICIPALITY

Shri Satyananda Gupta has been elected Chairman of the Berhampore Municipality at the first meeting of the newly-elected Commissioners held recently. Shri Ram Chandra Saha was elected Vice-Chairman.

### NEW HOSPITAL AT LALGOLA

A hospital at Lalgola, Murshidabad, will be set up by the West Bengal Government for mental patients now in jails and vagrant homes. The hospital will be housed in the palace of the Raja of Lalgola. The palace, located on 60 acres of land, will be taken up by the Government at a cost of Rs. 8.5 lakhs.

There will be 500 beds in the hospital. Estimates for equipment necessary and the establishment cost are being prepared.

### T.B. CLINIC IN GAYA

A T.B. Clinic centre will soon start in Gaya and an X-Ray Machine and other equipments for the Clinic costing Rs. 40,000 has also been sanctioned by the Bihar Government.

### PRIMARY HEALTH CENTRES IN MADRAS

One more Primary Health Centre at Avanashi will be added by taking over the Local Fund Hospital at the place in order to complete a round figure of 24 out of 28 Primary Health Centres proposed to be opened during 1956-57 by the Madras State Government.

The Coimbatore District Board has been asked to open and maintain a dispensary in some other suitable place in the district, out of the savings accruing from the taking over of the Avanashi Local Fund Hospital.

### ENHANCED EMOLUMENTS OF MUNICIPAL STAFF

The Government have directed the District Boards and Municipal Councils under certain Section of existing Acts to pay house rent allowance to their employees for a further period of one year from 1st April, 1957, at the rates specified by the Government according to the salaries of the employees and categories into which the Municipal Councils had been divided.

### T.B. CLINIC AT JAYNAGAR

A T.B. Clinic is going to be established at Jaynagar-Majilpur, 24-Parganas, and a committee has been set up for the purpose. The Committee will approach the West Bengal State Branch of the Indian Red Cross Society for help in the matter.

### PORT COMMISSIONERS' ANNUAL BUDGET

The Annual Budget Estimates of Calcutta Port Commissioners for the year 1957-58 has an income of Rs. 10.14. It also revealed that the traffic passing through the Port during the year has been estimated at 8.40 lakh of tons. The total expenditure of the year has been estimated at Rs. 10.52 crore with a deficit of Rs. 87.97 lakhs.

The revised estimates for the current year, 1956-57, are placed at Rs. 10.50 crores and the total sea-borne traffic has been estimated at 8.560 lakh of tons.

The deficit of the Budget is mainly due to the slight fall in the volume of traffic likely to be handled, reduction in storage charges, provision of Rs. 70 lakhs to meet the additional expenditure resulting from the introduction of the piece rate scheme.

The Capital Expenditures in 1956-57 has been estimated on work in progress and on firm contractual commitments at Rs. 8.49 crores. Of this a sum of Rs. 3.15 crores is likely to be spent on Second Five-Year Plan Projects. The expenditure on work in progress during 1957-58 and firm contractual commitments has been estimated at Rs. 5.80 crores. Of this amount, a sum of Rs. 4.99 crores would be spent on projects covered by the Second Five-Year Plan.

## HEALTH AND HYGIENE

### Good Food Compliments Good Health

Good food and good health are the first essentials of a full life. But only a very small proportion of the people in the world have enjoyed these blessings, because there has never been sufficient food for everybody and killing diseases of one kind or another were, until recently, prevalent in every country and still are in many countries.

Under these conditions, the death rate was high even in the wealthiest and most advanced countries. A hundred years ago the average length of life, longer among the wealthy and shorter among the poor, was only about forty years. Until about the end of the nineteenth century it was impossible even with the best intentions of governments, to bring about any great improvement in these conditions. The means whereby the food supply could be increased more rapidly than the population tended to increase, and the means whereby killing diseases could be eliminated, were unknown.

Thanks to the discoveries of science, which has advanced more in the last 50 years than in the previous 2,000 years, we now have the knowledge and the power to produce sufficient food, measured on a health standard, for more than twice the population of the world and also to eliminate or control most of the killing diseases.

Where this new knowledge has been applied the expectation of life has been extended. By 1,900 it has reached 50 years. For many children born to-day it is about 70 years.

We marvel at the great achievements of physical science such as television, the jet plane and the hydrogen bomb. As wonderful—and of far greater importance for human welfare—are the achievements of biological science especially in health and agriculture, which, wherever they have been applied, have added 20 years to the span of life in the last half century.

But this knowledge has not yet been applied to the whole human family. At birth, the expectation of life of two-thirds of the people in the world is only 30 to 40 years. Thus 1,600 million people suffer premature death (often in infancy) from disease which can be prevented, and lack of food which can be provided.

During the last war our civilization decided to accept challenge. In the Atlantic Charter, the nations which had united to defeat Nazism set forth what they would do after victory had been attained. One of the objectives was to bring freedom from want to all men in all lands. The two fundamental wants of man are food and health.

So, as a first step to the fulfilment of this promise F.A.O., of which 76 nations are members, and W.H.O., of which 88 nations are members, were established in 1945 and 1948 respectively. Through these agencies of the United Nations, the nations of the world have begun to co-operate to rid the world of hunger and disease.

In the past, nations have always been willing when necessary to co-operate in promoting their own interests in war. Never so many nations agreed to co-operate on worldwide plans for the promotion of the welfare of the whole human family.

Co-operation in the great objectives of these two organizations can create a more friendly atmosphere in international politics and a better understanding of the problems of different countries. It can thereby make a great contribution to permanent world peace and the building of a new and better world free from the intolerable evils of war, hunger and disease.

But the peaceful transition from the old to the new world, which in this atomic age is the only alternative to the destruction of the old by war, is a formidable task.

To get rid of disease great projects have to be carried out. Modern sanitation with a clean water supply must be provided for two-thirds of the people of the world. By the systematic use of insecticides, malaria must be eradicated from areas where it is still endemic.

New health services have to be created and more training institutes established to provide doctors and nurses. Such projects involve an enormous expenditure.

The abolition of hunger and malnutrition involves as even greater expenditure. As the population of the world is likely to be doubled in the next 50 years, the food supply will need to be doubled to maintain the present inadequate diet in many countries.

To raise the diet of all mankind to the level needed for health would require about a threefold increase, the increase being mainly in the more expensive foods.

Vast quantities of agricultural equipment, fertilizers, facilities for storage and transport of food are needed. Water control projects must be developed to convert the destructive power of floods to useful ends—to produce electricity for industry and domestic use and water for irrigation.

Enough of the right kinds of food is necessary for health, and a healthy population is essential if food production is to reach the levels needed properly to nourish the human race.

This is no Utopian ideal. On the contrary, on its practical realization depends the kind of world that our children will inherit.

This calls for the co-operation of all nations and all peoples towards the closely related objectives of better food and better health, and is a basic condition if the human race is to have any hope for a future of world peace, prosperity, health and happiness.—THE STATESMAN.

## CITY NEWS PARADE

**ID-UL-FITR** one of the greatest Muslim festivals, was celebrated in the city on Thursday, the 2nd May, with usual gaiety. The day also marked as the end of Ramzan, a month-long fasting. Unlike previous years, only one congregational prayer was held at the Mahomedan Sporting ground with a much bigger attendance of at least two lakhs devoted Muslims. The prayer was led by Hazrat Maulana Sayed Mahamad Quareshi Saha of Nakhoda Mosque.

Shri Pratulla Chandra Sen, Minister for Food, Relief and Rehabilitation, also addressed the gathering after the prayers. He referred to the spirit of brotherhood, toleration and sacrifice as signified by the Id Festival, a great solace to all.

Prayers were also held in different mosques and some other parks in the city including separate congregations for the ladies.

In the morning, Muslims, wearing their best clothes after ablution set out to offer prayers. Thereafter, they embraced each other, shook hands and offered sweets. Relatives and friends visited one another's houses later on. Almsgiving on this occasion was regarded by Muslims as particularly auspicious.

The day was observed as a Bank holiday. Many Muslim shops also enjoyed a holiday. Muslim restaurants and eating houses were decorated with bunting.

**SEPOY MUTINY'S CENTENARY CELEBRATIONS** were observed in the city with the completion of the first hundred years of country's struggle for independence. Eminent historians including Dr. Surendra Nath Sen and Dr. Ramesh Chandra Majumdar participated in a four-day symposium organized by the Asiatic Society at Park Street. Dr. Sen inaugurated the symposium on Monday, the 29th April by speaking on "Literature on the Indian Revolt." Dr. Pratul Chandra Gupta, a Professor of Calcutta University spoke on "Last days of Nana Sahib" on Tuesday. On May 1, Dr. Sashi Bhushan Chaudhuri discussed "Revolt in Eastern India". The last lecture was delivered by Dr. Majumdar on "Nature and Character of the Revolt" on Friday, the 3rd May.

Dr. Sen was commissioned by the Union Government to write "The Revolt of 1857" which is expected to be published soon, probably on the day on which 100 years ago the Mutiny spread to Meerut. An exhibition of books, pamphlets and illustrations on the Mutiny was also organized there.

**CALCUTTA'S WEATHER CONDITIONS** are passing through disquieting days due to a hot spell continuing over the city since the beginning of April. There were a few occasions when storm and rains relieved the citizens from such an uneasy situation, although forecasts were made almost every day for possibility of having thundery squall with little changes in day's temperature.

The city experienced the hottest day of the season so far on Friday, the 26th April last, when the strong and pleasant southerly wind of the previous few days was absent. The maximum temperature reached 42 deg. C (107.6 deg. F), 7 deg. C above normal. Conditions became oppressive in the afternoon, the temperature reaching its maximum.

The number of private cars and pedestrians on the road was much fewer. One school was closed because of the heat.

After seven days of grueling heat a thundersquall came as a great relief to the people on Monday, the 29th April. The city having the day's maximum temperature, 40 deg. C (105 deg. F), enjoyed a cool evening. The rainfall was 1 mm (.004 inches).

**AN EXHIBITION OF DURRIES AND FURNISHING FABRICS** was opened at the West Bengal Government's Industrial and Commercial Museum at Chittaranjan Avenue, by Shri Hemendra Prasad Ghosh on Saturday, the 27th April last.

Many attractive specimens of cotton durries (known in Bengal as Sataranchi), coir doormats and furnishing fabrics of various types were put on show. Collected from different parts of the State these have been made by prisoners, members of a prisoners' after-care association, refugees, inmates of a vagrants' home and trainees at Government Industrial Centres and at a women's industrial school.

**MAY DAY** was observed in the city with due solemnity as usual on Wednesday, the 1st May. Employees and workers in and around the city celebrated the day by holding processions and meetings. Flags were flown at Trade Union offices in the industrial belt of the city. Workers' processions converged in the afternoon on the Maidan where a central rally was held under the auspices of the Dalhousie Co-ordination Committee of the Employees' Federation. It adopted a resolution reiterating their demands. One of them was for a flat rate increase in the basic pay of the workers by 25 per cent.

The rally was presided over by Shri Jatin Chakravorty, M. L. A., Janab Mohammad Ilias, M.P., Dr. Ranen Sen, M. L. A., Shri Biswanath Dubey, Shri Subodh Banerjee, M. L. A., and other trade union leaders addressed the gathering.

Half a dozen trade unionists called upon the working class to stand united at another May Day Rally organized by the Hind Mazdoor Sabha at Wellington Square. Shri Rajani Mukherjee presided. The speakers included Shri Deben Sen, M.L.A., and others.

**DEMONSTRATIONS:** A number of Port Commissioners' labourers on the 24th April last demonstrated for a time in Kidderpore Docks, when Murali Goala a ticca porter, died on duty. Goala was engaged in re-stacking loads in a dock shed.

Members of the Eastern Railwaymen's Union observed "Railwaymen's fortnight" starting from Saturday, the 27th April last. Meetings and processions were held during this period to explain railwaymen's demands to the public. The demands included withdrawal of the new conduct rules for employees, appointment of a permanent wage board and grant of dearness allowance in accordance with the Central Pay Commission's recommendations and 25 per cent increase in total emoluments as interim relief.

Six persons including Shri H. Roy, Special Officer, Tollygunge area, were injured when about 250 mazdoors of the Sewer Cleansing staff demonstrated for four hours outside the office of the Corporation Chief Engineer, on Monday, the 29th April.

The demonstrators had to complain about the burns received by one of them while cleansing a sewer in Kashab Sen Street on the previous day. The man received burn injuries on hands and face when the lamp with which he had entered the sewer began to flare because of gas which had accumulated in the sewer.

## HOUSE DRAINAGE—NEW CONNECTIONS

The following new sewer connections were effected during the week ending 13th May, 1956.

# CORPORATION NOTICES

## To All Registered Petty Improvement Contractors

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 7th May, 1957, up to 2 P.M.

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

1. Repairs to surface drain on the southern side of Haromohan Ghose Lane (portion), Ward No. 35—Rs. 1,331/-, dated 16th April, 1957 (1 month).

2. Removal of drain silt from Manicktala area—Rs. 2,522/- dated 27th April, 1957 (4 months).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be scored and noted in ink as "3 months" and initialled.

S. MUKERJI,  
District Engineer II.

DIST. II Eng'g. Office:  
The 30th April, 1957.

District No. IV Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Monday, the 13th May, 1957, up to 2 P.M.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred

from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. Works may at the discretion of the Commissioner be forfeited.

1. Providing fountain at Hazra Park on Hazra Road—Rs. 3,212/-, dated 29th April, 1957 (2 months).

2. Construction of a gyratory island at the junction of Belvedere Road and Baker Road—Rs. 1,904/-, dated 29th April, 1957, (1 month).

3. Repairs to footpath of Circular Garden Reach Road, Const. 75—Rs. 2,759/-, dated 29th April, (1 month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as 3 months and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000/-.

A. C. SINHA,  
Actg. District Engineer, IV.

District IV Eng'g. Office:  
The 29th April, 1957.

## Notification

REPAYMENT OF 5 PER CENT. CALCUTTA MUNICIPAL DEBENTURE LOAN OF 1929-30 DATED 1ST AUGUST, 1929 — FOR 28 YEARS.

The 5 per cent. Calcutta Municipal Debenture Loan of 1st August, 1929 for 28 years, for Rs. 25,00,000 is repayable on the 1st August, 1957, from which date interest on it will cease. Holders of Debentures of this loan should tender their debentures at the Local Authorities Loan Section, State Bank of India, Calcutta, at least three weeks before the due date of repayment with the following endorsement on the back of each Debenture:—

"Received payment in full of all demand for principal and interest hereon."

Signature of Holder.  
B. GHOSH,

Secretary to the Corporation.

CALCUTTA MUNICIPAL OFFICE:  
The 1st May, 1957.

## College Street Market

### NOTICE

To all whom it may concern that an application has been received from Sri Gangadhar, Hemendra Prakash, Anil Baran, Bimalendu, and Achintya Kumar, Nikhil Ranjan, Mihir Ranjan, Dhruvo Jyoti and Sakti Pada Mukherjee for recognising them as recorded occupiers of the Stall No. B. 32 in place of Bishnu-pada Mukherjee deceased recorded occupier of the stall.

Objections, if any, to the above proposal may be submitted to the undersigned within 15 days from the date hereof.

S. BOSE,  
Superintendent.

College Street Market:  
The 1st May, 1957.

## Health Department

CITY HEALTH OFFICER'S APPEAL

CHOLERA HAS BROKEN OUT IN CALCUTTA

Population of Calcutta has incredibly increased and the hot spell of the season is continuing in the city. It is high time that citizens who are not yet protected should have anti-cholera injections without any further delay.

Health Officer, therefore, earnestly requests all citizens to take anticholera inoculations at the earliest moment. Anticholera inoculations are given free of cost at all Corporation Vaccination Stations and Corporation Charitable Dispensaries. People unable to call at any one of these places may contact the Corporation District Health Officers and Health Officers of Cossipore, Manicktala and Tollygunge areas for arrangement of giving inoculations at their residences.

The Health Officer hopes that the citizens will respond to his appeal so that the Health Officer may not have to enforce submission to anticholera inoculation through notice under Cl. 23(1) of the Temporary Regulations for cholera which is in force in Calcutta.

Clause 23(1) runs as follows:—  
"The Director of Health Services, West Bengal or the Health Officer, Calcutta Corporation or any one authorised in writing by either of these officers may direct any person to take such drugs in such quantities as may be specified by the said officer or to submit himself to anticholera inoculation within a time to be specified in the order."

The Health Officer also warns and draws the attention of the citizens to Clause 28 of the Temporary Regulations for cholera promulgated under the Epidemic Diseases Act, 1897 which reads as follows:—

"No person in charge of a hotel, restaurant, cafe, lodging house or other place of public resort in which any article of food or drink is supplied for consumption on the premises shall serve or cause or permit to be served therein any article of food or drink in which ice has been placed or served or cause or permit to be served any ice to any person for consumption on the premises, and no vendor of aerated water, sharbat, beverage or other article of drink shall sell to any person any article of drink in which ice has been placed or sell ice to any person to whom any such article of drink is sold."

A. MUKERJI,  
Offg. Health Officer

CENTRAL MUNICIPAL OFFICE:  
The 25th April, 1957.

## Auction Sale

### NOTICE

All seized carts will be sold by public auction, if not claimed within 10 days of seizure at the Cart Registration Office at 185/1, Lower Circular Road, by the Cart Registration Officer everyday from 3 p.m., excepting holidays from 1st October, 1956, until further orders.

A. K. DUTT,  
License Officer.

CENTRAL MUNICIPAL OFFICE:  
The 1st October, 1956.

**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Superdt., S. S. Hogg Market.

## **'To Achieve Anything In Corporation Requires Public Sympathy And Help' MAYOR'S STATEMENT IN THE HOUSE**

I feel that in the true interest of the Corporation as well as in the interest of the inhabitants of this metropolis, it is necessary to unequivocally declare that all the employees and the Councillors of the Corporation individually and severally have only one objective—that to serve the inhabitants of Calcutta and that their service transcends all consideration of self and party. This is absolutely necessary. We have to honestly look into our own hearts and determine unreservedly to prove ourselves true to the trust that the people have put in us and carry out the purpose for which we are here. We should not be betrayers of trust and dishonest to ourselves. Now with all the emphasis I can command I would urge that we cleanse our own minds and prepare ourselves earnestly to take up the work we are to do.

I do, of course, fully realise the enormous proportions of the problems we have to tackle and I do not definitely suggest that we, who have to lay down the policy and direct the operations, should even attempt to take up all the problems at once. What I would suggest would be that to start with we take up one or two vital problems—say the evil of food and medicine adulteration and epidemics and concentrate on them till the most fundamental of the defects have been remedied and then devote ourselves to another important problem. If we draw up a plan of work systematically and give to the public concrete indication that something substantial was being done. I do believe firmly that work started honestly is work half done. If my suggestions are acceptable to you I can tell the citizens of Calcutta what we propose to do and how we shall set about doing it. I can also make it clear to the citizens that they should not

expect to have this city turned into Heaven overnight, but that we can do something real and substantial if they would co-operate with us. We should at the same time explain and show the real nature of the problem and the difficulties that have to be overcome. It is my firm conviction that to achieve anything in the Corporation would require public sympathy and help—particularly of the youthful section of the public. The actual work will be done by the employees of the Corporation and here I feel we have much to do. I am afraid it has to be admitted that the employees should think themselves to be servants of the public. The present attitude has to be changed and we can do it by creating circumstances and the proper atmosphere in which the employees would clearly realise that they are public servants and must work in co-operation with the public and for the benefit of the public. Thus we must, on the one hand, bring the public into close and intimate relationship with the Corporation and stimulate a sense of civic pride in the citizens and on the other hand, instil the sense of public service into the minds of Corporation employees.

So far as the Councillors are concerned, I feel that although they belong to different political parties they should eschew party politics when civic well-being and civic interests are concerned. Party politics may only be allowed to play at the time of election and should not after that, jeopardise the real issue at stake. After all the object of getting elected is to get scope and opportunity for serving the country and the people. A person once elected should devote himself to realise the purpose for which he fought. I do hope that party considerations would not be allowed to interfere with principles and ultimate objects.

I am told that you require your Mayors to observe certain formalities which are considered to be necessary for maintaining the dignity of the Chair. I personally do not think that the dignity of this August Office depends on mere observance of empty formalities. I am a common man and I should like to live like one. You have chosen me to work with you to serve the common man. I feel it is essential for me to be in touch with the common man. Such trappings of high office as a chauffeur-driven big car, liveried orderlies and other splendours would inevitably keep me away from the common man by wringing down an impenetrable curtain of regalia. I shall, of course, observe all the formalities and put on the ceremonial garb when I have to receive dignitaries on your behalf or when I have to participate in any formal function.

It is known to many of you that I never dreamt of being an Alderman of the Corporation. I am very happy in the company of your sons and daughters, the youth of the country. I do not as yet personally know many of you. When you elected me as your Mayor, I naturally felt you have neutralised me, and I should not be a party to any other election in the House. And I acted as my conscience dictated.

When we were under British rule fighting for freedom, it was absolutely necessary to run the administration of the Corporation on a party basis so as to enthuse the people for the struggle. But now there is no such need. I feel very strongly, as I said before, that I should not run the administration of this institution on any party line. We should and must rise above party affiliations and work with only one objective, namely service to the citizens of Calcutta. I pledge that I will try to maintain the dignity of this Chair above any personal or political consideration. I will not hesitate to leave the Chair, the moment I feel it to be impossible to maintain that position. I will demand from you to-day expression of your full confidence which alone can enable me to discharge my duties as Mayor.

## **VIEWS & REVIEWS**

### **MUTINY CENTENARY**

The impact of Sepoy Mutiny, 1857, the First War of Indian Independence, has occupied the thoughts of the people at the present moment. It symbolises the first emergence of a conflict for the nation's transition from feudal-colonial rule into national democratic freedom. Whatever might be the opinion about the his-

torical importance of this event, it is sure that it had led to perpetuate a revolutionary movement in the country. Indians continued to draw inspiration from the Mutiny until the freedom's battle was won.

Thus along with the rest of the country, the Corporation also observed the day. The weekly meeting was adjourned for ten minutes in commemoration of those heroes of the Mutiny. Earlier, a minute's silence was observed in memory of those brave who fell fighting during the event. The

Mayor, Dr. Triguna Charan Sen, paid tributes to those martyrs. The 10-minute adjournment was suggested by Councillor Jogindra Lal Saha, M.L.C.,

The matter was referred to in the House by Councillor Satyananda Bhattacharya who wanted an adjournment for the day so that the City Fathers might join the celebrations organised in different corners of the city. He also said that the House representing the citizens should observe the day befittingly. Moving the motion Councillor Bhattacharya emphasized that the House should pay proper tributes to those martyrs who figured in the Mutiny. The removal of the busts and statues of those foreign rulers who participated in putting down the mutiny, scattered in different parts of the city, was also stressed by him.

The centenary was celebrated with processions and meetings in different parts of the city and the suburbs. The laying of wreaths on Saheed Vedis was a feature of the day.

A rally was organized by the Communist Party at the site, near Barrackpore Court, where Sepoy Mangal Pandey, described as the first martyr of the Mutiny, is said to have been hanged. Wreaths were placed at the site. Shri Niranjan Sen, M.L.A., spoke on the significance of the revolt.

At a meeting in the Indian Association Hall with Shri Bankim Mukherjee, M.L.A., as president, speakers explained the significance of the "great rebellion". They argued that it was incorrect to say that there was no popular support for it and that it was merely an attempt by the princes to wrest power from the British. Various economic factors, they said, were responsible for the popular sentiment in favour of the rebels.

#### MAYOR'S EFFORTS IN SOLVING WATER SUPPLY PROBLEM

Since his assumption of office, the new Mayor, Dr. Triguna Charan Sen, is anxious to solve the problem of acute scarcity of filtered water in the city. On the very day of his election he was told that the city had been suffering from the long standing grievances for the supply of sufficient quantity of filtered water. The members also drew his immediate attention for implementation of some of the temporary measures in order to increase the supply to a certain extent.

Representations and deputations were also made by the citizens from the early part of summer along with the rise of temperature for the same. The citizens' patience could not be hold of and they have recently started staging of demonstrations for larger quantity of drinking water. In the Bustee areas the shortage of drinking water has taken an acute form and the dwellers there have recently started to participate in those demonstrations. Earlier efforts made by the Commissioner, Shri B. K. Sen, could not solve the problem for its growing demand. On Friday, the 10th May, when the weekly Corporation meeting was in progress about 500 bustee-dwellers from the Manicktolla and Ultadanga areas, demonstrated for nearly an hour before the Central Municipal Office Buildings, S. N. Baner-

jee Road, demanding adequate supply of filtered water. They were led by Shri Ganesh Ghosh, Shri Amar Bose and Shrimati Manikuntala Sen, all M.L.A.s. and other leaders.

The Mayor, Dr. Triguna Charan Sen, met their representatives and said that he would make arrangements to ensure adequate supply of filtered water by lorries to the bustees. The Corporation proposal to sink tube-wells near these areas would also be implemented at an early date.

Later on, the Mayor also acquainted the House with those assurances. He told that he would see that regular supply of drinking water through water lorries was maintained. The long promised two thousands small-sized tube-wells would be sunk at the earliest. He told that he had already convened a conference of the Engineering staff of the Corporation to discuss the issue and would look that there might not be any delay in sinking these tube-wells. Difficulties in having responsible contractors for sinking those tube-wells, when mentioned by some of the Members, the Mayor assured the House that he would see that if a panel of contractors could be prepared for the purpose.

The Mayor's good sense in this regard raised even earlier. At a conference called by him on Monday, the 6th May, in his room, Central Municipal Office Buildings, city's water supply position was discussed. Being new to the Corporation he acquainted himself with the position. After about two hours discussion the Mayor directed the Water Supply Department to put into commission within a week 180 small-sized tube-wells which were out of order according to the department. There are 2000 small sized tube-wells in the city. The Mayor also requested the Commissioner to appoint immediately necessary additional staff for a period of three months to keep the small-sized tube-wells in order.

Besides the Deputy-Mayor, Shri Keshab Chandra Basu, the Commissioner, Shri B. K. Sen, the Chief Engineer, Shri A. K. Sen, the Health Officer, Dr. A. Mukerji, Deputy Chief Engineer, Shri M. N. Das and other Departmental heads, the conference was attended by a large number of Councillors including J. L. Saha, U. N. Sen, S. K. Roy, B. K. Banerjee, Dr. B. Bose and Dr. K. P. Ghosh.

Long term measures as detailed in the Corporation's Five-Year Plan for augmenting city's filtered water supply were also discussed at the conference.

In that Corporation meeting several Councillors narrated the difficulties experienced in obtaining drinking water by the bustee-dwellers. Councillor Subrata Kumar Sen Sarma also wanted to know the present position and progress of work made as regards the 72 inches Tallah-Pulta Main, whose contract had been accepted to some time ago. While Councillor Bejoy Kumar Banerjee pointed out the difficulties faced by the Water Supply Department in supplying unfiltered water in the city. He also mentioned many of the mechanical defects for which a careful watch should be kept. The Deputy Mayor who was then presiding, assured the House that these would be attended to by the department concerned.

## EPIDEMIC DISEASES

Great anxiety was expressed by the Corporation at its Second Ordinary meeting on Friday, the 10th May, on the rise of cholera cases in the city. Several members also referred to the continuance of small-pox epidemic.

The number of deaths due to cholera has jumped sharply from 18 in the preceding week to 45 during the week ended the 4th May. The number of attacks for the week was 96 compared to the previous week's 47. Though not declared as an epidemic disease in the city until then still, mentioning the fact Councillor Dr. K. P. Ghosh stressed that unless the water supply position was improved the inoculation drive would have little effect in controlling the disease. Councillor Sachin Sen felt that public help should be enlisted to combat the disease at least in undertaking an intensive inoculation drive. Councillor Shyamal Dutta held the abnormal high temperature in the city responsible for the rise of cholera cases. Councillor Biman Mitra and others also expressed an equal concern. Councillor Dr. Aurabindo Das Gupta wanted that the Bustee Cleansing Gang should be allowed to continue for some months more along with Nikashi Drain men.

Upholding the issue, the Deputy Mayor, Shri Kehab Chandra Basu, who was then in the Chair, sought help and co-operation from the Members in fighting out the disease from the city.

The Mayor, Dr. Triguna Charan Sen, who had earlier mentioned the crux of the situation in his introductory speech, reiterated the need of measures to be taken in this regard. He said that he had decided to meet the physician Councillors on any day during next week when the matter would be discussed and would see what effective measures could be taken to combat the epidemic diseases in the city. Meanwhile in order to check the spread of the epidemic, on Monday's conference, he had directed the department concerned to take steps for daily cleansing and disinfecting of the bustees.

Another thing which disturbed his mind was the introduction of community privies in place of individual service privies in the bustee areas in order to do away with that source of menace. He said that leaving apart those long term projects and plans to the Government for implementation the Corporation might proceed on a short-term basis.

At the initiative of the Commissioner, Shri B. K. Sen, the Corporation had already started a campaign. The Health Officer, has requested all citizens to take anti-cholera inoculation at the earliest moment. The Corporation's special drive against cholera is that 41 Health Squads will work in the affected areas—namely Burrabazar, Maniktala, Tangra, Chingrighata, Ultadingi, Narikeldanga, Ahiritollah, Kidderpur and other places. Recruitment of volunteers are being made for the purpose of raising Health Squads. Members of the public, both men and women, particularly those of the students community having previous experience of social service are being preferred for the purpose. Arrangement of a short course of training, however, will be made for

the new recruits. An appeal has also been issued in this connection.

Temporary Inoculation Centres have also been opened in those areas. Cinema shows, lectures through publicity vans and display of posters are some of the ways employed by the Corporation Public Relations' Department, to educate the people to get themselves inoculated in time.

Help and co-operation so far enlisted in this regard is encouraging. Many of the philanthropic organizations have come forward to offer their services. And it is hoped that with this help and co-operation Calcutta will see the lovely doom of attack in no time.

## SLUM CLEARANCE

Slums in Indian cities have assumed a major problem and have caused much headache to the authorities. Although a fraction of slum dwellers have been moved out of their habitations as a result of subsidised industrial housing scheme, still the problem on the whole, continues to be a vexed one as it was. Unless steps are being taken to make it impossible for new slums to come into existence, the problem will become even larger. Among the measures so far undertaken to prevent growth of slums Municipal bye-laws were found helpful. The enforcement of such laws should also receive the support of enlightened public opinion. Organized Seminars may help in moulding the public opinion in this regard.

It is pleasant to note that a Seminar on Slum Clearance has been organized in Bombay by the Indian Conference of Social Work under the auspices of the Tata Industrial Trust during the middle of this month. Calcutta's slums are no doubt occupy a major problem and the Corporation is going to participate in it. Its decision was conveyed to the organizers at its meeting on Friday, the 10th May. The Corporation has agreed to contribute rupees one thousand as a grant for the same as suggested by the Mayor, Dr. Triguna Charan Sen.

The organizers have also taken a right move by inviting the city's Commissioner, Shri B. K. Sen to attend the Seminar. He will address the Plenary Session on "the Integrated Plan for Slum Clearance". The Corporation will be represented also by its City Architect, Shri P. Guha.

Master Plans are taken as secondary measures against the prevention of slums because they free the city from such future plague spots. Calcutta Corporation has prepared such a plan for the city in order to do away with them. A Rs. 8-crore scheme for slum clearance has been incorporated in Corporation's Five-Year Development Plan. The Commissioner and the City Architect's contributions in this regard are no doubt, immense, and their participation in the Seminar would benefit all.

As the Seminar is expected to last till the 20th May, the Commissioner will be away from the city. During his absence, the Deputy Commissioner I, Shri A. K. Basak, will carry on the routine work of the Commissioner's office as provided under the Present Calcutta Municipal Act.

BIRTHDAY CELEBRATION AT RABINDRA BHARATI

PHOTO : ANJAN GUPTA

## Poet's 97th Birthday Observed

RABINDRANATH was a great poet, the greatest that the country has ever produced. Gifted with a vast literary canvas he was the noblest embodiment of the country's genius. In him merged the perennial currents of the Indian culture and the mighty streams of the Western thought. His were the greatest songs of the world for the creation of the first all-human prestige of the modern man.

CALCUTTA has a better claim over the poet than the rest of the country. Because it was here, he was born and brought up. It was here in this city, the poet woke up to his Poetic Self. From here once he threw his voice and it echoed and re-echoed to the wide and wider world, and he became the greatest Humanist of his age. It is in this city where his talents were gratefully exerted and his affections interested people too deeply. The city was also once overwhelmed with disappointment and grief when the light was lost to him for ever. Thus the influence of his life and work exerts not only on the age we live in but also will continue to guide the future generations. It is a priceless heritage unparalleled in the whole of history.

So to honour TAGORE through innumerable mass celebrations on the day of his Birth, the 8th of May, is only to pay respects to that India's undying soul. And befittingly the city and its suburbs observed his 97th birth anniversary through prayers, festivals and appropriate functions spreading over about a fortnight from that very day.

### PEOPLE'S TRIBUTE OF LOVE AND RESPECT

SYMPOSIA on poet's life and works, staging his dramas and holding of musical soirees are the main features of the week-long Birth Anniversary festival. The sacred and the most impressive was the function at Rabindra Bharati, Prince Dwarkanath Tagore Lane, where several thousands assembled in the morning on Wednesday, to pay their respectful homage to Rabindranath. Queues of men, women and children visited the room where the poet lived and worked. The room was decorated with flowers and "alpana". The function was held under the joint auspices of Visva-Bharati Sammelan and Rabindra-Bharati at Rabindra Bharati Hall. Shri Tapenmohan Chatterjee recited Vedic hymns and Prof. Satyendra Nath Bose, Vice-Chancellor, Visva-Bharati University, read excerpts from Tagore's writings. Shrimati Rajeswari Dutta, Shrimati Suprova Sarkar and Shri Debabrata

Biswas were among those who sang the poet's songs. The function ended with the song which the poet wrote on the occasion of his own birthday.

In the evening, the Gitabitan held a function at the Asutosh Memorial Hall, Bhowanipore, the Baitanik at Dwarkanath Tagore Lane and the Dakshinee at its own premises at Deshapriya Park West, South Calcutta. All these institutions are propagating Rabindra Sangeet in the city.

### RABINDRA MELA

A week's cultural festival devoted exclusively to Rabindranath's songs, dramas and works began at Mahajati Sadan under the auspices of Rabindra Mela. Similar festivals were organized by the Duer Palli Rabindra Utsav Committee at B. K. Pal Park and the North Calcutta Rabindra Samskriti Sammelan at Kumartuly Park.

At Mahajati Sadan, Shri Tarasankar Bando-padhya, the noted author said that advent of Rabindranath was of equal significance to the country as that of Gautama Buddha nearly 2,500 years ago. The Poet has left for them to realise and accept all the great truth that he had acquired through his dynamic contact with life. The works of Rabindranath also showed amply his great mind and art at their richest manifestations.

Speaking at B. K. Pal Park, Raja Rao Dharendra Narayan of Lalgola, emphasized "Let the teachings of Rabindranath guide us during the present critical period of history. Rabindranath was a teacher of humanity and his messages held out hopes of a better, nobler and peaceful way of life for the entire mankind. He drew inspiration from his father Maharshi Debendranath and he waved expressions covering all aspects of our life."

#### OTHER FUNCTIONS

The All India Radio, Calcutta Station, broadcast special programmes marking the Birth Anniversary. A special programme on Rabindranath was also relayed from Delhi.

The High Court, including its offices, were closed. Calcutta University and other educational institutions in the State and Calcutta Corporation observed a holiday. Offices of the West Bengal Government and Revenue and Magisterial Courts were also closed.

Tributes of love to the Poet were paid at a function held at the Hall of the Indian Association for Cultivation of Science, Jadavpore, with Shri Keshab Chandra Gupta presiding. It was attended amongst others by Shri C. C. Biswas, Dr. Amiya Chandra Banerjee, Dr. Priyada Ranjan Roy and others.

Ten-years of Rabindra Patha Chakra observed the anniversary on the 9th May at Students' Hall, Bankim Chatterjee Street, Raja Rao Dharendra Narayan Roy presided and Shri Sudhangsu Basu, Editor, "Hindusthan Standard" was the Chief Guest. Several children of foreign residents in the city participated in the function. A programme of Tagore songs, recitations and dance recitals was also gone through at the end.

A poetry fair was inaugurated at Rabindra Bharati, on the same day and it continued for the next two days. Shri Atul Chandra Gupta, an eminent litterateur, inaugurated the fair. Two famous poets of post-Rabindra age were honoured in one of the days. A large number of poets recited their compositions.

#### TAGORE SOCIETY

In a pleasant function at the Asiatic Society Hall, Park Street, organized by the Tagore Society on the 7th May, renderings of the Poet's compositions in different languages were presented before a selected gathering. Dr. Kalidas Nag showed the exquisiteness of the Poet's 'Balaka' when he recited both Bengali and French versions of the same. Shri Sati Ranjan Basu read out Chinese rendering of the Poet's famous poems. Urdu and Persian translations were also recited.

Dr. Suniti Kumar Chatterjee who acted as the Chief Guest, said that Rabindra literature has to-day become the Universal literature' because of its Humanist appeal. The learned Professor

eloquently his speech by saying that Nationalism is the greatest phase of inter-nationalism and this was largely emphasized in the writings of the Poet. Moreover, it is Rabindranath who has brought the Bengali language on the shores of different other important languages in the world. He added: One can realise the Poet's self if he can read any of the important twelve languages of the world.

Prof. Satyendra Nath Bose, Vice-Chancellor of the Viswa-Bharati University, as president of the meeting, regretted that in the post-Rabindra age little had been contributed to annotate the Poet's composition to the common man so that its universality might be attained. When the centenary year of his birth is approaching, he hoped, the celebrations would be magnificent and would be participated in by the entire human race.

#### AT CORPORATION SCHOOLS

The Birthday celebrations were also observed by many other cultural organizations and institutions. Many of the Corporation Primary Schools observed the day. The ninety-seventh Birthday was celebrated at a joint function organized by the Raj Rajeswari Girls School and the S. B. Dey Model School for Boys in the School premises, Nebutala. A life like portrait of Rabindranath, drawn by Shri Nirmal Dutta, a teacher of the School, was placed on the dais. Councillor Mukur Sarbhadikary presided over the function. Shri B. N. Bhadra, Editor, "Calcutta Municipal Gazette", as Chief Guest of the function, A large number of local people attended the function including the teachers and students.

At another Corporation Primary School, Peary Mohan Sur Lane, in a similar function Shri Bonamali Sen Gupta, Headmaster of the School, presided. The boys celebrated the day with readings from Tagore's poems.

Infants of the newly started Corporation Primary School at Ram Narayan Bhattacharjee Lane, organized a function under the Head Mistress Srimati Kamala Basu. Srimati Gouri Bhattacharjee, a student of the institution recited poems of Rabindranath. Sweets were distributed among the students.

(Continued from page 59)

Calcutta will again be the radiating point of the diffusion of Indian culture towards the Middle East on the one hand and South East Asia on the other. Tagore the Seer-poet, down to the advanced age of 71, personally visited Europe and North and South America and China and Japan, Indonesia, Burma, Ceylon, Iran, Iraq and Soviet Russia. Admirers from all such countries, visited by Tagore, will come in larger and larger number to know his native Bengal; and hospitality to those guests from abroad would be best shown by building up and running the Tagore Auditorium in Calcutta for which I pleaded for the last 15 years, ever since the demise of the great Poet—Internationalist Rabindranath. He saw the first rising sun and the last sun set herein Calcutta on the sacred Ganga and we should join hands with all citizens of Calcutta to build not a static statue but a growing institution in his hallowed memory.

THE MAYOR INAUGURATES THE CAMPAIGN ON SUNDAY, THE 5TH MAY.

## I. M. A.'S SPECTACULAR PROCESSION IN THE CITY

SPECTACULAR processions, intensive inoculation and vaccination drives in the bustee areas, demonstrations through meetings and cinema shows and others, marked the feature of week-long Anti-epidemic campaign organized by the Indian Medical Association, Calcutta Branch. The campaign was inaugurated by the Mayor, Dr. Triguna Charan Sen. The services of a number of social service organizations were enlisted in this regard. Even the students of the four medical colleges in the city participated in the campaign.

The State Government, the Commissioner, Shri B. K. Sen, the Public Relations' Department and the Health Department rendered all possible help to make the campaign a success.

The Pradesh Congress Committee, the Communist Party of India, and different political and social organizations were the other participants.

It was inaugurated on the first day, May 5th, with three processions starting from Wellington Square led by the Mayor, the Deputy Mayor and the Chairman of the Calcutta Branch, I.M.A. Besides 200 medical practitioners it included about 100 carts carrying musical parties, charts and models on health publicity.

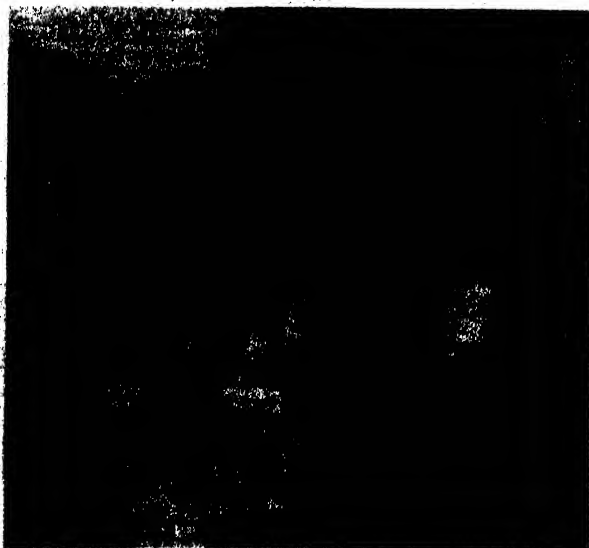

Measures to fight effectively cholera and small-pox epidemics were discussed at a Conference called on by the Association, on a previous occasion. The Conference set up an operational council with representatives of the State Government, the Corporation, the West Bengal Pradesh Congress Committee, the Communist Party, I.N.A.C., Y.M.C.A., Y.W.C.A., R.W.A.C., to draw up a comprehensive programme of inoculation and vaccination. The week-long programme was the result of the meeting of the Council.

## WEEK LONG CAMPAIGN IN THE CITY

Before the processions started the Mayor, Dr. Sen, expressed the hope that, with the co-operation of all sections of people, it would be possible to eradicate small-pox and cholera epidemics from the city in two years. While he appreciated the efforts then being made by the I.M.A. and other organizations to fight out the epidemic Dr. Sen wondered why steps had not been taken earlier. Many lives could have been saved if that had been done, he said.

Besides, the Mayor and the Deputy Mayor, several Councillors and Corporation officials were present on the occasion. Alderman Dr. Amiya Kumar Basu, Councillors Ushanath Sen, Dr. Esmail Ebrahim, Brojendra Nath Banerjee, the Commissioner, Shri B. K. Sen, the Deputy Commissioner, Shri A. K. Basak, the Health Officer and other officials were present. Divided into three sections the processions visited localities in South, North and East Calcutta. At bustee corners talks were given by doctors and volunteers

to explain the necessity of inoculation and vaccination. In the evening the processions converged

A FLEET OF DEMONSTRATION CARS

at the foot of the Ochterlony Monument where a meeting was held under the presidentship of Dr. Nalini Ranjan Sen Gupta, an octogenarian physician in the city. The meeting was also addressed by many others including Dr. Nihar Kumar Munshi.

The first procession was led by the Mayor, Dr. Triguna Sen, the second by the Deputy Mayor, Shri Keshab Chandra Basu, and the third by Dr. B. P. Tribedi, President of the I.M.A., Calcutta Branch. Among those who joined the South Calcutta procession were Shri Sidharta Sankar Ray, Judicial Minister, Dr. Sourin Sen Gupta, Secretary, Calcutta Branch, Dr. Naresh Banerjee, Asstt. Secretary, Councillors Dr. B. C. Basu, Anil Maitra, S. K. Sen Sarma and others. Dr. Nihar Munshi, President of the I.M.A., Bengal Branch, was in the procession visiting East Calcutta. Dr. Narayan Roy, M.L.A., Dr. Ranen Sen, M.L.A., Councillor Dr. K. P. Ghosh and others joined the procession proceeding towards the North Calcutta.

On the second day of the Campaign the inoculation drive was carried on in a number of bustees covering Beliaghata, Belgachia, Kidderpore and Tollygunge, Corporation supplying huge quantities of lymphs and inoculation staff also.

Arrangements were also made for collecting survey statistics on environmental hygienic condition of the bustees with particular reference to the source of water supply, incidence of epidemic diseases and information about vaccination and inoculation.

On Tuesday, the third day, Inoculation Drives were undertaken by Y.M.C.A. in Central Calcutta area, by Medical College Students' Union in Burra Bazar area and by R. G. Kar Medical College Students' Union Unit in Belgachia area.

There was also a Film Show on Health at Y.M.C.A., College Street Branch, for the members of the public particularly for the students.

Inoculation and Vaccination drives were intensified on Wednesday at Dhakuria Area by Socialist Students' Organization Unit, Mechua-bazar Street Area by Medical College Students' Union Unit, Sovabazar Area by R. G. Kar Medical Students' Union unit, Park Circus Area by Nil-ratan Sircar Medical College Unit, Beliaghata Area by Beliaghata Chhatra Sansud Unit..

Film show was held on Health at Y.M.C.A.—Keshab Sen Street Branch. Public Meeting on Health was also held at Tara Sundari Park under the auspices of the Central Mohalla Committee.

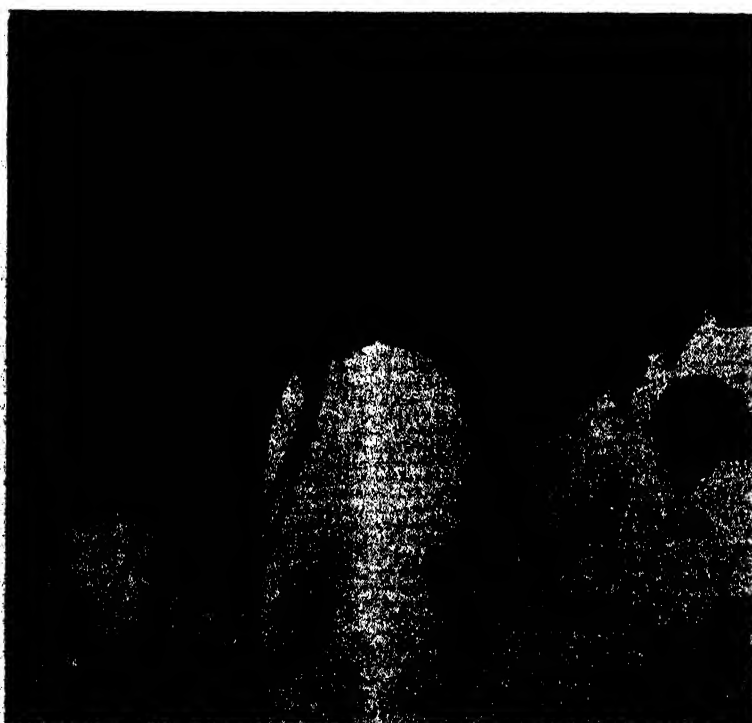

In observance of Anti-Epidemic Week vaccination and inoculation drive was undertaken in the following areas on Thursday, the 9th May.

Inoculation drive in Ward Nos. 6, 15, 16, 17, 18, 19, 24, 25, 33, 49, 56, 75 by Corporation Inoculation Unit and I.M.A. Health Squad, in Kumartuli, Ahiritola and Sovabazar areas by R. G. Kar Medical College Unit; in Burrabazar and Mechua-bazar areas by Medical College Unit and Calcutta Bustee Federation; in Park Circus area by Nilratan Sarkar Medical College Unit, in Jadavpur area by Socialists Students' Organization and in Kalabagan Bustee area by Y.M.C.A. and Medical College Unit.

Public meeting on health topic was arranged at Marcus Square.

Similar programmes were repeated on the last two days of the week. It was being participated in by a larger number of citizens.

The Public Relations' Department of the Corporation in this connection rendered immense help to implement the week's campaign through cinema shows, display of charts and posters, and other demonstrations.

Dr. N. R. Sen Gupta delivers his Presidential speech at maidan rally

# CALCUTTA & TAGORE CENTENARY (1861—1961)

(By DR. KALIDAS NAG)

With the world famous Dum Dum airport and its supplementary air-field, millions of people from different parts of the world will visit Bengal and its cosmopolitan city Calcutta. It is also the birth place of (among other celebrities) the world-poet RABINDRANATH and RISHI AUROBINDO whose works have been translated in many languages of the world bringing light, solace, joy and peace to humanity. The Corporation of Calcutta, we hope, will remember these facts ushering in its new administration running 'pari passu' with the Second Five Year Plan of India.

Some of our fellow citizens with an international out-look have decided this year to invite the foreign Consular and commercial delegations to the Ninety-seventh Anniversary Celebrations of Dr. Tagore. But that brings to my mind the cruel fact that—as 'citizens of this no mean city'—we have so far shown little initiative, cultural or financial, to build the Metropolitan Tagore Auditorium. Like the Shakespeare Theatre of Stratford on Avon, this Auditorium in Calcutta on the Ganges—would be the fittest Centennial Memorial to the World Poet. His priceless short story KABULIWALLA has won the first place in its film version, in the All India test of merit and this film dubbed in various languages—will not only bring Calcutta nearer to Kabul but would warm the heart of millions in the East and the West, many thousand leagues beyond Afganistan.

So, we read that the heroine KAMALA of Tagore's novel NAUKA DUBI has in its dramatized version, roused to enthusiasm huge crowds in Soviet Russia where the publishers are selling by millions the first authentic translations of Tagore directly from Bengali into Russian. While interpreting the Poet's dance-drama NATIE PUJA to the learned Chinese Premier Chou En-Lai at the Government House I found him deeply moved and interested in developing the talents of boys and girls of Bengal, as Dr. Tagore did, for over half a century.

Many of the Tagore compositions—musical and dramatic—are inspired by Folk traditions and the Indian cycle of Seasons, the Rains, the Autumn and the Spring—urging the Poet to compose Nature Symphonies. But such symphonies, when prevented by the chance assortment of male or female vocalists, often fail to convey to our foreign and non-Bengali friends, the real significance of Tagore's synthetic composition. Most of them miss the profound meaning of the original Bengali words and the tunes however charming and diversified often fail through only the vocal rendering which loudly claims support from our creative 'instrumentalists'. They should be encouraged to form a truly "National Orchestra" with an international background. Then and then only can we hope to expand our present musical "coterie" into the vast Folk Festivals and International Tagore Expositions. His compositions should be re-written correctly in the

international staff-rotation so that musicians of all idioms can follow the music of the ragas and the rhythms of Indian origin through their vocal as well as instrumental renderings. The grand music festivals of Western Composers like Mozart and Beethoven are thereby utilized by all Western nations for their enjoyment and education through high-class music festivals.

Many renowned musicians of the West will make Calcutta their seat of demonstration and study (comparing the West-East technique) if only we could assure them facilities and personal contact with Indian experts. The Tagore Auditorium could be developed into such an International Centre and at the same time it may reach economic self-sufficiency by regular and authentic presentation of Tagore Drama, Dance and Music supported by our National Orchestra and by our experts in light effects and setting rising talents would find here ample scope for their creative energies and promising artists will voluntarily come to the studios attached to the Tagore Auditorium. The Corporation occupies the centre of the Entertainment Section of Calcutta and so the Mayor may invite experts to advise the Corporation in the matter and with their advice may donate a suitable piece of land and issue an appeal to the public and the local Chambers of Commerce for funds. The upper storeys of the Auditorium may be let out to firms and respectable parties bringing good rentals. The lounges and the balconies will be the meeting place of interested ladies and gentlemen of the East and West who now visit in small number. The Calcutta theatres giving now and then some dance selections from Tagore plays and music. Their popularization and expansion depend on regular presentation of (i) Tagore plays and music (ii) outstanding plays of the Tagore Era (1861-1961). We may follow the tradition created by the great Pandit Iswar Chandra Vidyasagar (1820-1891) who invited to his Metropolitan College, the renowned Shakespeare scholar-dramatist Captain J. L. Richardson who was the teacher of our pioneer poets, actors and dramatists.

Vivian De Rozio and Michael Madhusudan (1824-1878) started writing in English till the middle of the century when Bengali grew up to be the medium of translation from European literature and finally on the most forceful and progressive medium of creative writing of poems and essays, novels, stories and dramas. The movement was led by Bankim Chandra Chatterjee (1838-1894), Dinabandhu Mitra and their literary heir Rabindranath Tagore (1861-1941) who was the culmination and the connecting link between the nineteenth and the twentieth centuries.

So in the projected Tagore Auditorium we may see the effective functioning of a centre of National Culture harmonising Education, Art and Entertainment. India will gain thereby the co-operation of friends from many lands; and

(Continued on previous page 56)

# MUTINY DAYS IN CALCUTTA

[By B.V. Roy, M.A.]

THE Sepoy uprisings of the year 1857, known in Indian history as the "Sepoy Mutiny", sent a wave of terror, with killings, arson and loot, all over India, its greatest impact being felt in northern India. The city of Calcutta was never directly involved in the troubles, but many indirect effects were felt here. It was at Barrackpore, 14 miles to the north of Calcutta that the first open manifestation of the mutinous spirit among the Sepoys occurred, on the 29th March, 1857. Sepoy Mangal Pandey, attached to the 34th Bengal Native Infantry, refused to obey orders at parade and attacked the Adjutant. He was arrested, tried by Court Martial on the 6th April and executed on the 8th April.

In the foreward to a recently published historical novel dealing with the Mutiny period, the writer, John Masters, says:—

"At last an incident set off the explosion. A rumour spread that the cartridges of a new pattern rifle were being greased with a mixture of pig's fat and cow's fat; the cartridges were supposed to be bitten open to get at the powder. The pig is unclean to Mohamedans, and the cow is sacred to Hindus; all the sepoys belonged to one religion or the other. So the house cracked. The world cracked, and the British were running together with the people, burning, shooting, stabbing, strangling."

The 10th of May was the day fixed for a general uprising all over the country, and for months previously, messengers ran from village to village, place to place, carrying two "chapatis" (coarse bread), one large and one small. On delivery to the headman of a village, the larger was torn into five pieces and the smaller into ten, signifying the 10th day of the 5th month (May) as the date fixed for a general uprising, and the slogans whispered were "remember Mangal Pandey" and "kill or be killed."

Any account of a historical event by a "man on the spot" is always interesting, and I will give here an account of the state of affairs in Calcutta during the year 1857, as recorded by an Englishman in his letters written home. At the same time I will quote the warning given by a writer on the Mutiny, viz:—

"If your interest in the Mutiny is aroused, you will find that any history of it is exciting, but look to see whether an Englishman or an Indian wrote it, and make allowances accordingly."

In the year 1856, Dr. E. B. Cowell, M.A., D.C.L., L.L.D., was appointed Professor of History in the newly established Presidency College in Calcutta. He arrived with his wife and they stayed in India eight years from 1856 to 1864 (After his return to England, Dr. Cowell was appointed Professor of Sanskrit in Cambridge University and held the post from 1867 to 1903). In Calcutta they put up at Spence's Hotel, and at the time of the Mutiny troubles were in that Hotel. With this

introduction, I will now quote extracts from Dr. Cowell's letters relating to the Mutiny, allowing him to speak for himself. He makes first mention of the troubles in his letter dated 3rd June, 1857:—

"You will have been anxious too, about a very different matter, which will make this May one of the most memorable months of British Indian history. It will come like a thunder-clap in England, I fancy.....I little thought that I should arrive in such stirring and alarming times.....on Sunday, May 16th, our Khidmutgar said at breakfast that there was a rumour that the sepoys had mutinied at Delhi and massacred a great many Sahibs. This was all I learned that day, but for the last three months there has been a mutinous spirit spreading through all the Native Army of Bengal.....Nobody seems to think much of it. The Sepoys were despised and we rested in our fancied self-security..... The fact is, we have misunderstood the Hindus as a nation. Because the educated nations of our large cities have begun to disbelieve Hinduism, and to throw off the restrictions of their shastras, we have fancied that the great bulk of Hindus—the uneducated multitude—have the same doubts and disbeliefs.....The mass of the uneducated people believe their system as much as ever; it is only when education has spread that Hinduism is shaken, and education does not touch the immense mass.....the natives feel that Hinduism has begun to be shaken, that the system itself is beginning to totter; an idea has sprung up that Government intends to make them all christians by force. A new kind of cartridge has lately been introduced into the army, and this has furnished a pretext, by which the already existing feeling is fired into a blaze. Some unknown designing men spread the idea that these cartridges had been greased with beef-fat to break the Hindu's caste, and with hog's lard for the Mohamedans, and this has become a fixed idea in the native mind, which no argument or threats can eradicate. Regiment after Regiment have refused to take these cartridges.....

At Meerut, the Native Regiments there refused in this way, and the Commanding Officer, being backed by a regiment of English stationed there, held a Court Martial and sentenced a hundred of the ringleaders to very severe imprisonments. Instead of guarding against any attempt at rescue, the Europeans went away to their quarters some two miles off. That evening the native soldiers rescued their imprisoned comrades, sort their European officers, murdered all the Europeans they could find and burnt their houses, and got away just before the European Regiment came up.....

We have been in some danger in Calcutta, but I think not since we knew of it. Our danger really was in that week which preceded

the arrival of that news as we were utterly unprepared.....volunteer bands were formed, everybody armed, even I bought a pair of pistols which lay always ready on my bedroom table."

In his next letter dated 14th June, Dr. Cowell writes regarding "Panic Sunday" in Calcutta, as follows:—

"On Sunday morning, June 14th, about a quarter past six, a friend came in very hurriedly to say that there was going to be a rising and that the troops had mutinied in Barrackpore and were marching on Calcutta. He advised us to take refuge in a ship on the river, and gave us the name of a vessel. He himself had left his house with his family and was going to take refuge in a friend's house near the fort. You will easily judge that my dislike of hurry and precipitation came to my aid, and I determined to hear something more before I took such a step. On enquiries in the Hostel, I found it was not so bad as this, though quite sufficient to cause alarm. In the middle of the previous night (Saturday) Government had received notice that at 4 a.m. the troops at Barrackpore had planned a revolt, intending to march on Calcutta, if successful, there to be joined by all the fanatics and rabble of the city. Government did not let the grass grow under their feet, but at once sent off all the troops they could spare, and sent for a regiment from Chinsurah to march on to Barrackpore to help if any row arose. Every ghari was seized by Government to convey these troops, and consequently we hold no ghari that day and were forced to keep at home, as it is too hot now for 'palkies'. Every body is armed, and we form a body of 50 men at Spence's, so this is a little fortress in itself. The day wore away amid contradictory and flying rumours; until about 5 p.m. as I was looking out from our window, I saw to my amazement a Hackney or bullock cart enter filled with muskets and boxes of ammunition. These I found had been supplied by Government to make the Hotel secure, as it was to be one of the appointed places refuge in case of emergency. These arms were given

to those who had none...I got a musket for myself with a bayonet and 30 cartridges, and these, with my pistols, made me well armed. At the same time, by a bold stroke, all the native troops in Calcutta were disarmed..... All night the city was in great commotion, bands of patrols guarded the city, and you continually heard the challenge of sentinels and the changes of the guard—but no riot took place."

In later letters, Dr. Cowell gives brief account of the situation up-country, of the siege of Lucknow and other affairs, remarking that "here in Calcutta we know nothing of it, through a Merciful Providence, but a very few miles out of Calcutta life and property are insecure." I will conclude by describing a stirring incident which occurred at Howrah Station during the Mutiny days. Colonel Neill had arrived in Calcutta with the Madras Fusiliers from Madras, bound for Benares. At that time the East Indian Railway terminated at Ranigunge, and of course the troops would have to march the rest of the way to Benares. There was considerable delay in getting the troops across the river, as there was no Howrah bridge then. The Station Master refused to detain the train after its usual starting time, on which Col. Neill ordered the seizure of the Station Master and others, and kept them under military guard until all his troops had arrived. This incident serves, if nothing else, to show how little the seriousness of the situation up-country was realised in Calcutta by the Railway and other authorities. All in all therefore it may be said that the Mutiny troubles hardly affected Calcutta in any way.

A TWO-STOREYED NURSES' QUARTER built at a cost of Rs. 2.55 lakhs, was opened by the State Chief Minister, Dr. B. C. Roy at Chittaranjan Hospital on Gorachand Road, on Wednesday, the 1st May, Shri Satinath Roy presided.

The West Bengal Government has contributed Rs. 2 lakhs and the public Rs. 55,000 to meet the cost of the building which will accommodate 75 nurses.

Tracing the hospital's development Dr. Roy said that under guidance of leaders like late C. R. Das the hospital was founded by uniting two institutions. They had rightly assessed that a nation could not progress if a considerable section of the people suffered from ill-health.

Dr. Roy also said that patient's recovery depended largely on how he was attended by nurses. The nurses themselves must be given adequate amenities and a decent place to live in.

## CITY NEWS PARADE

**OBITUARY:** The death of Shri Kumud Bhusan Ray, formerly of the Indian Railway Service of Engineer occurred at Sambhunath Pundit Hospital on the 30th April last. He was 66.

The late Shri Ray's service career included several special assignments for some of which he was the first Bengali engineer to be selected. He became the first Bengali Deputy Chief Engineer of the Bengal and Assam Railways in 1938. He wrote on river problems and contributed popular articles to journals in Calcutta and outside. An illuminating article on the river tide effects on the city was published in the "Calcutta Municipal Gazette", some time ago.

In 1947, the late Shri Ray was appointed by the Assam Government to advise on the river problems in the State. He was also appointed by the Bihar Government as member of the Development Council for rivers and acted as a consultant in connection with the construction of a bridge over the Ganga at Mokameh.

**A NEW BUILDING OF NATIONAL INSTRUMENTS FACTORY,** Government of India, was opened by the State Chief Minister, Dr. B. C. Roy, on Thursday, the 2nd May last. Messages from Dr. Rajendra Prasad, President of India, Dr. Radhakrishnan, Vice-President and others received in connection with the opening of the new premises of the factory were read.

Dr. Roy hoped that it would grow as the centre of India's instruments manufacturing industry. India did not lack in natural resources he said. What was more, there was the right type of human material. If both these could be brought together, they need not be afraid of the task ahead of India. He thought that the object of the factory should be to produce goods one would have considered ordinarily beyond the capacity of Indian workers. He was glad that the institution had maintained its tradition in the manufacture and repair of different types of instruments.

Shri K. C. Reddy, Union Minister of Works, Housing and Supply, who presided, also stressed the need for research. He cited the example of the U.S.S.R. and said that there each big or medium-sized industry had its own research unit consisting of over 200 workers. The Instruments Factory should likewise have a research unit as early as possible; otherwise it would be difficult to face competition in scientific technology.

**DR. B. C. ROY POLIO CLINIC** at Beliaghata, has been taken over by the West Bengal Government from the Trustees under the Charitable Endowment Act. The Government has taken charge of the institute at the request of the Board of Trustees who are stated to have been finding difficulty in working it.

There were 20 patients in the clinic which also runs an outpatients department for crippled children. The recurring expenditure of the institution comes to about Rs. 5,000 per month, the total value of the assets being about Rs. 1.75 lakhs.

Under Government management the activities of the clinic would be expanded, the institution developing as a children's orthopaedic hospital. The Government also proposes to integrate into the institution a training centre for physio-therapy and occupational therapy.

**A CONFERENCE OF THE EASTERN ZONAL COUNCIL** was inaugurated on Tuesday, the 30th April last, by the Union Home Minister, Pandit Govindaballav Pant. Council's work would have to be measured in terms of the contribution it made to the achievement of the country's emotional integration. This integration was for the building up of an atmosphere of fellowship which would operate as a corrective to over emphasis in regional and linguistic loyalties, and to the growth of national solidarity and loyalties, and to the growth of national solidarity and Bihar, Assam, Orissa and Tripura.

It was attended by representatives from West Bengal, Bihar, Assam, Orissa and Tripura.

**GUTENBERG BIBLE** IN 1455'S 500th birth anniversary was celebrated at a function at the School of Printing Technology, Jadavpur, on Saturday, the 4th May last. The Mayor, Dr. Triguna Sen, presided.

Lay-outs of Gutenberg's 42-line Bible in different ways by 42 well-known typographers were displayed at an exhibition, which was opened by Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University. The function was held under the joint auspices of the School and the German-Indian Association, Calcutta.

Prof. Sidhanta said that the emergence of Gutenberg was historically inevitable in view of the intellectual ferment. Europe was experiencing in the middle of the 15th Century. As was usual, the invention, which replaced calligraphy was looked on with suspicion. But time had proved what it meant to universalization of knowledge.

Shri S. N. Guha Roy, Secretary of the School, said that the greatness of Gutenberg's invention centred round three things: the invention of movable types on metal; the invention of printing ink suitable for use of metal types; and the adaptation of the Roman Wine Press used in his homeland for striking off impressions from metal types on paper.

Dr. H. U. Meyer, Dr. H. Pohris, the Consul and Vice-Consul of the Federal Republic of Germany in Calcutta, and Shri N. C. Chakravarty, Principal, School of Printing Technology, also spoke.

**'DIRECT ACTION' CAMPAIGN** has been undertaken by the refugee population in the city continuing for days together. The demonstration has been organized by the Refugees' Council of Action, demanding food and shelter for about 20,000 displaced persons who deserted camps in Bihar and other places and living on Howrah Maidan. The Council included representatives of several Leftist parties.

Most of the people who took part in demonstration on first day, the 4th May came from the Sealdah station. 154 refugee deserters from Bettiah, including 40 women and over 60 children, were arrested on that day on Bowbazar Street, when they tried to push through a police cordon in an attempt to go to Writers' Building. An order under Section 144 Cr.P.C. is now in force in the Dalhousie Square area. Among those arrested was Shri Ambika Chakravarty, a former Communist M.L.A.

About 249 refugee deserters from Bettiah and other camps, including 90 women and 70 children, were arrested on Esplanade East, on Monday, the 6th May. The refugees arrived from Wellington Square, where a meeting was held earlier. They went in procession through Dharamtalla Street to Esplanade East.

Four hundred and seventy-seven refugee deserters from Bettiah and other camps were arrested on Esplanade East, on next day. This was the largest group to have courted arrest since "direct action" was started. After a meeting at Wellington Square, the refugees went in procession along Dharamtalla Street towards Dalhousie Square.

## Notice to Petty Improvement Contractors

### District No. II Engineering Department

Tender for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for.....", on Tuesday, the 17th May, 1957, up to 2 p.m.

The Petty Improvement Contractors are requested to call at this office to note the items and descriptions of works for which tenders are to be submitted, from a copy kept in the District Engineer's room for inspection.

1. Construction of Lamp holes opposite premises No. 9/1 and 9/2, 9, and 7, Narasing Lane, Const. No. 30--Rs. 752/-, dated 4th May, 1957 (10 days).

2. Construction of a Lamp hole for effecting house drainage connection of premises No. 112, Baitakkhanna Road--Rs. 287/-, dated 10th May, 1957 (10 days).

S. MUKERJI,  
District Engineer, II.

DISTRICT II ENG'G. OFFICE:  
The 10th May, 1957.

## Quotations Invited

### SUPPLY OF 1 NO. DIESEL ENGINE TYPE TIPPING WAGON

Quotations are invited for the supply of the above Tipping Wagon at Entally Workshops.

Specification: Diesel Dumper, Capacity 1 ton or 2½ cft. Engine Vertical, 2 Cylinder--Overhead Valves--3 speed Gear Box--Hand Starting Tipping Gear Operation to be controlled by foot paddle--Electric equipments, Generator, Starter and Lights.

Quotations should be put in a sealed cover and superscribed "Supply of 1 No. Diesel Engine Type Tipping Wagon at Entally Workshops" on the top left corner of the envelope and submitted to the Deputy Commissioner II, Corporation of Calcutta, 5, Surendra Nath Banerjee Road, Calcutta, so as to reach him by 12 Noon on 31st May, 1957.

B. GHOSH,  
Secretary.

CENTRAL MUNICIPAL OFFICE:  
The 6th May, 1957.

### SUPPLY OF 1 NO. ONE-TON ELECTRICALLY OPERATED HOIST.

Quotations are invited for the supply of the above Hoist at Entally Workshops.

Specification: 220 Volts D.C.--Rotating Drum type wire rope--Lift 25 ft.--Capacity ½ ton--Lifting time 1 to 2 minutes--Operation to be done from ground floor.

Quotations should be put in a sealed cover and superscribed "Supply of 1 No. One-ton Electrically operated Hoist at Entally Workshops" on the top left corner of the envelope and submitted to the Deputy Commissioner II, Corporation of Calcutta, 5, Surendra Nath Banerjee Road, Calcutta, so as to reach him by 12 Noon on 31st May, 1957.

B. GHOSH,  
Secretary.

CENTRAL MUNICIPAL OFFICE:  
The 6th May, 1957.

## Workshop Apprenticeship Examination.

Applications are invited for permission to sit for the Competitive Examination to be held in Entally Workshops, 3, Convent Road, Calcutta, on 14th June, 1957 at 1 p.m. (one paper from 1 p.m. to 4 p.m.) for admission of ten Apprentices (Paid) in Entally Workshops, Corporation of Calcutta.

Candidates who have passed the I.Sc. Examination in First and Second Divisions or have obtained 50 per cent. marks in mathematics and Physics in case of Third Division will be eligible to sit for the Competitive Examination. The age of the candidates should not be less than 17 years or more than 21 years on 1st July, 1957.

The candidates should submit applications to the Chief Engineer, Corporation of Calcutta, in the prescribed Forms before 31st May, 1957. Printed application Forms may be had from the Keeper of Records, Corporation of Calcutta, 5, Surendra Nath Banerjee Road, Calcutta, at Rs. 2/- per copy.

They will be tested for physical fitness before admission to the Competitive Examination for which they should first appear before the Manager, Entally Workshops, 3, Convent Road, Calcutta from 1st to 4th June, 1957, with two copies of their photographs (passport size unmounted) for identification, University Certificates, mark sheets etc. in proof of their age, academic qualifications and Marks obtained in case of Third Division I.Sc.'s. After verification of the above particulars, the candidates will be sent to the different Health Officer for their health examination.

Details regarding stipend, Courses of studies etc. may be had from the office of the Chief Engineer, Corporation of Calcutta, 5, Surendra Nath Banerjee Road, Calcutta or from the office of the Manager, Entally Workshops.

P. K. CHATTERJEE,  
Manager.

**CALCUITA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supt., S. S. Hogg Market.

## VIEWS AND REVIEWS

### CONGRESS MUNICIPAL ASSOCIATION

The Congress Municipal Association at its recent meeting elected Shri Atulya Ghosh, M.P., and President, West Bengal Pradesh Congress Committee, as Chairman of the Association for the current year. He has also been elected the leader of the Congress Municipal Party in the Corporation.

Councillors Jogendra Lal Saha M. L. C., and Usha Nath Sen were elected Deputy Leaders while Councillors Birendra Chandra Basu, Rajendranath Majumdar and Mihirlal Ganguly were elected Secretaries. Councillor Nandadulal Srimany was elected Treasurer and Councillor Amulya Charan Sarker Chief Whip while Councillors Nandalal Banerjee, Karam Hossain and Dharendra Nath Bose as whips.

### MAYOR'S CONTINUED EFFORTS TO IMPLEMENT CITY'S WATER SUPPLY

Since the Mayor, Dr. Triguna Charan Sen, met at a Conference with the Councillors and Corporation officials to acquaint himself with the city's water supply position he took no time to go

deep into the problem. Almost in everyday he kept himself in touch with the Councillors and the officials and looked into the progress of work done. The problem of water supply to the Bustees engaged his major attention and was anxious to do away with the problem earlier. In this connection Dr. Sen made a representation to the State Chief Minister, Dr. B. C. Roy, who met him at a Conference in his room, Writers' Buildings on the 11th May last. The Mayor felt the need of an Ordinance in order to acquire small-plots in the Bustee areas for sinking small tube-wells. The defects as regards non-possession of public spaces in those areas so long stood in the way of providing tube-wells to the Bustee people. The Mayor was, however, successful in enlisting State help in this regard. At the instance of the State Chief Minister, a tentative plan is in course of preparation which promises to supply filtered water at the rate of 80 gallons per capita to about six lakh Bustee people. It was proposed to sink tube-wells of different sizes in those areas. Out of which, three-inch dia. ones were found most suitable and the officials were asked to proceed with the project. The estimated cost of sinking a 8 in. dia. tube-well has been fixed at Rupees

Ten Thousand each. The big-sized ones would cost larger sums according to the estimates. The Conference was also attended by the Chief Secretary, Shri S. N. Roy, State Government's Chief Engineer on Development, Shri S. N. Bandopadhyaya, the Corporation Commissioner, Shri B. K. Sen, Shri H. Roy, Special Officer and others. The Scheme is expected to cost Rs. 20 lakhs and it is reported that the Government has agreed to share half the cost.

In the meantime the problem has assumed a greater magnitude. Appeals and representations from the scarcity areas are coming forth for the implementation of supply. In discussing matters of urgent public importance in the weekly meeting of the Corporation on the 17th May several members pointed out the hardships of the people in scarcity areas in these hot days. They went further to say that the plant and machinery of the present water supply system in the city had shown signs of deterioration due to lack of supervision and other reasons.

Councillor Harinarayan Sadani mentioned about scarcity of filtered water in Burrabazar area particularly near the Howrah Bridge approach where tube-wells could not be sunk as, according to experts, that might affect the Howrah Bridge. Continuing his speech Councillor Sadani said that attempts made by an Ex-Mayor and even the present Minister of Local Self-Government, West Bengal, had failed in every respect while proceeding on with the matter.

Councillor Amulya Charan Sarkar said that some tube-wells in his locality had been in a state of dis-repair for years. Councillor Dr. A. P. Das Gupta complained of that nine tube-wells, sanctioned earlier, to be sunk in his Ward, had not yet been implemented in spite of the Mayor's direction to comply them.

Poor condition of street watering along with scarcity of unfiltered water were pointed out by Councillor Bejoy Kumar Banerjee. He said that water supply was the primary and legal obligation of the Corporation. He wanted that the Corporation should immediately restore defective hydrants. Frequent breakdown of water lorries caused dislocation of drinking water supply in many of the localities. Water supply is a 'terrible emergency' matter, Councillor Banerjee emphasized. Another Member felt that the number of water supply lorries should be increased without any further delay.

The Deputy Mayor, Shri Keshab Chandra Basu, who was in the Chair, requested the members of the Standing Water Supply Committee to look into the matter. He desired that the Committee would be sincere in mitigating the acute problem.

In the meantime the attention of the Government was drawn to certain statements appearing in the Press regarding the inadequate supply of water in the city for fire-fighting purposes. The Fire Brigade had in the past experienced difficulties in this work by mainly depending upon unfiltered water in the street hydrants. This was also referred to in the House by Councillor Banerjee on a previous occasion.

To augment the present water supply the State Government has already taken up

a scheme for sinking 49 large capacity tube-wells in different parts of the city at an estimated cost of Rs. 35 lakhs. Six such tube-wells at Jorabagan Square, Michael Dutta Road, Kidderpore, Cossipore-Chitpur Junction, Harakumar Tagore Square, Santosh Mittra Square, and Nalanda Square, have already been in operation for over two years. Three other tube-wells at Hrishikesh Park, Beltola and New Market Square, are almost completed. Tenders for sinking three more tube-wells at Raja Brajendra Narain Street, Baghbar-Chitpur Road crossing and Tollygunj Circular Road and Russa Road junction, have been accepted and the work will be started as soon as the necessary pumps are delivered.

#### CHOLERA EPIDEMIC IN THE CITY

Cholera has been declared epidemic in the city with effect from week-ending, the 11th May. The disease is declared epidemic by the Municipal health authorities when it takes a toll of more than 80 lives for two consecutive weeks. During the week ended the 11th May, attacks and deaths in the city from the disease were 76 and 38 against 96 and 45 the week before. During the corresponding weeks last year, there were respectively 221 and 221 attacks, and 58 and 76 deaths respectively, from the same.

The disease this year has not confined itself to any particular locality but has more or less evenly distributed. Since January 1, about 45 lakhs of people have been inoculated against the disease. Most of them were bustee-dwellers. The inoculation drive is being carried on by a fleet of 160 inoculating officers, who have been asked to visit every house including Bustees. Recently, another fleet of 80 officers have been added and the drive has been undertaken in an intensive manner. The Public Relations' Department is helping the drive in various ways. There have been street corner meetings and demonstrations explaining the effects of the disease if spread over. Public have been asked to take every possible measure for the prevention of the disease. Publicity men are inducing people to get themselves inoculated. Film shows in this regard are not wanting. In a word all possible preventive measures have already been taken. The State Government has fully co-operated in this matter and necessary regulations have been prescribed for the purpose.

In the weekly meeting of the Corporation on Friday, the 17th May, the matter came up for discussion. There were sharp criticisms against the measures taken by the Corporation. Several members referred to the epidemic situation in the city. They also pointed out that scarcity of filtered water was responsible for the rise in the number of deaths. They emphasized the need for regular supply of drinking water in the Bustees. Non-removal of garhages from the Bustee areas was counted for by Councillor Bejoy Kumar Banerjee. Dislocation of mechanical transport whereby temporary garbage accumulation caused was also referred to in the House. Silt-clearance and other preventive measures were stressed by many of the Councillors.

Councillor Nandalal Banerjee wanted to continue Bustee cleansing service in this connection.

He also felt the need of proper equipments in carrying out the cleansing work. Councillor Subrata Sen Sarma complained of irregular Ambulance services in the city in removing patients suffering from epidemic diseases to the hospital. He also thought that the reduction of the number of vaccination staff would be unwise.

The concern of the House was fully realized by the Deputy Mayor, Shri Keshub Chandra Basu, who was then presiding. He requested the members of the Standing Health Committee to review the situation once more and to find out ways and means in order to fight out the disease. At the request of several members, the Deputy Mayor also agreed to circulate the scheme submitted by Alderman, Dr. Amiya Kumar Bose suggesting measures to control epidemic. The scheme is a short-term measure prepared by that eminent physician. It has already been submitted to the Mayor and the Chairman of the Standing Health Committee. The Committee is expected to discuss the issue at its next meeting.

The Mayor, Dr. Triguna Charan Sen, who is also equally anxious with the City Fathers to eradicate the disease out of the city, desired that every possible measures should be taken in this regard.

#### NEW BUDGET PROPOSALS

Great concern was expressed by the City Fathers as to the sharp increase of the prices of essential commodities reacting on the day to day life of the citizens at the weekly meeting of the Corporation on Friday, the 17th May. They were unanimous to criticise the proposed taxation measures recently announced by the Union Finance Minister on Wednesday in Delhi. The measures have even adversely effected the Corporation's annual Budget, as was acquainted to the House by Councillor K. L. Dhandhanian, Chairman of the Standing Finance Committee.

Remarking that the effect of the taxation would make the poor poorer and the rich richer. Councillor Samar Rudra who initiated the debate, said that the tax proposals would hit hard the majority of the citizens. In his maiden speech Councillor Rudra said that the proposals had covered almost everything falling under essential commodities. According to him proposed expenditure tax, excise duty on cement and iron would affect the country's future economy. He was also in favour of imposition of direct taxes like Capital Gains Tax or Estate Duty in order to implement the plan rather than indirect taxation on so many essentials.

Councillor Dulal Chandra Mukherjee, who had made a reference as to the rise in prices of essential foodstuffs in a previous meeting re-iterated his protest against the rise of prices due to the proposed taxation policy. He said that the fresh taxation on essential commodities had caused a great hardship to the middle and poor class people which comprises the largest majority.

Observing that the minimum essentials have not been spared from the scope of taxation, Councillor Chandra Sekhar Bhowmick remarked that the present policy of the Government has turned the object of Welfare State so long meant for a larger number into a negligible number of

citizens while the poorer section fully ignored. He suggested economy and thrift in Government expenditure in order to give relief to the poor.

Councillor Dr. Sukhabehari Mukherjee said that the Indian Finance Minister had brought about a disaster in the economic life of the common people. The policy of the Central Government to build a citadel of the Second Five-Year Plan on the skeletons of poor middle-class families cannot be justified, he emphasized.

Councillor Bejoy Kumar Banerjee suggested that the house should adopt a resolution protesting against the new taxation measures.

Through a motion Councillor Narendra Nath Sen wanted that the House would devote the whole day in sending a strong protest against the Union Government. He was loud enough to warn the Government in this regard. Mentioning that the voice of protest against the rise of prices is a moral right of the House, he desired that there should not be any difference of opinion in this matter.

Councillor Dhandhanian apprehended that the proposed taxes would seriously affect Corporation

#### A CORRIGENDUM

In our issue dated the 4th May, while describing the life-sketch of the newly elected Mayor of Calcutta the heading has been incorrectly printed as 'A CONTINUATION OF RARE QUALITIES' instead of 'A COMBINATION OF RARE QUALITIES'. Printers devil is responsible for such a mistake.

We apologise to our Worshipful Mayor for such inadvertence.

Our apologies also go to our readers.

finances. The increase in railway freight meant an additional expenditure of Rs. 6 lakhs. A few months ago there was a heavy rise in the price of steel, cement, coal, and other articles which resulted in an increase in the Corporation's expenditure of Rs. 7 to 8 lakhs. "Hardly have we had breathing space when the present taxation proposal puts us in a fresh awkward situation" added the Chairman of the Standing Finance Committee.

The estimates, he said, for laying the new Tallah-Pulta water mains, would also be seriously affected as steel and cement constituted the major items in the work. In a word the new proposals would mean an additional expenditure of about Rs. 15 to 20 lakhs on the project, emphasized Councillor Dhandhanian.

However, the groans in the House was involuntary. The endless levies and impositions, the collective mood of excitement and horror was succeeded by an indescribable sense of mental and physical immobility in the House.

The Deputy Mayor, Shri Keshub Chandra Basu said that the proposals had hit the common man and shattered his economy. Still he thought that the discussions on the issue would be premature rather it would be difficult to estimate the magnitude of the difficulties.

Really speaking the new taxes have staggered man-in-street. Coming in the midst of

high prices of foodgrains and many other essential commodities, the enhanced taxes and duties on several important necessities of life have an added impact on their already strained budgets. In view of the taxation proposals in the Budget the anti-social elements were active to reap a good harvest.

In cases of some of the commodities, speculation led to an increase in their prices one or two days before the date of announcement of the new proposals. The stocks of certain commodities had been cornered to create artificial scarcity and make the maximum profit in the unsettled conditions following the announcement of the proposals. Many small shopkeepers in the city regretted that they were not getting supplies of matches and that whatever stock they had on previously had been sold out.

With the announcement of taxation proposals there has been a large increase in indirect taxes. But this can hardly have come as much of a consolation to those who were expecting no more direct taxes—for the simple reason that the indirect taxes mostly affect major industries, and some whose profit margins are highly vulnerable.

The ambition of raising an extra sum of Rs. 78 crores would go through this taxation net. It is debatable whether the revenue thereby secured will compensate the strong dis-incentives to productive enterprise implicit in these proposals.

The taxation proposals had at the same time affected the business community in the city. All the chambers of commerce had raised their unequivocal protest against such rise of prices. In a letter to the Government of India the Committee of the Bengal National Chamber of Commerce and Industry drew attention to the far-reaching consequences which the new taxation proposals of the Finance Minister would have on the economy of the country. Many of these proposals would have great dis-incentive effect and make it extremely difficult for the private sector to successfully play the role assigned to it in the Plan.

The committee express their surprise that, while accepting the recommendations of Prof. Kaldor in this respect, the Government has not followed the other recommendation made by the later in respect of lower rates of income-tax.

The Committee of the Bharat Chamber of Commerce, expressed its apprehension that the overall burden might be too much for the community to bear and the net effect of all the proposals might be the substitution of the inflationary flexibility implicit in deficit financing by a rigidity in the cost-price structure at a higher level.

It is, however, expected that more hardships lie ahead, especially for the country's urban population. When the new import policy was announced for the second half of the year, it was found that almost every item of consumer goods obtained from overseas was severely affected in the interests of saving foreign exchange. Imported food products, cloth, toilet articles, liquor and in fact anything else that does not directly or indirectly serve the objectives of development still either disappeared totally or be drastically cut down.

#### CALCUTTA CITIZENS FOR RAJYA SABHA

The Ex-Mayor, Shri Santosh Kumar Basu, and former India's Deputy High Commissioner in Dacca; Dr. Nihar Ranjan Roy, Bageswari Professor of Fine Arts, Calcutta University; and Shri Sitaram Daga, a business man, all have been elected to the Rajya Sabha from West Bengal. They were voted by the members of the State Legislature. The election was held recently in the State Assembly House. The votes polled were: Shri Basu 149; Dr. Roy 145; and Shri Daga 145.

Voting for each of the three seats was held separately. Two other candidates for the seats were Shri Promode Das Gupta, Communist, who contested all the three seats; and Shri S. C. Roy, proposed by a P.S.P. Member.

#### CALCUTTA ADVOCATES BECOME JUDGES

In pursuance of the West Bengal Government's recently adopted policy, three lawyers in the city have been selected directly from the bar for appointment as Judges in the District Courts within the State.

They are Shri T. Pal and Shri D. De, Advocates of High Court; and Shri S. Sen of the Alipore District Court respectively.

The selections have been made on the recommendations of the High Court.

We also offer our felicitations to them.

#### DR. H. RAY CHAUDHURI IS DEAD

We deeply regret to announce the death of Dr. Hem Chandra Ray Chowdhury, the eminent historian and Indologist recently. He was the Carmichael Professor of Indian History and Culture for a long period. The death occurred at his Calcutta residence after a protracted illness.

His death was widely mourned in the city. Many important citizens including educationists went to his place to pay their last respects to his memory.

At the outset of the weekly Corporation meeting on Friday, the 10th May, eloquent tributes were paid to his memory. Referring the death in the House the Mayor, Dr. Triguna Sen, described him as an eminent historian and Indologist. At the same time he was a great scholar and a brilliant teacher, he added.

Born in Ponabalia in Barisal, now East Pakistan, in 1892, the late Dr. Ray Chowdhury had his early education in B. M. School from where he passed the Entrance Examination in 1907, standing first in the new province of East Bengal and Assam. He joined Scottish Church College and became the first Eshan Scholar in History in 1911, securing the highest marks in B.A. Honours. He stood first class first in M.A. and won the Griffith Prize. He became a Ph.D. in 1921.

The late Dr. Ray Chowdhury started his career as a Lecturer in Bangabasi College. Joining Presidency College in 1914 he entered the Post-Graduate Department of Calcutta University in 1917. He was appointed the Carmichael Professor of Ancient Indian History and Culture in 1936 and retired in 1952. He was a member of the Senate. He was also a Head of the Department in History, Colombo University.

(Continued on page 83)

## Personalia

During the last fortnight a number of notables paid their visits in this city. Many of them were members of the Union Cabinet. Gen. K. S. Thimayya, Chief of the Army Staff, arrived at Barrackpore on Wednesday the 8th May last, on a two-day visit to the city. He visited the Searchlight Tattoo on the closing day and addressed the gathering. He also visited the Cosipore and Ishapur Factories on the second day of his visit. He left for Delhi by air on the 10th May last.

Shri K. C. Reddy, Union Minister for Works, Housing and Supply, recently inspected a number of Central Government buildings now under construction in Calcutta. These included the A.I.R. buildings in Eden Garden, the Silver Refinery building, the new Income-Tax Office Buildings and the Central Food Laboratory.

Shri Reddy also visited the Government of India Press and Stores and Stationery Office.

Shri M. M. Shah, Union Minister for Industry, recently visited the Central Glass and Ceramic Research Institute, Jadavpur.

Shri Shah appreciated the policy of the Institute to concentrate on a few items instead of working over a wider field. He appealed to the Institute's authorities to discover substitutes for raw materials which were imported. Dr. Atina Ram, Director of the Institute was present during his visit.

Shri C. C. Desai, Indian High Commissioner in Pakistan, met the State Chief Minister, Dr. B. C. Roy at Writers Building, on Tuesday, the 7th May last and acquainted the West Bengal Government with the condition of minorities in East Pakistan.

Another visitor to this city, Dr. Harekrishna Mahatab, Chief Minister of Orissa. While speaking at a reception given in his honour by Paschim Banga Utkal Janasebak Samittee on the 8th May, he said that West Bengal and Orissa were inseparable socially, economically, and politically. The apparent differences between the people of the two States were insignificant and they lived like members of a single family. Progress of the one was dependent on that of the other. If this fact is remembered, there would be no difficulty in solving the problems they faced.

## —RABINDRANATH—THE MAESTRO OF BENGAL

(Continued from page 84)

of Bengal in their rustic 'Aul', 'Baul', 'Bhatiali' and a callous neglect of this wonderful rustic music is the direct outcome of life grown out of Western education. His composition of 'Folk Songs' revitalising the 'Baul', 'Bhatiali', Ramprasad, 'Kirtan' are the direct result of his throwing full weight of his powerful creative genius to stop this annihilation of the cultural integrity.

Tagore's song-lyrics or 'Kavya-Giti' form a distinct and glorious class of music for the charm of its diction, rhythm and concord compressed with a rich magic of poetic imagery finally blending into musical melodies.

Suiting and befitting the occasions, he has composed special songs pertaining to matrimony, birth, obituary, new year, year ending, housewarming, tree-planting known as 'Ceremonial songs' which have found life in his masterly compositions.

Music patterns originating beyond Bengal and even belonging to overseas lands have been cleverly adapted and set with fresh charm and glory to suit his own compositions classed as 'adaptations from foreign tunes'. Some of his most appealing creations have found expressions and have enriched the music of Bengal through his masterly manipulation of the inherent strength and beauty of foreign melodies.

He has not forgotten the little-ones, and composed special songs for the Children and 'Kal-Mrigaya' the musical playlet for the children bears testimony to it. For the youth too, he presents a bunch of golden melodies. Songs heralding youth with all its charm, beauty, agility, vigour—and all other characteristics of youth have found expression in most impressive tunes and

song-wordings in his compositions of 'Songs of the Youth'.

In appeal and texture typically Vaisnavite, he composes a score of songs under a pseudonym of "Bhanusingh" and once more proves his masterly genius in revealing the marvellous melody of 'braja-buli'. Grandeur and tuneful rhythms mark his compositions of musical and dance dramas—outstanding of them being 'Valmiki-Prativa', 'Mayar-Khela', 'Chitrangada', 'Chandalika', 'Shyama' etc.

The lighter aspect of human life is not left to its own fate and he gives his audience a chance for a hearty laugh through his wonderful composition of 'Comic Songs' hardly known in India with such chaste, refined and humorous wordings and tunes. Some of these Comic Songs were composed for 'Hoi-Hoi' Sangha—a club founded by him for obtaining relaxation through humorous sketches.

The set pieces to string instruments are renovated in a novel way as to fit in his brilliant composition of vocal music—proving thereby his alertness to glorify his compositions known popularly as 'Gat-bhanga-Gan'.

Therefore, from the analysis obtained from the facts above, it can safely be inferred that Tagore's unique gifts to national culture and sentiments are broadbased on music and through his masterly manipulations of the inherent strength and beauty of melodies. His compositions reveal a creation of new technique of disciplined freedom and impart glamorous and colourful value to Indian Music. The time is not, probably, far ahead when a grateful posterity will be able fully to appreciate the magnificence and magnanimity of his immortal culture bequest.

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE SECOND ORDINARY MEETING OF THE CORPORATION  
HELD ON FRIDAY, THE 10TH MAY, 1957.

## STANDING COMMITTEES

On the suggestion of Councillor Ushanath Sen, the House constituted nine Standing Committees for carrying on day-to-day administration under Sections 14 and 15 of the Calcutta Municipal Act, 1951.

The Committee will deal with Education, Accounts, Taxation and Finance, Health, Town Planning and Improvement, Works, Buildings, Public Utilities and Markets and Water Supply.

The names of the Members of the Committees with their respective Chairmen and Deputy Chairmen are being published elsewhere.

## ALDERMAN DR. A. K. BASU

The House nominated Alderman Dr. Amiya Kumar Basu, to represent the Corporation of Calcutta in the Governing Body of the School of Tropical Medicine, Calcutta, for the term commencing from May.

## W. B. NATIONAL VOLUNTEER FORCE

The House elected the following Members to represent the Corporation on each of the District Advisory Committees, West Bengal National Volunteer Force. The districts are divided according to the Police Districts in the city. In order to organize better recruitment methods for the Force, the State Government has constituted these District Advisory Committees.

- (1) Councillor Amulya Charan Sarkar—Headquarters.
- (2) Councillor Mihirlal Ganguly—North, and
- (3) Councillor Dr. P. K. Roy Chaudhury—South.

## DR. KARTICK BOSE LANE

The House, on the recommendation of the Borough Committee No. 7, re-named Corris Church Lane, as Dr. Kartick Bose Lane.

The name of late Dr. Kartick Ch. Bose will be remembered as one of the pioneers in the development of chemical and pharmaceutical industry and the industry of Indian indigenous drugs. He was the first Managing Director of Bengal Chemical and it was largely due to his energy and efficiency that it is what is to-day. Later on, he started "Bose Laboratory" for heavy chemicals at Amherst Street. He was also attached to many other indigenous industries. Being associated with many social and philanthropic organizations, he spent much of his huge property in charities. To re-name the Lane after Dr. Bose would be to pay respect to the memory of a great man.

Corris Church Lane has its origin from the name of Rev. Corry, a Christian Missionary who lived in that area for some time in the early nineteenth century.

## HOLWELL LANE RE-NAMED

The House re-named the famous Holwell Lane as Bhuparjatak Ramanath Biswas Lane. The late Shri Ramanath Biswas was the first Indian who travelled over the whole world on foot. He was the author of many volumes containing his travels. He wrote also on history, culture and social structure of those countries he visited. He preached Bengali culture and civilization wherever he went. He lived in the area near Holwell Lane. To rename the Lane after Bhuparjatak Ramanath Biswas will no doubt commemorate the great traveller and non-official ambassador of Bengali culture.

Holwell Lane was named after Mr. Holwell, the Collector of Calcutta under East India Company from 1952. Mr. Holwell's name was also associated with Holwell Monumen, which was removed by the Government of Bengal after a Satyagraha Movement was started by Netaji Subhas Chandra Bose in the year 1940 as a leader of Forward Bloc.

## ISWAR MITRA LANE

The House also re-named an unnamed Lane beginning from the end of Jagannath Suri Lane at the north end towards Durga Charan Mittra Street running east-ward as Iswar Mitra Lane.

The late Rai Iswar Chandra Mitra Bahadur, who lived in this city during the mid-nineteenth century, was a brilliant student of the then Hindoo College. Later on he became a Deputy Magistrate and Deputy Collector under the Government of Bengal. He was a Member of the Bengal Legislative Council for a term in the year 1877-78. He also served as a Presidency Magistrate in 1882-83. Connected with various social organizations he had his large charities. He made a gift of his accumulated wealth to the Calcutta Charitable Society.

## SADHAK RAMPRASAD UDYAN

The House re-named Blacquiere Square as Sadhak Ramprasad Udyan. Sadhak Ramprasad was born in 1720 A. D. His native village was Kumarhatta, Halisahar. From very early age of his life, he was inclined towards 'Kulachar-Jantra Sadhana' and was indifferent towards worldly affairs. This celestial devotion subsequently led to the power of composing Bengali songs in a particular tone and significance, of his own as 'Prosadi Matri Sangit' which are not only of religious nature but of higher literary and cultural value. The place of his Joy and Sadhana 'Panchabati' has been kept protected as a sacred place at Halisahar by his devotees.

The re-naming was effected at the instance of Councillor Sudhir Chandra Mukherjee.

(Continued on page 83)

## Rabindra Jayanti Celebrations Continued

RABINDRA BIRTHDAY celebrations are now-a-days restricted to a single-day functions or particular auspicious moments. Lately, the celebrations had spread up to a week and recently that limited span has also been stretched over a fortnight. In a twelve-day programme, the Rabindra-Bharati concluded its functions on the very date of the Poet's birth, the 8th May, while Rabindra Mela, Rabindra Sahitya Sammelan and others took the day as the inaugural day and continued their functions even extending more than a week. There were arrangements for presentations of songs, performances of dramas, dance recitals along with discourses and discussions on Rabindra literature.

There was also a special programme for non-Bengali residents and foreigners in the city, organized by the Rabindra Mela at Mahajati Sadan in one of the days' evening. The function was conducted in English and speeches were made on the life and work of the Poet.

One of the enjoyable functions that was held during the week was the celebration of the Foundation Anniversary of Dakshinee, an institution for propagating and teaching Rabindra Sangeet. The foundation day coincides with the Poet's Birthday. On that day it held a Reception in its own premises in South Calcutta. The anniversary celebration was held on Sunday, the 12th May at Asutosh Memorial Hall with presentation of Rabindra Sangeet lasting for more than one hour. The atmosphere created was calm and serene, the stage decoration was befitting while a packed gathering enjoyed the function with wrapt attention. The programme included both solo and chorus songs numbering fourteen altogether. 'Nisith Rater Pran', 'Eki Satya-Sakali Satya', 'Andhar Kurir Bandhan Tute' and others, sung in chorus, were really exquisite and superb. Solo renderings of Shri Sunil Kumar Roy, and Shrimati Paramita Nag enchanted the

audience. The dust presentations of Shri Arup Guha Thakurta and Shrimati Hena Sen and another by an exclusive party were counted well. Shrimati Rama Bhattacharyya was rather prosaic.

Earlier, Shri Subho Guha Thakurta, Secretary of the institution, regretted that Tagore-songs had not been given due recognition by the authorities. Even the Calcutta University's Degree Courses in Music is not free from any defects as regards Tagore-songs besides the continued disregard to it by the authorities, according to him. Shri Guha Thakurta also apprehended that the intervention of Hindi Classical Songs was standing in the way of proper growth and development of Tagore-songs which had already occupied a place in the world of music. Lastly, he appealed to the patrons of Rabindra Sangeet to be more cautious than before so that there might not be any displacement from its present position. He asked all to follow a mean way between the higher classical standard and the folk-songs in order that Tagore-songs might gain popularity in the country. The Secretary of the institution concluded his speech with an announcement that the bi-annual conference of Tagore-songs was going to be held this year. And it was through this conferences and conventions Tagore-songs would live in the minds of the people.

Tagore's birthday anniversary was also celebrated in the house of Nikhil Bharat Banga Bhasa Prosar Samity on Pudda Pukur Road, South Calcutta. The Judicial Minister, West Bengal, Shri Sidhartha Sankar Roy, presided over the function, in which foreigners, Anglo-Indians, non-Bengali Indians and Bengalis, students of the International Institute of Bengali, took part.

At Deshabandhu Pathagar, Lansdowne Road, the Birthday anniversary was celebrated by its members on the 17th May with Councillor Bejoy Kumar Banerjee presiding. The speakers included Prof. Apurba Kumar Bhattacharyya, Prof. Priyatosh Maitra, Prof. Sudhasattwa Bose, Councillor Subrata Kumar Sen Sarma and others. A long drawn programme of Tagore-songs both in chorus and solos, and recitations from Rabindranath regaled the audience.

### —THE CORPORATION AT WORK

(Continued from page 82)

#### EXTENSION OF MATILAL NEHRU ROAD

The House re-named Hazra Lane, a wide Road in southern part of the city as Matilal Nehru Road. The existing Motilal Nehru Road starts from the south-east corner of Deshapriya Park. The re-naming was effected on a demand made by the local people and was recommended by Borough Committee No. 14.

#### PUNDIT PURSHOTTAM ROY STREET

The House re-named Khengraputty Street as Purushottam Roy Street. The name was originated from a market of broom-sticks.

The late Shri Purushottam Roy was for some time the President of the Barabazar Congress Committee and he did many good things for the cause of the general public. His name has been associated with many charitable institutions and social organisations. His gentle behaviour with the general public will be remembered long amongst the inhabitants of that locality.

### VIEWS AND REVIEWS

(Continued from page 80)

The late Dr. Roy Chowdhury was elected a Fellow of the Asiatic Society of Bengal (1946) and was awarded the B. C. Law Gold Medal for outstanding contributions in Indology, 1951. He was President of the Nagpur session of the Indian History Congress (1950).

His books have won appreciation from scholars all over the world. His books are—Political History of Ancient India (1928); Early History of the Vaishnava Sect (1921) and Studies in Indian Antiquities, 1932. He was the joint author of the Advanced History of India, Dacca University, History of Bengal, Vol. 1, published by Dacca University and several others.

Our sincerest condolences go to the members of the bereaved family.

## RABINDRANATH—The Maestro Of Bengal

By SHRI SOMEN GUPTA

THE place that Rabindranath Tagore held as a composer of music is assuredly very high in the World of Indian Music. The essence and beauty of Tagore-Songs or Rabindra-Sangeet lie in the rich and delicious adaptations of pure classical Indian Music pattern, through astonishingly clever blending and admixture of pure Indian tunes and melodies with progressive mood and thought. It was the creative genius of Tagore that has brought him unique popularity. It is embarrassing to think over that Tagore-Songs had been neglected even decades ago. This immortal treasure of our country was once left severely alone and was limited to a few song-lovers who assiduously maintained the habit of keeping abreast of the mighty onrush of song offerings of Tagore. The corner stone was turned and songs became the craze since his death. Due to the exploitation by the commercial interests Tagore is sought to be monopolised by those who had always refrained from respectful culture of his exquisite music.

It is high time that we should put our feet down upon such mercenary exploitation of a national treasure and a noble inheritance. Tagore-music must cease to be a cheap stunt. In the technical phraseology of Classical Indian music, emphasis must be given on "Gayaki" or an authentically styled school which Tagore had sought to introduce. The time has come to render real service to the cause of Indian culture and music through systematic efforts for acquainting the world at large with the real nature of the noble music of Tagore. The real feast for the soul is Tagore's magnificent music with all its majestic versatility and colourful richness—a combination which is conspicuously absent in other Indian Compositions.

For the students of Tagore-Music, Rabindranath's composition number about a little over twenty-two hundreds or so. This needs some sort of broad classification for comprehensive presentation. Until very recently no effort seems to have been made in the past to acquaint music-lovers in Bengal with the different aspects and versatility of Tagore's music compositions. Shri Suvo Guha Thakurta, one of the exponents in his book entitled "Rabindra-Sangeeter-Dhara" or 'the various trends in Tagore-music' dealt with broad classification of Tagore-songs. He has very interestingly and skilfully classified more or less on the lines of "Brahma-Sangeet" published by the Sadharan Brahma Samaj. A brief analysis of colourful and different aspects of Tagore-Music should be a timely feature if published. It would propagate and popularise in its own peculiar and authentic style as evolved by Tagore himself in his school at Santiniketan.

Tagore's earlier compositions are influenced considerably by the established patterns of Classical Indian Music, although he avoided a too rigid adherence to stereotyped styles at the expense of mood, sentiment and appeal of his song-words. Not only he indicated his deep reverence

for and knowledge of Classical Indian tune patterns but also evolved a harmony and intermixture of different pure tune patterns of the classical type which were no doubt his own characteristic contribution for progressive evolution of Indian music. His frequent contacts with well-known exponents of Classical Music of his time had left deep impressions in his own compositions. While maintaining the outstanding characteristics of 'Dhrupad' and 'Dhamar', he added glory to beauty. His 'Dhrupad' compositions are replete with sweet modulations but completely devoid of the stereotyped 'Tan'. The relative timing variations of 'Dhrupad' have also been set to some of his Nature Poems composed musically in 'Dhrupad' style. The sober demeanour and majestically slow movement of Elephant also characterises his 'Dhrupad' compositions while swiftness and quick tempo like that of a snake distinguishes his 'Dhamar' compositions. His 'Kheyal' compositions are very few in number obviously for the fact that this particular style was not popular even during his own time. For its glorious ornamentation technique, his compositions on 'Tappa' style are excellent. In circles indulging in traditionally styled or classical Music, a mis-conceived idea is in vogue that 'tala' or timing-variation is absolutely absent in Tagore-songs. This is far from the fact. On the contrary his conception of timing-variation is unique. He is the inventor of six new rhythms hitherto unknown to the exponents of Classical Music and this amply testifies his rigid adherence for maintenance of rhythm so essential for a lively song. Many of his earlier compositions are classed as 'Brahma or Dharma Sangeet'—Spiritual or Devotional songs. The grandeur and catholicity of human love normally tend to transcend the limitations of the flesh and liberate human soul into nobler sphere of self-realization that make humanity coalesce into the sublimity of the Infinite—this is the unique characteristic of Tagore's compositions classified as "Love Lyrics".

His compositions based on invocation to six Indian seasons are the most popular and classed as 'Ritu-Sangeet' or songs on seasons. The most significant of these brilliant pieces of music is 'Barsha-Mangal' or songs composed on invocation for Rains. This surpasses all musical glamour for its rich melody. Songs composed on invocation for Spring or 'Basanta-Utsav' perhaps his next best composition under this particular class.

One of the leading priests of Freedom Movement as Tagore was, he released the cry of the soul of his countrymen kept in foreign bondage for centuries together in forceful and lively music known as 'National Songs' or 'Swadeshi Sangeet' which affords them the unique emotional experience which once inspired the martyrs to court the jaws of Death.

The sons of the soil, the Poet's land of birth were known to have kept alive the pristine culture

(Continued on previous page 81)

## HOUSE DRAINAGE—NEW CONNECTIONS

The following new sewer connections were effected during the week ending 25th August, 1956.

## DISTRICT IV

# CITY NEWS PARADE

**2500TH BUDDHA JAYANTI'S** Closing Celebrations began in the city on Monday, the 13th May. A three-day programme commenced with the reciting of Buddhist Sutras early in the morning at Shri Dharmarajika Vihara of the Mahabodhi Society in Bankim Chatterjee Street, Central Calcutta. This was followed by the exposition of sacred relics, Buddha Puja, and Sangha Dana.

A meeting was held in the afternoon when speakers explained the significance of Buddha's teachings. Shri Sailo Kumar Mukherji presided. Representatives of many Consulates in Calcutta were among the speakers who upheld the teachings of Lord Buddha before the audience.

Buddhist women paid their homage at a special meeting on Wednesday, at the same place. A colourful procession was taken out on the second day organized by the Mahabodhi Society. Tibetans, Chinese, Thais, Burmese, and Indians participated in the procession which started from the Ochterlony Monument and ended at the Mahabodhi Temple in Bankim Chatterjee Street.

**LUNAR ECLIPSE**, coincided with 'Churamani Yoga' inspired thousands of devout Hindus to take their baths in the Ganges on the early morning of Tuesday, the 14th May. The crowd swelled in ranks towards the morning.

Elaborate Police arrangements were made by different Ghats in co-operation with different volunteer organizations to look into the comforts and facilities of the bathers. Policemen and divers in boats were also kept ready at the river ghats to prevent any casualty during bathing. Shri K. P. Mukherjee, Minister-in-charge, Home Police and Shri H. S. Ghose Chaudhuri, Commissioner of Police, went round the different ghats to see the Police and volunteer arrangements. Except a lady who was rescued by some other women bathers no other incident was reported.

**'ASIAN ARTISTS IN CRYSTAL' EXHIBITION** was opened at the U. S. I. S. Library Auditorium on Sunday, the 12th May. It was a combination of the art of the East and the craftsmanship of the West. Asian artists had prepared the drawings, American designers created the shapes of the glass, and artisans skillfully interpreted the drawings on the crystal. Being the work of 36 leading Asian artists, the exhibits represented Buddhist, Hindu and Muslim thought and traditions. The contribut-

ing artists included five from India, including Shri Jamini Roy, Shri Masumdar, Gopal Ghosh, and Shri Phani Bhushan.

The idea of such an exhibition was considered three years ago, as explained in a brochure prepared by Steuben Glass, the makers of the crystal. The services of Mr. Karl Kup, Curator of Prints and of the Spencer Collection, New York Public Library, were commissioned for the collection of drawings.

**ACCIDENTS, ETC.:** Shri Swapan Kumar Chakraborty, a 75-year-old man, fell from the roof of a three-storeyed house in Nimoo Goswami Lane recently. He died in hospital.

Shri Haru Rajghar, a 35-year-old Port Commissioners' railway gangman was killed when part of a crane fell on him in the Coal Berth, Kidderpore Dock, on the same day.

Street-traffic accidents in the city, now-a-days, is on the increase. Hardly a day passed on during last week when three or four accident cases were not reported in the Press involving injury to several members of the public. Fifteen persons were injured in one of the days when three cars were involved in a single accident. In many of the cases State Buses were responsible while in others private buses and trucks were found involved.

**UNUSUAL HOT AND SULTRY WEATHER** is the main feature of Calcutta's present day climatic conditions. The city experienced another hottest day of the year on Wednesday, the 15th May, when the maximum temperature rose to 43.0 (109 deg. F) .8 deg. C above normal. The minimum temperature was 27 deg. C (81 deg. F) .2 deg. C above normal. The high temperature was caused by the hot and dry north-westerly wind blowing over Gangetic West Bengal, for the last few days.

Unrelieved by any Nor-wester squall of appreciable magnitude the city has been experiencing the unusual weather since the 30th April last. The statistics of maximum and minimum temperatures showed higher levels usually above normal.

The only Nor-wester that broke the continuous hot spell in the city during these days was on Sunday, the 12th May, which brought relief to the citizens in a limited degree. Even in Calcutta, the rainfall was not widespread. While there was a fairly heavy shower for about 20 minutes in the central and northern parts, there were some areas in the south where only a few drops fell. Alipore Observatory recorded no rainfall.

The squall, started towards the afternoon, brought down the temperature in the city from 38 deg. C. immediately before it lowered to 32 deg. C. The evening was cool.

## CALCUTTA EDITORS IN EUROPE

Shri Tushar Kanti Ghosh, Editor of the 'Amrita Bazar Patrika' and Shri Vivekananda Mukherji, Editor of the 'Jugantar' have left the city a few days ago for a two-month tour of Europe and the United States of America. They will also attend the Conference of the International Press Institute at Amsterdam in this connection. They have already visited London and Paris. While in London Shri Ghosh met many of the important personalities there including Indian High Commissioner, Shri Shrihari Vijaylakshmi Pundit.

## CALCUTTA PHYSICIAN HONOURED

Dr. S. P. Neogi has been elected to the Dental Council of India in a recent election under the Dentists Act. He secured the largest number of valid votes.

# PHENEOL LAMP BRAND

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
CALCUITA :: BOMBAY :: KANPUR

## A POWERFUL DISINFECTING FLUID

### —DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,  
Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

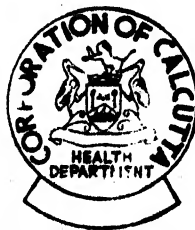

A. QASIM, Bar-at-Law,  
Supt., S. S. Hogg Market.

## VIEWS AND REVIEWS

### WATER SUPPLY POSITION

The weekly meeting of the Corporation on Friday, the 24th May, devoted a major portion of its time in discussing the filtered water supply position in the city. Several members representing all the blocks took part in the discussion. Sharp criticisms were made in the House as the Corporation's supply position had little improved. The discussion came to a close when the Deputy Mayor, Shri Keshab Chandra Basu, who was in the chair, put up, as a short-term measure, certain suggestions in easing the problem.

In order to meet the crisis arising out of the inadequate supply in various areas of the city the Deputy Mayor requested the Standing Water Supply Committee to go into the suggestions at its next meeting. He outlined the following steps:—

- (i) More lorries should be put into service for augmenting the supply in the parched zones;
- (ii) More water connections should be given in bustee areas wherever the pressure in the supply mains would justify it;
- (iii) Installation of a set of Rapid Gravity Filters at Palta;
- (iv) New water connections to big industrial concerns should be discontinued;

(v) New intake pipes and machinery should be installed at Palta to augment the total intake of water;

(vi) All existing tube-wells should be kept repaired; and

(vii) Additional number of tube-wells should be sunk.

The Deputy Mayor said that inadequate supply of drinking water was a concern of the Corporation and the Councillors alike. He had personally given thought over the matter and he felt that working together they should find out some satisfactory way in lessening the difficulties. After outlining his seven-point suggestion Shri Basu said that the Standing Committee would consider them and by their expert opinion would surely realise the situation.

Initiating the discussion Councillor Mihir Ganguly said that as new Councillors they had patiently waited for a month since the publication of the Mayor's intention in the Press to do his bit to remedy the water scarcity conditions. But no steps had practically been taken in this matter. As an instance he referred to the sinking of a tube-well in his area of which the work remained incomplete. He told the House that out of eight bustees in his area only two bustees had got filtered water supply.

Councillor Panna Lal Das complained of low pressure of water supply in northern part of the

**LILY**  
Brand

**IDEAL FOOD, DRINK & DIET**

**LILY BARLEY MILLS PRIVATE LIMITED :: CALCUTTA**

city. He appealed to the Deputy Mayor to see that the sinking of a big size tube-well, planned to be installed within the compound of the District I Gowkhana, be not delayed.

Councillor Subrata Kumar Sen Sharma emphasized the need for sinking tube-wells in Burra Bazar area immediately in view of the fact that supply of drinking water in that area was utterly inadequate and that a large number of cholera cases were daily reported from there. He urged immediate increase of supply through lorries in that part of the city.

To that Councillor S. K. Gupta, I.C.S. Chairman, Improvement Trust, said that before the Corporation took steps to put into service lorries for distributing filtered water they should consider wherefrom would they bring the additional water. So far as his information went the level of water-bearing strata under the city had gone further down. The C. I. T. engineers had lately experienced considerable difficulties in reaching the water level in Burra Bazar area because of this phenomenon.

Going further into the problem Councillor Naren Sen said that besides the prevailing water famine in the Ultadangi-Manicktola area the inhabitants of the locality were gripped with apprehension over the find of innumerable worms in samples of filtered water supplied there. It needed no help of a microscope to see them in a glass of water. He appealed to the Deputy Mayor for his personal visit of the area and to assure the citizens that the Corporation would adopt necessary measures in order to ensure the preservation of the health of the people.

Councillor Bejoy Kumar Banerjee alleged negligence on the part of the Water Supply Department Officers. He wanted them to mind their jobs properly so that the Councillors had less occasions to voice these complaints.

Nothing but an inquiry would satisfy us, said Councillor Ganapati Sur, in order to bring to light the reasons which had been standing in the way of proper implementation of various schemes for augmenting the supply of filtered water.

Similar complaints were put up by several other Members. Although new to the Corporation Councillor Dr. Kanailal Sarkar alleged that poor supply of drinking water to the citizens had become an eternal complaint to the authorities. At the same time he narrated how street watering in his areas had been abandoned due to a defective hydrant for the last five or six years.

Thus viewed from the trends of discussion and complaints the problem has assumed in a bigger magnitude and unless something is done to move the machinery little chances are there to ease the situation.

The Corporation's scheme for implementing the water supply has further been delayed on the refusal of the State Government to provide with an advance of Rs. 1.5 crores free of interest to the Corporation as ways and means for its project of laying a new 60 in. main carrying water from Pulta to Tallah. The House also discussed the Government letter in this regard and decided to send a

deputation soon to the State Chief Minister, Dr. B. C. Roy, so that grant might be accorded to.

The Corporation had earlier approached the State Government for a subsidy for this "vital work considered to be the life-line of the city". The Government regretted their inability to grant the subsidy the Corporation asked for a ways and means advance. The Government again regretted their inability to grant the advance asked for pointing out that advance was never given for Capital Work.

The Mayor, Dr. Triguna Sen, himself is also making strenuous efforts to improve the supply position. Mainly concerned with the supply of filtered water to the bustee areas through short-term measures, Dr. Sen has not yet given thought to the long-term measures. He is shortly going to meet the experts in this connection.

### BUSTEES AND SLUMS, TWO EYE-SORES

Calcutta citizens will be happy to learn that steps are now being thought of not only for the improvement but also for the complete eradication of bustees and slums from the faces of our City. The long-contemplated Corporation's Eight-Crore Scheme for slum clearance under the Five-Year Development Plan is now going to be translated into action. But it is in another way. The scheme was sent to the Union Government nearly two years back through the State Government, Local Self-Government Department, for substantial amount of subsidy. And now the Centre's active participation in this matter is sure to bring out good results.

The recent visit of the Union Finance Minister, Shri T. T. Krishnamachari, in the city and his discussion with the State Chief Minister, Dr. B. C. Roy, in this regard is stated to have produced some tangible results on the city's slum clearance proposal. The problem was discussed at a top-level conference at the Great Eastern Hotel on Sunday afternoon, the 19th May. The Mayor, Dr. Triguna Sen, the Deputy Mayor, Shri Keshab Chandra Basu and the Chairman of the Improvement Trust, Councillor S. K. Gupta, I.C.S., were present. Later on, accompanied by Dr. Roy, the Union Finance Minister visited Beliaghata where the C. I. T. has built large number of tenements under its industrial housing scheme. The State Chief Minister and the Mayor's efforts in enlisting the Union Government's help are praiseworthy. The Mayor himself has submitted a Memorandum in this connection. It has been stated that the Union Minister has agreed to reconsider the question of granting a higher percentage of subsidy. He would also see if the rate of interest to be charged for the Central loan could be reduced.

So far, a tentative scheme for the purpose has been considered at the conference. And in view of the urgency of the problem, it was agreed that the period to be covered by the scheme should be reduced from 20 to 15 years. A total of 1.25 lakhs tenements will be required to house the city's bustee dwellers. The revised aggregate capital expenditure has been estimated at Rs. 70 crores. Under existing policy, the Centre is to meet 50 per cent. of the total cost as loan, carrying over 4 per cent. interest, and 25 per cent. as subsidy.

It has been settled that there should be two types of tenements—one for poor daily wage earners and the other for lower middle class people, who represent a considerable section of bustee dwellers. The tenements for the first category should be one-roomed. The rent of these tenements, varying from Rs. 10/- to Rs. 15/- a month, will be subsidized.

The two-room tenements for lower middle class people will each carry a monthly rent of Rs. 30 to Rs. 40. There will be no rent subsidy in the case of these tenements. Both types will be provided with kitchen and other facilities.

Certain portion of open land is necessary for the purpose in the vicinity of the city. And for this it has further been suggested that the filling of the Circular Canal, east of the city, and development of the northern Salt Lake would give the necessary land for building tenements to accommodate people of the first few bustees to be demolished. Construction on bustee land thus vacated will then be undertaken. The tenements thus built from slums to be cleared next. By this process all 4,000 bustee holdings will be gradually replaced by tenements.

It has further been gathered that for carrying out a pilot scheme in the northern part of the city the State Government would acquire an open plot in the Baranagore area and would see how the scheme can be worked out by gradual shifting or migration process.

It is not known what actual amounts have been provided in the Union Government's budget for the purpose. But, earlier a Slum Clearance Scheme had been circulated among the States concerned with the idea that the projects to be drawn up by the State Governments or Local Bodies should follow the suggested pattern. All the States had expressed their willingness to follow the general pattern of the Government.

Earlier looking into the deteriorated health conditions of the bustee dwellers the Mayor, Dr. Sen, conferred with the State Chief Minister, Dr. B. C. Roy, and discussed the various problems facing the Corporation in bustee matters. To effect improvement in the bustees, the Mayor felt then that the Corporation should be given the necessary powers either by legislation or by promulgation of an Ordinance compelling the bustee owners to take steps for improvement.

For a permanent solution of the bustee problem the Mayor desired that the State Government should enact a legislation on the lines of the Estates Acquisition Act acquiring all the bustees. After acquisition of the bustee lands the State Government should construct multi-storeyed tenements for the dwellers.

Much horror has been said and more has been felt on the Calcutta Bustees. The Calcutta Citizens' Association, and different other social and philanthropic institutions and organizations have felt in the past and are still doing so in the present to make the city beautiful by wiping out the bustees in the city. Master Plans were there in this regard. But every plan needed State aid not only in matters of subsidy but also in legislation.

The 'Lyons of Calcutta' recently started organisation in the lines of 'Lyons of America' of U. S. A. having ideals similar to those of the great Rotary organizations. They have also felt the problem. In one of its previous sittings the Commissioner, Shri B. K. Sen, addressed the members on the subject 'Bustees of Calcutta.' In his speech, which is being published elsewhere of this issue, Shri Sen has given a vivid picture of the bustees. At the same time he has outlined the ways and means for their improvements. Being in the know of facts he has made a better case than many others who look upon it from another angle.

But it should be remembered that the Calcutta bustees have a history of several generations behind their growth. In them men and beasts huddle together like heaps of flesh. Human sentiments and emotions can find no play there. And in the interest of national prestige as well as human progress the bustees should go any way.

#### UNITED CITIZENS' COMMITTEE

The annual general meeting of the Councillors of the United Citizens' Committee was held on Monday, the 20th May under the presidentship of Shri Jetindra Nath Chakravarty, M.L.A. The meeting unanimously elected the following as office-bearers:—

President: Shri Hemanta Kumar Bose, M.L.A., Leader: Councillor Anil Maitra, Deputy Leader: Councillor Ranajit Coomar Mitter, Secretary: Councillor Sachin Sen, Chief Whip: Councillor Biman Mitra, Asst. Secretary: Councillor N'ratan Singha, Whips: Councillors Md. Zakir and Kumar Dutt, Treasurer: Councillor Samar Rudra.

#### SHRI BENOY BOSE IS DEAD

We deeply regret to announce the untimely death of Shri Benoy Kumar Bose, B.E., A.M.I.E. (India) and a District Engineer of the Corporation, on last Tuesday-Wednesday night, the 15th

SHRI BENOY BOSE

May last. The death came after a brief illness. On Tuesday morning he was quite hale and hearty, he attended his duties in the District Office till afternoon and left for the Engineers' Club in the evening. He looked fresh still then but after some time a sudden illness took him at his residence at Alipore Road. It was diagnosed as Coronary Thrombosis and he passed away at 2 o'clock. He was a bachelor and was aged 51 years only.

The late Shri Bose had an amiable disposition and he was loved and respected by all who came in contact with him. As an officer of the Corporation he was sympathetic towards his subordinates and was friendly to his colleagues. With the dawn when the news of his death had broken to all a large number of his friends and admirers rushed to his place to pay their last respects to his memory. A large number of Corporation employees attended his funeral. Wreaths were also placed on his bier both on behalf of individuals as well as on behalf of different employees' organizations. The Acting Commissioner, Shri A. K. Basak also went to his place.

The weekly meeting of the Corporation on the 17th May last, condoled his death and adjourned its sitting for ten minutes as a mark of respect to his memory. The death was referred to in the House by the Deputy Mayor, Shri Keshab Chandra Basu, who paid eloquent tributes to his memory. His past services to the Corporation was appreciated by the House. With his premature death the Corporation has lost an energetic officer with much ability and integrity, added the Deputy Mayor.

The members of the District III Engineer's staff mourned his death at a meeting organised on

Thursday, the 16th May last. References were made in the meeting about many of the qualities of head and heart of the late Shri Bose. The District Engineer's Office also remained closed on Wednesday.

Born in 1906 in the district of Jessore, now East Pakistan, the late Shri Bose had his early education at a village school. Having lost his father when he was at his teens, he came to Calcutta and was matriculated from Chetla Boys' School. In 1930 he was graduated in Civil Engineering from the Sibpur B. E. College.

The late Shri Bose joined Corporation in 1932, at first as a Building Inspector of the City Architect's Department. Later on he was promoted as District Building Surveyor and gradually became the Chief Building Surveyor in 1954. In 1956, he was promoted as District Engineer and was placed in charge of District IV. Recently, he had been transferred as District Engineer III.

Besides, the late Shri Bose was an Examiner of Final Engineering Examinations of both the Calcutta Technical School as well as of the Industrial Training Institute. He was also an active participant of the Engineers' Club, Calcutta.

#### —STATE YOUTH FESTIVAL

(Continued from next page)

nan, Vice-President of India, Dr. B. V. Keskar, Union Minister for Information, Shri Ashoke Kumar Sen, Union Law Minister, Chakravarty Shri Rajagopalachariar and several other State Ministers and important persons including one from youths of China.

Among the debates and discussions that took place on the following days, the subjects were—Actions and Reactions of Atom Bombs and thus to stop Nuclear Explosions, 'Really speaking there is no liberty but lesser degree of servitude', 'A World Youth Festival is more important than an ordinary session of the U. N. O. for the maintenance of Peace in the World', and others. These debates were participated in by Prof. Nirmal Chandra Bhattacharyya, M.L.C., Shri Gautam Chattopadhyaya, Shrimati Sandhya Bhattacharyya and others.

The physical feats which attracted a larger number of audience on all these days were displayed by important physical cultural institutions and even by youths from factories and mills.

Almost all the notable artistes in the city gave renderings of their songs in the musical soirees both through solo as well as through chorus voices. Musical instruments were also played in many of the days. The performances of dramas and playlets by famous parties regaled the audience almost in everyday. Mention may be made of 'Ek Paisar Vepu' and 'De Gorur Ga Dhuya', which were reported to be superb. Even there were whole night performances of classical songs, folk songs, and folk dramas.

The closing function is scheduled to be presided over by Councillor Mani Sanyal, the President of the City's Youth Convention.

#### —BUSTEES OF CALCUTTA

(Continued from page 108)

The Calcutta Corporation's services should be commended for supplementing the efforts to minimise the hardship of people who are so forced to live in bustees where there is scarcity practically of all the amenities and which cannot be overcome overnight. The primary effort is to keep these places clean as far as possible and to supply them with pure drinking water as much as possible and to see that all steps are being taken to combat epidemics. The Government of West Bengal recently sunk 250 tube-wells within and around the bustees in addition to several hundreds already sunk and many stand posts have already been provided. Particularly at this moment the city is in the grip of epidemics and there is scarcity of water, primarily due to great heat having gone up. To make things worse water level within the tube-wells both of small and big have also something to do with it which apparently has gone down. As regards the present epidemic the Calcutta Corporation and Indian Medical Association with other social organizations is launching a vigorous campaign to push further forward the present drive of inoculating and vaccinating as many as possible. All may certainly come forward and join hands with us. Certainly, organized sanitary drives which we are regularly making with extra Bustee Cleansing Gangs in addition to the normal strength to give little cinders to protect the roads from becoming muddy in the incoming rains and other helps viz. opening schools for children and giving them facilities for play will be very useful—that you too can take up. But at this juncture, I will say the most important is supplementation of water—a positive help is to give a few more tube-wells.\*

## STATE YOUTH FESTIVAL

### Nine-Day Celebrations Marked The Occasion

CALCUTTA'S air was filled with gaiety and mirth from Saturday, the 18th May last, with the inauguration of the celebrations of the West-Bengal youth Festival by the city's Deputy Mayor, Shri Keshab Chandra Basu at the Ranji Stadium, Eden Gardens. The Mayor, Dr. Triguna Sen, who had to perform the ceremony, could not be present due to indisposition.

The nine-day long festival was in preparatory to the World Festival of Youths and Students to be held shortly in Moscow, U.S.S.R. And the city will be represented there by several of its sons and daughters.

The programme included not only holding of cultural functions, screening of important documentary films but also discussions and discourses on international topics facing the world to-day along with display of physical feats. Youths and students of the city and its suburbs participated in each day's function. Besides, youths from different factories and textile mills took active part in those functions. These were arranged simultaneously both in open as well as in in-door Stadia, Eden Gardens.

On each day the response was immense and the garden wore a festive look with the presence of several thousands.

The first day's spectacular feature was most impressive. More than ten thousand men, women and school children were present. The Garden was tastefully decorated. A number of National Flags of different nations participating in the world festival were unfurled on the raised dais of the open stadium. At nights the illuminated gardens wore a descent look.

Early in that morning a torch was lighted at the site at Barrackpore where Mangal Pandey is popularly believed to have been hanged during the Sepoy Mutiny. The torch was then relayed to the city by runners of repute.

In the afternoon, city's young men and women carrying coloured flags came in procession, accompanied by bands, from Deshabandhu Park, Wellington Square and Deshapriya Park to the Maidan. Later, they joined the inaugural function at Ranji Stadium. It may

be recalled here that the city had witnessed youth festivals in different localities. They held their functions in city's parks and squares and many of the committees were patronized by local Councillors.

In a recorded message, the Mayor, Dr. Triguna Sen, urged young men and women to work for better understanding, goodwill and peace among all nations. He also said that the youth of the country reflects the nation's life and activities. No doubt the function would carry the message of India to the different corners of the world when they would participate in the All-World Festival.

A mass drill followed in which about 2,000 school children took part. The Deputy Mayor took the salute when the March Past went on. Later on, messages wishing success of the festival were read out. They were sent by Dr. S. Radhakrish-

(Continued on previous page)

## BUSTEES OF CALCUTTA

[BY SHRI B. K. SEN, COMMISSIONER, CALCUTTA CORPORATION]

In order to canalise our services to do some work for the benefit of "Bustee Dwellers" of Calcutta, I can suggest a few words. The Bustees are the other side of the city which are not hidden even to casual visitors, nor you have got to search for them in side-streets. For a tourist getting out of an international plane and jumping on a latest omnibus, and rushing for one of the solitary big hotels covering a long journey passing partly through semi-urban area with all sorts of higgledy-piggledy growth of structures and then suddenly a modern highway with most glamorous and lofty buildings, many with oriental architectures and lovely balconies, it is no doubt romantic and thrilling, particularly when the anxiety is to get a cup of tea and little rest. The impression they get surely that of a very wealthy and glorious city. This is more so to give them a joy ride and take them to sight-seeing—quite apart from the beautiful Zoological Gardens with all its natural environment and the wonderful National Library which is also very close to it, the new sky scrapers, beautiful roads and highways, the glamorous and glorious living with magnificent boulevards and avenues, sprawling Maidan right in the heart of the city, wonderful Victoria Memorial, the Gothic Cathedral, flowing river and riverside drive, modern lighting arrangements and transport and what not. Nobody can but take delight in choosing Calcutta, the greatest Metropolis in this part of the world in their tour itinerary.

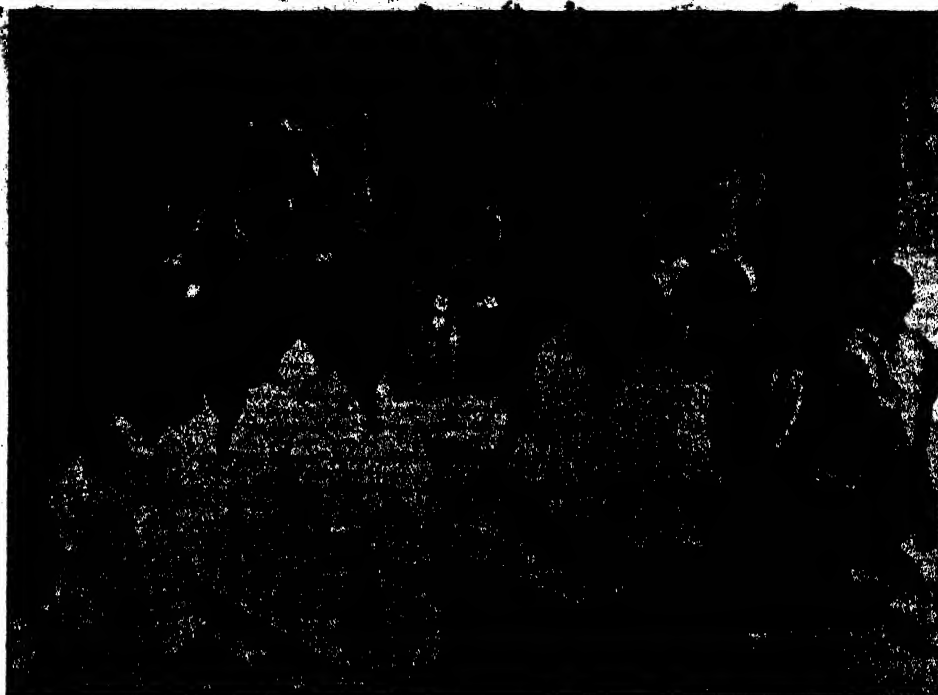

Getting back to my point, I must tell you now what are these Bustees and where they are. The Bustees of the city cover 1/8th of the area of old Calcutta (82 sq. miles excluding Tollygunge which in itself is 8 sq. miles) and where inhabits one fourth of the total population of the city. The term Bustee is a distortion of the word "Basati" which means collection of living accommodations, but unfortunately when we talk about bustees today it at once give us a picture not only of poor living condition but a very unhealthy one. People who are compelled due to various circumstances to live in these places not only have to fight against their pecuniary circumstances but over and above they have to fight for their health all the time. In fact, it will not be wrong to say that it is a constant struggle for the very existence against diseases, infection, epidemics and what not. The effect of the insanitary conditions within these pockets can not however be kept restricted within their bounds, which in fact spreads. Their making and nature of their structures and the living condition inside will not be out of place to mention here. They are usually built on a mud-floor barely six inches high from the surrounding ground which very often gets inundated during the rains. A few pieces of bamboo, 'salbullahs' and in some instances 'kutcha bricks' form the roof support and framing. Roof coverings are usually pantiles, corrugated iron and sometimes even of cut pieces of cannisters. Walls vary from ordinary mud-wall to C. I. sheet, spliced bamboos with mud-plaster durma and even gunny bags. They have

a height which ranges from six feet to a maximum of 100 sq.ft. The huts are so closely grouped together that their eaves touch each other and sometimes come one over the other. A whole family, sometimes as many as six in number, including parents, children and relations live, sleep, cook and eat and even nurse the sick in each of these little rooms. In some case, there is a slit of a courtyard which, instead of being kept as an open space, is used as refuse dump. No doubt, there are isolated cases of brick built structures inside the bustees, but they are few and far between. There are narrow alleys in between, some times as narrow as 2 ft. or 1 ft. 6 in. You may of course find some bustees in the fringe area which have a fair amount of open space and reasonably clean, even then they may not be free of the foul tank. But it is still a bustee and in these every fourth man in the city lives. These great number of people having to live in filth, squalor and vice become unwittingly the carriers of all that is base and demoralizing and affect the whole city, both physically and morally. Though I cannot present the exact figure for children living in the bustees still it would be quite a good number and they are in future the man power of the country. But this section of our future generation representing at least one fifth, if not more, of the total number of children in the city, is deprived of the normal amenities essential for healthy growth which a great Metropolis like Calcutta—the nerve centre of the country—ought to have provided. The bustee huts are in patches, some are small and some are very large; they are not contiguous to one another except in the fringe areas of the city. No locality is absolutely free from such sub-human living. I am not saying anything about the Pavement Slums of the Street Dwellers—they are a problem quite apart from this.

In this connection I can assure you that the Corporation of Calcutta and the State Government of West Bengal and even the Central Government are all trying hard to solve this biggest problem and that is "the lack of good living in cities". Its real solution is Re-housing and not only Re-housing in modern buildings but also the Rehabilitation of the people so displaced. In fact, the process of giving effect to this idea has already been started. The Calcutta Improvement Trust have built up a number of large buildings with hundreds of flats. The Port Authorities in order to house their grade four employees, who were no doubt living surrounding and nearby bustees, have built almost an estate at Tara-tolla of a number of large buildings with many flats in each. Calcutta Corporation is also anxious to give effect to their Five-Year Plan tackling the same problem. No doubt, the Government of West Bengal have taken up in hand to solve the Urban Development problem. But all these are really long term jobs and question of millions of rupees and also the availability of materials quite apart from human effort.

CORPORATION EMPLOYEES CELEBRATE THE OCCASION WITH SONGS OF  
RABINDRANATH

PHOTO : T. N. GHOSH.

## NATYA SAMITY CELEBRATES RABINDRA JAYANTI

Though late still not never, the Post's Ninety-seventh Birthday was celebrated by the members of the Pura Pratisthan Natya Samity, the dramatic club of the Corporation employees on the 22nd May. Rabindra Sangeet was rendered by Shri Himagnui Roy Choudhury and others, and 'Pancha-Mitra' another organization presented 'RABIRASMI' a lyrical drama on the poet's life.

Dr. Kalidas Nag, as Chief Guest on the occasion, desired that an well equipped auditorium should be provided for the Corporation employees before the advent of the Birth centenary year, 1960, wherefrom: poet's dramas and

music would also delight the citizens as it has been done by Rabindra Bharati. He also felt the need of establishment of an institute for the pursuit of Rabindra culture in the city.

The Commissioner, Shri R. K. Sen, was present. The City Architect, Shri P. Guha, presided over the function. The speakers included Shri Dhiren Bhowmick and others.

The Birthday was also celebrated by the members of Tarun Sangha, Pathagar, Ghosh Lane, on the 19th May, with the Deputy Mayor, Shri Keshab Chandra Basu presiding. Shri Ramesh Chandra Sen was the Chief Guest. A cultural function was also held in this connection.

## —CITY-NEWS-PARADE (Contd.)

(Continued from page 110)

arrest. Several women also carried children with them. They generally demonstrated at Esplanade East and attempted to go to Dalhousie Square.

In this connection representatives of Leftist parties met at a convention on Friday, the 17th May last to discuss the problem of refugee deserters from Bettiah and other camps. The convention gave general support to the daily demonstration by these refugees near Dalhousie Square under the auspices of the Refugee Action Committee. It urged the Government to provide food and shelter for these refugees and set up a committee to inquire into their grievances.

**CALCUTTA EXPERIENCED ANOTHER HOTTEST DAY** on Wednesday, the 15th May, when the maximum temperature rose to 109 deg. F or 43 deg. C. It was 8 deg. C. above normal. The minimum temperature was also above normal. The continuous hardship of the citizens due to hot spell was relieved on Friday, the 17th instant when the maximum temperature dropped to 102 deg. F or 39 deg. C. The minimum temperature was however above 2 deg. normal.

During this period, each day's maximum temperature maintained a level above normal. The minimum temperature also went in a similar way. There were fore-

casts for thundery squalls along with cloudy weather on each day accompanied by changes in day's temperature.

The sultry weather due to a kind of hot spell blowing over the city for days together caused much hardship to the citizens. Panic created everywhere with the approach of terrible hot spell during mid-day. Trams and buses ran almost empty during these hours, streets remained deserted.

## CORPORATION PRIMARY SCHOOL

### ANNUAL PRIZE DISTRIBUTION

The Third Annual Prize Distribution Ceremony of the Corporation Primary School for Girls at Panditya Road, was held on the 12th May last in the premises of the South-Suburban Branch School, Lansdowne Road. The function was largely attended by many of the guardians and local gentlemen. The day's programme included music, recitations, dance recitals and performances of playlets.

Shrimati Sujata Banerjee, wife of Councillor Bejoy Kumar Banerjee, presided over the function while Shrimati Atasi Barua, wife of Dr. A. Barua, Education Officer, gave away the prizes. Councillor Banerjee, Councillor Shyama Kumar Dutta and others were also present.

# CITY NEWS PARADE

**A SCHEME FOR DISTRIBUTION OF CEREALS** from fair price shops in bustee areas under modified rationing came into operation on Monday, the 20th May, under the auspices of the West Bengal State Government. Seven shops were opened in Goabagan, Beliaghata, Lower Circular Road, Rajabazar, Kalabagan, Girish Mukherjee Road and Bhukailash in the city, covering over 22,000 people.

The scheme is meant mainly to relieve the distress of people belonging to the low income group caused by rising prices. Each adult will receive a *seer* of rice and a *seer* of wheat every week at annas seven and six pice per *seer*, respectively. For children, the quantity for each commodity will be half that for an adult. The scheme will be extended gradually to other bustees which number about 2,000 with a total population of over six lakhs.

On Monday afternoon, Shri P. C. Sen, Food and Relief Minister inspected the shops.

**THE THIRD INTERNATIONAL ART EXHIBITION**, displaying over 500 paintings collected from 26 countries was inaugurated by Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University, at Lady Brabourne College, on Thursday, the 16th May, last. Held under the auspices of the All-India Fine Arts and Crafts Society, New Delhi, the exhibition was described as one of the biggest ever held in any part of the world. Nearly all trends of thought in modern painting were represented at the exhibition, where the latest creation of top-ranking artists in various styles and media were displayed.

Prof. Sidhanta said that such exhibitions always helped mutual understanding among countries as they are represented the emotions of a vivid mind.

Shri Anil Roy Chowdhury, Secretary of the All-India Fine Arts and Crafts Society, said in his report that the Society took two years to organize the exhibition, which has been earlier shown in New Delhi, Ahmedabad and Hyderabad.

**TELEGRAPH TRAFFIC** in most parts of the country has become subject to heavy delays due to either slowing down of work by employees or due to some other reason. It has already become necessary for the department to send some of the telegrams through the agency of the night air mail service. The authorities have already advised the public to keep the number of telegrams, especially ordinary telegrams, to the minimum.

The situation arising out of the work-to-rule movement of the telegraph employees to press their demands on the authorities remained unchanged in the city on Monday, the 20th May—the sixth day in succession. A large number of telegrams were sent from the Central Telegraph Office by post to avoid accumulation; wireless, teleprinter and telephone channels were used to transmit telegraphic messages.

Even before that on Sunday—the fifth day, there were over 4,000 telegrams sent by post from the Central

Office. The office received nearly 3,000 telegrams by post. The number of accumulation was almost the same as on previous days.

The employees on Friday asserted that the movement they had launched was not a go-slow movement. They were working “according to standard” set up by the authorities for disposal of messages within duty hours.

**A FIRE** caused great panic among the residents of a building on Ryed Street, on Thursday, the 18th May last, when it broke out in one of its ground floor flats. Choking fumes prevented those living on the first floor from coming down the stairs and three of them, including a 76-year-old woman were rescued by fire brigade personnel with the help of ladder and rope.

**AN IMPROVED METHOD OF SURGERY** was witnessed when a man and a woman, deaf for eight and four years respectively, were operated on their right ears last week at Chittaranjan Hospital of Calcutta National Medical College.

The woman, who was stone deaf, could reply to questions although her surgical dressings have not yet been removed. The man, on regaining his hearing, told a doctor in the operation theatre “I can hear even whispers.”

The operation, known as the Rosen Stapes Mobilization, was performed on a patient whose stapes became fixed to the oval window by new bone formation. Dr. Samuel Rosen, of New York, who devised the operation, visited the city about four months ago and demonstrated his technique to ear specialists. Five of the eight operations he performed were successful.

**DEMONSTRATIONS:** Nearly 126 jute mill workers were arrested near Writers' Buildings on Saturday, the 18th May last when they attempted to violate Section 144 order by going to the Secretariat in a procession.

These workers including 28 women lost their employment following the closing down of the Lukshmi Jute Mills, Beliaghata. They also complained that they had not been paid their provident fund money.

The Price Increase and Famine Resistance Committee, represented by Leftist parties have called on the people of the State to organize meetings and processions to protest against the Union Government's decision to increase the “already intolerable burden of taxation” in the Budget proposals.

On Tuesday, at a mass meeting at Wellington Square, several Leftist leaders protested against the rise in prices. Shri Suresh Chandra Banejee, M.L.A., presided.

**‘DIRECT ACTION’** in the shape of violation of Section 144 in a prohibited area in the city by batches of refugee people continues as before. Everyday during this week an average of one hundred people mostly women courted

(Continued on previous page)

## HOUSE DRAINAGE—New Connections

The following House Drainage Plan showing new sewer connections have been sanctioned during the week ending on 27th September, 1956.

### DISTRICT I (PROPER)

Premises	No. of Connections	Date of Connections
96, Upper Chitpore Road	1	9-10-56
P-3/1, Scheme V. M. Grey Street		
Extension	1	23-10-56
20, Brindaban Bose Lane	1	24-10-56
210, Chittaranjan Avenue	1	25-10-56
70, Sovabazar St. (Lot 'B')	1	25-10-56

The following new sewer connections were effected during the week ending 28th October, 1956.

Premises No.	No. of Connections	Date of Connections
<b>DISTRICT IV</b>		
Lake Medical Hospital, P-6, Sch.		
47, C. I. T.	1	22-10-56
Lake Medical Hospital P-4, Sch.

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, triocycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supt., S. S. Begg Market.

## VIEWS AND REVIEWS

### CITY FEARS 'FLU EPIDEMIC

Calcutta is in the grip of influenza. The disease has alarmingly spread over the city and in certain areas affecting almost every second family in the city. Although no death has been reported from the disease till we go to Press still hundreds of affected persons are treated in hospitals and privately.

With the spread of the disease in Bombay and Madras, the two other metropolitan cities in India, there had been a great deal of panic among the citizens as to the outbreak of the disease in this city in an epidemic form. Reports about the incidence of the case were received from many parts of the city especially from the Burrabazar and Garden Reach areas. The city's Health authorities maintained that this type of attack was not an unusual feature rather being witnessed every year having a hot weather. The authorities of the All-India Hygiene Institute, Calcutta, which generally undertakes a survey whenever there is any fear of the epidemic diseases, opined that there was no conclusive proof of the disease breaking out in an epidemic form. Cases of Influenza in the city were not exactly of the same nature as had been found in Madras which was almost of the Singapore type and proved fatal in many cases.

Still then as a precautionary measure the Health Directorate of the Government of West Bengal kept a close watch on the reported cases. The Government has declared influenza as a dan-

gerous and notifiable disease in the municipal areas of West Bengal, including Calcutta.

In pursuance of the declaration, Councillor Dr. Sukhabehari Mukherjee, Chairman, Standing Health Committee, has also asked doctors in the city to bring to the notice of District Health Officers any case of influenza they met.

The weekly meeting of the Corporation on Friday, the 24th May, expressed concern over the disease breaking out intensively. Councillor Dr. K. P. Ghosh referred the matter in the House.

At the same time the authorities stressed the need of taking all precautions as the influx of passengers from South-East Asian countries had not been stopped into the city by air or on board. Seats have also been reserved in the Beliaghata Infectious Diseases Hospital for the segregation of the people coming from Malaya and their neighbouring lands. Five persons including an army personnel were segregated during last week.

Fumigation and spraying of the air planes arriving at the Calcutta airport are also being done by the Port Health authorities till now.

In the meantime a large number of suspected influenza cases were reported from Mat'aburuz area. A doctor living on Akra Road had visited 90 patients in course of a day or two. All five inmates of a house in Pakuria had been suffering from influenza. In one labourers' line of houses in the area, 22 persons had been laid up with fever.

Similar reports poured forth from many of the areas within the city.

Coughs and colds accompanied by a temperature have become very common during this season particularly in Burra Bazar and Garden Reach areas in the city. About 800 such cases were notified to the Corporation Health authorities during the week ended the 25th May. This is considered an unusually high figure even for this time of the year.

The Corporation authorities advised the people that whenever influenza is suspected, the patient should be immediately isolated and the relations or other possible contacts should visit the nearest Corporation dispensary for a check-up.

Among the other measures taken, one hundred beds have been reserved in the Beliaghata Infectious Diseases' Hospital for influenza patients. A mobile van of the Directorate with a medical officer attached, has been arranged for treatment of suspected cases in the city.

A West Bengal Government Press Note recently said: Influenza is a highly communicable disease. It is caused by any one of the three types of viruses. The incubation period of the disease is usually 24 to 72 hours. Discharge from the mouth and nose of infected persons are infective. During epidemic outbreaks a number of healthy persons may act as carriers. They harbour and spread the infection though they themselves do not fall ill. The infection spreads either by inhalation of droplets sprayed in the air by infected persons or carriers through sneezing and coughing or by articles freshly soiled with discharges of the nose and throat of infected persons or carriers. An infected person is capable of communicating the disease to other persons for about a week after the onset of the disease.

The preventive measures suggested are: Keep fit by observing the usual rules of health and by keeping regular and healthy habits; work and sleep in well-ventilated rooms; avoid fatigue, chill, alcoholism and over-crowding, particularly in cinemas, theatres and other places of amusement, in closed halls, meetings, frequently irrigate the nose with salt solution; use of a solution of common salt (one tea-spoonful to a pint of water) is recommended; the habit of using a handkerchief or any other piece of cloth before sneezing and coughing to prevent droplets from the nose, throat and mouth being sprayed into the air, should be developed. The handkerchief or the clean piece of cloth used should be sterilized by boiling or by treating with antiseptic lotions, e.g., formalin; avoid spitting in the open; avoid the use of common towels, glasses, utensils or toilet articles; and take prophylactic vaccination.

Persons attacked with the disease should go to a hospital; or go home and consult a doctor as soon as possible and arrange to send information to the nearest Health Office and occupy a separate room or a bed that is screened off.

Thus we find that the State Government as well as the Corporation has adopted timely regulations for the prevention and control of the disease which is going to take a serious turn.

## CORPORATION OPPOSES TAX PROPOSALS

In view of the increased hardship of the common citizen due to an enhanced rate of excise taxes, as proposed by the Union Finance Minister, the House showed its resentment during one of its previous sittings. On Friday's weekly meeting, the 24th May last, the House adopted a resolution protesting against the rise in prices of essential commodities. The resolution was moved from the Chair by the Deputy Mayor, Shri Keshab Chandra Basu. Expressing concern over the rise in price of essential goods, the resolution said:—

The Corporation representing the rate-payers and citizens of this metropolitan city views with grave concern the new taxation proposals, specially those sought to be levied on sugar, matches and other essential commodities and bare necessities, and express its unanimous disapproval of the same. Such imposition will have 'a drastic effect on the poorer and middle classes of people who are already in terrible economic embarrassment due to the mounting spiral of price index.' Whilst the Government both Central and State are watching with apprehension such unusual rise in the price index there cannot be any justification for the imposition of taxes on articles and foodstuffs and other bare necessities of life at this stage.

The resolution further pointed out that the proposed rise in freight charges and the tax on fuels would lead to the increase in the price of almost all articles of consumption, particularly in big cities like Calcutta where each and every citizen had to depend for his everyday requirements on commodities and foodstuffs which were being carried against payment of freight whether by railways or by lorries.

How the Budget proposals have affected the Corporation finances, it stated:—

The new taxation proposals will seriously affect the Budget of the Corporation in as much as sharp rise in the price of petrol, cement, steel etc. which the Corporation has to purchase at a huge cost annually for running the administration will entail considerable increase in annual expenditure to the Corporation.

In conclusion the resolution appealed to the Union Government for lessening the miseries of the common people while wishing success to the achievements of the Second Five Year Plan with the following:—

Whilst wishing every success for the Second Five Year Plan this Corporation requests the Union Government through the State Government to withdraw the proposed taxation imposed on daily necessities of life of a common man as also those which will have the indirect effect in the increase in the price index of everyday bare necessities of everyman.

The House desired that the copy of the resolution would be sent to the Union Government through the West Bengal Government, Local Self-Government Department.

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE THIRD ADJOURNED MEETING OF THE CORPORATION HELD ON FRIDAY, THE 24TH MAY, 1957.

## CONDOLENCE

At the outset the House condoled the death of Shri T. Prakasam, an elderly statesman and one of the leaders of the Andhra State. Eloquent tributes were paid to his memory by the Deputy Mayor, Shri Keshab Chandra Basu, who referred the death in the House:

## BOROUGH COMMITTEES

The House, on the suggestion of Councillor Ushanath Sen, decided to maintain the existing groupings of the wards forming into fifteen Boroughs within the city. Each Borough is comprised of five wards and represented by Ward Councillors who are empowered to co-opt members to form into Committees. These groupings were made after the first general election in 1952 under Section 16(1) of the Calcutta Municipal Act, 1951.

## ELECTRICITY DEPARTMENT

The House appointed a Special Committee with the following members to investigate into the workings of the Electricity Department and to report its findings to the Corporation.

During Budget discussion the appointment of such a Committee was agreed upon. The members are Councillors P. K. Sen Gupta, K. L. Dhan-dhanis, Chittaranjan Chatterjee and Anil Maitra. The Committee has also been empowered to co-opt an expert in this matter.

It may be recalled here that the Standing Finance Committee, while examining the annual Budget Estimates for the year 1957-58, suggested that in order to effect economy in the administration the Electricity Department should be abolished. The suggestion was put up before the House by the Committee's then Deputy Chairman in course of his presentation of the Estimates in the House.

## EMPLOYEES' SERVICE PERIOD EXTENDED

The House, on the recommendation of the Standing Finance Committee, fixed the age of retirement of the employees at 60 years. The resolution adopted in this connection stated:—

In order to have a uniform regulation for the age of retirement of all Officers and employees of the Corporation (excluding the labour staff) the age of retirement be fixed at 60 years and hence Regulation No. 72(a), (b) and (c) regarding the age of retirement of the employees in the "Service Regulation for employees other than those referred to in Section 76(1) of the Calcutta Municipal Act, 1951 or holder of posts carrying a maximum of Rs. 1,500/- per month and above and also those classes as labour" as framed by the Standing Finance Committee in consultation with the Municipal Service Commission

and approved by the Corporation on 6th July, 1956, be substituted by the following:—

"Except as otherwise provided in these Regulations, an employee, whether in superior service or in inferior service, shall retire on attaining the age of 60 years and no employee shall continue in service beyond that age."

At an earlier occasion when the matter was first placed before the House it was referred to the Government of West Bengal. The Government replied in the lines that the age of retirement of the State Government employees in superior service was 55 years but they might be retained in service beyond that age with the approval of Government only up to 60 years. The employees in inferior service who entered service before the 1st July, 1948, are ordinarily required to retire at the age of 60 years but they may be retained in service up to the age of 65 years provided they continue to be mentally and physically fit for further service and those entering service after the 1st July, 1948, are required to retire at the age of 60 years except in very special circumstances.

The retirement age of the Government of India's employees is 55 years but they may be retained in service beyond that age up to 60 years if they continue to be physically fit and mentally alert.

It may be recalled here that the House in its previous meeting fixed the age of retirement of Principal Officers of the Corporation at 60 and that the decision received the approval of the State Government, Local Self-Government Department.

## CITY BUSTEES TO BE IMPROVED

(Continued from page 181)

When the State Government is prepared to promulgate an Ordinance to enable the Corporation to immediately acquire the required plots of land in the bustees for this purpose, we should add a bit in this, the Mayor also emphasized to the Corporation men.

In the Corporation meeting Dr. Sen referred to his recent discussions with the Union Finance Minister, Shri T. T. Krishnamachari and a member of the Planning Commission, Dr. J. C. Ghosh. He said that the latter had agreed to help the Corporation in building up Harijan Colonies and houses for the Corporation employees belonging to the low income groups.

The State Government, the Mayor added, had agreed to help the Corporation in sinking deep tube-wells in bustees where latrines and baths were also to be arranged. For this purpose the State Government had asked the Corporation to make a survey of the bustees. As the Engineering Department was not in a position to carry out the survey quickly, he had sought the assistance of different engineering institutions.

Sitting from left (facing camera), Councillor D. P. Chatterjee, M. L. C., Dr. P. Roy formerly D. P. I., West Bengal, Dr. B. P. Trivedi, Chairman, I. M. A., Calcutta Branch, Councillor S. K. Sen Sarma the Deputy Mayor, Shri K. C. Basu and Shri A. K. Basak. D. C. I, while on the mike Prof. P. C. Chunder.

## MAYOR & DEPUTY MAYOR FETED

SINCE their election to the exalted chairs of the Mayor and the Deputy Mayor, there were innumerable functions in the city to offer felicitations to Dr. Triguna Sen and Shri Keshab Chandra Basu. These functions were organized not only by different clubs and Associations for adults but also children participated in them. The Calcutta Engineers' Club was one of the first organizations which felicitated Dr. Sen in the earlier part of May. A most impressive function was organized by the Alumni Association of the College of Engineering & Technology, Jadavpur. Himself being an alumnus of the college, Dr. Sen identified himself with the other students of the college who had left a mark in their careers in the different fields they had entered. There he also listed out a minimum programme of work which he had desired to undertake as Mayor of Calcutta. Water-supply and control of epidemics were the two main things which occupied his mind at first.

There was another such function to welcome the Mayor and the Deputy Mayor, organized by the members of the Corporation Block Sarkars and Mazdoors' Association, Health Department, at the Mahabodhi Society Hall, recently. The Mayor could not be present due to indisposition. An address stating many of the qualities of head and heart of both the Mayor and the Deputy Mayor was presented to them.

Dr. B. P. Trivedi, Chairman of the Indian Medical Association, Calcutta Branch, presided while Dr. Parimal Kumar Roy, a former Director of Public Instruction, West Bengal, acted as Chief Guest.

Replying to the Address, the Deputy Mayor, Shri Keshab Chandra Basu, opined that such reception should have been accorded after he and the Mayor did some satisfactory performance of their duties. He further said that the workers of the Corporation should not be looked down rather their

services to the citizens would be evaluated in a proper way.

Dr. Trivedi, Dr. Roy, Councillors Devaprasad Chatterjee, M.L.C., and Subrata Kumar Sen Sarma, Prof. Protap Chandra Chunder, Shri Abinash Chandra Bhattacharjee and others spoke on the occasion. A delightful programme of music was also gone through at the end.

In another impressive function the citizens of Ward No. 28 feted the Deputy Mayor, Shri Keshab Chandra Basu, recently. Shri Basu represents that area in the Corporation. The function was arranged at 38, Madan Mitra Lane. Shri T. C. Mitra, an elderly citizen and a former Law Officer of the Corporation who presided, stated many of the qualities of Shri Basu while felicitating him. Through a suitable reply the Deputy Mayor also dedicated himself for the services of the people. A programme of musical soiree was also arranged.

### CALCUTTA MUSICIAN FELICITATED

It was on the occasion of the 48th Birth anniversary of Shri Tarapada Chakravarty, a noted musician, a pleasant function was organized at the Rupali Cinema Hall, some time ago. Shri Chakravarty was garlanded and was presented with an Address by his pupils and admirers.

In offering his blessings Shri Birendra Kishore Roy Choudhury, who presided, recalled the many sided qualities of Shri Chakravarty. The proficiency in music which he has earned will surely inspire him to earn a real name in this field, he added.

Ostad Dabir Khan, who was also present as a Chief Guest, appreciated the qualities of Shri Chakravarty which has extended to the field of instrumental music also, beyond the vocal sphere.

The function concluded with presentation of classical songs by his pupils, Shri Chakravarty himself participating in one of them.

## CITY BUSTEES TO BE IMPROVED

### Committee Headed By The Mayor, To Survey The Slums

No civic service is more essential than to supply an adequate quantity of filtered water to every soul residing within the city. But unfortunately such supply of water and many other amenities have been denied to nearly one-fourth part of the citizens who live in Bustees and Slums. The Mayor, Dr. Triguna Sen, since his election to the Chair, has realised the magnitude of the problem and has made strenuous efforts to probe into the problem. Happily Dr. Sen has been able to enlist the State Government's help in providing water to a number of Bustees in the city. He, himself, had been thinking of some other extended civic services to the bustee dwellers like community baths or community privies and so on. But some technical defects have long been standing in the way of extending these benefits. State Government's help in this regard was found essential and which was sought to earlier.

At a conference convened by the Mayor on Tuesday, the 28th May, in his office room, Central Municipal Office Buildings, S. N. Banerjee Road, these things were discussed in detail and an Eight-man Committee was formed headed by the Mayor to undertake a survey work into the living conditions of the bustee dwellers as well as the essential services to be extended to those people. The conference was attended among others by Government and Corporation engineers, and members of the same profession from other bodies besides the Chairmen of different Standing Committees and some officers of the Corporation including the leaders of different blocks in the Corporation, and the Commissioner, the Chief Engineer and the Health Officer.

After some discussion at the conference the aforesaid Committee was constituted with the Mayor, Dr. Triguna Sen, Shri T. R. Marik, Shri Akshoy Bose, Shri B. N. Chowdhury, Principals of Bengal Engineering College, Jadavpore Engineering College, Jadavpur Polytechnic, and Ramkrishna Shilpa Vidyamandir, Belur, with powers to co-opt others.

The Mayor also appealed to all the Engineering Institutions to persuade the students to volunteer their services for this 'social work' survey of the bustees. He was sanguine that appeal for social work to Bengalee youths would not go unheeded. He also appealed to engineering firms and Government departments concerned to help them with personnel.

Acquainting this to the members of the House in the weekly Corporation meeting on Friday, the 31st May, the Mayor hoped that he would be successful in his attempt to improve the lot of the Bustee dwellers to some extent. He was sure that the House would extend all possible help in order to strengthen his hands in this matter.

At the outset, the Mayor placed before the Conference a letter written by the West Bengal Chief Minister, Dr. B. C. Roy, intimating the decision of the State Government to sink 800 six inch dia. tube-wells in different bustees of the city which would give sufficient water to the people. Dr. Roy also pointed out that the Corporation should at once take up a survey of the bustee areas where the tube-wells would be sunk.

Referring to the magnitude of the task before them, the Mayor said that a matter of such proportions could only be dealt with by the Corporation, if it had the might of the State, the Public Exchequer and the co-operation of the population behind it.

The letter stated: The State Government are seriously preparing themselves for acquiring the bustees, to construct alternative accommodation for the dwellers and to remove them from the veritable hell in which they are living or at least to acquire them and convert them into decent living quarters. Further, the Central Government is willing to give subsidy to the scheme out of the funds of the Second Five-Year Plan. The Chief Minister's letter also said: I feel the Corporation can make a very

substantial contributions by doing a great deal in the coming two years, and I can visualise the following four steps that can be taken immediately:

(1) The Corporation with the help of the State Government should immediately appoint a number of social workers.

(2) With the help of the Central Government who are prepared to subsidise heavily, the Corporation should immediately construct Harijan colonies, with social and educational amenities in different parts of the City in order to house its 'methars', sweepers and 'dhangars' now living in the bustees.

(3) The Corporation should take loans under the Industrial Housing Scheme of the Central Government and construct housing accommodation for the employees of the lower income groups, who are forced to live in the bustees with their families.

(4) The Corporation should sink tube-wells in each and every bustee with pumps and overhead tanks to be used later for the housing estate that will be built by the Government in those areas and provide the bustees with community bath-rooms and community sanitary latrines.

(Continued on 129 page)

## CITY'S WATER SUPPLY POSITION.

During last four years the Corporation has taken all effective measures for augmentation of the city's water supply. This was necessitated with the growth of city's population, as well as influx of refugee people. Inclusion of Tollygunge Municipality has added the burden. The Corporation contemplates to augment the water supply in three ways. Firstly, as an emergent measure it has started sinking of small-dia. tube-wells all over the city, the number of which now stands at 2,800. The Corporation itself has sunk nearly 400 tube-wells and the Government shared 250 during last year. Out of these 178 are still lying defunct, 69 tube-wells could not be worked out due to inadequate number of staff in the Department. Recently with the sanction of an extra hands at the beginning of this month a large number of defective tube-wells has been restored to working order.

Another emergent measure adopted every year is to supply water by means of lorries. This year 22 lorries have been engaged. They are supplying 1,12,000 gallons of water per day. Besides, the Borough Committees will start functioning soon and the Councillors will be at liberty to meet any emergent situation either by sinking tube-wells or by requisitioning additional water lorries. The expenditure is to be met from the funds allotted to the respective Borough Committees.

It may be recalled here, that very recently the State Government has kindly undertaken the task of surveying the Bustees of Calcutta to get detailed information regarding the condition of water supply and drainage there. On getting the report, the Corporation will be advised to sink larger number of tube-wells or increase the supply of water by means of lorries as the situation will demand. There is another feasible proposition and that is, small diameter pipes can be laid economically in the bustees with the consent of the landlords wherever the pressure of water in mains can be available nearby.

Secondly, as a short term measure, the different scarcity pockets have been spotted out and a scheme has been prepared for sinking tube-wells yielding 20,000 to 25,000 gallons of water. 50 tube-wells are already in operation in such different areas. Besides, the State Government have decided to sink 49 big dia. tube-wells for fire fighting purposes. Of which seven have already been sunk and put into commission and further two will operate shortly. There is a project for further two tube-wells within this year. Though these are ostensibly meant for fire fighting purposes, still the State Government have allowed the Corporation to use their water for the benefit of the people in the City. Nine more tube-wells for other scarcity areas are expected to be brought into commission very shortly by the Corporation. Non-availability of electric motors has caused much delay in putting them into operation. Tenders for further two big dia. tube-wells are shortly going to be placed before the Committee for consideration. Thus, during the course of the year a further lot of 16 big dia. tube-wells will be in operation including the three of the State Government.

Thirdly, in execution of its long term measure the Corporation has already issued work-order for

the construction and installation of a 72 in. steel main from Pulta to Tallah for which 4,500 tons of steel have already been procured. All efforts are being pulled to get the balance quantity of steel as well as cement irrespective of cost which is likely to go up on account of the new taxation proposals. The Corporation is firmly making all its efforts for the augmentation of water supply in the city of which the Pulta-Tallah Main is the most arduous one.

The present main source of water supply of the city is Pulta wherefrom 81 million gallons of water are being supplied i.e., an increase of one million gallons over last year. Moreover, nearly eight million gallons are being supplied through big tube-wells and two mill. gallons from hand-operated tube-wells, bringing the total to nearly 91 mill. gallons per day.

The city's water supply may also be increased permanently by another ten mill. gallons per day if the construction of a Rapid Gravity Filter is immediately undertaken. This is a part of the main scheme of Water Supply Augmentation which will have to be undertaken sooner or later. The construction of this Rapid Gravity Filter is capable of being completed within 15 months from the date of placing the order. Apart from this, an additional ten mill. gallons of water per day will be available as soon as the New Intake Station with pumps would be completed within the next two years.

\*A text of the statement made in the House by Councillor J. L. Saha, M.L.C., Chairman, Standing Water Supply Committee, on the 31st May, 1957.

### THE WORLD OF BOOKS

SURER GURU RABINDRANATH—(A book on Rabindra music)—By Dr. Kalidas Nag, Published by Shri Sudhanshu Bakshi of Messrs. Book Bank, 5, S. C. Dey Street, Calcutta—12, Pages 109. Price Rs. 2.50 only.

The present book is an attempt to describe the poet's creative mind in the progress of Indian music. Besides, Rabindra Sangeet. occupies the longest chapter in the history of Indian music. The poet who blended with inimitable fineness the western music, the 'ragas' and 'raginis' of Indian classical music—as well as the simple melody of our folk-songs in his composition, has no doubt, done a superman's job. The bond between verse and tune, an aspect so long ignored in Indian classical music, is the main characteristic of Tagore Songs. Western music surely had impressed the poet during his youth time but Bengali 'Kirtans' and 'Bauls' had greater influence upon the poet and they took their roots in him when he had not crossed his boyhood days. And fortunately, all these have been revealed in this book through four chapters by an author, who needs no introduction to the readers interested in Rabindra Sangeet. The revelation further shows that the poet was an admixture of the East and the West, the new and the old, and these have been disclosed in an ingenious way by an author so eminent in public eye.

Dedicated to Shrimati Indira Debi Chaudhurani, the last surviving apostle of Rabindra Sangeet, the book has been written in a lucid style. We also expect a wide circulation of the book.

### GENERAL ELECTION OF SERAMPORE MUNICIPALITY

The next General Elections of the Serampore Municipality will be held on January 19, 1958. From eight wards of the municipality, having a population of over 78,000. 28 Commissioners will be elected.

### ASIA'S BIGGEST HOSPITAL IN CAWNPORE

A 2,000-bed Medical College Hospital, the biggest of its kind in Asia, will be set up in Cawnpore at an estimated cost of Rs. 1.49 crores. The college has been named after Shri Ganesh Sanker Vidyarthi, a Congress leader, who died here 27 years ago for the cause of Hindu-Muslim unity. The college is expected to start functioning from the next session.

### HOSPITAL IN Khardah

The foundation-stone of a new hospital at Khardah, organised under the auspices of Shri Balaram Swastha Seva Sangha, was laid on a 5½-acre site by the State Chief Minister, Dr. B. C. Roy, recently.

The building when completed, would accommodate an Out-patients Department—the nucleus of the hospital.

### ASANSOL MUNICIPALITY SUPERSEDED

The Asansol Municipality has been superseded by the West Bengal Government under a Special Notification, recently.

Shri Biren Bhattachariya, Executive Officer, has been appointed an Administrator of the Municipality.

### BENGAL SMOKE NUISANCE ACT

The Government of West Bengal have extended the operation of the Bengal Smoke-Nuisance Act (Bengal Act III of 1905) to the Baranagore and Kamarhati Municipalities in the district of 24 Parganas.

### CORPORATION FOR DELHI

The question of establishment of a Municipal Corporation for Delhi was raised again. A statement by Shri B. N. Datar, Minister of Home Affairs, at question time in the Rajya Sabha, gave the impression that the proposed Corporation of Delhi would come into being early next year.

The Bill to establish the Corporation would be introduced in the July session of Parliament and the Corporation of Delhi would be set up soon after the enactment of the legislation and after the completion of subsequent formalities.

The adoption of the Bill by the two Houses and election to the Corporation might take at least six months more.

### WATER SUPPLY SCHEME OF SOUTH SUBURBAN MUNICIPALITY

The Water Supply Scheme of the South Suburban Municipality has been approved by the 'Ad-hoc' Committee of the Public Health Engineering Department, West Bengal, and is awaiting administrative approval of the State Government.

### IMPROVEMENT TRUST MEMBERS FROM HOWRAH

The Howrah Municipality, at a recent meeting, elected Shri Satyakinkar Sen, Shri Krishnadas Mondol and Shri Krishnadhan Chatterjee as its representatives on the Howrah Improvement Trust, The Chairman, Shri Rabindralal Sinha, is an ex-officio member of the Trust.

### HOSPITAL AT UTTARPARA

A 250-bed hospital will be opened at Rajbati, Uttarpara, shortly. About 100 of the beds will be reserved for patients covered by the Employees State Insurance Scheme. Over 50,000 patients are treated annually at the Uttarpara Government Hospital on the Grand Trunk Road.

### FIRST INDIAN DEPUTY MAYOR IN SOUTH AFRICA

The Nairobi City Council has elected an Indian Alderman Mohan Singh, as Deputy Mayor. The office has never been held by a non-European before.

### ANNUAL BUDGET OF HOWRAH MUNICIPALITY

The Annual Budget of the Howrah Municipality for 1957-58, was adopted before the supersession period ended. It was balanced with a surplus of Rs. 5.64 lakhs, the total receipts being Rs. 97.48 lakhs and expenditure Rs. 91.78 lakhs. The receipts include grants of Rs. 11.57 lakhs from the State Government.

The substantial increase in expenditure on public instruction and a scheme for building the municipality's first Maternity Home are the main features of the Budget. A sum of Rs. 28,000 has been set apart for the Maternity Home which is proposed to be built at Sibpur.

The scheme for construction of buildings and acquisition of land for Basic Schools and lady teachers' quarters will cost Rs. 1.72 lakhs. There is also a provision of Rs. 80,400 to equip Basic schools.

Although many of the roads are in a poor state and the water supply is very inadequate, budget allotment on these items show no improvement over the past years.

Among the other major heads of expenditure are: General Administration Rs. 9.15 lakhs.

Public Safety Rs. 1.81 lakhs and Public Health and Convenience Rs. 49.61 lakhs.

A sum of Rs. 2,000 has also been allotted for killing stray dogs under the Public Safety head.

### S. N. BANERJEE'S PORTRAIT IN DELHI

A full length oil portrait of Rastraguru Surendranath Banerjee was sent to Delhi by the West Bengal Government for installation in Parliament House.

The portrait has as its background Calcutta Town Hall. It shows the Rastraguru standing in the popular pose of an orator in the south-east corner of the front stairs, the face turning towards Assembly House. The portrait painter, has tried to catch in the painting the vision of the great statesman and an expression of good wishes for the coming generations.

### BOMBAY'S GENERAL ELECTION

Shri M. V. Donde, a nominee of the Sanjukta Maharashtra Samiti, has been elected as Mayor of Bombay at the first meeting of the Corporation held on the 27th May. His only rival Shri B. A. Dalel, a congress candidate, was defeated by 54 votes to 77.

The results of the last general elections gave the Congress Party 54 seats and the Sanjukta Maharashtra Samiti 68 in a House of 131. The electorate also returned seven Independents and two Praja Socialists.

The candidates returned on the Samiti ticket include 26 P.S.P. 18 Communists, 12 Scheduled Castes Federation, 8 Congress Jan Parisad, two Jan Sangha, two Peasants and Workers Party, one Revolutionary Communist Party, one Lal Nishan (local party) and three Independents.

An un-official tabulation of the votes cast showed that the Samiti sponsored candidates obtained a little over a million, a shade less than 50 per cent of the total votes polled. The Congress, which had put up 119 candidates and won 54 seats, polled 7,60,000 votes. About 44 per cent. of the city's 1.6 million voters exercised their franchise.

### LATE SIR ASHUTOSH MOOKREJEE

In observance of the Thirty-Third Death Anniversary of Sir Ashutosh Mookerjee on Saturday, the 25th May last, wreaths were placed at the memorial situated on the crossing of Bentinck Street and Chittaranjan Avenue. Many college teachers were present.

The Sheriff, Shri S. C. Roy, who conducted the meeting, said that Sir Ashutosh fought fearlessly against alien rulers for the independence of Calcutta University and for the spread of national education. Referring to his correspondence with the Governor of Bengal, Lord Lytton, he said that it was evident that Sir Ashutosh took a firm stand against official interference in the University administration.

In the evening a meeting was held at Darbhanga Building, Calcutta University. It was presided over by the Vice-Chancellor of the University, Prof. N. K. Sidhanta, who dwelt on the life and work of Sir Ashutosh. Devotional songs were sung.

## Calcutta Looks Ahead

### TEXT BOOK BANKS IN CALCUTTA

Calcutta University has requested the affiliated Colleges in the city to start Text-Book Banks to commemorate the Centenary of the University and to start with the Intermediate Course for the present.

The University will also create a few Centenary Research Scholarships of Rs. 200/- per month.

### THREE-COACH TRAM CARS

The Calcutta Tramways Company will introduce three-coach trams and has approached the Government for permission. The decision was taken at the last meeting of the Company's Board of Directors held in London. Three-coach trams will be introduced in the Kalighat-Dalhousie Square Section. Two of the coaches will be second-class and the third first class.

### AN ALL-WEATHER AIR-PORT AT BEHALA

A Rs. 10-lakh scheme for the construction of an all-weather airport at Behala, has been prepared by the Civil Aviation Department under the Union Communications Ministry.

Mainly meant for the operation of Bengal Flying Club planes, it will also be made for its use by other small air-crafts now operating from Dum Dum as it is not possible to mix this type of flying with the heavy air traffic movement at Dum Dum.

The West Bengal Government has taken steps to acquire land measuring about 178 acres for the purpose. The proposal for an aerodrome at Behala has been pending since 1952.

### A FOOD LABORATORY IN THE CITY

A food laboratory of the Union Government will be housed in a new three-storeyed building in Kyd Street, soon. Shri K. C. Reddy, Union Minister of Works, Housing and Supply, visited the building recently.

The building occupies a portion of the premises where Sir David Ezra lived. The premises, which have been requisitioned by the Government, already accommodates some offices.

### AN EXHIBITION OF DOLLS

Organised by Shankar an International Exhibition of Dolls was opened by Dr. B. C. Roy on Thursday, the 30th May, at the Government College of Art and Crafts Calcutta. Dolls from 57 countries, including India, were on show.

Dr. Roy said that dolls represented the creative instinct of man. They also showed the type of environment in which they had been produced. Everyone who was alive to his responsibility wanted to create something, and in this he gave representation to a new idea.

Prof. Nirmal Kumar Sidhanta, Vice-Chancellor of Calcutta University, said that from the exhibition one would understand that doll-making was really a form of art and represented the creative imagination of a country.

Requesting Dr. Roy to open the exhibition, Lady Ranu Mookerjee said that the exhibits had a great appeal for the public.

**HOUSE DRAINAGE—New Connections**

The following new sewer connections were effected during the week ending 2nd December, 1956 :—

**DISTRICT IV**

Premises No.	No of Connections	Date of Connections
P-806, Block 'P' New Alipore	1	27-11-56
85/1B, Beltola Road	1	28-11-56

## CITY NEWS PARADE

**EXHIBITIONS IN THE CITY:** A number of Exhibitions were organised in this city during last few days. The State Chief Minister, Dr. B. C. Roy, inaugurated two of the exhibitions and another by Shri Bhupati Masumdar, Minister of Commerce and Industry. Dr. Roy, in course of his speech called upon the industrialists to give an artistic touch to the products they manufactured and take lessons from the Japanese producers in this matter. He was then opening an exhibition of books and bamboo crafts of Japan at Artistry House, Park Street, on Tuesday, the 28th May.

Dr. Roy also said that any industrial product could be made a piece of art "if we put vigour and sincerity in it". The exhibition, has shown how even a small thing like bamboo could be made artistic provided "we work with enthusiasm", he added.

Mr. Takano the Consulate-General for Japan in this city, said that the reason that the Japanese put so much energy to any work of art was that they believed in the saying "the art is long and life is short".

Shri Asoke Mitra, Secretary, Commerce and Industries Department, West Bengal Government, said that by this exhibition the designers of our country would have an opportunity of knowing more directly and intimately the nature of Japanese handicraft.

A fascinating exhibition of handicrafts of Bankura District was inaugurated at Chittaranjan Avenue, Calcutta, on Wednesday, the 22nd May last. It was sponsored by the State Directorate of Industries at its Commercial & Industrial Museum.

Very reasonably priced and beautifully displayed, the handicrafts of the district included the famous traditional terracotta products of Panchmura, pottery of Sonamukhi with its remarkable red colour, silk matka and cotton textiles, brass and bellmetal wares, bamboo products, metal dolls and toys, conchshell carvings and musical instruments, all bearing the distinctive stamp of the district's artisans.

Shri Mazumdar, who inaugurated the exhibition, said that artisans throughout West Bengal faced a common problem: how to regenerate their dying industries. The people and the Government should co-ordinate efforts to revitalize these handicrafts.

**CALCUTTA'S WEATHER CONDITIONS UNDERWENT CONSIDERABLE CHANGES** when a nor-wester broke over the city on Monday afternoon, the 27th May. The weather forecast for the day was 'fair to cloudy'. The city had then been experiencing the hottest days with maximum temperatures levelled up above 102 degrees continuing over a fortnight.

As a result of Monday's squall the temperature dropped by eight-degree, from 34 degree C (94 degree F) before the storm to 26 degree C 79 degree F immediately after it. The rainfall recorded at Alipore was 11.2 mm or 0.44 ins.

Trees were uprooted in many parts of the city and a large number of branches broke, blocking roads and snapping overhead electric wires during the squall. As a result electricity also stopped in several areas. An uprooted tree fell on the overhead tram wires on Ashutosh Mukherjee Road injuring a 15-year old boy.

Huts within the premises of the Beliaghata Infectious Diseases Hospital collapsed, displacing about 50 T.B. patients,

mostly women. At many places tin roofs were blown away. A wall fell on a 20-year old man, in Metiabrus area. An uprooted tree destroyed a hut in Gobinda Bose Lane. A tin shed measuring 10 ft. by 15 ft. was carried away to the compound of adjacent houses in European Asylum Lane. A country boat laden with 200 bags of betelnuts sank in the Hooghly, near jetty.

However, the city had some relief from sultry heat on Thursday, the 30th May, when a thunder squall passed over in the afternoon. It was accompanied by light rain and it brought down the temperature by 7 degree—from 37 degree C immediately before the squall to 30 degree after it. There was further rain at night.

The maximum temperature was 3 degree C above normal and the minimum 4 degree C above normal on that day. Rainfall recorded 0.5 millimetre for the day.

**AN ABSOLUTELY PEACEFUL GENERAL STRIKE AND HARTAL** was observed in the city along with the rest of West Bengal in protest against the new tax proposals of the Government of India and the soaring prices of essential commodities on Thursday, the 30th May. This shows the city's concern and resentment when a call was given by the leftist leaders who also arranged a huge mass rally at the foot of the Ochterloney Monument in the evening.

The city life was paralysed when the demonstration began in the morning and ended after 5 P.M. Trams and buses, State or private, were off the streets during the period. A few vehicles on No. 3 route begun to ply after 5 P.M. Very few taxis and private cars, other than those belonging to the exempted categories, were on the road. Automatic traffic signals were not switched on until 5 P.M. Markets and shops were closed in most parts of the city and suburbs. Some eating houses were open. Even business through back-doors was difficult. Train services to and from Howrah and Sealdah were disrupted in the morning, mainly because of interference by demonstrators.

Attendance at Government offices and private firms was very thin, in many of them only officers reporting for duty. In Banks and Insurance Offices virtually no business was transacted. Not more than 10 per cent. of the Telephone clerks reported on duty.

Similar scenes were also witnessed in Corporation offices. Although conservancy was in the exempted category, the service was paralysed and the streets remained uncleared. In the next day increased services had to be arranged to clear up the huge garbage accumulations on the streets.

As on previous occasions youngsters dominated the streets, road junctions and public places to intercept vehicular traffic. The Police arrested 17 persons in different parts of the city.

The Maidan meeting in the evening adopted a resolution protesting against "the anti-people tax policy of the Congress Government".

The resolution stated that levy of additional excise duties would not have been necessary, had the Government taken measures to stop all tax evasions, to keep in abeyance payment of compensation to the landlords, to stop payment of privy purses to the princes, to cut down the salaries of the President, Governors, and high officials.

Dr. Suresh Chandra Banerjee, who presided, said that the overwhelming success of the hartal indicated the intensity of people's resentment against the new tax proposals and the rising prices of commodities. The others who spoke included Shri Hemanta Kumar Bose, M.L.A., Shri Jyoti Basu, M.L.A.

# CORPORATION NOTICES

## To All Registered Petty Improvement Contractors

### District No. IV, Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Monday, the 10th June, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. Works may at the discretion of the Commissioner be forfeited.

5. Providing fountain in Dudwajla Park on Kalighat Road—Rs. 3,193/- dated 27th May, 1957 (2 months).

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supt., S. S. Hogg Market.

## VIEWS AND REVIEWS

### MAKING THE CITY CLEAN AND WORTHY OF LIVING

Citizens' Committees would be organized in different Wards of the city in order to expedite the move for making the city cleaner and worthy of living. At the weekly meeting of the Corporation on Friday, the 7th June, the Members of the House accepted the Mayor's suggestion that they would set up Citizens' Committees in their respective areas to associate the public more closely with the civic administration. The Mayor, Dr. Triguna Sen, thought that such Committees, which might take the shape of Monalla Committees, would be able to suggest the Corporation authorities for the improvement of conservancy and other essential civic services.

The Mayor said that it was not possible for the Councillors and employees both, to ensure healthy and happy life in the city. The Corporation must have the fullest public co-operation. If the Councillors organized citizens' committees in their areas, and these committees were given official recognition, the decisions and suggestions made in these committees in regard to water supply, conservancy and drainage could be considered in the Standing Committees of the Corporation. If the public share responsibilities with the administration, the objectives of civic services could easily be achieved, he added.

Earlier, Dr. Sen was complacent to remark that the respective Standing Committees did a good work during these days. He said that the Standing Finance Committee should deserve special mention in this regard.

Attempts to set up similar Committees were made in the past. There were Ward Health Committees in the thirties which used to do a lot of good work as regards health matters, and their services were recognised fully. Still they had to

bid fair. Within recent few years there were attempts to set up Cleaner Calcutta Committees in different localities for undertaking campaigns of a Cleaner Calcutta movement. The work mostly restricted on Tustee cleansing. In this regard help and co-operation of local citizens were enlisted. And these Committees were asked to work in co-ordination with a Central Committee headed by the then Mayor, Shri Satish Nath Mookerjee. But unfortunately the functions of those local committees could not be continued due to several reasons.

No doubt, it is quite true that the Corporation itself cannot discharge its functions properly without the whole-hearted co-operation of its citizens. And the new Mayor's suggestion for formation of Citizens' Committees at Councillors' initiatives in their respective wards in order to associate the public more closely with the civic administration, is commendable as well as will receive appreciation from all quarters.

### FOOD ADULTERATION

The Corporation would soon meet at a special meeting to find out ways and means in order to take effective measures in checking food adulteration in the city. It would also discuss the need for stopping hoarding of and profiteering in food-stuffs.

Both the menaces are growing at large and it has long agitated the Mayor's mind. Dr. Sen was anxious to do something in this regard and he expressed his desire earlier. The City-Fathers in many of the weekly meetings of the Corporation in the past showed an equal concern on the problem.

At the weekly meeting of the Corporation on Friday, the 7th June, the Mayor was cheered when he referred to another important matter affecting

the city life. He said that because of hoarding and profiteering, it had become impossible for people to procure essential consumer goods. Besides high costs, the quality of goods available was not satisfactory and many of them were adulterated.

In order to evolve definite steps to stop such malpractices, the Mayor would fix a date for this meeting in consultation with the leaders of different parties in the Corporation.

Prices of essential commodities particularly of foodstuffs had shown signs of upward rise since a year back. Natural calamities and other reasons were responsible for such rise in prices of foodstuffs. The Import Restrictions, as prescribed by the Government of India, had caused a further rise in prices of some of the necessities including medicines. The recent taxation proposals of the Government of India have added to the burden considerably.

But it should be remembered at the same time that hoarding or artificial shortages created by bottlenecks for the purpose of high profiteering was equally responsible in the rise of prices. Reports of such cases were published in the Press. This has prompted the citizens to believe that such anti-social practices are still in existence, and reminds the necessity of a strong hand to deal with the matter.

Even in that weekly meeting Councillor Narendra Nath Sen pointed out one such instance of creation of artificial shortage of rice by the stockists. At his request the Mayor also requested the Commissioner to write to the Government for immediate clearance of stocks when Councillor Sen referred a Press Report that large stocks of rice were lying uncleared in railway yards near Calcutta and demanded that the Government should allow no time to the traders to remove their consignments. While he was mentioning the matter in the House on Friday evening, 147 wagons of rice, each containing 20 tons, remained to be unloaded causing congestion at the Cossipore Road Station, Chitpur Yard. Some more rice wagons were expected to reach there at that night.

As regards food adulteration, the citizens' patience has been taxed to the saturation point. The menace is still prevailing in the city and sooner it is eradicated the better for the citizens. The Corporation had stood against it in the past. But due to some lacunae in the existing Food Adulteration Act it can not be implemented fully. And the Mayor's attempt in this regard would also receive co-operation and co-ordination from the citizens.

#### AMBULANCE VANS

For some time past complaints have been pouring forth to the Corporation authorities against the poor ambulance services in the city. When the city is being swept over by three epidemic diseases the necessity of adequate number of Ambulance Vans are, no doubt, the prime need in removing suffering patients to the hospitals.

An enquiry to go into the complaints was made earlier by the city's Health Officer, Dr. A. Mukherji, at the instance of the Chairman of the

Standing Health Committee, Dr. Sukhbehari Mukherjee. Councillor Dr. Mukherjee in a statement in the House on Friday, the 7th June, explained the operational difficulties of the Corporation ambulances. He admitted that there was truth in some of the public complaints about the working of the ambulance fleet.

Explaining the difficulties he said that in all there were 22 vans, one of which was unserviceable. Of the remaining 21, at least half a dozen were unworkable on any day. Generally, 13 am-

---

#### DEATHS AND DISEASES IN THE CITY DURING MAY, 1957

During May, 1957, the city was in the grip of two epidemic diseases, cholera and small-pox. Cholera was a late visitor having its attack started from the early part of April. Small-pox attacks reported even earlier and it was towards early part of March. The number of deaths from the disease was, however, on the wane towards the end of the month under review.

Total attacks and deaths from small-pox during the four weeks of May were 341 and 249 respectively. During a corresponding period in previous year there were 83 attacks and 82 deaths from the disease. The weeks ended on the 4th, 11th, 18th and 25th instants in the month of May. Altogether 340 persons were attacked from cholera during the month and this resulted in 165 deaths. Almost a double the number was the attacks and deaths from the disease during the corresponding period last year. 890 persons were attacked and 307 deaths occurred from cholera during that period.

Malaria took a negligible number of lives totalling 13 only against seven in the previous year. Typhoid was responsible for 47 deaths during the period under review against total 43 deaths in May, 1956. 168 persons died of Tuberculosis against 139 in a previous year.

Deaths from all causes totalled to 3,394 during four weeks of May, 1957, while the number was altogether 2,830 in the corresponding period last year.

---

balances were available for service during the day and even at night. But as the number of drivers and attendants were limited any absenteeism among them due to illness affected the services.

Councillor Dr. Mukherjee suggested that there should be a number of extra drivers and attendants to avoid such delay in future. The number of vans should also be increased. Five ambulances purchased three years ago were found to be unsuitable to carry patients suffering from heart diseases and expectant mothers.

From an enquiry into the matter the Chairman continued that on June 1, 143 calls were received, 93 could not be attended to in time. Ambulances could be sent in half of these 93 cases within 15 minutes, and within three hours in the

rest of the cases. In one case attention was delayed by four hours. He said that non-compliance of a request within a few minutes was as good as failure to attend the call.

On the 2nd June, 20 vans were put to service and 18 were allotted for the day time. But unfortunately due to the continued absence of the drivers and attendants the regular service could not be maintained. And hence the extra staff was suggested.

Just on the allegations made by the Press on investigation was made by the Health Officer and it was found that actually there were shortages of Ambulance Vans in the city in comparison with the increased number of citizens at present. Dr. Mukherjee took no time in submitting a scheme to the authorities pleading for larger number of vans and other equipments for an extended service. The Health Officer also thought that at least ten additional vans would be needed to run the service in the city properly. At the same time he felt the need of increased number of beds in city's hospitals.

Now the authorities along with the Standing Health Committee is to see that the scheme is actually translated into action.

#### MISS OLIVE PEMANTLE

We are glad to announce the nomination of Miss Olive Pemantle, an Inspectress of Corporation Schools to the West Bengal State Legislative Assembly in the new House. She has been nominated by the State Governor, Shrimati Padma-ja Naidu, to represent the Anglo-Indian community in the House.

MISS O. PEMANTLE

Miss Pemantle's life is an inspiring story to others. Although an M.A. of the Calcutta University she had little opportunities to attend class lectures. She joined Corporation for the first time in 1927 as Headmistress of a Primary School, Bustee type. After obtaining her B.T. Degree, she was a Lecturer of the Teachers' Training College, Corporation, for some time in 1941. She was permanently appointed as Inspectress of Schools in 1946, and was given charge of the schools lying in the northern part of the city.

As a social worker she earned a name earlier and in 1948, she was appointed a Honorary

Presidency Magistrate of the Children's Court, Lower Circular Road. The post is still being held by her and she has got herself mastered both in Bengali and Urdu in the meantime. Her latest achievement is securing the degree of L.L.B., in 1954.

As a true catholic she attends Church every Sunday and devotes herself to social upliftment work of her community.

We also extend our felicitations to Miss Olive Pemantle on her nomination as an M.L.A.

#### DELAY IN PAYMENT OF PROVIDENT FUND DUES

Difficulties have been experienced since a long time past in the payment of Provident Fund money dues to the employees who retired or died while in service. The delay in paying the money has now become chronic and after a careful scrutiny it has come to light that the cause of such delay is some minor defects in dealing the cases.

Failure in registering the names of proper nominees is also one of the factors that has contributed much for growing delay in payment.

The question of speedy payment of Provident Fund dues to the employees, thus has been agitating the minds of the Corporation authorities. Instructions were issued in the past from time to time in order to expedite the payment.

The Municipal Act, 1951, has expressly provided that Provident Fund Money and Special Contribution to Provident Fund Money, which is as good as gratuity payable to an employee upon his retirement, should be paid to him within six months of retirement. Through a circular in 1951-52, procedures to be followed for early payment were brought to the notice of all. Looking into the delay in payment a circular in 1950-51, originated by the then Chief Executive Officer, the late Shri R. S. Trivedi, I. C. S., demanded that every department should maintain a Register of Provident Fund cases recording the progress made in every month in respect of each and every individual case.

The payment of the Corporation's contribution to the provident fund and that of gratuity have been withheld, even for late attendance of an employee for a day, noted by the Head of a Department. Legal opinion on audit objections, another reason contributing to delay in payment and on several other matters was sought by the Corporation from the Advocate-General, West Bengal, who gave his opinion on the issue some time in December last.

Pained to find delay in payment of Provident Fund dues the Mayor, Dr. Triguna Sen himself convened a conference of all Corporation officials dealing with Provident Fund cases on Thursday, the 6th June. The Commissioner, Shri B. K. Sen, the Finance Officer and the Manager, Corporation Provident Fund, Shri P. Mitra, and others were also present. Some ways and means were thought out on that occasion in order to ensure a speedy payment of dues. It was suggested that in order to avoid unreasonable delay in auditing and arranging payments of provident fund dues the Accounts' Department should proceed in an easier way. Heads of Departments had also been instructed accordingly.

The Commissioner, Shri Sen, in an earlier circular, regretted that the statutory obligation of payment of dues within a scheduled period is now being observed more in the breach than in compliance. In his directions to the Heads of Departments, the Commissioner drew the attention of the members of the Provident Fund Institution to duly nominate person or persons to whom their Fund dues should be paid in case of death, because want of a nominee very often held up payments for a long time. The direction also included instructions for immediate payment of an employee's own contribution to the Provident Fund. The time allowed for this purpose is one month only. A settlement of all claims should however be made within three months of an employee's retirement or death.

The direction also prescribed certain additional procedures to be followed in records and books.

We are, however, to watch and see the result of such Conferences and instructions taking a proper shape and the employees' miseries are lessened.

#### SHRI SAMAR CHAKRABORTY IS DEAD

We deeply regret to announce the death of Shri Samarendra Nath Chakraborty, a well-known Calcutta journalist. He was knocked down and killed by a train on the railway track near the Tollygunge Bridge adjoining the Lakes on Thursday the 6th June. He was 40.

SHRI S. CHAKRAVERTY

The late Shri Chakraborty went for his morning walk in the Lake area and was going to visit a house on the other side of the railway line when the tragic incident occurred.

The late Shri Chakraborty, who had a fine physique and a genial temperament, enjoyed a unique popularity both among his colleagues in the profession and the people he used to contact for news. And thus his death would be a great loss to all of them particularly to those who were closely associated with him.

Immediately after taking his B. A. degree from the University of Calcutta, the late Shri Chakraborty joined the United Press of India as a Reporter about 20 years ago. He was connected with a number of dailies in the city for many years and for some time with 'The Statesman'. At present he was closely attached to Amrita Bazar Patrika and the Jugantar.

As soon as the tragic news spread over the city a large number of the late Shri Chakraborty's friends and admirers rushed to his place, Kalighat. Many of them also attended his funeral at Shana-gore Burning Ghat. These included the Ex-Mayor, Shri Sats Chandra Ghosh, Shri B. Sen Gupta, Managing Director, U. P. I., Dr. D. Chakraborty, Registrar, Calcutta University and others. Wreaths were also placed on his bier on behalf of individuals as well as on behalf of Calcutta Press Club, 'Indian Journalists' Association and others.

The late Shri Chakraborty's death was widely

#### DEATHS AND DISEASES IN THE CITY

Attacks and deaths from cholera in the city during the week ending the 1st June, 1957, were 73 and 24 respectively against 84 and 28 in the previous week. During a corresponding week last year there were 179 attacks and 55 deaths from the disease.

Small-pox had 32 attacks and 26 deaths during the week against attacks and deaths 57 and 49 respectively in the previous week. Attacks and deaths from the disease during corresponding week last year were five each.

Malaria took three lives only and Typhoid was responsible for ten deaths.

61 persons died of Tuberculosis during the week against 51 persons in the previous week. Last year there were 27 and 34 deaths during the corresponding fortnight.

Deaths from all causes totalled 850 during the week against 886 deaths in the previous week. During a corresponding fortnight last year deaths were 656 and 687 respectively.

mourned. Different organizations and institutions condoled his death including the U. P. I. Office.

The Calcutta Corporation's weekly meeting on Friday, the 7th June, mourned his death and adjourned its sitting for ten minutes as a mark of respect to his memory. Paying homage to the memory of late Shri Chakraborty the Mayor, Dr. Triguna Sen, said that he was the most lovable and popular among the young journalists. He took keen interest in reporting news relating to Corporation affairs. The Mayor extended his sympathy at the bereavement of the working journalists as well as to the members of his family.

Our sincerest condolences go to the members of the bereaved family.

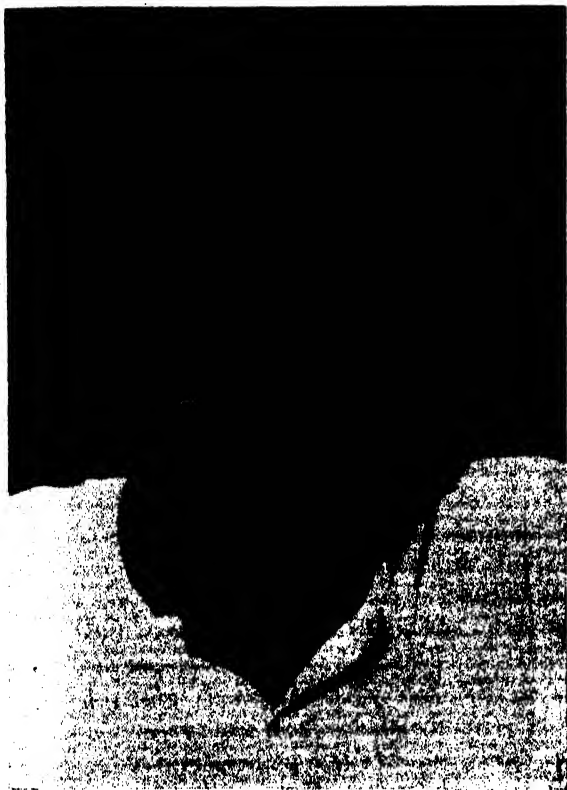

#### SECTION 144 IN ASSEMBLY HOUSE AREA

The Commissioner of Police, Calcutta, issued orders under Section 144 Cr. P. C. prohibiting meetings and processions in the Assembly House area. The area is bounded on the north by Hastings Street, on the south by Auckland Road and Lawrence Road up to the south gate of Raj Bhavan, on the east by Government Place West and on the west by Strand Road.

**Personnel****SHRI SANKARDAS BANERJEE****ELECTED SPEAKER**

Shri Sankardas Banerjee, a well-known Calcutta Barrister and formerly Standing Counsel of State Government, has been elected as Speaker of the West Bengal Legislative Assembly, at its opening day, the 4th June.

Shri Banerjee who was a nominee of the Congress Party secured 146 votes and defeated his rival Shri Sisir Kumar Das, a Barrister, who was supported by all the other parties. Shri Das polled 95 votes.

SHRI SANKARDAS BANERJEE

The Speaker's election was conducted by Shri Asutosh Mullick, the Acting Speaker, who was the first to congratulate Shri Banerjee. As a Leader of the House, Dr. Roy congratulated Shri Banerjee. He said he was sure that Shri Banerjee would maintain the dignity that attached to the Chair and the tradition that the House had inherited from the previous Speakers. Shri Jyoti Basu and others followed him in felicitating the Speaker.

**A SHORT LIFE**

A leading Barrister of Calcutta High Court and forceful debater, Shri Banerjee was elected from the Tehatta Constituency in Nadia District.

**NEW STANDING COUNSEL**

The West Bengal Government has appointed Shri Anil C. Mitter, Barrister, as the Standing Counsel and Shri Banamali Das, Bar-at-Law, as the Junior Standing Counsel in the Calcutta High Court.

Shri Mitter graduated from the St. Xavier's College, Calcutta, and was called to the Bar in the year 1932 and Shri Das who graduated from Cambridge was called to the Bar in the year 1935.

Shri Banerjee was a member of the Council from 1952 until he resigned its membership recently.

Born in Calcutta in 1908, he was educated at Hindu School, Vidyasagar College and University Law College. He joined the Calcutta High Court as a Vakil in 1927 and was later called to the Bar from Lincoln's Inn, London. In 1950 he was appointed Standing Counsel of the West Bengal Government.

Shri Banerjee has been associated with many educational institutions, including Calcutta University, and takes a keen interest in farming, rural welfare and the education of the backward classes.

Shri Asutosh Mullick was also elected as the Deputy Speaker of the House. His election was not contested.

We offer our felicitations to the newly elected Speaker and the Deputy Speaker.

**—'FLU' PERSISTS ON IN THE CITY**

(Continued from Page 159)

The disease continues to take its highest toll among people who have to do outdoor work. The Calcutta 'Flu' keeps the victim confined to bed usually for seven days, it exercises a tremendous weakening effect for about a fortnight after recovery.

Doctors dealing with influenza cases do not encourage too a rigid restriction on food. They say that if the patient has any appetite he must eat his normal food. Too much of restraint in the matter of food tends to lengthen the period of convalescence, according to a few doctors.

Referring to the influenza epidemic in the city Councillor Dr. Sukhabehari Mukherjee, Chairman of the Standing Health Committee, in the weekly Corporation meeting on 7th June, suggested that as a preventive measure games, cinemas and public meetings should be stopped for the time being. Delaying of opening of Corporation schools after summer vacation was suggested by him. Dr. Mukherjee also said that so far no preventive measures had been prescribed against influenza which has taken an epidemic form. The above suggestion may however be partially successful, he emphasized.

The only assuring factor, so far at any rate, has been that the type of influenza found in Calcutta is not the virulent one which assailed South-East Asia recently.

There seems little really that one can do about prevention except follow very carefully the dos and don'ts laid down in a recent Press Note issued by the Government of West Bengal e.g., avoid crowds and alcoholism, take frequent gargles, mix common salt in water. And, if despite all these precautions, trouble does come the doctor is the only man who can help a suffering patient.

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE FOURTH ADJOURNED MEETING OF THE CORPORATION HELD ON FRIDAY, THE 31ST MAY, 1957.

## A NEW PROCEDURE TO BE FOLLOWED

Minutes of proceedings of last third adjourned meeting held on the 24th May, were placed before the Mayor, Dr. Triguna Sen, for his signature and acceptance. This was a new procedure followed in the House as provided under Section 103 of the Calcutta Municipal Act, 1951. Lately this procedure was not followed in the stricter sense. During a previous occasion Alderman Dr. Aniya Kumar Basu pointed out the shortcomings in this regard.

It was further suggested that the Minute Book would be kept for inspection by Aldermen and Councillors during office hours as enjoined under the provision of Section 104 of the present Municipal Act.

## AN APPEAL AGAINST ATOMIC EXPLOSION

The House sent its voice of protest to the British Government against the proposed Hydrogen Bomb Explosions to be experimented on the Christmas Isles near Japan on the Pacific Ocean. The protest would be forwarded through the Union Government, Foreign Department.

This was accepted on a motion tabled earlier by Councillor Dr. K. P. Ghosh who said that there were effective results on the soils of West Bengal due to few experiments made recently. Apprehensions were made by the famous scientists about the worsening consequences of these experiments. Even the Indian Prime Minister, Shri Jawaharlal Nehru has expressed his personal disapproval against such experiments. Calcutta's air itself was vitiated with the effects of such experiments in the past.

## RE-NAMING OF A LANE

The House, on the recommendation of the Borough Committee No. 9 re-named Wellington Lane as Raj Kumar Bose Lane. The late Shri Raj Kumar Bose was an Ex-Councillor. He was elected to the House during the general election in March, 1944, but death snatched him away on the 26th September, 1946. During this brief period of Councillorship he tried his utmost to serve the citizens as well as the rate-payers of

his locality. He was also the President of the Central Calcutta District Congress Committee and a superior of the Forward Bloc founded by Netaji Subhas Chandra Bose.

The late Shri Bose was born in November, 1892 at Harinavi, 24-Parganas. Appointed as a Solicitor of the Calcutta High Court in 1917, he built up an extensive practice and lived on that part of the city from 1930 till his death.

Wellington Lane was named after the great British General Duke of Wellington and a former Governor-General of India.

Earlier a motion was tabled in the Borough Committee to that effect by Councillor Dharendra Nath Dhar, who noted the feelings of the local people in order to perpetuate the memory of that great citizen.

## —VITAMINS

(Continued from Page 160)

to boil them with the jacket on. As it is found in the outside layer of vegetables (and that vitamin being water soluble) it is better not to wash them too much after cutting them into pieces just before cooking. In scurvy, a condition caused by want of this vitamin, small blood vessels get weak and break easily so that the patient bruises at almost the slightest blow. The gums are puffy and bleed easily. Long before we had any knowledge of this vitamin, an official of the British Navy discovered that if the sailors ate limes during long voyages, they were spared from this disease. British sailors are sometimes called "limeys" because of this and a section of the London waterfront where limes were available formerly is yet called 'Limehouse'.

A word to the vegetarians about some of the common foodstuffs and their cooking will not be out of place. In the predominantly rice-eating population of South India, the warning that rice should not be heavily polished resulting in the loss of Vit. V1 should be sounded. Handpounded or parboiled rice is to be preferred. The common practice of washing rice a number of times before boiling it, should be abjured as the water soluble vitamin lying on the outermost layer will be washed away. If everyone could manage to take 10 to 12 oz. of milk—fresh or boiled—and eat fruits as well as also raw vegetables like tomato, carrot and cabbage leaves, then we may fairly be certain that no major deficiency disease will assail them.

The non-vegetarian is in a more advantageous position as his protein requirements are got easily. But it does not mean that he could neglect the necessary vitamin ration with respect to which he stands on a par with the vegetarian and so must take the same steps to get that ration as the vegetarian.—THE 'HINDU'.

## NEW PRINCIPAL FOR R. G. KAR COLLEGE

Dr. H. K. Indra, Deputy Director of Health Services, West Bengal Government, has been appointed Principal of the R. G. Kar Medical College and Hospital. Dr. Indra will be a wholtime Principal. The appointment has been made at the suggestion of the Council of Medical Education Society.

## ANIMATV

### HEALTH AND HYGIENE

## 'FLU' PERSISTS ON IN THE CITY

The onset of Influenza has intensified in the city within a few days. Reports pour in from every section about absenteeism due to attack of the disease. There has been depleted staff in mercantile offices, Government departments and transport services and whereby normal life has been much hampered. Even football clubs have been compelled to postpone their league engagements on the soccer field.

The disease remains unchecked in the city during last week rather it has spread widely affecting almost every family in the city. On Sunday alone, as many as 550 policemen fell ill and out of these a good number was hospitalized. At least 25 per cent. of the doctors and other staff attached to hospitals have become victims of

was the highest number of deaths in a single day so far.

According to medical circles, the incidence of the diseases is continuing to be widespread all over the city, but people still take it as a relatively minor ailment and do not seek hospital assistance in all the cases. Still the demand for admission in hospitals by people suffering from 'Flu' has been heavy and insistent. If this continued, it would

### W. H. O.'S FIGHT AGAINST 'FLU'

THE devastating influenza pandemic swept around the globe during World War I.

Memories of that devastation have been revived by the current outbreaks in various parts of South-East Asia including India.

But there is very little risk that such a catastrophe could be repeated to-day. Under the auspices of the World Health Organization doctors and research scientists all over the world are co-operating to reduce this danger to a minimum.

More than 40 countries have joined in a world wide network of W. H. O. Influenza Centres. These Centres co-ordinate their work with that of a World Influenza Centre which has been set up in London with W. H. O.'s assistance.

The main functions of the World Influenza Centre are to keep watch on changes in the known strains of the 'Flu' virus, to analyse new strains from throat-washings all over the world and to carry out other research needed for vaccine production. Some of the work of the World Influenza Centre are in progress.

### NEW VACCINE FOR 'FLU'

Australian scientists have prepared a vaccine to combat the influenza virus which is sweeping Asia. It is now in mass production.

The Director of the Commonwealth Serum Laboratories in Melbourne, Dr. P. L. Bazeley, said today the first issue of several thousand doses of the new vaccine is expected to be available for general use within seven days.

It will be available first to people most susceptible to infection, such as quarantine officers, airport officials and hospital staff. Later, it will be released to the public.

influenza. Of the patients visiting the out-door departments of hospitals in the city more than 25 per cent. are said to be suffering from the disease. Both the Tramways Management and the State Transport Authorities ran depleted service on the past few days on account of absence of a large number of drivers, conductors and men of the Supervisory staff. A similar number of absenteeism was noticed among the outdoor staff of the Corporation. The Corporation's ambulance service has also been badly affected as a result of influenza among drivers and porters. Business has almost become paralysed in many quarters.

Deaths from the disease have also been reported. Eight persons died of the disease on Friday the 7th June, bringing the total number of deaths from the disease to 26. The dead included two women and two children, one being only six-month-old.

The first victims of the disease were two men, aged 60 and 64, from Beliaghata Main Road and Roy Bagan Street whose deaths occurred on Saturday, the 1st June.

Seven persons died on Thursday, the 6th instant. Of these three had developed complications of the respiratory system, and a woman had previous record of asthma and heart trouble. That

soon be difficult to find accommodation in hospitals for cases deserving admission.

During the week ending the 1st June, reports came of about 435 attacks in the city. Over 260 suspected cases of influenza were treated in out-door hospitals and 24 admitted as in-door patients on Thursday and 23 admitted on the next day. Besides, a large number of suspected cases were treated privately.

Requests for medicine and other help are being received by the State Health Directorate. Mobile health units are finding it difficult to cope with the cases. The sale of influenza tablets and certain sulphur drugs has gone up. As suggested by the Government and Corporation Health Authorities, people suffering from simple coughs and colds with a slight temperature are calling in doctors.

(Continued on Previous Page 157)

# VITAMINS

[By Dr. C. R. KRISHNASWAMY]

For many years we were aware that the essential constituents of a diet were proteins, carbohydrates, fats, certain minerals and water. But when these alone were given in a pure chemical state, the animal died. The natural conclusion was, therefore, that there was some other thing without any calorific value that was necessary for life and growth. It was later found that that thing was "Vitamin" which even in infinitesimal doses served the purpose. It was also conversely proved that absence or insufficiency of these vitamins in our diet caused symptoms of 'deficiency disease' and that such symptoms were relieved on administration of the appropriate Vitamins.

Vitamins are broadly divided in two groups according to their solubility: (a) Fat solubles—A, D, E and K and (b) Water soluble—B Complex group and C.

**VITAMIN A:** The chief sources from which this is obtained are milk and milk products, eggs and cod liver oil. Cow ghee is richer than buffalo ghee. Oils of vegetable origin as those from seeds do not contain this as also ordinary vanaspati. This vitamin is essential for growth, and want or deficiency of this causes retardation of growth, and also brings about, in some cases, night-blindness and, in others, a peculiar dryness and thickening of the skin.

The diet, therefore, must contain, among other things, a minimum of 10 ounces of milk, 1 ounce of butter and some green vegetables to supply the daily want of an individual. British fliers during the Battle of Britain ate carrots to improve their sight during night flying. Carotene, the essential ingredient of the carrot is a big molecule which is split up in the body into Vitamin A and hence this is also another source. Growing children, adolescents, and pregnant women will be all the better for taking cod liver oil regularly. Why? Because the liver of sea animals like cod, halibut and shark, store up Vit. A and the oil containing the vitamins can be squeezed out of it and used. Man is incapable of storing this vitamin and depends on his food for his day to day supply. There is a wide margin of safety in individuals and one need not be alarmed because he or she did not get a supply of this for a few days.

## VITAMIN B

This vitamin is found in many of the sources from which the previous one is obtained, viz., milk and milk fat—butter cream, etc., yolk of egg (not the white), oils from halibut, shark, cod, etc. Synthetic preparations with the same formula as the natural are equally effective.

In the human body, just under the skin, there is a close relative of a substance called cholesterol. When it is therefore exposed to sunlight that molecule breaks and Vit. D<sub>2</sub> with properties similar to Vit. D is produced. All the varieties of Vit. D have the same function, namely they control the

manner in which calcium and phosphate are laid down in the growing bone. In the absence of this vitamin, the bones stay soft or get pulled out of shape bringing about a condition called rickets. Rickets occur only in people whose bones are in the process of growth. So it is a disease of childhood. Milk, which is a perfect food, is short of two things, namely, Vit. D and iron. So these must be supplied to growing children to help strengthening their bones. But in adults, if taken in excess, it may lead to formation of bones in places where it should not, as in joints, leading to stiffness and pain.

## VITAMIN K

Vit. K is the only vitamin which is formed in the body by the bacteria of the intestine. Chemists have produced a synthetic substitute very closely akin to the natural one. So in cases where there is a tendency to bleed, administration of this vitamin is greatly helpful. This vitamin is supposed to help clotting.

## B COMPLEX VITAMINS

There are more than half a dozen members in this group, the most important of them being Thiamine or V<sub>1</sub>, Nicotinic acid, Folic acid, Pantothenic acid, Pyridoxine and B<sub>12</sub>. Detailed description of them will only create confusion. We shall content ourselves with knowing the sources from which we can get all of them as they are absolutely necessary for a sense of general well-being and good health. Brewer's yeast contains most of them and when supplemented with Liver Extract, yolk of egg, germinating pulses and parboiled rice and whole meal bread, you are on velvet with respect to most of the conditions caused by deficiency of any or either of the components of this group.

Beri Beri, a paralytic condition of the limbs with oedema and heart failure, is caused by want of thiamine chloride. Luckily commercial synthetic thiamine is available in concentrated doses.

In persons who live essentially on maize without other foodstuffs to supplement their diet, there occurs a condition known as pellagra with thickened tongue and dry and thickened skin over the arms and hands. Nicotinic acid is the antidote for it.

Different types of anaemias are relieved by folic acid, B<sub>12</sub> and Liver Extract.

## VITAMIN C

This is the most fragile of all the vitamins. It slowly disappears as food stands. That is why the best sources are fresh fruits and vegetables. As it is destroyed by heat, cooked vegetables have considerably less of it than do raw vegetables. Since it is water soluble, it is extracted and lost in the water used for cooking. It is advisable therefore not to peel potatoes with a heavy hand, but

# CITY NEWS PARADE

**OBITUARY:** The death occurred at his residence at Alipore Park Place, South Calcutta, on Sunday, the 2nd June, of Shri Phulan Prasad Varma, seniormost Member of the Damodar Valley Corporation. He was 56.

The late Shri Varma had recently gone to Patna where he underwent an operation for an abscess. He returned to the city on May 31. He had a sudden heart attack on that evening which he did not survive.

Born in 1900, the late Shri Varma took his M.A. and B. L. degrees from Patna University and practised at Patna High Court. Responding to the call of Mahatma Gandhi, he participated in Civil Disobedience Movements and was imprisoned in 1930 and 1942.

He was a member of the Constituent Assembly and was also a member of the Bihar Assembly for three years. A member of the Patna University Syndicate for 15 years and later of the Bihar University Syndicate for three years, he represented Patna at the Oxford Congress of the Universities of the Commonwealth. For some time he was on the Editorial Board of 'Searchlight', Patna.

One of the founder-members of the Congress Socialist Party, the late Shri Varma was interested in social reform. He represented the Socialist Party of India at the Paris Congress of European, Asian and African peoples, presiding at one of its sessions.

The late Shri Varma joined D. V. C. in 1948 and was popular with the staff of the Corporation of which he twice officiated as Chairman. The D. V. C. Office Alipore, was closed on Monday as a mark of respect to his memory. His death was also widely mourned.

\* \* \* \*

The death of a well-known journalist Shri Upendra Narayan Neogy occurred at his Dum Dum residence on Thursday, the 6th June. He was 77.

The late Shri Neogy took up journalism as a profession as far back as 1917 when he joined "The Bengalee" as a leader writer. Subsequently he served in the same capacity on the staff of the "Amrita Bazar Patrika", "Forward", "Liberty" and "Advance." He was also, for a time, Vice-President of the Indian Journalists Association of Calcutta.

The Calcutta Corporation at its weekly meeting on Friday, the 7th June, mourned his death. Paying glowing tributes to his memory the Mayor, Dr. Triguna Sen said that the late Shri Neogy took active part during the Swadeshi movement and was a close associate of late Sir Surendra Nath Banerjee. He took up journalism as a profession as far back as in 1917 and made a mark in it. The House was also adjourned for ten minutes as a mark of respect to his memory.

**ANNUAL CONVOCATION** of the General Council and State Faculty of Homoeopathic Medicine, West Bengal, was held at the Senate Hall, on Sunday, the 2nd June. The convocation was inaugurated by Dr. A. B. Roy, the State Health Minister. About 170 students received Diplomas at the Convocation.

A sum of Rs. 16.5 lakhs has been set aside during the Plan-period for Homoeopathic research, up-grading of

Homoeopathic colleges and preparation of a Homoeopathic pharmacopea. Two of the institutions affiliated to the Council have received an ad hoc grant of Rs. 20,000 each for research purposes.

The Council, has sent its comments on a draft Bill forwarded by the West Bengal Government. It hopes that the Government will soon pass legislation to standardize the training and practice of Homoeopathy in the State.

Shri Hemendra Prasad Ghosh, who presided, said that in Western countries the Homoeopathic system of treatment had been fully recognized and developed through State help. The West Bengal Government, he regretted, had not yet accorded to it the treatment it deserved.

**SOCIAL WORKERS OF WEST BENGAL** met at a preliminary convention at the Indian Association Hall, Bowbazar Street, on Tuesday, the 4th June.

Shri Ram Narayan Chowdhury, Information Secretary and a prominent leader of Bharat Sevak Samaj, spoke on the aims and ideas of social work of the Samaj. Shreemati Charushila Devi of Ananda Ashram, Tollygunge, presided over the Conference. Many social service institutions with their representatives attended the convention.

**ACCIDENTS:** A dinghi carrying five passengers and a crew of four sank in the Hooghly near Princep Mooring, on Saturday the 1st June last. All occupants were thrown into the water. Later, the crew and four passengers swam ashore.

Passengers, who were Chinese carpenters, were returning from work on board the ship City of Chicago, berthed at the mooring, when the accident occurred.

**CALCUTTA'S MOBILE TRAFFIC COURT** has convicted 30 drivers of vehicles, mostly private cars, for violation of traffic rules during the past two weeks. The court began to try petty cases on the spot on May 18. It sentenced offenders to fines ranging from Rs. 5 to Rs. 20. The charges were mainly parking on the grass on the Maidan and sounding horns in the no-horn area before the Medical College Hospital.

The Court, was in session on Tarachand Dutt Street and Ramlochan Mallick Street in the Jorasanko area on Saturday. Lorries constitute the bulk of the vehicular traffic on these roads. The court has functioned so far only on Saturdays.

**CALCUTTA EXPERIENCED A FAIRLY HEAVY SHOWER** on Friday, the 31st May. The rainfall had also covered the adjoining areas of the city which helped the farmers to undertake to cultivation of annual crops. This is said to be the precursor of the monsoon.

There was a drop in day's temperature in the city as a result of the thundershower—from 33 deg. C immediately before the squall to 24 deg. C after it. According to Alipore meteorologists, the monsoon is fast approaching Gangetic West Bengal.

Conditions, they added were unsettled in East Central Bay where a depression was likely to form. Then the progress of the monsoon would be hastened.

Weather was tolerably fair on Saturday, the 1st June when the maximum temperature rose to 37 deg. F which was

still 2 deg. F above normal. The rainfall was negligible. A normal temperature was however, maintained on Sunday, the 2nd June. But since Monday, the 3rd June, the maximum temperatures began to rise and on Thursday, the 6th June, the temperature shot up to 108 deg. F. The city had another oppressive day with a hot spell blowing over, although there was forecast for thunder-shower and possibility of rains. The day's temperature was 8 deg. F above normal. On Wednesday, the temperature was 6 deg. F above normal. Meteorologists expected the spell to end in next few days as it had been due to north westerly dry wind caused by a western disturbance in the extreme north-west part of India.

NEW WEST BENGAL LEGISLATIVE ASSEMBLY'S OPENING SESSION was inaugurated on Tuesday, the 4th June, by the State Governor, Shrimati Padmaja Naidu. Through her 45-minute address to a joint session of the State Legislature, the Governor dealt with the food problem in the State which has occupied uppermost in the minds of all and causing great concern. She mentioned about the persistent rise of the price of rice, and local shortage in many of the districts. The next subject in her address related to the unending stream of refugees entering the State from the East Pakistan. This has caused heavy strain on the State's economy. The other points referred to by the Governor were the implementation of the Second Five-Year Plan in relation to the State. Condition of public health and education in the State also received her attention.

The discussion on the Governor's speech continued for three days and a motion of thanks was passed by 148 votes to 88 on Friday, the 7th June. The debate was initiated by Shri Jyoti Basu, leader of the Communist Block in the House, on Wednesday, the 5th June. He was followed by Shri P. C. Ghosh, leader of the Praja Socialist Block and Shri Hemanta Kumar Basu, leader of the Forward Bloc group. The members who took part on that day's debate were Shri Shamadas Bhattacharyya, Shrimati Labanya Probha Ghosh, Shri Jagannath Mazumdar and others.

More than twenty members took part during the last two day's debate. Among the Calcutta M.L.A.'s who spoke on the subject were Shri Pejoy Singh Nahar, Shri Ganesh Ghosh, Shri Jatun Chakravarty, Md. A. O. Ghani, Shri Somenath Lahiry, Shri Amar Bose, Shri Sunil Das and others. The debate was winded up by the State Chief Minister, Dr. B. C. Roy. Before that Ministers Shri Sidhartha Roy and Shri P. C. Sen also replied many of the points raised by the Opposition.

The proceedings of the new House were watched by a large number of visitors on all the days. Most of the speakers made their maiden speeches and some of them were quite impressive.

There was a common point, however, in the speeches of the members of both the sides, and they expressed concern at the grave food situation in the country. Some Opposition members also spoke of retrenchment of workers, progressive decline in the percentage of Bengalis employed under certain industries, increasing unemployment, the rising price level, the worsening tax burden, continuing incidence of small-pox, cholera, and tuberculosis and corruption particularly in the Refugee Rehabilitation Department.

The points were countered by Congressmen who referred to the achievements of the Government, especially in increasing agricultural production and improving villages. They also took pride in the fact that First Five-Year Plan had been successfully implemented.

Replying to the charges made, the State Chief Minister, Dr. Roy briefly referred to the Government's achievements in different spheres during the past five years and ended on the optimistic note that "come what may, we shall make the Second Five-Year Plan a success".

The Food Minister, Shri Sen was, as usual, full of statistics. He said that food production had increased from an average of 3.5 million tons a year during 1946-51 to an average of 4 million tons during 1951-56. But at the same time population had increased and he estimated the present population of the State at 29.3 millions. He also made a brief reference to the refugee problem in the State.

The Judicial Minister, Shri Sidhartha Ray by a befitting reply established his reputation as one the best speakers in the new House. He showed that he could effectively counteract Opposition attacks on him.

STATE LEGISLATIVE COUNCIL also met at the same time and debated on the Governor's address for two days. On Thursday, the 6th June, of the first day of debate the Opposition members strongly criticised the Address what they called the Government's failure to tackle food, unemployment and educational problems effectively. Rehabilitation of refugees in the State was also dealt by them.

The debate was initiated by Dr. Manindra Mohan Chakravarty. The other speakers included Shri Mahitosh Roy Chowdhury, Sri Satyapriya Roy, Dr. Charu Chandra Sanyal, Prof. K. P. Chattopadhyay, Shri Krishnakumar Chatterjee, Shrimati Anila Debi, Shrimati Santi Das.

The Annual Budget Estimates for the year 1957-58 was also placed in the Council on the first day of the debate.

900 BOOKS ON TRADE AND COMMERCE was vested by Mr. Gordon H. Mattison, the U.S. Consul General in Calcutta, at a brief function held in his office on Tuesday, the 28th May, to the Commercial Library at Indhouse Square run by the Commercial Intelligence and Statistics Departments, Government of India.

Shri C. R. B. Menon, Director-General of the department, who received the books, said that they would be of immense value.

The books were brought to this city by the U.S. trade mission, which recently visited India, to be given as a gift to any library.

NEW PRESIDENCY MAGISTRATES: The gentlemen named below have been appointed Presidency Magistrates for a period of one year with effect from the 25th June, 1957, and they had been empowered to sit singly as Presidency Magistrates:—Shri Braj Mohan Bagri, Janab Tayebbhai Mohammedali Zarif and Janab Tayabali Abdeali Mulla.

SOCIAL CRIMES IN THE CITY: The Enforcement Branch Police arrested a person on Monday, the 27th May, on a charge of offering for sale 43 bundles of corrugated iron sheets to a tea estate for a price higher than the controlled one. Six other persons, including a foreigner, suspected to be involved in the case were missing.

It was alleged that the person and his associate also had sold 311 bundles of galvanized iron sheets at a comparatively higher rates to another tea estate.

Making a surprise visit to the Eye Infirmary of the Calcutta Medical College, on Wednesday, the 29th May, the State Health Minister, Dr. Anath Bandhu Roy, detected an employee delivering a quantity of hospital milk to a wardmaster's quarter. He immediately ordered departmental action against the wardmaster.

The Enforcement Branch Police raided a godown at Gun-foundry Road, Comipore on the same day and seized nearly 265 bags of cement suspected to have been obtained illegally by the owner of the shop.

The Enforcement Police also seized 570 pounds of soft coke, said to have been held without permit from different places on Canal West Road, on a previous day during the week. Four people were arrested in this connection.

# CORPORATION NOTICES

## To All Registered Petty Improvement Contractors

*District No. II Engineering Department*

Tenders for the following work are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 11th June, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p. c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

3. Maintenance to Park by providing railings around the groves at Wellington Square, Const. No. 45—Rs. 4,131, dated 3rd June, 1957 (1½ months.)

# PHENEOL LAMP BRAND

## A POWERFUL DISINFECTING FLUID

### —DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,  
Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supt., S. S. Hogg Market.

## VIEWS AND REVIEWS

### RELIEVING WATER SCARCITY IN THE CITY

Calcutta Corporation at its weekly meeting on Friday, the 14th June, has decided to spend rupees one lakh only, to relieve the citizens from the acute water scarcity now prevailing in the city. The city had been suffering from an acute water scarcity for the last few days due to some defects in the Pulta Water Works. Complaints were made against this scarcity of filtered water in the House from different quarters and the consequential people's misery and hardships.

A nine-man Special Committee headed by the Mayor has been appointed by the House in this connection in order to suggest the Executive Head in spending the sum for immediate implementation of water supply in the city. This was proposed by Councillor Anil Maitra and it was unanimously accepted by the House. The sum so desired would come out of the fund set apart for meeting emergency measures in the city and kept at the disposal of the Commissioner, as the Executive Head. The Committee, thus formed, includes the Deputy Mayor, Shri Keshab Chandra Basu, Councillors Ushanath Sen, Deputy Leader of the majority party, Anil Maitra, Leader of the U.C.C., Dr. Parimal Kumar Sen Gupta, Leader of the Independent Block, K. L. Dhandhanian, Chairman, Standing Finance Committee, J. L. Saha, M.L.C., Chairman, Standing Water Supply Committee, Bejoy Kumar Banerjee, Chairman, Standing Buildings Committee, and Subrata Kumar Sen Sarma. Immediately after the day's meeting the Committee sat for consideration of the issue. A spokesman of the Committee assured the citizens that the city's water supply position would be restored to normalcy within a few days. There are also chances of supply of additional quantity of water.

Earlier, the House discussed the problem for nearly two hours on a motion moved by Councillor Anil Maitra, and supported by Councillor Banerjee,

who sought to discuss the problem. About two dozen members re-iterated the acute water scarcity conditions and they said that unless attempts were made to improve the situation the worst might happen. Even a statement from the Commissioner Shri B. K. Sen, could hardly satisfy the House. It stated the reasons of shortage of water supply during the last few days and the measures taken to remove them. Some Councillors pointed out that scarcity of water occurred almost every year during this period mainly because there existed corruption and inefficiency in many of the departments and no improvement in any matter would be possible if steps were taken against this.

In a statement which was originally prepared by the Water Works Department, the Commissioner said that due to prolonged drought which was unusual for this time of the year it had been found that there had been extensive growth of choking varieties of 'Diatom Melosira' in the settling tanks resulting in sudden deterioration of filtered beds due to chokage, which had considerably reduced the output of filtered water. On June 12, the quantity of water supplied from Pulta to Tallah was 73.8 million gallons and 74.8 million gallons on June 13. On the latter date the morning high pressure was affected and it was not possible to maintain the mid-day and night medium pressures and the evening high pressure was actually curtailed for some time. On Friday morning, the 14th June, he said, high pressure was maintained from 5 to 9 a.m. and medium pressure from 9 to 9-30 a.m. and in order to maintain the normal evening pressure the mid-day medium pressure was not maintained.

In order to restore the normal supply Shri Sen said, the following measures had been taken: (1) Scraping of filter beds to the maximum limit; (2) Raking of choked up filtered beds; (3) Application of copper-sulphate in the final settling tanks in order to destroy the 'Diatoms.'

From report of the Superintendent, Pulta Pumping Station, on that afternoon he expected that Friday's total supply would be about 18 million gallons and it was also expected that they should be in a position to give the usual night medium supply.

If further deterioration did not take place, Shri Sen assured that the normal supply would be restored within a day or two.

In the prolonged discussion the Mayor, Dr. Sen said that the situation had earlier attracted his attention and he ordered the Department concerned to sink 800 small-sized tube-wells spreading over the city. For immediate execution the department was asked to proceed even without observing due formalities necessary for the purpose. The sinking of the tube-wells were sanctioned earlier and the cost was to be met from the Borough Fund allotted for the purpose. He was, however, glad to notice that some progress had been made in this matter.

The feelings in the House rose high. Everybody wanted to speak out the difficulties in his Constituency. Others tried to help the House by putting up suggestions. Councillor S. K. Gupta, I. C. S., Chairman, Improvement Trust, stressed the need of implementation of the scheme prepared by Shri M. Das, Deputy Chief Engineer some time back, while acting as Chief Engineer of the Corporation, for the augmentation of water supply. He regretted that the scheme was not given effect to due to some reasons.

Many of the speakers said that Corporation could not justify its existence and should resign if it failed to relieve a fundamental problem like water scarcity.

Councillor K. L. Dhandhanua, Chairman, Standing Finance Committee, pointed out that it was the duty of the Executive to inform the citizens earlier when such trouble was apprehended. They had to face serious difficulties due to this sudden shortage of supply of water.

He also said that of the 59 filter beds 16 were now out of order. These should be repaired immediately.

Councillor Bejoy Kumar Banerjee also felt that there should be a proper supervision over the work in order to extend amenities to the citizens.

Councillor Mukur Sarbadhikari displayed in the House a sample of filtered water collected from the tap of his house, in which a small fish was detected. He also put up another sample collected from his constituency wherein impurities were found.

Going further, Councillor Mihir Ganguly said, "We cannot bluff citizens for all the time. Some concrete measures are essential for solving this problem."

Councillor Subrata Kumar Sen Sarma wanted that in order to improve the situation there should be military like operations in the Department and every possible measure should be taken to augment the supply.

Among others who participated in the debate were Councillors, Dr. K. P. Ghosh, Ganapati Sur, S. K. Dutta, Biman Mitra, Md. Zakir, Sachin Sen,

Dr. C. Mukherjee, K. A. Kishan, Dr. L. M. Chatterjee.

It is, however, to be noted that the water shortage in the city has now affected places where people had previously nothing much to complain about. This is due to development of algae trouble in the filter beds at Pulta which has been caused by the dry spell according to the Department.

The Corporation authorities are taking special measures to remove the algae trouble. They are applying copper sulphate in the settling tanks and cleansing the filter beds. But the beds cannot be cleaned all at one time.

To add to the people's difficulties the tube-wells, which supplement the city's water supply with an additional nine million gallons a day are said to be discharging less water because of the fall in the subsoil water level. This, again, is caused by drought. All these are to be removed at an earlier date to obtain a larger quantity of supply.

#### CALCUTTA 'FLU ON DECLINE

The influenza epidemic which raged over the city during the last fortnight has shown signs of decline. According to a spokesman of the State Health Department much less number of patients suffering from the disease reported to the outdoor department of different hospitals during the last few days. The number of admissions to the hospitals has also fallen during these days. The spokesman further added that many death reports from influenza have been found on investigation to be deaths not actually caused by 'flu. In many of the instances the undiagnosed diseases resulting death were passed for influenza.

According to the experts the epidemic in the city and neighbouring areas is likely to subside in a week. The School of Tropical Medicine experts, engaged in the isolation and identification of the 'flu virus, said on Monday, the 10th June that the disease should not cause any worry although it had visited almost every house in the city and attacked thousands of people.

During the week ending 8th June, 36 persons died of influenza against four in the week previous. This was probably the highest number in a single week. Although on a declining stage still now several hundred 'flu patients visit the hospitals' outdoor wards daily. A Red Cross mobile unit with six doctors and six compounders is treating patients specially in the Bustee areas. The disease has not spared the unfortunate people living in those areas. Even towards the beginning of this week there were reports of larger attacks and larger number of deaths from the disease.

Observation of rules of personal hygiene and sanitation as the most effective preventive measure known against influenza was urged by the State Chief Minister, Dr. B. C. Roy, in a statement recently. A Press Note issued by the West Bengal Government points out that influenza is a highly communicable disease. It is characterized by an abrupt attack of fever, chill, aches in the back and limbs, prostration, and with respiratory symptoms. The cases either end in fairly quick recovery, or run into complications, the most important of which is pneumonia. Infants and those

debilitated by old age or by other diseases usually develop this latter complication.

When a supplementary question was put up by Shri Hemanta Kumar Basu, a member representing the northern part of the city, the State Chief Minister, Dr. Roy stated in the West Bengal Assembly on Wednesday, the 12th June that there was no specific preventive measures against influenza. The present virus was different from that which used to be active in the past. According to Shri Basu about one lakh people had been affected.

Replying to the original question of Shri Basu, the Health Minister, Dr. Anath Bandhu Roy, stated that serological use of the convalescent serum had been found to be rather effective against the 'flu virus by a Calcutta doctor. Further investigation in this connection was continuing. There was no precautionary measure except observance of general hygienic rules. The State Government's Mobile Health Units were distributing medicines to the needy.

In view of the larger number of incidences of the disease the Corporation had extended the summer vacation of its 230 primary schools by 14 days. About 51,000 children study in these schools. The Government has also taken this decision in consultation with the Vice-Chancellor of Calcutta University and the Board of Secondary Education. The private schools and colleges in the City and Howrah have been requested to keep closed until the end of June. Calcutta University classes have been scheduled to start at the same time.

The Health Officer, Corporation, also requested in an earlier statement, to all citizens to take precautionary measures against the epidemic.

However, the crisis seems to be over and disease is expected to show further decline in course of the next few days.

#### QUARTERS FOR EMPLOYEES

The weekly meeting of the Corporation on Friday, the 14th June, approved a Rs. 2-crore tentative scheme for accommodating sweepers, methurs, mazdoors and other menials in the Corporation quarters to be constructed for the purpose. The scheme was forwarded to the Union Government through the State Government of West Bengal, for subvention, subsidy or both from the Union Government.

In the same resolution the Corporation also authorized the Mayor, Dr. Triguna Sen, to take up the scheme with the State and Union Governments and to take necessary steps.

In this connection the Mayor said that he had talked with the Union Finance Minister and a member of the Indian National Planning Commission, Dr. J. C. Ghosh, who had offered 75 per cent of the total cost from Union Government's fund as subsidy towards workers' housing schemes. He would again meet the representatives of the Union Government to ascertain if the offer could still be availed of.

Under that initiative the Mayor requested the relevant Committees to go into the matter and to see if anything could be done at this stage. The resolution came up before the House in the shape of a recommendation forwarded by a joint meeting of the Standing Finance Committee and the

Standing Town Planning and Improvement Committee, presided over by Councillor K. L. Dhanania, Chairman of the Standing Finance Committee, held on the 23rd May last.

When the recommendation was placed before the House, Councillor S. K. Gupta, I. C. S., Chairman of the Improvement Trust, reminded the House that the Corporation's Five Year Development Plan had earlier included a scheme for housing the lower cadre employees. Out of Rs. 86 lakhs allotted for the purpose, there was a proposal to raise half the amount by way of loan at an earliest opportunity. A similar tentative scheme was also prepared. Councillor Gupta thought that it would have been better to proceed with the earlier scheme instead of the present one. But when Dr. Sen acquainted the House with the facts in the back-ground of the present scheme, the House agreed to approve the recommendation of the joint meeting.

Really speaking, the lower-paid employees of the Corporation live under sub-human conditions. Only a small number, who have been accommodated in commandeer buildings, live under roofs while the rest, majority in number, have to live either in tents or in huts. The meagre rate of house-rent allowances extended to them can ill-afford any brick-built house for them.

The Corporation has expressed anxiety in this regard in the past. It has thought of doing away with the commandeer buildings for which it has to run an expenditure in the shape of additional rent to the house-owners. But very little could be done for them. Even the little benefits of Industrial Housing Scheme were denied to them.

Thus, these people who are recruited mostly from the Harijan Community live in slums and shins and the Corporation took a right move to provide shelters for them under the Development Plans. Schemes were prepared to that effect. The cause which stood in the way was want of adequate funds. If a proper subsidy or subvention comes forth from the Union Government, then the scheme might take a shape.

This was also assured to in a similar line by the State Governor, Shrimati Padmaja Naidu, when she spoke to the legislators some time ago, in her inaugural address:—

The Government was painfully aware of the problem of the slum areas in Calcutta where more than five lakh people lived in appalling squalor and unhygienic conditions. They were a blot on the face of the city and it was only lack of financial resources that had stood in the way of their eradication. Now that the Central Government had formulated a scheme by which they would grant a loan of 50 per cent and a subsidy of 25 per cent of the cost of a slum clearance project provided the State also made a similar subsidy of 25 per cent, the State Government had sent two slum clearance schemes to the Central Government for its approval. A scheme to sink 300 tube-wells in the slum areas was under consideration.

It may be recalled here that Rs. 40 lakh project of slum clearance was also undertaken by the

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE SIXTH ORDINARY MEETING OF THE CORPORATION HELD  
ON THE 7TH JUNE, 1957.

## DRAFT BYE-LAWS FOR BIRTH AND DEATH CERTIFICATES

The House approved a set of Draft Bye-Laws framed in connection with the procedure to be adopted for the issue of Birth and Death Certificates. These Bye-Laws were framed under Section 527(8) of the Calcutta Municipal Act, 1951. The fees to be levied in issuing certificates were also laid down in the Bye-Laws.

These Bye-Laws were originally prepared by the Standing Health Committee.

## RE-NAMING OF A STREET

The House re-named Jeliatola Street under Ward No. 22 as Sudhir Chatterjee Street.

The late Shri Sudhir Kumar Chatterjee was a Councillor of the Corporation for a long time. He was elected for the first time in 1930 and till his appointment as an Assessor to the Calcutta Improvement Trust he was a member of

the House. He died at a comparatively younger age in 1948. Born in that part of the city in 1902, he was a lawyer by profession. He was also the founder member of the 'Simla Byam Samity', 'Sanskriti Basar', and was connected with many other associations. He courted imprisonment during the Civil Disobedience Movement in 1930. Being a man of diverse activities he was loved and respected by a larger number of citizens.

## TRAINING OF TEACHERS

The House, on the recommendation of the Standing Finance Committee, gave a standing direction to the Education Department that teachers including Headmasters and Headmistresses should pass the Training Examination as prescribed by the Department within three months of their being appointed permanently in the Corporation. The direction further included that in case of their failing to pass the required examination their services would be dispensed with.

## VIEWS AND REVIEWS

(Continued from page 181)

Madras Corporation last year which also included a scheme for housing the menial staff of the Corporation.

## PUBLIC HEALTH IN THE STATE

We append below a portion from the text of the inaugural speech delivered by the State Governor, Shrimati Padmaja Naidu, which speaks of the progress made by the West Bengal Government in the field of public health. She said:—

There had been a remarkable improvement in the general health condition of the people. In 1948, death rate per 1,000 was 18.1; in 1956, this came down to 8.2. Infant mortality per thousand live births came down from 186.7 in 1948 to 79.9 in 1956.

The Government was waging a relentless battle against disease and pestilence and to seek to raise the health standards of the people by expanding the existing medical and public health facilities. A notable recent event had been the opening of the Infectious Diseases Hospital at Beliaghata—the first of its kind in India. The Government had sanctioned the construction of a T.B. hospital at Dhubulia with 1,000 beds. A development scheme had been undertaken by which the number of beds of each district and sub-divisional hospital would be raised to 128 and 58 respectively. Nine family planning centres had been established in the State and 98 more such centres would be established during the Second Plan period.

If hospital administration was to be improved, additional beds must be provided in this State as early as possible. The paucity of beds had assumed greater importance because of the impact of the refugees who were generally in a poor economic condition with a low nutritional state of health. They were very often affected by tuberculosis. While the refugees formed 11 per cent. of the total population of West Bengal, a census of patients in hospitals showed that over 30 per cent. of the beds were occupied by the refugees in the different hospitals. In the case of tuberculosis beds their percentage was higher, nearly 35 per cent. the provision of beds for the normal population of West Bengal was in reality smaller than mentioned.

Six thousand beds were now occupied by refugees in hospitals in which 1,000 beds were specially earmarked for them and were paid for by the Refugee Department. The remaining 5,000 beds occupied by the refugees had to be paid for by West Bengal. Taking Rs. 2,000/- per bed per annum as the average cost of maintenance the State's annual liability for the beds occupied by the refugees was about Rs. 10 million. The State Government had approached the Union Government to provide funds to meet the recurring and non-recurring costs of the beds occupied by the refugees.

We feel happy for the achievements of the Government of West Bengal in this sector.

#### THE MAYOR SPEAKS TO THE EMPLOYEES

In the picture Councillors B. K. Banerjee, J. L. Saha, N. N. Banerjee, Commissioner, Shri B. K. Sen, Shri P. K. Chatterjee, Shri A. C. Bhattacharyya, Chairman and Secretary respectively, of the Association and others.

PHOTO : AMIYA TARAFDAR.

## EMPLOYEES' ASSOCIATION OBSERVES 'DUTY-WEEK'

### 'Love & Respect, Two Secrets Of A Dutiful Man'

SAYS THE MAYOR—

Addressing a section of employees on Monday, the 8th June last, the Mayor, Dr. Triguna Sen, felt the need of proper co-operation and co-ordination among all the sectors in the Corporation. Unless they would maintain a cordial relationship within the Corporation consisting of the Councillors, the Officers and the employees even in the lowest level there were little chances of the extension of civic amenities to the citizens. Dr. Sen was then speaking at the formal inaugural meeting of the 'Duty Week', organized by the Employees' Association, Calcutta Corporation. It was a Duty and Courtesy week of the employees. The Mayor also felt the need of love and self-respect among the employees and he emphasized the need of establishing a sweeter relation between the employer and the employees. As a teacher of Industrial Structure, he opened his mind to the employees and felt for extending larger benefits for them.

The meeting was also addressed by Councillors Bejoy Kumar Banerjee, J. L. Saha, M.L.C., Nripendra Nath Banerjee and others. They equally felt the need of establishing co-operation and co-ordination among all. The Commissioner, Shri B. K. Sen also said that the employees should cult the two main traits, duty and courtesy, in order to serve the citizens to whom they are pledged. Messages were read at the meeting from many of the Aldermen and Councillors wishing success of the week. Councillor Kamal Krishna Paul also sent a message.

Earlier in a lengthy speech, Shri Abinash Chandra Bhattacharyya, Secretary of the Association, listed out the inconveniences and hardships felt by a major portion of Corporation employees in carrying out their routine duties. He went far to say that the poor labour employees, who had been elevated to the higher rank in designation only, had to suffer immense in maintaining himself. He appealed to the authorities for extending larger benefits of employment amenities to them.

The pledge to serve the citizens under the guidance of the Corporation and the administrative authorities was read out in the meeting by Shri Anirudha Sanyal, Assistant Secretary.

A vote of thanks was proposed by Shri Pravat Kumar Chatterjee, President of the Association.

The observance of the week was stretched throughout all the days. On Sunday, the 2nd June, the Association Flag was hoisted by Shri Chatterjee, President, at the office of the Association, Hogg Buildings, Hogg Street.

Meetings were arranged in different outlying Corporation offices and they were attended by larger number of employees. City Fathers showed their sympathy in the observance of the week through their presences in many places. On Tuesday, the 4th June, there was a meeting at Chingrihata wherein Shri Bhattacharyya, Secretary, presided.

Councillor Nandalal Banerjee presided over a meeting at Cossipore, District Office on Wednesday, the 5th June. On Thursday's meeting at District IV Engineer's Office, Belvedere Road, Alipore, Councillor Ushanath Sen presided. There was a similar meeting on Friday, the 7th June at District I, Gowkhana.

Speakers everywhere stressed the need of inculcating the spirit of duty and courtesy among the employees. At the same time they felt the necessity of extending employment amenities to the Corporation employees. Pledges were also read.

The week came to a close on Saturday, the 8th June, last, by convening a meeting at the Municipal Museum Hall, College Street Market, wherein Shri Abinash Chandra Bhattacharyya, Secretary, presided. The meeting was organized mainly by the employees of the Health Department.

Alderman Dr. Amiya Kumar Basu, as Chief Guest, emphasized the responsibilities and obligations in carrying out the duties allotted to the employees in Health Department. Dr. Basu also remarked that 'he who does not do his duty has no right to place his demand' while a charter of demands was presented before the meeting.

Dr. Sanmatha Dutta read out the pledge of the Employees' Association in observance of the week.

## MADRAS CITY WATER SUPPLY

[By D. BALASUNDARAM, COMMISSIONER, CORPORATION OF MADRAS]

It was in 1872 that Madras City was first provided with piped water supply. The works relating to the storage of water such as the construction of the Thambarambakkam anicut on the Kottaliyar river, the upper and lower supply channels, the Cholavaram and the Red Hills Lakes were constructed by the Government at their cost. The Corporation pays for the water obtained for the City Water Supply at the usual rate of Re. 1/- per 1,000 cubic yards.

From 1872 to 1914 water from Red Hills was drawn through an open supply channel and let into the distribution system for supplying the City without any form of filtration or purification. The pressures obtaining on the distribution system were very low and the water supply itself was subject to frequent interruption due to various causes.

It was in 1914 that the scheme prepared by the Special Engineer Mr. Madley was executed and brought into use by which the water from Red Hills Lake was drawn through a covered masonry conduit and filtered through slow sand filters at the Water Works, and then pumped into the distribution system. An overhead tank of 1.5 million gallons capacity was also provided to impart sufficient pressure on the distribution and to serve as a balancing tank.

Even these improvements became insufficient in course of time as the normal growth of population in the City was very much above all estimates prepared by Mr. Madley. Several improvements were done to the City Water Supply after 1914. In spite of these improvements the quantity of water supplied to the City could not be increased to meet the growing needs of the City as there were not enough filters. As originally planned by Mr. Madley, 21 slow sand filters of 100 ft. by 200 ft. each, capable of filtering 1 million gallons per day were to be constructed. But, to start with, only 14 such filter beds were put up in 1914. Subsequently, three more filter beds of size 180 ft. by 200 ft. were added in 1923. As the number of filter beds was not increased after 1923 and the growing needs of the City had to be met, the quantity that could be filtered by these filter beds was practically doubled by reducing the thickness of sand and we are now able to get about 28 million gallons of filtered water per day by increasing the rate of filtration.

When the idea of filtration was first thought of for the City nearly 50 years ago, slow sand filters were mostly in vogue and were considered as the simplest and the best suited to the City. They were also considered fool-proof in operation. It should be remembered, in this connection, that in the United Kingdom only slow sand filters have

been in use over the last century. This kind of filtration was quite suitable for the quality of raw water that generally obtained in the United Kingdom as it was quite free from all sediment and algae; but, somehow, these filters did not suit the Madras City water supply as the raw water in the Red Hills Lake contained a lot of dead and living algae as well as organic matter in colloidal solution.

It was only late in the 19th century that mechanical filtration was generally adopted for use in water supply to the cities in the United States and it was only early in the present century that the United Kingdom began to adopt this system of filtration. Before coming to the question of rapid filters I should like to clarify the difference between slow sand and mechanical filters.

In slow sand filters the raw water is allowed to pass at a specified rate of (4 in. vertical) or 2 gallons per square ft. of filter area per hour. Once the raw water begins to flow through the sand layer, a thin layer of slimy deposit is formed on the surface of the sand which effectively prevent the passing of bacteria and similar impurities through filters. By this process the water that is filtered through slow sand filters is cleared of all impurities and it can be considered quite safe and pure for drinking purposes. But if the raw water is heavily loaded with sediment and dead or living algae as in Madras, the filter beds get choked up very quickly and their proper functioning is impeded.

Besides this, Madras City water contains lot of organic matter and impurities in colloidal suspension which cannot be effectively filtered through slow sand filters. Further, in the case of slow sand filters after the filter beds work for some time and it gets choked up, the sand has to be removed by manual labour taken outside, allowed to dry and then replaced on the filter bed after thorough cleaning through sand washers. This process of cleaning the sand in each filter bed normally takes about 15 days and, assuming that each filter bed comes for cleaning about eight times in a year, each filter bed will be out of action for nearly 120 days in a year.

In the mechanical filters, the raw water is first treated with a small dose of alum, about 1 grain per gallon, and then allowed to pass through what are called sedimentation tanks or clarifiers. The alum that is added to the water produces a sort of floc which carries down all the suspended colloidal impurities with it to the bottom of the sedimentation tank and it also takes nearly four hours for the water to enter, pass through and come out of the clarifying tanks. This process of sedimentation and clarification removes the major portion of the

impurities in the water and it is much easier for the filters to deal with the water and effectively filter it.

The filtering media in rapid sand filters is also about 30 in. of fine sand but because the water has been previously treated with alum and sedimented it will be able to pass through filters at a much rapid rate, say, 40 to 50 times the normal rate obtaining in the ordinary slow sand filters. Each square foot of the area of the mechanical filter bed can, therefore, filter about 100 gallons per hour as against two gallons only in slow sand filters. Thus, the area required for a mechanical filter is very much smaller than that of a slow sand filter.

In the mechanical filter cleaning is effected by sending compressed air and pressure water side by side from below the sand layer so that the dirty sand gets agitated and washed thoroughly. The process of cleaning in the mechanical filter takes only about 10 minutes and the frequency of cleaning is approximately once in 24 hours. While a slow sand filter works for a long period of nearly a month without any need for cleaning, the mechanical filter has to be cleaned more often, as a larger quantity of water passes through the same area of filter surface. But the time taken for cleaning is very little and the output of the filter is not at all affected, because of the period of it takes to clean the filter. These filters are called mechanical because the cleaning is done by mechanical agitation of the sand by pressure water and compressed air which is let in through a system of pipe grid embedded under the layers of the filter beds. They are also called rapid gravity filters because of the higher rate of flow of water through it as compared to the slow sand filters.

From the time, of the installation of these slow sand filters, it was found that the slow sand filters could not adequately deal with the quality of water obtaining in the Red Hills Lake which varies from season to season. There were also frequent complaints of smell of hydrogen sulphide in the filtered water as filtered by these slow sand filters and distributed to the city. The Government and a number of expert Committees examined the question of suitability of these slow sand filters for

Madras City water supply and it was finally decided in 1938 that only rapid mechanical filtration with pre-treatment by alum was the best method of dealing with Red Hills water effectively. Though an estimate for installation of mechanical filters of 32 million gallons per day capacity was prepared in 1938 the Government could not allow us to proceed with the work as the Second World War was then on. It was only after the close of the war that the Corporation resumed further progress on various water supply schemes such as the construction of the second conduit, the laying of the trunk main for South Madras and the laying of the second 48 in. pumping main.

The question of improving the filtration was also taken up in earnest. As the requirements of the city had increased by this time, the capacity of mechanical filters required for the city had gone up to nearly 40 million gallons per day. In 1951, the Corporation had prepared the necessary plans and estimates amounting to nearly Rs. 75 lakhs and submitted the same to the Government. The Government after considering the matter for long time, finally decided and wanted the Corporation to submit an estimate for a pilot mechanical filter plant of 10 million gallons capacity per day, in the first instance. The plans and estimates for this amounting to Rs. 25.75 lakhs were duly sanctioned by the Government in November, 1954. The main features connected with the mechanical filtration scheme are:—

A pump house for pumping the raw water up to a head of about 25 ft. to raise the raw water from the conduit to the clarifying tanks. There will also be a masonry sump of 1,400 gallons capacity situated near the pump house. The raw water that is pumped will go through a 24 in. cast iron pumping main up to the chemical house where it enters what is called a stilling chamber.

The chemical house itself is a separate structure away from the pump house with provision for storing the alum and other chemicals that may be required for dosing the water. There will also be two tanks each of 4,200 gallons capacity in the first floor of the chemical house for mixing the alum and forming into a solution. After the chemicals are added, to ensure that proper mixing is done, an electric motor is used with necessary paddles to agitate the water and see that it is properly mixed. This is called a flash mixer.

After the chemicals are properly mixed with it in the flash mixer the raw water enters the central chamber of two circular clarifiers. Each of the clarifier is 100 ft. in diameter and about 20 ft. deep in the middle and is capable of dealing with 5 million gallons of raw water per day. In the central chamber of these clarifiers there are what are called flocculations, i.e., slow moving paddles rotated by electric motors which gently stir the water. This stirring of the water to which alum has been added enables the quick formation of floc which attracts all the organic and suspended impurities like algae in raw water. The water that is thus flocculated moves slowly towards the circumference of the clarifier and flows in an upward direction from the centre towards the outer circumference of the

#### COUNCILLOR AMULLYA SARKAR'S BEREAVEMENT

We deeply regret to announce the death of Shrimati Sarojini Sarkar, mother of Councillor Amulya Charan Sarkar on Thursday night the 13th June. The death took place at Councillor Sarkar's place, Christopher Road, Tangra.

The deceased was extremely pious and devoted to religion.

The weekly meeting of the Corporation on Friday, the 14th June, mourned her death and extended sympathy and condolences to Councillor Sarkar and his brothers at their bereavement. The members stood in silence for one minute as a mark of respect to her memory.

We also extend our sincerest condolences to the members of the bereaved family.

clarifying tanks. Thus, by the time the water reaches the outer periphery of the clarifier all the floc formed in the water together with the impurities settles in the bottom of the tank and only clear water emerges from it. There is a separate arrangement for automatically storing and letting out the sediment that settles at the bottom.

The clear water from the clarifiers flows through a system of pipes to the six filter beds which are situated inside the main filter house. The filtering area of each filter bed is about 800 sq. ft. and all the six filter beds together are capable of filtering 10 million gallons per day.

The scheme for the installation of mechanical filters was inaugurated by President Rajendra Prasad in November, 1955 and the work on the scheme has been going on briskly. The State Government has also agreed to finance the scheme half as loan and half as grant. It is also understood that the Central Government would be giving the

necessary loan required by the State Government for the above purposes.

This pilot plant for 10 million gallons mechanical filter plant is expected to be completed in October, 1957. By using these new filters only 10 million gallons of water would be efficiently filtered by mechanical filters each day and the remaining quantity, say, 25 million gallons would still be inefficiently filtered only through the existing slow sand filters. This is not, however, a satisfactory state of affairs. These slow sand filters installed in 1914 have served their full life and will have to be scrapped in due course. The Corporation has to take urgent steps for the installation of mechanical filters for a further quantity of 80 million gallons per day that may be required for the immediate needs of the city. This scheme which is estimated to cost about Rs. 70 lakhs has been included in the Second Five-Year Plan and I expect that this scheme will be duly taken up and completed before the close of the Second Five-Year Plan period.—THE HINDU.

## VITAL STATISTICS

### I

For the City of Calcutta for the week ending  
1st June, 1957.

#### CITY OF CALCUTTA (TOWN AND ADDED AREAS.)

The total number of deaths registered during the week was 850 against 836 and 794 in the two preceding weeks and higher than the corresponding week of the last year by 204. The general death-rate of the week was 15.09 per mille.

#### TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 1st June, 1957, was 709 against 704 and 642 in the two preceding weeks. There were 19 deaths from cholera against 32 and 40 in the two preceding weeks. There were 22 deaths from small-pox during the week against 39 in the previous week. There were 4 deaths from influenza against nil in the previous week. The mortality from fevers and bowel-complaints amounted to 37 and 84 respectively against 19 and 77 in the preceding week. The general death-rate of the week was 16.10 per mille per annum.

There were 38 imported deaths. Excluding these, the death-rate of the Town was 15.24.

There were 149 deaths from respiratory diseases against 95 in the previous week.

There were 48 deaths from tuberculosis against 41 in the previous week.

#### ADDED AREAS (WARDS 28—32.)

The number of deaths registered was 141 against 132 and 152 in the two preceding weeks. Of these, 5 were from cholera, 4 from small-pox, nil from influenza, 5 from fevers, 20 from bowel-complaints and 31 from respiratory diseases. The death-rate of the added areas was 11.48 per mille.

There was no imported death. Excluding this, the death-rate was 11.48.

There were 13 deaths from tuberculosis against 10 in the previous week.

### II

For the City of Calcutta for the week ending  
8th June, 1957.

#### CITY OF CALCUTTA (TOWN AND ADDED AREAS.)

The total number of deaths registered during the week was 1024 against 850 and 836 in the two preceding weeks and higher than the corresponding week of the last year by 311. The general death-rate of the week was 18.18 per mille.

#### TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 8th June, 1957, was 822 against 709 and 704 in the two preceding weeks. There were 17 deaths from cholera against 19 and 32 in the preceding weeks. There were 20 deaths from small-pox during the week against 22 in the previous week. There were 33 deaths from influenza against 4 in the previous week. The mortality from fevers and bowel-complaints amounted to 40 and 91 respectively against 37 and 84 in the preceding week. The general death-rate of the week was 18.67 per mille per annum.

There were 62 imported deaths. Excluding these, the death-rate of the Town was 17.26.

There were 163 deaths from respiratory diseases against 149 in the previous week.

There were 53 deaths from tuberculosis against 48 in the previous week.

#### ADDED AREAS (WARDS 28—32.)

The number of deaths registered was 202 against 141 and 132 in the two preceding weeks. Of these, 9 were from cholera, 3 from small-pox, 3 from influenza, 14 from fevers, 23 from bowel-complaints and 64 from respiratory diseases. The death-rate of the added areas was 18.44 per mille.

There was no imported death. Excluding this, the death-rate was 18.44.

There were 11 deaths from tuberculosis against 13 in the previous week.

# CITY NEWS PARADE

**OBITUARY:** The death of Shri Hriday Bhusham Chakravarty, M.L.C., President of the 24-Parganas District Congress Committee occurred at Sukhlal Karnani Hospital on Saturday, the 8th June last. The late Shri Chakravarty was 61.

The late Shri Chakravarty had been associated with the Congress since 1920. He was a member of the 24-Parganas District Board and of the District School Board. He was elected to the West Bengal Legislative Council in 1952 and on his retirement in 1956 he was re-elected from the 24-Parganas, and Calcutta Local Bodies Constituency. The late Shri Chakravarty's death was widely mourned. The Corporation at its meeting on the 14th June, mourned his death and adjourned its sitting for ten minutes as a mark of respect to his memory. On a reference by the Mayor, Dr. Triguna Sen, the House adopted a condolence resolution.

**DAMODAR VALLEY CORPORATION'S SUB-STATION,** a unique example of co-operation between the private sector and national enterprise, was formally opened on Sunday, the 9th June, by the State Chief Minister, Dr. B. C. Roy at Howrah, near the Botanical Gardens.

Calcutta has been receiving power from the station since April 18. Under an agreement with D. V. C., the Calcutta Electric Supply Corporation will purchase 100,000 k.w. of D. V. C. power from the station and add it to its own supply in the city. The present offtake by the C.E.S.C. is 30,000 wk., which is being transmitted on double-circuit 132 k.v. lines from Bokaro via Burdwan following the railway chord line.

The D. V. C. will be receiving from the station at present a revenue of Rs. 60 lakhs annually which will rise to Rs. 1.72 crores when the full load is reached in 1960.

The Chief Minister hoped that this joint venture would help to spread electricity in the rural areas of West Bengal and Bihar. Small and cottage industries should get cheap electricity so that power could be utilized for maximum production throughout the country.

**A HOUSE COLLAPSE:** Five persons were injured when a kutchra house in Chittaranjan Avenue collapsed on Saturday, the 8th June last. A 25-year-old woman was admitted to hospital in that connection.

It is stated that a portion of the floor of the upper storey of the house gave way. The debris was cleared by Fire Brigade personnel who advised other inmates not to live in the house.

**SOCIAL CRIMES:** Customs authorities in the city seized a large quantity of silver, suspected to have been smuggled from East Pakistan, at the crossing of Chitpore Road and Harrison Road on Monday, the 10th June. Three persons, in whose possession the silver was found and who are suspected to have travelled from East Pakistan to the city without the necessary passport or visa were arrested.

**A JOYFUL FORETASTE OF MONSOON** was experienced by the citizens on Tuesday, the 11th June, when a fairly heavy shower wiped out largely the bitter oppressive

heat of the past few days. The thunder-squall carried with it all the characteristics of monsoon. The rainfall recorded was 18.8 m.m. during one hour in the afternoon. The temperature also dropped by 13 degrees.

Although the maximum temperature maintained on Saturday and Sunday was slightly above normal still a milder form of thunder-squall swept over the city. On Saturday, the 8th June it was accompanied by slight rainfall which was recorded as 0.60 inches. There was also little change in day's temperature. During the rest of the day there was forecast for thunder-squall and rainfall assuming that the monsoon was approaching fast. But the weather on Wednesday and Thursday showed no such prospects rather it was hot and oppressive foreshadowing the past forecasts.

**GENERAL DISCUSSION ON BUDGET** in the West Bengal Legislative Assembly concluded on Wednesday, the 12th June with a reasoned reply by the State Chief Minister, Dr. B. C. Roy. Criticisms and counter-criticisms continued for four days on the subject. The Budget for 1957-58 presented on the 5th June last showed an overall deficit of Rs. 10.28 crores with an income of Rs. 61.88 crores and an estimated expenditure of Rs. 72.17 crores on revenue account. Taking the estimated receipts and expenditures outside the revenue account the overall deficit comes to Rs. 12.16 crores. The Government desired to float a loan of Rs. 5.5 crores to finance development projects.

The highest expenditure on one single head was on Education. It was Rs. 11.13 crores, and on Medical and Public Health Rs. 7.30 crores. It contained many other features. No fresh taxation proposals were made by the State Finance Minister, Dr. Roy. But hints on additional taxation for Rs. 4.5 crores in financing the Five Year Plan still remained.

Criticism combined with constructive suggestions was the keynote in the speeches of many opposition members. They dealt mainly with the unemployment problem in the country leaving a breathing space for the country's food situation which occupied the major time in the debate on Governor's Address. They also vainly pleaded that the nationalization of coal, jute and tea would end all the troubles in the truncated State. One of the learned members said that the problem of unemployment had never been solved in a capitalist country. The Food Minister had mentioned of huge production of foodgrains in U.S.A. where surplus had sometime to be burnt or otherwise destroyed. In that very country again about 10 per cent of the total population remained unemployed throughout the year. Thus, in a capitalist country the problem of unemployment could not be solved. That was the reason why in this country they were striving for Socialism.

Another member said that the disparity between higher and lower income groups was increasing. The rise in per capita income did not necessarily prove the increasing material prosperity of the ordinary man. As a matter of fact, the condition had worsened. A survey of the conditions of Government employees drawing salaries up to Rs. 200/- a month showed that 95 per cent. of them were in debt.

It was an irony of fate that in a Welfare State, the incidence of taxation on the middle class and lower income groups had risen by 2 and 22 times respectively, compared with previous days.

While others welcoming the budget as "realistic and balanced", vehemently criticised the Opposition for deliberately under-rating the achievements of the Government in different spheres. Another speaker Dr. Matrayee Bose, pleaded for benefits of retrenched workers and their alternative employment.

Replying on the three days' discussion on Wednesday, the 12th June, the Chief Minister assured that there would be no fresh taxation in the State at least for the time being; Government loans and debts were adequately covered by assets and a Sinking Fund; and there would be no deficit, as had been shown in the Budget estimates, because of non-implementation of certain projects. These projects, Dr. Roy said, would require imported machinery and foreign exchange which might not be available.

Earlier the debate was participated in by a number of speakers. On the first day of the discussion Dr. Narayan Chandra Roy, a well known physician, concentrated his

#### DEATHS AND DISEASES IN THE CITY

Attacks and deaths from cholera in the city during the week ending the 8th June numbered 64 and 26 against 73 and 24 respectively, during the previous week. During last year's corresponding weeks there were 248 and 179 attacks and 107 and 55 deaths.

There were 26 attacks of and 23 deaths from small-pox compared with 32 and 26 in the previous week and nine and eight during last year's corresponding fortnight.

Tuberculosis accounted for 64 deaths compared with 61 in the previous week and 46 and 27 during last year's corresponding weeks. Five persons died of malaria compared with three each in the previous week and last year's corresponding weeks.

After tuberculosis, influenza was the biggest killer in the city during the week when it caused 36 deaths, attacks numbering 1,270. During the previous week, influenza attacks and deaths were 455 and four, respectively.

Deaths from all causes numbered 1,024 against 850 in the previous week and 713 and 646 in the corresponding weeks last year.

attack on the Medical and Public Health Department of the Government and said that the health problem of the State must be judged in the background of the deteriorating economic condition of the people. The financial position of an ordinary man often prevented him to consult doctors and he did only when he must. Dr. Roy, therefore, requested the Government to supply expensive medicines free to poor patients and to expand hospital facilities. The failure of the Public Health Department to take preventive measures against infectious diseases in a city like Calcutta was also referred to by him. By asking voluntary organizations to inoculate or vaccinate people the Government was shirking its responsibilities.

It was regrettable, said Dr. Roy, that the increase in equipment and personnel in hospitals had not kept pace with the increase in the number of beds. The result was that doctors and nurses were overworked. He asked the Government to discuss with hospital employees' union questions relating to the smooth running of the institutions. For this city of Calcutta, he suggested the setting up of a central organisation where all the hospitals would be required to report daily the number of beds filled and those lying vacant.

On the same day Shri Hemanta Kumar Basu, leader of the Forward Bloc group, said that the Budget betrayed fundamentally planning and the Government's programme was inadequate to solve the problems of education, health and unemployment. Referring to Dr. Roy's statement on the employment position in his Budget speech, Shri Basu said that he could give numerous instances to disprove the Chief Minister's contention that all M.A.s, B.A.s and first division Intermediate and Matriculates had no difficulty in securing employment.

The Ex-Mayor, Shri Sudhir Ray Chowdhuri, who initiated another day's discussion, said that the budget was dismayingly deficit and the Finance Minister made an unsuccessful effort to cover up the extent of the deficit. The per capita income of people had not increased and there is misery and want allround, he emphasised.

The avenues of employment, Shri Ray Chowdhuri said, for the Bengali population in the State, whether in service or in business, were shrinking gradually. The Government did nothing to ensure that the indigenous population was given preference in the matter of recruitment in non-Bengali firms. The Government should create opportunities so that Bengali boys could take to business.

Shrimati Mani Kuntala Sen accused the Government for its failure to have a sound educational policy at all levels. The large percentage of failures in the School Final Examination every year, she said, was only a proof of the Government's defective educational policy. The Government ought to have framed a comprehensive and a uniform policy in consultation with the representatives of teachers. Instead of doing that the Government was wasting money on education in a thoroughly unplanned manner. She regretted that the Government had no definite plan to remove the adult illiteracy. By setting apart Rs. 10 lakhs for adult education in the budget, the Government is only tinkering with a colossal problem, she added.

On the third day Shri Narendra Nath Sen while supporting the budget said that there was no reason for fighting shy of the deficit budget presented by the Finance Minister in the House. Deficit-financing was often unavoidable for a State passing through a stage of development for its progress and prosperity. He also pleaded for economy in the Government expenditure as well; as he did not like the idea of replenishing revenue through betting tax or race course license fees.

#### AN OLD EMPLOYEE RETIRES

It was not pleasing at all to bid fare an old colleague and friend who claims a long and faithful service at his credit in the Corporation and that has actually happened some time ago when Shri Kalachand Chatterjee, a Block Sarkar, under D. E. IV was felicitated by the members of D. E.'s Office at Belvedere Road, Alipore. It may be recalled here that Shri Chatterjee has rendered an active service for long thirty years under the Corporation and during this period he has endeared himself to all who came in contact with him. As one of the Secretaries of the Block Sarkars' Association in the past his efforts were most enterprising in order to bring recognition to the Association.

An address describing many of the qualities of head and heart of Shri Chatterjee was presented to him at the function wherein the District Engineer Shri Ajit Chandra Sinha presided.

Councillor Ushanath Sen, who was present on the occasion, also recognized the services of Shri Chatterjee and others in maintaining the city's conservancy service. The other speakers included Shri Abinash Chandra Bhattacharjee and Shri Antradhya Senyal.

A befitting reply was also given by Shri Chatterjee.

# CORPORATION NOTICES

## To Contractors

Drains, Cess-pools, Hospitals, Sick-rooms,  
Lavatories and every place where Dirt and  
Disease Germs are likely to lurk.

**BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.**  
**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Suptl., S. S. Hogg Market.

### DESHABANDHU CHITTARANJAN

ON the 16th of June we again remembered the mighty dead. Year after year, for over a quarter of a century, we remember him. Is Caesar dead a mightier force than the Caesar that was? Is the influence a live current?

In concluding one of his Congress speeches Deshbandhu urged us to be strong in will, and asked us "to strive, to seek, to find, and not to yield." The renaissance nation, he saw before him, was a Prometheus unbound. The L. M. S. Institution, the Presidency College, Cambridge, London. Law and Legislature—this is the familiar get-up of the intellectual and moral leadership in the East during the closing years of the Nineteenth Century, and the early years of the Twentieth. The main inspiration is British Liberal thought. The story is the story of man's striving for civilization and dignity. Progress is its watchword. The individual is urged to achieve the values of freedom and human dignity. Deshbandhu, as a student in England, took a leading part in the Election Campaign of Dadabhai Naoroji. Pandit Jawaharlal Nehru's assessment, in his Autobiography, of Swarajist leadership of Deshbandhu and Pandit Motilal fits into this Liberal affiliation and inspiration.

Deshbandhu's active life, to outward view, is one of purple patches. Literature, Law, and Politics are separate peaks; they dazzle the view; and separately they do not command the entire landscape. Typical of his character is an abandon which no intellectuality or intellectual tradition can ever seek to explain. You do not find in the phases the "full" man. In and around the peaks the winds are howling, and a silence reigned in Deshbandhu, and in him it is the silences that are significant of his personality. Silence is the element in which great things fashion themselves. You cannot dissect the perfume in the flower, and you cannot analyse the personality that was Deshabandhu. The fact is that his life and work were pre-eminently spiritual. No dogmas, political or social, could hold him to a chart. He was impatient of formulas, for formulas do not symbolise eternal things. In every particle of him, in life and in death, he was "alert with unquenchable life". Rabindranath seized upon it. Passion is the keynote of this life. He had the vision of the full man. In the years of the Swadeshi Movement and after a crowd of brilliant friends made his home the very focus and heart of the Bengali culture,—art and literature, poetry and music, society and politics. There was a sweetness about; it was the sweetness of passion. It was all afire, but with the fire of passion. A beauty and truth of moral feeling spread about, but more than all that, it inculcated duties of forgiveness. God, he once said, is no police court magistrate to weigh the pros and cons of evidences against erring spirits.

One moment of fulness redeems all. Life is its own divine control, 'where all things flow to all as rivers to the sea'. A deep humanism lit up his mind to the tips. He went away 'as of burning gold'. He came to politics a full man. So Netaji, among his followers and associates, put it on record: "Against the dawn of 1921, there now stood not merely a whole-time politician but an *emancipated soul*—a soul reborn. Inspired by a taste of *that fulness of life which brings man nearer to divinity* and conscious of a higher duty to his nation and to humanity, he plunged into the thick of the political strife". He was a portion of the storm but could feel and realise, beyond its fierce delight, that sublime pause of things when all dissonances would have disappeared like a mist.

To-day we worship his memory only to understand that in him the sensible world in which he lived and loved, and the imaginative world in which his spirit was steeped were not incommensurable regions divided by a void. His life, and work, and thought, and aspiration gather together their diverse strains into a single current to flow into the fulness of life and society. So long as there shall exist by reason of law and custom a social condemnation which artificially creates hell on earth, and complicates a destiny that is divine, so long as social asphyxia shall be possible, and man and woman are degraded by poverty, and childhood dwarfed by a physical and spiritual night, Deshabandhu will live for us to warn and guide. We worship his memory in a passionate aspiration for the glories of our land and history, in a passionate faith in a world in which the air we breathe is liberty, love, and truth.

[S. B.]

### Thirty-Second Death Anniversary Observed

RESPECTFUL tributes were paid to the memory of DESHABANDHU CHITTARANJAN DAS through different functions held in the city in observance of his Thirty-Second Death Anniversary, on Sunday, the 16th June. The most impressive one among them was at the Sahanagore Burning Ghat, held in that morning in front of the mausoleum, the site where the great leader's mortal remains were put to flame.

The mausoleum, the marble statue and the erected pandal, all were tastefully decorated with flowers and foliage. Portraits of great Indian leaders were also placed under the pandal so that people might derive inspiration from them. Wreaths were placed on the bust of Deshabandhu by the Mayor, Dr. Triguna Sen, who presided over the function, the Ex-Mayor, Shri Santosh Kumar Basu, M.P., Janab Abdus Sattar, Minister, West Bengal, Shri Hemanta Kumar Basu, M. L. A., Shri Bejoy Singh Nahar, M. L. A., and by different other individuals present on the occasion. Representatives of innumerable political, cultural, and philanthropic organizations in the city also placed wreaths on the bust. Mention may be made of the Pradesh and District Congress Committees, Corporation Employees' Association, Deshabandhu Pathagar and others. Several Aldermen and Councillors and Corporation officials attended the function.

The Corporation, it may be recalled here, had sanctioned a sum of Rs. 750/- in celebrating the Death Anniversary of the First Mayor of Calcutta in a befitting manner in a previous meeting.

#### AN INSPIRING GUIDE

Speaking on the occasion Dr. Sen said that Deshabandhu's life would be an inspiring guide to the people of this country at the present moment. Like Swami Vivekananda, Rabindranath and Mahatma Gandhi, Deshabandhu also looked upon

the service of people as service to God. Nothing would be true in paying homage to his memory than to devote ourselves for the service of the people, added the Mayor.

Inspired by the noble examples of men like Deshabandhu and Netaji the average Bengali youth, Dr. Sen said, has considered no sacrifice too great to achieve their ideals. But to-day, the elders are only thinking about their personal interests and aggrandisement. If the elder people are not thoroughly honest it is idle to expect young men to become patterns of virtues, the Rector of the Jadavpur University emphasized.

The Mayor also with much confidence said that young men as a class were intrinsically good and that if they were found to be indisciplined it was because there was no leadership of the calibre of Deshabandhu to galvanize them into noble deeds at this stage.

In a reminiscent mood Dr. Sen also recalled the incidents of that day when the dead body of that immortal soul was brought down to this city then overwhelmed with sorrow and grief at the loss of its beloved son. He still remembers those incidents when he, as a student of the Jadavpur College, himself attended the funeral.

#### AN ASIATIC LEAGUE OF NATIONS

The Ex-Mayor, Shri Santosh Kumar Basu, said that in the Bandung Conference with the acceptance of the principle of peaceful co-existence they saw the fulfilment of Deshabandhu's dream of a great Asiatic League of Nations. He recalled how Deshabandhu worked hard in order to cement the communal harmony and peace in the country and how he was honoured and respected by one and all in the country irrespective of their faiths and beliefs.

Earlier, while narrating the history of the construction of the present mausoleum, the

Ex-Mayor said that it was built by his countrymen as a token of love and respect. The contributions came from all and he disclosed that the bust was a gift from one of the Ex-Mayors of this city, the late Jash A. R. Siddiqui. The garden around the mausoleum could not be completed due to various reasons, regretted the once Secretary of the Memorial Committee, which was projected along with the mausoleum.

#### A LAST MOMENT GESTURE

Janab Abdus Sattar, Labour Minister, West Bengal, said that the first thought in the mind of Deshabandhu was to serve the poor. Had the ideals of Deshabandhu been honestly followed, partition of the country might have been avoided.

Janab Sattar also said that if Deshabandhu was spared a few more years the condition of the country would have been altogether different. He was however happy to find that at last the authorities had directed their attention towards the service

Deshabandhu in order to fulfil his dreams dreamt so many years back.

#### AT KUMAR HALL

Speaking at the memorial meeting at Kumar Singh Hall, Shri Atulya Ghosh M.P., President, Pradesh Congress Committee, said that the name of Deshabandhu was remembered by the people of Bengal with profound gratitude. Bengalees felt proud that Deshabandhu was born in Bengal. The Congress workers should discuss the programme which Deshabandhu placed before the country. The meeting was held under the auspices of the Pradesh Congress Committee, West Bengal.

Shri Heramba Deb, Shri Biren Bose and Shri Smarajit Banerjee, Deputy Minister, also spoke at the meeting.

#### DESHABANDHU SEVAK SAMITY

'Deshabandhu Sevak Samity', an organization to preach the ideals of that illustrious leader also celebrated the day in the premises of Tirthapati Institution, Rash Behari Avenue, in the evening. Shri Ramaprasad Mookerjee, a former Chief Justice of the Calcutta High Court, who presided, garlanded a beautifully decorated portrait of Deshabandhu. The speakers who paid tributes to the

#### DESHABANDHU MEMORIAL ADVISORY COMMITTEE

At a recent meeting of the Corporation the Deshabandhu Memorial Advisory Committee for the year 1957, was re-constituted with the following, in terms of the resolution of the Corporation dated the 18th December, 1935:—

- (i) The Mayor, Dr. Triguna Sen,
- (ii) Councillors Dr. P. K. Sen Gupta, and Kumar Benoyendra Deb Rai Mahasai, as representatives of the Corporation,
- (iii) A Councillor of the Corporation as Chairman of the Borough Committee No. 14,
- (iv) The Ex-Mayor, Shri Santosh Kumar Basu, and Councillor Chittaranjan Chatterjee, as representatives of the donors and subscribers to the Memorial Fund nominated by the Corporation,
- (v) Shri B. K. Sen, Commissioner,
- (vi) Shri A. K. Sen, Chief Engineer, and
- (vii) Dr. A. Mukherjee, Health Officer.

of the poor and the downtrodden by a wishful gesture.

#### ADVENT OF DESHABANDHU A MEMORIAL EVENT

Paying his personal tributes Shri Hemanta Kumar Basu, M.L.A., said that Deshabandhu had placed before the country new thought and new programme for the upliftment of the Motherland. The glowing examples of his leadership would ever guide them in the service to the people.

Shri Basu also said that the advent of Deshabandhu in the political arena of the country was a memorable event when the peoples' minds were agitated with the Jalianwalla Bag incident, and he was found to be the true leader of the country who had powers to mould the nation. Shri Basu continued that apart from his political career, Deshabandhu's sacrifices were superb and his ideal of life was the manifestation of India's true spirit.

The last speaker on that function was Shri Rabindralal Singha, M.L.C., Chairman, Howrah Municipality. Shri Singha emphasized that the present generation should imbibe the ideals of

#### DESHABANDHU'S PORTRAIT IN PARLIAMENT HOUSE

A life-size portrait of Deshabandhu Chittaranjan Das will be installed at the Central Hall of the Parliament House, New Delhi, soon. It is learnt that the well-known portrait-painter, Shri Atul Bose, has been entrusted with the task.

The portrait will be placed by the side of Mahatma Gandhi, Pandit Motilal Nehru, Lokamanya Tilak, Dadabhai Nouraji and other illustrious Indian leaders.

memory of that leader were the Mayor, Dr. Triguna Sen, the Ex-Mayor, Shri Santosh Kumar Basu, M.P., Prof. Priya Ranjan Sen, Shri Purnendu Sekhar Basu, a former Deputy Mayor, Shri Pravat Kusum Roy Chowdhury and others. The function ended with 'kirtan' recitals rendered by Shrimati Sovana Chowdhury.

#### TO BUILD THE COUNTRY BY SACRIFICE

Another organization in memory of that great philanthropist, Deshabandhu Palli Sanskar Samity, Beltala Road, celebrated its foundation anniversary on that very day.

Shrimati Benuka Roy, M.P., who presided over the function, said that by dint of sacrifice and penance Deshabandhu made an attempt to build the country. She emphasized the need of inculcating the ideals of Deshabandhu at this critical juncture by the youth who were responsible for the future set up of the country. Shrimati Roy also appreciated the activities of the organization.

As Joint Secretary of the organization, Shrimati Sujata Devi, daughter-in-law of Deshabandhu, felt the need of the Samity's own buildings and appealed for help. Another Secretary, Dr. Amarnath Mukerjee, a former Deputy Mayor of Calcutta, also spoke on the occasion.

## SHRI KRISHNAMACHARI IN THE CITY

### Mayor Places Corporation Grievances

SHRI T. T. Krishnamachari, Union Finance Minister, reached the city on Monday, the 17th June, on a two-day visit. At Howrah Station the Minister was received by the high officers of the Union and State Governments and representatives of trade. Councillor K. L. Dhandhanian, Chairman of the Standing Finance Committee and Shri B. Ghosh, Acting Deputy Commissioner, also were present.

The Union Minister had a heavy programme during these two days. On the first day Shri Krishnamachari met the Chief Minister of West Bengal, Dr. B. C. Roy, at Great Eastern Hotel. Many of the Officers of the State Government were present on that occasion. He also held an informal discussion with the Board of Directors of the Reserve Bank of India.

The Corporation's scheme to build multi-storeyed tenements for housing 18,000 sweepers was also presented to the Union Finance Minister by its Mayor, Dr. Triguna Sen, on the second day at Great Eastern Hotel in the noon. The Mayor was accompanied by Councillor Dhandhanian. Questions regarding necessary funds for financing the project were discussed. (Photo above).

The Mayor discussed with the Finance Minister about the Central assistance to permanent schemes for augmentation of city's water supply and improvement of sanitation. An advance of Rs. 2.25 crores spreading over the current Plan period for the purpose had also been promised.

Dr. Sen also requested the Finance Minister to expedite the payment of Rs. 70 lakhs being the accumulated due from the Government of India on account of Service Charges on Central Government buildings in the city.

So far the progress made in the matter of subsidy the Mayor Dr. Sen is expected to be in New Delhi sometime during the next month in order to meet the Union Minister to finalise the issue. The scheme has been prepared by the Corporation Officials and it is expected to be put into execution soon after the monsoon. The

Multi-storeyed structures will have two types of tenements one-roomed and two-roomed both self-contained. This will spread over the city. The Mayor hoped that there would be no difficulty regarding funds necessary for execution of the scheme.

On the 18th June, the Minister met prominent industrialists, officials of the State Bank of India and Income Tax Department.

A deputation of different industrial and business associations of the country headed by Shri Babubhai M. Chinal and Shri G. D. Birla met the Union Finance Minister on Tuesday morning to explain certain difficulties arising out of the Central budget.

### —TAGORE MUSIC CONFERENCE

(Continued from page 211)

others sung songs in this group. The morning sitting concluded with patriotic songs sung by Shrimati Purabi Chatterjee, Shri Chinmoy Chatterjee, and Shrimati Ritu Guha Thakurata.

In the evening sitting 'BHANU SINGHER PADABALI' disappointed the music lovers. In the lyric songs Shri Pankoj Mullick and Shri Santosh Sen Gupta's performances hardly satisfied the audience. Similar was the case with Shri Prasad Sen's 'ASUVARA BHDANA' of Baitanik group while Shrimati Rama Chakrabarty's 'SUDHU-EI-JAGARAN' delighted all. The chorus songs of the Baitanik group received admiration.

An almost spell-bound audience witnessed the famous dance-drama 'CHANDALIKA' on the last day. It was presented by 'RANGAN' a new group in this field. The short drama was based on the Buddhist legend 'Shardulkarnabadan'. Shrimati Gayatri Chattopadhyay in the role of Prakriti (Chandalika), who also made the dance composition, deserved mentioning. Shrimati Chandra Bhattacharjee (Prakriti's Mother) was comparatively weak in demonstrations. The songs of the two roles were provided by Shrimati Mira Mustafi and Shrimati Sunanda Basu respectively. The latter was more accurate in science as well as her chantings attracted all. The chorus songs sung on the occasion with the accompaniment of instrumental music were equally attractive.

### Special Committee Tube-Well

The Special Committee appointed by the Corporation on the 14th June for the improvement of water supply in the city, sat again on the 15th June in the Mayor's Office Room, Central Municipal Office Buildings. The Mayor, Dr. Triguna Sen presided. The Nine-man Committee after a discussion for long three hours formulated certain plans to relieve the distress caused to the citizens due to the acute scarcity of water in many parts of the city. The scarcity pockets were listed and for immediate relief the number of lorries carrying drinking water was doubled by a decision of the Committee. The resolution adopted in this connection runs as follows:—

In place of the 14 lorries doing six trips each per day at present, 28 lorries would be put into service for supplying water to the scarcity areas as per details below. This arrangement will also continue at least for one month:—

(a) Three additional lorries serving a total number of 18 trips per day will supply water to the Burrabazar Area;

(b) Five lorries at the same number of trips per day, will supply water to the five Wards under Tollygunge;

(c) One additional lorry has been detailed to supply water to New Alipore and Chetla areas;

(d) In lieu of 88 trips in Belaghata and Maniktala areas at present, 8 lorries doing a total number of 48 trips per day each will also supply water to the same place;

(e) In Kankulia of the Ballygunge Areas, one lorry trip of water supply has been detailed;

(f) One additional lorry trip would be provided for Sahanagar and Pratapaditya Road;

(g) One lorry trip should supply to the Turf Road and Sambhunath Pandit Street crossing;

(h) Two additional lorries with 12 trips in all each day should be provided for supplying water to the Cossipore Area;

(i) Two water lorries—one for the northern section of the city and the other for the southern section, would be kept at some central place to attend to emergency calls.

In the opinion of the Committee another short-term measure should be taken to sink tube-wells in the scarcity areas as well as the surging, repairing and putting into commission of all existing unserviceable tube-wells at the earliest opportunity.

The Borough Committees have also been requested by the Mayor to acquaint him within a stipulated time with many small diameter tube-wells, indicating the sites for such tube-wells, the respective Borough Committees desire to sink immediately in their areas.

The Special Committee further desired that out of the quota of big diameter tube-wells to be sunk by the Government of West Bengal in different localities in the city for fire-fighting purposes, two would be sunk in the Burrabazar Area for augmentation of water supply, locating one opposite to Mahajati Sadan and the other somewhere near the junction of Lower Chitpore Road and Armenian Street. The third big size tube-well would be sunk in the eastern section of New Alipore and another at Durgapur Area. The fifth should be sunk at Bhukalash Area.

Two small diameter tube-wells would be sunk, one each in Hastings and Munchiganj, and the third one to be sunk in Chetla. A further number of two tube-wells would be sunk in Dover Lane and Hindusthan Park areas, provided the Government would not sink their own fire-fighting tube-wells there. Another tube-well would be sunk on South-corn Avenue.

A big diameter tube-well would be sunk, either by the Government or by the Corporation, in Dalhousie Square near the statue of Maharaja of Darbhanga. Thus if the city be provided with a net-work of tube-wells both big and small throughout the city then the present scarcity might be avoided.

The Special Committee felt that for proper maintenance, supervision and sinking of tube-wells, there should be a separate Tube-well Section under the Executive Engineer, Water Works, and that there should be two mobile units with two jeeps at their disposal for supervision, repair, maintenance and sinking of big diameter tube-wells and four mobile units with four jeeps at their disposal for the same purpose and sinking of small diameter tube-wells. Besides this, 16 Water Works Inspectors should be provided with motor-cycles in order to attend to urgent complaints and grievances regarding water supply. The Special Committee also directed that all big size tube-wells should be worked 12 hours instead of eight hours daily as at present for at least one month.

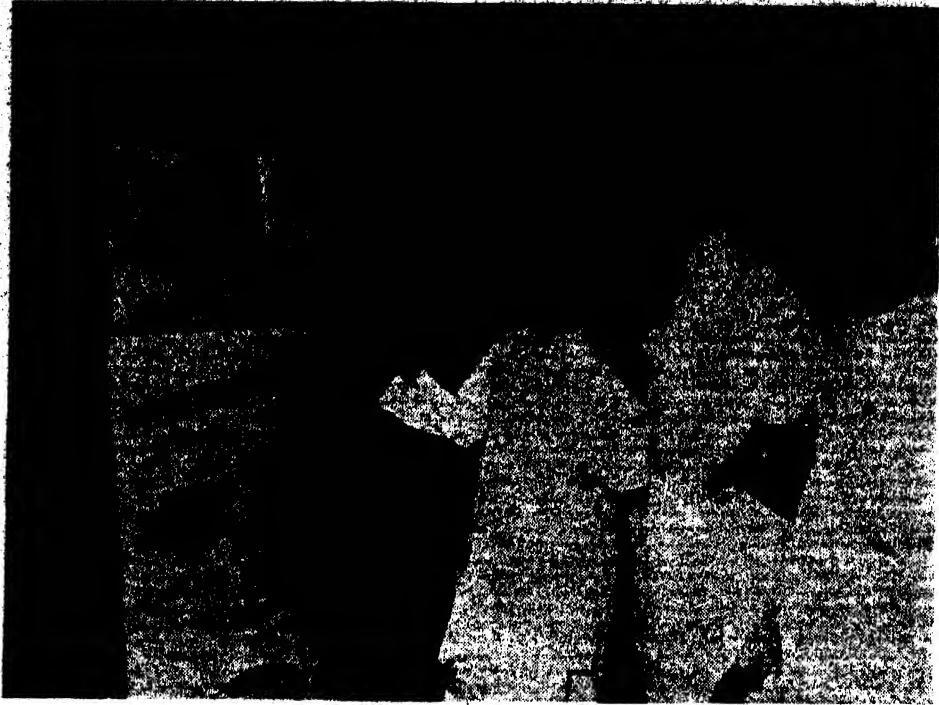

Another important measure by which the Special Committee decided to give short-term relief was the enlargement of water mains or sub-mains in some parts of the city as well as cleansing up of the existing mains.

As regards probable immediate increase in the supply of water from Purna, the Committee decided that the following measures be adopted immediately:—

(a) Replacement of fine sand by coarse sand at the filter beds;

(b) De-silting of the settling tanks as quickly as possible.

The decisions were presented before the meeting of the Corporation on the 21st June. The Mayor, however, requested the Members to go into the details and to place their suggestions before a stipulated date.

The Mayor, Dr. Triguna Sen looks into the Anti-Cholera Campaign Charts provided by the Public Relations Department, Corporation, at display at the U. S. I. S. Windows. An U. S. I. S. Personnel and Councillor B. K. Banerjee are also in the picture.

## U. S. I. S. Helps Anti-Cholera Campaign

An immense help was enlisted by the Corporation from the authorities of the United States Information Service when they agreed to provide the Corporation in the way of publicity and propaganda to make the anti-cholera campaign a success. In collaboration with the Public Relations Department a window display was arranged at the Central Office, Chowringhee. Health Cinemas were screened at different corners of the city and setting up of an inoculation centre at the central office with the necessary staff was provided by the Corporation.

The instructive as well as impressive charts and posters were supplied by the Corporation, Public Relations Department. A movie picture also went on by its side occasionally.

On the 15th March afternoon, the Mayor, Dr. Triguna Sen, was pleased to look into those charts and posters. A large number of Aldermen and Councillors and a few Corporation officials were also present on the occasion when all of them were entertained to a film show "Indian Prime Minister in U. S. A." Earlier Mr. J. A. Kitchen, Public Affairs Officer, U. S. I. S., Calcutta Branch,

welcomed all. He also stressed the need of public relations in enlisting citizens' sympathy by all public offices. In a befitting reply Dr. Sen also realized the value of public relations in the present day world. As regards propaganda and publicity in driving out epidemic diseases from a country through movie screens and other new techniques he felt that the country should follow the example of Korea where success had been achieved by following almost similar process.

### ACHARYYA P. C. RAY

The Fourteenth Death Anniversary of Acharyya Prafulla Chandra Ray, came off on Sunday, the 16th June, coinciding with the death anniversary of Deshabandhu. The death anniversary was observed with due solemnity in the city. In a memorial service at the foot of his statue at College Square, Shrimati Anima Hoare, M.L.A., presided. Wreaths were placed on the statue of Acharyya Ray by Shri S. C. Roy, Sheriff of Calcutta, and others as well as on behalf of different organizations and institutions including the Calcutta University and Messrs. Bengal Chemical and Pharmaceutical Works.

MAYOR ACKNOWLEDGES THE HELP

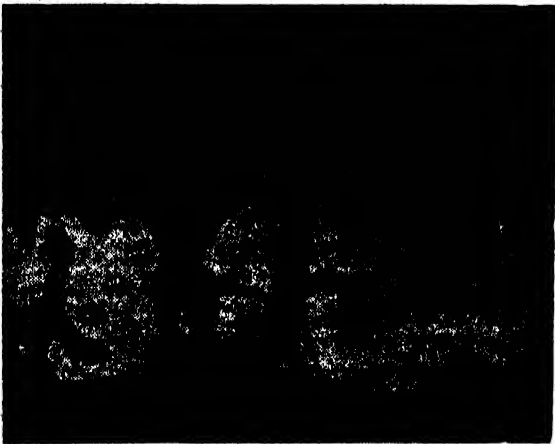

## Tagore Music Conference

Happier were the citizens who heard the poet's songs for four days continually at the Asutosh College Hall, South Calcutta, during the last week-end. Happier were those who arranged the Fourth Triennial Session of the Conference in order to give delight to the lovers of Rabindra Sangeet through such a function. Twelve years back the idea of a comprehensive demonstration of Rabindra Sangeet had inspired the organisers of DAKSHINAK and the recent fourth conference witnessed that idea fulfilled to its fullest extent.

Participated by veteran artistes of repute in this field the conference reached its glorifying stage when Shri Ramesh Chandra Bandopadhyaya, Director of the Sangeet-Natak-Academy, West Bengal, Shrimati Rama Bhattacharjee, Shrimati Rajeswari Dutta, Shrimati Suchitra Mitra, Shrimati Kanika Banerjee and many others lent their voices on the third and fourth sittings. The conference demonstrated higher classics, lyrics, new tales and devotional songs and all from the composition of Rabindranath. Shri Soumyendra Nath Tagore, another veteran of Rabindra Sangeet also spoke on the mysteries of the poet's

On the first day's programme a group of young promising artistes were asked to participate and among them Smt. Afshari Choudhury and Shri Shyamal Mukherjee deserve mentioning. The most attractive programme of the day, was Rabindranath's Tappa Songs, a typical regional style. Shrimati Malati Ghoshal and Shrimati Kanika Banerjee among others ably demonstrated the spirit of these songs.

The second sitting included Devotional Songs, Folk Songs, Song-Adaptations and Dance composed on Tagore Music. Shrimati Sabitri Krishnan's 'BASANTI HE BHUMAN MOHINI', Shri Tarit Chaudhuri's 'BEDANA-KI-BHARAY' and Shri Chinmay Chatterjee's 'AMI-CHINI-Go-CHINI-TOMAREY' falling under Song-Adaptations delighted the audience. In the folk-songs group, out of four rendering none but Shri Sudhin Chattopadhyaya's 'SWAPAN-PARER DAK-SUNECHI (BAUL)' inspired the music lovers. The devotional songs participated in by Shrimati Afshari Chaudhuri, a Pakistani artiste 'AGUNER-PARASMANI', Shri Sunil Roy's 'CHARAN-DHANI SUNI-TOMAN', Shri Sunil Ghosh's 'GARAB-MORE KORCH-PRAHMU', Shrimati Rita Guha Thakurta's 'JAGATER ANANDABHORE' fully satisfied the audience. The added attraction to this group

Shrimati Chitralekha Sidhanta wife of Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University, rendering a devotional song of Rabindranath while Shri Dhananjay Bhattacharjee, another well-known singer waiting for his turn.

PHOTO: BY COURTESY OF 'DAKSHINAK'

music when songs were chanted by the members of Baitalik. Shri Tagore said that Rabindranath was fully acquainted with the delicate instincts of that Ragas and Raginis. He moulded the different Ragas and Raginis in one tune and there lay the characteristics of Rabindra Sangeet. And thus the poet's creations were an admixture of the old and the new. The members of Baitalik also demonstrated such peculiar traits.

In the renderings of songs there were deviations and detractions, still accuracy of 'TAL-O-LOV' was maintained to the utmost because the present lovers of Rabindra Music were more inclined towards accurate rhythm than anything else. Moreover the poet himself kept watchful eyes over them when he tuned them.

The poet learnt the science of Indian music and his every composition bore that mark. Higher Indian music was not beyond his reach and he mastered them even when he was young. He also learnt the science of western music and could successfully play many of the instruments till then unknown in this country. Thanks to the artistes of 'Sura-Bharati' who demonstrated an Orchestra composed on the tunes of Tagore music on the first day.

A 'Dhamar' recital from the composition of Rabindranath being rendered by Shri Ramesh Chandra Banerjee, a pioneer in classical music in India.

PHOTO: AMIYA TARAFDAR.

was on Sunday when Shrimati Chitralekha Sidhanta and Shri Dhananjay Bhattacharyya rendered two more songs. Special attraction of the second sitting was the dance recitals with the accompaniments of chorus songs sung by Shri Sushil Chatterjee, Shri Arup Guha Thakurta, Shrimati Namita Dutta and others. Shrimati Madhabi Chatterjee was successful in her direction of dances. A performance by Shrimati Chandrika Basu along with a chorus 'HRIDAY-AMAR NACHERY AJIKRY' attracted the audience much.

Delightful comic songs and children's songs were neatly sung on the third sitting, Sunday morning. Shri Himagnha Roy Chowdhury did well in comic songs. Renderings of love songs were most attractive. All the artistes participating in it namely Shrimati Afshari Chaudhury, Shrimati Kanika Banerjee, Shri Dwijen Mukherjee and others deserve mention. Shri Ramesh Chandra Banerjee 'PRANATEY-BIMAL ANANDEY' and 'MONOMOHAN', Shrimati Rajeswari Dutta 'SURA-ABANA BIRAJAY' and Shrimati Rama Bhattacharjee sang the best classical songs of Dhrupad and Dhamar style on that morning sitting.

'Nabatala' or 'Ekadashi' are of the creations of Rabindranath and other songs composed on new rhythms were also introduced to the audience. Shri Sushil Chatterjee, Shri Dilip Kumar Roy, Shri Sunil Kumar Roy and

(Continued on previous page 310)

SPECIAL ARTICLE**PADRE KIERNANDER**

[By SHAR B. V. ROY, M.A.]

PADRE Kiernander was a well-known and prominent figure in Calcutta during the latter half of the 18th Century, and he is still remembered as the founder and builder of the Mission Church in Mission Row, which is the oldest place of Protestant worship in Calcutta.

John Zachariah Kiernander was born at Linköping in Sweden on the 1st December, 1711. He was educated at the Grammar School at Linköping and then went to the University at Upsala. When 24 years old, he went to the University of Halle, which was peculiarly the abode of evangelical piety. His professor there, after he had studied for four years, proposed in the name of the Christian Knowledge Society to send him as a Missionary to Cuddalore in the Carnatic. Kiernander thereupon went to England in 1739, was introduced to the Christian Knowledge Society, and sailing from London, arrived at Cuddalore in 1740.

At that time Protestant Missions had been established in South India for 80 years, preaching, teaching, establishing boarding and day schools, distributing Christian tracts and books, and converting etc. In 1740, there were Missions in three places, Tranquebar, Madras and Cuddalore. The last named was the chief town of South Arcot, situated about 12 miles south of Pondicherry, and was then a populous place, and a place of considerable trade. About a mile to the north of Cuddalore was Fort St. David, then the strongest possession of the East India Company. Pondicherry and Cuddalore were too near each other to allow the French and the English to live in term of amity. Duplex, the Governor of Pondicherry, had for four years been preparing to attack the East India Company's territory. The fleet of Labourdonnais, after bombardment of 5 days, took possession of Madras on the 20th September, 1746. Within three months, Dupleix also attacked Fort St. David and Cuddalore, but unsuccessfully. The constant arrival of troops, and ships, as well as the attacks on the town, naturally disturbed the course of missionary labours. Rumours had not been wanting of a vast armament from France that would entirely destroy the Company's settlements, and drive away Englishmen from India. The first Division of these forces arrived at Pondicherry on 28th April, 1758 a French fleet arrived bringing Count de Lally with his Irish Regiment, artilleryman and cannons. On 1st May, Lally with 2500 European troops and the same number of sepoys, appeared before Cuddalore and summoned it to surrender. The town was weakly garrisoned and its walls were not strong, so the commanding officer Major Polier surrendered on the terms proposed. Anxious to secure if possible the safety of the Missionaries and their property, he asked them to accompany his flag of truce and personally requested protection from the French General, which Lally gave, stationing Baron Heidemann with part of his cavalry at their house to protect them from plunder. Lally visited them, and allowed them to

go away to Tranquebar, giving them passports and two boats to take away their property. An immense force under Lally and his various successes seemed at the time to warrant the inference that English rule would soon cease in the Carnatic, and perhaps Missionary operations be suspended altogether, it was decided therefore to establish a Mission in Bengal. Kiernander therefore left Tranquebar and arrived in Calcutta on 25th September, 1758.

Calcutta, when Kiernander arrived, was but a poor beginning of what it became later. No villas in Garden Reach, no Botanical Gardens—where these now stand, river-banks covered with jungle, and the jhils and marshy swamps emitted their deadly poison in undiminished power. There were no dockyards at Kidderpore, the new Fort had just begun, and the earthworks were being dug among the ruined huts of the village of Gobindapur, and among the newly cut jungle that had been growing in luxuriance down to the water's edge. The river itself was all but deserted—no large ships anchored off the city, only small craft, snows, pinnaces and native boats were drawn up on its muddy banks. There were few ghats to land at, and no strand, save one quay in front of the river wall of the old Fort, where now the Custom House stands; while the little dockyard close by, sufficed for all the work required in shipping repairs. The city was beginning to recover from the ruin which had befallen it on its capture by the Nawab two years before..... Some of the houses in Tank Square and along the river were large, but on the whole, those inhabited by Europeans were few and mean. Then, and for several years after, Europeans kept the shops in China Bazar, Radha Bazar and Murgilhatta, even as far as the Armenian Church..... The old Fort remained, not as a strength of war, but as a depot for the peaceful pursuits of commerce. A large part of the north face was occupied by the Company's cloth godown; warehouses and officers' houses occupied other portions of its area, while gardens were formed upon the slopes of the ruined walls. Eastward, the Town extended to the Marhatta Ditch, along the Baitakhana and Dharamtola. Roads, but Kalinga was a native village and Chowringhee a "thick forest". The great plain was partly jungle, partly arable land, interspersed with huts; and across it ran a single road, branching off to the two villages Alipore and Kidderpore, at which two mean wooden bridges carried it over the Nullah..... Northward was the old native town with the old Chitpur Road, as now, in the centre. It was well peopled, though not so densely as now, and contained many bazars. The houses were much mixed up with jungle and surrounded by stagnant pools and all kinds of filth. The jungle on all sides of the city was very thick.

Comparatively few Europeans were living in Calcutta, and almost all were connected with the Company's service. There were scarcely any ladies, as may be imagined, without their influence the order of the settlement was not likely

to remain unbroken, or the rules of society to be closely observed. The Government of the city was not very complex—the Mayor and Aldermen held their little court, and the "Zemindar" superintending all the fiscal as well as criminal proceedings, permitted his fellow-civilians old and young, to devote their attention to their own and the Company's trade. The Police were "deplorably bad." Money was plentiful and trade was brisk.

The natives well knew the advantages connected with the Company's protection. The stability given to property, the general order of the settlement and the toleration enjoyed, made them feel that both their money-making schemes and their religion was quite secure. Hence it was they flocked to Calcutta in great numbers, and amongst them were some of the wealthy and respectable families. But for all this, their morals were very bad and their superstitions most cruel and injurious. During the period we have named, the Brahmans at the temples were licentious and covetous "to an incredible extent." The rich were oppressors, covetous and proud; the poor, thieves, cheats, liars and knaves; while the merchants, traders, zemindars, were full of avarice and sought only to amass wealth by any means and every means. How they could do it, the history of many Babus in the Company's service at that day fearfully shows. Human sacrifices were not unknown at Kalighat and the temple at Chitpur. Satis were constantly burnt, and cruelty and force were used to make them burn. All classes were under complete subjection to the Brahmans, whose extortions for ceremonial impurity were without bounds; knowledge was forbidden, the shastras were sealed books; processions, sacrifices and all the mummeries enjoined were rigorously enforced. Such was the power of Hinduism of that day.

Of the state of religion among the Europeans in Calcutta in early times, little is known..... Sometime after 1715, the first Church (St. Anne's) was built near the north-western corner of Writers' Buildings. The great storm of 1787 and Sirajuddowla's capture of Calcutta in 1756 completed the destruction of the Church. Thus in 20 years two events happened which joined to destroy all ecclesiastical as well as civil records of the settlement.

On the 1st December, 1758, Kiernander opened a school, and soon had 40 lads, English, Armenian, Portuguese and Bengalee. The 20 boys supported by the Charity Fund were also placed under his charge. They were all instructed in English, reading, writing, arithmetic and Christianity. It is a curious fact that the classical language taught was Portuguese. Portuguese was in a great measure the medium of intercourse between the English and the natives—a miserable jargon mixed with Indian words, Dutch, French and English.

Mrs. Kiernander died on the 9th May, 1761. In February, 1762, Kiernander married Mrs. Wooley, a wealthy widow. It is said that she brought him a fortune of £25,000 (two and a half lakhs of rupees). Kiernander also at this time received a legacy from his elder brother in Sweden. Kiernander resolved to build a Church of his own, on which Rs. 67,820 was spent, out of which only Rs. 1518 was given by friends. It was opened for

worship in December, 1770. It was called "Beth Tephika"—the House of Prayer, but is now usually called the Mission Church.

In 1770 a great famine devastated the country and it was also a year of great sickness. The awful devastation which swept over the land cannot be adequately described. Those who perished are reckoned by millions.

In June 1773, Kiernander lost his second wife. In her Will, her jewels (sold for Rs. 6,000) were given to build a school-room. Three larger school-rooms able to hold 250 scholars were built and opened in March, 1774.

In 1775, 15 Hindus and 2 Moslems were baptised. Among them was Gones Das, Persian Interpreter to the Supreme Court. He had visited England, seen much of Christianity there and became well acquainted with its leading truths.

During 1779—1781, Kiernander lost his eyesight due to cataract, but recovered later. During these years, his son Robert had taken charge of his properties, and speculated in building houses. The ready money required was raised by Bonds to which Kiernander put his name as security. He had in his hands Rs. 80,000 belonging to a ward of his, who married an attorney, who at once demanded the money. The money had been utilised by Robert in his house-building operations. It was shown that if he waited three months, all the houses, finished or unfinished, with the materials, could be sold, and that after paying the above sum and other debts two and a half lakhs would be realised for the Estate. He refused, other creditors were alarmed, and the whole property was attached by the Sheriff. It was sold at a ruinous loss; a house built at Bhowanipur for Rs. 31,000, was sold for Rs. 5,000, the Mission property which had cost about 1 lakh was sold for Rs. 10,000. They left the whole of their property (except that settled on Mrs. Robert) in the hands of their creditors and retired to Chinsurah.

The church, school and burying ground were redeemed for Rs. 10,000 by Charles Grant. By him they were invested in Trust for the use of the Mission, and given over to the S. P. C. K. (Society for Propagation of Christian Knowledge) for this purpose.

At Chinsurah Kiernander was appointed Chaplain of the Dutch Church on Rs. 50 a month. The lakh of rupees settled on Mrs. Robert was invested in houses and yielded Rs. 800 a month. Robert died in 1790 and his wife and children removed to Calcutta but Kiernander remained at Chinsurah. About 1793, Kiernander's 2nd son, an officer in the Company's service, died. Chinsurah was taken by the English in 1795 and Kiernander became a prisoner of war. He however remained at liberty and next year (aged 85) resigned his post and went to Calcutta to his daughter-in-law's house in Camac Street. On the 29th April, 1799, an accidental fall from stairs broke his thigh, and he died on the 10th May 1799, aged 86 years.

An engraving of him, from a painting by Imhoff in 1792, hangs in the Mission Church rooms, and has the following inscription in German:

"Not in thy cold Sweden, no  
On Ganges' bank it is thy lot  
God's messenger to be!"

## CITY-NEWS-PARADE

**OBITUARY:** The death of Dr. N. M. Choudhuri, well known homoeopathic practitioner occurred at his Elgin Road residence, South Calcutta, on Friday, the 14th June, last. He was 75 and is survived by two daughters. The late Dr. Choudhuri was the founder of the Bengal Allen Homoeopathic College and Madras Homoeopathic Medical College. He was the President of the State Faculty of Homoeopathic Medicine, West Bengal. He took keen interest in homoeopathic medical education and treatment of patients at homoeopathic hospitals.

\* \* \*

Shri Haridas Banerjee, M.A., B.L., a senior pleader of the Small Causes' Court, died after a short illness at his house at 13, Ram Chandra Moitra Lane, Calcutta-5, on Saturday, June 15, last.

The late Shri Banerjee was sometime the Secretary of the Bar Association. He was a very popular man of genial temperament which won him the hearts of all who came in contact with him. He was sometime General Secretary of the Aryan Club and was associated with a number of institutions.

**THE INSTITUTE OF COST AND WORKS ACCOUNTANTS** held its Foundation Day Anniversary in Sudder Street Building, Calcutta on Friday the 14th June, last. Alderman G. Basu, who presided, said that though costing was little known to a large section of industrial management in India only about 15 years ago, there was a definite urge among industrialists to-day for better knowledge of production methods and consequently of costing technique. There was a wide measure of appreciation by industries of the services now offered by the costing profession.

Alderman Basu also said the Institute had opened four regional centres in Bombay, Calcutta, Delhi and Madras to provide training facilities for students. Schemes for training Government personnel were also in operation. It was proposed to extend the training to the private sector.

Shri S. K. Basu said that there should be facilities for practice in cost accountancy to enable smaller industries to utilize their services to effect economy and ensure maximum profit.

**FOUNDATION-STONE OF CENTRAL TESTING LABORATORY** of the West Bengal State Electricity Board was laid at Jadavpur University on Tuesday the 19th June, by Sir D. N. Mitra, President of the Board. The Mayor Dr. Triguna Sen, Rector of Jadavpur University presided. The Laboratory will work in co-operation with the University's High Voltage Laboratory in the field of applied electrical testing and research. The University has provided land for the construction of the Laboratory.

The Mayor, Dr. Sen said that it was their constant endeavour to conduct all their activities through the spirit of their revered and beloved Council. True to the spirit, the Council had always tried to serve the cause of education and the national interest in an absolute manner. Inspired by this ideal, he said, they had thus given from their own meagre resources what they could so that the country might be served.

Dr. Sen also expressed his fervent hope that the new laboratory and this new University might grow up together in marvellous co-operation and under rich service to the country.

**FIRES, ETC.:** A dozen of large stacks of straw, covering an area of 200 sq.ft. in Canal South Road in the Beliaghata area caught fire on Saturday, the 15th June last. Seven engines of the West Bengal Fire Service brought the flames under control within an hour.

Three engines of the Fire Brigade put out a fire within a few minutes inside the hatch of S. S. Sangola, berthed at Kidderpore Docks. A number of gunny bags containing betel-nuts were involved in the fire.

**SOCIAL CRIMES IN THE CITY:** Shri Nalini Kumar Guha, President, West Bengal Iron and Steel Scrap Dealers' Association, was arrested on a charge of black-marketing in iron and steel recently. The Association's office at Bentinck Street, and its godown at 1, Bediadanga Road, Tollygunge, were searched by the Enforcement Branch Police and 6½ tons of iron and steel material were seized.

On a charge of storing without permit, over 230 maunds of wheat in a shop in Burtolla Street, one of the owners, was arrested on Monday, the 17th June.

The Enforcement Branch Police, raided the staff nurses' quarters of the Sarsuna Union Health Centre in Behala and seized some medicines, suspected to be stolen. The medicines, it is stated, bore stamps of "Central Medical Store".

**VOTING ON BUDGET DEMANDS FOR 1957-58** in West Bengal Legislative Assembly started on Thursday, the 13th June. Charges and counter-charges almost in similar lines with the general discussion on Budget Estimates occupied most of the time of the Assembly programme. Discussion in many of the days were dull and monotonous except on a few occasions when the House showed abnormal exciting interests on certain subjects particularly on General Administration and Police, and Irrigation. Cut motions were moved and most of the grants were passed by oral votes, only in few occasions there were divisions.

The House met once on each day and the respective Cabinet Ministers moved for except grants for their departments. They had also to face the Opposition with suitable replies. The House met twice on Wednesday, the 19th May.

Up till Friday, the 21st June, grants on 'Famine', 'Land Revenue and Compensation to Landlords', 'Food', 'Co-operation', 'Rehabilitation', 'Education', 'Public Health', 'General Administration and Police', 'Transport', 'Community Development' and 'Irrigation' were passed covering the major heads.

In moving the grants the ministers reviewed the past progress of their respective departments and held it as achievements rarely found in other States under similar circumstances. The charges levelled were also countered by the Ministers. The Opposition criticised the activities of the departments and they alleged that the public money was not spent in a right way in the past.

Many of the Calcutta M.L.A.s participated in these debates, Councillor Dhiren Dhar, criticising the General Administration of the Government urged for repeal of many of the Sections of the Calcutta Municipal Act, 1951, which he thought were the legacy of the British Rule in India. He also apprehended a dislocation in the civil services lest many of the Corporation officers were appointed earlier.

During a discussion on 'Irrigation', Councillor Dhar emphasized the need of Greater Calcutta Drainage System. He also wanted dredging of the river bed so that it might not dry away.

(Continued on page 216)

# CORPORATION NOTICES

## To All Registered Petty Improvement Contractors

District No. 1 Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover, superscribed "tender for....." on the 28th June, 1957 up to 2 p.m.

A. C. SINHA,  
Actg. District Engineer, IV.

Dist. IV Eng'g. Office:  
The 18th June, 1957.

## Sir Stuart Hogg Market

### NOTICE

To all whom it may concern, that an application has been received for the registration of the names of Messrs. Narain Vasanlal Lekhray and Gunamal Daulatram Mahatani as occupiers of stall Nos. 44-45 in Block "A" in the Sir Stuart Hogg Market in place of the recorded occupier of the stall.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,  
Asst. Superintendent.

Sir Stuart Hogg Market:  
The 14th June, 1957.

## Revision of Electoral Rolls

FORM V.

NOTICE

(SEE RULE 27)

For the purpose of revision in the year 1957-58 of the electoral rolls of the constituencies (Nos. 1 to 80) of the Corporation of Calcutta, claims for being included in the electoral rolls are invited. The claims shall be made in Form III and objections in Form IV duly filled in and they must reach the undersigned not later than the 28th day of June, 1957, corresponding to the 13th day of Asarh, 1364 (B. S.)

P. BHAUMIK,  
Registering Authority.

Election Department.  
Central Municipal Office,  
The 11th May, 1957.

N.B.—Copies of the Forms III and IV will be supplied free by the Registering Authority on application at the Election Department, Central Municipal Office and the District Municipal Offices other than the District III Municipal Office.

Instructions:—

Subject to the provisions of the Bengal (Aliens) Disqualification Act, 1918 (Citizens of the United Kingdom and Colonies and citizens of Eire being exempted) and subject also to the disqualifications mentioned in sub-sections (2) and (3) of section 49 of the Calcutta Municipal Act, 1951, any person who has ordinarily and actually resided in Calcutta during the greater part of the year 1956-57 and whose name is not on the Electoral Roll as finally published on the 22nd December, 1956, which (roll) is now under revision for the year 1957-58 and who possesses any of the qualifications mentioned in Section 48 of the Calcutta Municipal Act, 1951, must file a claim in the prescribed form (Form III) for being included in the electoral roll of a constituency. Provided that a person who is already included in the electoral roll of a constituency may file a claim for his name being included in the electoral roll of a different constituency.

A company, body-corporate, firm, joint family or other association of individuals possessing the qualification of an elector prescribed under clauses (a), (b) or (c) of section 48(1) of the Act, as such, shall not be registered in its own name in the electoral roll, but may obtain the registration of one of its members as its representative on the rolls by filing a claim in the prescribed form (Form III).

A claim shall be signed either by the person desiring his name to be included in the electoral roll or by an agent authorised in writing by such person.

Provided that when a company, body-corporate, firm, joint family or other association of individuals desires to have the name of its representative included in the electoral roll, the claim shall be preferred by such company, body-corporate, firm, joint family or other association of individuals, and shall on its behalf be signed by or marked with the thumb impression of, in the case of a company, body-corporate or firm, one of

## CORPORATION NOTICES—Contd.

the persons who are qualified to be nominated by it as its representative, and in the case of a joint family or other association of individuals, all the members thereof unless the Revising Authority for reasons considered sufficient by him exempts any such members from joining in the claim.

No person shall prefer an objection to the inclusion of any name in the electoral roll of a constituency unless his name is already included in the electoral roll of that constituency or unless he has filed a claim for being included in the said electoral roll.

Every claim and objection shall be in writing and shall state the grounds on which it is based and when it relates to an entry in the roll shall contain a reference to or the particulars of that entry.

Claims and objections shall be addressed to the Registering Authority only and shall either be handed or sent by post to him so as to reach him at the Election Department, Central Municipal Office, 5, Surendra Nath Banerjee Road, Calcutta-13, or to the Officers duly authorised by the Registering Authority to receive such claims and objections at the District Municipal Offices other than the District III Municipal Office not later than 5 p.m. of the 28th June, 1957, after which no claims or objections will be entertained.

A complete copy of the electoral roll of every constituency under revision now will be kept at the Election Department, Central Municipal Office and the District Municipal Offices other than the District III Municipal Office for public inspection during office hours from the 11th May, 1957 to the 28th June, 1957, both days inclusive

and copies of such roll are available for purchase at the Record Department at the Central Municipal Office.

Further particulars may be obtained from the Registering Authority, Election Department, Central Municipal Office. (Telephone No. 24-1495).

### Revision of The Electoral Roll For The Year 1957-58.

NOTICE

RULE 28(2).

For the purpose of revision of the electoral roll of the constituencies (Nos. 1 to 80) of the Corporation of Calcutta for the year 1957-58 a notice has been published under rule 27 of the Calcutta Municipal Electoral (Preparation and Publication and Revision and Republication of Electoral Rolls) Rules, 1952, inviting claims for inclusion of names in the electoral roll and objection to the inclusion of any names included therein. As per the said notice claims and objections will be received during the period from the 11th May, 1957, to the 28th June, 1957, both days inclusive. In this connection it is hereby notified under rule 28(2) of the said rules for general information that a complete copy of the electoral roll of all the constituencies will be kept for public inspection at the following places during office hours throughout the said period from the 11th May, 1957 to the 28th June, 1957, both days inclusive.

(i) Office of the Registering Authority at the Election Department, Central Municipal Office, 5, Surendra Nath Banerjee Road, Calcutta.

(ii) District I Municipal Office at 79, Cornwallis Street, Calcutta.

(iii) District II Municipal Office, at 22, Mirzapur Street, Calcutta.

(iv) District IV Municipal Office at 11, Belvedere Road, Calcutta.

(v) Cossipore Municipal Office at 10, Barrackpore Trunk Road, Calcutta.

(vi) Manicktala Municipal Office at 109, Narkeldanga Main Road, Calcutta.

(vii) Tollygunge Municipal Office at 28, Prince Anwar Shah Road, Tollygunge, Calcutta.

P. BHAUMIK,  
Registering Authority.

Central Municipal Office:  
The 11th May, 1957.

### Auction Sale

NOTICE

All seized carts will be sold by public auction, if not claimed within 10 days of seizure at the Cart Registration Office at 185/1, Lower Circular Road, by the Cart Registration Officer every day from 3 p.m., excepting holidays from 1st October, 1956, until further orders.

A. K. DUTT,  
License Officer.

CENTRAL MUNICIPAL OFFICE:  
The 1st October, 1956.

### VITAL STATISTICS

For the City of Calcutta for the week ending  
15th June, 1957.

CITY OF CALCUTTA (TOWN AND ADDED AREAS).

The total number of deaths registered during the week was 1,057 against 1,024 and 850 in the two preceding weeks and higher than the corresponding week of the last year by 436. The general death-rate of the week was 18.77 per mille.

TOWN (WARDS 1-27.)

The number of deaths registered during the week ending 15th June, 1957, was 834 against 822 and 709 in the two preceding weeks. There were 19 deaths from cholera against 17 and 19 in the two preceding weeks. There were 15 deaths from small-pox during the week against 20 in the previous week. There were 52 deaths from influenza against 33 in the previous week. The mortality from fevers and bowel-complaints amounted to 37 and 82 respectively against 40 and 91 in the preceding week. The general death-rate of the week was 18.94 per mille per annum.

There were 46 imported deaths. Excluding these, the death-rate of the Town was 17.89.

There were 198 deaths from respiratory diseases against 163 in the previous week.

There were 56 deaths from tuberculosis against 53 in the previous week.

ADDED AREAS (WARDS 28-33).

The number of deaths registered was 223 against 202 and 141 in the two preceding weeks. Of these, 6 were from cholera, 2 from small-pox, 18 from influenza, 16 from fevers, 70 from bowel-complaints and 62 from respiratory diseases. The death-rate of the added areas was 18.15 per mille.

There were nil imported deaths. Excluding this, the death-rate was 18.15.

There were 12 deaths from tuberculosis against 11 in the previous week.

### CITY-NEWS-PARADE

(Continued from page 214)

REVISED GRADES OF SALARIES to the employees of the Calcutta University was introduced by the Senate on Tuesday, the 18th June. It involved about 1,000 of the 1,100 employees in the administrative department. Recommendations of the Syndicate for this revision were accepted by the Senate. This will mean an additional expenditure of Rs. 60,000 a year. The employees will get the increment in their salaries under the new scales with effect from July, last year. This was introduced in the Senate by the Ex-Mayor, Shri Satish Chandra Ghosh, present Treasurer of the University.

A SLOW-APPROACH OF MONSOON IN CALCUTTA'S WEATHER CONDITION was being noticed when the city experienced a suffocating and sweltering weather during many of the recent days. Except a smart soothing shower on Wednesday, the 19th June, each day's forecast on rainfall and thundersquall was vainly made. The maximum temperature maintained at a level higher than the normal in almost all the days of this week. Relief from the sultry depressing weather was uppermost in the minds of the citizens.

According to meteorological reports there were little encouragement as to the monsoon current gaining strength in the Bay of Bengal. The position was due to the fact that May conditions were still prevailing during the middle of June. The prolongation of winter conditions and mild April are found to be responsible for such delayed monsoon. Abnormality in weather has occurred this year not only in India but also over many other parts of the world.

**CALCUTTA :: BOMBAY :: KANPUR**

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the messes thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-5-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weights used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Suptd., S. S. Bogg Market.

### COUNCILLOR KISSAN CHAND BARAL PASSES AWAY

With a heavy heart we announce the death of Councillor Kissan Chand Baral, an important member of the Standing Education Committee, on Thursday morning, the 26th June, at his residence at 1, Prem Chand Baral Street, Bowbazar area, Calcutta. Death came as a result of an attack of Coronary Thrombosis. Besides, the late Councillor Baral was suffering from various ailments for sometime past. He was 61.

As soon as the news of his death spread over the city a large number of his friends and admirers went to his house to pay their last respects to his memory. In spite of heavy rains on that day his funeral was largely attended. The Mayor, Dr. Triguna Sen, several Aldermen and Councillors and many of the Corporation Officials were present at the time of his cremation. Shri Bejoy Singh Nahar, M.L.A., General Secretary, Pradesh Congress Committee, also followed the bier. Shri A. K. Basak, acting Commissioner, B. Ghosh, Deputy Commissioner, were also present. Wreaths were placed on the bier by the Mayor, the Commissioner and by different other individuals. Wreaths were also placed on behalf of different institutions and organizations to which he was attached.

The Corporation offices and other allied institutions were closed as soon as the death news was received.

The late Councillor Baral was returned from Ward No. 48, in the Bowbazar area of Central Calcutta. In the general election in 1952, he was elected from the same constituency. He was also the president of the Congress Committee, Ward No. 48, and Vice-President of Munchipara Mandal Congress Committee. Besides, he was attached to many of the cultural and educational institutions of his locality.

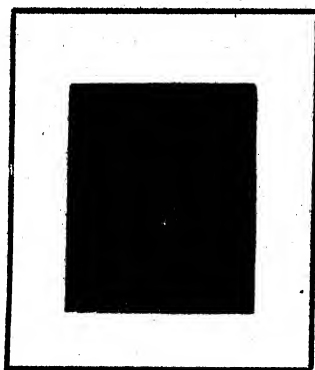

Belonging to the famous Baral family of Bowbazar, the late Councillor was the son of the late Shri Lal Chand Baral. The family had contributed much for the cause of country's struggle for freedom since the days of Deshabandhu. Himself being a lover of music he was the elder brother of Shri Rai Chand Baral, the noted musician. The late Councillor Baral devoted the major part of his life for the development of classical music in the country. He was one of the Organising Secretaries of the All India Music Conference and was the Secretary of a well-known institution imparting classical music in the city.

The late Councillor Baral's death was widely mourned. The Corporation condoled his death on Friday, the 27th June, and adjourned its meeting for the day as a mark of respect to his memory. The meetings of the Standing Committees, scheduled to be held on the 26th June, were also adjourned for the day.

Meeting under a shadow of deep grief the House stood in silence praying peace to the departed soul when the death was referred to in the House at the outset of the Ninth Ordinary Meeting of the Corporation. Paying eloquent tributes to his memory, the Mayor described the death as the loss of a respectable citizen. Speaking of his amiable manners and behaviour the Mayor said, "Such unique was his popularity that the citizens residing under Ward No. 48, voted him to the Corporation during the last General Election, although he was then ill and could not attend to them." Dr. Sen also said, "Abundantly manifested with qualities he was loved and respected by all. The House also conveyed its deep sense of sorrow to the members of his family at their bereavement.

Mainly interested for the spread of education in the city the late Councillor Baral spent the major part of his Councillorship as a member of

the Standing Education Committee and his advices were sought for in cases of need. Though he hardly spoke in the weekly Corporation meetings still he was devoted to the service of the

citizens and watched every item for extension of civic amenities.

We also extend our sincerest condolences to the members of the bereaved family.

#### CALCUTTA 'FLU, NOT' SO SEVERE

Influenza was responsible for the highest number of deaths during the last fortnight. There were 119 deaths from the disease. On Thursday, the 27th June, two persons died of 'Flu and about a dozen suspected cases were taken to hospital from different parts of the city. After treatment they were discharged. On Monday, two men and a child died of the disease. Thus though the incidence of influenza in the city has been steadily declining during the last few days, still the Health authorities are maintaining a rigorous check on passengers arriving by Air or by Sea from the East Asian Countries. As a check was maintained since the disease had taken a severe form in those countries, Calcutta citizens had not to suffer so much as it was apprehended. This arrangement, however, will continue for some time more, especially because of the threat of another wave of influenza from Japan shores.

As a precautionary measure the West Bengal Government has authorized the Directorate of Health Services, West Bengal, and the Health Officer, Calcutta Corporation, by order to direct the closing of schools or cinemas or eating or drinking establishments or other places of public gathering or amusement or forbid the holding of fairs or meals in such area for a period not exceeding 15 days and renew such order, if circumstances justify, for further periods not exceeding 10 days at any one time, if such a course is imperative in the public interest to prevent a severe outbreak of Influenza in any area within the city'.

The Registrar of Calcutta University in a Press Note issued on Tuesday, the 25th June, has stated that in view of the incidence of influenza the University Colleges of Arts and Commerce and Science and Technology will re-open after summer vacation on the 10th July.

Recently, addressing the State Health Ministers' Conference, the Union Health Minister, Shri D. P. Karmakar, said that so far 4,50,000 'flu cases had been reported from all parts of the country with 819 deaths. Though the epidemic had shown decline in the bigger towns like Madras, Bombay, Delhi and Calcutta, it was having its toll in other important as well as in smaller mofussil centres.

Shri Karmakar said, he was sure that the Public Health authorities concerned would with the co-operation of the public, take firm measures for the control against the spread of the epidemic. He expressed appreciation of "the prompt measures taken by the respective Governments and the public co-operation which has rendered the task of the Public Health authorities much easier."

Speaking on "Atomic energy and the future of mankind" at the Sarat Bose Academy, Calcutta, on Saturday, the 22nd June, Dr. B. C. Guha, Head of Calcutta University's Applied Chemistry Department, said the possibility that the new influenza virus in East Asia was the result of nuclear explosions could not be ruled out.

"In the general climate of the countries of the East", he added, "such viruses would thrive and these would wreak greater havoc because the populations in this area are chronically under-nourished."

Mr. Guha pointed out that so far sufficient attention had not been given to the possibility of the production of mutants of disease-carrying viruses, bacteria and insects as a result of radiation caused by nuclear explosions.

According to him, it was possible that new mutants of pathogenic bacteria, of the mosquito and other flies might occur. The new mutants might render them resistant to known drugs and insecticides. The great strides that had been taken by modern science in promoting public health in preventing the spread of infectious diseases would then be halted; diseases of a new character might also take a great toll of human life.

However, Shri Karmakar assured the Ministers in that conference that the response to inquiries regarding availability of the vaccine from other parts of the world had not been encouraging. A vaccine is under preparation at the Government of India, Influenza Centre at Conoor. The possibilities of its production are also being explored at the Hoffkins Institute, Bombay, and the Central Research Institute, Kasuli, the Minister added.

#### MAYOR INTRODUCES NEW PROCEDURES

The weekly meeting of the Corporation some-time ago agreed to the Mayor's suggestion that in future, instead of raising matters of public importance in the meetings when no reply from the executive could be expected, the Chairmen of different Standing Committees would be asked to make statements about which Councillors would be able to raise questions. The questions would be shaped in such a way so that there might be a full discussion on the subject. The Mayor also suggested that these questions would be sent to the Commissioner and his replies would be placed before the House at its next meeting.

At another recent meeting the Mayor Dr. Triguna Sen sought the co-operation of the members in conducting the Corporation meetings more smoothly. He said that 15 minutes would be allotted for general discussions in the Corporation on different topics of public importance and no member would be allowed to speak more than two minutes during the period. He also informed the House that except on special occasions Corporation meetings would not be adjourned for the day.

## Personalia

### SHRI MORARJI DESAI IN THE CITY

The Union Minister for Commerce and Industry, Shri Morarji Desai, reached the city on Friday, the 21st June last, for a two-day visit. He had busy programmes on both the days.

Inaugurating the Second Conference of Chartered Accountants of India at the India Exchange Hall, on the day of his arrival the Union Minister called upon the Accountants to perform their duties honestly and efficiently and assist both their employers and the State.

Shri Desai did not think that there should be any conflict between the Government and commerce and industry. Both work for the common good, and if they work together they could strengthen each other in the correct way, added the Minister.

Alderman G. Basu, Chairman of the Conference Committee, said that Planning had put an obligation and responsibility on the entire nation, more so on the Chartered Accountants who were intimately and directly associated with the production and distribution of wealth.

Later the Delegates to the conference were accorded to a Reception by the West Bengal Regional Council of the Institute of Chartered Accountants of India at Firpo's. Shri Desai was the Chief Guest.

In the same afternoon addressing representatives of the Indian Chamber of Commerce led by Sir B. P. Singh Roy, the Union Minister for Commerce and Industry urged industrialists to "work with vigorous optimism" in taking the country forward.

Inflation to some extent is bound to result in an expanding economy, Shri Desai emphasized, although no one would deny that beyond a certain limit it could prove dangerous. The industrialists could play a positive role in keeping inflationary tendencies in check. To earn foreign exchange it is necessary to step up exports in as many directions as possible, he also said.

Addressing to the members of the Bharat Chamber of Commerce on Saturday, the 22nd June last, the Union Minister for Commerce and Industry, advised Indian business men to base their policies on the long-term perspective of people's welfare instead of an immediate profit motive.

Replying to other points raised on the occasion the Minister said that the Union Government was quite alive to the need for expansion of employment opportunities in West Bengal and for rehabilitation of her surplus population in other parts of the country.

Earlier welcoming the Minister, Councillor K. L. Dhandhanias, President of the Chamber, expressed concern over "the monopolistic tendency" of the State Trading Corporation. He also referred to many other points in regard to the economy of the country.

In that morning, accompanied by Union Minister of State for Commerce and Industry, Shri M. C. Saha, Shri Desai visited the Jay

Engineering Works, Tollygunge. Thereafter, the Union Minister visited the National Instruments Factory and the Offices of the Director General of Commercial Intelligence and Statistics, Calcutta. He also met the tea merchants and others. Before leaving the city on that evening the Union Minister called on the State Chief Minister, Dr. B. C. Roy.

### SHRI JYOTI BASU AS LEADER OF OPPOSITION

The Speaker of the West Bengal Legislative Assembly has declared Shri Jyoti Basu, leader of the Communist Party, as the Leader of Opposition. In giving his verdict, the Speaker Shri Sankardas Banerjee pointed out that the Communist Party in the State Assembly, satisfied the test of numerical strength. The party and groups in Opposition combined had a strength of 99. Of them, the Communist Party had 51 members—more than the number of all the other groups taken together.

The Speaker noted that although there was no statutory recognition of the Leader of the Opposition in India, by courtesy and convention a leader of the Opposition was often recognized in every legislature.

Shri Banerjee also said that the principle which he followed, was not as a binding precedent but as a guide, was laid down in the Ministers of the Crown Act, 1937. The Act had defined the Leader of the Opposition as "that member of the House of Commons who is for the time being the leader in that House of the party in opposition to His Majesty's Government having the greatest numerical strength in that House."

### DEATHS AND DISEASES IN THE CITY

During the week ended June 22, 49 persons died of Influenza in the city against 70 the week before. The number of attacks from Influenza was 2856 against 4425 in the preceding week. In the corresponding weeks last year there was neither attack nor death from the disease.

Cholera attacks and deaths were 52 and 19 against 58 and 25 in the preceding week. The number of attacks during the corresponding weeks last year was 80 and 140 and deaths were 36 and 52.

There were 8 attacks and 7 deaths from small-pox against 19 and 17 the week before. The number of attacks last year during the same weeks were 11 and 8 and deaths were 11 and 8.

Fiftyfive persons died of Tuberculosis in the week against 68 the week before. The number of deaths from tuberculosis during similar period last year were 42 and 40.

Deaths from all causes during the week under review were 848 against 1,057 the week before. Deaths from all causes during the corresponding weeks last year were 528 and 621.

# THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE EIGHTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 21ST JUNE, 1957.

## BEPIN BEHARY GANGULY STREET

The House re-named Bowbazar Street as Shri Bepin Behari Ganguly Street. The demand for re-naming the street was a wider one made by the citizens. At least half a dozen associations prayed for re-naming of the street, so much was the popularity of the late Shri Ganguly, one time revolutionary leader of India.

Dedicated his life to the cause of Motherland, the late Shri Bepin Behary Ganguly was 'a great patriot, and a great revolutionary leader'. His services to the Motherland was immense. In every struggle for country's freedom he was in the forefront and took the consequences for it. He spent the best part of his life in jails. That is why his name needs no introduction to his countrymen. At the same time it is difficult to estimate the amount of sacrifices he made for the cause of the country. His contribution in this respect was unique in India.

The late Shri Ganguly was also a Councillor of the Corporation for several terms. He first entered in 1930 from the then Ward No. 11, mainly Nebulala area. He was elected for the last time in 1946 and was a Member of the House till 1948. The re-naming of Street after him is an insignificant worldly affair in perpetuating the memory of a man so great. Among his contributions to the locality he was one of the founders of Bowbazar Balika Vidyalaya now named as Girindra Balika Vidyalaya.

## RE-NAMING OF A ROAD

The House re-named a new Road, joining Wellington Street and Chittaranjan Avenue, as Bepin Mullick Avenue. The re-naming was recommended by Borough Committee No. 9.

The late Shri Bepin Behari Mullick was elected as a Commissioner of the Corporation in 1906 and continued as the same for 15 years, from the then Ward No. 10. His services to the rate-payers during this long period were many and varied. As a leading member of the Calcutta Bar the late Shri Mullick earned a name and he espoused the causes of many of the political convicts in those Swadeshi days.

Besides, he was intimately attached to a number of educational, cultural and philanthropic institutions in the city and he actively participated in their upliftments.

The late Shri Mullick belonged to the famous Basu Mullick family of Singur, Hughli, to which the late Sir S. N. Mullick, the late Shri P. N. Mullick and others were members.

## GIRIN BANERJEE PARK

The House named a newly constructed Park at Ganesh Chandra Avenue as Girin Banerjee Park. The Borough Committee No. 9 recommended the naming of the Park.

A life devoted to the cause of country's independence, the late Shri Girindra Nath Banerjee was also attached to many of the social and cultural activities of that locality. With others he founded the Bowbazar Balika Vidyalaya afterwards named after him. His sufferings for the cause of country was immense. He courted imprisonment on several occasions and spent the best part of his life in jails. He became one of the revolutionary leaders of Bengal having his attachment to the late Shri Bepin Behary Ganguly and other forerunners in this field.

## CORPORATION REPRESENTATIVES

The House appointed Corporation representatives among the Councillors in different public bodies attached to the civic body either in the shape of receiving grants or help in other ways.

The list of names of representatives will be published in a subsequent issue of the "Gazette".

## PROVIDENT FUND TRUSTEES

The House nominated Councillors Kishorilal Dhandhanania and Biman Mitra as representatives of the Corporation amongst Aldermen and Councillors in the Board of Trustees of Calcutta Corporation Provident Fund Institution.

Under Rule 5 of the Provident Fund Rules, the Board of five Trustees would consist of the Commissioner and the Chief Law Officer as Ex-Officio Members while a third one was elected from amongst the subscribers to the Provident Fund besides the two Members of the House.

It may be recalled here that Dr. Sunil Chandra Biswas of the Manicktola Health Department has been elected from among the subscribers. His election was not contested by any body.

The present term of the Board is for the financial year 1957-58 or till their successors are appointed.

## FLAT INCREMENT REGULARISED

Based on the recommendation of the Standing Finance Committee, the House granted a flat increment of pay at the rate of Rs. 8/- only per month to all employees of the Corporation drawing a basic pay up to Rs. 350/- per month with effect from the 1st April, 1956. This increase of pay was made available to all employees who were in service on the 1st April, 1956 as well as those appointed or promoted thereafter provided the maximum pay of their grade did not exceed Rs. 358/- only according to the terms and conditions agreed upon previously between the Corporation authorities and the employees.

There was some confusion in the language of the recommendation and this was sought to be

(Continued on next page bottom)

**CIVIC NEWS FROM FAR AND NEAR****HOSPITAL AT DARJEELING**

A Special T.B. hospital will be built at Darjeeling by the West Bengal Government soon.

Incidence of tuberculosis is stated to be on increase in this hill district of West Bengal.

**CANCER INSTITUTE IN BANGALORE**

The Bangalore Corporation has decided to open a Cancer Institute to be named as "Kidwai Memorial Cancer Institute".

Announcing this in the House, the Mayor, Shri Jeenabhai Davidoss, said that that the Centre and the State Governments would be approached for liberal contributions for the purpose. The cost has been estimated at Rs. 10 lakhs and the Corporation's share would be Rs. 8 lakhs.

**SUPERSESSION PERIOD EXTENDED**

The period of supersession of the Commissioners of the Panihati and Barrackpore Municipalities, have been extended up to the 31st March, 1958, according to a Press Note issued by the West Bengal Government, Local-Self Government Department some time ago.

**DEOGHAR MUNICIPALITY SUPERSEDED**

Administration of the Deoghar Municipality was taken over by the Sub-Divisional Officer of Deoghar recently.

This step was taken by the Government following the crisis caused in the Municipality over the election of its Chairman.

**DESHABANDHU MEMORIAL MATERNITY HOME AMALGAMATED**

The Municipal Board of Darjeeling at one of its monthly meetings considered the suggestion of the Deshabandhu Memorial Society, Darjeeling, for amalgamation of the municipality-managed Maternity and Child Welfare centre at Darjeeling and Ghoom with that of the Maternity and Child-welfare Centre functioning under the auspices of the Society, at "Step Aside". The proposal was accepted on terms and conditions to be settled later on by the managements of the two organisations.

**DARJEELING MUNICIPALITY TO BE RE-CONSTITUTED**

The Government Notification abolishing the nomination system in the Darjeeling Municipality, resulted in an order from the Government detailing re-distribution of the seats among the nine wards for the ensuing Municipal elections scheduled to be held shortly. These seats will be in addition to the 20 elected seats of the Municipality. The seats have been re-allocated in proportion to the number of voters in each ward according to the electoral roll prepared by the Municipality as follows:— Ward I (Ghoom) 2 seats, Ward II (Collinton) 1 seat, Ward III (Club) 1 seat, Ward V (Lower Beechwood) 1 seat, and Ward VI (Bazar) 1 seat.

**WATER SUPPLY IN BANGALORE**

The Mysore Government has submitted a scheme for the improvement of water supply in the city of Bangalore which is now under

examination of the Public Health Engineering Organisation of the Government of India. The question of sanctioning a loan for the scheme would be considered after the scheme is approved. A sum of Rs. 100 lakhs has, however, been earmarked for the scheme during the Second Plan period.

**WATER SUPPLY AT BHADRESWAR**

A scheme for augmentation of drinking water supply in Bhadreswar Municipality has been approved by the West Bengal Government. The estimated expenditure for this purpose is Rs. 10.72 lakhs.

The State Government will share two-thirds of the expenditure and the rest will be met from the funds of the Municipality.

**WATER SUPPLY IN CHANDERNAGORE**

Chandernagore Corporation has, approached the State Government for a lump sum grant of Rs. 95 lakhs for implementation of water supply of the town. The Corporation will incur an annual expenditure of Rs. 1.68 lakhs for the maintenance of the necessary plant. The present income of the Corporation being inadequate to meet the annual expenditure of maintenance, the Corporation authorities have, assured the Government a further increase of the Corporation taxes after three years. Meanwhile, certain minor repairs have resulted in some improvement in the supply of water.

The implementation of the sewage scheme for Chandernagore is under consideration of the State Government. The plans and estimates for this purpose are being examined by the State Government.

Another scheme of river embankment to protect the town from the erosion of the Hooghly is also under consideration of West Bengal Government.

**—THE CORPORATION AT WORK**

(Continued from previous page)

clarified by Councillor Shyamal Kumar Dutta, another member of the Standing Finance Committee, who said that the original intention for which the resolution was adopted meant for the benefit of all employees and workers in service on 1st April, 1956 drawing a basic pay up to Rs. 850/-. But he regretted that over 1,000 workers and employees did not get the benefit. Shri Dutta demanded that all such employees should enjoy such privilege.

The House, then passed a rider moved by the Councillor Anil Moitra which was adopted by 27 votes against 23.

**FILLING UP LOW-LYING LANDS**

The House, on the recommendation of the Standing Works Committee, directed District Engineers to induce the private individuals to raise the low-lying lands within their premises at normal levels as well as to improve those places. The recommendation demanded to levy usual service charges rendered by the Corporation for such work.

By another recommendation the House desired to fill up all the low lands belonging to public and philanthropic institutions on nominal charges.

## HEALTH &amp; HYGIENE

CIVIC NEWS FROM FAR AND NEAR

## Public Health In West Bengal

[By Dr. K. P. GHOSH, COUNCILLOR, CALCUTTA CORPORATION]

PER CAPITA expenditure on medical and public health in West Bengal has been claimed to be the highest than it is in any other State within the Indian Union. The figure has reached at Rs. 8.98 compared to Rs. 8.12 on the previous year. The overall estimated expenditure has shown a steady increase of about Rs. 1.29 crores than the estimates of the year 1956-57.

Lack of adequate finance, material and trained personnel are some of the impediments in extending larger benefits to the people. These were also fully admitted by the State Health Minister, Dr. A. B. Roy while introducing his demand for budget grants recently. A terrible lack of personnel to take up public health work in the State was pointed out by Dr. Jnan Mazumdar a Calcutta M. L. A., while criticizing the present health policy of the Government. It was further ascertained that the State Government had failed to provide training for the Sanitary Inspectors which was available during the British period. Even the number of trained Doctors on Public Health coming out successful every year is insignificant in comparison with the successful medical graduates whose number is no less than 400 a year. Going further Dr. Mazumdar said that the establishment of a Bacteriological Laboratory in the State with a paltry sum of three lakhs would be of little help to the Public Health administration.

The most urgent and complex problem in the State is Tuberculosis and fortunately Government's attention was drawn earlier to this. The Government has decided to further increase the number of T. B. hospital beds and it will be about 1500 within the State.

Control of epidemic diseases has not been so successful as it was expected. In spite of the fact that Calcutta and other important cities are being visited by these diseases almost every year the Government boasts itself of providing one bed only for an average of 80,000 people in the State. The opening of the Infectious Diseases Hospital in the Belliaghata area has little smoothened the situation. Practically there is no scheme for medical research work in this field. Epidemic diseases have become endemic in these days. And in Calcutta where epidemics have become almost a common feature occupying a period of almost half the year there is no arrangement for the study of epidemiology. Supply of adequate quantity of filtered water both in urban and rural areas has long been neglected. Drainage arrangements are equally worse and thus help to spread these diseases.

Anti-leprosy treatment has not been satisfactorily improved nor the segregation of lepers has been successful to a minimum level.

Hospital administration in the State is not inspiring when the demand for hospitalization has been increased almost without any mathematical proportion within the State. In Calcutta alone over 46 per cent of 20,000 beds are generally denied to the city dwellers due to pre-occupation by mofussil

patients. The Budget Estimates hold an ambitious project of adding about 800 beds in city's hospitals where the approximate estimated demand is nearly 4,800 only.

Assuring the Calcutta people, the Minister also announced the Government's decision to upgrade the Sub-Divisional and District hospitals. Given specialists services and other modern facilities would be available at three hospitals. The citizens' anxiety would also be lessened if the demands of an Ex-Mayor of Calcutta were fulfilled. He wanted that the existing mal-practices in the administration should be removed. In addition to the neglect in treatment discrimination in the quality and quantity of diet given to patients in different hospitals are the other complaint. There is a further demand for the introduction of double shifts in out-door departments of the hospitals whereby a larger number would be served.

Moreover, the long-awaited demand for a central organization in Calcutta whereby hospital administration would be easier, has not been attended to.

Water supply in tropical countries form the main item in public health. The Minister has also announced that the Government has a plan of urban water supply consisting of 36 schemes costing Rs. 4 crores. Out of which Rs. 2 crores only would be made available from the Union Government as an advance during the Second Five Year Plan period. Thus the paucity of funds had forced to curtail many of the water supply projects in the municipal towns. Still he was proud to acquaint the House with a few more projects for which financial assistance had been assured to. The Union Government's funds have been allotted to Rs. 1.5 crores water supply project of the Howrah Municipality. Similar help would be given to water supply projects of Barnagore and Kamarhatty Municipalities. While a larger number of municipalities have been denied such help. Water scarcity still prevails over the municipal towns like Behala, Bhadreswar, Chinsurah, Bhatpara and many others falling under the orbit of Greater Calcutta. Blue prints of schemes and projects of these municipalities have been put to cold storage for want of adequate funds.

As a Councillor, I am bold enough to say that the present difficulties of the Corporation is much of the financial difficulties. There is a proposal for raising a Debenture Loan for nearly Rs. 2.5 crores for immediate implementation of a short-term measure of water supply. The Corporation has so far been assured by the Union Government to make advance the sum. The Corporation's big project for Rs. 12.5 crores for water supply under the Five-Year Plan mainly suffers from paucity of funds.

The administration of Public Health thus stands to-day in a most unsatisfactory level. There have been agitations in the past in this regard but no satisfactory answer could be placed in the State Legislature ever before.

# CITY NEWS PARADE

**OBITUARY:** The death of Mr. George Morgan, C.I.E. occurred on Wednesday, the 26th June, at his Kalingpong residence. He was a Councillor of the Corporation for several years.

The late Mr. Morgan was one of the Bengal representatives in the Indian Legislative Assembly from 1931 to 1937. He was the President of Royal Agri-Horticultural Society of India.

Born at Kirkcaldy, Fifeshire U.K., in 1867, the late Mr. Morgan came to Calcutta to join the firm of Messrs. George Henderson and Co., in 1889. He was also the Chairman of the Naryangunge Municipality for 11 years.

In 1922 he was elected a member of the Bengal Legislative Council on which he sat till 1928.

**DR. SYAMAPRASAD MOOKERJEE'S** fourth death anniversary was observed in the city on Sunday, 23rd June. Wreaths were placed by the Mayor, Dr. Triguna Sen, and the Sheriff, Shri S. C. Roy, at the place at Keoratala where the Jan Sangh leader was cremated. Wreaths were also offered on behalf of the West Bengal Government, Calcutta University, several schools and colleges, the Jan Sangh and the Hindu Mahasabha.

Jan Sangh workers and supporters paid their homage to the memory of Dr. Mookerjee at their party office. Under the auspices of Calcutta University Alumni Congress a memorial meeting was held at the Senate Hall to pay homage to the late Dr. Mookerjee on the next day. Shri S. C. Roy, Sheriff of Calcutta, presided. Dr. Dukshaharan Chakraborty, Registrar of the University, Dr. Promode Kumar Ghosal and others addressed the meeting.

A procession started with the portrait of Dr. Mookerjee from Satyanarayan Park and terminated at Wellington Square on Sunday. A public memorial meeting was also held at Wellington Square with Shri Devaprasad Ghosh presiding on the same day.

Another meeting was held at the Ashutosh Memorial Hall, Bhowanipore. Shri Hemendra Prasad Ghosh presided. The Nikhil Banga Viddharthi Parishad also observed the death anniversary at Maharani Swarnamoyee Road, Calcutta.

**INDIA-CHINA FRIENDSHIP ASSOCIATION** observed the Anniversary of the Nehru-Chou En-Lai joint declaration of the Five Principles on Friday the 26th June. At a meeting held at the University Institute Hall, Shri Salla Kumar Mukherji, who presided, Shri Sankardas Banerji, Speaker, West Bengal Assembly, Dr. B. C. Guha, Prof. Nirmal Bhattacharyya, and several others spoke on the significance of the principles.

The Chinese Consul-General in Calcutta said that the Colonial powers were exaggerating and creating disputes among Afro-Asian countries. It was all the more necessary that solidarity and friendship among the peoples of these countries on the basis of the principle should be developed further.

Several messages, including from the Vice-President of India, Dr. S. Radhakrishnan, from the Prime Minister, Shri

Jawaharlal Nehru and from the Chinese Ambassador in India, were read at the meeting, which was attended by many Chinese residents.

**ALL-INDIA CHARTERED ACCOUNTANTS STUDENTS' CONFERENCE** was inaugurated at India Exchange, on Sunday the 23rd June. Shri S. P. Chopra, President of the Institute of Chartered Accountants of India, said that the role of an accountant in the modern economy should be to get as close to production as possible and devise ways to increase production and the national income to raise the people's standard of living.

Alderman, G. Basu, Chairman of the Conference Committee, said that the profession, in keeping pace with the changing economy of the country, would demand greater efforts on the part of its members. "We must consider more and more seriously the Government's economic policies and their impact on industry, commerce and trade and adjust ourselves to the fast changing pattern of economy" added Alderman Basu.

**ACCIDENTS, HOUSE COLLAPSE ETC.:** An unidentified young man died of electric shock near Tramway terminus, Sealdah on Thursday, the 27th June. An overhead electric wire snapped on him while he was passing along Lower Circular Road.

Helped by Fire Brigade men, the neighbours rescued three persons on Wednesday, the 26th June, trapped inside the fallen hutments in a bustee at Ram Chandra Ghosh Lane, North Calcutta. The injured included a child, and a calf. Six rickshaws were damaged. The child, seven-year-old Jyotsnamoyi Dasi, received a head injury and died later on after removal to hospital. The collapse was due to heavy showers on Wednesday early morning.

The bustee, consisted of huts with tiled roofs had been standing for 40 years. Fifteen months ago it accommodated 12 families and a small workshop. In February 1956, the occupants were asked to vacate the huts.

**VOTING TO BUDGET GRANTS IN WEST BENGAL LEGISLATIVE ASSEMBLY** concluded on Friday, the 26th June, when the House passed 15 demands totalling about Rs. 2.88 crores within a period a little over three and a half hours. This was possible because of the application of guillotine in respect of 11 demands after four items were discussed. The discussion confined mainly on Fisheries and Jails. Seven demands were moved by the State Chief Minister, Dr. B. C. Roy.

On Friday, the 21st June, the House passed demands related to expenditure on irrigation projects within the State and the State's contribution towards D. V. C. projects for the current year. Being attacked by the opposition as regards many of the irregularities in the Corporation the State Chief Minister accepted their suggestion that he would seek changes of the D. V. C. Act in order to have some control over the Corporation.

Grants on Agriculture and Veterinary were passed on the 22nd instant without division. The debate lasting for four

hours and a speaker was conducted in a friendly atmosphere. The speaker was a former member of the party and after the speaker, the speaker spoke about the party and industry and labor.

Giving a long list of newly-built buildings mainly within this city and Greater Calcutta, the Minister for Civil Works, Shri Khandekar, said the Ganga Sannidhan and the Mahabharat Sannidhan would be completed in about three months. An 11-ft. bronze statue of Mahatma Gandhi would be installed at Eden Gardens, during the current financial year. The work had been entrusted to the famous sculptor, Shri Debi Prasad Roy Chowdhury.

The Minister also said that construction works were sometimes held up because of an acute shortage of steel and cement, which, he added in reply to an Opposition remark, were not available even in the blackmarket.

Moving demands on his department, the Labour Minister, Janab Abdus Sattar, spoke about the well measures for labour. He said that the Employees' State Insurance Act, enforced in Calcutta and Howrah since August 14, 1955, covered about 280,000 workers at present. The measure could not be enforced elsewhere because of lack of necessary hospital facilities. The Government had a scheme for 600 hospital beds of which 400 would be for general patients and 200 for tubercular patients. All these beds would be reserved for insured workers. It was planned to enforce this Act in the Greater Calcutta area this year.

The Minister also claimed that the employer and employees' relation within the State has much improved during the year 1956. Besides, the employment position was inspiring last year.

While supporting the Government's labour policy Dr. Maitreyee Bose, representing a labour area from the city stressed the need to narrow the margin between the highest and the lowest paid workers. This could be done by evaluation of jobs and fixation of wages accordingly.

During the remaining days of this week or the 25th, 26th and 27th. June, grants for Loans and Advances by the State Government and for 'Miscellaneous and Capital Account of other State works, outside Revenue Account', 'Administration of Justice', Forests, Miscellaneous Contributions and other Taxes and Duties and Grants and advances to Local Bodies in West Bengal, were passed. There were sharp exchange of words between the supporters and the Opposition during the debate on Judiciary when a member falsely alleged that some lawyers had a tendency to delay cases in the Rent Controller's Courts for extorting money from the litigants. Another furore followed when Shri Nepal Roy, a representative from Jorasanko area, made an uncharitable remark that the Opposition was a 'monument of corruption' and even he named a member who had been elected from another part of city. The allegation was however, referred to the Privilege Committee on the next day.

The grant for 'Loans and Advances etc.' was moved by the State Finance Minister, Dr. Roy. He listed many of the development projects in connection with the city's improvements including North Salt Lake area.

Dr. Roy also said that the State Government had lent Rs. 1 million to the Calcutta Tramways Co., for laying lines within the Dalhousie Square park, because it was the Government's desire to widen the roads around the Square. It was not the Company's job and normally expenses for such purposes should have been debited to the State Government, but under the present arrangement the Government would get back the money in three years with an interest of 4 per cent.

Moving the demand for "Administrative of Justice" in  
the  
1958

The Judicial Administration of the District and Sessions Courts has been hampered with shortness of staff and greater demand to work and handle the two courts were hampered at times. In view of the amount of work the Courts in the District have handled, the disposal of cases has not been slow.

During a discussion on Miscellaneous Contributions and other Taxes, an elderly representative from the city, Shri Amar Bose suggested abolition of sales tax on all kinds of books and medicines.

Besides, most part of the debate on budget grants was dull and the speeches contained a little which deserve mention as regards in the interest of this vast metropolis. The city's problems were put up by many of the members

## DEATHS AND DISEASES IN THE CITY

Small-pox ceased to be prevalent in epidemic form in the city from the week ending the 15th June, as deaths from the disease had been below 30 for three consecutive weeks. Attacks and deaths from small-pox numbered 19 and 17 against 26 and 23 respectively in the previous week. In the corresponding fortnight last year, there were 12 attacks and 11 deaths.

Influenza was again the biggest killer during the week when it caused 70 deaths, attacks numbering 4,425. In the previous week, influenza deaths and attacks were 36 and 1,270 respectively.

Cholera caused 25 deaths against 26 the week before, the attacks numbering 53 and 64 respectively. In the corresponding weeks last year, there were 140 and 248 attacks and 52 and 107 deaths.

Tuberculosis claimed 68 lives against 64 in the previous week and 40 and 46 in the corresponding weeks last year.

Deaths from all causes totalled 1,057 against 1,026 in the previous week and 621 and 713 in the corresponding weeks last year.

who wanted to draw the attention of the House. The newly elected speaker's tactfulness saved many a situation from unnecessary and prolonging debates in the House.

CALCUTTA UNIVERSITY'S ANNUAL BUDGET

ESTIMATES FOR 1957-58 was passed by the Senate on Wednesday, the 25th June after a two-day discussion. The budget showed a deficit of Rs. 8.38 lakhs, the estimated income for the year being Rs. 80.64 lakhs and expenditure Rs. 89.02 lakhs. With the estimated opening deficit, the total deficit was a little over Rs. 9 lakhs. The estimates were presented by the University's Treasurer, Shri Satis Chandra Ghosh, an Ex-Mayor of Calcutta. The Vice-Chancellor, Prof. N. K. Sidhanta presided over the discussion.

On the first day about nineteen members spoke including the Treasurer. Decentralization of University's administration, greater assistance and authority to affiliated colleges for their improvement, a conference of doctors and representatives of welfare organizations to study the appalling state of students' health and the setting up of a 'State University Grants Commission' were among the suggestions offered.

At its resumed discussion on Wednesday several members criticised the authorities for not taking proper steps in realising outstanding arrears at the credit of the University fund. By a cut motion, a member raised a discussion on the working of the University Press. The member, who was supported by others, criticized the Superintendent for the alleged inefficient management.

Replying to criticisms, the Ex-Mayor said that additional amounts had been earmarked in the year's estimates for students' welfare activities, although he admitted that still larger amounts should be allocated for the T. B. and the Poor Funds. A sum of Rs. one lakh, he added, had been provided for the University College of Medicine for Post-Graduate studies.

The Vice-Chancellor also said that some difficulties had arisen in regard to the disbursement of the money from the funds since the taking over of the School Final Examination by the Board of Secondary Education. The University had referred the matter to the State Government.

**DEMONSTRATION:** Urging improvement of the State's food position a demonstration was staged on Thursday, the 27th June, on the city streets. It was organized by the 'Price Increase and Famine Resistance Committee'. In spite of heavy rains on that day about 1000 persons went in procession towards the State Assembly House when they were stopped in front of the Raj Bhawan by the Police as Section 144 was in force there. They carried posters and charts exhibiting the deteriorated food position in the country. They also shouted slogans. Earlier they held a meeting at the foot of the Ochterloney Monument, Maidan. The demonstration was led by Dr. Suresh Chandra Banerjee, Shri Hemanta Kumar Basu and Shri Niranjan Sen, all M. L. A's.

Reference to the demonstration was made in the House by Dr. Banerjee, Shri Basu, Shri Jyoti Basu, Shri Subodh Banerjee and Shri Jatin Chakravorty. They asked the Chief Minister and the Food Minister, Shri Sen to meet the demonstrators. They also requested the Speaker to adjourn the House for half-an-hour to give members an opportunity to meet the processionists.

Later on, some Leftist M. L. A's addressed the demonstrators, exhorting them to continue their movement against the high prices of essential commodities. The demonstrators dispersed later.

The Memorandum sent in this connection to Dr. Roy, urged the Government to open fair price shops throughout the State to sell rice at Rs. 15 a maund in urban areas and at not more than Rs. 12-8 in villages. The shops should also supply mustard oil, dal, spices, cloth and other essential commodities at fair prices. The grant of large-scale food relief and gratuitous relief and adoption of anti-hoarding measures were suggested to lower the high price of food.

**CALCUTTA EXPERIENCED A HEAVIEST DOWN-POUR** on Thursday noon, the 27th June, since the arrival of the monsoon this year. It rained in torrents for a little over an hour causing the low-lying areas flooded. Traffic, particularly tram services in many of the badly affected areas were completely suspended for nearly six hours. A pit had also formed on the Chowringhee near its crossing with Theatre Road due to this heavy rains. Traffic in that area had to be diverted till it was subsided on the next day. The rainfall recorded on that day was 0.82 inches along with fall in temperature causing pleasantness to the citizens.

The long-awaited monsoon broke over the city on Sunday, the 30th June, with nominal drizzle. After nearly

three months rainless period the monsoon rainfall recorded on that day was 0.04 inch only. It was almost identical with the rains occurred in the past few days. For hours there were bright sun and blue sky. On Saturday a monsoonish sky emphasized its advance into the Gangetic West Bengal. On that day the sky was overcast with clouds. An almost similar weather condition was experienced on Monday, the 24th June and a few showers recorded 6.6 m.m. of rainfall only. But the maximum temperature showed one degree centigrade above normal.

There was another heavy shower on Wednesday early morning causing inconvenience to the city's traffic.

## THE WORLD OF BOOKS

**THE SECOND PLAN**—An Illustrated Summary of India's Second Five-Year Plan prepared by Standard-Vacuum Oil Company, P. O. Box No. 355, Bombay-1.

Compiled as a blue-print of India's Second Five-Year Plan the booklet has included a vivid visual perspective of the Plan which yet to be studied. It has translated into easy imagination the intricate facts and figures embedded in the Second Plan. The pictographs of the different aspects of industrial and agricultural mechanism of the Second Plan have been rightly portrayed with light and shade accompaniments. At the same time these are refreshing and soothing to the eyes. We congratulate the authorities of the Company for bringing out such an illustrative copy.

**THE GREAT AMERICAN HERITAGE, THE STORY OF THE FIVE EISENHOWER BROTHERS**—By Bela Kornitzer, An American Reporter Book Supplement. The United States Information Agency.

The booklet gives us a story of American brothers who have risen to eminence in the public eye and the position of one of them to-day is as high as the President of the U. S. A., Dwight D. Eisenhower, the third of the five living brothers. With a clear social background of America the Eisenhowers stand out true, interesting and inspiring figures to the rest of the world. The brothers are Arthur, later on a banker, Edgar a lawyer the third Dwight, the present President, Ray, who died later on, Earl an Engineer and Milton the educator. All these life stories give an interesting study to all. The book will be welcomed by all also.

**THE INDIAN INSTITUTE OF WORLD CULTURE**—BANGALORE—REPORT FOR 1956—

Established with an object to maintain a Centre affording opportunities for cultural, intellectual and ethical developments among the human society, the Institute has added one year to its life. During the year 1956 the Institute's activities stretched widely not only through meetings and discussions but also by establishing a cultural link throughout the world in the way of opening its doors of Membership to all. It has thus been able to enlist Members from 14 other countries besides Asian ones.

The year contains also one of the happiest chapters in the history of the Institution due to the fact that it has established its branch in Bombay which again blossomed with its own activities. The achievements of London Branch, established earlier, was most praiseworthy.

# CORPORATION NOTICES

## To All Registered Petty Improvement Contractors

### District No. IV Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Monday, the 8th July, 1957, up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

43. Repairs to footpath of Chowringhee Terrace—Rs. 2,105/-, dated 24th June, 1957 (2 months).

CALCUITA :: BOMBAY :: KANPUR

## MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law,  
Supt., S. S. Hogg Market.
